
Every pound of feathers which we sell is cured by our latest improved process, and upon examination they will be found to bear witness to the fact that for price their quality leads.

We offer the highest standard goods, and on this class we invite a close comparison of our prices with those of any other concern. We know we are in a position to save you at least 25 per cent on this class of goods, and if you favor us with your order it will mean the sale of many more in your neighborhood.

We ship these feathers in sacks and in any quantity desired. In ordering, be sure to state grade and quantity. Remember, everything is guaranteed perfectly satisfactory or your money will be refunded.

Weight, each	2 pounds	2¼ pounds	2½ pounds
Price, each	$1.44	$1.63	$1.81

IT HAS BEEN PROPERLY SAID

that we spend one-third of our lives in bed. Why should we not make this part of our life as comfortable as we can? Nothing adds to this comfort as much as a good bed, and a good bed means a good mattress.

WE GUARANTEE EVERY MATTRESS

to be perfect and exactly as represented, and if they are not found so, you are at liberty to return them at our expense and we will cheerfully return your money. This list includes the cheap and medium grades, carefully selected as to price and value. We recommend the combination mattress as the very best at a medium price. You will note that our prices are extremely low.

ELASTIC FELT MATTRESSES

have become very popular during recent years and have been widely advertised by various concerns as the best material for mattresses. This has been proven true; but on account of the great expense to which these concerns have been put in advertising their product, they have been obliged to charge from $12.00 to $15.00 for a mattress. Why pay $15.00 when you can buy a strictly high grade guaranteed felt mattress from us for about one-half the price? There is no secret in the manufacture of felt; nothing about the construction of a felt mattress that we cannot give you as well as or better than any other manufacturer.

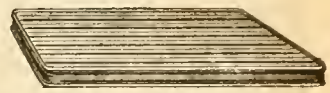
WHAT IS FELT?

Elastic felt is made from purely vegetable fibers, thoroughly cleansed and purified and selected for its resiliency. By our own special process the fibers are interlaced, or "felted," to form layers or sheets the full size of the mattress, these sheets having tensile strength sufficient to resist any strain that might be brought to bear upon them within the tick; they are then forced down by hand and closed in the tick. Therefore, it is impossible for a mattress to become lumpy or uneven in texture, as is the case with mattresses when material is prepared in any other way. This felt is non-absorbent, contains no animal matter, and never requires repacking or restuffing. We make two grades, the difference in cost being due to the relative cost of the fibers used. Our grade A is a pure white fabric, while our grade B is light brown in color; both grades are pure, clean and sanitary, sold on the same terms and absolute satisfaction guaranteed. You may use these mattresses for a whole month and if you then decide that they are not as represented and not worth the price, send them back to us and we will cheerfully refund your money.

ANY MATTRESS, except our Inner Stitched Mattress, MADE IN TWO PARTS AT 35c EXTRA.

Our Inner Stitched Mattresses.

EXCELSIOR, SEA MOSS AND HAIR MATTRESSES.



THE ABOVE ILLUSTRATIONS

will give you a very fair idea of an article representing a most advanced state in the science of mattress manufacture. By this process the material which forms the body or filling of the mattress is placed between two layers of elastic felt, pressed down to the proper form and in this way stitched very closely with strong twine. The block thus formed is then passed into the tick and secured in its place in the tick by stitches in the edge, which forms the finish known as the Imperial Edge. The advantages of this process will be at once apparent. The surface is smooth, level and without indentations; there are no tufts to pull out and around which dirt and vermin can collect; the ticking has not been perforated in many places by the large tufting needle; the resiliency or elasticity of the filling of this mattress is not impaired by these inner stitches. **A very desirable feature of this mattress is the fact that the material cannot separate and will not become lumpy, but retains its perfect shape at all times.**

WE LIST BELOW SEVERAL DIFFERENT GRADES

of Inner Stitched Mattresses, and in the case of excelsior, sea moss or hair mattresses, the filling is always covered with heavy layers of elastic felt. On our Inner Stitched mattresses we use none but the best grade of ticking and other materials, so that you get a strictly high grade bed.

We charge 75 cents extra when we are required to make these mattresses in two pieces, but the difference in price is but a trifle as compared to the advantage of having mattresses made in this way, as they prove more durable and are much easier to handle.

IN ORDERING MATTRESSES, BE CAREFUL TO STATE EXACT LENGTH AND WIDTH OF THE BED IT IS TO BE USED UPON, and also STATE IF IT IS TO BE MADE IN ONE OR TWO PIECES.

A 75-Cent Engraving Complete With Frame.

This beautiful engraving of horses' heads is a fine copy of a famous painting, and is most handsomely framed in a circular ebonized frame, so exact an imitation of ebony that one can scarcely detect the difference between it and the genuine. The frame is ornamented, a gilt pearl inside border, and with a tasty gilt monogram of horseshoe, whip and spur. In offering this striking picture and frame for 75 cents we consider it a rare bargain, one that our customers will not overlook. Diameter of picture, 10 inches; diameter of frame, 16 inches.

No. 1T3506 Price, complete.....75c

Yards of Flowers and Fruits.

Duplicate Adjustable Mirror.

Our Duplicate Adjustable Mirror is the handsomest of its kind made. It is one of the latest and best inventions on the market. It takes the place of the old style triplicate mirror, but is far superior in every respect. With the use of this mirror a lady can dress her hair and arrange her toilet without any assistance. When traveling the entire fixture can be easily taken down and stowed away in a trunk ready for use at any moment. No gentleman should be without it for shaving, for he can get reflection of light from any angle desired. The mirror is so constructed that when not in use it can be thrown back to a very compact space and be entirely out of the way. The illustration shows the mirror in two positions, one when in use, and one when not in use. Our duplicate adjustable mirror is oval in shape, has a solid metal frame throughout, and is handsome and ornamental, elegant in design and finish and made of the best material and workmanship. The mirror is French plate, bevel edge, size 11x14 inches. The entire frame and back are of metal, silver plated or copper oxidized plating with adjustments to match. The metal frame as we furnish it is far superior to any wood frame mirror on the market, and very much handsomer in appearance. It is suspended from a telescoping nickel arm adjustment, turns on ball joint bearings and can be raised or lowered, or turned in any position desired with the greatest ease. Each mirror comes packed in a box and retails regularly at $5.00. Shipping weight, 10 pounds.

No. 1T3782 Our special price for copper oxidized finish.....$3.90

No. 1T3783 Our special price for silver plated finish.....$3.95

Price, plain mirror.....$4.45
Price, bevel mirror.....5.95

GIVE CATALOGUE NUMBER IN FULL WHEN YOU WRITE YOUR ORDER

NEW DESIGNS IN HIGH GRADE COUCHES.

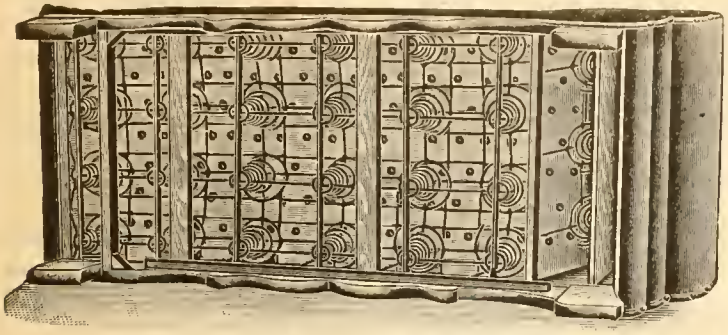
AT CUT PRICES, prices tower than ever before named by us or any other house, prices made possible by building these couches in our own factory in Chicago, or in a factory that is controlled by us, a factory located near the railroad tracks in the outer edge of Chicago, equipped with every modern machinery for the manufacturing of frames, for the sewing, tufting, upholstering and making of couches, we are able to offer for this year an **entirely new line of couches in all the very latest effects,** in all the latest designs of frames and shapes, offer all the new materials at prices heretofore unknown, prices that barely cover the cost of material and labor, with but our one small percentage of profit added.

THE FREIGHT will amount to very little as compared to what you save in price. Couches weigh from 75 to 100 pounds. Railroad companies carry them at one and one-half times first class rate. By referring to pages 7 to 10 you can get the rate to your nearest point, which is about the same as it will be to your town, and thus tell exactly what the freight will amount to.

BY OUR WONDERFULLY LOW PRICES we have built up the largest couch business in this country; we have become recognized by the furniture trade everywhere as headquarters for everything in couches, as makers of the lowest prices, leaders in prices with which

No other maker or dealer will attempt to compete.

OUR FACTORY is located in a suburb of Chicago and all couches are shipped direct, from which point customer pays freight. The freight rate will be about the same as from Chicago.



THIS ILLUSTRATION is a reproduction of a photograph of the under side of one of our couches made up with the indestructible steel spring construction. In the past we have made up all our couches in the regular manner by tying the springs with hemp, which has always been recognized as a superior method of making couches. This season we add the latest all steel construction which is used in the body of the couch, and in which nothing but steel rods, springs and fastenings are used.

We have made a special arrangement with our factory to furnish this steel spring construction, when desired, at actual factory cost. In couches that are 27 inches wide, made with all steel spring construction, twenty-one spiral springs are used in the body of couch, and for couches 30 inches wide, made with all steel spring construction, twenty-four springs are used. The number of springs used in the head varies according to the style of the couch. **The springs** are cone shaped, and are drawn from the best high carbon steel wire obtainable (made from No. 9 wire). **The grade of wire used,** alone is a guaranty of the lasting qualites of this construction. The springs on bottom side are intercoiled into steel band irons which run crosswise on bottom and are fastened to the top of side rail, and can never get loose, besides being reinforced with a steel wire running lengthwise on the bottom, onto which the springs are also intercoiled. The top of spring is tied, as shown in illustration, every spring securely fastened with steel wire, no twine, and the edge wire is clinched onto the springs in such a manner that it can never come off. **Lastly, as we cannot say enough in words about this construction, we will guarantee this spring construction for eighteen months from the date of purchase.** What more can you ask? The springs are the most essential part of the whole couch. Do not understand that it will wear only eighteen months because it is guaranteed for that length of time, but it has lifetime wearing qualities, and you will seldom find any firm that will guarantee the best kind of wearing articles for more than one year. Its neat appearance and sanitary features are specially desirable in a couch. Heavy duck canvas is used over the springs—no burlap.

Our All Steel Naper Tufting Button.

Figure 1

Figure 2

The kind we use. All our deep tufted couches are made with the button described below. These buttons will not pull off or pull through the cover.

Figure 1 shows the button and shank. The button itself is part of the shank, all one piece, made of a special annealed sheet steel. Figure 2 is a sheet steel, cup shaped, corrugated washer, with a slot in the center through which the shank is passed, as shown in figure 3; when inserted in this manner the shank is bent over at right angles, as shown in figure 4.

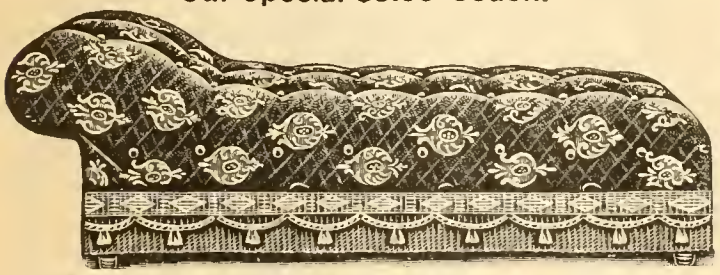
Figure 3

Figure 4

The Covering Materials.

The velours, leather, plushes and other covering materials are bought direct from the mills in carload lots, the frames are made in the factory by the use of automatic machinery, and all this is done to reduce the cost to the very minimum, and to the first cost we add our one small percentage of profit, making you prices, quality considered, against which no other house will attempt to compete, **prices about one-half the price charged by dealers generally.**

Our Special $3.95 Couch.



At $3.95 we offer this couch greatly reduced in price from last season and materially improved in quality and style, brought right up to date in its new design, as illustrated. While we recommend a better couch and urge you to select one of our higher grades, yet **for $3.95 we guarantee this couch far superior to anything ever attempted at anything like the price. This couch is made on a new hardwood frame.** The frame is well braced, has full spring seat and is upholstered in three-tone velours cloth. Do not compare this upholstering with any of the cheap one or two-tone velours on the market with which so many of the cheap couches on the market are covered. **It is ornamented with tasseled fringe.** The couch is 27 inches wide by 72 inches long. Weight, 70 pounds.

No. 1T4000 Price..... **$3.95**

Our New Mattress Tufted $4.90 Couch.

This illustration gives you an idea of the general appearance and style of the couch, but you must see it to appreciate it. It is good full size, 27 inches wide by 74 inches long, extra well upholstered throughout. **We use nothing but select tempered steel springs, and it is upholstered with full spring edges.** We use in the upholstering an extra quality of three-toned velours cloth in handsome new pattern effects, in the very latest shades, a cloth that will outwear three of the cheaper couches upholstered in cheap one and two-toned goods. The couch comes nicely shaped, nicely tufted as illustrated, deep fringed trimming.

At our special $4.90 price we furnish it complete, burlaped, castered and delivered on board the cars at the factory near Chicago. Weight, 75 pounds.

No. 1T4005 Our special price, upholstered in three-tone velours cloth..... **$4.90**

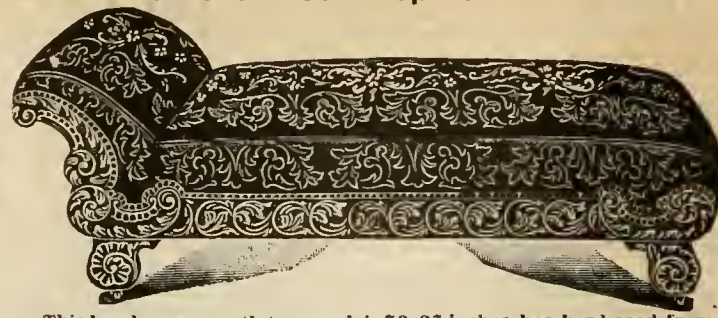
An Excellent Smooth Top Couch for $6.80.



This handsome smooth top couch is 73x27 inches, has hardwood frame throughout. Frame is nicely carved, with heavy carved legs, as shown in illustration, finished in golden oak or imitation mahogany; contains a set of twenty-four of the best oil tempered steel springs drawn from special high carbon wire, with a steel spring edge wire which makes the spring edge on both sides and ends especially strong; with a heavy duck canvas over the springs, double stuffed with fine tow, and cotton top; edges well stitched.

The entire inner construction of the couch can be seen from the bottom. If desired, we can furnish this couch with indestructible all steel spring construction as illustrated and described on page 617.

We especially recommend a plain top couch on account of its wearing qualities, as any plain top couch will outwear four ordinary tufted couches. Covered in extra high colored imported velours or French Gobelin tapestry. Shipping weight, 90 pounds.

No. 1T4107 Couch, same as illustrated and described above, but with indestructible all steel spring construction, upholstered in crushed plush.. **9.35**

This is our very latest style, made on a handsome mahogany finished hardwood or golden oak finish frame, as desired, in the very latest rococo design as illustrated, made with large massive scroll carved effect, heavy carved claw legs. The couch is extra large being 30 inches wide and 78 inches long, **one of the widest, longest and in every way the largest, strongest and most durable couches made.** It is finished with a double set of Rangely tempered steel springs, upholstered in the highest style of the art, all springs being specially well tied. The bottom is left open to plain view, showing the inner construction, which is a good sanitary feature as it permits circulation of air for ventilation and prevents breeding of disease germs and moths. If desired, we can furnish this couch with our indestructible all steel spring construction as illustrated and described on page 617. **The upholstering is an extra high grade of fine three-toned genuine Westoo velours cloth,** one of the highest grade fast color three-toned velours woven. **Comes in red, green or brown. (Be sure to state color wanted.)** It is extra deep button tufted; all tufts are fastened with our patent **Naper** steel tufting buttons, **making it impossible for the tufts to become loosened or the buttons to come off** as in the old style tufting. There are six rows of deep tufting, giving the couch a handsome, small, deep button tufted biscuit pattern effect, such as you will find only on the most expensive couches. The couch has full spring seat and spring edges, is very soft, is tufted with the highest grade of special upholstering materials. It is made extra strong throughout, and the springs are the highest grade, and rest on slats, firmly placed. It is interlined with heavy canvas to insure durability, and **is a couch that will outwear a half dozen of the many cheap couches on the market.** Shipping weight, 90 pounds.

Our $7.80 Heavily Carved Couch.

This couch is in the new rococo pattern, very heavy rococo, carved frame, massive claw feet. It is richly carved, decorated and finished. The frame is new for this season. Comes in golden oak or rich mahogany finish, as desired. Is upholstered in the highest style of the art; only the finest materials are used; the finest tempered steel springs; full spring edges all around. **Has eight rows of deep hand made tufts.** If desired we furnish this couch with our indestructible all steel spring construction as illustrated and described on page 617. It is 30 inches wide and 78 inches long, one of the largest couches made.

Our $11.25 Couch is a Beauty.

At $11.25 certainly this new design is a marvel of beauty. This illustration, engraved from a photograph, will give you some idea of the appearance of the couch. The frame is a very heavy, handsomely carved and decorated rococo hardwood frame with three turned pillar effect in the head, very fancy turned legs. Comes in either birch, rich mahogany, or golden oak finish, as desired. The couch is extra large, being 30 inches wide and 80 inches long, one of the largest, roomiest and most comfortable couches made. Has 8 rows of hand made deep tufts of tow with cotton filling. It is very soft and flexible, has spring edges all around, is upholstered in the highest style of the art. Nothing but the very best materials are used, the highest grade tempered springs, the very best of everything. **There is no stronger, more substantial, handsomer or more comfortable couch made at any price.** The coverings include all the very latest effects for this season, all the handsomest designs and colors. Shipping weight, 100 pounds.

This Handsome Wardrobe Couch, $7.45

The illustration shows our large and handsome Wardrobe Couch. Size, 80x30 inches; size of the box being 72x28x10 inches high. The wardrobe is very neatly finished and makes a splendid receptacle for wearing apparel. The frame is of hard pine substantially built throughout and has a full spring seat. Contains a full set of the best steel springs, drawn from special high carbon wire. The filling is of an extra quality of fine tow with cotton top. There is nothing in its appearance when closed that would indicate that it contains a wardrobe, so that it may be used for the parlor as well as its being a handy receptacle for storing away valuables. Made exactly like illustration with a deep fringe. It has everlasting wearing qualities and no household is complete without it. Is upholstered in creton, denim or French Gobelin tapestry. Shipping weight, 150 pounds.

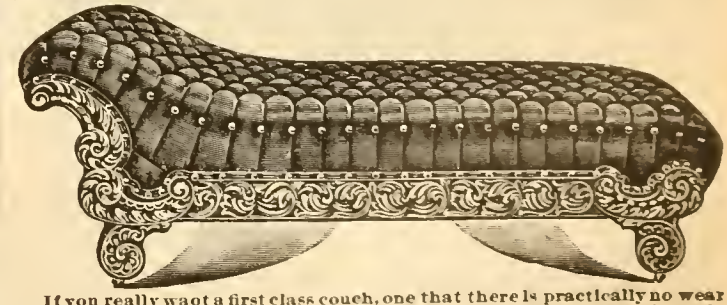
SPECIAL VALUES IN LEATHER COUCHES.

WE DIRECT YOUR ATTENTION especially to our line of high grade leather and imitation leather couches in the very latest designs for this season, couches from one of the best makers in this country, and at prices heretofore unknown.

EVERY COUCH IS SENT OUT UNDER OUR BINDING GUARANTEE.

We guarantee it to reach you in the same perfect condition it leaves us, and to prove entirely satisfactory to you, otherwise you can return it to us at our expense of freight charges both ways and we will immediately return your money. The leather couches weigh, packed for shipment, from 100 to 125 pounds, and you will find the freight will amount to nothing as compared with what you will save in price.



If you really want a first class couch, one that there is practically no wear out to, we especially recommend that you select the leather covered couch. At $13.45 covered with a special grade of imitation leather, and for $18.90 covered in genuine leather, we furnish this handsome couch, as illustrated, the equal of couches that retail generally at nearly double the price. **This couch is made with a very handsome hardwood frame of the latest rococo design, as illustrated, with large carved feet; the frame is finished in golden oak or imitation mahogany.** It comes upholstered either in genuine leather or best imitation leather as desired, trimmed with leather gimp, and is stuffed with the highest grade of fine tow and hair top. In this couch we use only our indestructible all steel spring construction, as illustrated and described on page 617. The couch is 76 inches long, 28 inches wide, and weighs 100 pounds, and we are sure at our special $18.90 price there is no genuine leather couch made that will approach it either in style, finish or durability.

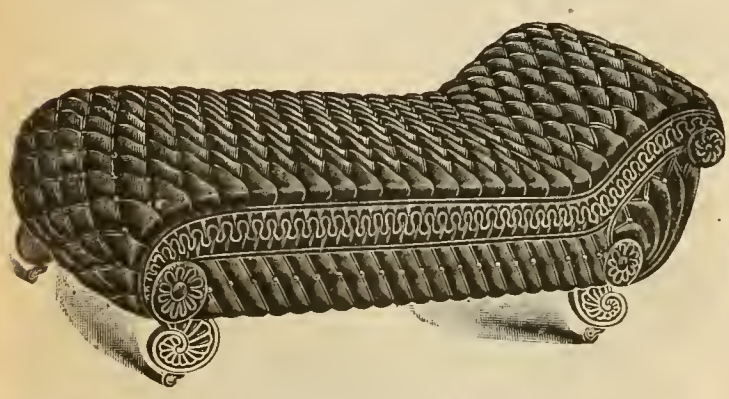
$26.50 Buys Our Highest Grade Extra Large Genuine Machine Buffed Leather Overstuffed Couch.



At $26.50 upholstered in genuine leather, $19.95 upholstered in the highest grade imitation leather, we offer this our highest grade couch in an entirely new style for this season, as one of the handsomest couches on the market, the equal of any couch you can buy from any dealer at about double the price.

This handsome, big overstuffed couch is covered in an extra high grade, full finished machine buffed leather, one of the largest couches made, being 80 inches long and 30 inches wide. The frame is made of selected hardwood throughout with very heavy carved legs. We furnish the frame either in golden oak or imitation mahogany as desired. The upholstering is done in the best possible manner. Made with neat, small, deep diamond tufts; hand tufted throughout; made with the celebrated Naper Steel Tufting Buttons that will not pull off. As will be seen from the illustration, it is leather finished on the sides. Nothing handsomer has been produced in a leather couch. Made with our patent guaranteed all steel spring construction as described on page 617. Finished without any tying of twine. The springs are covered with a heavy duck canvas. Only a selected grade of hair is used in the upholstering. **It is a couch that must be seen, examined and compared with other couches that sell at about double the price, to appreciate the value given. Shipping weight, 110 pounds.**

$7.98 Buys Our Handsome Overstuffed Button Tufted Full Sized Combination Couch and Full Sized Full Spring Bed.

$7.98 we are sure is a price heretofore unknown for an overstuffed, button tufted, combination full sized bed and couch. This is an entirely new design for this season, one of the handsomest combination couches on the market, extra well made from carefully selected material. **It is a couch which must be seen and examined to appreciate the value we are giving.** The couch is extra large and when open for a bed makes a full sized, full spring bed, being 72 inches long and 50 inches wide. Closed you have one of the handsomest couches shown by any maker. It is mounted on a beautifully finished, handsomely decorated hardwood frame of a new design **which we furnish in either golden oak or imitation mahogany, as desired.** The upholstering material is the very latest for this season, full spring throughout. It has deep, full button biscuit tufts, with six rows of small tufts, double faced throughout. The bed has an extra quality of woven wire springs, supported by special steel coil springs on both sides of the bed; good quality of ticking is used and an extra quality of tow filling.

At our special price of $7.98 the combination couch and bed comes carefully packed in burlap, complete with casters, delivered on board cars at factory. The couch weighs 125 pounds, and is taken by railroad companies at one and one-half times first class rate, and the first class rate to a point nearest you, as shown on pages 7 to 10, will enable you to figure almost to a penny what the freight will amount to, and you will find it will be next to nothing as compared to what you will save in price.

Illustration showing couch when bolster and cover are used.

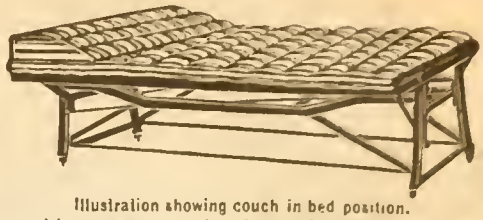

Illustration showing couch in bed position.

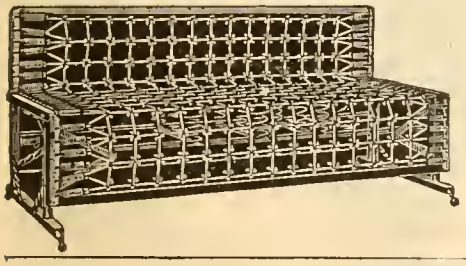
In the two illustrations we show our Folding Bed Couch, either used as a couch when the sides are dropped and covered with a couch cover, or when opened to be used as a very comfortable large size bed. **This couch is made of all steel,** making it practically vermin proof, and at the same time strong and durable. It is so constructed that the sides may be lowered, and covered with a mattress and couch cover, it makes a very handsome and comfortable couch, just as shown in the illustration. The sides may be raised with ease and the folded couch becomes a very comfortable and extra large size bed. It is convenient, takes up little room, is comfortable and attractive. It is entirely free from vermin, nothing to get out of order, and one of the most desirable pieces of furniture ever offered by us. The size of the couch when the sides are dropped down is **74 inches long by 26 inches wide.** The size of the double bed, when opened out to its full extent, is **74 inches long by 50 inches wide.** Weight, 70 pounds.

We furnish this couch either with or without mattress, as shown in the illustration. We do not furnish the couch cover. By referring to our Dry Goods Department you will find a very complete line of draperies which can be furnished at a very small price.

No. 1T4344 Steel Constructed Folding Bed Couch, without mattress. Price, each..... $5.45
No. 1T4345 Steel Constructed Folding Bed Couch, with mattress. Price, each..... 6.95
Bolster extra, price each, $1.50.



Davenport Bed Couch, $7.45

No. 1T4348 This Davenport Bed Couch is 6 feet long and 21 inches wide, with the added feature of one wing or side forming a divan back. This wing when raised is firmly and automatically bolted in place and makes a perfectly rigid back. This is a new and original feature. To raise or lower the back pull slightly on the ring at end of couch and then raise or lower as desired. **It will last a lifetime and is never out of repair, and will hold its shape and original form.** It will not sag, as soft edge couches do, after being used a short time. There are no locks, ropes, cords or string attachments used upon it. Its durability, appearance and simplicity are some of its strong features. It is the only piece of furniture manufactured entirely of steel that can be automatically, instantly and easily converted into four distinct useful pieces of furniture, viz.: Davenport, Single Bed, Double Bed and Couch. Shipping weight, 60 pounds.
Our special price..... $7.45

BED LOUNGES.

AS A GUARANTEE THAT WE CAN FURNISH YOU A BED LOUNGE OR COMBINATION BED COUCH for very much less money than you can get elsewhere, if you send us your order and money we will send you the lounge or couch by freight, with the understanding that if not found entirely satisfactory when received it can be returned to us at our expense of freight charges both ways and we will return your money.

THE BED LOUNGE OR BED COUCH IS ONE OF THE MOST CONVENIENT PIECES OF FURNITURE you can have in your home. Closed, it makes a handsome piece of furniture, a beautiful lounge or couch. Open, you have a large roomy, comfortable, full spring bed. In small houses or where room is limited and where it is desirable at times to make a bed up in a living room or parlor, this bed lounge or bed couch serves to make the room both a living room and a sleeping room. During the day you have a handsome, comfortable piece of furniture, a lounge or couch. At night you have a large, full width, full spring bed.

AT OUR SPECIAL PRICES, PRICES THAT BARELY COVER THE COST OF MATERIAL AND LABOR, with but our one small percentage of profit added, we deliver these couches, carefully packed and wrapped in burlap, on board cars at the factory in a suburb of Chicago, about twenty miles from the city, from which point you must pay the freight.

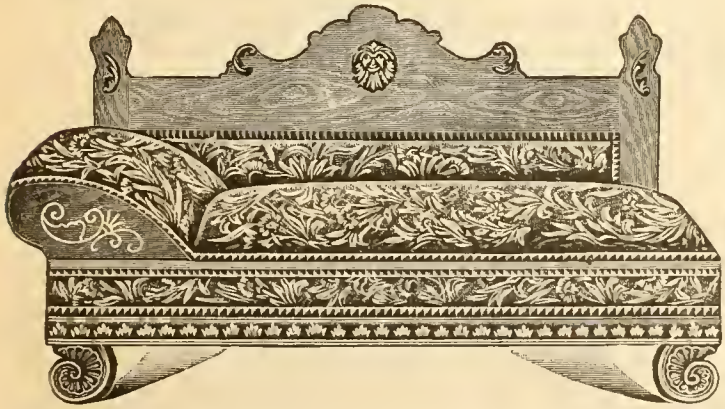
OUR NEW LINE of Bed Lounges or Combination Couches is the very latest style for this season. They are from one of the best makers in this country. They are made for us under contract and at our special prices barely cover cost of material and labor with but our one small percentage of profit added.

WE ASK THAT YOU DO NOT CLASS OUR BED LOUNGES OR COUCHES with any of the many cheap lines on the market. Our couches are made with extra heavy, strong, reinforced and handsomely finished hardwood frames. Only

HIGH GRADE COIL SPRINGS

are used, with extra quality of covering. The factory employs only skilled mechanics and as a result we turn out a line of combination bed lounges and couches at prices below any kind of competition, and such couches as can be found only in the best retail stores.

Our $7.45 Combination Bed Lounge.



AT $7.45 upholstered in a special high grade of colored velours cloth, we offer this combination lounge and full size bed in an entirely new style for this season. It is an extra large lounge, mounted on a heavy handsomely finished hardwood frame, the equal of bed lounges that retail generally at double the price. **This lounge is 72 inches long, by 46 inches wide when open. Closed it is 23 inches wide by 72 inches long. The frame is extra heavy, made of selected hardwood. We will furnish it in golden oak or imitation mahogany as desired.** It has extra quality of woven wire springs, and the bed is supported by steel coiled springs on both sides and center of bed, making a very soft and comfortable bed. It has a good quality of cotton top mattress, good ticking. This couch weighs, crated for shipment, about 150 pounds. It is carried by railroad companies at one and one-half times first class rate. The freight will average for 500 miles about $1.25. **For exact freight rate to your place see pages 7 to 10.** The freight to the point nearest you is almost exactly the same as to your town.

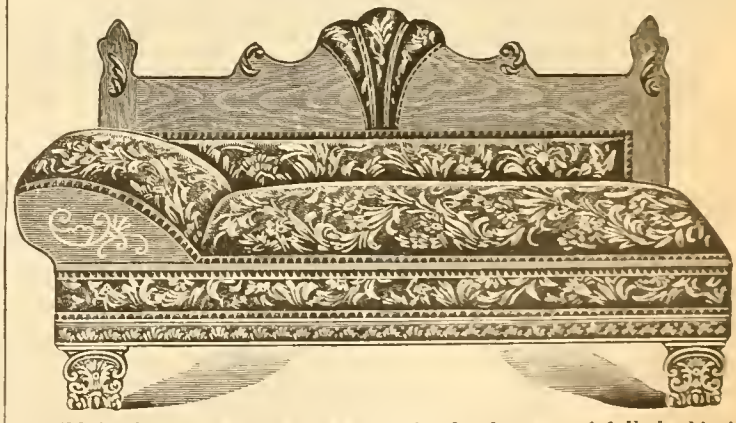
Our $7.75 Overstuffed Combination Lounge and Bed.



This is a handsome, extra large combination lounge and full sized bed in the very latest style for this season. The bed closed, is 24 inches wide by 72 inches long; open, it is 46 inches wide by 72 inches long. It is mounted on a very strong, beautifully finished, handsomely carved and decorated hardwood frame, upholstered in the very latest style. Has a handsomely finished, carved and decorated back and will be furnished in golden oak or imitation mahogany as desired. It is made with a woven wire spring bed, supported by steel coiled springs on both sides and center. Has good quality of cotton top mattress, good ticking, and our special **$7.75** price barely covers the cost of material and labor with but our one small percentage of profit added. **Crated for shipment, it weighs 150 pounds,** and is accepted by nearly all railroad companies at one and one-half times first class freight rate. By referring to pages 7 to 10 you can get the rate for 100 pounds to a point nearest your town, which will be almost exactly the same as to your town.

Our Big, Heavy, Full Upholstered, Handsome Rococo Design, Combination Full Sized Bed and Handsome Lounge for $8.95.

AT $8.95 TO $10.90, according to grade of covering, we will furnish this as one of the handsomest combination lounges and beds we make. This lounge is mounted on a very handsome, extra heavy, beautifully finished, nicely carved and decorated hardwood frame, which comes in either solid golden oak or imitation mahogany as desired. Full spring throughout, beautifully finished, upholstered side and upholstered back, and the new rococo design back is handsomely shaped, with a beautiful hardwood frame. Woven wire spring bed, supported by steel spiral springs on both sides of bed. Cotton top mattress, good ticking. Our special price barely covers the cost of material and labor with but our one small percentage of profit added. The lounge weighs, packed for shipment, about 150 pounds, and is accepted by the railroad companies generally at one and one-half times first class freight rate. On pages 7 to 11 you will find the freight rate per 100 pounds to a point nearest your town, which is about the same as to your station, and you can tell almost to a penny what the freight will amount to, and you will find it will amount to next to nothing as compared to what you will save in price.

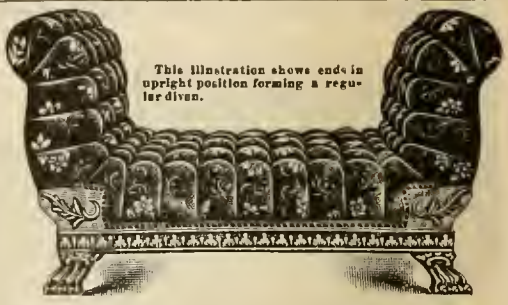
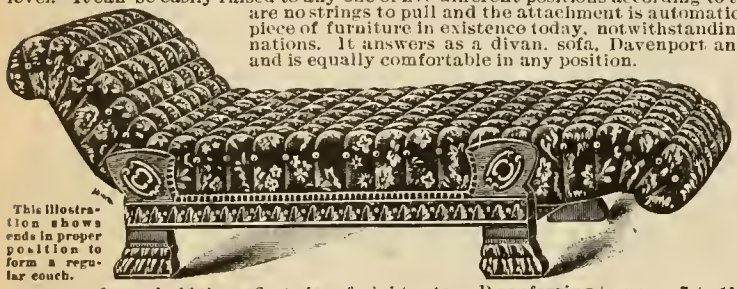
OUR ROMAN DIVAN COUCH.

THIS BEAUTIFUL DIVAN COUCH is one of the most attractive, and at the same time serevicable pieces of furniture ever manufactured. It is so constructed that both ends can he adjusted to any angle, making a beautiful and comfortable couch as well as sofa. The divan couch is illustrated showing it both open and closed, with and without back. The couch without back is reversible and can be used either side facing the front. The frame is hardwood, finished in golden oak or imitation mahogany. The couch without back measures 40 inches between the arms when the ends are raised, and 90 inches long when they are down; is 30 inches wide, has eight rows deep tufts put in with the celebrated Naper tufting button, which cannot pull out. It contains 38 of the best steel springs drawn from a special high carbon clock spring, steel wire. It is upholstered in the highest style of the art; a heavy duck canvas is used over the springs and the filling is of fine tow covered with cotton. The attachment is very simple and is operated as follows: To place either head straight, raise to the highest point and a little beyond that and the head will drop down level. It can be easily raised to any one of five different positions according to the angle desired. There are no strings to pull and the attachment is automatic. There is not a prettier piece of furniture in existence today, notwithstanding it has so many combinations. It answers as a divan, sofa, Davenport and adjustable bed couch, and is equally comfortable in any position.



This illustration shows ends in upright position forming a regular divan.



This illustration shows ends in proper position to form a regular couch.

WE CAN FURNISH this Divan Couch in velours, imported French Gobelin tapestry or crushed plush, at our special prices, prices that barely cover the cost of material and labor with but our one small percentage of profit added. We deliver these couches carefully packed and wrapped in burlap, on board cars at our factory within twenty miles of Chicago, from which point you must pay the freight, and which will be but a small item compared to the great value which we are offering you.

THE COUCHES weigh, crated for shipment, about 150 pounds, and are accepted by nearly all railroad companies at one and one-half times first class freight rate. By referring to pages 7 to 11 you can get the rate for 100 pounds, which will enable you to readily estimate what the freight charges will be to your nearest railroad station.

No. 1T5412 Price for Divan Couch with high back, upholstered in best quality crushed plush 15.50

Davenport Bed.

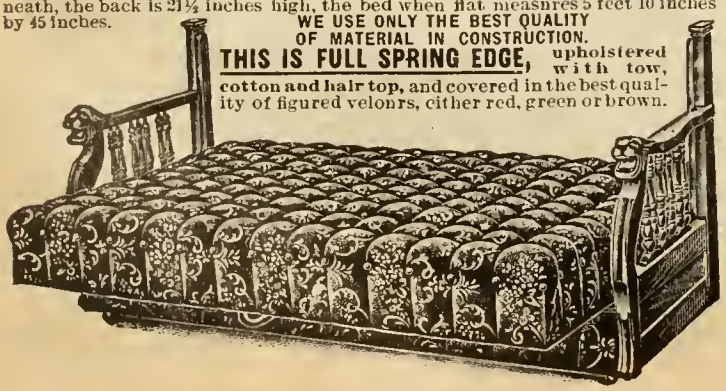
WE CALL PARTICULAR ATTENTION TO OUR NEW

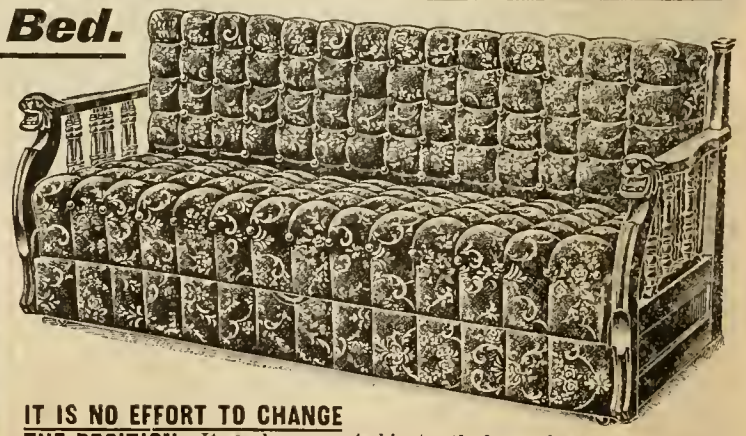
DAVENPORTS HAVE BECOME VERY POPULAR BUT ARE A LUXURY.

OUR DAVENPORT BEDS are just as luxuriant, but at the same time are necessities in a great many homes and are a useful as well as a handsome piece of furniture in every home. We show this in two positions, as a Davenport and as a bed. The frame is made in quartered oak or mahogany finish, hand carved and highly polished; the extreme length is 6 feet 4 inches, seat is 25 inches deep with a box for bedding underneath, the back is 21½ inches high, the bed when flat measures 5 feet 10 inches by 45 inches.

WE USE ONLY THE BEST QUALITY OF MATERIAL IN CONSTRUCTION.

THIS IS FULL SPRING EDGE, upholstered with tow, cotton and hair top, and covered in the best quality of figured velours, either red, green or brown.





IT IS NO EFFORT TO CHANGE THE POSITION. It can be converted instantly from a large roomy Davenport to a most comfortable bed. Raising the seat unlocks the catch, and it slides to the front as the back reclines, so it is not necessary to move it from the wall either in lowering or raising it. We guarantee this in every particular, the attachment will always work, will not get out of order, and the bed cannot collapse nor tip over with any weight. When packed for shipment will weigh 150 pounds. Shipped direct from factory in Central New York from which point customer pays freight.

No. 1T5420 Our special price $28.95

OUR LINE OF MORRIS CHAIRS.

The Morris Chairs which we List this Season are Without Doubt the Best of the Kind Manufactured in this Country.

UNLIKE THE REGULAR MORRIS CHAIR, ours is superior in many ways which makes it especially desirable, and at the prices we quote no one should be without one of our chairs, as it is the most comfortable piece of furniture made.

OUR MORRIS CHAIRS are all equipped with the automatic attachment which takes the place of the old fashioned rod. It is so constructed that the back of the chair can be raised or lowered into many different positions without any effort; in fact, is so easy of action a child can operate it. In the old fashioned Morris chair the rod frequently would slip from its place, causing the back to fall to the floor, which cannot occur in our chairs. With our patent hinge, the chair can be easily set up without the aid of tools.

OUR GUARANTEE We guarantee that every attachment will always operate easily and will not break. Any chair not proving exactly as represented, under this guarantee, will be repaired or replaced free of charge at our expense. In quality and construction our chairs are all of the very finest, being made of thoroughly air and kiln-dried lumber. They are exceptionally well constructed in every detail, being carefully put together and well braced with corner blocks, so that with ordinary care they should last a lifetime. The finish of every chair is of the best quality golden oak, being beautifully finished and highly polished.

EVERY CHAIR is made with spring cushions, which have proven to be more comfortable and more lasting than the old fashioned reversible cushions. All seat cushions are 21x21 inches and are made with five springs and full metal supports; all back cushions are 21x30 inches. The backs are all made with six springs with metal supports which are fastened to the back frame, making it impossible for the cushions to sag or fall out of position. All chairs are upholstered with a high grade quality of velours in green, red or brown colorings and have tow filling. The cushions can be easily removed and cleaned.

WE CAN ALSO FURNISH these chairs, if so desired, in solid birch, finished in imitation mahogany, but the finish is so superior to the ordinary imitation mahogany that any one desiring a mahogany finished chair will be more than pleased with what we can furnish.

OUR ADJUSTABLE FOOT REST. Every chair is so constructed that our foot rest can be attached without any effort. When not in use it folds back underneath the seat (entirely out of sight), and can be adjusted in an instant without the occupant leaving the chair. It is well built and cannot get out of order. We illustrate our chair No. 1T5604 with foot rest, but can furnish the foot rest with any chair if so desired. We recommend that every purchaser secure a foot rest with the chair, as the cost of the foot rest is practically the actual cost at the factory, and is worth double what we ask for it. No Morris chair is really complete without it.

$4.70

This chair is made of solid oak with rubbed finish, is fitted with automatic attachment, spring seat and back as described above. This chair is upholstered in high grade, three-color velours in the latest design of green, red and brown colorings. Shipping weight, 50 pounds.

No. 1T5613 Price, in birch, with mahogany finish..... $6.40
Foot rest attachment, extra, 85 cents.

$6.90

This chair in entirely different from any of the other chairs, having handsome side panels, decorated with raised carvings in place of the spindle. It also has beautifully shaped front legs with carved feet. It is made of quartered oak throughout, and in general design and appearance is one of the neatest chairs we can furnish. The finish is of the best quality, rubbed and highly polished. Every chair is made with our automatic attachment, spring seat and back cushions upholstered in high grade velours, as fully described above. Shipping weight, 50 pounds.

No. 1T5616 Price, in quartered oak..... $6.95
No. 1T5617 Price, in birch, mahogany finish 6.90
Foot rest attachment, extra, 85 cents.

$7.60

From the illustration of this chair one can hardly appreciate the exceptional value which we are offering. This chair is so substantially built and massive in appearance, that it must be seen to be fully appreciated. It is made of quartered oak throughout. The front legs and arms are made of especially heavy stock, hand sawed and hand carved, and for anyone desiring a thoroughly high class, reliable piece of furniture, this chair is just the thing. We furnish this chair with our automatic attachment, full spring seat and back cushions upholstered in the very best quality velours. as described above. Shipping weight, 50 pounds.

No. 1T5620 Our price, in quartered oak... $7.65
No. 1T5621 Price, in birch, mahogany finish 7.60
Foot rest attachment, extra, 85 cents.

$9.30

This chair is made entirely of quartered oak, the legs are made of 4-inch stock, beautifully carved. The arm rails are of especially handsome design to correspond with the general construction of the chair. This chair will outwear three of the ordinary Morris chairs. It is made with our patent automatic attachment, and spring seat and back cushions upholstered in the very best quality of high colored velours. Every piece and part entering into this chair is guaranteed absolutely of the best quality, and anyone desiring a Morris chair would make no mistake is ordering this number. Shipping weight, 60 pounds.

No. 1T5624 Price, in quartered oak..... $9.35
No. 1T5625 Price, in birch, mahogany finish..... $9.30
Foot rest attachment, extra, 85 cents.

$12.10

The handsomest and most elaborate Morris Chair which we furnish. It is made entirely of quartered oak, and is ornamented with magnificent hand carved heads, claw feet and wings and front posts. Has handsome shaped arms, made to correspond with the balance of the chair. The entire chair is of very much heavier material throughout than any of the other chairs in our line with the exception of our No. 1T5624. Such a chair as this, made and finished as we guarantee it to be, could not be sold at retail by any other dealer at anywhere near the price we ask. It is made with our automatic attachment and has spring seat and back upholstered in the very highest grade and latest design of colored velours. Every chair is guaranteed to be strictly high class and highly polished in the best possible manner. There is nothing better made. Shipping weight, 60 lbs.

No. 1T5628 Price, in quartered oak $12.15
No. 1T5629 Price, in birch, mahogany finish..... $12.10
Foot rest attachment, extra, 85 cents.

Under this number we illustrate what is known as a Morris rocker, a chair built exactly in the same style as our regular Morris chair line described above, but mounted on rockers. The rocking chair is made with our automatic attachment, has spring cushion seat and back, but the back is curved in shape to make it more comfortable than it would be were it straight. This chair is upholstered in the best quality high colored velours. We can recommend our Morris rocker to anyone desiring a chair of this style, and at the price we ask it will prove a most profitable investment. Shipping weight, 50 pounds.

No. 1T5638 Price, in oak..... $5.25
No. 1T5639 Price, in mahogany finish..... 5.20

This Morris Chair Rocker is made of solid quartersawed oak, has handsome shaped front rail and exceptionally strong legs. The legs are made of heavy material, giving the chair a substantial and massive appearance. The seat and back are of the steel spring construction, upholstered with the best quality of high colored velours in green red and brown. The back is curved instead of being straight, thereby making it very much more comfortable. Shipping weight, 50 pounds.

Department of
Upholstered Furniture.

THIS DEPARTMENT has been greatly enlarged and improved, and following the very latest styles in upholstery, in frame work, covering and making, we present this new line of goods at prices based on the actual cost to produce, the cost of material and labor, with but our one small percentage of profit added, prices from which practically all advertising expense has been deducted, all made possible by getting paid in advance 50 cents each for our large catalogues, and as a result you can buy from us anything in upholstered furniture, couches, chairs or parlor suites, at such prices as can be had from no other house, greater value than any dealer can obtain, even if bought in car load lots.

OUR GUARANTEE AND REFUND OFFER. We will accept your order and money with the understanding that when you receive the goods, if they do not reach you in the same perfect condition they leave us, or if for any reason whatever you are not satisfied with your purchase, you are not convinced you have received from us such value as you could not possibly get elsewhere, you can return the goods to us at our expense of freight charges both ways and we will return your money.

OUR UPHOLSTERED FURNITURE is made for us under contract by one of the best makers. Only the most skilled mechanics are employed. We have followed the very latest styles, to give our customers the same style and grade of goods that are handled by the most fashionable city retail furniture dealers, where they are usually sold at fancy prices.

IN THE FRAME WORK, the coverings, the springs, the canvas and stuffing, we use a higher grade of goods, a better class of material than is used by the average maker of upholstery, and you will find an upholstered couch, chair, divan, or other piece you may buy of us will have a distinctiveness in style, workmanship and finish not found in the ordinary grade of goods. You will find our goods more lasting, more satisfactory, and at least one-third lower in price than anything furnished by others that will approach our goods in general appearance and style.

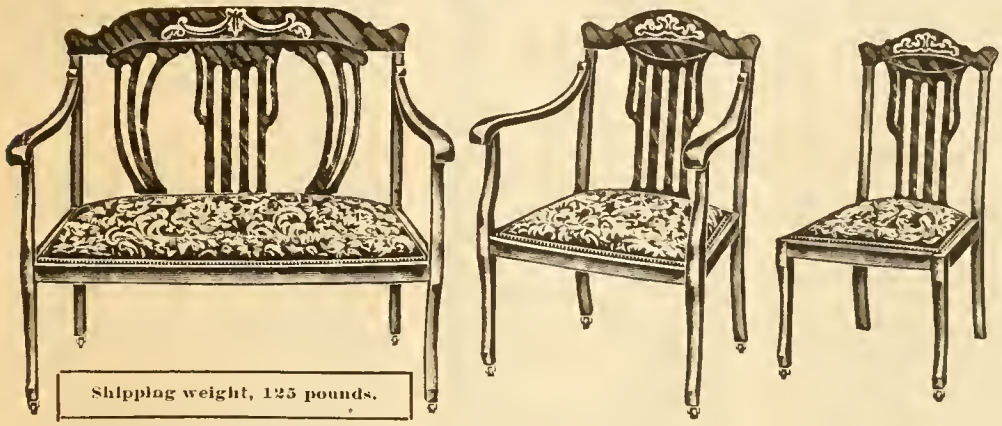
ABOUT THE FREIGHT. Most railroad companies accept upholstered furniture at one and one-half times first class freight rates. By referring to pages 7 to 10 you can get the first class freight rate for 100 pounds to a point near you. The rate to your place would be almost, if not exactly, the same, and as the weight is given under each description, you can calculate almost exactly what the freight will amount to on any piece or suite to your town. You will find it will amount to next to nothing as compared to what you will save in price.

UNDERSTAND, if we cannot furnish you anything you wish in upholstered furniture at a much lower price than you can possibly buy it elsewhere, we do not wish you to keep the goods. If you order a couch, chair or suite from us and after you receive it you do not find it is of far greater value than you can get elsewhere, very much cheaper than you can buy from any house that furnishes catalogues free, or for 5, 10 or 15 cents in postage, you can return the goods to us and we will immediately return your money together with any freight charges paid.

EVERY PARLOR SUITE IS MADE UP SPECIAL, and we therefore require from seven to ten days after the order is received before we can make shipment.

IN ORDERING, BE SURE TO STATE STYLE OF UPHOLSTERING AND IF SINGLE PIECE OR COMPLETE SUITE IS WANTED.

OUR NEW $9.95 THREE-PIECE PARLOR SUITE.



Shipping weight, 125 pounds.

AT $9.95 TO $12.45, according to covering, we offer this new design in a handsome three-piece parlor suite, consisting of....

DIVAN, ARM CHAIR AND PARLOR CHAIR.

In one of the newest, tastiest, neatest and altogether handsomest effects for this season. In offering this suite at

$9.95 TO $12.45

we assure our customers that they are buying these goods at less than dealers can buy in any quantity. They come from our own factory in this city, and you own them at just what they cost to build, the cost of material and labor, with but our one small percentage of profit added.

OUR NEW THREE-PIECE PARLOR SUITES consists of divan, arm chair and parlor chair. The pattern is very neat and attractive, is handsomely ornamented, is made of the finest birch with a rich mahogany finish. Spring seats, containing full set of high carbon steel springs supported by steel wire.

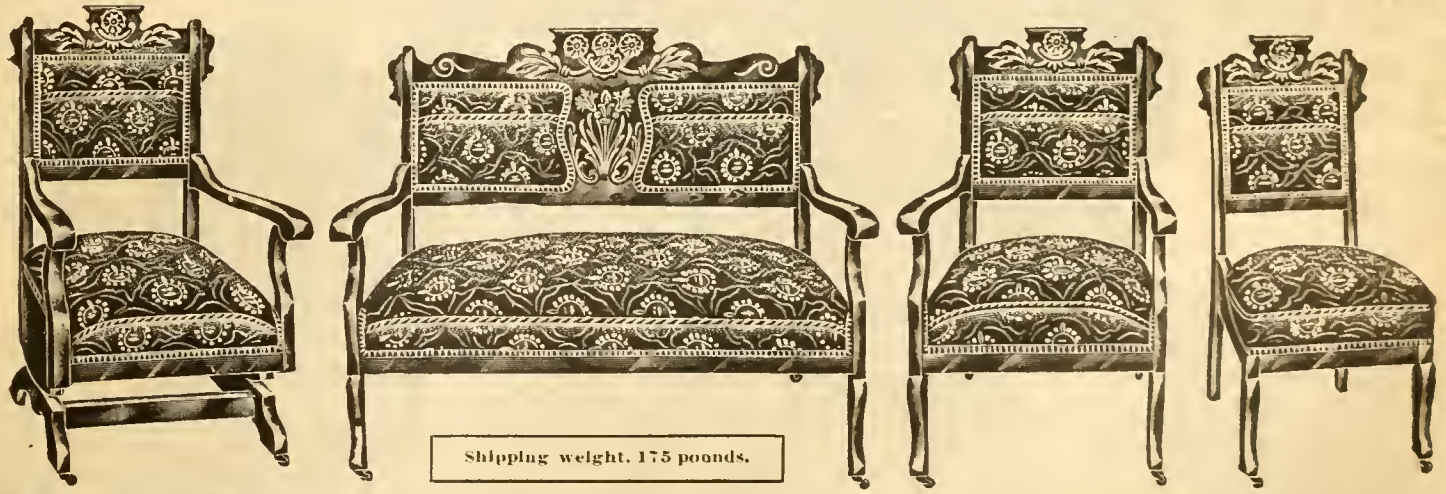
OUR NEW SPECIAL $13.45 FIVE-PIECE FRAMED UPHOLSTERED PARLOR SUITE.



Shipping weight, 175 pounds.

THIS FIVE-PIECE SUITE consists of one large sofa, one large rocker, one large easy chair and two parlor chairs. The illustration shows the sofa, the rocker, the easy chair and one of the two parlor chairs.

THIS SUITE is made on new improved frames for this season, extra strong, hardwood frames, finished in imitation mahogany which wears fully as good as genuine mahogany wood. Each piece is upholstered in a different coloring, five different shades to harmonize perfectly. Each piece has spring seat, the springs being made of the best tempered steel. The finish is unusually high for a suite at so low a price.

OUR $14.95 5-PIECE UPHOLSTERED PARLOR SUITE. AT $14.95

we offer this parlor suite as the greatest value ever furnished in this line.

HOW WE CAN MAKE THIS HERETOFORE UNHEARD OF PRICE of $14.95 is fully explained under the heading of new designs in High Grade Couches. It is made in the one factory that makes nothing but these suites and our upholstered couches. Our $14.95 price is below the lowest wholesale price, much lower than dealers can buy in the largest quantities.

BELOW WE QUOTE PRICES ON **SINGLE PIECES,** making it possible to order a **THREE-PIECE, FOUR-PIECE OR SIX-PIECE SUITE.**

SHIPPED DIRECT FROM OUR FACTORY, NEAR CHICAGO, FROM WHICH POINT THE CUSTOMER PAYS THE FREIGHT.

$14.95

THESE SUITES are made on the very latest style hardwood frames. They are made extra strong, extra well braced throughout. Springs are the genuine Eagleton highest grade tempered steel springs. The suite is upholstered in the highest style of the art. **We use the genuine Welton three-tone velours upholstering cloth and imported French Gobelin tapestry in the very latest style patterns and colorings, at least three different shades in each suite, all harmonizing perfectly.** Each piece is fully overstuffed, handsomely decorated and finished, with deep fringe, fancy binding, and decorated with a handsome rococo brass gimp ornamentation.

PRICES FOR COMPLETE SUITE OF FIVE PIECES:

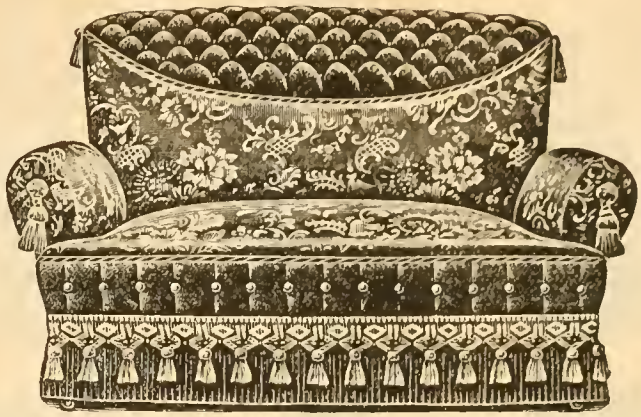
THIS SUITE CONSISTS OF THE FOLLOWING FIVE HANDSOME PIECES: One large sofa, 36 inches high, 23 inches wide and 52 inches long; one large rocker, 33 inches high and 28 inches wide; one large easy chair, 34 inches high and 28 inches wide; and two large parlor chairs, each 31 inches high and 20 inches wide. Weight, packed for shipment, 200 pounds.

OUR *$18.85* GENUINE TURKISH THREE OR FIVE-PIECE PARLOR SUITE.



THIS ELEGANT THREE-PIECE TURKISH PARLOR SUITE consists of one tete-a-tete, one gents' easy chair, and one parlor or reception chair, three pieces, and all these pieces are made in extra large size, with extra high backs and large comfortable seats, and are the very latest designs. The upholstering or covering of this suite is the latest design or pattern of imported goods; each piece is covered with a different color; the suite is beautifully upholstered with tufted plush bands on upper backs, and trimmed with a heavy worsted fringe. The suite is made with the best springs and spring edges, and every piece is made with spring back. This is, without doubt, one of the best parlor suites put on the market at the price we ask, and will be an ornament to any home.

YOU WOULD GET NOTHING FINER if you were to go to the best store in the city and pay double the price. **Shipping weight, 120 pounds.**

...OUR $19.70 SWELL SUITE...

IN OFFERING THIS HANDSOME FIVE-PIECE SUITE TO YOU AT $19.70

we believe that no such value has ever been offered before by us or any concern. The frames are substantially made of the **best selected birch with fine mahogany finish.** The mahogany finish on birch is very popular. **It gives the same general effect as genuine mahogany,** and is very much less expensive; at the same time the material is lasting and durable, and you have the same strength as you would have in genuine mahogany furniture. **The beautiful carving on the back** of each piece is very decorative in effect and adds greatly to the desirability of the furniture. **Each piece has extra soft spring seat** and spring edge supported with steel corrugated wires in place where all others use the troublesome webbing which sags and tears and the springs go down. This steel bottom prevents all this trouble; we use heavy duck cloth over springs. Bottom is left open to air and ventilation and leaves no chance for moths. Price upholstered in the various grades quoted below. The back panels are of artistic design and the upper bands are tufted in silk plush, making a very effective finish. **The suite consists of a large sofa, 48 inches wide; large rocker, 24 inches wide; large easy chair, 24 inches wide; two large parlor chairs, 19½ inches wide, one only being illustrated.**

PRICES FOR SINGLE PIECES:

THIS BEAUTIFUL 5-PIECE $30.00 PARLOR SUITE FOR $15.45

OUR PRICE OF $15.45 on this suite represents little or nothing beyond the actual cost of material and labor in the making of this suite, with but a small profit added. In offering this suite to our customers at $15.45 we have cut off the profits of the middlemen and in shipping direct from the factory, give you the benefit of direct factory prices. We put you in a position to buy direct from the factory, in the same position that the dealer is in who buys from the jobbers before selling to you. The saving of these various profits is for your benefit.

THE FRAME is made of the very best hardwood, handsomely decorated with hand carvings, beautifully finished and polished, and in every point of appearance attention has been given that no detail shall be overlooked whereby the suite shall be less finished and artistic than it should be.

EACH PIECE of this beautiful parlor suite has spring edge and the seats are fitted with the very best steel springs, supported by steel corrugated wires in place of webbing, which sags and tears so easily and leaves the springs down. The bottom is open to plain view and ventilation. The quality of the springs has been looked to, insuring lasting quality. In buying many of the cheap suites sold by retail dealers, the outside appearance will very frequently catch the eye and the entire making of the suite has been handled with a view to giving everything to appearance and little of anything to durability. In every detail of construction, in every piece and part that enters into this beautiful parlor suite great care has been exercised that nothing but the best materials, best wood, best upholstering, best springs, etc., shall be used.

$15.45

IN THE MAKING ...OF... UPHOLSTERED FURNITURE

two classes of workmen are employed, those who work on cheap, shoddy furniture and those who work on the higher grade goods, and it is this latter class of workmen who have been employed on this special parlor suite. This insures to you not only a handsome appearance but durability, both of which features are essential in SECURING PARLOR FURNITURE OF WHICH YOU WILL BE PROUD.

—)●(—

THIS FIVE-PIECE SET . . .

consists of a large sofa, 48 inches long; one large rocker, 24 inches wide; one large easy chair, 24 inches wide; and two large parlor chairs. The extreme height of the sofa is 38 inches. Weight, packed for shipment, 175 pounds.

SAMPLES.

If you want samples send 5 cents and we will send you samples of three-tone velours, crushed plush, silk tapestry, brocatelle or silk damask. In sending for samples, be sure to state just what you want.

...$15.45 TO $24.45...

IT IS BEAUTIFUL IN DESIGN, a style that is exceedingly popular in large cities and found in the best retail stores. Neither time nor money has been spared in elaborating on the pattern to make it tasty and desirable in every respect.

ABOUT THE FREIGHT. THIS SUITE weighs, when packed for shipment, about 175 pounds. The freight will be very little when compared with what we save you on the price of the suite.

...UPHOLSTERING...

We upholster this suite with the materials as stated below. The upholstering is done by the highest class mechanics that can be employed and the stylish appearance of the suite is the result of not only a special quality of upholstering material, but of the expertness of the workmen employed.

PRICES FOR COMPLETE SUITE OF FIVE PIECES:

No. 1T6149	Upholstered in Colored Velours	$15.45
No. 1T6150	Upholstered in French Gobelin Tapestry	18.10

Reception Chair	1.70	2.05	2.15	2.50	2.60	2.75

GREATLY IMPROVED IN QUALITY.

A SPLENDID PARLOR SUITE FOR $16.25

GREATLY REDUCED IN PRICE.

The Suite Consists of Five Pieces, including one large sofa, one large rocker, one large easy chair and two large parlor chairs. We show in the illustration only one parlor chair, but both parlor chairs are the same.

WHILE THE UPHOLSTERING is a very excellent quality, the grade is determined only by the price. Each piece has easy spring seat with spring edge, the springs being made of the best Bessemer steel, supported by steel corrugated wires in place of webbing, which tears and sags so easily. We use a heavy duck canvas over springs in place of burlap. Bottom of each piece is left open to plain view, air and ventilation which prevents germs and moth breeding.

THE FRAMES OF ABOVE SUITE are made of birch, with mahogany finish, a finish which is very popular and gives the suite an appearance exactly the same as genuine mahogany. The dainty carving on the back of each piece adds greatly to the handsome appearance of the suite.

PRICES FOR COMPLETE SUITE OF FIVE PIECES:

OUR $17.60 FIVE-PIECE PARLOR SUITE.

WE HAVE HAD THIS BEAUTIFUL PARLOR SUITE ESPECIALLY DESIGNED FOR OUR TRADE, AND THE WORK OF THE ARTIST IS SUPERB.

This is a pattern which will please the most exacting, and will add wonderfully to the appearance of any parlor or drawing room.

AT $17.60 we offer this five-piece parlor suite as a rare bargain. It is complete in every detail of workmanship, material and finish, and guaranteed to please the most exacting, when the price is considered in connection with the quality.

IT IS SELDOM THAT RETAIL DEALERS will ever offer such a suite at less than 50 per cent more than our factory to consumer price. We have contracted for 750 of these suites, and we are positive that our confidence in the staying qualities has not been misplaced. Any customer who fails to find this suite just as we represent it, may return it to us and we will cheerfully refund money. This five-piece parlor suite consists of the following pieces, namely: One large sofa, one large rocker, one large easy chair, and two large parlor chairs, all of which are shown in the illustrations, excepting the extra parlor chair, which is identical with that shown in the picture.

THE FRAMES OF THESE PIECES are made of hard birchwood in mahogany finish. As seen from the illustration, the decoration in the way of carving, etc., is very handsome, and anyone ordering this suite is bound to be pleased not only with the beautiful appearance of each piece, but the very evident durability of the suite.

$17.60 TO $26.40.

Weight of Suite complete, packed in burlap for shipment, about 175 pounds.

WE UPHOLSTER EACH PIECE in the very best possible manner, with various qualities of coverings at the prices below named. Each piece has full spring seat and spring edge, the springs being made of the best Bessemer steel wire, with the latest steel wire support on the bottom, instead of webbing, as used by others. This new construction is in plain view from the bottom, and there is no webbing to tear or sag. We fit the suite complete with the best casters.

REMEMBER, that we can please you in the matter of colorings, and if you will give us some idea of your preferences in the ground work of upholstering, our expert designer will have a suite made to your order in which all the pieces will be of the most harmonizing colors.

PRICES FOR COMPLETE SUITE OF FIVE PIECES:

No. 1T6122	Upholstered in High Colored Velours	$17.60
No. 1T6126	Upholstered in Crushed Plush	20.15
No. 1T6130	Upholstered in Silk Brocatelle	24.90
No. 1T6132	Upholstered in Silk Damask	25.65
No. 1T6134	Upholstered in Brocaded Silk Plush	26.40

PRICES FOR SINGLE PIECES:

	Colored Velours	Crushed Plush	Silk Brocatelle	Silk Damask	Brocaded Silk Plush
Sofa	$5.85	$6.70	$8.35	$8.60	$8.80
Arm Chair	3.70	4.25	5.25	5.45	5.65
Rocker	4.15	4.60	5.80	5.90	6.05
Reception Chair	1.95	2.30	2.75	2.85	2.95

THIS HANDSOME FIVE-PIECE PARLOR SUITE, $26.30.

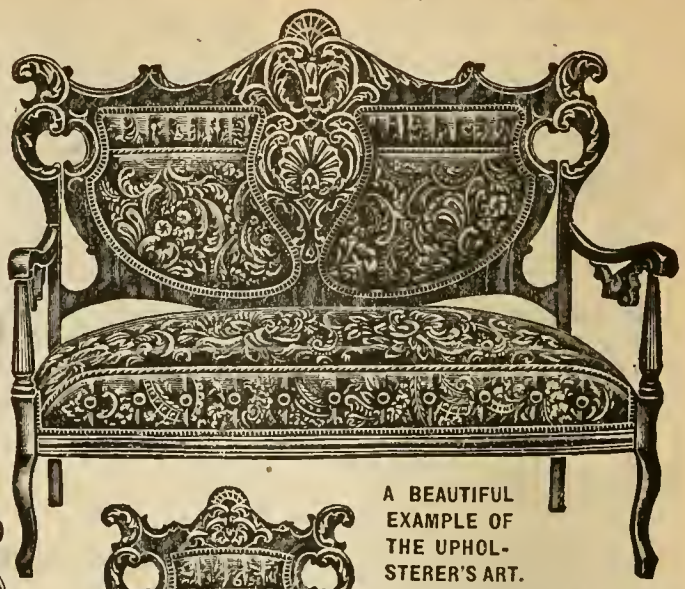
THE EXCEEDINGLY LOW PRICE of $26.30 which we are able to make on this regular $50.00 parlor suite, is only made possible by large contracts with a leading manufacturer. This suite is made up in accordance with our own design, and from the appearance of the illustrations you can form some idea of the general elegance and richness of effect of this beautiful suite. The five pieces of this suite are as follows:

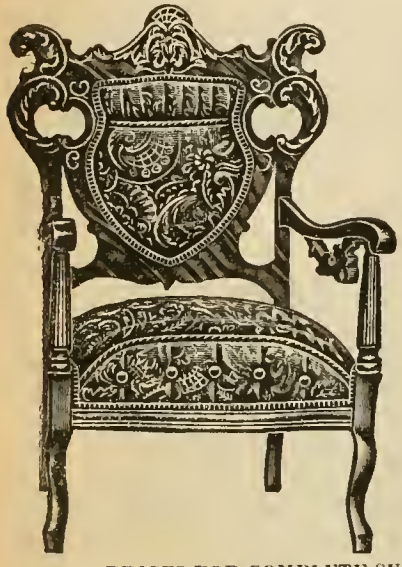
LARGE SOFA, LARGE ARM CHAIR, LARGE ROCKER and TWO HANDSOME RECEPTION CHAIRS,

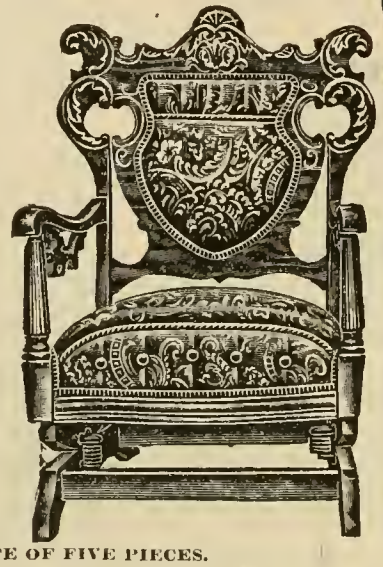
both of which are alike, but only one of which is shown in the illustration. Without making undue comparisons with our other upholstered furniture, we can scarcely avoid saying that nothing else in the line of upholstered goods has ever been offered by us which combines the same elegance, durability, finish and quality as shown in this beautiful suite.

IT IS MADE OF SELECTED BIRCH RICHLY FINISHED IN MAHOGANY

THE FINISH IS NOT MERELY LAID ON, as is the case with very cheap furniture, but it is beautifully hand polished, a polish equal to that of a fine piano. The daintiness of the design is greatly added to by the rich carving with which the backs of the pieces are decorated. The greatest skill of cabinet makers is brought into effect in this beautiful suite, and we offer it as the best example of great value which can be obtained from us in this line of goods.







A BEAUTIFUL EXAMPLE OF THE UPHOLSTERER'S ART.

EACH PIECE has easy spring seat and spring edge, the springs being made of the best Besseuer steel, supported by steel corrugated wires in place of the webbing which is usually used in manufacturing suites. Webbing tears and sags, which is, however, entirely overcome by using these steel wire supports instead. We use a heavy duck cloth over springs in place where others use cheap burlap. Each piece is left open from the bottom to air and ventilation, which will prevent germs and moths breeding. The fronts are tufted, and the top of the back is finished with a ruffle, which gives a wonderfully beautiful effect to the suite.

THE WEIGHT of the suite complete is about 195 pounds. We pack them most carefully, and they will reach you in as perfect condition as they leave our factory.

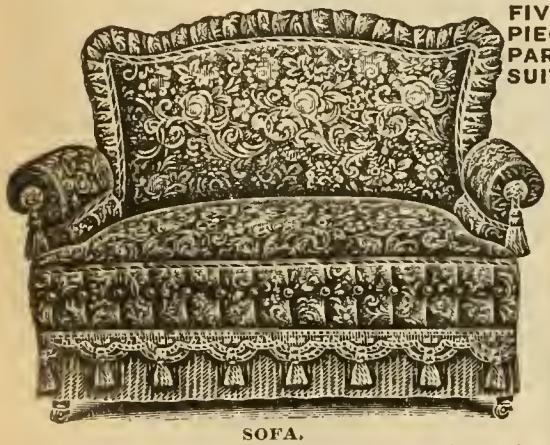
OUR LATEST 1902-3 GENUINE TURKISH OVERSTUFFED SUITE, $29.90.

Designed by one of the Best Furniture Artists in the World. Strictly High Class and Up to Date. Nothing Cheap about this Beautiful Suite but the Price.



FIVE-PIECE PARLOR SUITE.

SOFA. ROCKER. ARM CHAIR. RECEPTION CHAIR.

THIS ELEGANT TURKISH PARLOR SUITE consists of one tete-a-tete, one rocker, one gents' easy chair and two parlor or reception chairs, five pieces, and all these pieces are made in extra large size, with extra high backs and large comfortable seats, and are the very latest design. The upholstering or covering of this suite is the latest design or pattern of imported goods; each piece is covered with a different color; the suite is beautifully upholstered with tufted plush bands and backs in snake ruffles, as shown in illustration, and trimmed with a heavy worsted fringe. The suite is made with the best springs and spring edges, and every piece is made with spring back. This is, without doubt, one of the best parlor suites on the market at the price we ask, and will be an ornament to any home. **THESE FIVE PIECES are entirely new for this season. They are genuine Turkish work, equal to anything you will find in the most fashionable city stores at two to three times our price. You will get nothing finer if you were to go to the best store in the city and pay double the price.**

UNDERSTAND, there are five full pieces as listed above. The illustration shows four of the five pieces.

OUR CROCKERY AND GLASSWARE DEPARTMENT

ON THE FOLLOWING PAGES WE SHOW ASSORTMENTS OF SEMI-PORCELAIN AND GLASSWARE OF STRICTLY HIGH GRADE, THE BEST IN QUALITY, DESIGN AND IN EVERY OTHER FEATURE THAT CAN BE PRODUCED.

IT IS WELL KNOWN that earthenware and semi-porcelain can be procured at what would seem a very small price, in fact, for very much less money than we quote on some of our sets. We caution our customers against buying ware of this kind, as it is sure to prove an unprofitable investment. The earthenware and semi-porcelain will be sure to craze after a very short time, and the dishes will be found misshapen and in every way inferior in quality. This class of ware is made in the obscure potteries of England and America, by manufacturers who have no reputation at stake, and whose only aim is to make articles that look like dinner ware, but have no merit whatsoever.

OUR REPUTATION will not permit us to offer anything to our customers that we do not know would be of the very best grade of ware, made at the oldest established and best known potteries in England, France, Germany or America. Our prices are unquestionably low, and other dealers wonder how we can sell these goods at such ridiculously low prices. The secret of our low prices is our method of conducting our business, and asking our customers to pay only the smallest margin of profit added to the actual cost of production of the goods, and we know that when our dinnerware or glassware is compared with what any other dealers offer, our customers will find, quality for quality, our goods represent a saving of at least 25 to 50 per cent.

WE ARE ONLY TOO ANXIOUS to have these goods compared with anything you can buy at retail or from any other concern. We are satisfied we can save you 50 per cent on any crockery purchased. Such sets as we sell at from $4.98 up are positively equal to sets that often sell at retail at twice the price. They are the very latest and most attractive designs on the market; none of the old fashioned patterns and styles of decorations such as dealers have been accustomed to carrying on their shelves for years. We pack each set very carefully and seldom have any breakages.

ABOUT FREIGHT CHARGES. Nearly all railroad companies carry crockery and glassware at second class rate, and sometimes as low as third class, depending on the section of the United States to which it is shipped. The second class rate averages from 40 to 50 cents per 100 pounds for 500 miles. The weights of the different dinner sets and glassware sets are all plainly given in the catalogue, and by referring to pages 7 to 11 you can get the freight rate to your railroad station and thus figure very close to what your freight will amount to, and you will find that it will amount to next to nothing as compared to what you will save in the price.

OUR BINDING GUARANTEE. We guarantee that if you order one of our sets of dinnerware or glassware, and do not find it in every respect better in quality and lower in price than what you could procure the same grade of ware for from any other dealer, upon return of the goods we will refund your money in full. We furthermore guarantee that our dinnerware will not craze, and will agree to replace free of charge any piece that may prove defective in material or workmanship. All of the glassware listed is of the best grade it is possible to procure, and will, with ordinary care, stand the test of a lifetime.

IN PAST SEASONS we have listed our dinnerware in 100-piece sets only, believing this to be the most economical way for our customers to buy. This season we list many of our sets in various combinations to meet the requirements of those who do not wish to buy a full 100-piece set. We give below the combination of different sets from which we feel sure anyone should be able to make satisfactory selection. We call your attention to the advisability of making up a combination set of dinner ware and glassware, as illustrated in our set No. 2T58. By ordering our 80-piece dinner set and one of the glass sets, a combination can be made which will meet the requirements of any household and at a much lower price than anyone would pay for a full 100-piece dinner set.

UNDER THE ILLUSTRATION AND DESCRIPTION OF EACH STYLE OF DINNERWARE will be shown the combination which can be furnished of that kind, and in every case it would be advisable for the customer to REFER TO THIS PAGE to see exactly what pieces are contained in each set.

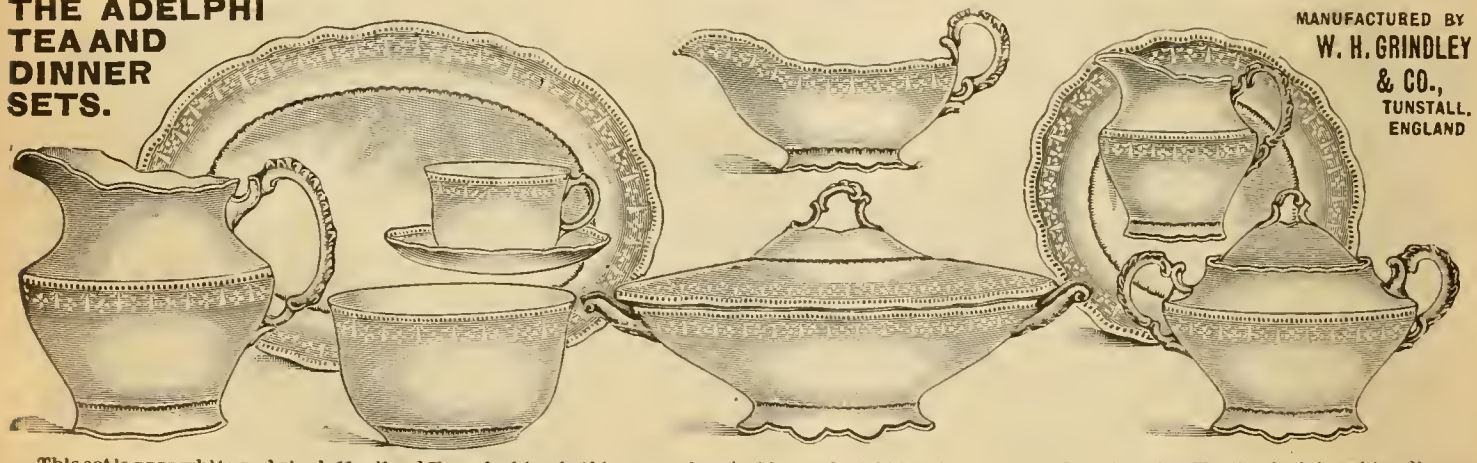
THE ADELPHI TEA AND DINNER SETS.

MANUFACTURED BY W. H. GRINDLEY & CO., TUNSTALL, ENGLAND



This set is pure white and rivals Haviland French china in thinness, color and weight. In fact, the only way it can be told from Haviland China is by examining stamp on ware. It also has the extra advantage of durability in its favor; as one of these sets will wear equal to the French china, giving the same service. The shapes are the best art and scientific pottery have ever devised. Plain white ware is becoming more popular every year, and it is hard to improve upon the appearance of a dinner table set with a handsome plain white set; but before our Adelphi set was made, it was beyond the reach of ordinary pocketbooks to procure a handsome white dinner set, as only the most expensive ware had the beauty of our Adelphi Dinner set. This set is pure white with a brilliant glaze. Every piece modeled in beautiful outlines. The ware is embossed with a dainty scroll design, which has heretofore been the distinguishing feature of Haviland china. To better realize this wonderful bargain, we quote the price of a Haviland plain white dinner set of the same number of pieces as our Adelphi set, the price of which would be.....$19.87

Complete 100-piece set, packed in barrel. Shipping weight, 100 pounds.

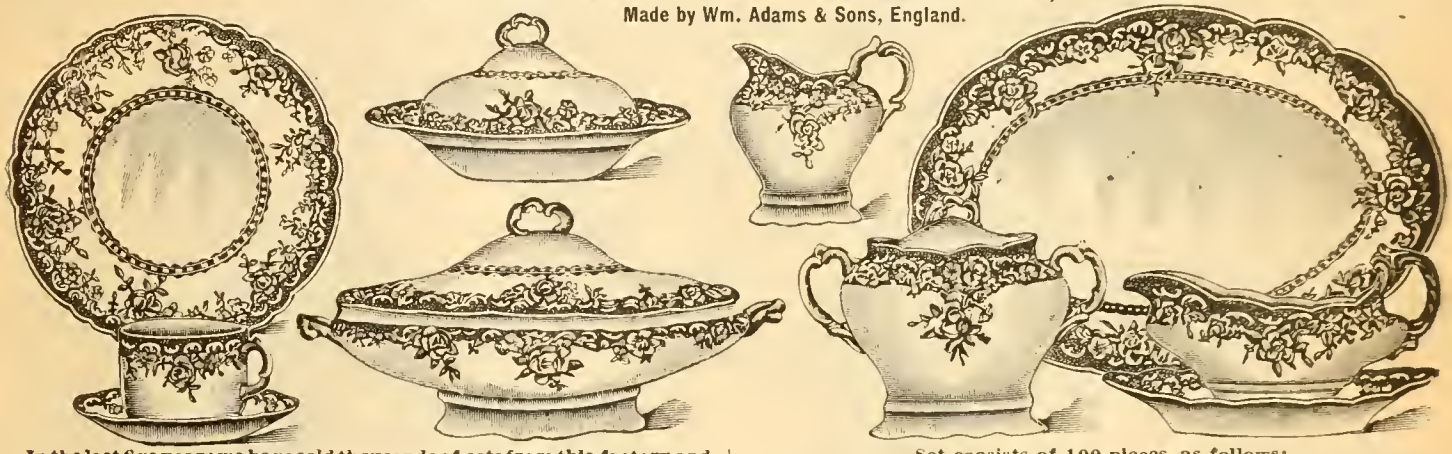
OUR CELEBRATED ADAMS DINNER SET, $7.85.

Made by Wm. Adams & Sons, England.



In the last five years we have sold thousands of sets from this factory and have yet to find one set that has not given satisfaction. The set we illustrate above is the best we have ever had from this factory. The shape is entirely new and modeled after the higher priced designs. The body of the ware is very strong and is fully warranted by us against crazing. The decoration used on this set is a handsome floral border design printed under the glaze and will never wear off or change a particle. We carry this set in either of the following colors: Royal blue or green. When ordering kindly state which color you prefer.

Set consists of 100 pieces, as follows:

12 Dinner Plates	12 Tea Saucers	1 Sugar Bowl (2 pieces)
12 Breakfast Plates	1 Platter, 10-inch	1 Cream Pitcher
12 Tea Plates	1 Open Vegetable Dish	1 Pickle Dish
12 Sauce Plates	1 Platter, 13-inch	1 Sauce Boat
12 Individual Butter Plates	2 Covered Vegetable Dishes (4 pieces)	1 Covered Butter Dish (2 pieces)
12 Tea Cups		1 Bowl

No. 2T18 Complete 100-piece Dinner Set, packed in barrel. Shipping weight, 80 pounds. Our special price..... **$7.85**

OUR GLENMORE ROSE DINNER SET FOR $8.45.

$8.45

THE GLENMORE DINNER SET as illustrated is the best quality American made china, made by a pottery known for its unusually high quality of goods. The decorations of our Glenmore set are not the usual printed or colored decorations shown by other dealers, but are put on by the decalcomanic process, being a much truer and finer reproduction of the flowers than the ordinary print. The colors are beautiful rose and green floral design, and all handles, knobs and covers are beautifully traced with gold, which together with the floral decorations give this set a very beautiful appearance. The decorations are so put on that with ordinary wear they will last a lifetime. Guaranteed not to craze.

This 100-Piece Dinner Set Comes in the Following Assortment:

12 Dinner Plates	1 Platter, 14-inch	1 Sauce Boat
12 Breakfast Plates	1 Covered Vegetable Dish (2 pieces)	1 Pickle Dish
12 Tea Plates	1 Oval Open Vegetable Dish	1 Slop Bowl
12 Sauce Plates	1 Round Open Vegetable Dish	1 Covered Butter Dish (3 pieces)
12 Individual Butter Plates	1 Covered Sugar Bowl (2 pieces)	1 Quart Size Pitcher
12 Tea Cups		1 Cream Pitcher
12 Tea Saucers		
1 Platter, 12-inch		

Complete 100-piece set packed in a barrel and shipped direct from the pottery in Western Pennsylvania. Shipping weight, about 90 pounds.

OUR GREEN AND HOLLY DINNER SET,

AMERICAN MADE, SEMI-PORCELAIN.

Shipped direct from our pottery in Ohio. Shipping weight, 80 pounds.

THIS SET is one of the prettiest shaped and best quality semi-porcelain in our entire line. It is made by potters whose reputation for high class ware is beyond question. Next to the celebrated English ware, the product of this manufacturer is considered the best in the market. **We guarantee it not to craze, and will replace, free of charge, any piece which proves defective in material or workmanship.** The decorations of this set are unusually handsome, being sprays of red holly berries with green foliage as a contrast. The edges of the platters and dishes, as well as the handles and knobs, are gold stippled, which gives the set an unusually rich appearance. Anyone desiring a medium priced dinner set could not do better than to select this pattern. **Shipping weight, 90 pounds.**

We furnish this set in 100 pieces only, containing the following pieces:

12 Tea Cups	1 Platter, 14-inch	1 Covered Sugar Bowl (2 pieces)
12 Tea Saucers	1 Oval Open Vegetable Dish	1 Pickle Dish
12 Dinner Plates	1 Round Open Vegetable Dish	1 Covered Butter Dish (3 pieces)
12 Breakfast Plates	1 Covered Vegetable Dish (2 pieces)	1 Bowl, quart size
12 Tea Plates	1 Sauce Boat	1 Cream Pitcher

No. 2T25 Our Holly Pattern 100-Piece Dinner Set.
Price, complete **$8.70**

CANTON BLUE MINTON DINNER SET.

MADE BY BOURNE & LEIGH, BURSLEM, ENG.

A GOOD DEPENDABLE DINNER SERVICE at a low price; graceful, practical shapes. **The ware is very tough and finely finished. The decoration, which consists of small scrolls and buds, is printed under the glaze.** The color is called a Canton flow blue, which is a shade between a blue and a gray. The color flows and gives that rich velvety effect which is the stamp of good pottery. This set is warranted by us to stand all ordinary usage, and never to craze, and if you wish a good set at a low price we recommend this set.

We can furnish this set in any of the following combinations:

No. 2T31	56-piece Tea Set. Price	$4.85
No. 2T32	55-piece Dinner Set. Price	5.90

OUR BLUE HARVARD UNDER GLAZE DINNER SET.

AMERICAN MADE SEMI-PORCELAIN.

THE HIGHEST GRADE American dinnerware at remarkably low prices. This dinnerware is handsome in design, made of the very best material, and by one of the best known American potters, a manufacturer whose name is a guarantee for superior quality. This dinner set is decorated in handsome floral design, printed under the glaze and it will never wear off. **Every piece is handsomely decorated with gold,** the platters and plates all having gold edges, and the knobs and handles all being traced with gold, which adds greatly to the otherwise beautiful appearance of the ware. We warrant this dinnerware to stand all ordinary usage. It is fully warranted never to craze or the decorations to wear off.

We can furnish this set in the following combinations:

No. 2T40	56-piece Tea Set. Price	$4.97
No. 2T44	100-piece Dinner Set. Price	8.95

Shipping weight, 90 pounds.

For number and style of pieces included in the Dinner and Tea Sets quoted above, see page 631.

GREEN EXETER DINNER SET.

MADE BY ALFRED MEAKIN, TUNSTALL, ENG.

ONE OF THE PRETTIEST DESIGNS ever offered in Alfred Meakin's celebrated English semi-porcelain. The decoration consists of a dainty floral border design, printed under glaze in grass green. A raised embossed border design shows through the floral sprays, adding considerably to the beauty of the decoration. The rich glaze and finish of this ware cannot be described. Our illustration, which gives you a good idea of the appearance of this set, fails to show the rich deep glaze for which the Meakin factory is famous. This set is fully warranted never to craze, or the decoration to wear off.

We can furnish this set in any of the following combinations:

No. 2T46	56-piece Tea Set.	Price.....	$ 4.90
No. 2T47	55-piece Dinner Set.	Price.....	5.95

In addition to the regular sets quoted we can furnish the following pieces:
Coffee Cups and Saucers. Price, per dozen...$1.75
Soup Plates, regular deep shape. Per dozen..$1.23
Soup Plates, new coupe shape. Per dozen...$1.26

$9.48

OUR EDGEWOOD GOLD STIPPLED DINNER SET,

MADE BY ONE OF THE LARGEST AMERICAN POTTERIES.

OUR EDGEWOOD DINNER SET is the highest grade of American china, clear, white and glossy, made of the very best quality of material and decorated in the most artistic manner. Our Edgewood Set has a beautiful violet and green foliage floral decoration. The gold decorations on this set are not of the ordinary kind usually offered by most dealers, but has gold tracings on every cover, as shown in the illustration, while the knobs and handles are all heavily stippled with gold, and the edge of every piece is also heavily covered with gold, giving the set a very rich appearance. We guarantee every piece to be of the very best quality, especially selected to wear, and if not found entirely satisfactory it can be returned at our expense of freight charges both ways.

This 100-piece Dinner Set comes in the following assortment:

12 Dinner Plates	1 Platter, 14-inch	1 Covered Butter Dish (3 pieces)
12 Breakfast Plates	1 Oval Open Vegetable Dish	1 Quart Size Pitcher
12 Tea Plates	1 Round Open Vegetable Dish	1 Sauce Boat
12 Sauce Plates	1 Covered Sugar Bowl (2 pieces)	1 Cream Pitcher
12 Individual Butter Plates	1 Covered Vegetable Dish (2 pieces)	1 Pickle Dish
12 Tea Cups		1 Slop Bowl
12 Tea Saucers		
1 Platter, 10-inch		

Complete 100-piece set packed in barrel and shipped from our pottery in Western Pennsylvania. Shipping weight, about 90 pounds.
No. 2T54 Our special price..... **$9.48**

OUR COMBINATION DINNER SET,

TWO SETS AT THE PRICE OF ONE.

THIS COMBINATION is a new idea and has never been offered before. All the necessary pieces to stock the china closet are included, and at the price we offer this assortment it is a bargain. This set consists of 80 pieces of the finest English semi-porcelain, made by Alfred Meakin, Tunstall, England. The goods are elegant in design and finish, and will surely please you. The design used in decorating this set consists of a handsome floral border design, printed under the glaze in a delicate shade of light green. This is one of the most popular colors used in china decorations, for the reason that it will harmonize with the decorations and furnishings of any dining room. Every piece is heavily gold trimmed. This ware is fully warranted by us never to craze, and to be the best quality of English semi-porcelain made. Twenty pieces of the finest quality of fire-polished crystal glassware complete the set. The glass is finished in the popular "colonial" design, so stylish at the present time. Plain surfaces, easily kept clean. Heavy weight and absolute clearness make this the best pattern of glassware on the market. Both sets packed in one barrel and sold at a price that you cannot buy the chinaware alone.

SET CONSISTS OF 100 PIECES AS FOLLOWS:

DINNER WARE.

12 Tea Cups	12 Butter Plates	1 Oval Open Vegetable Dish
12 Tea Saucers	1 Platter, 12-inch	
12 Dinner Plates	1 Platter, 14-inch	1 Covered Vegetable Dish

Shipping weight, 100 pounds.

BROWN WASHINGTON DINNER SET. MADE BY ALFRED MEAKIN, TUNSTALL, ENGLAND.

A HEAVY BORDER DECORATION, printed under the glaze in a rich shade of brown. While the decoration is heavy, the design is a very handsome one, and has all the appearance of an elegant set worth twice the price we ask for it. The ware is Alfred Meakin's best quality of English semi-porcelain, and will not crack or craze. The shape is entirely new and the decoration is especially adapted for it. This set will give good satisfaction, and while costing a trifle more than other English makes, will be found cheaper in the long run, when its wearing qualities are considered.

We can furnish this set in any of the following combinations:

No. 2T65	56-Piece Tea Set. Price.....	$5.15	For number and style of pieces included in the Dinner and Tea Sets quoted, see page 631.

OUR HOWARD GOLD ILLUMINATED DINNER SET.

$9.85

OUR HIGHEST GRADE full gold trimmed American China Dinner Set. This is not one of the ordinary American sets with decorations put on in the usual way, but is beautifully decorated under the glaze, making the decorations indestructible and giving it the appearance of the finest imported china. The decorations are a beautiful shade of green floral design heavily traced with gold, all edges, knobs and handles being lined with gold, as well as the petals of the flowers and stems being traced in the same way. In fact, the gold decorations are unusually rich and handsome. Packed in barrel and shipped direct from the pottery in Western Pennsylvania. Shipping weight, about 80 pounds.

This set consists of 100 pieces, as follows:

12 Dinner Plates	1 Platter, 14-inch	1 Covered Butter Dish (3 pieces)
12 Breakfast Plates	1 Covered Vegetable Dish (2 pieces)	1 Quart Size Pitcher
12 Tea Plates	1 Oval Open Vegetable Dish	1 Sauce Boat
12 Sauce Plates	1 Round Open Vegetable Dish	1 Cream Pitcher
12 Individual Butter Plates	1 Covered Sugar Bowl (2 pieces)	1 Pickle Dish
12 Tea Cups		1 Slop Bowl
12 Tea Saucers		
1 Platter, 10-inch		

No. 2T70 Complete 100-piece Dinner Set. Our special price..... $9.85

PINK ROSAMOND DINNER SET. MADE BY ALFRED MEAKIN, TUNSTALL, ENGLAND.

IN THE "DECALCOMANIE" PROCESS the decoration is lithographed on a sheet of paper, then transferred onto the ware. This is the process used in making our Pink Rosamond Dinner Set. Every shade of the rose is produced with its delicate leaves and stems in lifelike colors on a rich silver gray background. The design is burned into the ware and becomes a part of the glaze, soft and velvety in effect. Gold trimmings on all knobs and handles further enchance the beauty of this set. This set is fully warranted never to craze. The ware is one of the very best made in the whole world and its durability will be a source of satisfaction.

We can furnish this set in any of the following combinations:

No. 2T75	56-piece Tea Set. Price.....	$5.95	For number and style of pieces included in the Dinner and Tea Sets quoted, see page 631.

No. 2T78	100-piece Dinner Set. Price.....	10.62	
No. 2T79	101-piece Dinner Set. Price.....	11.87	

In addition to the regular sets quoted above we can furnish the following pieces: Coffee Cups and Saucers. Per dozen..... $1.99
Soup Plates, new coupe shape. Per dozen..... 1.48
Soup Plates regular deep shape. Per dozen..... 1.43

MADE BY J. & G. MEAKIN, TUNSTALL, ENGLAND.

THE GERTRUDE DINNER SET.

THIS SET is without question one of the neatest, daintiest designs ever made. The shape is plain and modest and the decoration is in perfect harmony. The decoration is an exceptionally handsome transfer and consists of a continuous garland of small flowers in yellow, blue and green colorings. The colors are very soft and the combination makes a very delicate and at the same time rich decoration. The ware is the celebrated J. & G. Meakin semi-porcelain, a ware that is strong, very richly glazed and is fully warranted never to craze and to be the best quality of semi-porcelain it is possible to buy. This set is finished with gold tracings on all handles and knobs.

We can furnish this set in any of the following combinations:

No. 2T84	56-piece Tea Set.	Price	$6.10
No. 2T85	55-piece Dinner Set.	Price	7.45
No. 2T86	80-piece Dinner Set.	Price	8.65
No. 2T87	100-piece Dinner Set.	Price	10.95
No. 2T88	101-piece Dinner Set.	Price	12.55

For number and style of pieces included in the Dinner and Tea Sets quoted above, see page 631.

We can furnish, in addition to any of the regular sets quoted above:

Coffee Cups and Saucers, per dozen.....$2.20 | Soup Plates, regular deep shape, per dozen..$1.53 | Soup Plates, new coupe shape, per dozen...$1.52

THE HELENE DINNER SET. MADE BY W. H. GRINDLEY & CO., TUNSTALL, ENG.

THE HELENE DINNER SET is considered by experts to be the most artistic decoration and shape ever made in English semi-porcelain ware and the nearest approach to Haviland china in appearance with the advantage of superior strength. The Adelphi shape, upon which this pattern is decorated, has been a revelation to the pottery world on account of its lightness, beauty and great strength. The decoration is a delicate execution of transfer work, a process which brings out every color as nature paints it and consists of sprays of small pink roses, blue forget-me-nots and delicate green leaves on a silvery gray background, all brought out with that soft velvety effect which heretofore has been only obtained by the best French makers at a price too high for ordinary incomes. The large pieces, such as covered dishes, platters and handles of cups, are heavily trimmed with gold.

We can furnish this set in any of the following combinations:

For number and style of pieces included in the Dinner and Tea Sets quoted above see page 631.

WOODLAND DINNER SET. Made by ALFRED MEAKIN, TUNSTALL, ENGLAND.

THE WOODLAND DINNER SET is the latest and best production of this celebrated potter. The ware is light in weight and elegantly finished with an embossed design. The decoration is a beautiful Decalcomanie design, consisting of sprays of violets and green leaves in natural colorings on a silvery gray background. The decoration is so finely executed that it is impossible for an ordinary critic to distinguish this set from a Haviland china set costing three times as much; and while this set combines all the beauty and elegance of fine French china it has the advantage of being very much stronger. Gold trimmings enliven the decorations and add much to its beauty.

We can furnish this set in any of the following combinations:

No. 2T101	56-piece Tea Set.	Price	$ 6.34
No. 2T102	55-piece Dinner Set.	Price	7.75
No. 2T103	80-piece Dinner Set.	Price	9.08
No. 2T104	100-piece Dinner Set.	Price	11.28
No. 2T105	101-piece Dinner Set.	Price	12.84

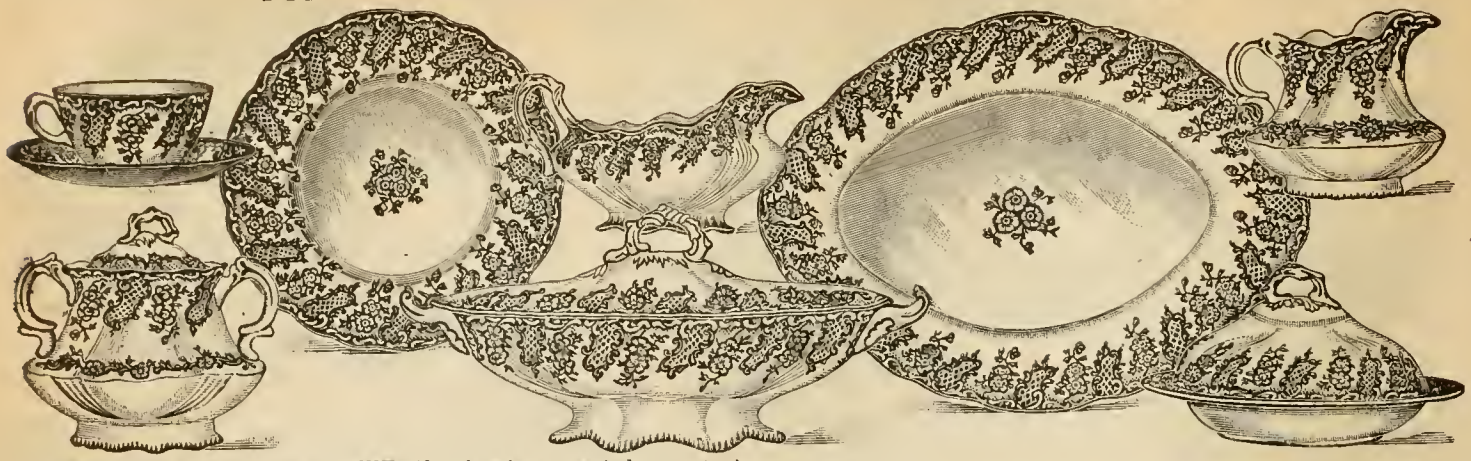
For number and style of pieces included in the Dinner and Tea Sets quoted above, see page 631.

In addition to the regular set quoted above we can furnish the following pieces:

Coffee Cups and Saucers. Per dozen.... ...$2.09 | Soup Plates, regular deep shape. Per dozen..$1.43 | Soup Plates, new coupe shape. Per dozen..$1.90

THE SUPERB DINNER SET.

MADE BY UPPER HANLEY POTTERY CO. ENGLAND



THE WARE IS AS HARD AS FLINT, the glaze is warranted never to craze. The decoration is a continuous border design, printed under the glaze, in the new shade of soft green so popular in china decorations. The decoration is illuminated with heavy gold tracings, all of the petals of the flowers being outlined with gold and the edges of all pieces finished with a heavy gold line, in addition the handles of the large pieces, and all embossed parts are gold traced. The rich green underglaze decoration, the elaborate gold tracing, the elegant shape and rich finish of these goods combine in making one of the handsomest designs ever offered in wares of moderate price.

Coffee cups and saucers. Price, per dozen..$2.27 | Soup plates, regular deep shape. Per dozen..$1.53 | Soup plates, new coupe shape. Per dozen...$1.59

We can furnish this set in any of the following combinations:

No. 2T113	100-piece Dinner Set.	Price	11.45
No. 2T114	101-piece Dinner Set.	Price	12.98

For number and style of pieces included in the Dinner and Tea Sets quoted above, see page 631.

We can furnish in addition to any of the above sets the following pieces:

PRINCESS DINNER SET

MADE BY W. H. GRINDLEY & CO., TUNSTALL, ENGLAND.

THIS SET IS ONE OF THE VERY BEST transfer designs ever made. The ware is the celebrated Grindley English semi-porcelain, fully warranted never to craze. The shape is a plain oval, a new and very artistic shape. The decoration is a fine example of transfer work and consists of sprays of pink roses with green leaves on a delicate blue background, which makes an exceedingly handsome effect. Every piece heavily gilded with gold tracing. This set is very rich, the plain shape, elegant decoration and elaborate tracings combine in making a set that would be hard to tell from the best makes of French china, and the cost is about one-fifth, while this set is much stronger than any china set you can purchase.

We can furnish this set in any of the following combinations:

No. 2T120	56-piece Tea Set.	Price	$ 6.49
No. 2T121	55-piece Dinner Set.	Price	7.98

For number and style of pieces included in the dinner and tea sets quoted above, see page 631.

We can furnish in addition to any of the above sets the following pieces:

Coffee cups and saucers.	Price, per dozen	$2.35
Soup plates, coupe shape.	Price, per dozen	1.64

$13.39

MARCELLUS DINNER SET.

MADE BY WOOD & SONS, ENGLAND.

THIS SET EMBODIES the very latest ideas in the pottery world. It is a decided novelty in shape, color and decoration. The shape is a very handsome one, modeled after the style of the old oval shapes, so popular in fine English china. A beautiful embossed border about a quarter of an inch wide edges each piece; the decoration, which is a large flower design printed in a peculiar shade of bluish green, starts from this embossed border and almost entirely covers the balance of the piece. Heavy gold tracings upon the handles and outlining the flowers adds life to the decoration. The embossed border, which is left in plain white, is a new departure from the ordinary method of decoration, and is a pleasing change. Another new feature is the sauce boat, which is fitted with a cover. This idea is patented and this is the only set we have with this feature.

We can furnish this set in any of the following combinations:

No. 2T130	56-piece Tea Set.	Price	$ 6.60
No. 2T131	55-piece Dinner Set.	Price	8.05
No. 2T132	80-piece Dinner Set.	Price	9.45
No. 2T133	100-piece Dinner Set.	Price	11.87
No. 2T134	101-piece Dinner Set.	Price	13.39

For number and style of pieces included in the Dinner and Tea Sets quoted above, see page 631.

In addition to the regular sets quoted above, we can furnish the following pieces:

Coffee Cups and Saucers.	Per dozen	$2.49
Soup Plates, regular deep shape.	Per dozen	1.68
Soup Plates, new coupe shape.	Per dozen	1.73

OUR ROSE BORDER DINNER SET, AMERICAN MADE SEMI-PORCELAIN.

$11.95

THE HANDSOMEST ROSE BORDER PATTERN American made dinner set in the market. Made by the best known and oldest established potter, whose name alone is sufficient guarantee for the superior quality of the ware. The shapes are purely colonial. The decorations are a floral wreath of roses encircling the body of each piece, as shown in the illustration. A heavy gold line on the edge of each piece and gold tracings on the knobs and handles add greatly to the beauty of the floral decorations. Altogether this is without doubt one of the most elaborately decorated dinner sets in our entire line, and is sure to please the purchaser. We fully warrant this set never to craze and to be of the best grade of American made semi-porcelain. We will replace any piece free of charge which proves defective in mateal or workmanship.

The composition of this 100-piece dinner set is as follows:

12 Tea Cup with Handles	12 Butter Plates	1 Sugar Bowl (2 pieces)
12 Tea Saucers	1 Medium Platter	1 Cream Pitcher
12 Dinner Plates	1 Large Platter	1 Pickle Dish
12 Breakfast Plates	1 Open Vegetable Dish	1 Slop Bowl
12 Tea or Pie Plates	2 Covered Vegetable Dishes (4 pieces)	1 Covered Butter Dish (2 pieces)
12 Sauce Plates		1 Sauce Boat

No. 2T135 Our complete 100-piece dinner set, packed in a barrel and shipped direct from the pottery in Ohio, from which point customer pays freight. Our special price..... **$11.95**
Shipping weight, 80 pounds.

FLOW BLUE DANUBE DINNER SET.

MADE BY TILL & SONS, ENGLAND.

A RICH COBALT FLOW BLUE BORDER DECORATION on a very handsome shape. The decoration is printed under the glaze, thus insuring it permaneney. Every piece is trimmed with a heavy gold line and in addition the decoration is illuminated with traced gold. This is a very rich appearing set, and will also give good service, as the wear is of excellent quality and is warranted by us never to craze. It is also strong enough to stand hard usage. Flow blue is one of the richest and most expensive colors used in china decoration, and our Danube set is the cheapest flow blue set ever offered. Full gold trimming on every piece.

We can furnish this set in any of the following combinations:

No. 2T140	56-piece Tea Set.	Price	$6.72
No. 2T141	55-piece Dinner Set.	Price	8.20

We can furnish in addition to any of the above sets the following pieces:

Coffee Cups and Saucers.	Per dozen	$2.56
Soup Plates, coupe shape.	Per dozen	1.78

ROYAL FLOW BLUE DINNER SET.

Made by J. & G. MEAKIN, TUNSTALL, ENGLAND.

THE RICH COBALT FLOW BLUE effect, so much admired by lovers of ceramics, has been so high priced as to have placed these wares out of reach of ordinary pocketbooks. There are in the whole world only a few potters who are able to make this ware at any price. J. & G. Meakin, of Tunstall, England, have long enjoyed the reputation of being the best makers of this class of ware. Our Royal set is from this noted pottery. The decoration, which consists of scrolls and flowers, is printed under glaze, in rich cobalt flow blue. The rich deep glaze gives a soft velvety effect to the decoration. Every piece is trimmed with a heavy gold line. The effect of a table laid with a set of blue is at once rich and elegant. The ware is very light in weight, but at the same time very strong, and is warranted never to craze. One of these sets with ordinary care should last a lifetime.

We can furnish this set in any of the following combinations:

No. 2T150	56-piece Tea Set.	Price	$ 6.89
No. 2T151	55-piece Dinner Set.	Price	8.45
No. 2T152	80-piece Dinner Set.	Price	9.95
No. 2T153	100-piece Dinner Set.	Price	12.10
No. 2T154	101-piece Dinner Set.	Price	13.95

For number and style of pieces included in the Dinner and Tea Sets quoted above, see page 631.

We can furnish in addition to any of the above sets the following pieces:

Coffee Cups and Saucers.	Per dozen	$2.63
Soup Plates, regular deep shape.	Per dozen	1.79
Soup Plates, new coupe shape.	Per dozen	1.84

FLOW PEARL BLUE CHAMPLAIN DINNER SET.

MADE BY J. & G. MEAKIN, TUNSTALL, ENGLAND

A RICH, ELEGANT DINNER SERVICE. The decoration consists of a border design of leaves with small flowers entwined. An additional arabesque design which follows the floral wreath border adds a rich and striking effect to the whole decoration. A floral wreath made to correspond with border decoration is used to fill center of each piece. A heavy gold line on the edges and an inner line of gold on arabesque design, together with elaborate gold tracings on all handles and knobs make a rich gold treatment that brings out the soft, velvety effect of the flow pearl blue color used in printing the design. This is an entirely new color, not quite as intense as the deep cobalt blue. The color flowing gives a rich, velvety effect impossible to procure in cheaper wares. This set is fully warranted never to craze and to be the best grade of semi-porcelain it is possible to buy.

We can furnish this set in any of the following combinations:

No. 2T160	56-piece Tea Set. Price	$ 6.85
No. 2T161	55-piece Dinner Set. Price	8.36

OUR WHITE AND GOLD COLONIAL PATTERN, $12.45.

AMERICAN MADE SEMI-PORCELAIN

THIS SET REPRESENTS the highest grade of American semi-porcelain. The shapes are the very latest Colonial pattern and the decoration is pure gold on white. The ware is as thin as it can be made consistent with durability, but the material used is of such superior quality that we guarantee it not to chip or craze with ordinary usage and will replace free of charge any piece which may prove defective in material or workmanship. The manufacturer of this ware is the best known, oldest established potter in America, whose ware has always been recognized as the very best grade it is possible to make. Shipped direct from pottery in Ohio, from which point the customer pays freight. Shipping weight, 80 pounds.

We can furnish this set in the following combination of 100 pieces:

12 Tea Cups with handles	1 Medium Platter	1 Pickle Dish
12 Tea Saucers	1 Large Platter	1 Slop Bowl

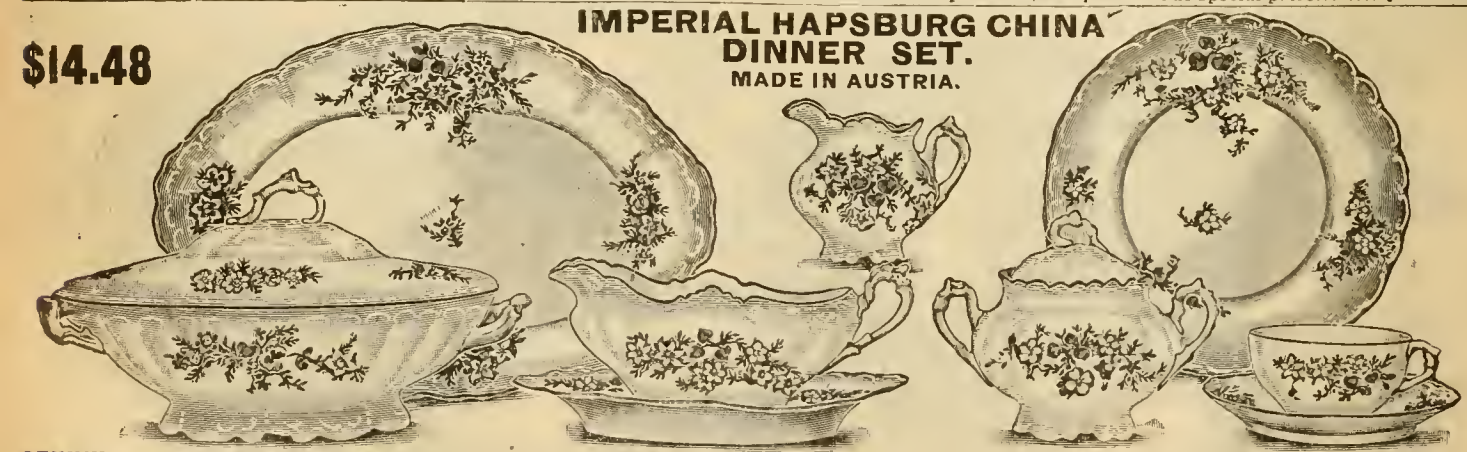
$14.48 IMPERIAL HAPSBURG CHINA DINNER SET.

MADE IN AUSTRIA.



GENUINE HAPSBURG CHINA DINNER SET. This is the highest grade of china made in Austria. It is very light in weight and very transparent. It is the equal of any of the French makes and is sold at a price one-third less. This pattern is one of the choicest made by this noted factory and we flatter ourselves that we have selected the very best design that it was possible to get at the price. This shape is considered by china critics the best modeled and most graceful ever made. The decoration is composed of an elegant transfer of pink flowers with green leaves gracefully arranged in dainty sprays. The pink decoration is the daintiest color made. This set costs a great deal less than French china, but the quality is equally good.

Sold in 100-piece sets, as follows:

12 Dinner Plates	1 Covered Sugar Bowl (2 pieces)	1 Round Covered Vegetable Dish (2 pieces)
12 Breakfast Plates	1 Sauce Boat and Stand	1 Platter, 10-inch
12 Tea Plates	1 Covered Butter Dish and Drainer (3 pieces)	1 Platter, 14-inch
12 Sauce Plates	1 Oval Covered Vegetable Dish (2 pieces)	1 Pickle Dish
12 Tea Cups		1 Cream Pitcher
12 Tea Saucers		1 Baker
12 Individual Butters		

No. 2T170 Complete 100-piece set, packed in barrel. Shipping weight, 80 pounds. Our special price **$14.48**

Coffee Cups and Saucers. Per dozen.. $2.95 | Soup Plates, regular deep shape. Per dozen....$2.43 | Soup Plates, new coupe shape. Per dozen .. 2.49

Our Genuine Haviland French China Dinner Sets.

THE EXTREMELY LOW PRICES which we quote for the three latest patterns of genuine French Haviland China Dinner Sets are made possible by reason of the very large contract we placed with Theodore Haviland, and by reason of special arrangements for transporting these sets here at a very low ocean freight rate; which was next to no cost, having been taken for us merely as ballast by a ship bound for Norfolk, Va. It is impossible for other dealers to purchase this set, even at wholesale, at the extremely low price which we quote. On account of our low price a great many dealers try to convince our customers that our sets are not the genuine Haviland China; but do not allow yourself to be misled by what anyone may say of these sets, for we guarantee them to be the best grade of Haviland China, having the mark "Theodore Haviland, Limoges, France," stamped on the back of each piece.

The composition of each of the three dinner sets listed below consist of the following 100 pieces:

12 Coupe Soup Plates	1 Platter, 12-inch	1 Pickle Dish
12 Plates, 8½-inch	1 Platter, 11-inch	1 Covered Butter Dish (3 pieces)
12 Plates, 6½-inch	1 Baker	
12 Cups	1 Round Covered Dish (2 pieces)	1 Sugar Bowl (2 pieces)
12 Saucers		1 Cream Pitcher
12 Individual Butters	1 Oval Covered Dish (2 pieces)	1 Sauce Boat (2 pieces)
12 Fruit Plates		

Each set is packed with the greatest care by expert packers, so that the set may reach you in perfect condition. The set when packed weighs about 100 pounds, and freight will be very little compared with what we save you.

OUR $19.95 HAVILAND 100-PIECE DINNER SET.

THIS GENUINE HAVILAND SET is of a new and handsome shape, in that pure translucent white, delicately decorated and made only by Theodore Haviland, of Limoges, France. Haviland china is always very thin, light in weight, perfect in color, great in strength, perfect in finish and beautiful in decoration. The decoration of the above set consists of a very delicate pink wild crab apple blossom with light green moss fern background. It has the genuine French gold knobs and handles, adding richness to the set. The above illustration will give you some idea of the beautiful shape, but no picture can do justice to a Haviland French China Dinner Set, as it does not show the delicate decorations nor the thinness of the ware. This kind of ware must be seen to be appreciated.

No. 2T380 Price for full 100-piece dinner set as listed above..... **$19.95**

OUR $23.85 HAVILAND FRENCH CHINA 100-PIECE DINNER SET.

THIS IS ONE OF THE NEWEST, most stylish and best 100-piece genuine Theodore Haviland French China dinner sets, new for this season, and at a price no dealer, no importer will attempt to compete with. The beautiful decoration consists of very delicate pink dalsies interwoven in light green scroll design, making one of the most beautiful border designs ever placed on china. This border design, placed on milk white body of the thin translucent china, causes a very handsome effect. The knobs and handles of the larger pieces and cups are stippled with the genuine French gold.

No. 2T381 Price for full 100-piece dinner set as listed above..... **$23.85**

OUR PANSY HAVILAND FRENCH CHINA DINNER SET AT $25.45.

AT $25.45 we offer one of the most beautiful Haviland dinner sets ever imported by us. The decoration is of the very latest pattern, consisting of very delicately tinted pansies of eight different shades of colors on a pure milk white body, giving the set a very striking and rich appearance. This pattern is different than any other pattern ever exported by Theodore Haviland, and anyone purchasing this set will have something different than most Haviland china sets. The flower is much larger than usually is put on French china, but being made of very delicate colors does not have a gaudy appearance. The handles and knobs of all large pieces and cups are stippled with the dull French gold which only the noted china makers of France are able to put on this fine grade of china.

No. 2T382 Price for full 100-piece Dinner Set as per list at top of page..... **$25.45**

FINEST QUALITY AMERICAN TOILET SETS.

SHIPPED FROM THE POTTERIES IN EASTERN OHIO AND SOUTHERN INDIANA.

$2.20

The Ardmore Toilet Set.

THIS SET is made of the finest quality of American semi-porcelain ware. The shape is considered by experts to be the best ever made in toilet ware. The decoration is elegantly printed in delicate shades of brown or blue. We carry this set in two assortments, as follows: **Be sure to specify which color you prefer.** Packed in barrels. Shipping weight, about 80 pounds.

No. 2T392 10-Piece Toilet Set, consisting of wash bowl and pitcher, covered chamber, covered soap dish, hot water pitcher, brush vase and mug. Price..... **$2.20**

OUR NEWPORT TOILET SET AT $3.75

OUR NEWPORT TOILET SET is one of the very latest and handsomest patterns put on the market, beautifully decorated with yellow and pink chrysanthemum blossoms and foliage as shown in the illustration, in addition to which every piece is heavily decorated with gold. The gold decorations are not simply lines and tracings as are usually put on toilet sets, but a heavy deep stippled effect which gives the toilet set a most luxurious appearance. We consider this set one of the handsomest we have ever been able to furnish, and being made by one of the most reliable potteries in America, we can guarantee it to be strictly high grade.

Each set is carefully packed complete in a barrel to insure safe delivery and shipped direct from the pottery in Western West Virginia.

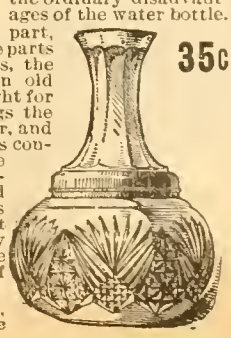
The Perfection Separable Water Bottle.

Easily cleaned, accessible for ice. Economical, sanitary, convenient. The Perfection Water Bottle is acknowledged to be the most perfect container for water, milk, iced tea, coffee, lemonade, wines, etc. Being separable, it can be locked and unlocked. When locked, it excludes dust and all foreign matter, and when unlocked and the parts separated, it is easily cleaned and readily receives ice and anything else that is desirable to place in the bowl of the container. This container combines all the good points of both, water pitcher and water bottle, and is free from the ordinary disadvantages of the water bottle. In case of breakage of any part, it can be replaced, as all the parts are interchangeable; that is, the neck can be bought for an old bowl, or a bowl can be bought for an old neck, which prolongs the life and use of the container, and reduces the cost. All things considered, "perfection" is the only word that fully expresses the economy and sanitary features of this bottle. Years of experiment have produced machinery that enables us to put the price within the reach of everyone.



No. 2T511 Price, each, only.....35c

Wine Set.

No. 2T512 A new, attractive imitation cut glass design in medium weight pressed crystal glass. Price, Bedroom Glass Set, complete.....$1.17

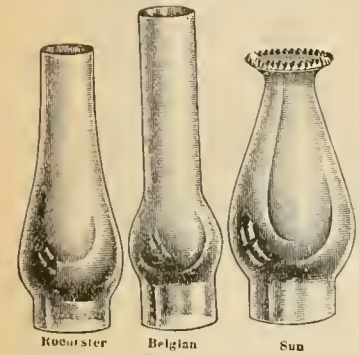
LAMP DEPARTMENT

WE TAKE PLEASURE IN INTRODUCING AN ENTIRELY NEW LINE OF ALL DIFFERENT STYLES OF LAMPS.

THESE LAMPS were selected as the very best of the different grades which they represent after long and earnest investigation. We do not pretend to show all the different styles of lamps which are upon the market this year, but we have selected one or two of the best of each grade, and from our line we are certain that our customers can make selections that will be satisfactory in every way. We know that our prices cannot be duplicated by any other firm, style, quality and workmanship of the lamps taken into consideration. They are all packed very carefully so that we can guarantee their arrival in perfect condition. If the best of oil is used and the wick is kept clean, we goaranteo the lamps to give perfect satisfaction.



Anchor Brand.

The Anchor Brand is made of lime glass and is the cheapest grade of chimney made. We carry this line in Sun Chimney only.

Imperial Brand.

A half lead glass chimney, oil finished, each chimney wrapped in paper. This is a low priced chimney, but they will give satisfaction.

Pearl Top and Pearl Glass Chimneys.

This chimney is the highest grade made. Every one perfect, proper shape to insure perfect combustion. Specially annealed; seldom break, except from accidents. Every chimney stamped with maker's name and number for future reference and identification. Pearl glass chimneys do not vary in shape. They properly fit lamps for which they are made. Each chimney packed in paper box. Cheapest because best.

Miscellaneous.

Imported chimneys, made in Germany. Odd sizes and shapes.

La Bastie Chimneys.

Known for years as the unbreakable lamp chimney. Made under a French pateut and considered the strongest chimney made.

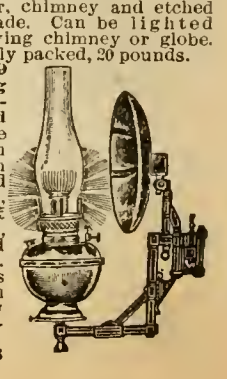
Can be lighted without removing chimney or globe. Weight, securely packed, 20 pounds. Our price.....$1.99



No. 2T750 Where a strong light is needed we recommend this attractive and serviceable lamp. The bracket is made of cast iron and is finished in French bronze, fount is the celebrated Royal center draft burner, giving a light equal to 7⅝ candle power, is made of brass, highly polished, and will hold enough oil to burn eight hours. The silvered glass reflector is 10 inches in diameter and can be so adjusted as to throw light wherever needed. Shipping weight, 25 pounds. Price, complete.....$2.98

Our Polished Nickel Plated Reading or Table Lamp.

No. 2T752 Our Polished Nickel Reading or Table Lamp. It is a complete metal lamp with one of the best center draft burners on the market. It will give as good light as a gas burner. It is complete with 10-inch opal dome shade, holder, wick and chimney. This lamp is well made and shapely throughout. It gives a strong, steady bright light, and the wick can be raised or lowered instantly. It is made of plain polished metal with neat embossing at base, giving it a handsome appearance.

Our special price..... **$1.59**

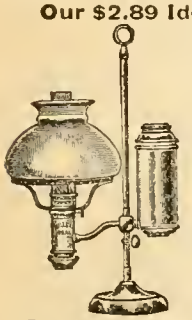
Embossed Nickel Center Draft Reading Lamp.

No. 2T754 Our New Embossed Nickel Center Draft Reading Lamp, complete with 10-inch opal dome shade, chimney and wick. The high grade burner used makes it one of the best lamps on the market. Always clean; largest quantity of light and smallest amount of oil makes it an economical lamp. Shipping weight, packed, 25 pounds. Price, each..... **$1.88**

STUDENT LAMPS.

Student Lamps are universally recognized as the most perfect lamp for reading and studying, on account of the fact that they can be adjusted to any height and the powerful light is then thrown directly upon the book, and as the oil fount is at one side there is no shadow underneath the lamp. We have handled different makes of Student Lamps for years and we find that the following line is absolutely the best upon the market, as the mechanism is so perfect that they give no trouble, but prove perfectly satisfactory in every way.

Our $2.89 Ideal Student Lamp.

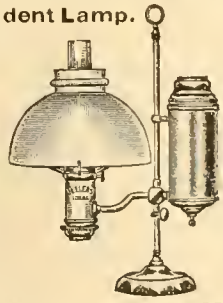


This lamp is nickel plated, has center draft burner with removable fount and perfect wick attachments, Junior Rochester wick and chimney, 7-inch dome shade. It will burn nine hours with one filling. Can be adjusted to any height. Is perfectly safe and reliable. Packed complete in a box for shipment. Weight, 16 pounds.

No. 2T756 With white shade. Price..... **$2.89**

No. 2T757 With green shade. Price..... **$3.14**

Our $4.65 Ideal Student Lamp.



This Nickel Plated Student Lamp is the same as No. 2T756, but much larger in every way. It has a 10-inch dome shade and large center draft burner, No. 1 Rochester chimney and wick. The oil fount, which is removable for filling, has a capacity of one full quart. It will burn seven hours without refilling. Where a very strong light is desired for reading we would advise the purchase of this lamp. Packed in wooden box. Shipping weight, 20 pounds.

No. 2T759 With white shade. Price..... **$4.65**

No. 2T760 With green shade. Price..... **4.95**

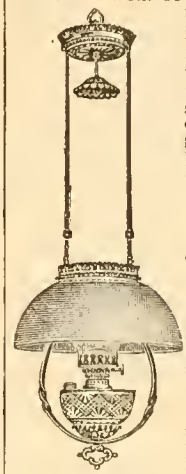
Our Ideal Double Student Lamp is full nickel plated, and having a light on each side of the extension rod it makes a very neat and attractive design. The center draft burners of these lamps are large and throw out a very strong, clear, bright light. Junior Rochester chimney and wick is furnished with 7-inch dome shades. The oil capacity is one full quart, and will burn seven hours. It can be adjusted to any height and as it balances perfectly can be carried from place to place. One of the most useful and attractive lamps on the market, and being furnished with the best grade of burners will give no trouble.

No. 2T762 Our price, with 7-inch white dome shades..... **$5.95**

No. 2T763 Our price, with 7-inch green dome shades..... **6.45**

LIBRARY LAMPS.

We Desire to Call Special Attention to our line of Library Lamps, and to the fact that all metal parts of our lamps are made of solid brass with handsome lacquered bronze finish. A great many dealers advertise library lamps which in appearance are similar to ours, but are made of bronze metal, which is oftentimes mistaken for brass when the lamps are new, but will not stand the wear and retain the handsome appearance of a solid brass lamp. **We guarantee every one of our lamps to stand the wear of a lifetime, and guarantee them not to tarnish.** We can furnish a cheaper grade of bronze metal lamps, if desired, at much lower prices than we quote on our line, but recommend the lamps on which all metal parts are made of solid brass at the very small additional cost between the two grades of lamps. Each lamp carefully packed to insure safe delivery.



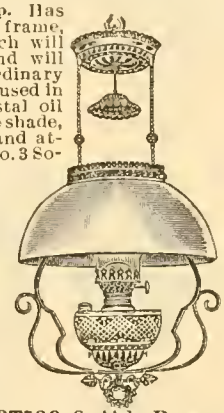
No. 2T785

Our Leader at $1.98.

No. 2T785 This lamp has 14-inch plain white dome shade with No. 2 Victor Burner and No. 2 chimney; wick, 1-inch; **solid brass frame.** Length closed 27 inches, extended 63 inches. **This frame being of solid brass** will give much better service than the common polished bronze metal lamps, and is equal in every respect to lamps your dealer will ask $3.00 for.

Our special price..... **$1.98**

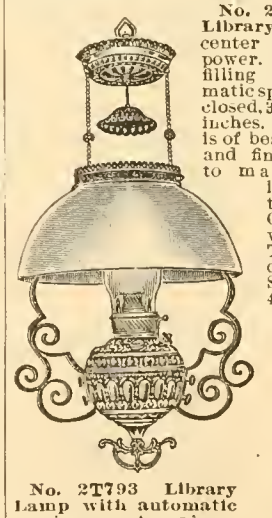
No. 2T786 Same lamp as above, but with ball weight extension. Length, when closed, 39 inches; extended, 55 inches. Shipping weight, securely packed, 41 pounds. Price..... **$1.83**



No. 2T787 Library Lamp. Has extra heavy reinforced frame, made of solid brass, which will give far better service and will last longer than the ordinary bronze metal so commonly used in lamps of this style. Crystal oil fount and 14-inch plain dome shade, making a very beautiful and attractive lamp. Extra large No. 3 Solar burner and No. 2 Electric chimney; wick, 1¾ inches. High grade automatic spring extension; length, when closed, 30 inches; extended, 61 inches. The spring extension makes the lamp suitable for high or low ceiling. Shipping weight, about 40 pounds.

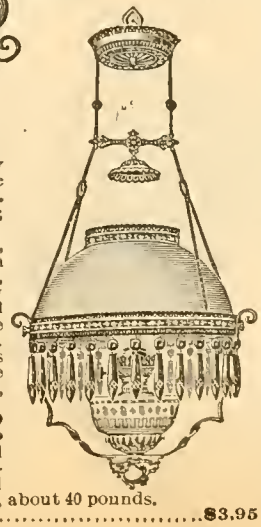
Price, complete..... **$2.45**

No. 2T788 Same lamp as described above but with handsome decorated dome shade. Price..... **$2.95**



No. 2T789 Solid Brass Library Lamp with No. 2 Juno center draft fount; 85 candle power. Fount removable for filling and cleaning. Automatic spring extension. Length, closed, 33 inches; extended, 69 inches. The base of the lamp is of beautiful embossed metal and finished in rich bronze to match the frame. This is a new design and is up to date in every way. Complete with 14-inch white dome shade. Takes No. 2 Rochester chimney and wick. Shipping weight, about 40 pounds.

Price..... **$3.24**



No. 2T793 Library Lamp with automatic spring extension. Length, closed, 30 inches; extended, 66 inches. Plain white dome shade, fancy glass oil fount with No. 2 Victor Burner, common No. 2 chimney and 1-inch wick. **Solid brass frame,** not the common bronze metal. Has 30 cut glass pendants suspended from shade band. Shipping weight, about 40 pounds.

Price..... **$3.40**

No. 2T794 Same lamp as above, but furnished with beautifully decorated dome shade and fount. Shipping weight, about 40 pounds.

Price..... **$3.95**

LIBRARY LAMPS Continued.

No. 2T797 Library Lamp. Has elaborate frame made of solid brass; not the bronze metal used on similar lamps of cheaper grade. The frame is extra heavy and reinforced, ornamented with fancy castings of solid brass. Has 14-inch dome shade with 30 cut glass pendants suspended from the shade band. Fancy crystal fount, No. 3 Victor burner takes 1¾-inch wick, No. 2 Electric chimney. Shipping weight, about 40 lbs. Price, each.. **$4.25**

No. 2T798 Same Lamp as No. 2T797, described above, excepting the dome shade and fount are handsomely decorated with flower design on tinted background.

Price, each..... **$4.48**

No. 2T864 Price, complete, brass finish $2.95
No. 2T865 Price, complete, nickel finish.... 3.15

SUNBURST CASOLINE INCANDESCENT LAMPS.

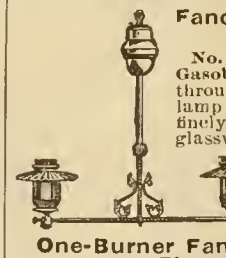
The Cheapest and Most Brilliant Light on Earth. Absolutely Safe and Reliable.

A new departure in the construction and principle of the generator and gasoline fount. The Sunburst is superior to all other lamps because there are no needle valves to clog up; no stuffing boxes to leak; no asbestos packing requiring constant renewal; no dismantling in order to clean; no complicated mechanism to get out of order. So simple that any child can easily understand and operate it.

1st.—It requires very little time to start the generator. 2d.—The method of filtering the gasoline before it reaches the generator reduces the possibility of clogging to a minimum. 3d.—Our system of packing the tube with corundum, thus minutely subdividing the gasoline before it is delivered into the Bunsen burner, insures a steady and even light. It will not flicker or flash; in fact the candle power does not vary one iota from one hour to the other. 4th.—Our Bunsen burner is so constituted that it automatically regulates the amount of gasoline and air, and hence a perfect combustion is at all times maintained. 5th.—The simplicity of the burner is such that it cannot get out of order. 6th.—By simply removing one screw the entire interior of the gasoline passage is exposed, for the purpose of cleaning, when required. This feature is possessed by no other generator manufactured.

One gallon of gasoline burns sixty hours. No smoke. No odor. Absolutely safe. The most economical light in use. Fully approved by the Fire Insurance Underwriters.

Fancy Two-Burner Gasoline Fixture.



No. 2T870 Fancy Two-Burner Gasoline Fixture. Made of brass throughout, spun brass tank, etc., a lamp nice enough for any residence, finely finished, heavy mantle and glassware. Price, complete, as shown in illustration, ... $7.00

One-Burner Fancy Gasoline Fixture.

No. 2T871 One-Burner All Brass Gasoline Fixture. Spun brass tank, extra heavy tubing, fancy scroll bracket, large opal shade, heavy mantle and glassware. One of the handsomest lamps made. Price, complete as shown in illustration $4.25

Student Gasoline Lamp.

No. 2T873 All Brass, Nickel Plated Gasoline Student Lamp; removable tank; burner and lamp can be raised or lowered. Extra heavy base, which prevents lamp from upsetting. A very handsome lamp, nice enough for any library. Easily moved from place to place. Price, complete, as shown in illustration $3.98

Gasoline lamps continued on next page.

Automatic Lamp Extension.

No. 2T875 Ornamental Hanging Lamp Extension. Should be used on all gasoline lamps where ceiling is high. **Allows the lamp to be lowered when refilling, etc. Not necessary to remove lamp from hook.** Can also be used on all kinds of hanging lamps, gasoline or kerosene. Weight, about 10 pounds. Price, each.....**$1.15**

The Vapor Lamp.

The construction of Vapor Lamps is thoroughly first class in every respect. They are made entirely of heavy brass (18-gauge fount), oxidized copper finish, lacquered, and present a very handsome appearance. Each lamp is carefully tested and examined before shipment to make sure that it is perfect. **The lamp is not in any way complicated;** there is nothing to get out of order and it is easy to operate. **This lamp differs from our regular gasoline lamp inasmuch as we use air pressure instead of gravity pressure.** By the air pressure system we give five times the candle power to be obtained from an ordinary lamp. **For stores, barber shops, halls, skating rinks and billiard rooms it has no equal.** Two lamps will light a large size store and hall, as each lamp gives 500-candle power. Weight, 20 pounds.

No. 2T876 The complete lamp includes the burner, deflector, lighting cup, alcohol can, chimney, fluted shade, mantle and holder, air pump and wrench. Price, each..... .....**$8.00**

Little Wonder Lamp.

No. 2T888 The chief advantage of our Little Wonder is that it has none of the objectionable features of other forms of lighting. With 5 cents worth of gasoline it will produce a light throughout the night superior to any electric arc. No breeze or draft of air is strong enough to blow it out or affect its steadiness in any way. Specially adapted for public places. It is the newest of our gasoline vapor lamps to be pronounced absolutely safe. **No kind of glassware is needed in connection with The Little Wonder light.** Fragile globes can be dispensed with and there is absolutely no necessity for shades, reflectors or any other glass. When we say **The Little Wonder** can be used without shade or glassware of any kind we do not wish to convey the impression that a globe cannot be used if so desired. **The Little Wonder lamp is handsomely nickel plated and beautifully finished. It is a high air pressure lamp, 500-candle power light.** Simple in construction and easy to operate. The cost of running expense is less than kerosene and will not exceed ½ cent per hour. With every lamp we furnish free an air pump, wrench, alcohol can, two mantles, one metal shade and funnel; all carefully packed. Shipping weight, 8 pounds.

No. 2T888 Our special price, complete.....**$7.00**

No. 2T889 Little Wonder Lamp. Same as described above, with transparent globe. Price.....**$7.50**

For extra mantles refer to Nos. 24T8790 and 24T8798, inclusive, page 578.

Our $1.09 Banquet Lamp.

No. 2T925 We have reduced the price of this beautiful banquet lamp from $1.55 to $1.09; bringing the price within the reach of all so that there is no reason why any family should not have a beautiful banquet lamp to help decorate their home. This lamp is 18 inches high with a beautiful 7½-inch globe and bowl to match. The decoration consists of colored flowers on tinted background. It is furnished with No. 2 brass Banner burner and takes No. 2 chimney and 1-inch wick. When securely packed in box this lamp will weigh 20 pounds.

Our price.....**$1.09**

Our Low Reading or Reception Lamp.

No. 2T927 It is a very beautiful lamp as well as an ornament to any home. It takes a No. 2 Electric chimney and 1-inch wick. It gives a very powerful light, as the formation of the shade will throw the light down as well as out. The shade is 11 inches across and is beautifully decorated with natural colored flowers on tinted background to match the bowl. It stands 18 inches high. Securely packed in a box ready for shipment. Weight, 25 pounds.

Price.....**$1.99**

A Porcelain Removable Oil Fount Lamp.

No. 2T929 We consider this lamp the greatest bargain ever offered. It is of the latest design, with handsome natural colored rose decoration on tinted background. It has a removable fount made of porcelain instead of brass, so that it can be easily cleaned, and there is no danger of leakage. This is a special feature in banquet lamps for this season, and a lamp with this style of fount is not only more serviceable, but gives a much better appearance. It is furnished with No. 3 Climax burner, No. 2 Electric chimney and takes 1⅛ inch wick. Stands 21 inches high. This lamp gives a splendid light and is a beautiful ornament to any room. Shipping weight, 22 pounds.

Price.....**$2.10**

Decorated Reading or Sewing Lamp.

No. 2T931 This lamp is the same design as catalogue No. 2T927, but is much better, having a removable brass oil fount, large center draft burner and takes No. 2 Rochester chimney with round wick. The decoration consists of hand painted floral decoration on both globe and bowl. The shade is 11 inches in diameter and the lamp stands 18 inches high. This lamp is especially desirable, as it makes a perfect reading lamp as well as an ornamental banquet lamp. Shipping weight, 25 pounds. Our price....**$2.40**

Our $3.35 Banquet Lamp.

No. 2T933 This beautiful lamp, with the latest design of brass collar at top of bowl, is one of the latest designs of the season. The base is set on solid cast brass base, has a removable oil fount and large center draft burner. Takes No. 2 Rochester chimney and round wick. The globe is 10 inches in diameter, and the lamp stands 24 inches high. The beautiful hand decoration consists of natural colored flowers and basket scroll on delicately tinted background. The lamp is packed securely for shipment. Weight, 25 pounds. Price.....**$3.35**

All our lamps are carefully packed to insure safe delivery.

Latest Design Banquet Lamp.

No. 2T935 For $3.75 we offer you one of the largest, handsomest, and best banquet lamps made, a lamp equal to those that retail at double our price. It stands 24 inches high, and has a 10-inch globe. The bowl rests on a solid brass gold plated stand. Both bowl and globe are delicately tinted. The decoration consists of natural colored flowers put on the globe before last firing by free hand work, so that it will not fade or rub off. The fount is removable and made of bright pressed brass. The fount holder has the latest solid brass collar. The lamp is equipped with the best large No. 2, 100 power center draft burner, and takes No. 2 Rochester chimney and round wick. Our illustration can give but a faint idea of the beautiful lamp which we furnish. Comes securely packed. Shipping weight, 30 pounds. Price...**$3.75**

Beauty Rose Pattern.

No. 2T937 This lamp has the popular tinted globe and bowl with the distinct free hand decoration consisting of beautiful rose and vines, making it an ornament to any home. It has cast brass gold plated base and brass oil fount with No. 2 center draft burner. It takes No. 2 Rochester chimney and round wick. It stands 25 inches high and has a large 11-inch globe. Our $3.95 price means a saving of fully 50 per cent on this particular lamp. Shipping weight, 30 pounds.

Price.....**$3.95**

The $4.25 Leader.

No. 2T939 This is the largest medium priced lamp on the market. It is of the very latest design, having the solid cast brass collar at top of bowl. The bowl sets on solid brass gold plated base and has a removable pressed brass oil fount with a large center draft burner and No. 2 Rochester chimney and round wick. The globe and bowl are beautifully decorated in large, natural colored flowers, put on by free hand process before last firing, and then hand embossed, which makes it stand out very distinct from the tinted background. The lamp stands 25 inches high and the globe is 11 inches in diameter. Shipping weight, 30 pounds.

Our price.....**$4.25**

Our Water Lily Design.

No. 2T941 This beautiful lamp, is decorated with water lillies on a ruby red background. The leaves and flowers are in raised or embossed hand work, which when lighted is very beautiful. The base is set on a solid brass gold plated stand and has cast brass collar with **two strong handles so that the lamp can be carried without danger.** Has pressed brass oil fount with large center draft burner, takes No. 2 Rochester chimney and round wick, 10-inch globe and stands 24 inches high. The illustration does not do the lamp justice, as it cannot bring out the beautiful floral decoration and dark red tinted background. It gives out a soft, rich tint which fills an entire room, giving a beautiful effect. Shipping weight, 30 pounds.

Price.....**$4.60**

Our Beautifully Decorated Cerise Lamp.

No. 2T943 This lamp is beautifully decorated with hand painted natural colored roses on a background of solid dark red. It is a strictly high grade lamp and can only be found in high class lamp departments in the largest cities. Very beautiful when lighted. It is of the latest design, having cast brass collar at top of vase. It has a heavy brass removable oil fount with a large center draft burner and No. 2 Rochester chimney and round wick. The burner can be easily removed for cleaning. The globe is 12 inches in diameter, being the largest made for banquet lamps. The entire lamp stands 30 inches high, and when packed securely for shipment weighs 40 pounds.

Our price... .....**$6.45**

SLEEPER CARTS.

These carts are made so that the back will fall back to a reclining position for the baby to sleep; at the same time the dash front is automatically raised as the back is reclined. When the baby falls asleep the back is dropped and the child is at once in an easy reclining sleeping position. The back and dash can be operated independently or simultaneously as desired.

Has tinned steel running gear, with brake. Extra large and roomy, has broad, closely woven cane seat, back and step; has an adjustable device to recline the back so as to make a sleeping cart, at the same time the foot is automatically raised as the back is lowered.

No. 25T125 Without upholstering or parasol. Our special price, $4.19

No. 25T341 Upholstered in extra quality of silk plush, otherwise the same as above.....$20.88
Extra for rubber tired wheels, 65 cents.

Twin Carriage, $11.58.

For $11.58 we furnish this Twin Carriage as the equal of carriages that will retail at far more than our price. The body is made extra large and roomy, extra strong throughout. Strong, maple frame, mitered, screwed, glued and plugged at joints. Pattern woven cane bottom. Fine imported reed work, hand woven, nicely finished and heavily shellaced. The upholstering is of the best grade. Best Walker gear, extra heavy Bessemer steel wheels, axles, springs and Kinley automatic brake.

No. 25T344 Upholstered in Glenmore cloth with plush rolls, sateen parasols with ruffle edge..$11.58

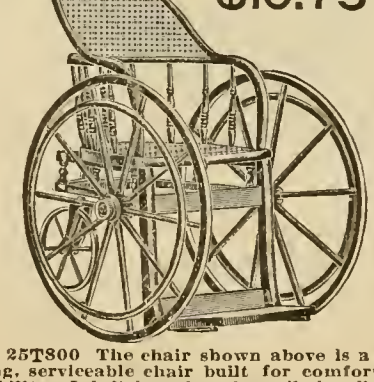
No. 25T345 Upholstered in armure tapestry with silk plush rolls, silk satin parasols, lined, ruffle edge.....$13.35
Extra for rubber tired wheels, 65 cents.

ALL GO-CARTS, SLEEPERS AND CARRIAGES are made special, and we therefore require 3 to 5 days after order is received before we can make shipment.

WHEN ORDERING a Go-Cart, Sleeper or Carriage be sure to state color of upholstering desired. For a list of all different colors which we can furnish, see introductory description on page 652.

INVALIDS' CHAIRS.

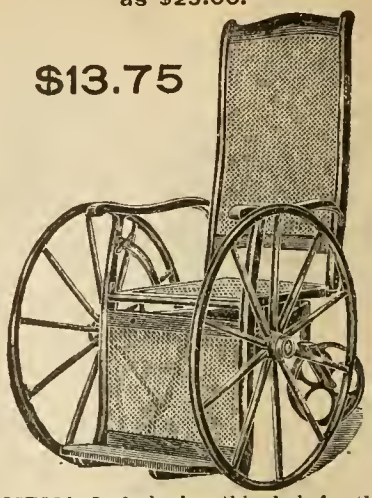
This comfortable Invalids' Chair is a substantial wheel chair, and at $10.75 is wonderful value.



No. 25T800 The chair shown above is a good, strong, serviceable chair built for comfort and durability. It is light and can be easily handled and makes a splendid indoor chair. The dimensions of this chair are as follows: Width of seat, 18 inches; height of back, 20 inches; distance from seat to foot rest, 17 inches; front wheels, 28 inches; back wheel, 12 inches.

Price of this chair with wood or steel wheels..	$10.75
Hand rims, extra.....	.75
Push handles, extra.....	.75
Rubber tired wheels, extra.....	7.60
Ball bearing rubber tired wheels, extra....	11.40
Leather cushion for seat, extra...	2.20

Our $13.75 Invalids' Wheel Chair is the Equal of Those Selling as High as $25.00.

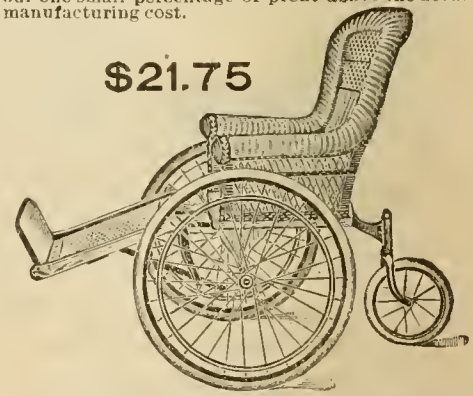


No. 25T804 In designing this chair for the use of invalids everything for their comfort has been considered. It is light, strong and durable, yet so constructed as to afford the greatest comfort without sacrificing any of the necessary strength. The frame work is of oak and fitted with open cane, which is cool and elastic and practically never wears out. The dimensions are such as to be large enough for a person weighing 250 pounds, and we make larger sizes to order. The back is of sufficient size to rest the head and shoulders and the arm rests are such as to comfortably rest the forearm without danger of the hands coming in contact with the wheels. The reclining attachment is very simple; in fact, it is practically automatic and there is nothing to get out of order. The foot rest swings out of the way, making it an easy chair to get in and out of. A chair of equal merits has never before been offered for so low a price. The dimensions of this chair are as follows: The back, 29 inches high; the seat, 19x17 inches; front wheels, 28 inches; back wheel, 12 inches; distance from seat to the foot rest is 17 inches. This chair will go through any ordinary doorway.

Price of this chair with steel or wood wheels.....	$13.75
Hand rims on wheels, extra..	.75
Push handles on back, extra.....	.75
Rubber tired wheels, extra.....	7.60
Ball bearing rubber tired wheels, extra....	11.40
Damask cushions for back, seat and leg rests, extra.....	7.70

Our $21.75 Rattan Invalids' Chair.

THIS INVALIDS' CHAIR is sold by specialty dealers in these goods at almost double our price. We ask only our one small percentage of profit above the actual manufacturing cost.



No. 25T808 The above chair is one intended for indoor as well as outdoor use. The body is made of rattan wicker work, so shaped as to afford the greatest amount of comfort. The leg rests which form so essential a part of invalids' chairs, is especially designed on this chair to give the greatest amount of comfort and at the same time the adjustment is very easy and such that it will not get out of order. The leg rests are made to extend automatically several inches when they are raised on a level with the seat. This chair can be propelled by the occupant by using the hand rims which are attached to the wheels, and as the back caster wheel turns in any direction, the chair is easily guided and requires no effort to propel it from place to place. The dimensions of this chair are as follows: The back is 28 inches high, the seat is 18x17¾ inches, the distance from the seat to the footboard when down is 17 inches.

The price of this chair with steel or wood wheels is.....	$21 75
Hand rims on wheels, extra..	.75
Rubber tired wheels extra.....	7 60
Ball bearing rubber tired wheels, extra....	11.40
Push handles, extra.....	.75
Pneumatic tires, extra.....	3.80
Leather cushion for seat, extra.....	2.20

SEWING MACHINE HEADQUARTERS.

WE FEEL THAT WE ARE JUSTLY ENTITLED to the distinction of being headquarters for sewing machines, for even our competitors will have to admit that we are the largest dealers in sewing machines in America. We sell many times as many sewing machines as all other catalogue or mail order houses combined; more than the combined capacity of four of the leading sewing machine factories with a daily output of over 500 sewing machines, our sales averaging for a nine-hour day one sewing machine per minute. We have been able to effect savings in the cost of manufacturing the many different parts that go into a sewing machine. We have been able to make many improvements, bringing our machines up to the highest standard of quality, and on our one small percentage profit plan, offer them direct to our customers at prices that baffle any attempt to compete with us.

EVERY SEWING MACHINE MANUFACTURER and dealer knows that in the past five years we have done more to improve and compel others in competing with us to improve the quality of their machines, and have done more to compel others to sell their machines at lower prices than all the sewing machine makers and dealers combined have done in all the past years.

OUR SEWING MACHINES are to be found in every town and community in the United States. The MINNESOTA, HOWARD, BURDICK, NEW QUEEN, EDGEMERE and SEROCO sewing machines will be found in every neighborhood, in every town and community, in every city in the Union, and so it hardly seems necessary for us to explain to you the many essential points in which our finest machine, how the Minnesota is the superior of any other sewing machine made regardless of price, how our Howard machine can only be compared with the highest priced machine sold by exclusive agents, and how our Burdick, New Queen, Edgemere and Seroco machines are superior to sewing machines widely advertised by many who only make a feeble attempt to compete with us; how the machines we sell in five-drawer drop cabinet style at $8.95, $10.45, $11.95 and $12.85 are really worth two of the machines that are now being sold by a number of merchants who retail them at $15.00 to $25.00.

ASK YOUR NEIGHBORS ABOUT OUR SEWING MACHINES, for the best proof of quality is the actual test. There are some of our sewing machines in your town, in your neighborhood. Possibly a friend, a relative, maybe your next door neighbor, has one of our machines. If not, and you will write us, we will give you the names of a number of people in your immediate vicinity who are using our machines, purchased from us. Look at their machines, ask them how they like them, how they compare with other machines they know of or have used. Ask them how much they feel they have saved by buying their sewing machine from us. All we ask is that you make this little investigation before buying a sewing machine from any other dealer or agent. We have read in catalogues, circulars and newspaper advertisements glowing descriptions and wonderful claims for sewing machines of a grade that we would not care to handle, and so we are anxious to leave the matter of ordering the sewing machine to the result of a little investigation on your part among people in your neighborhood who are using our machines.

ABOUT THE MINNESOTA SEWING MACHINE. While all our sewing machines, from the lowest priced, the $8.95 five-drawer drop head Seroco, to the very best, are good, sterling quality and will give entire satisfaction, we feel and honestly believe that our highest grade machine, the Minnesota, is the finest, the best sewing machine on the market regardless of price, and we believe, if there is one in your immediate neighborhood (and there surely is more than one), the people who own them believe as we do and would have no other, and so before you decide on the kind of a machine to buy or where to buy it, we urge you to first see and examine a Minnesota, and ask the party who owns and has used it what they think of it. If you do not know just where to see one, just what neighbor of yours has one, write us and we will give you the names of people in your neighborhood who own a Minnesota sewing machine.

OUR TERMS OF SHIPMENT. C. O. D., subject to examination, payable at your nearest railroad station after having been seen, examined and found satisfactory; or, cash in full with the order under our binding guarantee and three months' trial. While nearly all of our customers send cash in full with their orders, thus saving the express charges on return of money to us (a charge of from 25 cents to 50 cents which the express companies invariably make for collection and return of the money), on receipt of $1.00 as a guarantee of good faith, we will send any sewing machine to any address in the United States by freight, C. O. D., subject to examination. We will ship the machine to your nearest railroad station, consigning it to ourselves and sending a draft for the price of the machine, less $1.00, either to your express agent or banker. We will request the railroad agent to allow you to see and examine the sewing machine before paying one cent, and while nearly all the railroad agents will oblige us and allow our customers to examine the machine thoroughly before paying them, we, of course, cannot oblige the agent to uncrate and allow you to examine the machine; but you can at least see it in the crate at the railroad depot and in most cases, having our request so to do, the agent will allow you to examine it thoroughly.

AFTER HAVING EXAMINED THE SEWING MACHINE and found it to be perfectly satisfactory, all that we claim for it, after you have convinced yourself it is the greatest sewing machine value ever offered by any house, you can then pay the express agent or the banker who has the draft, the price of the sewing machine and the collection charge for return of money (usually from 25 cents to 50 cents), less the $1.00 sent with the order, and the railroad agent will then deliver the sewing machine to you, you, of course, paying the freight, which you will find will amount to next to nothing compared with what you will save in price.

IF YOU SEND $1.00 WITH YOUR ORDER, the machine to be shipped C. O. D., the balance payable after the sewing machine is received and examined, you have the same three months' trial privilege as if you had sent cash in full with your order, and have the privilege of giving the machine every reasonable test in your own home, and if within that time you become dissatisfied for any reason whatever, you can return the machine to us and we will return your money. If you send $1.00 with your order, balance payable after received, the sewing machine is sent to you with the same binding guarantee that goes with all our sewing machines.

WHILE WE ARE PERFECTLY WILLING to send any sewing machine to any address on receipt of $1.00, balance payable after received, examined and found satisfactory, to save you the extra express charge of 25 cents to 50 cents for collection and return of money to us, to avoid any possible delay incident to the handling of C. O. D. shipments, we always advise our customers to send the full amount of cash with their orders. They, of course, take no risk, for if the sewing machine is not perfectly satisfactory, we immediately return their money and under our three months' free trial offer and 5 and 20 years' binding guarantee, you are thoroughly protected.

CUSTOMERS WHO HAVE ALREADY DEALT WITH US rarely ever order sewing machines C. O. D., and even new customers send the full amount of cash with their orders. But, as an inducement to those who do not care to send the full amount of cash with their order, we are perfectly willing, on receipt of $1.00, to send any machine, the balance payable on receipt of the machine.

IF YOU SEND THE FULL AMOUNT OF CASH with your order, the sewing machine will be shipped direct to you in your name, and the bill of lading or railroad freight receipt will be mailed direct to you, and you will only have to go to your nearest railroad station, present the bill of lading we will mail you, pay the freight (which will amount to very little), and receive your machine. You are thus saved the annoyance attending a C. O. D. shipment, which compels you to go to the bank or express office and pay the amount of draft or C. O. D., securing the bill of lading from the express agent or bank before you are able to have the machine delivered to you.

WITH EVERY SEWING MACHINE we ship we allow a three months' free trial; in other words, if at any time within three months you become dissatisfied with your purchase for any reason whatever, you can return the sewing machine to us at our expense of freight charges both ways, and we will immediately return your money. (Note below a copy of our three months' memorandum free trial agreement that is sent with every machine.

OUR 20 YEARS' BINDING GUARANTEE. With every sewing machine, except the Seroco (which we guarantee for 5 years), we issue a written, binding 20 years' guarantee. (Note the copy of our 20 years' binding guarantee at the bottom of the page.) Under the terms and conditions of this guarantee, if any piece or part of the sewing machine you buy gives out within 20 years by reason of defect in material or workmanship, it will be replaced or repaired by us free of charge. This is the longest, strongest and most binding guarantee furnished with any sewing machine made.

REPAIRS OR SUPPLIES for machines listed in this catalogue, such as needles, bobbins, shuttles, attachments, etc., may be secured from us at any time at lowest possible prices. As we carry a complete stock of all parts used in the construction or operation of our machines, we can fill orders for supplies promptly and without delay. The supplies furnished by us for our machines are the genuine parts, manufactured by the makers of the machines. Under the terms of our contract with the manufacturers we can furnish repairs for our machines at any time in the future. An order for repairs placed with us ten or fifteen years from date will be filled as promptly and as accurately as an order placed today. See page 677 for price on sewing machine supplies.

MEMORANDUM OF AGREEMENT.

This is to Certify That this machine, No....., is sold by us with the understanding and agreement that if it does not prove entirely satisfactory in every respect to the purchaser, it CAN BE RETURNED AT ANY TIME WITHIN THREE MONTHS FROM DATE, ... 190.., and the full amount paid for the machine, including freight charges, will be cheerfully refunded to the purchaser.

References by special permission: [SIGNED]

National City Bank, German Exchange Bank, Metropolitan National Bank, Corn Exchange Bank, } New York. } Chicago.

SEARS ROEBUCK AND CO

THE FREIGHT CHARGES will be but a small item; in fact, will amount to next to nothing as compared to what you will save in price, by sending your order to us. The freight charges will average 40 cents for 200 miles, 60 cents for 400 miles, and $1.25 for 1000 miles; greater or lesser distances in proportion. In sending your order to us consider these points: A first class, high grade sewing machine at manufacturers' prices. Our binding guarantee. No risk, money in full refunded if not satisfactory. Small amount pays the freight charges. We hope to receive your order, and assure you it will command our most prompt and careful attention. In sending your order to us, please be sure to give the catalogue number, name and price of the sewing machine on the order blank. Do not hesitate to order a machine. It will be shipped entirely at our risk.

AS TO OUR RELIABILITY. We are incorporated under the laws of the State of Illinois, with a cash capital and surplus of over Two Million Dollars. We refer, by special permission, to the National City Bank or German Exchange Bank of New York, to the Metropolitan National Bank or Corn Exchange National Bank of Chicago, or to any railroad company, express company or resident of Chicago, and we would advise you before ordering elsewhere to write any friend you may have in Chicago to come to our store and see and examine our sewing machines, and then examine the machines offered by any other house in this city, and if they don't write you that you can get a much finer machine from us for less money than you can buy elsewhere, we will not expect your order.

OUR SEROCO AT $8.95.

IN LISTING OUR SEROCO AT $8.95, we demonstrate our ability to furnish a guaranteed machine at the lowest price ever heard of. It is fully equal in every respect to machines sold elsewhere, widely advertised as first class at $10.00 to $12.00. While it is exceptional value for the money and we guarantee to replace any parts that might prove defective for a term of five years, we do not recommend it to give the length of service or the satisfaction of our better machines. With care the machine will give fair service for a number of years, and we sell the SEROCO in order to furnish the best possible machine to those who cannot afford to buy a better or more improved grade.

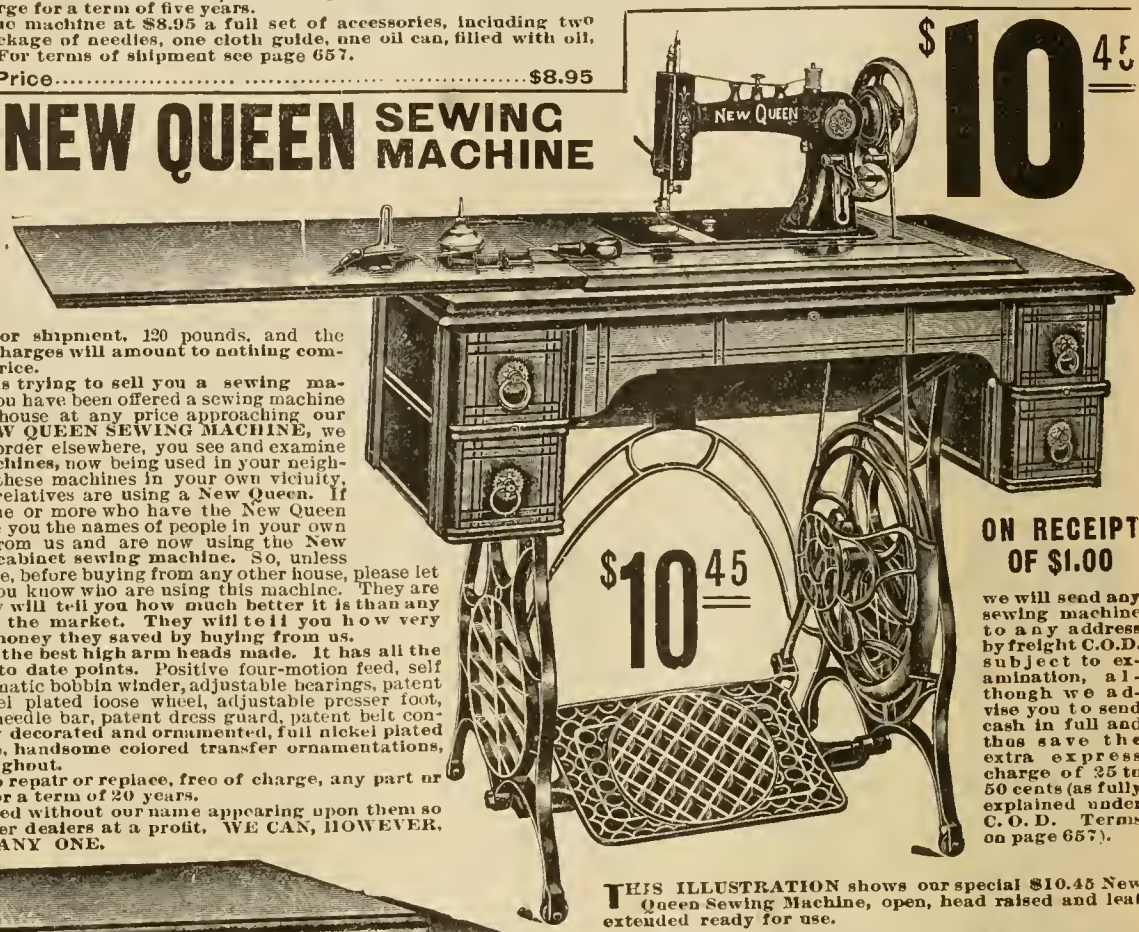
THE DIFFERENCE IN THE PRICE of our SEROCO and our best machines is so small that the majority of our customers purchase our higher grades, particularly the MINNESOTA and HOWARD, which are the best and most improved machines it is possible to manufacture, and which will give the best of service for practically a lifetime.

DESCRIPTION OF THE SEROCO. The cabinet is constructed of oak, strongly made and finished very neatly, fitted with durable black enameled stand with adjustable treadle. The head has a high arm, is neatly decorated and ornamented with nickel plated face plate, black enamel base and nickel trimmings throughout, and is fitted with many improvements not found on machines sold at such a low price. We guarantee the machine and agree to replace or repair any defective parts free of charge for a term of five years.

WE FURNISH FREE with the machine at $8.95 a full set of accessories, including two screwdrivers, six bobbins, one package of needles, one cloth guide, one oil can, filled with oil, one complete instruction book. For terms of shipment see page 657.

No. 26T10 Our Special Price.....$8.95

$10.45 BUYS OUR NEW QUEEN SEWING MACHINE



We are able to offer our 20-Year Guaranteed 5-Drawer Drop Head Cabinet New Queen Sewing Machine, for

ONLY $10.45.

The lowest price on a High Grade Sewing Machine ever attempted.

THE MACHINE WEIGHS, crated for shipment, 120 pounds, and the freight charges will amount to nothing compared to what you will save in price.

IF ANY DEALER or agent is trying to sell you a sewing machine at $25.00 to $50.00, or if you have been offered a sewing machine by any catalogue or mail order house at any price approaching our special $10.45 price for the NEW QUEEN SEWING MACHINE, we urge that before you place your order elsewhere, you see and examine one of our New Queen Sewing Machines, now being used in your neighborhood. There are a number of these machines in your own vicinity, possibly some of your friends or relatives are using a New Queen. If not, and you do not know of one or more who have the New Queen machine, write us and we will give you the names of people in your own neighborhood who have bought from us and are now using the New Queen, this special $10.45 drop cabinet sewing machine. So, unless you order direct from our catalogue, before buying from any other house, please let us give you the names of people you know who are using this machine. They are among your own neighbors. They will tell you how much better it is than any of the many cheap machines on the market. They will tell you how very satisfactory it is and how much money they saved by buying from us.

THE NEW QUEEN HEAD is one of the best high arm heads made. It has all the latest improvements, all the up to date points. Positive four-motion feed, self threading, vibrating shuttle, automatic bobbin winder, adjustable bearings, patent tension liberator, improved nickel plated loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patent dress guard, patent belt controller. The head is handsomely decorated and ornamented, full nickel plated face plate, black enameled base, handsome colored transfer ornamentations, beautiful nickel trimmings throughout.

GUARANTEE: We agree to repair or replace, free of charge, any part or parts that may prove defective for a term of 20 years.

NOTE Our machines are furnished without our name appearing upon them so they can be resold by other dealers at a profit, WE CAN, HOWEVER, ALLOW NO DISCOUNTS TO ANY ONE.

ON RECEIPT OF $1.00

we will send any sewing machine to any address by freight C.O.D. subject to examination, although we advise you to send cash in full and thus save the extra express charge of 25 to 50 cents (as fully explained under C. O. D. Terms on page 657).

HIGH ARM

The $10.45 New Queen has one of the HIGHEST ARMS OF ANY SEWING MACHINE MADE, giving ample room for the handling of large and bulky material.

THE ABOVE ILLUSTRATION gives you an idea of the appearance of our Special $10.45 5-drawer, Drop Head Cabinet, New Queen Sewing Machine closed, to be used as a writing desk, center table or stand. The head drops completely from sight, table folds up, and being of highly polished and finished antique oak, forms a beautiful piece of furniture.

THIS ILLUSTRATION shows our special $10.45 New Queen Sewing Machine, open, head raised and leaf extended ready for use.

CABINET. The New Queen Cabinet is a very handsome 5-drawer, drop head cabinet, the newest style, made of selected oak, beautifully finished and highly polished. Comes with four side drawers and one center drawer, the latest 1902 model skeleton frame, carved, paneled, embossed and decorated and beautifully finished throughout. The cabinet is furnished with nickel drawer pulls, rests on four casters, has a Saxton adjustable treadle, one of the best full enameled iron stands made.

FINISH. This machine is given an extra fine finish throughout. Heavy nickel plated face plate, nickel plated balance wheel, fine full finished enameling, fancy color decoration and ornamentation.

IT HAS BEEN CUSTOMARY with all dealers to furnish a complete set of attachments with every machine, adding the cost of these attachments to the price of the machine, whether the customer requires them or not. We have found from our past experience that but a small per cent of our customers have use for all of the attachments; in fact, a great many of our customers do not require any. We, therefore, decided to offer this machine at the low price of $10.45, giving you the privilege of procuring such attachments as you desire at cost price. If you require any or all of the extra attachments, remit us sufficient to cover price of such attachments.

WE FURNISH FREE WITH THE MACHINE: 1 Oil Can, filled with oil; 6 Bobbins (1 in machine, 5 extra), 2 Screwdrivers, 1 Package Needles, 1 Cloth Guide and Screw, 1 Quilter Guide.

BELOW WE QUOTE SPECIAL PRICES ON ATTACHMENTS, WHICH ARE EXTRA:

1 Thread Cutter, 1 Braider Foot, 1 Binder, 1 Set of Hemmers..... 25c
1 Tucker..... 15c
1 Ruffler..... 30c

COMPLETE SET, including 1 Thread Cutter, 1 Braider Foot, 1 Binder, 1 Set of Hemmers, 1 Tucker, 1 Ruffler, packed in velvet lined box..... 70c

THE INSTRUCTION BOOK which we furnish with this machine, shows how to use all the above mentioned attachments, and if you desire to order a full set or any part of a set, we ask you to be sure and mention exactly what you desire.

ALL ATTACHMENTS ARE GUARANTEED FIRST CLASS in every respect, made of best quality steel, beautifully nickel plated and finished, and guaranteed to fit the machine and work perfectly. NEEDLES, BOBBINS, SHUTTLES and all necessary supplies for this machine can be secured from us at any time without delay. See page 677 for prices on sewing machine supplies.

No. 26T15 New Queen, 5-Drawer, Drop Head Machine - $10.45
(Without Attachments.)

We Ship the Machine Free on Board the Cars at our Factory near Chicago.

OUR EDGEMERE DROP LEAF AND BOX COVER MACHINES.

OUR $1.00 C. O. D. OFFER. On receipt of $1.00 we will send any sewing machine to any address C. O. D. subject to examination. You can examine it at your nearest railroad station and if found perfectly satisfactory, exactly as represented, the greatest sewing machine value ever shown in your section, you can then pay the railroad agent our price, freight and collection charges, less the $1.00 sent with the order. To those who do not feel like paying for the sewing machine until after they have received it, there is a big advantage in our $1.00 C. O. D. offer, while to those who wish to save an extra express charge of 25 cents to 50 cents and the inconvenience of delivery of C. O. D. shipments there is an advantage in sending the full amount of cash with the order, which nearly all of our customers do. You, however, have your choice in terms, which is all fully explained on page 657.

A STRICTLY HIGH GRADE, FULL HIGH ARM SEWING MACHINE.

The greatest value ever offered; must be seen to be appreciated. . . . .

OUR TWENTY-YEAR WRITTEN BINDING GUARANTEE

protects you against loss if any piece or part of the machine should prove defective in material or workmanship, as we will replace same free of charge, and if necessary send you an

ENTIRE NEW MACHINE AT OUR EXPENSE. . .

OUR PRICE REPRESENTS, with but our one small profit added, the actual cost of labor and material, and if you buy one of our EDGEMERE MACHINES, as illustrated, you will be paying less than any dealer can buy the same grade of machines for in carload lots.

JUST TO HELP YOU TO DECIDE what kind of a sewing machine to buy, where to buy it (for we know there are many kinds offered by many houses at many prices), allow us to suggest that you do not be influenced by any claims made by any merchant or sewing machine agent, nor be influenced by any of the extravagant representations made by many houses advertising sewing machines, but just make a little inquiry among people who are using sewing machines that they have purchased from us. If these people tell you the sewing machines they have bought from us are all and more than could be expected, strictly high grade in every way, the equal of sewing machines that sell at two to three times the price, if they tell you in all their acquaintance they do not know of another sewing machine that was ever purchased at anything like the price that would compare with our machine, if they tell you honestly in their judgment that they believe you can get a better machine from us and for less money than you could possibly get elsewhere, you will know that you are talking with someone who has no motive for misrepresenting it and you will feel safe in deciding to send to us for your sewing machine; and if you do not know just where to see one or more of our sewing machines in your neighborhood, write us and we will give you the names of a number of people in your immediate neighborhood who are now using our machines.

IF YOU HAVE A FRIEND IN CHICAGO to whom you can write, we would be pleased to have them come to our store and examine any machine which we list in our catalogue, and have them write you. We are satisfied we will be in receipt of your order.

WE CARRY A COMPLETE STOCK of all parts used in the construction or operation of this machine, and can fill orders for supplies promptly. The parts furnished are the genuine parts supplied us by the maker of the machine. Our prices on first quality needles, bobbins, shuttles, attachments, etc., are much lower than quoted by other firms. See page 677.

This tells just what Freight you will have to pay:

A sewing machine weighs, crated for shipment, 125 pounds. The railroad companies carry sewing machines at first class freight rate. On pages 7 to 11 you will find the first class freight rate for 100 pounds to a point nearest your town. The freight will be almost, if not exactly, the same to your town, so you can tell almost to a penny what the freight will amount to. As a rule the freight on a sewing machine averages about 60 to 75 cents for 500 miles; 80 cents to $1.25 for 1000 miles.

A FULL SET OF ATTACHMENTS in a handsome velvet lined metal box, as described below

75 CENTS EXTRA.

Special Features OF OUR HIGH GRADE, HIGH ARM Edgemere Machine.

OUR EDGEMERE has one of the highest arms of any sewing machine made, giving ample room for the handling of large and bulky material.

MECHANICAL CONSTRUCTION. Has the very best constructed, positive four-motion feed, self threading, vibrating shuttle, automatic bobbin winder, adjustable bearings, patent tension liberator, improved nickel plated loose wheel, adjustable presser foot, improved shuttle carrier and patent needle bar.

THE FINISH. Our Edgemere is given an extra fine finish throughout. Has a heavy nickel plated face plate, nickel plated hand wheel, very finest full finished enameling with fancy colored decorations and ornamentations.

THE STAND is made of the highest grade of castings possible to be procured, of handsome and neat design, beautifully japanned with a high finish and equal to stands used on the very highest grade machines made. Has a patent dress guard and patent belt controller.

THE WOODWORK is of selected oak, bent wood cover, excellently made and finished. Will give unqualified satisfaction, being neat in appearance and guaranteed to equal the woodwork used on machines offered by other dealers at very much higher prices.

ATTACHMENTS AND ACCESSORIES FURNISHED. We quote our Edgemere Machine in three, five and seven-drawer styles. Three drawers, $10.95; five drawers, $11.40; seven drawers, $11.85, without attachments, as you may not require any attachments with your machine. It has been customary to furnish a complete set of attachments with every machine, adding the cost of the attachments to the price of the machine, whether the customer requires them or not. We have decided to offer our Edgemere machine at the lowest possible price, giving you the privilege to procure such attachments as you desire at cost.

WE FURNISH FREE WITH THE MACHINE THE FOLLOWING ACCESSORIES:

One Oil Can (filled with oil),
Six Bobbins,
Two Screwdrivers,
One Package of Needles,
One Cloth Guide and
One Quilter Guide.

AT 75 CENTS EXTRA we furnish a complete set of the latest patent foot attachments, packed in a handsome velvet lined metal box. The set consists of one tucker, one ruffler, one thread cutter, one set of hemmers of different widths up to ⅝ of an inch, one binder, one shirring plate, one under braider and one short foot.

OUR SPECIAL PRICES:

No. 26T18	THREE-DRAWER AND COVER, without attachments.....	$10.95
No. 26T20	FIVE-DRAWER AND COVER, without attachments.....	11.40
No. 26T22	SEVEN-DRAWER AND COVER, without attachments.....	11 85

Free on board the cars at the factory, located near Chicago.

NOTE—This Machine is furnished without our firm name or trade mark appearing upon it.

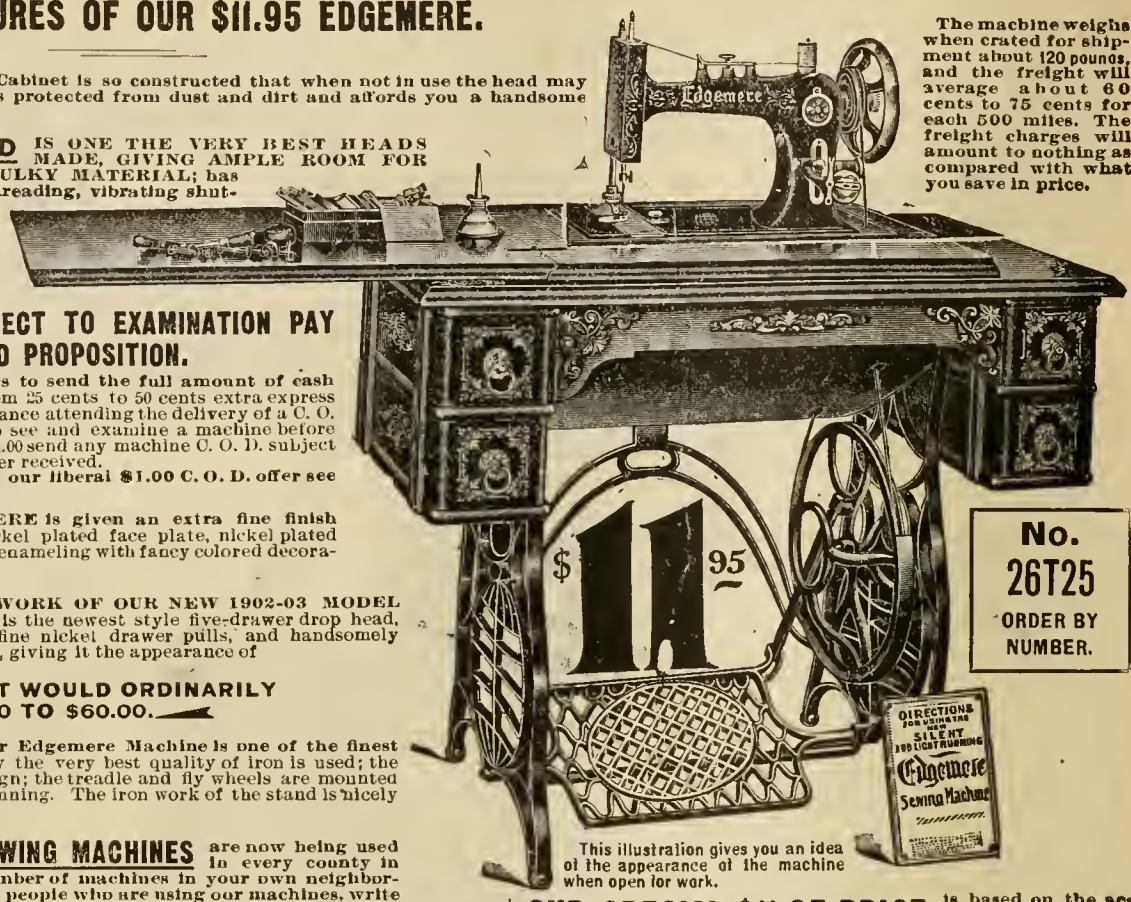
Our $11.95 High Grade High Arm Edgemere Machine.

SPECIAL FEATURES OF OUR $11.95 EDGEMERE.

The Five-Drawer, Drop Head Cabinet is so constructed that when not in use the head may be dropped out of sight, where it is protected from dust and dirt and affords you a handsome desk, stand or table.

THE EDGEMERE HEAD IS ONE THE VERY BEST HEADS MADE, GIVING AMPLE ROOM FOR THE HANDLING OF LARGE, BULKY MATERIAL; has positive, four-motion feed, self threading, vibrating shuttle, automatic bobbin winder, adjustable bearings, patent tension liberator, improved nickel plated loose wheel, adjustable presser foot, improved shuttle carrier and patent needle bar.

The machine weighs when crated for shipment about 120 pounds, and the freight will average about 60 cents to 75 cents for each 500 miles. The freight charges will amount to nothing as compared with what you save in price.



This illustration gives you an idea of the appearance of the machine when open for work.

No. 26T25 ORDER BY NUMBER.

OUR $1.00 C. O. D. SUBJECT TO EXAMINATION PAY AFTER RECEIVED PROPOSITION.

While we advise our customers to send the full amount of cash with their orders, thus saving them 25 cents to 50 cents extra express charges and saving them any annoyance attending the delivery of a C. O. D. shipment, to those who prefer to see and examine a machine before paying for it, we will on receipt of $1.00 send any machine C. O. D. subject to examination, balance payable after received.

For full particulars concerning our liberal $1.00 C. O. D. offer see page 657.

FINISH. THE $11.95 EDGEMERE is given an extra fine finish throughout. Has a nickel plated face plate, nickel plated hand wheel, with finest full finished enameling with fancy colored decorations and ornamentation.

THE CABINET. THE WOODWORK OF OUR NEW 1902-03 MODEL EDGEMERE is the newest style five-drawer drop head, made of solid oak, fully finished, fine nickel drawer pulls, and handsomely decorated with beautiful marquetry, giving it the appearance of

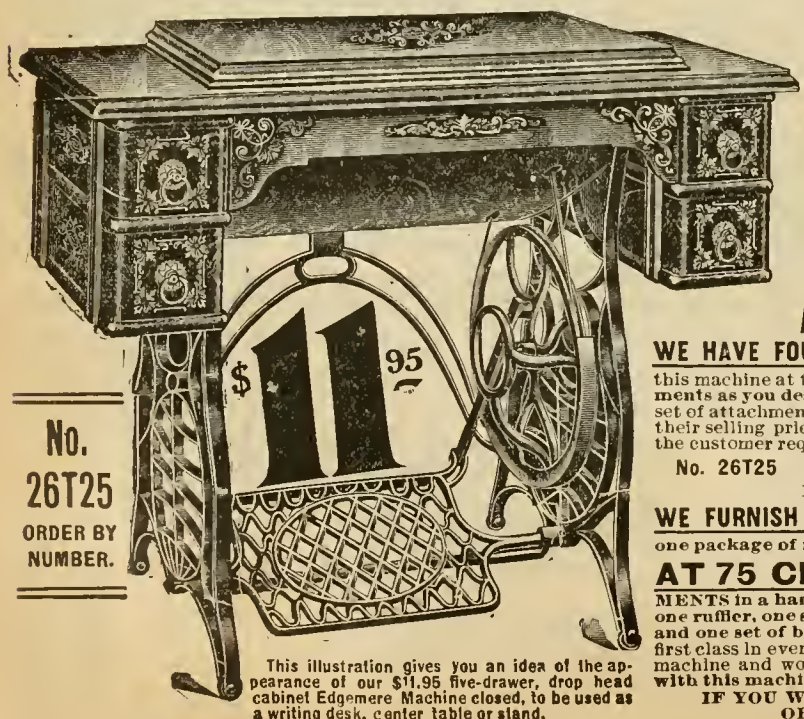
A MACHINE THAT WOULD ORDINARILY RETAIL AT $50.00 TO $60.00.

THE STAND. The stand of our Edgemere Machine is one of the finest stands made; only the very best quality of iron is used; the patterns are of handsome, neat design; the treadle and fly wheels are mounted on point bearings, making it easy running. The iron work of the stand is nicely japanned and beautifully finished.

MORE THAN 100 OF OUR SEWING MACHINES are now being used in every county in the United States. There are a number of machines in your own neighborhood, and if you do not know the people who are using our machines, write us and we will give you their names. There are a number of our machines in every town and community, and to refute any claim made by any sewing machine dealer, agent or other catalogue house to the effect that they can furnish anything like the value that we furnish in sewing machines, we would ask you before ordering a machine, to inquire of anyone in your community who has purchased a sewing machine from us, whether in their judgment, after putting their machine to every test, they are not fully satisfied that no machine was ever shipped to their railroad station by any other dealer or maker that would begin to compare with the machine they bought from us. If anyone in your community (and there are many) using one of our sewing machines does not say it is a better machine than any machine owned by their friends or neighbors that was purchased elsewhere at anything approaching our price, we will not expect your order.

OUR SPECIAL $11.95 PRICE is based on the actual cost of material and labor, with but one small percentage of profit added. If you buy an Edgemere Sewing Machine from us at $11.95, you will get one of the handsomest machines that was ever seen in your section. You will get a machine at less than your dealer can buy the same grade of machines for in carload lots.

NEEDLES, BOBBINS, SHUTTLES, attachments, in fact all parts used in the operation of our machines are always carried by us in stock in large quantities. We can therefore fill all orders for supplies promptly. See page 677 for our very low prices on sewing machine supplies.



This illustration gives you an idea of the appearance of our $11.95 five-drawer, drop head cabinet Edgemere Machine closed, to be used as a writing desk, center table or stand.

No. 26T25 ORDER BY NUMBER.

OUR 20-YEAR GUARANTEE.

WITH EVERY EDGEMERE SEWING MACHINE we issue a written binding, 20-year guarantee, by the terms and conditions of which, if any piece or part gives out by reason of defect in material or workmanship, we will replace it free of charge.

OUR THREE MONTHS' TRIAL OFFER.

REMEMBER that you can return this machine at any time within three months if it does not give entire satisfaction, and your money will be refunded in full, so that you will not be out one cent on the transaction. Our three months' trial contract accompanies every machine.

ATTACHMENTS AND ACCESSORIES.

WE HAVE FOUND from our past experience that a great many of our customers do not require any attachments, and we have therefore decided to offer this machine at the low price of $11.95, giving you the privilege of procuring such attachments as you desire at COST PRICE. It has been customary with all dealers to furnish a set of attachments with every machine, adding not alone the cost of the attachments to their selling price of the machine, but also figuring a profit on the attachments, whether the customer requires them or not.

No. 26T25 Five-Drawer, Drop Head Edgemere Machine, without Attachments, $11.95.

Free on board cars at the factory, located near Chicago.

WE FURNISH FREE with the machine at $11.95, one oil can (filled with oil), six bobbins (one in the machine and five extra), two screwdrivers, one package of needles, one cloth guide and one quilter guide.

AT 75 CENTS EXTRA WE FURNISH A COMPLETE SET OF HIGH GRADE, LATEST PATENT FOOT ATTACHMENTS in a handsome velvet lined metal box. The set consists of one thread cutter, one ruffler, one shirring plate, one tucker, one short foot, one under braider, one binder and one set of bemmers of different widths up to 5/8 of an inch. The attachments are first class in every respect, beautifully nickel plated and finished, and guaranteed to fit the machine and work perfectly. THE INSTRUCTION BOOK, which we furnish FREE with this machine, shows how to use the different attachments.

IF YOU WISH THE ATTACHMENTS, BE SURE TO SO STATE IN YOUR ORDER, as it will add 75 cents to the price of the machine.

NOTE.—No name except Edgemere appears on machine.

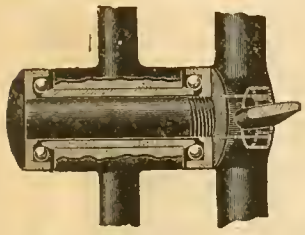
OUR HIGH GRADE HIGH ARM BALL BEARING
BURDICK SEWING MACHINES.

WHILE WE ALWAYS ADVISE SENDING CASH IN FULL, ANY SEWING MACHINE WILL BE SENT TO ANY ADDRESS BY FREIGHT, C. O. D., SUBJECT TO EXAMINATION, ON RECEIPT OF $1.00, BALANCE PAYABLE AFTER RECEIVED. (SEE C. O. D. TERMS ON PAGE 657.)

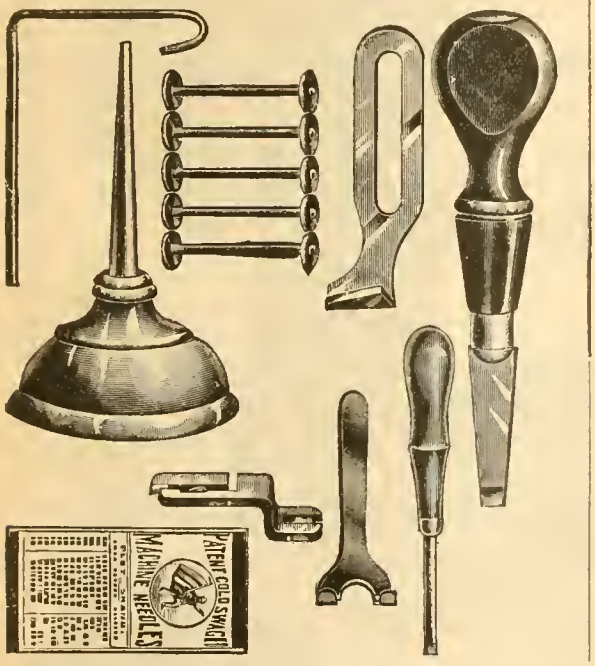
OUR PRICES ON THE BURDICK are by far the lowest ever offered on satisfactory ball bearing machines and are the same prices we formerly charged for the machines with ordinary stands. We furnish with every machine a complete set of high grade accessories which are usually furnished with a high grade machine.

THE STAND. The stand of this machine is far superior to stands used on the highest grade machines sold by other dealers regardless of price. It is cast from the very best quality of iron, is beautifully japanned and finished. Rests on four casters and has a high grade ball bearing attachment which makes it one of the lighest and easiest running machines made. Most satisfactory and by far the best ball bearing mechanism used on sewing machines. Steel cones and cups, nickel plated and polished, and steel balls. OUR FIRM NAME AND TRADE MARK DO NOT APPEAR ON THIS STAND.

OUR BALL BEARING ATTACHMENT. From this illustration you can get an idea of the ball bearings as used on this machine, built on the same principle as the high grade bicycle hub or pedals, the most expensive and by far the best ball bearing mechanism used on any sewing machine made, hence one of the lightest running, truest and nearest noiseless of any ball bearing sewing machine stand on the market.

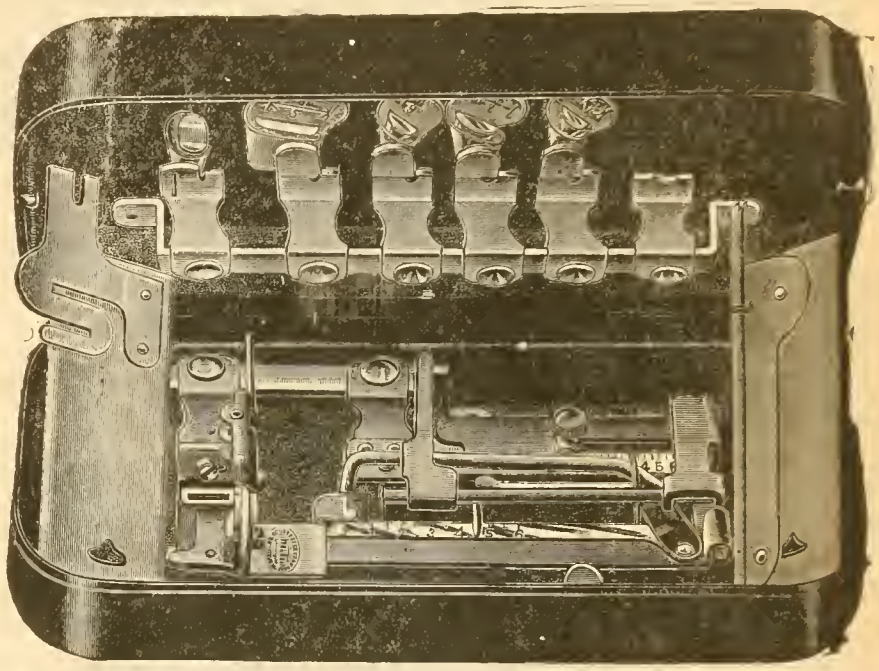


ACCESSORIES. We furnish with our Burdick Machine a complete set of accessories such as are usually furnished with every high grade machine, consisting of one quilter, five bobbins (and one in the machine), one cloth guide, a large screwdriver, one oil can filled with oil, one combination screwdriver and wrench, one foot hemmer, one extra needle plate and one package of needles.



THREE MONTHS' FREE TRIAL. If after you have given the machine a trial for three months, you become dissatisfied for any reason whatsoever, you can return the machine to us and we will cheerfully refund your money, guaranteeing that you will not be out one cent in the transaction.

ATTACHMENTS. It has been customary with all dealers to furnish a complete set of attachments with every machine, adding not alone the cost of the attachments to the price of the machine, but also the profit on the attachments, whether the customer requires them or not. We have found from our past experience that many of our customers prefer to buy the machine without attachments and we therefore decided to offer our Burdick Machine at the lowest possible price, which represents the actual cost of material and labor at the factory, with but our one small percentage of profit added. The attachments will be furnished with or without the machines and at cost price, 75 cents per set, and comprising a full set of all the latest patent foot attachments, which will be furnished by no other dealer.



WE FURNISH the following set, packed in a handsome velvet lined metal box, as shown in the illustration: One ruffler, one shirring plate, one tucker, one short foot, one under braider, one thread cutter, one binder, one set of hemmers, different widths up to ⅝ of an inch. Our price for the full set, 75 cents. Be sure to state if you wish the attachments shipped with your machine.

OUR 20-YEAR GUARANTEE. With every Burdick ball bearing sewing machine we issue a written, binding 20-year guarantee, by the terms and conditions of which if any piece or part gives out by reason of defect in material or workmanship, we will replace it FREE OF CHARGE.

WE CARRY IN STOCK a full supply of needles, bobbins, shuttles, attachments, etc., which are used in the operation of our machines. We can therefore fill orders for repairs promptly. An order for repairs for the Burdick machines placed with us fifteen or twenty years from date would be filled as promptly as a repair order sent us today. See page 677 for prices on Sewing Machine Supplies.

THE IMPROVED BALL BEARING BURDICK has a high arm head of handsome and graceful design and beautifully finished. The space under the arm is equal to that on most of the best known machines which sell at high prices because of name only and to cover the heavy expeuses of canvassing agents. Ample space is provided for sewing the most bulky goods required in family sewing. The height under arm is 5 inches, and from the needle to the base of arm measures 8 inches. The measurement from bed plate to top of needle bar is 9¾ inches, and the bed plate is 13½ inches long by 6¾ inches wide.

COMPARE THESE MEASUREMENTS WITH OTHER MACHINES AND THE LIBERAL SPACE ALLOWANCE WILL BE APPARENT.

THE HEAD IS ATTACHED to the table by two ornamental nickel plated hinges at the back of the bed plate so it can be quickly thrown back for cleaning the under parts. These hinges are also provided with shoulders, preventing the head from resting on and marring the table when thrown back. A thumbscrew in front of the bed plate holds the head securely on the table when sewing, and four rubber cushions under the corners of the head prevent any noise from vibration when running the machine.

THE FINISH OF THE HEAD is the finest ever put on a sewing machine, and not the ordinary japanning used on many machines. The highest grade of enamel is used, and the entire surface is hand rubbed, giving a smooth and high finish, after which it is varnished and baked in a high degree of heat, making the surface and the finish durable.

THE HEAD IS EXQUISITELY ORNAMENTED in a tasteful and artistic design, which, with the high luster of the bright parts which are heavily nickel plated, makes the head of machine a thing of beauty and the most ornamental ever put on the market.

EVERY BEARING OR WEARING POINT in the machine head is made of the finest steel that can be obtained, being thoroughly hardened by the latest and most approved process. All bearings are made adjustable, so that any slight wear that may result after many years of use, can be quickly and easily taken up, and any lost motion removed by the most simple methods. This renders it practically indestructible and the most durable sewing machine ever produced.

A DOUBLE ECCENTRIC CAM on the main shaft operates both the shuttle mechanism and the feed mechanism. This cam is made from a single piece of finest steel, and is accurately balanced to prevent any vibration when the machine is running. This construction contributes greatly to the light running and noiseless qualities of this machine, which, when compared with any other vibrating shuttle sewing machine on the market, is simply remarkable.

THE SHUTTLE is the most perfect self threading cylindrical shuttle ever produced. It is made of finest steel, hardened and ground. It is absolutely self threading, being open at one end for inserting the bobbin, after which the thread is instantly drawn into place by two motions of the hand. There are no holes to thread through and the shuttle can be threaded with the eyes shut. It has a perfect tension which is practically automatic, and does not require regulating for any ordinary range of work. The bobbin carries a large amount of thread.

THE NEEDLE IS SELF SETTING, both as to height and position in the needle bar, making it impossible to set a needle improperly. The machine is self threading at every point except the eye of the needle, which is the only opening through which the end of the thread must be passed.

THE MACHINE HAS A POSITIVE TAKE-UP driven by a rotary cam on the end of the main shaft, making it absolute in its action, insuring a perfect stitch, and with no springs to get out of order or break. On many machines the breaking of a take-up spring is a frequent occurrence, causing great annoyance and loss of time.

OUR DROP LEAF AND BOX COVER BALL BEARING BURDICK SEWING MACHINES

THE MECHANICAL CONSTRUCTION OF OUR BURDICK MACHINES IS FULLY DESCRIBED ON PAGE 661.

REMEMBER, IF YOU HAVE ANY DOUBT AS TO THE QUALITY OF OUR SEWING MACHINES, if there is any doubt in your mind as to our machines being better than any other sewing machine advertised by any other house at much higher prices, there are quite a number of these machines in your own neighborhood. We have sold these machines to people in your immediate vicinity. You can see them there, examine them, and get an opinion from people who have used them, people who will not hesitate to tell you that no other house sells a sewing machine that will compare with ours at anything like the price. You should also bear in mind that repairs and supplies can always be had from us for any of our machines for the years to come, and at a MUCH LOWER COST TO YOU THAN OTHERS FURNISH SUPPLIES OR REPAIRS.

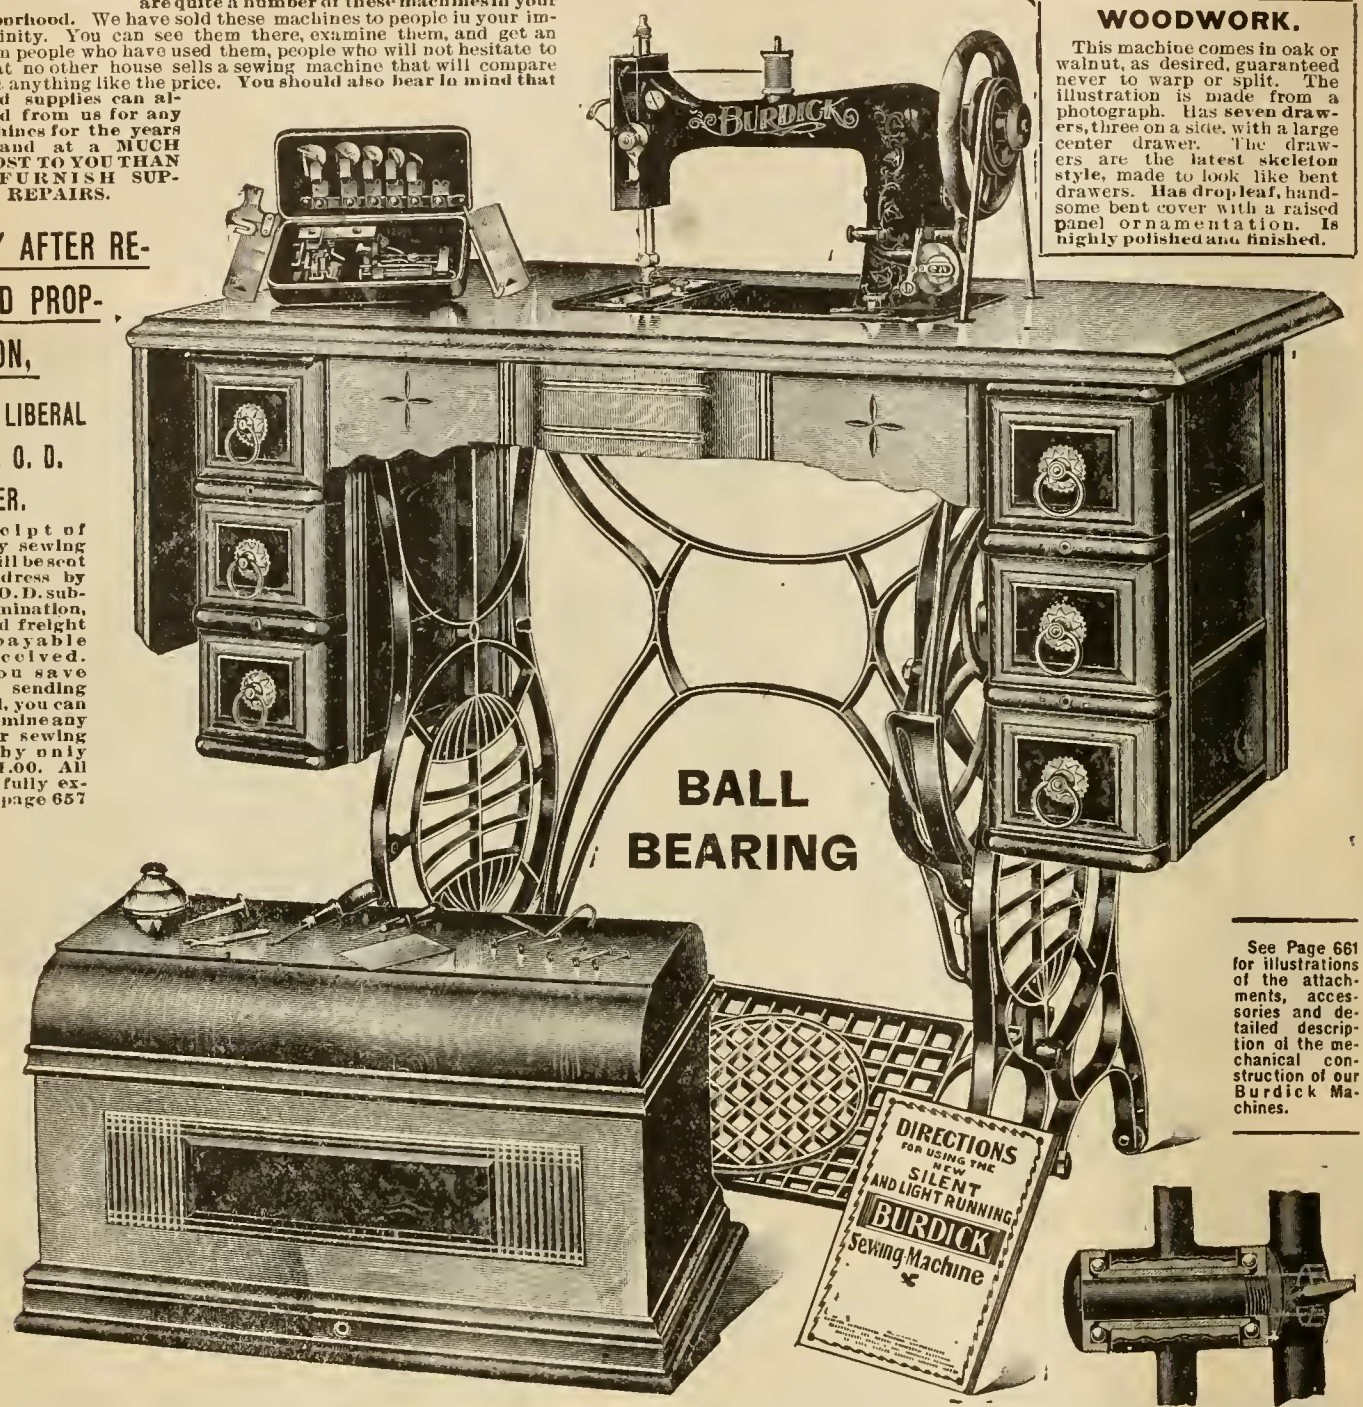
OUR PAY AFTER RECEIVED PROPOSITION,

OR, OUR LIBERAL $1.00 C. O. D. OFFER.

On receipt of $1.00 any sewing machine will be sent to any address by freight, C. O. D. subject to examination, balance and freight charges payable after received. While you save money by sending cash in full, you can see and examine any one of our sewing machines by only sending $1.00. All of this is fully explained on page 657

WOODWORK.

This machine comes in oak or walnut, as desired, guaranteed never to warp or split. The illustration is made from a photograph. Has seven drawers, three on a side, with a large center drawer. The drawers are the latest skeleton style, made to look like bent drawers. Has drop leaf, handsome bent cover with a raised panel ornamentation. Is highly polished and finished.



See Page 661 for illustrations of the attachments, accessories and detailed description of the mechanical construction of our Burdick Machines.

No. 26T28 3 Drawers (without attachments)..... $12.35
No. 26T30 5 Drawers (without attachments). 12.80
No. 26T32 7 Drawers (without attachments).... . ..... 13.20

These prices are quoted on the machines placed free on board the cars at our factory, Dayton, Ohio.

At 75 cents extra we furnish a complete set of foot attachments in handsome velvet lined metal box.

ATTACHMENTS.

One Ruffler, One Tucker, One Shirring Plate
One Under Braider, One Binder, One Short Foot
Set Hemmers, different widths up to 5/8 inch.

NEEDLES, BOBBINS, SHUTTLES, ATTACHMENTS or other parts of this machine can be duplicated by us at any time without delay. We carry a full stock of supplies for practically every machine now in use in the United States.

NOTE OUR REMARKABLY LOW PRICES FOR PARTS QUOTED ON PAGE 677.

NOTE.—The only name appearing on this machine is Burdick. In consequence and in view of our low prices, dealers can handle our machines and resell at a profit. WE DO NOT, HOWEVER, ALLOW ANY REDUCTIONS TO ANYONE.

STAND. This machine is fitted with a full ball bearing stand, which is superior to any ball bearing stand yet used. As a result the Burdick is very light running, easy and perfect of operation, rapid of action and can be used for hours without causing weariness or strain to the operator.

We guarantee the material of our stands and agree to replace free any part that might prove defective.

THE HEAD OF THIS MACHINE is the same as is used on our Burdick Drop Head Machine, fully described on page 663. A complete set of accessories and instruction book are furnished with this machine.

ACCESSORIES. One Oil Can, One Screwdriver, One Cloth Guide, One Package Needles, One Quilter, Six Bobbins.

DO NOT COMPARE THIS MACHINE with the cheap machines on the market offered by other dealers. See and examine it and you will quickly recognize its superior quality. You can save $20.00 to $40.00 by buying this machine.

THIS TELLS JUST WHAT FREIGHT YOU WILL HAVE TO PAY: A sewing machine weighs, crated for shipment, 125 pounds. The railroad companies carry sewing machines at first class freight rate. On pages 7 to 11 you will find the first class freight rate for 100 pounds to a point nearest your town. The freight will be almost, if not exactly the same to your town, so you can tell almost to a penny what the freight will amount to. As a rule the freight on a sewing machine averages about 60 to 75c for 500 miles, 80c to $1.25 for 100 miles.

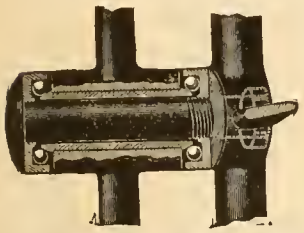
OUR $12.85 BALL BEARING BURDICK SEWING MACHINE.

OUR BINDING GUARANTEE.

With every Drop Head Cabinet Burdick Sewing Machine we issue a written binding 20 years' guarantee, by the terms and conditions of which, if any pieee or part gives out by reason of defect in material or workmanship, we will replace or repair it FREE OF CHARGE.

NEEDLES, BOBBINS, SHUTTLES AND ATTACHMENTS

are the parts of a sewing machine which are subject to the greatest wear. In order to supply our customers promptly, we carry a full stock of the above mentioned parts as well as all other parts used in the construction or operation of our machines. By our contract with the manufacturers we will be able to furnish you with repairs at any time in the future, and an order for repairs placed with us fifteen years from date would be filled as promptly as an order placed today. See page 677 for prices on Sewing Machine Supplies.



BALL BEARING STAND.

By special contract with the manufacturer, we now offer our high grade, drop head Burdick, with full ball bearing stand, for $12.85, the same price formerly charged for the machine with non-ball bearing stand.

LIGHT RUNNING, EASE OF OPERATION, AND RAPIDITY OF ACTION are three of the many commendable features of the Burdick. With the ball bearing improvement, we place the Burdick in competition with the best and highest priced ball bearing machines sold by other dealers. The stand is cast from the very best quality of iron, is beautifully japanned and finished. Rests on four casters and has a high grade ball bearing attachment, which makes it positively the lightest and easiest running machine made. From the illustration you can get a good idea of the construction of the ball bearing attachment used. It is built on the same principle as a high grade bicycle hub or pedal. **Most satisfactory and by far the best ball bearing mechanism used on sewing machines.** Steel cones and cups, nickel plated and polished, and steel balls.

FROM THE ILLUSTRATION

you can form some idea of the appearance of our special $12.85 five-drawer drop head cabinet sewing machine when open for use. This illustration shows the machine with head raised and set in place for work, with the cover extended as a sewing machine table. There is no handsomer sewing machine cabinet made, no better device for the protection of a sewing machine head.

THE BURDICK HEAD.

The Burdick Sewing Machine Head is a strictly high grade sewing machine head, made for us under contract by one of the very best makers in the country, **made from strictly high grade material by skilled mechanics. It has a large high arm head, handsomely decorated and ornamented,** and excepting our Minnesota, we guarantee it the equal of any sewing machine head on the market. **The illustration below will give you some idea of the appearance of our special $12.85** five-drawer drop head cabinet Burdick when closed, with head dropped beneath the cabinet, and in this shape the machine can be used as a writing desk, center table or stand, and being made of quarter sawed oak, finished antique, highly polished, decorated and ornamented, makes a very handsome and useful piece of furniture.

The Burdick Drop Desk Cabinet Sewing Machine weighs 120 pounds, and the freight will average about 75 cents for each 500 miles; greater or lesser distances in proportion.

No. 26T35

Order by Number.

$12.85

No. 26T35
ORDER BY NUMBER.

HOW WE MAKE THE PRICE $12.85

Our $12.85 price is based on the actual cost of material and labor with but our one small percentage of profit added. In order to sell this machine at $12.85 we must buy the sewing machine heads, the cabinet work, the stand work, the attachments and accessories **in immense quantities for cash,** to which we add our one small percentage of profit.

A Sewing Machine, a Writing Desk, Center Table or Book Stand in One.

OUR PAY AFTER RECEIVED OFFER.

You can send us $1.00 and we will ship this machine to you by freight, subject to examination, the balance, $11.85, and freight and collection charges payable after received. But if you send $12.85 with your order you will save the extra express charges of from 25 cents to 50 cents. You will also avoid some annoyance in the delivery of the machine to you. **The advantage of sending cash in full with your order,** and our liberal $1.00 C. O. D. subject to examination, pay after received proposition is fully explained on page 657.

THIS TELLS JUST WHAT FREIGHT YOU WILL HAVE TO PAY.

A sewing machine weighs, crated for shipment, 125 pounds. The railroad companies carry sewing machines at first class freight rate. On pages 7 to 11 you will find the first class freight rate for 100 pounds to a point nearest your town. The freight will be almost, if not exactly the same to your town, so you can tell almost to a penny what the freight will amount to.

As a rule the freight on a sewing machine averages about 60 to 75 cents for 500 miles, 80 cents to $1.25 for 1000 miles.

...THREE MONTHS' TRIAL...

If after you have given the machine a trial for three months you become dissatisfied for any reason whatever, you can return it to us and we will cheerfully refund your money in full, guaranteeing that you will not be out one cent in the transaction.

You cannot afford to purchase elsewhere when you get an opportunity of examining our high grade, high arm, drop head Burdick machine; a machine which will represent to you a saving of not less than $20.00 to $40.00.

Our Three Months' Trial Contract Accompanies this Machine.

AT 75 CENTS

we furnish a full set of the latest improved foot attachments, packed in a handsome velvet lined metal box, fully described on page 661.

FOR COMPLETE DESCRIPTION OF THE MECHANICAL CONSTRUCTION, ACCESSORIES AND ATTACHMENTS SEE PAGE 661

Our factory is located at Dayton, Ohio, and we will place your machine free on board the cars at that point.

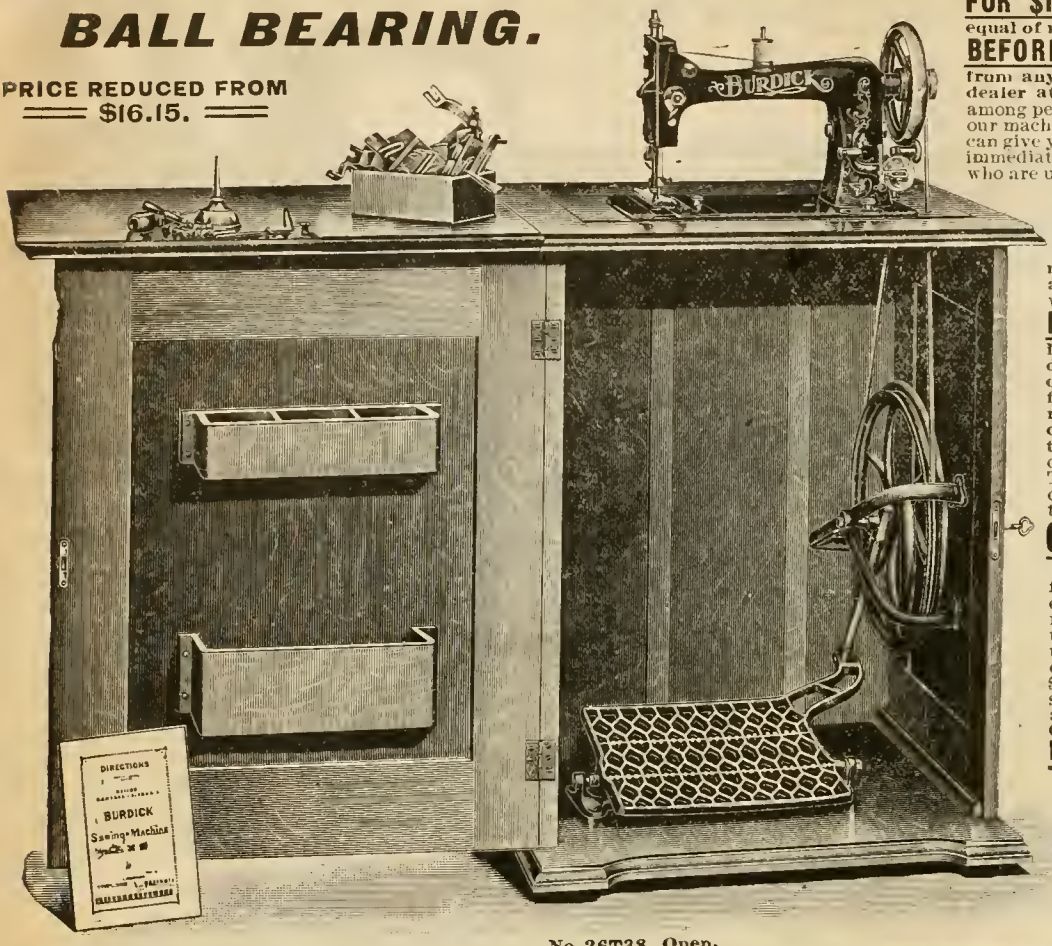
No. 26T35	5-Drawer Drop Head Burdick, without attachments.....	$12.85
No. 26T37	7-Drawer Drop Head Burdick, without attachments.....	13.35

NOTE:—Our machines are furnished without our trade mark or firm name appearing upon them. Although we can allow no reductions in price many dealers purchase and resell our machines at a profit. WE DO NOT, HOWEVER, GIVE DISCOUNTS TO ANYONE.

$14.75 BUYS THE BURDICK Full Cabinet MACHINE.

BALL BEARING.

PRICE REDUCED FROM $16.15.



No. 26T38 Open.

FOR $14.75 we offer this full solid oak cabinet BURDICK Sewing Machine as the equal of machines that retail at two to four times the price.

BEFORE ORDERING A SEWING MACHINE from any other house, or before buying from your dealer at home, if you would make a little inquiry among people in your own neighborhood who are using our machines (if you do not know where to find them we can give you the names of a number of people in your immediate neighborhood who have them), these people who are using our machines would tell you there is no machine that will begin to compare with our machines at anything approaching the price we quote. They will advise you by all means to send your order to us. **To get your order for one of our sewing machines it is only necessary for you to make a little inquiry** of people in your neighborhood who are now using our machines.

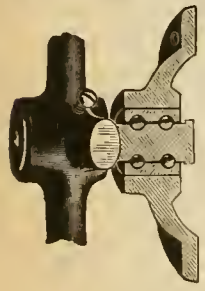
FULL DESK CABINET. **As will be seen from the two illustrations, this our high grade $14.75 Burdick Machine is furnished with a full desk cabinet. The cabinet is made of solid oak finished in antique, made of heavy built up moldings, nicely ornamented, handsomely carved and highly polished.** The one illustration shows the cabinet open ready for use, the other illustration shows the cabinet closed. The head of machine dropped from sight, and closed, it makes a handsome piece of furniture to be used as a **stand, writing desk or table.**

OUR $1.00 C. O. D. OFFER.

While nearly all our customers send cash in full (for it saves from 25 cents to 50 cents express charges on a sewing machine) and the machine can then be billed direct to the customer instead of being billed to ourselves, to those who prefer to see and examine the machine before paying for it, we will on receipt of $1.00 send any sewing machine to any address, subject to examination, on receipt of $1.00, balance payable when received. For our liberal C. O. D. terms offer see page 657.

NEEDLES, BOBBINS, SHUTTLES AND ATTACHMENTS are the parts of a sewing machine which are subject to the greatest wear. In order to supply our customers promptly, we carry a full stock of the above mentioned parts as well as all other parts used in the construction or operation of our machines. By our contract with manufacturers, we will be able to furnish repairs for our machines at any time in the future. **See page 677 for prices on sewing machine supplies.**

IF EVERYONE WHO KNOWS US and knows our machines doesn't tell you that we will furnish you a better machine for less money than anyone else will furnish you, we will not expect your order.



BALL BEARINGS. Our Burdick full cabinet machine is as light running as either the upright or the drop head style. Is fitted with our celebrated bicycle ball bearing castings, found only on our cabinet machines, which give the same rapidity of action and ease of operation to the machine as the ball bearing arrangement to a bicycle. All wearing parts made of case hardened ground out steel, and the steel balls are the best in the market. Simple in construction; no getting out of order. All parts are easily accessible, so that balls or cups can be replaced at any time. All friction eliminated and operation made a pleasure.

THE BURDICK HEAD AND ATTACHMENTS are fully described on other pages in this catalogue. By referring to other pages in this catalogue you will find the **Burdick head and attachments fully described in all the different parts,** and from the description of the head and attachments found elsewhere, and from the illustrations shown hereon **of our full sewing machine cabinet, we trust you will be able to form some idea of the value we are offering in our $14.75 machine.**

AT $14.75 we offer this machine under our binding 20-year guarantee. We send it out with the understanding that you can return it at any time within three months if you are not perfectly satisfied with it, all at our expense, all money paid us to be immediately refunded.

..THIS TELLS JUST WHAT.. FREIGHT YOU WILL HAVE TO PAY A sewing machine weighs crated for shipment, 125 pounds. The railroad companies carry sewing machines at first class freight rate. On pages 7 to 11 you will find the first class freight rate for 100 pounds to a point nearest your town. The freight will be almost, if not exactly the same to your town, so you can tell almost to a penny what the freight will amount to. As a rule the freight on a sewing machine averages about 60 to 75 cents for 500 miles; 80 cents to $1.25 for 1000 miles.

DON'T ORDER A SEWING MACHINE ELSEWHERE. Don't BUY A MACHINE from any other dealer or agent until you have seen, examined and compared our machine with the machine offered by the other party, and if our machine is not better finished, lighter running, better in every way and lower in price than the best offer you can get from anyone else, when compared side by side, return our machine at our expense and we will immediately return your money.

GENERAL DESCRIPTION OF THE HOWARD SEWING MACHINE

THE HOWARD MACHINE presents the very latest and most perfect type of high arm, lock stitch, shuttle sewing machine, having every modern improvement and being of highest grade and the most perfect piece of machinery for domestic use possible to devise. **Neither skill, money nor labor have been spared in making it mechanically perfect,** so that no sewing machine on the market can claim to excel, if any equal it in any particular.

THE THREADING OF THE MACHINE

is very simple, the upper thread being drawn into position directly from the spool without passing through any holes until the eye of the needle is reached.

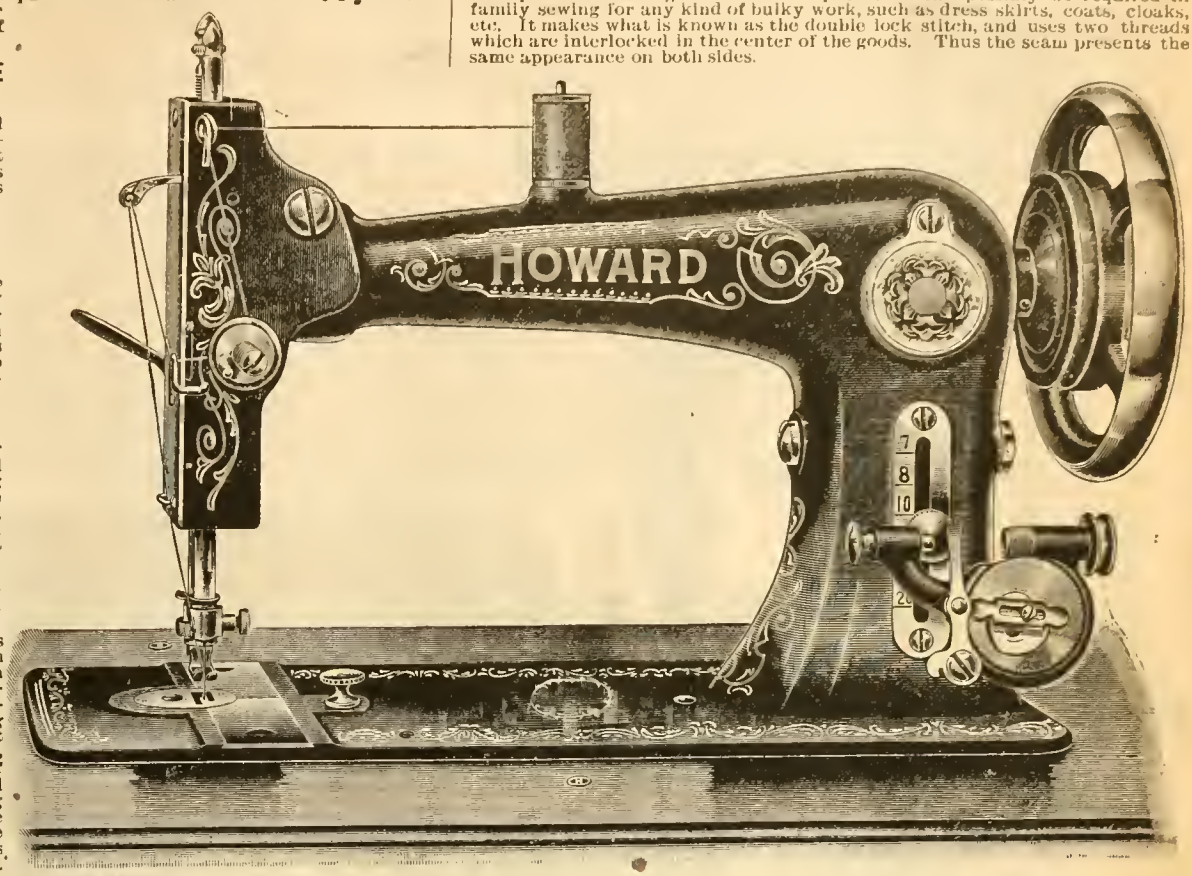
BY REFERENCE TO THE ILLUSTRATION

It will be seen that the Howard machine is extremely handsome and pleasing in appearance, the general design being worked out in easy curves and rounded corners, so as to avoid any suggestion of harshness or angularity.

THE FINISH

of the head is the finest ever put on a sewing machine, and not the ordinary japanning used on many machines. The highest grade of enamel is used, three coats being applied, each coat being separately baked at a high temperature, rubbed down to a smooth surface by hand, and finally beautifully decorated in an elaborate design worked out in gold and bright colors, after which it is given a coat of special varnish which is also baked in a high degree of heat, making the surface extremely hard and brilliant and the finish very lasting and durable. **All of the bright parts, including the face plate, are given a high degree of polish** and then nickel plated and then the nickel plating buffed. This applies to the working parts underneath the bed of the machine as well as those that are exposed to view.

THE HEAD has an arm as high as any family sewing machine made, measuring 5¾ inches clear in height under the arm, and 8¾ inches from needle to upright part of arm. The head from bed plate to top of needle bar is 10 inches, while the bed plate is 7 inches wide by 11¾ inches long. This provides the largest amount of space that can possibly be required in family sewing for any kind of bulky work, such as dress skirts, coats, cloaks, etc. It makes what is known as the double lock stitch, and uses two threads which are interlocked in the center of the goods. Thus the seam presents the same appearance on both sides.



MECHANICAL CONSTRUCTION.

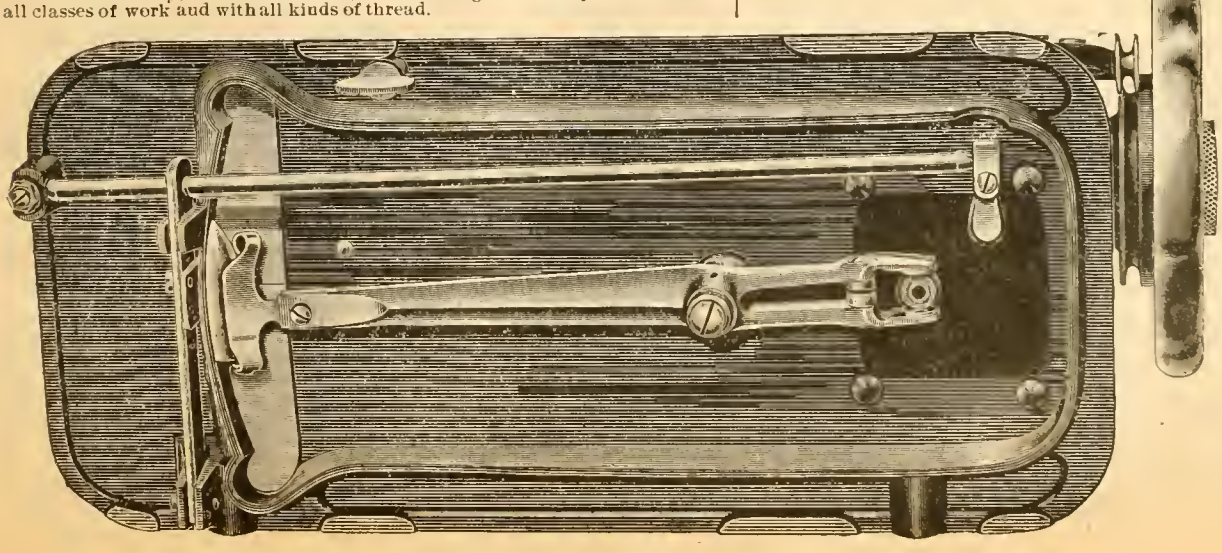
A DOUBLE ECCENTRIC on the main shaft operates both the shuttle and the feed mechanism. **This double eccentric is made in one piece and is accurately balanced,** so as to prevent any vibration when the machine is running. Its construction contributes greatly to the light running and noiseless qualities of this machine, which, when compared with any other vibrating shuttle machine on the market, is simply remarkable. By using eccentrics instead of cams, we do away with all irregular movements and produce a shuttle and feed movement that is absolutely positive in every sense of the term. A glance at the working parts of this machine underneath the bed plate will show how remarkably simple it is. In the feed motion there are no cams, springs, cushions, pads, or other appliances required. **The necessary four motions** of the feed are obtained without the necessity for such complications, which necessarily add to the number of parts and the liability of the machine to get out of order. Every bearing or working point in the machine is made of the finest steel that can be obtained, and after being thoroughly hardened by the latest and most approved process, is accurately ground to a perfect fit. The bearings are readily gotten at to oil, and are made adjustable, so that any slight wear that may result after many years of use can be quickly and easily done away with, and any lost motion removed by the most simple methods. **This renders it practically indestructible and the most durable machine ever produced.**

THE TAKE-UP is actuated by a cam on the main shaft, and is absolutely positive in its action, thus insuring uniformity of stitch on all classes of work and with all kinds of thread.

THE NEEDLE is straight, with an enlarged shank, flattened on one side, so that the operation of setting the needle is absolutely positive, and the needle when once set is securely fastened by means of a simple clamp, which enables the needle to be removed in an instant when required, even though by accident it should break off close to the bar where it cannot be reached with the fingers.

THE NEEDLE BAR is round, accurately finished and thoroughly hardened. The round form of the bar insures absolutely uniform wear at all points and perfect lubrication throughout. It is equally rigid in every direction and is fitted more perfectly than can be done with any other form and will run with the greatest freedom and altogether without noise.

TENSION. The upper tension of this machine is practically automatic in all classes of work. In extreme cases where any change is required, it is accomplished very simply by a slight turn of the tension screw, both tension and screw being on the side of the face plate toward the operator and thus very accessible. This location of the tension is not only far more convenient for the operator, but brings the point at which the tension is applied to the thread much nearer the eye of the needle, thus reducing the amount of the thread under tension and doing away in a large measure with the stretch in the thread, which on old style machines frequently causes bad stitching or the skipping of stitches.



THE TENSION LIBERATOR

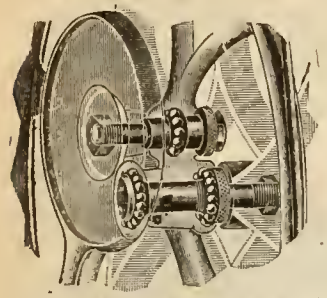
is all that the name implies, and makes it possible to remove the work from the machine by the mere touch of a finger, so that the work can be drawn from underneath the presser foot with ease.

NEEDLES, bobbins, shuttles, attachments and all other parts used in the construction or operation of our machines may be secured from us at any time. Protected by our contracts with the manufacturers, we can fill an order for repairs placed with us ten or fifteen years from date as promptly and correctly as an order placed today.

See page 677 for prices on sewing machine supplies.

REGULATING THE STITCH. The length of the stitch can be adjusted instantly by simply loosening a thumb nut and moving the pointer opposite the thumb nut to the desired figure on a scale stamped on the stitch regulator plate, which is fastened to the upright part of the arm in plain sight and within easy reach of the operator.

THE BALL BEARING STAND. It is universally admitted by everyone now that ball bearings are the most perfect type of bearing for light, delicate, revolving machinery. It has been demonstrated by exhaustive tests that the ball bearing stand will run much lighter than the old style without ball bearings.



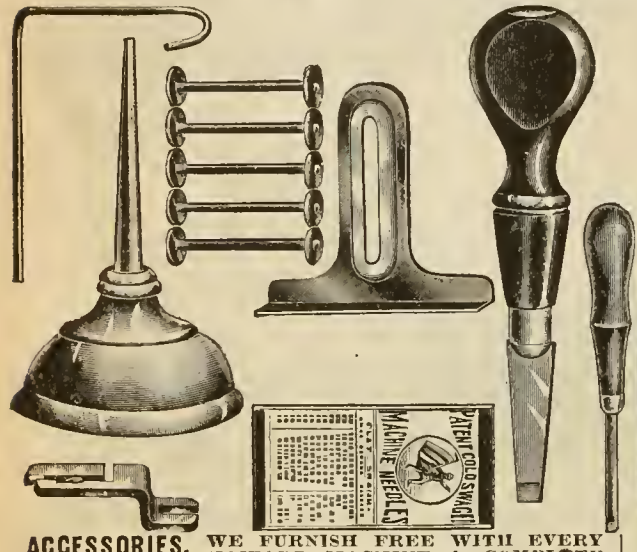
THE HOWARD STAND is fitted with ball bearings. In each stand there are three separate and distinct bearings, as shown in the illustration, in all forty accurately ground and carefully hardened steel balls, $\frac{3}{16}$ inch in diameter. The balance wheel is supported on double ball bearings, each set containing fifteen balls. The pitman, which transmits power from the treadle to the balance wheel, is fitted at its upper end with a bearing containing ten balls.

THE STANDS are of the latest ribbon pattern and particular attention is called to the smoothness and brightness of the enamel finish, as well as the casters on which the stands rest, the casters being polished and nickel plated. The treadle is light and easy running and is placed at the most desirable angle. It is hung on adjustable steel centers and at each end underneath the bearings are placed drip pans to catch any oil that may run out of the bearings, thus avoiding any liability of soiling the floor on which the machine rests.

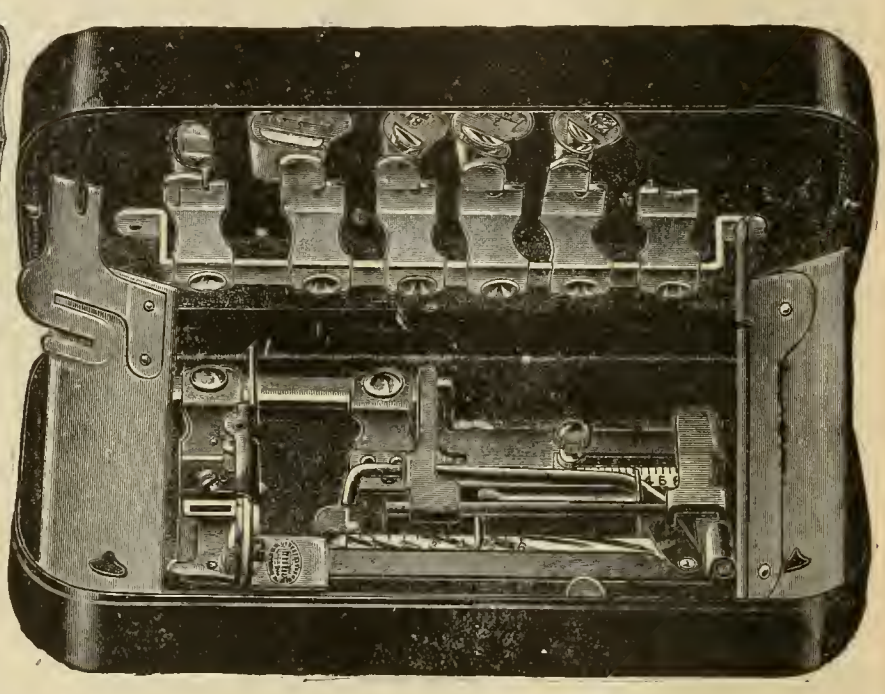
AN AUTOMATIC BOBBIN WINDER of the positive type is furnished with the Howard machine. This winder does not depend upon springs, as is commonly the case, in order to perform its work. Consequently it is positive in its action and not liable to get out of order. It enables the operator to have bobbins that are evenly wound, which otherwise are a constant source of great annoyance.

THE HAND WHEEL is of the latest pattern and constructed on its bearings so that it may be instantly released and made to run free in either direction, for the purpose of winding the bobbin. By means of this device bobbins may be wound at any time without the necessity of removal of the work from the machine and without causing the working parts to run.

THE SHUTTLE is the most perfect self-threading cylindrical shuttle ever produced. It is made of the finest steel, hardened and ground. It is absolutely self threading, being open at one end for inserting the bobbin, after which the thread is instantly drawn into place by two movements of the hand. There are no holes to thread through, and the shuttle can be threaded with the eyes shut. It has a perfect tension, which is practically automatic and does not require regulating for any ordinary range of work. The bobbin carries a large amount of thread. The presser foot can be removed from the machine in an instant and any of the attachments fastened to the presser bar of the machine without the aid of a screwdriver.



ATTACHMENTS. It has been customary in the past for all dealers to furnish a set of attachments with every machine, whether the purchaser required them or not. We now offer our Howard machines with or without attachments. The prices quoted in the catalogue for the machine are all calculated without attachments, and at 75 cents we furnish a full set of the latest patent foot attachments, as shown in the illustration, packed in a handsome, velvet lined metal box. The set of attachments consists of one ruffler, one shirring plate, one tucker, one short foot, one under braider, one binder and one set of hemmers of different widths up to $\frac{5}{8}$ of an inch. These attachments are the same style as furnished by the largest sewing machine dealers with their highest priced machines and are guaranteed to give perfect satisfaction. The attachments are handsomely nickel plated and highly polished.



ACCESSORIES. WE FURNISH FREE WITH EVERY HOWARD MACHINE A COMPLETE SET OF ACCESSORIES, such as is usually furnished with every high grade machine, and the same as shown in the illustration. The set consists of

One quilter,	One oil can (filled with oil),
Six bobbins (one in the machine),	One cloth guide,
	Two screwdrivers,
One package of needles,	One foot hemmer.

REPAIRS OR SUPPLIES FOR MACHINES listed in this catalogue, such as needles, bobbins, shuttle attachments, etc., may be secured from us at any time at lowest possible prices. As we carry a complete stock of all parts used in the construction or operation of our machines, we can fill orders for supplies promptly and without delay. The supplies furnished by us for our machines are the genuine parts, manufactured by the makers of the machines. Under the terms of our contract with the manufacturers we can furnish repairs for our machines at any time in the future. An order for repairs placed with us ten or fifteen years from date will be filled as promptly and as accurately as an order placed today.

See page 677 for prices on Sewing Machine Supplies.

OUR BINDING 20 YEARS' GUARANTEE goes with every machine, by the terms and conditions of which we will make good any piece or part that gives out by reason of any defect in material or workmanship.

OUR $1.00 C. O. D. SUBJECT TO EXAMINATION, pay after received offer by which you do not pay for the sewing machine until after you get it, as fully explained on page 657.

Their Word as Good as Gold.

Rummel, Jackson Co., Ark.,
Sears, Roebuck & Co., Chicago, Ill.

Dear Sirs: I received my machine on October 31 and found it better than I expected. My wife is well pleased with it. It is in every respect as good as you represented. Am glad to know that there is one responsible firm in Chicago. I will recommend your machine to everyone, for I know it is a good one, for my wife uses it every day. Yours truly, JOHN CAMP.

Is the Best Machine He Ever Saw.

Cahaba, Dallas Co., Ala.,
Sears, Roebuck & Co., Chicago, Ill.

Gents: The sewing machine which I bought from you is the best sewing machine for the money I ever saw. It does its work all right and runs light. I have had it seven months and it is all right. Yours, A. J. McGUIRE.

Convinced He Saved $10.00.

Pyrmont, O.,
Sears, Roebuck & Co., Chicago, Ill.

Dear Sirs: Received machine all right. Have used it four months and am well pleased with its work, and also am satisfied that I have saved $10.00 on it, if not more. Yours truly,
70841. W. A. HANSHEN.

Thinks He Got a Great Bargain.

Belle Vernon, Pa.,
Sears, Roebuck & Co., Chicago, Ill.

Dear Sirs: We are highly pleased with our sewing machine; it is just what you represented. I think we got a great bargain. Every person that has seen the machine says it is a very nice and good one. I know we have saved at least $25 on ours. Yours very truly,
$1022. GEO. L. POPP.

Just as It Was Represented to Be.

Farmington, Tenn.,
Sears, Roebuck & Co., Chicago, Ill.

Kind Friends: The sewing machine does just as you represented. I have had it about ten months and have found no fault with it. Yours truly, CLAYTIE HUEY.

Likes It Very Much.

Fowler, Otero Co., Colo.,
Sears, Roebuck & Co., Chicago, Ill.

Gentlemen: The sewing machine I purchased of you was received in good order, and seems to be perfect in every respect. We have tested it thoroughly, and fully believe it to be the equal of any $50 machine with which we are acquainted. Yours truly
20849 F. A. BOGGESS.

Saved Something Like $15.00.

Bessemer, Jefferson Co., Ala.,
Sears, Roebuck & Co., Chicago, Ill.

Gentlemen: We have used the Minnesota Sewing Machine bought of you now twelve months and are glad to say the machine has given perfect satisfaction, besides we consider our saving to amount to something like $15, and can say the machine is one which works light, stitches nicely and makes but very little noise. Yours truly, P. SCOTT.

Sears, Roebuck & Co. Are Strictly Reliable.

Antioch, Davidson Co., Tenn.,
Sears, Roebuck & Co., Chicago, Ill.

Dear Sir: I bought one of your Minnesota Sewing Machines for my wife about twelve months ago and she has been using it ever since. She sews on it nearly every day in the week and it has given entire satisfaction. I can heartily recommend this machine to anyone wanting a good and cheap sewing machine, and can also recommend Sears, Roebuck & Co. as a good, reliable firm to order from, as I have always found them fair and square in all their dealings and prompt in business. Yours truly,
54710 J. N. DUNN.

OUR HIGH GRADE, BALL BEARING, DROP LEAF AND COVER . . . HOWARD MACHINE

THE GREATEST VALUE EVER OFFERED IN A SEWING MACHINE. A BALL BEARING MACHINE WITH HIGHEST GRADE OF WOODWORK.

ALMOST EVERY TOWN has several dealers who sell sewing machines. There are also dozens of houses that are advertising sewing machines through the newspapers, and by the medium of catalogues and circulars, and to assist you in deciding as to where you should send your order to get the best machines that were ever put out for the money, we would suggest that you make a little inquiry in your own neighborhood among those who are now using our sewing machines. They have had the chance to test them and compare them with other makes and their opinion would doubtless satisfy you, and it will certainly satisfy us.

OUR $1.00 OFFER. To those who do not wish to avail themselves of the extra saving and convenience of sending cash in full with order, we will, on receipt of $1.00, send any sewing machine to any address by freight C. O. D., subject to examination, balance payable after received. For our liberal $1.00 C. O. D. offer see page 657.

THE HOWARD MACHINE cannot be sold by any other dealer, as we control the entire output at the factory and our prices are based on the actual cost of material and labor with our usual one small percentage of profit added.

The Illustration shows our No. 26T42 SEVEN DRAWER, BALL BEARING **HOWARD MACHINE,** Price, $14.95

DESCRIPTION OF THE HEAD.

THE HEAD, as shown in the illustration, has one of the highest arms made, of beautiful design, beautifully enameled and polished and richly decorated with handsome ornamentations. Has highly polished, nickel plated face plate; eccentric action; positive four motion feed; vibrating shuttle; automatic bobbin winder; stitch regulator; in fact, all the latest improvements that are embodied in any high grade machine.

THE STAND

is made of best quality of iron, handsomely japanned, and has a high polished finish. Has the genuine Osgood ball bearing attachment, as shown in the illustration on page 666, built on the same principle as a bicycle hub or pedal, making it one of the most noiseless and lightest running stands possible to produce.

THE WOODWORK.

THE WOODWORK of our Howard Machine is of the best quality quarter sawed oak, beautifully carved, decorated and ornamented. The cover and drawers of latest pattern bent wood veneer. The finish is the same as you will find on such woodwork as is used only on machines that sell at $40.00 to $65.00 and is not to be compared with the cheap cabinet work used by most dealers on machines advertised at $15.00 to $25.00.

ACCESSORIES.

WE FURNISH FREE with this machine a full set of accessories, usually furnished with high grade machines, consisting of one quilter, six bobbins, one cloth guide, one package of needles, one oil can (filled with oil) and two screwdrivers.

ATTACHMENTS.

WE LIST THE HOWARD MACHINE in three styles; three, five and seven drawers, without attachments; which enables you to procure the machine at the lowest possible price in case you do not require the attachments. We furnish them at 75 cents, which is the cost price. When attachments are included with the machines offered by other dealers, they not alone add the cost price of the attachments to the selling price of the machine, but also their profit on the attachments.

IF YOU DESIRE ATTACHMENTS, send 75 cents with your order for the machine and we will furnish a complete set of the latest patent, high grade foot attachments in handsome velvet lined metal box, as follows:

ONE RUFFLER, ONE TUCKER, ONE UNDER BRAIDER, ONE SHIRRING PLATE, ONE SHORT FOOT, ONE BINDER, AND ONE SET OF HEMMERS OF DIFFERENT WIDTHS UP TO FIVE-EIGHTHS OF AN INCH.

THIS TELLS JUST WHAT FREIGHT YOU WILL HAVE TO PAY: A sewing machine weighs, crated for shipment, 125 pounds. The railroad companies carry sewing machines at first class freight rate. On pages 7 to 11 you will find the first class freight rate for 100 pounds to a point nearest your town. The freight will be almost, if not exactly the same to your town, so you can tell almost to a penny what the freight will amount to. As a rule the freight on a sewing machine averages about 60 to 75 cents for 500 miles, 80 cents to $1.25 for 1,000 miles.

BOOK OF INSTRUCTIONS. WE FURNISH FREE with each machine a book of instructions, which explains every detail how to operate the machine and the attachments and everything is made so plain, that anyone without previous experience can immediately operate the Howard and in a very short time can handle the most difficult fancy work if so desired.

SUPPLIES OR REPAIRS.

Needles, bobbins, shuttles, attachments and all other parts used in the construction or operation of our machines, can be secured from us at any time at lowest prices. Parts furnished are the genuine high grade parts, manufactured by the makers of our machines and we have a large supply of each part constantly on hand.

SEE PAGE 677 FOR PRICES ON SEWING MACHINE SUPPLIES.

DO NOT BUY ELSEWHERE BEFORE YOU HAVE SEEN AND TRIED ONE OF OUR

HIGH GRADE, HIGH ARM, BALL BEARING HOWARD MACHINES

and if we cannot convince you that our sewing machines are better than any machines that were ever sold by anyone at anything like the price, we will not expect you to keep the machine you order from us.

20 YEARS' WRITTEN BINDING GUARANTEE

is given with every Howard Sewing Machine, by the terms and conditions of which, if any piece or part gives out within twenty years by reason of defect in material or workmanship, we will replace or repair it free of charge.

No. 26T40 Three-drawer and cover, without attachments. Price	$14.00
No. 26T41 Five-drawer and cover, without attachments. Price	14.45
No. 26T42 Seven-drawer and cover, without attachments. Price	14.95

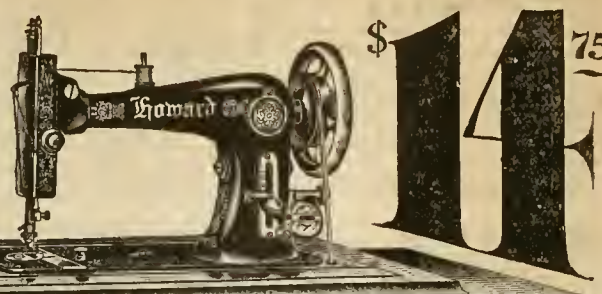
These prices are quoted for the machines free on board cars at the factory near Chicago.

A FULL SET OF ATTACHMENTS, AS ILLUSTRATED AND DESCRIBED ON PAGE 666, FOR 75 CENTS.

NOTE TO DEALERS.—Our firm name or trade mark does not appear on our machines, so that dealers may be able to handle them in competition with machines for which they must pay double our prices from other manufacturers. **WE, HOWEVER, ALLOW NO REDUCTION IN PRICES TO ANYONE.**

OUR HOWARD BALL BEARING DROP HEAD MACHINE

The Original, Celebrated and Only Genuine Howard Ball Bearing, Self Compensating, Self Adjusting, High Arm, Carved Oak Drop Head Cabinet Machine.



$14.75

ONLY $1.00 DOWN.

WHILE WE ADVISE AGAINST C. O. D. TERMS SOLELY IN THE INTEREST OF OUR CUSTOMERS, YET TO THOSE WHO PREFER TO SEE AND EXAMINE THE SEWING MACHINE BEFORE THEY PAY FOR IT, we will on receipt of $1.00 send any sewing machine to any address subject to examination, balance payable after received.

FOR FULL PARTICULARS AS TO OUR LIBERAL $1.00 C. O. D. TERMS, SEE PAGE 657.

TWENTY-YEAR GUARANTEE.

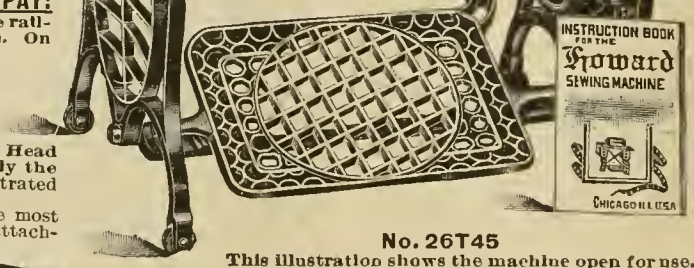
We issue a written binding twenty-year guarantee, by the terms and conditions of which if any piece or part gives out by reason of any defect in material or workmanship, we will replace or repair same free of charge.

AMONG THE MANY DIFFERENT MAKES of sewing machines that are being used in your immediate neighborhood, you will find some of ours. If you will only take the trouble to ask the people who are using our machines how they are pleased with them, how they compare with other high grade machines, and what they think of the values we are giving, we know you will send your order to us. Remember, you can always get all kinds of sewing machine repairs and supplies from us in the years to come for any machine we handle, and always at the very lowest cost.

THIS TELLS JUST WHAT FREIGHT YOU WILL HAVE TO PAY: A sewing machine weighs crated for shipment, 125 pounds. The railroad companies carry sewing machines at first class freight rate. On pages 7 to 11 you will find the first class freight rate for 100 pounds to a point nearest your town. The freight will be almost, if not exactly the same to your town, so you can tell almost to a penny what the freight will amount to. As a rule the freight on a sewing machine averages about 60 to 75 cents for 500 miles; 80 cents to $1.25 for 1,000 miles.

DESCRIPTION OF THE HEAD. The head of our Drop Head Howard Machine is exactly the same as used on all other styles of Howard woodwork and is illustrated and described on page 665.

THE STAND. The stand is of the highest grade; has all the most modern improvements, including ball bearing attachments as illustrated and fully described on page 666.



$14.75

No. 26T45

This illustration shows the machine open for use.

WE OFFER THE GREATEST VALUE.... ever shown in any sewing machine built. The very best of everything is used in the construction of this sewing machine, making it the equal of any machine offered by other dealers, regardless of price.

The Howard reduced from $50.00 to $14.75 in the 5-drawer drop head, and to $15.25 in the 7-drawer drop head.

$14.75

No. 26T45

This illustration shows the machine closed, to be used as a table, writing desk or stand.

THE WOODWORK. The cabinet on our five and seven-drawer drop head Howard Machine is of the most handsome design, beautifully carved and highly decorated and ornamented. It is made of quarter sawed oak veneer and has the latest design of skeleton drawer cases, the drawers being made of bent wood. The one illustration shows the cabinet open, the head in position ready for work; the other illustration shows it closed, to be used as a table, writing desk or stand. The cabinet on our Howard Machine is not ornamented by transfers, but by fancy pressed carvings and is highly polished and finished throughout. The woodwork is such as is used only on the very finest machines that go out of the best stores at $50.00 and upwards. The cabinet costs double the money to build that many of the cheap cabinets which are being widely advertised on machines at $15.00 to $25.00.

INSTRUCTION BOOK. The Book of Instructions which we furnish free with every machine gives full instructions in every little detail how to operate the machine, how to use all the attachments and accessories, and the machine is so simple, so easy to operate, so light running, and the instructions so very plain that anyone, without previous experience, no matter if you have never used a sewing machine, can immediately operate the Howard Machine in a very short time and handle the most difficult fancy work by the use of the variety of attachments furnished.

REPAIRS AND SUPPLIES. We carry a complete line of needles, bobbins, shuttles, attachments and all other parts used in the construction or operation of our machines, and consequently can fill orders for repairs promptly. See page 677 for prices on sewing machine supplies.

ACCESSORIES. We furnish free with every Howard Machine a complete set of accessories, consisting of one oil can (filled with oil), one small screw-driver, one large screw-driver, one cloth guide, one quilter, one package of needles, one foot hemmer and six bobbins. The accessories are illustrated and described on page 666.

THE ILLUSTRATIONS SHOW OUR 5-DRAWER DROP HEAD HOWARD MACHINE BOTH OPEN AND CLOSED.

We also furnish the same machine with three drawers on each side and one in the center. Both machines are quoted without attachments, as many of our customers prefer to buy the machine and do not require the attachments. This is done to enable you to procure the machine at the lowest possible price, which represents the actual cost of material and labor at the factory, with but our one small percentage of profit added. The attachments are offered at cost, while other dealers, who include the attachments with the selling price of the machine, not only make a profit on the machine, but on the attachments also.

No. 26T45 5-drawer drop head, without attachments..... ..... **$14.75**
No. 26T47 7-drawer drop head, without attachments..... ..... **15.25**
Free on board cars at factory, located near Chicago.

ATTACHMENTS. At 75 cents extra we furnish the most complete set of high grade nickel plated foot attachments, packed in a handsome metal velvet lined box, as illustrated and described on page 677. The set includes one ruffler, one shirring plate, one tucker, one under braider, one short foot, one binder and one set of hemmers, of different widths up to ⅝ of an inch.

NOTE TO DEALERS: Our firm name and trade mark are omitted from all parts of our machines. At our low catalogue prices, dealers are able to resell them to their customers at a profit and in addition save them money. WE, HOWEVER, GIVE NO DISCOUNTS TO ANYONE.

OUR HOWARD AUTOMATIC DROP DESK CABINET MACHINE, $19.20

IS ONE OF THE FINEST SEWING MACHINE CABINETS MADE.

IT IS MADE of solid veneer and quarter sawed oak, handsomely ornamented, beautifully finished throughout; making a pretty piece of furniture as well as a useful article.

THERE ARE OTHER HIGH GRADE SEWING MACHINES in your neighborhood and if your local dealer or local agent sells them, he will tell you they are better than ours, for he has a motive in saying this. We have high grade sewing machines in your immediate neighborhood, and if you do not know where they are and will write us, we will give you the names of the people who are using them. These people have no motive in telling you that our machines are the

BEST MACHINES MADE,

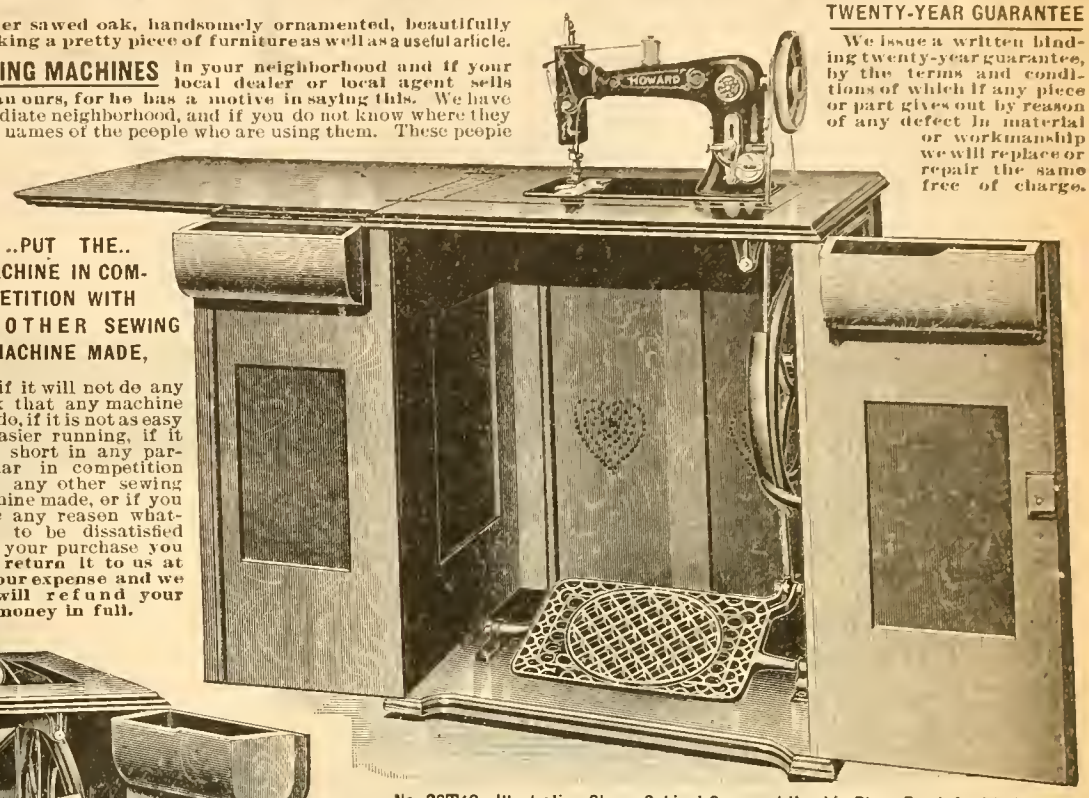
and sold at a fraction of the price that others ask, for that is what every user of one of our machines will tell you.

..PUT THE.. MACHINE IN COMPETITION WITH ANY OTHER SEWING MACHINE MADE,

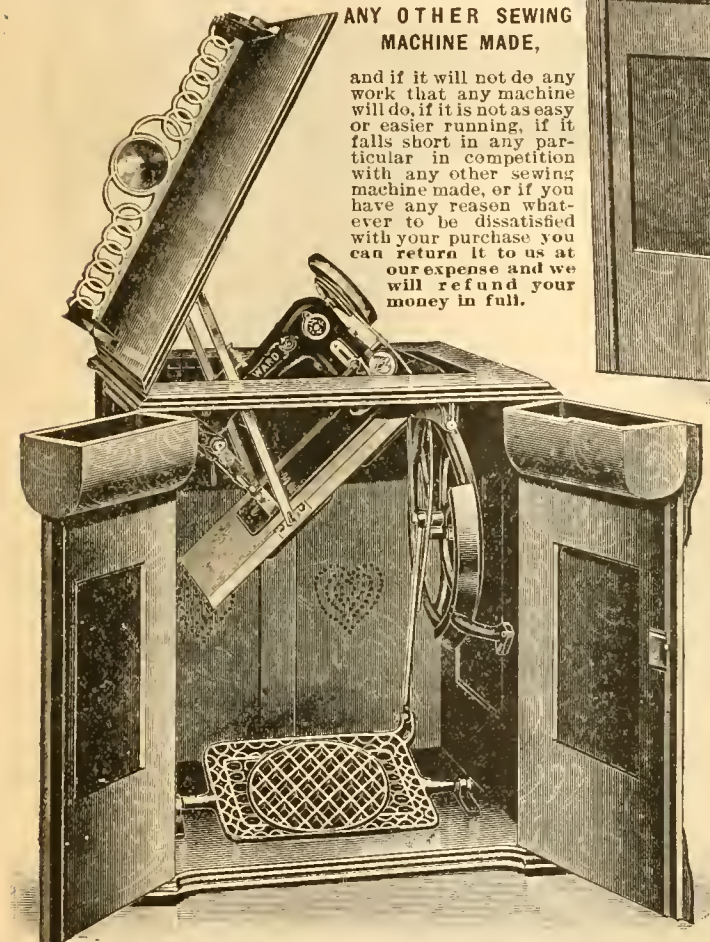
and if it will not do any work that any machine will do, if it is not as easy or easier running, if it falls short in any particular in competition with any other sewing machine made, or if you have any reason whatever to be dissatisfied with your purchase you **can return it to us at our expense and we will refund your money in full.**

TWENTY-YEAR GUARANTEE

We issue a written binding twenty-year guarantee, by the terms and conditions of which if any piece or part gives out by reason of any defect in material or workmanship we will replace or repair the same free of charge.



No. 26T48 Illustration Shows Cabinet Open and Head in Place Ready for Work.



No. 26T48 Illustration Shows Cabinet Half Open.

THE TREADLE. Ball Bearing Band Wheel. This machine, as shown in the illustration, requires only a treadle and band wheel, but these are of the same high grade as used on our other Howard Machines and are provided with the patent ball bearing attachment as illustrated and described on page 666, making this the lightest and easiest running cabinet machine in the market.

YOU CAN SEND US $1.00 if you do not wish to send the full amount, $19.20 with your order and you can pay the balance $18.20 and freight and collection charges after the sewing machine is received. See page 657 for our liberal $1.00 C. O. D. subject to examination offer.

NEEDLES, BOBBINS, SHUTTLES AND ATTACHMENTS are the parts of a sewing machine that are subject to the greatest wear. In order to supply our customers promptly we carry a full stock of the above mentioned parts as well as all other parts used in the construction or operation of our machines. The parts furnished are the genuine parts, manufactured by the makers of our machines. An order for repairs placed with us fifteen years from date would be filled as promptly as an order placed today. See page 677 for prices.

DESCRIPTION OF THE HEAD. The head of our Automatic Drop Desk Cabinet Howard Machine is exactly the same as used on all other styles of Howard woodwork and is illustrated and described on page 665.

THE STAND. The stand is of the highest grade, has all the most modern improvements, as fully illustrated and described on page 666.

ACCESSORIES. We furnish free with every Howard Machine a complete set of accessories, consisting of one oil can filled with oil, one large screwdriver, one small screwdriver, one cloth guide, one quilter, one package of needles, one foot hemmer and six bobbins. The accessories are illustrated and described on page 666.

ATTACHMENTS. At 75 cents extra we furnish the most complete set of high grade nickel plated foot attachments, packed in a handsome metal, velvet lined box, illustrated and described on page 666. The set includes one ruffler, one shirring plate, one tucker, one under braider, one short foot, one binder and one set of hemmers of different widths to ⅝-inch.

INSTRUCTION BOOK. The book of instructions, which we furnish free with every machine, gives full instructions in every little detail, how to operate the machine, how to use all the attachments and accessories, and the machine is so simple, so easy to operate, so light running and the instructions so very plain, no matter if you have never used a sewing machine you can immediately operate the Howard Machine in a very short time and handle the most difficult fancy work by the use of the variety of attachments furnished.

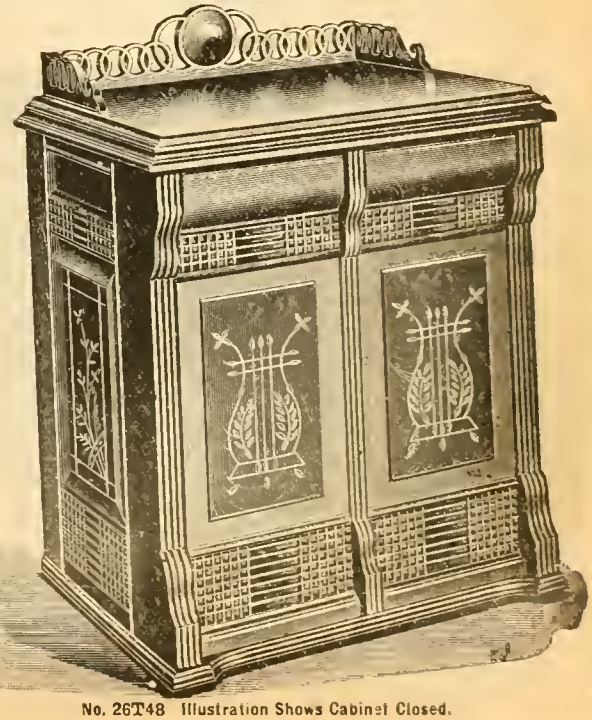
THE WOODWORK. The woodwork used in the cabinet of our Howard Machine for neatness in design and finish has no equal. It is made of quarter sawed oak, beautifully figured, handsomely decorated and highly polished. When closed it has the appearance of a writing desk and can be used as such. By a practical and patented device the head will rise to the surface of the table, ready for sewing when you lift the lid.

THIS TELLS JUST WHAT FREIGHT YOU WILL HAVE TO PAY: A sewing machine weighs, crated for shipment, 150 pounds. The railroad companies carry sewing machines at first class freight rates. On pages 7 to 11 you will find the first class freight rate for 100 pounds to a point nearest your town. The freight will be almost, if not exactly, the same to your town, so you can tell almost to a penny what the freight will amount to.

No. 26T48 Automatic Drop Desk Cabinet Howard Machine, without attachments. Our special price (free on-board cars factory located near Chicago). **$19.20**

A full set of attachments for 75 cents as illustrated and described on page 666.

NOTE: Our firm name or trade mark does not appear on this machine.



No. 26T48 Illustration Shows Cabinet Closed.

ILLUSTRATED FEATURES OF OUR MINNESOTA.

THE HEAD AND MECHANICAL CONSTRUCTION.

THE MINNESOTA MACHINE presents the very latest and most perfect type of high arm, lock stitch shuttle sewing machine, having every modern improvement, and being the highest grade and most perfect piece of machinery for domestic use possible to devise. Neither skill, money nor labor have been spared in making it mechanically perfect, so that no sewing machine on the market can claim to excel, if any can equal it in any particular.

THE HEAD has the highest arm of any family sewing machine made, measuring 5½ inches in height under the arm, and 8¾ inches from needle to base of arm. The height from bed plate to top of needle bar is 10 inches, while the bed plate is 7¼ inches wide by 14¾ inches long. This provides the largest amount of space that can possibly be required in family sewing for any kind of bulky work, such as dress skirts, coats, cloaks, etc. **The head is exquisitely ornamented in a tasteful and artistic design,** which, with the high luster of the bright parts, which are heavily nickel plated, makes the head of the machine a thing of beauty and the most ornamental ever put on the market.

THE FINISH OF THE HEAD is the finest ever put on a sewing machine, and not the ordinary japanning used on many machines. The highest grade of enamel is used, and the entire surface is hand rubbed, giving a smooth and high finish, after which it is varnished and baked in a high degree of heat, making the

SURFACE HARD AND THE FINISH DURABLE. : : :

ALL THE WORKINGS on the under side of the bed plate are highly polished and heavily nickel plated, with the result that the finish of this part of the head is not equaled on any machine ever offered.

A SEWING MACHINE IS A NECESSITY, and when you can get from us at less than one-half the retail or agent's price, a high grade, first class machine, it is both a luxury and necessity and a money saving investment. The good points and many features of our sewing machines cannot be appreciated until the machine is seen and given a trial.

IT CAN BE STATED without hesitation that no sewing machine on the market today, can approach the Minnesota in all the essential features which make a machine valuable in a household, and if placed side by side with any $65.00 machine in the world, the comparison will demonstrate the superiority of the Minnesota in quality, workmanship, modern construction, finish and elegance.

OUR $1.00 OFFER makes it possible for you to see and examine any one of our sewing machines at your nearest railroad station before paying for it. **Nearly all of our customers send cash in full,** but to those who prefer to pay for a machine after they receive it, we offer exceptionally liberal pay after received terms as fully explained on page 657.

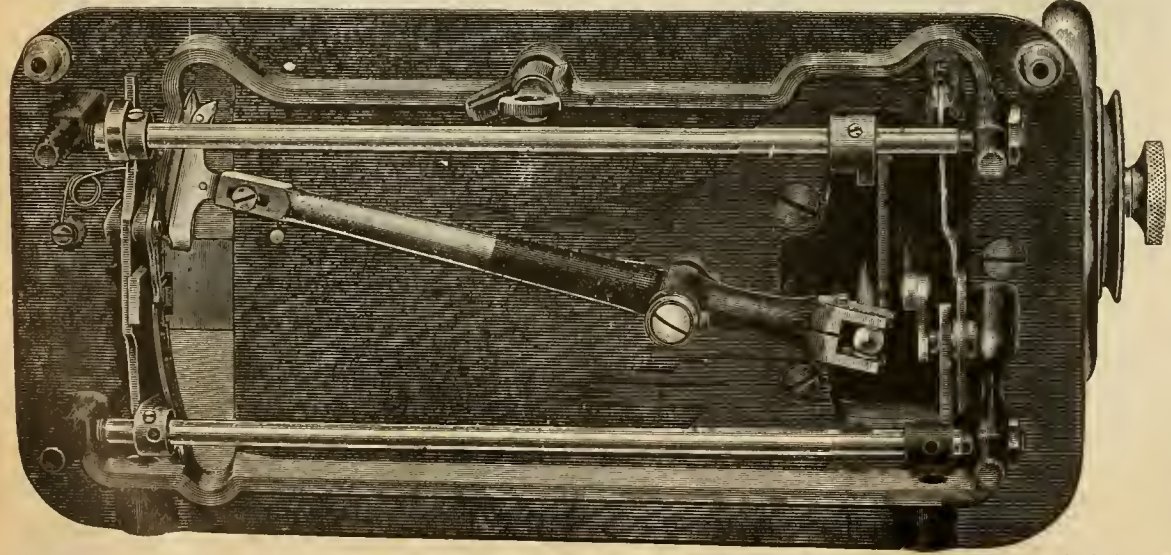
MECHANICAL CONSTRUCTION.

A DOUBLE ECCENTRIC CAM on the main shaft operates both the shuttle mechanism and the feed mechanism. This cam is made of a single piece of finest steel, and is accurately balanced to prevent any vibration when the machine is running. This construction contributes greatly to the light running and noiseless qualities of this machine, which when compared with any other vibrating shuttle sewing machine on the market, are simply remarkable.

EVERY BEARING OR WEARING POINT in the machine head is made of the finest steel that can be obtained, and after being thoroughly hardened by the latest and most approved process, is accurately ground to bearings. **All bearings are made adjustable** so that any slight wear that may result after many years of use, can be quickly and easily taken up, and any lost motion removed by the most simple methods. This renders it practically indestructible and the most durable sewing machine ever produced.

MOVEMENT. This machine has a double four-motion feed which is positive in its movements and so constructed that the goods must be carried forward by the feed with absolute accuracy. **This feed is the strongest found in any sewing machine** and can always be relied on to act perfectly on heavy or light work, without changing the length of the stitch or disturbing the tension.

STITCH. The stitch can be made long or short without affecting the tension. The stitch can also be turned off entirely when desired, which cannot be done on many machines sold at the highest prices by agents. This makes it possible to use the machine for darning, silk etching and many other kinds of work. **The length of the stitch** can be adjusted instantly by simply loosening a thumb nut and moving the pointer to the desired figure on a scale on the stitch regulator plate. **This stitch regulator** is on the bed plate directly in front of the base of arm and not inconveniently located back of the bobbin winder as on many machines. **By means of the scale on the stitch regulator plate,** it can be set to any length of stitch from 6 to 32 stitches to the inch, **without any guesswork.**



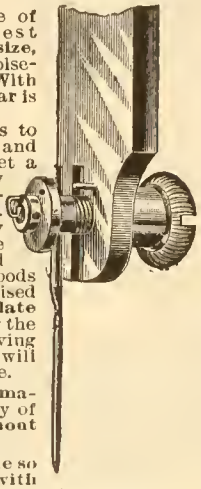
TENSION. The upper tension of this machine is perfectly automatic and will never fail to give a uniform tension on every kind of thread, cotton, linen or silk, and produce a smooth, even seam. It is easily adjusted and provided with the most simple and only practical thread release, by which the mere pressure of a finger releases the upper thread instantly, so that the work can be drawn from under the pressure foot with ease. The upper tension is located on front of cam house, which is a very important feature, and marks the improvement of this machine over nearly all others. This location of the tension is not only **far more convenient for the operator,** but brings the point at which the tension is applied to the thread much nearer to the eye of the needle, thus **reducing the amount of thread under tension** and doing away in a large measure with the stretch in the thread, which on old style machines frequently causes bad stitching or skipping of stitches. **On this machine the thread will not break** even though the machine is turned in the wrong direction. Every one who has used a sewing machine and experienced the annoyance of breaking thread when accidentally turning the wheel the wrong way, will appreciate this valuable feature.

THIS MACHINE HAS A POSITIVE TAKEUP, driven by a rotary cam on the end of the main shaft, making it absolute in its action, insuring a perfect stitch, and with no springs to get out of order or break. On many machines the breaking of a take-up spring is of frequent occurrence, causing great annoyance and loss of time.

THE SHUTTLE is the most perfect self threading cylindrical shuttle ever produced. It is made of finest steel, hardened and ground. It is absolutely self threading, being open at one end for inserting the bobbin, after which the thread is instantly drawn into place by two motions of the hand. There are no holes to thread through, and the shuttle can be threaded with the eyes shut.

It has a perfect tension, which is practically automatic, and does not require regulating for any ordinary range of work. THE BOBBIN CARRIES A LARGE AMOUNT OF THREAD.

THE NEEDLE BAR IN THIS MACHINE is made of the finest quality of tool steel, hardened and ground to an exact size, making its bearings absolutely perfect, thus securing noiseless movement without friction and the longest wear. With this construction lost motion and rattling of the needle bar is an impossibility, even after the longest wear.



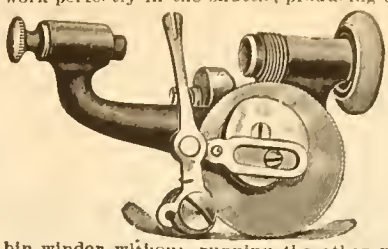
THE NEEDLE ITSELF IS SELF SETTING, both as to height and position in the needle bar, making it impossible to set a needle improperly. The machine is self threading at every point except the eye of the needle, which is the only opening through which the end of the thread must be passed.

THE PRESSER LIFTER has both a high and a low lift. The low lift will be found a great convenience in using the hemmers and other attachments, it being much easier to start the goods into the attachment properly than when the foot is raised as high from the plate as on other machines. The face plate can be readily removed from the machine for cleaning the mechanism without disturbing the adjustment or removing any of the working parts of the machine. This feature will be found a lasting convenience in the use of a machine.

THE PRESSER FOOT can be removed from the machine in an instant, and any of the attachments fastened to the presser bar for use without the aid of a screwdriver.

THE HEAD OF THE MACHINE is set into the table so that the top of bed plate is exactly level with the top of table, making a smooth, even surface for the work. The head is attached to the table by two nickel plated hinges at the back and can be readily thrown back when desired to get at the under parts of the machine. A thumb nut on top of presser bar regulates the amount of pressure on the work, so that additional pressure can be provided for very heavy work when necessary, or a very light pressure obtained for embroidery work, such as etching, tinsel work or embroidering with chenille, zephyr, worsteds and silks. Any fancy work of all descriptions that can be done on any other sewing machine can be made on this one, together with many kinds of special work which cannot be duplicated by other machines. This machine produces the most perfect double thread lock stitch, the seam being exactly the same on both sides, strong, firm and will not ravel.

THE BOBBIN WINDER. The Bobbin Winder on this machine is the most perfect Automatic Winder ever produced. It is so simple that any child can operate it, and the thread is wound on the bobbin automatically, so evenly and smoothly as to make the bobbin work perfectly in the shuttle, producing an even tension and greatly improving the perfection of the stitch. This also prevents the breaking of the lower thread, which is liable to occur with an unevenly wound bobbin on other machines. The bobbin winder can be instantly thrown into position against the hand wheel by the touch, and is as easily returned to its normal position after the bobbin has been wound. It is not necessary to remove the work to wind the bobbin, because the machine is provided with a loose hand wheel, making it possible to run the bobbin winder without running the other mechanism of the head. The hand wheel can be loosened instantly by turning the friction nut on the end of shaft, and as quickly thrown into gear for sewing, when desired. The hand wheel friction nut is marked plainly with arrows, showing which way to turn the nut to loosen the pulley, and which direction to tighten it, thus preventing any possible mistake.

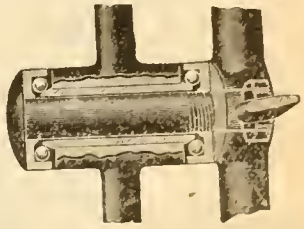


THE STAND. The stand of our Minnesota is far superior to stands used on the highest grade machines sold by other dealers regardless of price. It is cast from the very best quality of iron, is beautifully japanned and finished. Rests on four casters and has a high grade ball bearing attachment, which makes it positively the lightest and easiest running machine made. Most satisfactory and by far the best ball bearing mechanism used on sewing machines. Steel cones and cups, nickel plated and polished, and steel balls.

OUR FIRM NAME AND TRADE MARK DO NOT APPEAR ON THIS STAND.

CABINET WORK. In order to meet the requirements of all our customers, we list our high grade Minnesota machine in several different styles of cabinet work, which enables us to furnish a strictly high grade machine in every respect, with highest grade, handsomely decorated, polished and finished cabinet work from $15.20 to $22.45. There is absolutely nothing better made than our Minnesota machine regardless of the style and quality of the woodwork.

BALL BEARING ATTACHMENT



From this illustration you can get an idea of the ball bearings as used on our highest grade ball bearing Minnesota, built on the same principle as the high grade bicycle hub or pedal, the most expensive and by far the best ball bearing mechanism used on any sewing machine made, hence the lightest running, truest and nearest noiseless of any ball bearing sewing machine stand on the market.

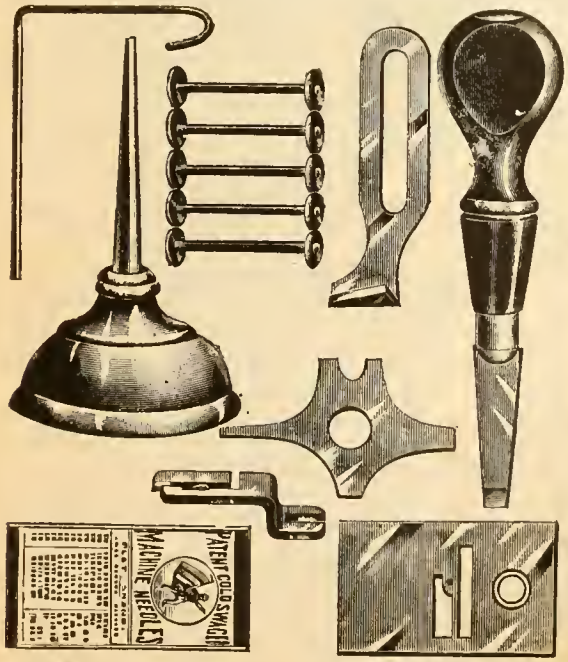
REPAIRS OR SUPPLIES FOR MACHINES listed in this catalogue, such as needles, bobbins, shuttles, attachments, etc., may be secured from us at any time at lowest possible prices. An order for repairs placed with us ten or fifteen years from date will be filled as promptly and as accurately as an order placed today.

SPECIAL HIGH GRADE FEATURES FOUND IN OUR BALL BEARING MINNESOTA MACHINES.

Ball bearing, ease of operation, light and noiseless running, simple construction and easily learned, positive feed, self threading shuttle, perfect tension with thread release, self setting needle, positive take up, automatic spooler, durability, highest arm, hand rubbed enamel finish on head, heavily nickeled bright parts, hardened tool steel bearings, all working parts adjustable.

THE MACHINE IS NOT EXCELLED BY ANY SEWING MACHINE OF ITS TYPE IN THE PERFECTION OF WORK PRODUCED.

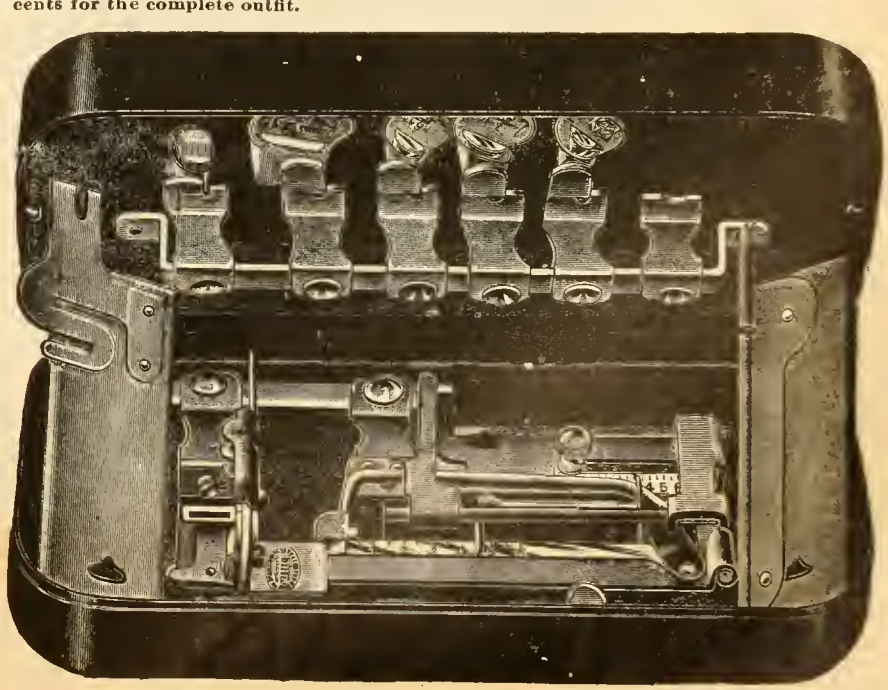
It will sew from one thickness of the lightest muslin to six folds of heavy cloth without breaking the thread. It is the most simple in construction and the most durable machine ever produced, having all the latest and most modern features, and will last a lifetime in any family.



THE ACCESSORIES illustrated herein are furnished free with our Minnesota machine and consist of

1 Quilter, 5 Bobbins (and 1 in the machine), 1 Cloth Guide, 1 Large Screwdriver, 1 Oil Can (filled with oil), 1 Combination Screwdriver and Wrench, 1 Extra Needle Plate, 1 Hemmer Foot, and 1 Package of Needles.

THE COMPLETE SET OF ATTACHMENTS illustrated herein are the HIGHEST GRADE LATEST PATENT, ALL STEEL, NICKEL PLATED FOOT ATTACHMENTS. Same quality as used on all other high grade machines, and consist of One Ruffler, One Shirring Plate, One Tucker, One Under Braider, One Short Foot, One Binder and One Set of Hemmers up to ⅝ of an inch. The complete set comes packed in a handsome velvet lined metal box, at our special price of 75 cents for the complete outfit.



Attachments, per set - - - - - 75 cents.

OUR HIGHEST GRADE BALL BEARING SPECIAL DROP LEAF AND BOX COVER MINNESOTA $15.85

REDUCED FROM $18.75.

THE CABINET IS A WORK OF ART, HIGHLY FINISHED WITH A PIANO POLISH; MADE OF SOLID AND VENEERED AIR AND KILN DRIED QUARTER SAWED OAK; WILL NOT WARP, CRACK OR SPLIT.

NO EXPENSE HAS BEEN SPARED to make the cabinet of our Minnesota superior in quality and appearance to any woodwork ever put upon a machine. Our swell front design, embodying grace and beauty in every outline, is the work of one of the best known designers in the country and is a radical departure from the straight angular woodwork generally found on machines.

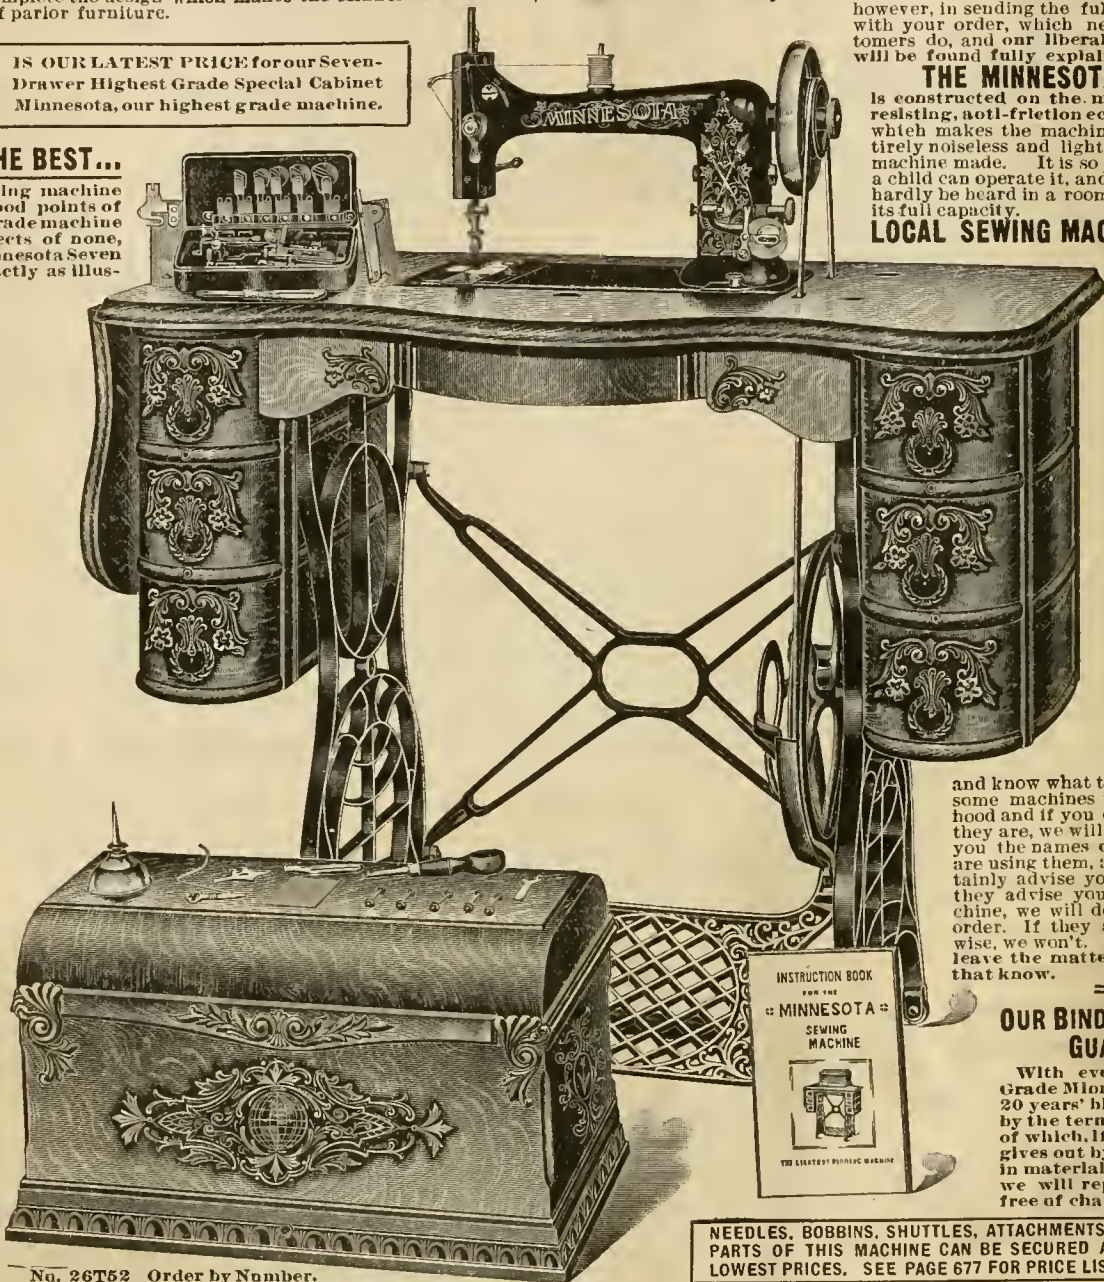
THE TABLE, with the drop leaf extended, has four distinct graceful swells or curves, which, however, allow the operator to get close to the works of the machine. The side drawers are oval shaped, the push or center drawer curved to follow the outline of the table, and the drawer cases are so constructed as to have the rounded appearance to harmonize with the general outline. Elegant hand carved ornaments on all drawers and massive brass drawer pulls complete the design which makes the Minnesota machine desirable as a piece of parlor furniture.

THE WOODWORK is of the most expensive quality, is made of carefully selected quarter sawed oak and given a finish equal to the finish given the best pianos. We guarantee the woodwork not to warp or split during the lifetime of the machine.

ABOUT THE FREIGHT. The freight charges will amount to next to nothing as compared with what you will save in price. The freight will average for 200 miles, 40 cents; 400 miles, 60 cents; 1,000 miles, $1.25. Greater or lesser distances in proportion.

OUR $1.00 C. O. D. SUBJECT TO EXAMINATION PROPOSITION, as fully explained on page 657. makes it possible for you to buy any sewing machine of us by first sending us $1.00 and paying the balance after the sewing machine is received at your railroad station. There is an advantage to you, however, in sending the full amount of cash with your order, which nearly all our customers do, and our liberal C. O. D. terms will be found fully explained on page 657.

$15.85 IS OUR LATEST PRICE for our Seven-Drawer Highest Grade Special Cabinet Minnesota, our highest grade machine.



IF YOU WANT THE BEST...

If you want a sewing machine that combines the good points of every strictly high grade machine made with the defects of none, order our special Minnesota Seven Drawer Cabinet, exactly as illustrated, at $15.85.

THE MINNESOTA HEAD

Is constructed on the most simple, wear resisting, anti-friction eccentric principle, which makes the machine run almost entirely noiseless and lighter than any other machine made. It is so light, in fact, that a child can operate it, and the machine can hardly be heard in a room when running to its full capacity.

LOCAL SEWING MACHINE AGENTS

and dealers often make funny representations, but it is not so funny for you to pay them $40.00 to $60.00 for a machine you can buy from us at one-third the price. There are some mail order houses that make extravagant claims for their sewing machines in their attempt to compete with us.

OUR THREE MONTHS' FREE TRIAL

contract accompanies every machine. We guarantee safe delivery. The price quoted is for the machine carefully crated and delivered on board the cars at Dayton, Ohio, and we guarantee it to reach you in the same perfect condition it leaves the factory.

WE ALWAYS LIKE TO ASK

prospective customers, when in doubt, to withhold their decision as to what to buy until they have asked a few people that have used our machines and know what they are. We have some machines in your neighborhood and if you don't know where they are, we will be pleased to give you the names of the people who are using them, and they will certainly advise you impartially. If they advise you to buy our machine, we will doubtless get your order. If they advise you otherwise, we won't. We would like to leave the matter to these people that know.

A COMPLETE LIST

of ATTACHMENTS AND ACCESSORIES, also description of MECHANICAL CONSTRUCTION shown on pages 670 and 671.

THERE IS NO MACHINE MADE

which will do as great a variety of work as satisfactory as the Minnesota. All Minnesota machines are fitted with a complete set of high grade attachments and all accessories which are required to keep the machine in perfect order.

No. 26T52 Order by Number.

OUR BINDING 20 YEARS' GUARANTEE.

With every Special High Grade Minnesota we issue a 20 years' binding guarantee, by the terms and conditions of which, if any piece or part gives out by reason of defect in material or workmanship, we will replace or repair it free of charge.

NEEDLES, BOBBINS, SHUTTLES, ATTACHMENTS AND ALL OTHER PARTS OF THIS MACHINE CAN BE SECURED AT ANY TIME AT LOWEST PRICES. SEE PAGE 677 FOR PRICE LIST.

OUR SPECIAL PRICES,
No. 26T50 Three Drawers, without attachments, $14.90
No. 26T51 Five Drawers, without attachments, 15 40
No. 26T52 Seven Drawers, without attachments, 15.85

These prices are quoted on our Minnesota Machine, delivered free on board the cars at our factory, Dayton, Ohio.

AT 75 CENTS EXTRA we furnish a complete set of latest patent foot attachments packed in handsome velvet lined metal box. For illustration and description of attachments, see page 671.

YOU CAN WITH THE SAME NEEDLE SEW THE FINEST FABRICS or the coarsest woolens. In fact, one of our customers, in writing, says that it will sew anything, from the finest tissue paper to sheet iron. Don't be deceived by the many flattering advertisements that are circulating throughout the country from concerns that pretend to be sewing machine manufacturers, and who would endeavor to lead you to believe that they can furnish you with a high grade sewing machine for less money than the Minnesota. If you send for their machine, send for ours also. Put them side by side, pass judgment on their general appearance and construction, then put them to the more important test of work. The result will be our machine will stay in your house, the other will go back.

WE HAVE CHEAPER MACHINES, machines that are good, machines that we guarantee, machines that will compare with other machines that sell at double the price; but for a strictly high grade sewing machine, one that will last a lifetime, one there is no wear out to, a machine combining the good points of every strictly high grade machine with the defects of none, we recommend by all means our highest grade Special Cabinet Seven-Drawer Minnesota at $15.85.

$15.85 IS A PRICE based on the actual cost of material and labor; $15.85 represents the actual cost of the lumber and the work in the cabinet, the iron, nickel and other material and labor in the stand and head, with but our one small percentage of profit added. $15.85 is the lowest price ever made by anyone on any machine that will compare with our Seven-drawer Minnesota.

NOTE As our firm name and trade mark do not appear on this machine, dealers can handle it at a profit. They have the opportunity of buying for $15.85 a machine which they cannot purchase from any manufacturer for less than $25.00. WE CANNOT, HOWEVER, ALLOW DISCOUNTS TO ANYONE.

OUR HIGH GRADE DROP HEAD BALL BEARING... MINNESOTA SEWING MACHINE.

THIS NEW STYLE DROP HEAD CABINET WITH FIVE DRAWER AND OUR MINNESOTA HEAD AT $15.20 IS A SPECIAL BARGAIN, AND WE ARE ANXIOUS TO HAVE ONE IN EVERY HOME : : : : :

WE KNOW that we can have no better advertisement in any section, than one of our Minnesota Sewing Machines, No. 26T55. There is nothing on the market that will equal it at anything like our price, and NO BETTER MACHINE can be had at any price.

OUR 1903 DESIGN CABINET.

The handsomest piece of wood work ever put on a sewing machine. We call particular attention to the graceful, handsome design of this cabinet, distinctive in character and elegant in appearance. The new swell front wood work which we now use on our Minnesota machine is a beautiful piece of furniture and will prove an ornament in any home in which it is placed. The wood work is of the best and most expensive quality, such as is used only upon a few of the highest grade standard machines selling at from $35.00 to $60.00. It is made of carefully selected, highly figured quarter sawed oak, and is given a finish and polish equal to the finish on a piano.

The table has three distinct swells which present a very graceful outline, being so curved, however, as to allow the operator to sit as near the machine as necessary. The side drawers are made with full swell front and handsome hand carved ornaments and are further enhanced by embossed cast brass handles. The center drawer is made with a double swell following the lines of the table, and the drawer cases are so constructed as to have a swell and rounded appearance to harmonize with the general design of the cabinet.

THIS TELLS JUST WHAT FREIGHT YOU WILL HAVE TO PAY:

The sewing machine, weighs crated for shipment, 125 pounds. The railroad companies carry sewing machines at first class freight rate. On pages 7 to 11 you will find the first class freight rate for 100 pounds to a point nearest your town. The freight will be almost, if not exactly the same to your town, so you can tell almost to a penny what the freight will amount to. As a rule the freight on a sewing machine averages about 60 to 75 cents for 500 miles; 80 cents to $1.25 for 1000 miles.

NO SEWING MACHINE AGENT OR DEALER would admit that **our $15.20 MINNESOTA is a better machine than he sells at $40.00 to $50.00, and we know of one dozen mail order houses that are advertising sewing machines at $16.00 to $25.00 that would tell you their machines were as good as the Minnesota.** Supposing we submit the question to a disinterested party in your neighborhood that knows someone that is using a Minnesota Sewing Machine. **There are a number of them in your immediate neighborhood.** If you do not know where they are, write us and we will give you the names of people there who are using the Minnesota machine, and if they do not tell you it is the equal of any sewing machine made, regardless of price, the best sewing machine they ever owned, if they do not advise you to send your order to us for a Minnesota machine, we will say no more.

A COMPLETE DESCRIPTION of the mechanical construction, accessories and attachments of our Minnesota Machines is given on pages 670 and 671.

GUARANTEED FOR 20 YEARS.....

by the terms and conditions of which, if any piece or part gives out by reason of defect in material or workmanship, we will repair or replace it free of charge.

FOR COMPLETE DESCRIPTION SEE PAGES 670 AND 671.

No. 26T55 ORDER BY NUMBER.

OUR C. O. D. SUBJECT TO EXAMINATION OFFER

as explained on page 657 tells how, by sending us $1.00 you can have any sewing machine sent to you by freight, balance, freight charges and collection charges to be paid after the sewing machine has been received and examined.

SPECIAL HIGH GRADE FEATURES

IN WHICH THE MINNESOTA MACHINE ESPECIALLY EXCELS:

Durability, ease of operation, light and noiseless running, simple construction and easily learned, positive feed, self threading shuttle, perfect tension with thread release, self setting needle, positive takeup, automatic spooler, highest arm, hand rubbed enamel finish of head, heavily nickeled bright parts, flat needle bar, hardened tool steel bearings, all working parts adjustable, latest improved and best steel attachments.

OUR BINDING 20 YEARS' GUARANTEE SENT WITH EVERY MACHINE

Money will be cheerfully refunded if machine is not found as represented, in which case you are nothing out, and we would be the losers, as we will pay the freight both ways.

WITH OUR SUPERIOR FACILITIES for marketing machine as we do direct from the factory to the user, we are able to furnish the best machine made, with the best woodwork and save you from $20.00 to $50.00 on a first class, high grade machine.

DO NOT BE PERSUADED BY CANVASSERS, dealers or peddlers, with their unfounded arguments, as they fully know they cannot compete with our machines and prices. Through the ordinary channels of trade which they are compelled to handle machines that they sell, they would have to ask, for a machine equal to our Minnesota, at least $50.00.

THERE IS NOTHING MORE PLEASING to the user of sewing machines than a machine which will do every variety of work from the simplest sewing to the most delicate fancy work, and never get out of order, which causes so much annoyance on ordinary machines.

NEEDLES, BOBBINS, SHUTTLES, ATTACHMENTS, and all other parts used in the construction or operation of this machine can be secured from us AT ANY TIME at lowest possible prices.

See Page 677 for Prices on Sewing Machine Supplies.

WE FURNISH A COMPLETE SET OF THE VERY HIGHEST GRADE HIGHLY FINISHED ATTACHMENTS FOR 75 CENTS.

No. 26T55 Five-Drawer, Drop Head Cabinet Minnesota (without attachments), free on board cars at factory, Dayton, Ohio..... **$15.20**

NOTE. Although we can allow no discounts, dealers can handle the Minnesota in competition with the highest grade machines and resell at a profit, as our name does not appear upon any of our machines. The Minnesota is the equal of any sewing machine, regardless of price.

OUR SEVEN-DRAWER DROP HEAD BALL BEARING MINNESOTA, $15.70

"MINNESOTA" with us in Sewing Machines stands for the highest of high grade in everything; the best that money can buy. The word "MINNESOTA" in a sewing machine with us, means a lighter running, nearer noiseless, more durable, handsomer and better finished sewing machine head than is made by any other maker, the best that money can buy. See illustrations and full descriptions of the Minnesota head and all its parts on pages 670 and 671 in this book. "MINNESOTA" in sewing machines with us, means for the woodwork, a higher grade, better finished and handsomer cabinet than is furnished with any other sewing machine made.

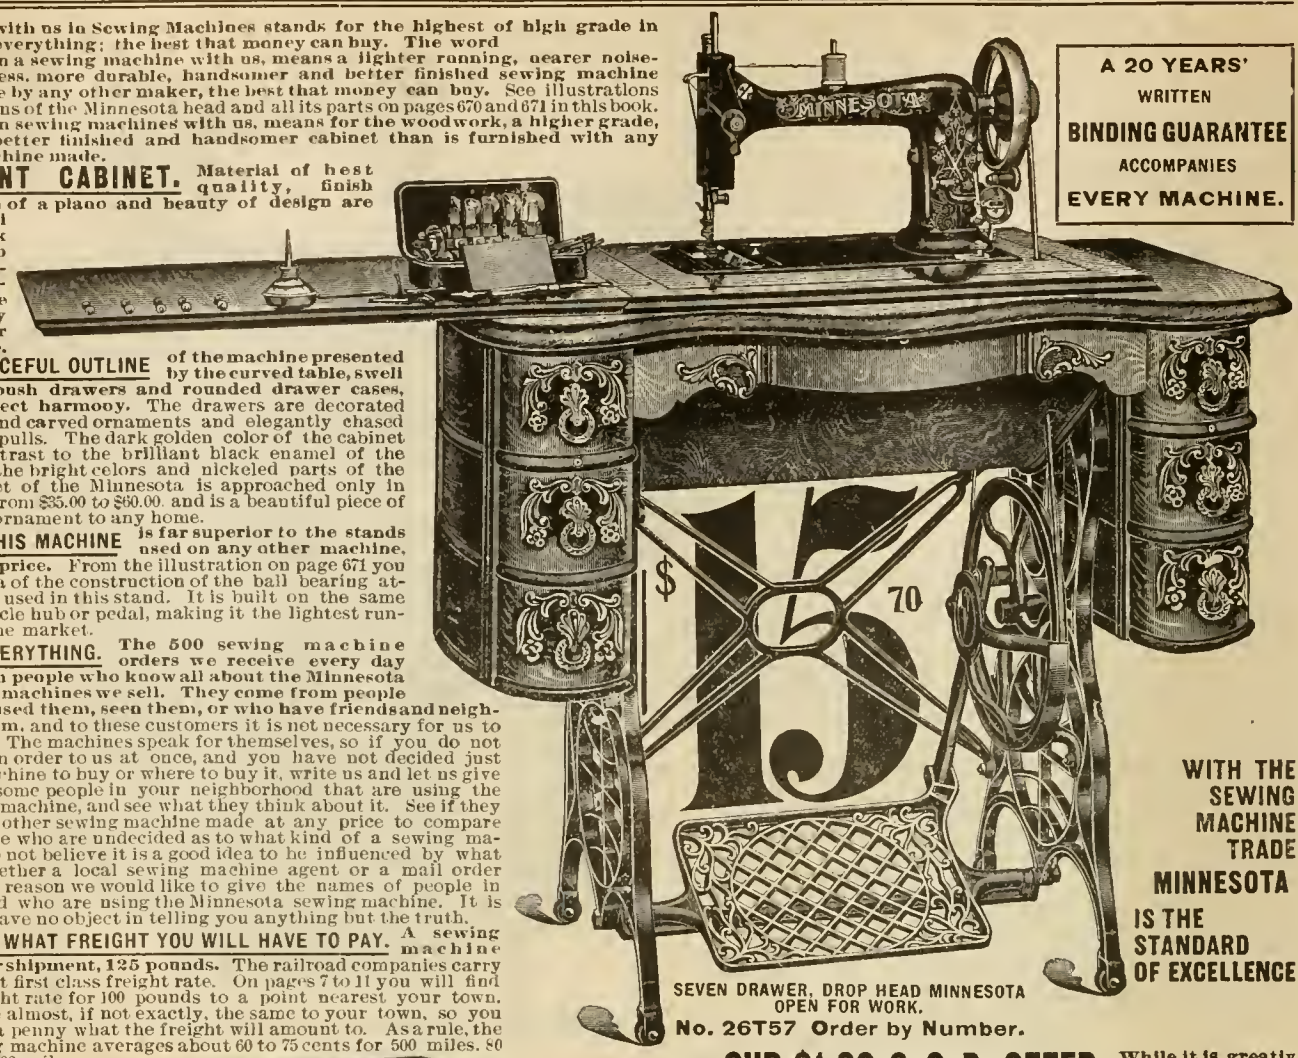
SWELL FRONT CABINET. Material of best quality, finish and beauty of design are equal to the finish of a piano and features embodied in our woodwork which combine to make the Minnesota the finest appearing machine ever furnished by any manufacturer regardless of price.

NOTICE THE GRACEFUL OUTLINE of the machine presented by the curved table, swell front side and push drawers and rounded drawer cases, every part in perfect harmony. The drawers are decorated with handsome hand carved ornaments and elegantly chased cast brass drawer pulls. The dark golden color of the cabinet offers a pretty contrast to the brilliant black enamel of the ribbon stand and the bright colors and nickeled parts of the head. The cabinet of the Minnesota is approached only in machines sold at from $35.00 to $60.00, and is a beautiful piece of furniture and an ornament to any home.

THE STAND ON THIS MACHINE is far superior to the stands used on any other machine, regardless of the price. From the illustration on page 671 you can get a good idea of the construction of the ball bearing attachment which is used in this stand. It is built on the same principle as a bicycle hub or pedal, making it the lightest running machine in the market.

THE BEST OF EVERYTHING. The 500 sewing machine orders we receive every day come largely from people who know all about the Minnesota and other sewing machines we sell. They come from people who either have used them, seen them, or who have friends and neighbors who own them, and to these customers it is not necessary for us to make any claims. The machines speak for themselves, so if you do not feel like sending an order to us at once, and you have not decided just what kind of a machine to buy or where to buy it, write us and let us give you the names of some people in your neighborhood that are using the Minnesota sewing machine, and see what they think about it. See if they think there is any other sewing machine made at any price to compare with it. For people who are undecided as to what kind of a sewing machine to buy we do not believe it is a good idea to be influenced by what the seller says, whether a local sewing machine agent or a mail order house, and for this reason we would like to give the names of people in your neighborhood who are using the Minnesota sewing machine. It is such people that have no object in telling you anything but the truth.

THIS TELLS JUST WHAT FREIGHT YOU WILL HAVE TO PAY. A sewing machine weighs, crated for shipment, 125 pounds. The railroad companies carry sewing machines at first class freight rate. On pages 7 to 11 you will find the first class freight rate for 100 pounds to a point nearest your town. The freight will be almost, if not exactly, the same to your town, so you can tell almost to a penny what the freight will amount to. As a rule, the freight on a sewing machine averages about 60 to 75 cents for 500 miles. 80 cents to $1.25 for 1000 miles.



A 20 YEARS' WRITTEN BINDING GUARANTEE ACCOMPANIES EVERY MACHINE.

WITH THE SEWING MACHINE TRADE MINNESOTA IS THE STANDARD OF EXCELLENCE

SEVEN DRAWER, DROP HEAD MINNESOTA OPEN FOR WORK.
No. 26T57 Order by Number.

OUR $1.00 C. O. D. OFFER. While it is greatly to your advantage to send the full amount of cash with your order, and you save from 25 to 50 cents extra express charges, a charge made for collecting and returning money to us, you save the annoyance of going to the express office or bank to pay the draft and get the bill of lading which entitles you to take the machine away from the railroad station, and while nearly all our customers send cash in full, (of course with the understanding that their money is to be returned to them at once if they are not perfectly satisfied), to those who prefer to see and examine the sewing machine at their railroad station before paying for it, to convince themselves with their own eyes that there is no sewing machine made or sold by any other house that will in any way compare with ours at the price, to show them that no such a sewing machine was ever shipped into their town at anything approaching the price, we make a very liberal pay after received and examined proposition. You can send us $1.00 with your order for any sewing machine and the machine will be sent to you by freight C. O. D., subject to examination, balance, freight charges and collection charges payable after received. See page 657 for our liberal $1.00 C. O. D. subject to examination offer.

NEEDLES, BOBBINS, shuttles, attachments and all other parts used in the construction or operation of our machines may be secured from us at any time at cost prices. See page 677 for lowest prices ever quoted on sewing machine supplies.

ORDER OUR HIGHEST GRADE SEVEN-DRAWER DROP HEAD MINNESOTA MACHINE AT $15.70. We will send it to you with the understanding that if at any time within three months you become dissatisfied or you find that anyone will furnish you a machine that will compare with it in any way at within 50 per cent of the price, you will have the privilege of returning it to us at our expense of freight charges both ways and we will return your money.

BEFORE BUYING A MACHINE ELSEWHERE, before accepting all the local sewing machine agent tells you or all that some one else writes you, inquire of your neighbor who owns one of our high grade machines, or write us and we will give you the names and addresses of some near neighbors who have one of our machines and we will refer you to them, refer you to the people in your own neighborhood who are using our machines, and if they don't advise you to order a sewing machine from us we certainly will not expect your order. If we cannot convince you that our sewing machines are better than any machines that were ever sold by anyone at anything like the price, and if you yourself cannot be so convinced by comparing them side by side, we will not expect you to keep the machine you order from us.

No. 26T57 Seven Drawer, Drop Head Minnesota. Our special price (without attachments) f. o. b. cars at factory, in Dayton, Ohio... **$15.70**
For Attachments see page 671.

We Recognize No Better Sewing Machine Construction than is found in our Minnesota.

SEVEN-DRAWER, DROP HEAD MINNESOTA CLOSED.
No. 26T57 Order by Number.

NOTE:—OUR FIRM NAME AND TRADE MARK DO NOT APPEAR ON OUR MACHINES.

OUR HIGH GRADE, AUTOMATIC LIFT AND DROP HEAD, BALL BEARING MINNESOTA SEWING MACHINE

WE GUARANTEE the automatic lift device with which this machine is fitted to be far superior in every respect, stronger in material and construction and easier of operation than anything similar on the market.

AUTOMATIC LIFT.

This machine is fitted with a device, simple in construction but very strong and durable, by which the head is raised automatically into position, ready for sewing, by throwing back the leaf. In the same manner the head is lowered automatically into its wooden protector by folding the leaf over the head, so that in raising or lowering the head it is not necessary to touch it at all. The device is so constructed as to distribute the weight of the head upon the working parts and relieve the leaf almost entirely of any strain. As a result the contrivance is practically indestructible, incapable of getting out of order and the head is raised and lowered with very little effort on the part of the operator. All parts are made of the best quality steel, and should any piece break through defect in material or workmanship, we agree to replace same free of charge and pay transportation charges.

THIS NEW AUTOMATIC LIFT IS FOUND ONLY IN OUR MINNESOTA DROP HEAD MACHINE.

THE SEWING QUALITIES

of the Minnesota call forth the highest praise from everyone. The powerful construction and accurate adjustment of the head and working parts insures a perfect stitch and the same ease of operation on all materials from the heaviest to the lightest, with very little change of the tension. The easy and speedy action of the machine is an especially commendable feature, enabling the operator to do a GREATER AMOUNT OF WORK WITH CONSIDERABLE LESS LABOR than is possible on most any other high grade machine.

THE WORKING PARTS OF THE HEAD

are made of case hardened steel and arranged to reduce friction to the minimum. The slight wear occasioned by years of constant use can be overcome by tightening the bearings, which are under the control of the operator. Less operating parts are used in the construction of the Minnesota machine than any other shuttle machines on the market and we claim, unless the operator tampers with the machine, it will not "get out of order."

No. 26T60
ORDER BY NUMBER.

This illustration shows the head being raised into position automatically by raising the lid.

OUR 1903 DESIGN CABINET.

The handsomest piece of wood work ever put on a sewing machine. We call particular attention to the graceful, handsome design of this cabinet, distinctive in character and elegant in appearance. The new swell front wood work which we now use on our Minnesota machine is a beautiful piece of furniture and will prove an ornament in any home in which it is placed. The wood work is of the best and most expensive quality, such as is used only upon few of the highest grade standard machines selling at from $35.00 to $60.00. It is made of carefully selected, highly figured quarter sawed oak, and is given a very high finish and polish. The table has three distinct swells which present a very graceful outline, being so curved, however, as to allow the operator to sit as near the machine as necessary. The side drawers are made with full swell front and handsome hand carved ornaments and are further enhanced by embossed cast brass handles. The center drawer is made with a double swell following the lines of the table, and the drawer cases are so constructed as to have a swell and rounded appearance to harmonize with the general design of the cabinet.

The large sales of the Minnesota is proof of the satisfaction which the machine gives to the purchasers. Wherever one is placed, additional sales always result.

THREE MONTHS' TRIAL.

To enable the purchaser to thoroughly test the machine, to feel assured that the machine is what is required and entirely satisfactory in every respect, to give every opportunity to compare the Minnesota with machines sold elsewhere, we allow three months' trial with the understanding that if the customer is dissatisfied with the machine for any reason whatsoever it can be returned to us and we guarantee to hold the customer free from any expense.

CUSTOMERS who have already dealt with us rarely ever order sewing machines C. O. D. and even new customers send the full amount of cash with their orders. But, as an inducement to those who do not care to send the full amount of cash with their order, we are perfectly willing, on receipt of $1.00, to send any machine, the balance payable on receipt of the machine.

ONLY $1.00 DOWN.

By sending us $1.00 you can have any sewing machine sent you C. O. D. subject to examination, balance payable after received and examined; yet it is greatly to your interest to send the full amount of cash with your order. All this is fully explained on page 657.

One advantage in ordering sewing machines from us is that you can be sure of getting all kinds of sewing machine repairs and supplies in the years to come and always at the very lowest cost.

THIS TELLS JUST WHAT FREIGHT YOU WILL HAVE TO PAY: The sewing machine weighs, crated for shipment, 135 pounds. The railroad companies carry sewing machines at first class freight rate. On pages 7 to 11 you will find the first class freight rate for 100 pounds to a point nearest your town. The freight will be almost if not exactly the same to your town, so you can tell almost to a penny what the freight will amount to. As a rule the freight on a sewing machine averages about 60 to 75 cents for 500 miles; 80 cents to $1.25 for 1000 miles.

WE SEND WITH EVERY MACHINE

OUR BINDING 20 YEARS' GUARANTEE.

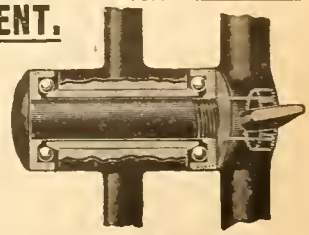
Should any piece or part be found defective we will replace it FREE OF CHARGE, and our liberal terms of shipment, allowing you the privilege of trying and examining the machine, and if not found satisfactory, returning it to us and we will pay the freight and refund your money, will at once convince you that you run no risk in sending your order to us.

NEEDLES, BOBBINS, SHUTTLES, ATTACHMENTS, and all other parts used in the construction and operation of this machine may be secured from us at any time. Our prices are consistent with the low prices of our machines. We always carry a large stock of all repairs and supplies.

A FULL SET OF ACCESSORIES furnished free of charge, consisting of 1 quilter, 5 bobbins (and 1 in the machine), 1 cloth guide, 1 large screwdriver, 1 oil can filled with oil, 1 combination screwdriver and wrench, 1 extra needle plate, 1 hemmer foot and 1 package of needles.

A COMPLETE SET OF ATTACHMENTS will be furnished to customers desiring same for 75 cents extra. If you desire these attachments, remit 75 cents extra with your order. The complete set of attachments, which are the latest patent made of the best steel and nickel plated, consists of one ruffler, one shirring plate, one tucker, one under braider, one short foot, one binder and one set of hemmers up to ⅝ of an inch. The complete set comes packed in a handsome velvet lined metal box.

BALL BEARING ATTACHMENT.



This machine is fitted without celebrated bicycle ball bearing attachment, found only on our machines, which contributes largely to the light running and rapidity of action for which our Minnesota is noted. A small child can operate the machine at its greatest speed with practically no effort. The ease with which our ball bearing Minnesota can be operated appeals directly to all housewives who at times are compelled to run machines for hours.

The work of sewing rendered a pleasure instead of a drudgery.

The cups, cones and all wearing parts of this attachment are made of case hardened ground out steel, and are so arranged as to be practically frictionless. The parts, however, can be replaced at any time, as they are under the immediate control of the operator.

NOTE. Although we can allow no discounts, dealers can handle the Minnesota in competition with the highest grade machine and resell at a profit, as our name does not appear upon any of our machines. The Minnesota is the equal of any sewing machine regardless of price.

No. 26T60 Automatic Lift, 5-Drawer Drop Head Minnesota (without attachments)..... $17.40
No. 26T61 Automatic Lift, 7-Drawer Drop Head Minnesota (without attachments)..... 17.95

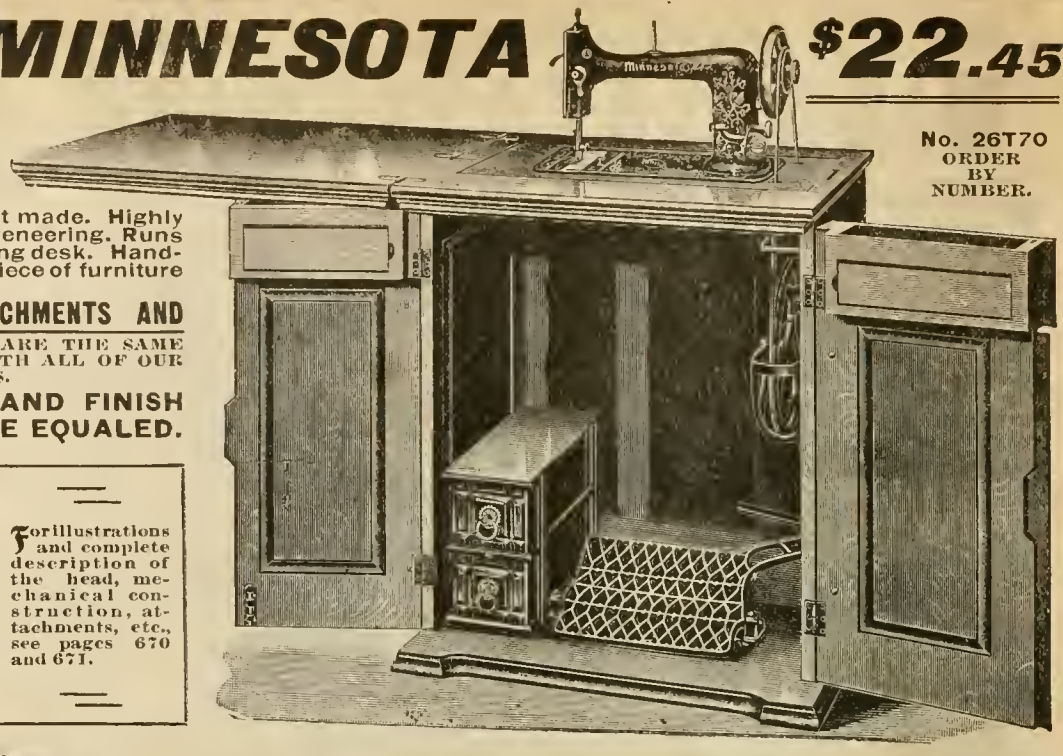
Price reduced from $23.20.

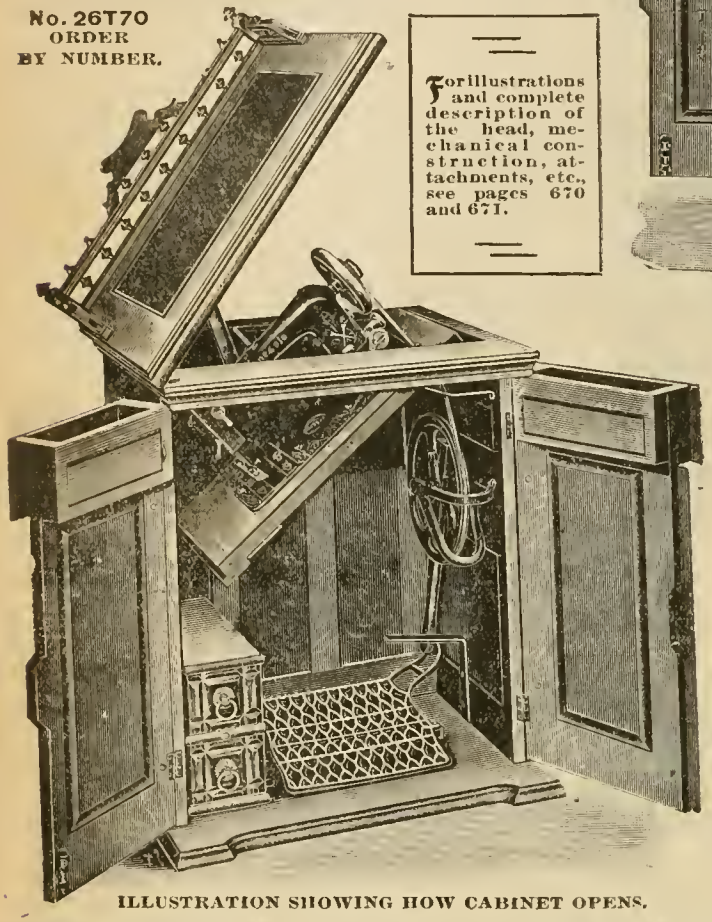
Finest Sewing Machine Cabinet made. Highly polished panels faced with Italian veneering. Runs on rollers. Can be used as a writing desk. Handsomely ornamented and a pretty piece of furniture for every home.

THE HEAD, MECHANISM, ATTACHMENTS AND ACCESSORIES OF THIS MACHINE ARE THE SAME AS WE FURNISH WITH ALL OF OUR HIGH GRADE MINNESOTA MACHINES.

FOR BEAUTY OF DESIGN AND FINISH THIS CABINET IS NOT TO BE EQUALED.



No. 26T70 ORDER BY NUMBER.

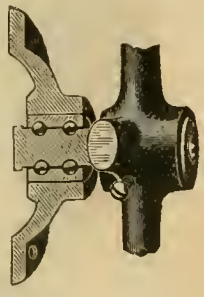


No. 26T70 ORDER BY NUMBER.

For illustrations and complete description of the head, mechanical construction, attachments, etc., see pages 670 and 671.

ILLUSTRATION SHOWING HOW CABINET OPENS.

ILLUSTRATION SHOWING CABINET OPEN.



BALL BEARINGS. Our Minnesota Drop Desk Cabinet machine is as light running as either the upright or drop head styles. It is fitted with our celebrated "bicycle" ball bearing castings, found only on our cabinet machines; which give the same rapidity of action and ease of operation to the machine as the ball bearing arrangement to a bicycle. All wearing parts are made of case hardened, ground out steel, and the steel balls are the very best in the market. Simple in construction; no getting out of order. All parts of castings are easily accessible, so that balls, cups, etc., can be replaced at any time. All friction eliminated and the operation of machine made a pleasure.

TO FURNISH THE BEST CABINET MADE and outdo others we have had made for our Minnesota a special automatic drop desk cabinet, which we furnish in either solid antique oak or black, walnut as desired. As the oak cabinet is the most popular, we always send the cabinet in antique oak unless walnut is specified in the order. No cabinet will compare with it. When closed it has the appearance of a beautiful writing desk and can be used as such. It has a green cloth covered top and makes a nice, attractive piece of furniture for any drawing room. When so desired we can furnish the top solid without cloth cover. By a practical and patented device when you lift and turn the top over to the left, the sewing machine head will rise to the surface of the table ready for sewing. The machine head moves up and down and as it is counterbalanced it requires but little or no exertion to put it in place. In the upper part of the two doors pockets are built, and inside the case, as shown in the illustration, are two drawers with nickel plated ring pulls, for attachments and accessories. Each cabinet is provided with a lock and the two front doors can be securely locked.

The cabinet is highly polished, beautifully veneered, carved, ornamented and decorated.

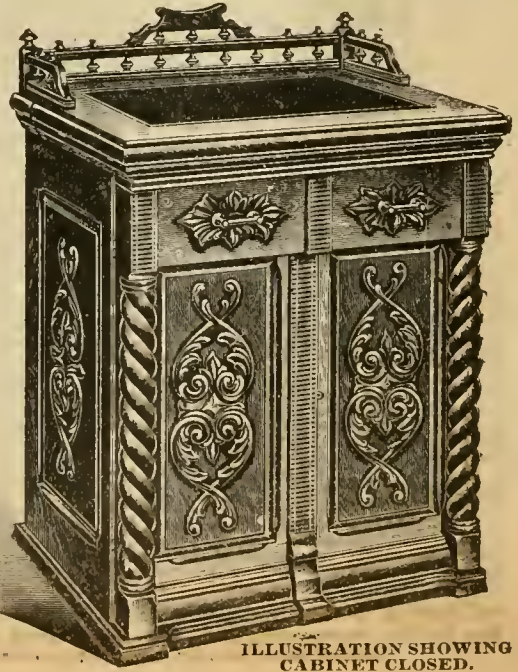


ILLUSTRATION SHOWING CABINET CLOSED.

OUR $1.00 OFFER. While nearly all our customers send cash in full with their orders, thus saving the extra express charges for collecting and returning the money to us, we will, upon receipt of $1.00, send any sewing machine to any address by freight C. O. D., subject to examination, balance and freight charges payable after the machine is received, examined and found satisfactory. For special liberal C. O. D. terms offer, see page 657.

NEEDLES, BOBBINS, SHUTTLES, ATTACHMENTS, and all other parts used in the construction and operation of this machine may be secured from us at any time. **Our prices on supplies are consistent with the low prices of our machines. See page 677 for list of supplies and prices.**

NOTICE—OUR FIRM NAME OR TRADE MARKS DO NOT APPEAR UPON THE MACHINES.

THERE ARE MANY SUPERIOR FEATURES which can only be appreciated after the machine is seen, and the more an operator uses it the better he likes it. **It has extra table room,** as you will observe from the illustration showing the machine open ready for use. It has a **large balance wheel, runs noiselessly** and with about half the necessary power required for ordinary machines.

The freight charges amount to very little (comparatively nothing), considering the amount we are able to save you on the purchase price. We are anxious to have one of these machines in every home, knowing that it would be one of the best advertisements we could have in any neighborhood. So sure are we that every customer will be so well pleased that we may expect many flattering recommendations to their friends and neighbors, which will result in our securing increased patronage in every section where we ship one of these machines.

You cannot afford to purchase elsewhere before you have seen and tried this machine if you would like to save from $25.00 to $45.00. You assume no risk whatever, when you purchase from us, as we give you a 20-year written binding guarantee.

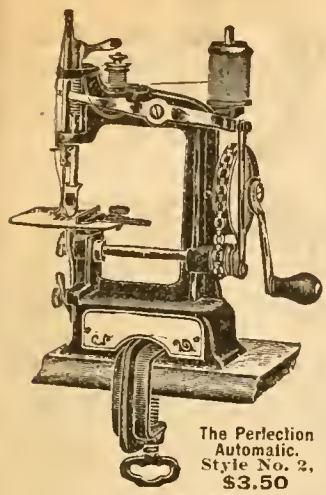
THIS TELLS JUST WHAT FREIGHT YOU WILL HAVE TO PAY:

A sewing machine weighs, crated for shipment, 150 pounds. The railroad companies carry sewing machines at first class freight rate. On pages 7 to 11 you will find the first class freight rate for 100 pounds to a point nearest your town. The freight will be almost, if not exactly, the same to your town, so you can tell almost to a penny what the freight will amount to.

No. 26T70 Automatic drop desk oak cabinet, with cloth or solid top, as desired. Our special price, without attachments, free on board the cars at our factory, Dayton, Ohio..... $22.45

Full Set of Attachments, as Illustrated on Page 671, 75 Cents.

THE PERFECTION AUTOMATIC CHAIN SINGLE STITCH HAND MACHINE.



The Perfection Automatic. Style No. 2, $3.50

THIS MACHINE IS NOT A TOY OR EXPERIMENT, but a well built machine, a perfect and practical sewer, thousands of which are in use throughout the country. It does the work of the regular chain stitch machines which are usually very high priced; it is built on the same principles and is capable of a great variety of work with any kind of thread, silk or twist, and on all kinds of cloth.

WHERE A FULL SIZED FAMILY MACHINE cannot be afforded or is not needed, this machine will be found a very good substitute, as it answers every purpose of a hand machine. To families possessing machines it is a household necessity, as it can be carried about and is always ready for use on porch, table, arm of chair or window sill, and for fancy sewing such as embroidering, outlining, braiding, etc., in which the chain stitch is so desirable. It is an excellent educator to children in the art of sewing, and is especially needed by unmarried men and women who have not easy access to family sewing machines. **IT MAKES A BEAUTIFUL CHAIN STITCH and sews muslins, linens, flannels and lawns, in fact, any goods, in a surprising manner.** It is well made, strong and durable, and most simple in construction. No getting out of order. Highly improved with automatic tension, stitch and feed regulator, self setting needle, etc. **THERE IS NO COMPARISON between the Perfection and other hand chain stitch sewing machines;** it is absolutely the most perfect, most improved and satisfactory machine of its kind on the market. **Will replace free any parts that may prove defective.**

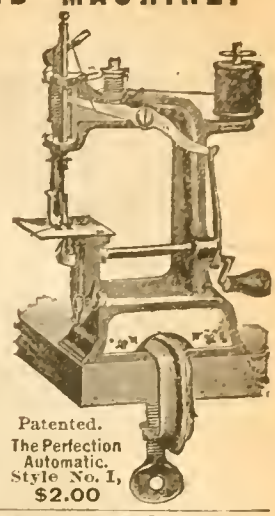
FURNISHED COMPLETE READY FOR USE with needle and thread, packed in wooden box with full instructions for operating.

Extra Needles. 10 in package for..... 25c

STYLE No. 2 IS OUR LATEST MODEL and is fitted with an improvement which makes its speed of operation four times greater than that of style No. 1, and almost equal to that of a stand machine.

No. 26T80 Perfection Hand Machine, style No. 1..... $2.00
No. 26T82 Perfection Hand Machine, style No. 2..... 3.50

WE GUARANTEE THIS MACHINE to be exactly as represented. If is not found entirely satisfactory it can be returned and we will refund money and charges.



Patented. The Perfection Automatic. Style No. 1, $2.00

OUR NEW QUEEN $5.95 IMPROVED HAND MACHINE.

No. 26T90 **$5.95** AND **$7.85**

AT $5.95 we furnish our New Queen Hand Machine with iron base and without cover, as illustrated on the left. For $7.85 we furnish the machine with wooden base and complete with a fine bent wood cover.

THIS IS A FIRST CLASS, RELIABLE MACHINE, having every improvement that is found on our high grade stand sewing machines, and capable of doing the widest range of work. It has an automatic bobbin winder, self threading, vibrating steel shuttle, patent automatic take up, self setting needle clamp, tension liberator, all the latest improvements, combining simplicity, durability and strength in construction, speed and light running qualities, unequaled for ease of management, and capacity for wide range of working, hemming, felling, binding, tucking, ruffling, gathering, seaming, etc., adapted to every variety of sewing, from the lightest muslin to the heaviest cloth.

THE BEARINGS are of the best hardened steel and are adjustable. We pay as much attention to the adjustment of this machine as we do to our Minnesota, and we will not admit that this machine is equaled by any hand machine on the market, regardless of price or name. One particular point of its superiority lies in its feed, which is the four-motion feed, the same that is used upon our high grade stand machines. This feed is absolutely positive, its movements being regulated by the eccentric lever bar, and does not require the use of coiled springs to obtain the four movements required of the feeding mechanism. The majority of other hand machines use the spring feed, which readily becomes weak and fails to act properly.

OTHER POINTS OF EXCELLENCE lies in its self setting needle, positive stitch regulator, and a device by which the gearing is readily released, thus enabling the operator to wind the bobbin without operating the working parts of the machine. The hand wheel is arranged with a belt groove, so that the machine can be placed on a sewing machine stand and operated with the treadle in the ordinary manner. **We furnish an instruction book and a full set of accessories free of charge with the machine.**

No. 26T90 New Queen Hand Machine, with iron base, no cover. Our special price..... $5.95

Free on board cars at our factory in Central Illinois. See our liberal terms of shipment on page 657.

SHUTTLES.

All manufacturers of sewing machines have made changes in the styles of shuttles used in their machines and nearly every make has several different kinds of shuttles, so that in ordering it is not only necessary to mention name of shuttle wanted, but to send picture of shuttle or the old one as sample.

SEWING MACHINE SUPPLIES.

Repairs or supplies for machines listed in this catalogue, such as needles, bobbins, shuttles, attachments, etc., may be secured from us at any time at lowest possible prices. As we carry a complete stock of all parts used in the construction or operation of our machines, we can fill orders for supplies without delay. The supplies furnished by us for our machines are the genuine parts, manufactured by the makers of the machines. Under the terms of our contract with the manufacturers, we can furnish repairs for our machines at any time in the future. An order for repairs placed with us ten or fifteen years from date will be filled as promptly and as accurately as an order placed today.

SEWING MACHINE NEEDLES. In ordering needles be sure and send sample, when possible, enclosing it with order, or mention name of machine and whether flat or round shank. Also mention which size or number of needles wanted. Always send cash in full with order and allow for postage on needles at the rate of 2 cents per dozen. When ordering needles for our machines, always enclose sample and mention head number of your machine.

If by mail, postage extra, 18 cents.
Oil can only be sent by mail if packed in a wooden tube as prescribed by the government. The postage given includes cost of wooden mailing tube.

SEARS ROEBUCK & CO.

HARDWARE DEPARTMENT.

OUR HARDWARE DEPARTMENT is one of the strongest in our house. No one can compete with us in price, if quality is considered.

WE GUARANTEE THE QUALITY of everything offered in this line. You will find every good and reliable maker of hardware represented on these pages, standard goods known everywhere, and we do not handle unreliable or trashy goods at any price.

IF YOU INTEND TO BUY HARDWARE of any kind, if you contemplate building a house, a barn, a granary, or other building, or if you intend to buy tools of any description, do not fail to go over these prices very carefully and compare them with what you would have to pay at home for equal goods. We are sure we can save you 25 per cent to 50 per cent on everything in this line.

FREIGHT RATES ARE LOW ON HARDWARE. Almost everything in hardware can go at third or fourth class rates, especially the heavier goods. Refer to our table of freight rates on pages 7 to 11, and you will see that the freight will amount to next to nothing as compared to the saving in price.

THIS DEPARTMENT has been greatly enlarged within the last few months, and by reason of its rapidly increasing trade this big outlet for goods gives us a still greater purchasing power, and we can show our customers a larger percentage of saving. We reserve the right to refuse to fill orders from wholesale dealers, or for extraordinary large quantities.

THE PRICES on a few items quoted in this catalogue are subject to market changes. If there is any reduction in cost, we will give you the benefit; if any advance, we will charge you the difference. This, however, rarely occurs as we fully protect ourselves by contract, and when it does, we make the difference in cost to you the exact difference in cost to us. Our records show that we reduce our prices and refund the difference to our customers ten times where we are compelled to advance the price and charge them more one time.

CUTLERY DEPARTMENT.

TABLE CUTLERY. Our Table Cutlery is made by the most reliable and well known factories in this country. Our goods are the latest and best patterns possible to obtain. They are made of only the best steel, full standard size, are fully warranted, and the workmanship cannot be excelled. We do not handle inferior grades known as seconds.

PRICE OF KNIVES ONLY. We will furnish KNIVES ONLY in any of the patterns quoted (except as noted). The price of one dozen knives only is 15 cents more than the price of the set of same style knives and forks. Six knives and six forks constitute a set.

IF BY MAIL, 35 TO 40 CENTS PER SET EXTRA FOR POSTAGE.

NOTE OUR REDUCED PRICES.

ALL ORDERS WILL BE FILLED AT PRICES PRINTED IN LATEST EDITION OF OUR CATALOGUE.

Aluminum Spoons.

OUR ALUMINUM SPOONS are made of one piece of solid cast aluminum, and should not be compared with the light stamped or struck aluminum goods which are too light to stand the wear and tear of everyday use. These spoons are highly polished and in appearance are equal to the best solid silver goods, and as they are made of the same material throughout (having no plating to wear off) they will not tarnish nor corrode, but will have the appearance of new goods even after years of use.

No. 28T392 Cast Aluminum Tipped Teaspoons. Full size. Very finely finished. Pure as solid silver. Never wear out or tarnish. Price, per set of six 37c

KEENE CUTLERY CO.'S BUTCHER KNIVES.

THE BEST MADE. Our guarantee is as follows: If any Keene Cutlery Co.'s Butcher Knife, Skinning Knife or Sticking Knife does not prove as good or better than any knife you ever had, return it to us and money will be cheerfully refunded without argument. Nearly the total of these knives is in the blades.
THEY ARE INTENDED TO SELL ON THEIR QUALITY, NOT ON THEIR LOOKS.
Remember when comparing prices of these knives that the blades are all hand forged—not made by machinery.
If by mail, postage on a 6-inch butcher knife is 10 cents extra, other sizes in proportion.

KEENE CUTLERY CO.'S SHEARS & SCISSORS.

Warranted as good or better than any other, regardless of price.

OUR GUARANTEE. If they are not in every way satisfactory they may be returned within thirty days, and money will be refunded or another pair sent to replace any not satisfactory. The shape of the blades makes them very stiff. **They have steel laid blades** and are finished in a superior manner. **The fitting of the joints is as near perfect** as the highest mechanical skill and careful inspection can make it. A drop of oil should be put on the joints of shears and scissors occasionally, and the blades should be kept free from dust and grit, which quickly causes the blades to become dull. **Don't use the shears to pull carpet tacks,** draw corks, lift stove lids, etc., **and then expect them to cut.** While we claim our shears are the **best on earth,** they cannot be used for such purposes and give good satisfaction. **Do not let the low prices at which we sell these shears lead you to think the quality is not of the very best.** These shears are not made by the "shear trust"—**our prices are not dictated by any combination,** and we give our customers the advantage of our large contract, with but our usual one small profit added. **If you want the best shears made, try the KEENE CUTLERY CO. BRAND. Size of shears is the entire length.**

Keene Cutlery Co's. Shears, Straight Trimmers.

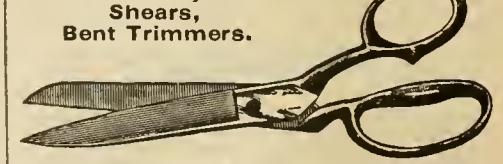
No. 28T751 Keene Cutlery Co. Shears (Straight Trimmers). Japanned handles, nickle plated, steel laid blade. Will cut clear to the points and keep sharp longer than any other we know of. **Fully warranted, as explained in heading above.**

Whole length, inches..	6	7	8	9	10
Length of cut.....	2¾	3¼	3⅞	4¼	5
Price, each.....	27c	32c	36c	43c	57c

No. 28T752 Keene Cutlery Co. Shears (Straight Trimmers). Full nickel plated, otherwise like those previously quoted. While the cutting qualities are the same in all shears of our brand, the nickel plated shear is most popular because it costs but very little more and looks much nicer.

Whole length, inches.	6	7	8	9	10
Length of cut.....	2¾	3¼	3⅞	4¼	5
Price, each.....	30c	35c	40c	48c	63c

Keene Cutlery Co.'s Shears, Bent Trimmers.



No. 28T753 Keene Cutlery Co. Shears (Bent Trimmers). Japanned handles, nickle plated, steel laid blade. For use on a table or board or for following a line the bent handle shear is most convenient. **Fully warranted.**

NEW POCKET KNIVES DIRECT FROM OUR OWN FACTORY.

WE CALL YOUR ATTENTION especially to this handsome new line of highest grade American made pocket and penknives, our Keene Cutlery Co. brand. They are made in our own factory in New York, where the cost of production is reduced to the actual cost of material and labor, all of which we give you the benefit of, adding only our one small percentage of profit. **You can buy a pocket or penknife from us at just what it costs to make in our factory,** with but our one small percentage of profit added; less than dealers can buy in any quantity.

THE BLADES ARE FORGED from S. C. Wardlow's best English special blade steel, the finest and the best that can be procured for knife blades. We also use Wardlow's steel for the springs, which costs nearly double the price at which ordinary spring steel can be bought, but which greatly improves the wearing qualities of the knife, and adds greatly to its durability. **Every blade, from the cheapest to the best which bears our brand, is hammered out by hand.** Instead of using iron for the lining of our cheaper knives, we pay more for steel because it makes a much stronger and better knife. All work is done by skilled mechanics, particular attention being paid to making a keen cutting knife that will carry a lasting edge.

OUR POCKET KNIVES are fully guaranteed in every way. This means we guarantee the blades to be free from flaws, and guarantee them to be neither too hard nor too soft. This does not mean that we guarantee the knives not to break. If we were to do this, we would be obliged to temper them so soft they would be of no practical use for cutting. They are not intended to be used as mortising chisels, tack pullers, can openers, screwdrivers, erowbars, or any of the purposes by which pocket knives are frequently misused.

ALL POCKET KNIVES should occasionally be oiled at the joint so the blade will not wear into the spring. Vaseline makes a very good lubricant for this purpose.

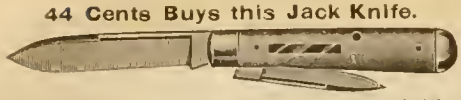
No. 28T830 Our Cheapest Keene Cutlery Co.'s Pocket Knife. Has rosewood handle, steel lining, iron bolster. The blade is not as heavy and strong as it should be for rough usage, but it makes an excellent jack knife for a boy, or for ordinary purposes. **Length of handle, 3⅜ inches. Length with large blade open, 6 inches.** Price, each..... 20c
If by mail, postage extra, 4 cents.

No. 28T833 Pocket Knife, clip point, stag handle, two blades, steel lining, iron bolster. This is our cheapest standard, full weight knife; is durable, and will give splendid satisfaction. **Length of handle, 3⅜ inches. Length, with large blade open, 6⅛ inches.** Price, each.....(Postage extra, 5c). ...25c

No. 28T836 Our Razor Blade Jack Knife, stag handle, steel lining, iron bolster; a pattern which is very popular in certain localities. **Length of handle, 3⅜ inches. Length with large blade open, 6 inches.** Price, each.....(Postage extra, 5c.)... 28c

No. 28T838 Our Stag Handle Chain Knife, clip point, two blades, steel lining, iron bolster and caps, German silver shield, with chain of suitable length to fasten over button. This is a good, strong, serviceable knife, and one that you cannot lose. Length of handle, 3¾ inches. Length with large blade open, 6⅛ inches. Price, each..... 37c
If by mail, postage extra, 6 cents.

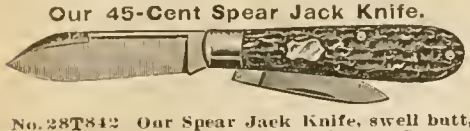
44 Cents Buys this Jack Knife.



No. 28T840 **A medium weight, finely finished knife, with white bone handle,** brass lining, finished inside and out, German silver bolster and caps and shield. This shape and style of knife was at one time one of the most popular jack knives in the country, and is still a favorite with many. Length of handle, 3⅜ inches. Length with large blade open, 6⅛ inches. Price, each.....44c

If by mail, postage extra, 5 cents.

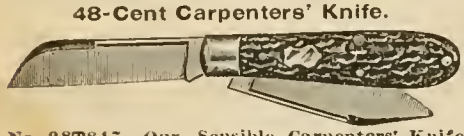
Our 45-Cent Spear Jack Knife.



No. 28T842 **Our Spear Jack Knife, swell butt, stag handle,** steel lining, iron bolsters, German silver shield. We wish to call particular attention to the shape of this blade. The cutting edge is carried out well towards the point in a straight line and the knife is full where the greatest wear comes. Many manufacturers in finishing a knife, grind away half its life. This is one of the most popular pattern knives made, and is strong enough for any purpose. Length of handle, 3⅜ inches. Length with large blade open, 6⅛ inches. Price, each.....45c

If by mail, postage extra, 5 cents.

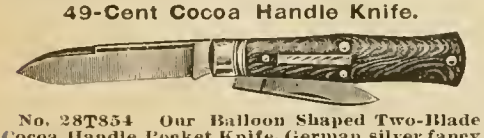
48-Cent Carpenters' Knife.



No. 28T847 **Our Sensible Carpenters' Knife,** having two large blades, one with clip point and one sheep foot or carpenter marking blade. The blades of this knife are made of full strength 11-gauge steel; has stag handle, steel lining, iron bolsters, German silver shields, finished inside and out. A knife that will give entire satisfaction for practical and rough everyday work. Length of handle, 3½ inches. Length with large blade open, 6⅛ inches. Price, each....48c

If by mail, postage extra, 6 cents.

49-Cent Cocoa Handle Knife.



No. 28T854 **Our Balloon Shaped Two-Blade Cocoa Handle Pocket Knife, German silver fancy bolster and shield,** brass lining, finely finished inside and out. This shape is very popular and makes an attractive looking knife which lays nicely in the hand. Length of handle, 3⅜ inches. Length with large blade open, 6⅛ inches. Price, each.....49c

If by mail, postage extra, 5 cents.

One of the Most Comfortable Styles Made.

No. 28T849 **Dick's Hand Fitting Easy Opener Pocket Knife, with ebony handle, brass lining, German silver bolster and shield.** Finished inside and out. The carpenter or anyone else who wants a knife for business, a knife that will feel right in his hand, a knife that will cut, a knife that will hold its edge without being sharpened frequently, will buy this knife. This knife is a distinctly new pattern; and while every line is mechanically true and correct, the general shape of the knife being so different from anything heretofore shown may cause a doubt on account of its shape, but so confident are we of its popularity when once used we will guarantee to exchange any of these knives provided they have not been used, and pay the postage both ways, if not entirely satisfactory after you have held it in your hands once. Length of handle, 3½ inches. Length with large blade open, 6⅛ inches. Price, each....45c

If by mail, postage extra, 6 cents.

Fits the Hand Style, 50 Cents.

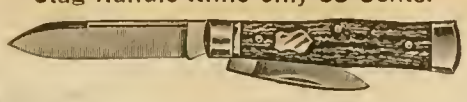
No. 28T850 **Another Dick's Easy Opener Pocket Knife,** same as one previously described, with stag handle, German silver bolster caps and shield, brass lining. Finished inside and out. An attractive and serviceable knife that is sure to please. Length of handle, 3½ inches. Length with large blade open, 6⅛ inches. Price, each.....50c

If by mail, postage extra, 6 cents.

DO YOU INTEND TO DO ANY PAINTING?

If so, do not fail to send for our FREE HANDSOME SAMPLE BOOK OF PAINTS with prices that will mean a big saving to you. The book tells what quality you need, the amount of paint to order, shows you the actual colors, and at our prices will enable you to save 30 per cent on your paint and painters' supplies.

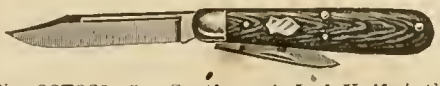
Stag Handle Knife only 58 Cents.



No. 28T875 **This is another style of our balloon shaped knife,** having hand cut stag handle, fancy German silver bolster and caps, German silver shield, brass lining, finished inside and out; a knife that will please you in looks as well as every other way. Length of handle, 3⅜ inches. Length with large blade open, 6⅛ inches. Price, each.....58c

If by mail, postage extra, 6 cents.

This Knife Would Retail at 75 Cents. Our Price, 43 Cents.



No. 28T860 **Our Gentlemen's Jack Knife** is the strongest and most compact knife it is possible to produce in a handle the size shown, and is a shape appreciated by those who wish a knife that will do fairly heavy work and still not be too heavy to carry in the pocket. It has a cocoa handle, German silver bolster and shield, brass lined, finely finished inside and out. Length of handle, 3¼ inches. Length with large blade open, 5¾ inches. Price, each..43c

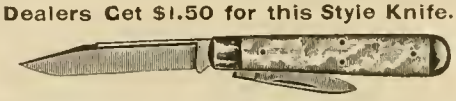
If by mail, postage extra, each, 5 cents.

Our 46-Cent Stag Handle Jack Knife.

No. 28T861 **This is another style of our Gentlemen's Jack Knife,** same as previously described, except it has stag handle, German silver bolster, caps and shield, brass lining, thoroughly finished in every particular inside and out. Length of handle, 3¼ inches. Length with large blade open, 5¾ inches. Price, each.....46c

If by mail, postage extra, each, 5 cents.

Dealers Get $1.50 for this Style Knife.



No. 28T878 **This is another pattern of Pearl Handle Gentlemen's Jack Knife with clip point blade.** Has German silver bolster and caps, brass lining, finished inside and out. The blades are full crocus polished, and the finish of the knife throughout is equal to the very finest penknife, knives that retail ordinarily at from $1.50 to $2.50 each. Length of handle, 3¼ inches. Length with large blade open, 5¾ inches. Price, each.....$1.00

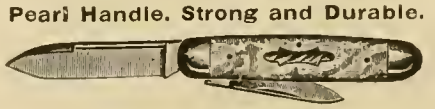
If by mail, postage extra, each, 5 cents.

45 Cents for this Knife is a Low Price.

No. 28T864 **Our Small Equal End Pocket Knife, has cocoa handle,** German silver bolster, cap and shield, brass lined, finished inside and out. This knife is very popular on account of its compactness and smooth, round ends. Length of handle, 3¼ inches. Length with large blade open, 5¾ inches. Price, each.....45c

If by mail, postage extra, each, 5 cents.

Pearl Handle. Strong and Durable.



No. 28T869 **Our Gentlemen's Pearl Handle Jack Knife.** There are many of our customers who require a jack knife, a knife that has got some business in it, and still want an attractive looking knife, and for them we offer our pearl handle jack, believing it will fully meet their requirements. It has pearl handle, German silver bolster, caps and shield, German silver lining, satin finish. The blades are full crocus polished. The knife is in every way finished as finely as the best penknife you ever saw. This knife is new, but we anticipate a very large sale; and, figuring on the basis of manufacturing in extra large quantities, we have made our prices very low. Length of handle, 3¼ inches; length with large blade open, 5¾ inches. Price, each.....95c

If by mail, postage extra, each, 5 cents.

This Equal End Knife, 52 Cents.

No. 28T856 **Our Equal End Jack Knife.** Has cocoa handle, brass lining, finished inside and out, German silver bolster, caps and shield. It is finished first class in every way and cannot fail to give satisfaction. Length of handle, 3⅛ inches; length with large blade open, 6⅛ inches. Price, each.....52c

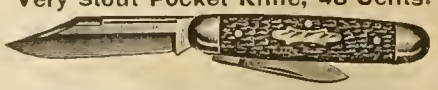
If by mail, postage extra, each, 6 cents.

At 55 Cents this a Bargain.

No. 28T857 **Is another equal end knife, same as previously described,** except it has stag handle, which is more durable than any other material commonly used for pocket knife handles. Length of handle, 3½ inches; length with large blade open, 6⅛ inches. Price, each.....55c

If by mail, postage extra, each, 6 cents.

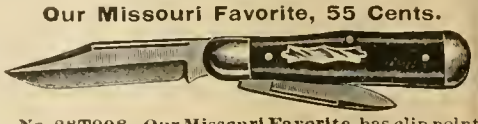
Very Stout Pocket Knife, 48 Cents.



No. 28T866 **Our Little Giant Equal End Pocket Knife, with saber clip blade,** something we believe to be entirely new with us. In this knife you have a blade with the strength and durability which is commonly found in a knife with a 4-inch handle. It has stag handle, German silver bolster, caps and shield, brass lined, finished inside and out. The large blade is crocus polished top and swaged, with emery polish on bevel, which gives it a very rich appearance. The amount of work which this knife will do is something never before attained in a knife of its size. Length of handle 3¼ inches; length with large blade open, 5⅝ inches. Price, each.....48c

If by mail, postage extra, 5 cents.

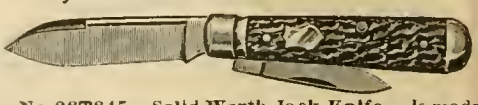
Our Missouri Favorite, 55 Cents.



No. 28T908 **Our Missouri Favorite,** has clip point and saber blade made of full 12-gauge steel. Has ebony handle, long German silver bolsters, caps and shield, brass lined, finished inside and out. This is a very strong, heavy knife, a first class whittler, a good knife for a farmer, stockman, carpenter, or other mechanic. Length of handle, 3½ inches; length with large blade open, 6 inches. Price, each.....55c

If by mail, postage extra, 6 cents.

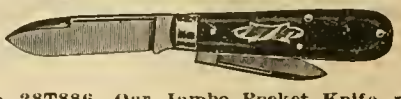
Try to Match this Under 75 Cents.



No. 28T845 **Solid Worth Jack Knife.** Is made to last and fitted and finished to please the most particular; stag handle, brass lining, finished inside and out, iron bolsters and caps, German silver shield. Length of handle, 3½ inches; length with large blade open, 6¼ inches. Price, each.....47c

If by mail, postage extra, 6 cents.

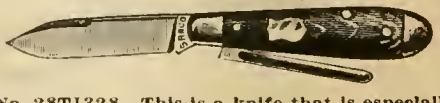
Our Big Size Pocket Knife, 49 Cents.



No. 28T886 **Our Jumbo Pocket Knife, with ebony handle** 4 inches long; German silver bolster and shield, brass lined, finished inside and out. The blades are made of full size 10-gauge steel. This is a big, strong, heavy, durable knife, and will please those who wish an extra large knife. Length of handle, 3⅞ inches; length with large blade open, 6¾ inches. Price, each.....49c

If by mail, postage extra, 6 cents.

The Teamsters' Favorite, 54 Cents.



No. 28T1328 **This is a knife that is especially desirable for teamsters.** Has cocoa handle, German silver bolster, tips and shields, brass lined. Length of handle, 3¼ inches; length with the large blade open, 6¼ inches. Instead of having an ordinary small blade, this knife is furnished with a gouge shaped blade, which will bore a ¼-inch hole through the traces or any part of the harness, and will bore equally well in wood. Price, each.....54c

If by mail, postage extra, 6 cents.

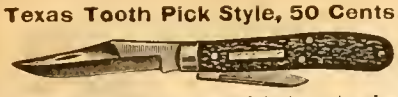
of boys' and children's clothing, containing cloth samples of everything shown in this department. We sell boys' and children's clothing at about one-half the prices usually charged, and can save you a great deal of money on these goods.

Texas Tooth Pick Style, 50 Cents.



No. 28T895 Texas Tooth Pick, has stag handle, German silver bolsters and shield, brass lining, finely finished inside and out. Clip point saber blade. While the blade is long and slim, the peculiar shape makes it very strong and durable as well as an excellent whittler. Every time we sell one of this pattern knife it brings us other orders from our customers and friends who see and admire it. Length of handle, 3⅜ inches; length with large blade open, 6⅞ inches. Price, each.....50c
If by mail, postage extra, 6 cents.

Hunting Knife, 94 Cents.

No. 28T896 Austrian Hunter. We have had a large sale for this pattern of knife, which we have imported from Austria, and while the quality of the knife was not first class the peculiar shape of the handle and blade have made it very popular; and believing there is a demand for a knife of this shape, made thoroughly honest in every way of good cutting qualities and workmanship, better finished, we have reproduced the pattern in our line of American goods. It has a clip point blade as shown in illustration, stag handle, fancy iron bolster and caps, German silver shield, steel lining, finely finished inside and out. Length of handle, 3¾ inches; length with large blade open, 7 inches. Price, each.....94c
If by mail, postage extra, 6 cents.

If You Want a Big Knife Here It Is.

No. 28T916 Our Goliath Jack Knife. The handle of this knife is 4½ inches long, and for those who desire a knife in this size, we have made this knife as good as it is possible for us to make them. It has stag handle, German silver long heavy bolsters, and shield, brass lined, finished inside and out. Length of handle, 4½ inches; length with large blade open, 8 inches. Price, each.....63c
If by mail, postage extra, 6 cents.

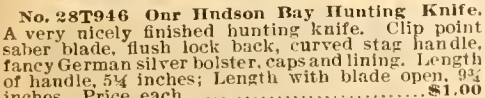
Great Favorite with Hunters, 70 Cents.

No. 28T920 Our Hunter's Pride Knife has had a most wonderful sale. It has stag handle, long, heavy German silver bolsters, cap and shield, brass lining, highly finished inside and out. Just as much care is taken in fitting and finishing the parts of the knife that do not show, as on the face of the blade. The blades open and close freely without wearing. The knife blade is always true in the center, and it is these little points to which we pay so much attention that cause our knives to give better satisfaction than those you can procure from any other dealer. Length of handle, 4½ inches; length with large blade open, 8 inches. Price, each.....70c
If by mail, postage extra, 6 cents.

$1.25 Does not Buy a Better One at Retail.

No. 28T945 Our Arkansas Hunter. A knife in which nearly every cent of the cost is spent in quality, and not looks. It has clip point saber blade, flush lock back so blade cannot shut on the finger, curved stag handle which just fits the hand nicely, fancy iron bolsters, steel lining. This knife is not a beauty for looks, but it is a dandy for business. Length of handle, 4⅝ inches; length with blade open, 8⅛ inches. Price, each.....75c
If by mail, postage extra, 7 cents.

Hudson Bay Hunting Knife.



No. 28T946 Our Hudson Bay Hunting Knife. A very nicely finished hunting knife. Clip point saber blade, flush lock back, curved stag handle, fancy German silver bolster, caps and lining. Length of handle, 5¼ inches; Length with blade open, 9¾ inches. Price, each.....$1.00
If by mail, postage extra, 8 cents.

WE USE 18 PER CENT GERMAN SILVER

in our caps and bolsters which makes a much stronger bolster, and looks and wears much better. In fact there is nothing better that can be used in the caps and bolster of a knife. There is no better method of manufacturing; there is no better method of tempering, and we have not yet seen any line of pocket knives in which so much care was used in grinding, finishing and fitting, and the chief point, the one above all others is, that our knives will cut; they will carry an edge; they will give better satisfaction in every way than any knife you have ever purchased, no matter where it was made.

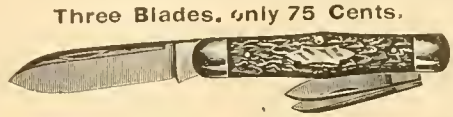
Our 42-Cent Pruning Knife.

No. 28T884 Our Sampson Pruning Knife. Blade made of 10-gauge steel. The shape of blade, method of grinding, etc., being according to the ideas of one of the best fruit growers in the country, a man who has used pruning knives for many years of his life, and who had this original made just exactly the way he wanted it regardless of expense. To make one knife in this way would cost at least $3.00, but by manufacturing them in large quantities we are able to offer you the best pruning knife that the best workmen in the United States can produce with the best material that can be found in the world at a price but very little more than is usually paid for ordinary goods. Length of handle, 4 inches; length with blade open, 7 inches.
Price, each.....42c
If by mail, postage extra, 6 cents.

Our 73-Cent Woodworkers' Knife.

No. 28T925 Our New England Workman's Knife. The sale of this pattern knife was formerly confined entirely to the New England states, and was a great favorite with carpenters, cabinet makers and other wood workers, but it is now sold largely in every section where first class wood working mechanics are found. It has stag handle, German silver bolster and shield, brass lining, finely finished, and polished inside and out. Length of handle, 3¾ inches; length with large blade open, 6 inches.
Price, each.....73c
If by mail, postage extra, 4 cents.

Three Blades, only 75 Cents.

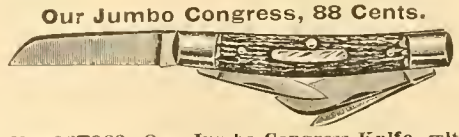


No. 28T969 Our Compact Three-Blade Pocket Knife is one of the most desirable patterns. The large blade is wide and strong; has two pen blades, stag handle, German silver bolsters and shield, brass lining, finely finished inside and out, large blade crocus polished. Length of handle, 3⅜ inches; length with large blade open, 5⅞ inches.
Price, each.....75c
If by mail, postage extra, 5 cents.

Our Large Congress Knife, 85 Cents.

No. 28T980 Our Large Congress Knife has two large blades and two pen blades, stag handle, German silver bolsters and shield, brass lined, nicely finished throughout. A knife that is equal in quality to goods commonly sold at nearly double our prices. Length of handle, 3¾ inches; length with large blade open, 6 inches. Price, each.....85c
If by mail, postage extra, 5 cents.

Our Jumbo Congress, 88 Cents.



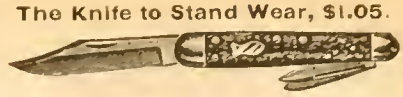
No. 28T982 Our Jumbo Congress Knife, with two large blades and two pen blades, as shown in illustration. Stag handle, iron bolsters, German silver shield, brass lined. Finely finished. Those who prefer a Congress pattern knife and want something strong and heavy will find this a most desirable pattern. Length of handle, 4⅛ inches; length with large blade open, 6¾ inches.
Price, each.....88c
If by mail, postage extra, 6 cents.

Our Favorite Knife, 60 Cents.

No. 28T890 Our Favorite Double Ender, with spear and clip point blades, stag handle. German silver fancy bolsters and shield, brass lined and finished inside and out. This makes a strong, durable knife for hard service and cannot fail to please. Length of handle, 3¾ inches; length with clip point blade open, 6⅞ inches. Price, each.....60c
If by mail, postage extra, 5 cents.

IF A RAZOR EDGE is put on any of the blades of our knives, we will guarantee any of them to shave, but a razor edge should never be put on a pocket knife. To get a proper edge on a pocket knife blade, the blade should be held at an angle of about 20 or 25 degrees, and drawn from shoulder to point on each side until a true edge is obtained. This makes a stiff, keen cutting edge, and enables us to furnish a much higher tempered knife blade than we would were the blade to be laid flat and brought down to a razor edge.

The Knife to Stand Wear, $1.05.

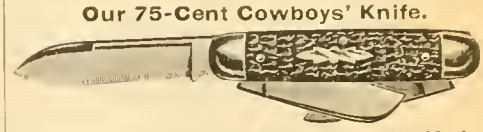


No. 28T892 Our Western Chief, was formerly sold almost exclusively to the cattle raisers and hunters of the Northwest, but its many desirable features have made it popular in nearly every section of the United States. It has clip point saber blade, very heavy made, of full 10-gauge steel; has genuine stag handle, German silver bolsters and shield, brass lining, finished inside and out. The large blade has a flush lock back, which prevents the blade from closing on the hand. If your work is heavy and you frequently break knives, we advise you to give this pattern of knife a trial, for it will certainly stand more abuse than any knife of its class which we know of. Length of handle, 4 inches; length with large blade open, 6¾ inches.
Price, each.....$1.05
If by mail, postage extra, 6 cents.

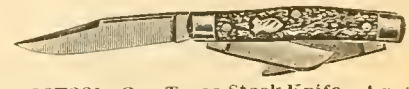
Cattle Knife Pattern, 70 Cents.

No. 28T911 Junior Cattle Knife. It has spear, pen and sheep foot blades. This knife is made to meet the demand of those who are pleased with the pattern of knife which is known as cattle knife, who do not wish to carry so large a knife in their pocket. It has stag handle, German silver bolster and shield, brass lining, finished inside and out. Length of handle, 3¼ inches; length with large blade open, 5¾ inches.
Price, each.....70c
If by mail, postage extra, 5 cents.

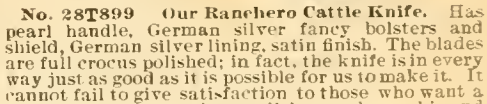
Our 75-Cent Cowboys' Knife.



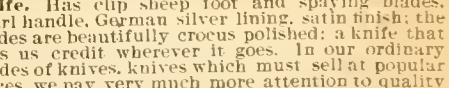
No. 28T912 Our Wild West Cowboys' Knife, has spear, sheep foot and pen blades, stag handle, iron bolsters, German silver shield, brass lined; finished inside and out. This is a strong, heavy knife, and is a great favorite with stockmen, hunters, trappers and others who wish a strong, heavy knife in as compact form as possible. Length of handle, 3¾ inches; length with large blade open, 6¼ inches.
Price, each.....75c
If by mail, postage extra, 6 cents.



No. 28T881 Our Texas Stock Knife. A pattern of knife which is popular with stock raisers all over the world, has clip, sheep foot and spaying blades, stag handle, German silver bolsters and shield, brass lined, highly finished inside and out. This is our most popular cattle knife, and is made just as good as we know how to make them. Length of handle, 4 inches, length with clip point blade open, 6⅞ inches.
Price, each.....90c
If by mail, postage extra, 5 cents.



No. 28T899 Our Ranchero Cattle Knife. Has pearl handle, German silver fancy bolsters and shield, German silver lining, satin finish. The blades are full crocus polished; in fact, the knife is in every way just as good as it is possible for us to make it. It cannot fail to give satisfaction to those who want a knife of superior cutting qualities, workmanship and beauty. Length of handle, 3⅝ inches; length with large blade open, 6⅜ inches. Price, each.....$1.45
If by mail, postage extra, 5 cents.



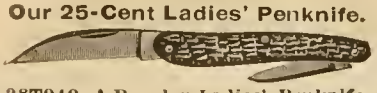
No. 28T901 Our Montana Beauty Stockman's Knife. Has clip sheep foot and spaying blades, pearl handle, German silver lining, satin finish; the blades are beautifully crocus polished; a knife that does us credit wherever it goes. In our ordinary grades of knives, knives which must sell at popular prices, we pay very much more attention to quality and workmanship than we do to beauty and finish, but in this particular knife we excel all others in finish as much as we do all others in quality. We guarantee this knife to please anybody, and if not entirely satisfactory in every way it may be returned to us and we will refund the amount paid and the amount which our customer has paid in postage. Length of handle, 3⅞ inches; length with large blade open, 6¾ inches. Price, each.....$1.50
If by mail, postage extra, 5 cents.

EVERY ONE OF OUR KNIFE BLADES IS TEMPERED

by the copper plate process, by a man who has been doing this work for thirty years in the best cutlery factories in the world.

LADIES' PENKNIVES.

Our 25-Cent Ladies' Penknife.

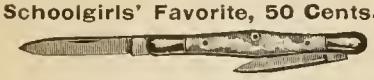


No. 28T949 **A Popular Ladies' Penknife,** large blade, just the proper shape for ripping seams, ect.; slender small pen blade, stag handle, brass lining, finished inside. Length of handle, 2¾ inches; length with large blade open, 4¾ inches.
Price, each.....25c
If by mail, postage extra, 3 cents.

35-Cent Corn Knife.

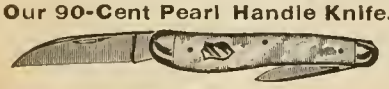
No. 28T904 **Our Razor Ground Corn Knife is made especially for cutting corns,** and should not be used for any other purpose. It is razor ground, razor tempered, and must not be put to any use that is rough or heavier than the one for which it is designed. It has stag handle brass lined, finished in a first class manner inside and out. The blade is made with a sunk joint, so when blade is closed it does not protrude beyond the handle. Length of handle. 3¼ inches; length with blade open, 5¼ inches.
Price, each.....35c
If by mail, postage extra, 3 cents.

Schoolgirls' Favorite, 50 Cents.



No. 28T954 **The Popular School or Ladies' Knife,** pearl handle, German silver bolsters, German silver lining, finished inside; just the knife for a schoolgirl and for the work basket. Length of handle, 2⅞ inches; length with large blade open, 4⅝ inches. Price, each.....50c
If by mail, postage extra, 3 cents.

Our 90-Cent Pearl Handle Knife.



No. 28T928 **Ladies' Pearl Handle Pocket Knife.** The peculiar shape of the large blade makes the knife as popular with ladies for ripping seams, etc., as the large knife of same shape is with the woodworkers of the country. It has a selected pearl handle, German silver bolsters, German silver lining, satin finish, full crocus polished blades. It is a very desirable pattern. Length of handle, 3 inches; length with large blade open, 4¾ inches.
Price, each.....90c
If by mail, postage extra, 3 cents.

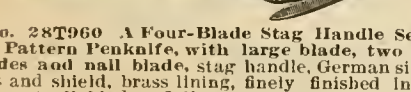
With Improved Nail Blade.

No. 28T931 **Ladies' Fine Three-Blade Shadow Pattern Penknife.** Has large blade, pen blade and latest improved nail blade. Has very superior pearl handle, German silver lining, satin finish. The blades are full crocus polished, giving it a beautiful appearance. Length of handle, 2⅝ inches; length with nail blade open, 4½ inches.
Price, each.....$1.00
If by mail, postage extra, 3 cents.

Our 55-Cent Penknife.

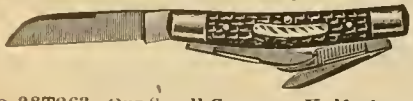
No. 28T006 **Our High Grade Two-Blade Penknife,** has stag handle, German silver bolsters and shield, brass lined, finely polished throughout. The blades are extra heavy, and are stronger than ordinarily found in a knife of this size. Length of handle, 3¼ inches; length with large blade open, 5⅜inches.
Price, each.....55c
If by mail, postage extra, 4 cents.

Senator Pattern, 70 Cents.



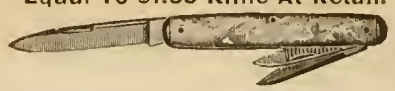
No. 28T960 **A Four-Blade Stag Handle Senator Pattern Penknife, with large blade, two pen blades and nail blade,** stag handle, German silver tips and shield, brass lining, finely finished inside and out, all blades full crocus polished. Length of handle, 3¼ inches; length with large blade open, 5¼ inches. Price, each.....70c
If by mail, postage extra, 4 cents.

A Very Popular Knife, Only 80 Cents.



No. 28T963 **Our Small Congress Knife, has one large blade, two pen blades and one nail blade,** stag handle, German silver bolsters and shield, brass lined, finely finished throughout. This pattern has been sold all over the world for years and is very popular wherever known. Length of handle, 3⅛ inches; length with large blade open, 5⅜ inches.
Price each.....80c
If by mail, postage extra, 4 cents.

Equal To $1.50 Knife At Retail.



No. 28T959 **Medium Size Three-Blade Pearl Handle, Senator Pattern Penknife,** German silver tips and lining, blades full crocus polished, well finished throughout. A knife which we believe is better than any imported goods, fully equal in quality to any American line we have ever seen except our special high grade knives quoted elsewhere. Length of handle, 3 inches; length with large blade open, 4¾ inches. Price, each.....95c
If by mail, postage extra, 4 cents.

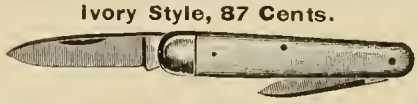
Very Handsome Penknife, $1.00.

No. 28T932 **Two-Blade Shadow Pattern Penknife, pearl handle,** German silver lined, satin finish, large blade and pen blade. Blades are full crocus polished, the knife is strong, and everything that could be desired in quality and appearance. Length of handle, 3¼ inches; length with large blade open, 5⅜ inches. Price, each.....$1.00
If by mail, postage extra, 4 cents.

Just the Knife You Want, $1.00.

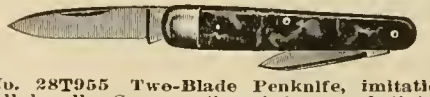
No. 28T935 **It seems as though about one-half of our customers who ask for a knife, when we ask them what kind they want, will say, "I want a nice looking knife,** one that I can whittle with; one that is not too thick to carry in the pocket. I do not care anything about the nail blade, and I do not want to pay a month's salary for it." Our No. 28T935 knife fully meets all these requirements. It has a fine grade of pearl handle, German silver bolster, brass lining, finished inside and out. The big blade is short, wide and heavy. The pen blade is correctly proportioned to the rest of the knife. It is a fine cutter, will stand more rough usage than ordinary penknives of this size, and it is cheap. Length of handle, 3¼ inches; length with large blade open, 5⅜ inches. Price, each.....$1.00
If by mail, postage extra, 4 cents.

Ivory Style, 87 Cents.



No. 28T953 **Two-Blade Penknife, imitation ivory handle,** German silver bolster and lining. While this handle is not genuine ivory it looks exactly like it, and it is better than ivory in that it will not crack and does not discolor with use. Length of handle, 3⅜ inches; length with large blade open, 5⅜ inches. Price, each.....87c
If by mail, postage extra, 4 cents.

Shell Handle Style, 90 Cents.



No. 28T955 **Two-Blade Penknife, imitation shell handle,** German silver bolster and lining. Length of handle, 3⅜ inches; length with large blade open, 5⅜ inches. While this is not a genuine tortoise shell handle, only an expert can detect the difference. It is really better than the genuine shell as it is more durable, and every piece is as handsome as the very best selection of shell.
Price, each.....90c
If by mail, postage extra, 4 cents.

Our $1.10 Pearl Beauty.

No. 28T956 **Three-Blade Pearl Handle Penknife,** German silver bolsters and lining, blades full crocus polished, finely finished; stronger than the tipped knife, and a very popular pattern wherever used. Length of handle, 3¼ inches; length with large blade open, 5¼ inches. Price, each..$1.10
If by mail, postage extra, 4 cents.

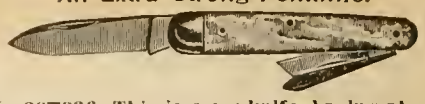
Large Size Penknife.

No. 28T966 **Large Size Three-Blade Pearl Handle Penknife,** German silver tips and lining, blades full crocus polished, finely finished. A strong and handsome knife. Length of handle, 3¼ inches; length with large blade open, 5½ inches.
Price, each.....$1.20
If by mail, postage extra, 5 cents.

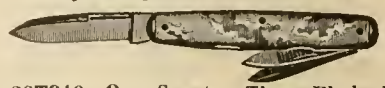
DO NOT FORGET

to include extra for postage if you want goods sent by mail.

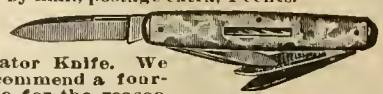
An Extra Strong Penknife.



No. 28T936 **This is a penknife having almost the utility of an ordinary jack knife.** The blade is made of full 10-gauge steel. It has spear point large and one square pen and one spear point pen blade. It has a very fine quality pearl handle with German silver bolster, brass lined, finished inside and out. The blades are full crocus polished, making an attractive as well as a sensible pocket knife. Length of handle, 3¼ inches; length with large blade open, 5¼ inches. Price, each.....$1.25
If by mail, postage extra, 4 cents.

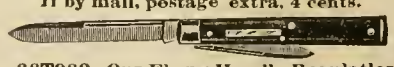


No. 28T940 **Our Senator Three-Blade Pearl Handle Penknife is of a pattern that is more popular than any other which has ever been made.** It has a good, heavy, strong, big blade, a pen blade and a nail blade. Fine quality pearl handle, German silver tip, German silver lining, satin finish. The blades are full crocus polished, burnished finish back. In short, in quality, workmanship and appearance we offer the best knife we are able to make and we are confident it will please the most fastidious. Length of handle, 3 inches; length with large blade open, 4⅞ inches. Price, each.....$1.30
If by mail, postage extra, 4 cents.



No. 28T941 **Our Four-Blade Senator Knife. We do not recommend a four-blade knife, for the reason that all the blades must necessarily be made too thin to give the best of service;** but there are many of our customers who want four-bladed knives, and we have made this one as good as it is possible to produce. Has pearl handle, German silver tips and shield, German silver lining, satin finish, blades full crocus polished, burnished finish back. Length of handle, 3 inches; length with large blade open, 4¾ inches. Price, each.....$1.40
If by mail, postage extra, 4 cents.

No. 28T985 **Our Small Stag Handle Physicians' Knife is preferred by many to the regular size goods.** They not only make a good physicians' knife, but are desirable for office and desk use and other purposes requiring a long, slim, strong blade. It has German silver butt, iron bolsters and brass lining. Length of handle, 3¼ inches; length with large blade open, 5⅞ inches. Price, each.....60c
If by mail, postage extra, 4 cents.

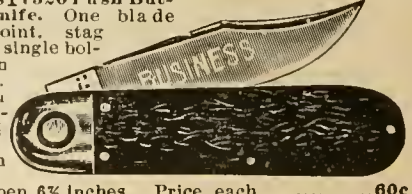


No. 28T989 **Our Ebony Handle Regulation Size Physicians' Knife,** with German silver butt, bolsters and shield, brass lining, finely finished inside and out, blades full crocus polished. Length of handle, 3⅝ inches; length with large blade open, 6⅝ inches.
Price, each.....60c
If by mail, postage extra, 5 cents.

No. 28T990 **Our Pearl Handle Physicians' Knife.** Full regulation size, fine grade of pearl used in handle. German silver butt, German silver bolster and German silver lining, finely finished inside and out, blades full crocus polished. A knife that will satisfy both in cutting qualities and appearance. Length of handle, 3⅝ inches; length with large blade open, 6⅝ inches. Price, each.....$1.05
If by mail, postage extra, 5 cents.

Push Button Knives.

MADE IN AMERICA. Pressure on the button opens the knife and locks the blades so it cannot close. The cutting qualities of these knives are first class and their convenience has made them very popular. But one hand is required to open or close these knives.



No. 28T1320 **Push Button Knife.** One blade clip point, stag handle, single bolster, iron lined. Length of handle, 3⅞ inches; length with blade open, 6⅞ inches. Price, each.....60c

No. 28T1324 **Push Button Knife.** One blade, clip point, stag handle, single bolster, iron lined. Length of handle, 4¾ inches; length with blade open, 8¾ inches. Price, each.....75c

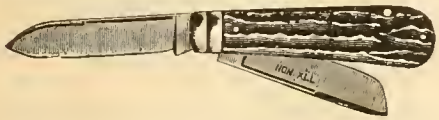
PUSH BUTTON KNIVES—Continued.

No. 28T1326 Push Button Knife. Two blades, stag handle, brass lined. Length of handle, 3⅜ inches; length with large blade open, 5¼ inches.
Price, each.....60c

The following five patterns of Pocket Knives—the celebrated NON-XLL brand—are made in England. They are fully warranted.

No. 28T1072 A NON-XLL Knife of an improved **Barlow Pattern,** strong, durable, with blades of the best English steel and genuine stag handle. Has clip point on large blade and iron lining. Octagon bolster, highly polished blades. A fully warranted knife for little money. Length of handle, 3¼ inches; length with large blade open, 6 inches.
Price, each.....30c

No. 28T1073 Another NON-XLL Improved Barlow Pattern Knife. Similar to the one above, but with the old fashioned razor blade. Genuine stag handle; fully warranted. Length of handle, 3⅜ inches, and with large blade open, 6 inches.
Price, each.....30c



No. 28T1103 A NON-XLL Pocket Knife, with two large blades; one spaying blade and one spear blade; genuine stag handle, iron lined. Length of handle, 3⅝ inches; entire length with large blade open, 6⅜ inches. For cutting qualities this knife cannot be excelled. **Fully warranted.**
Price, each.....50c

No. 28T1133 NON-XLL Pruning Knife, with Budding or Spaying Blade. Best English steel, fully warranted, genuine stag handle, iron lining and double bolster. Strong and well made. Length of handle, 4 inches; length, with large blade open, 6⅜ inches. Price, each.....95c

No. 28T1135 The NON-XLL Sportsman Combination Knife. This pattern knife is usually sold in a quality that is very poor—this is a good one. A kit of tools in itself; has large and small blades, fleam, hoof pick, corkscrew, reamer, screwdriver, tweezers and toothpick. Made of the best English steel, with genuine stag handle, and fully warranted. Length of handle, 3¾ inches; length with large blade open, 6⅛ inches. Price, each.....$1.50

Genuine Joh. Engstrom Swedish Hunting Knife.

Blade can be removed, folded into its frame, and replaced in the handle. This knife is a popular woodworkers' tool, as well as a hunting knife. Has solid boxwood handle. **The blade is best of steel, and the maker's name is a guarantee of cutting qualities and temper.** We have this knife in three sizes.

No. 28T1310 Genuine Joh. Engstrom Swedish Hunting Knife, as described above. Length of handle, 2¾ inches. Price, each.....45c
No. 28T1311 Genuine Joh. Engstrom Swedish Hunting Knife, as described above. Length of handle, 3¼ inches. Price, each.....59c
No. 28T1312 Genuine Joh. Engstrom Swedish Hunting Knife, as described above. Length of handle, 4⅜ inches. Price, each.....64c

Carpenters' Bench Knife.

Sloyd or Swedish Carpenters' Bench Knife. Does not close. Intended for the tool chest or work bench. Used everywhere in manual training schools. Made from the finest quality of Swedish razor steel. They are very desirable for heavy work. The tang of the blade passes entirely through the handle.
If by mail, postage extra, 5 cents.
No. 28T1315 Swedish Carpenters' Bench Knife. Length of blade, 2½ inches. Price, each.....25c
If by mail, postage extra, 6 cents.
No. 28T1316 Swedish Carpenters' Bench Knife. Length of blade, 3½ inches. Price, each.....30c
If by mail, postage extra, 6 cents.

Imported Knives.

The following pocket knives No. 28T1000 to 28T1028 are imported from Europe and are not guaranteed. They are good for the price but the price is not enough for a good knife. They will please the boy or anyone who does not put a knife to too hard service.

No. 28T1000 Metal Handle Knife, one blade, iron lined; blade, 2¾ inches. Price, each.....4c
If by mail, postage extra, 4 cents.

No. 28T1004 Ebony Handle Knife, one blade, iron lined; blade, 2⅝ inches. Price, each..5c

No. 28T1677 Knife Purse, will take almost any penknife. When ordered with knife we send purse to fit knife. They are not large enough for jack knives. Price, each, without knife.....8c

Keene Cutlery Co.'s Razors.

THE HIGH ART RAZOR.

EVERY RAZOR HAVING KEENE CUTLERY CO.'S BRAND is fully warranted. The blades are made from the best steel that can be procured; ground and tempered by experts. The quality of steel and temper is exactly the same in all razors having their brand. The principal expense in making razors is in the grinding, which accounts for the difference in price. There is no reason why a thick razor should not shave as pleasantly as a thin one, if it is kept in as good an edge, but it requires more labor to keep a thick razor in condition. A full hollow ground razor is much easier to sharpen and keep in order.

REMEMBER That "a man well lathered is half shaved." To shave easily, first wash your face perfectly clean and leave it wet; then lather it well with a brush and rub the lather well into the beard so that the lather gets down on the face. Watch the barber who has the reputation of being an easy shaver, and you will find he spends a great deal of time lathering the beard. Lay the blade on your face as flat as you can. Never scrape your face, cut off the beard.

YOUR BEARD should guide you in selecting a razor. A heavy, wiry beard requires a wide, heavy razor. A man who shaves every day can use a lighter razor than he who shaves but once a week. If you have had trouble in finding a razor to "fit your beard," we can fit you. A razor with ⅝-inch blade fits an ordinary beard. A razor with ½-inch blade fits the man with a light beard or one who shaves every day. It is also fine for shaving the second time over. A razor with a ¾-inch blade fits the coarse, heavy beard.

KEENE CUTLERY CO.'S RAZORS ARE THE BEST ON EARTH. NONE GENUINE UNLESS STAMPED ON TANG WITH THIS BRAND. Beware of inferior razors which may look the same or have the same etchings on blade. Look for the name on the tang. These razors are fully warranted, but a razor must be returned to us in good condition, showing no signs of abuse, or we will not exchange it for another. Keene Cutlery Co.'s High Art Razor. Ground on a 1½-inch stone by an expert grinder. Has black rubber tang with fancy imitation onyx handle. Made from the highest grade steel and in the best possible manner, regardless of cost. Guaranteed to shave any beard or it may be returned and money will be refunded or a new razor given instead.

No. 28T3000 Keene Cutlery Co.'s High Art Razor, with ½-inch blade. Price, each.....**$2.45**

No. 28T3001 Keene Cutlery Co.'s High Art Razor, with ⅝-inch blade. Price, each.....**$2.50**

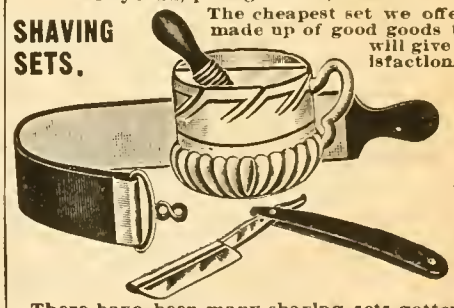
The interior of the case is doeskin and the covering of fancy leather. Price.....$12.00
If by mail, postage extra, 40 cents.

SHAVING SETS.



The cheapest set we offer is made up of good goods that will give satisfaction.

There have been many shaving sets gotten up for sale in so-called racket stores or department stores. Quality is no consideration in such cases, the only point being to get up a set at the least possible price. The following sets will be found to be made up of reliable goods that will give satisfaction in every case.

No. 28T1995 Our Bon Ton Shaving Set consists of your choice of any razor quoted in our cutlery department, except our High Art Razor; 1 double swing barbers' razor strop, horsehide and linen with metallic end and swivel; 1 barbers' shaving brush, white bristles, with buffalo horn ferrule; 1 handsomely decorated shaving mug with partition; 1 cake of the celebrated Yankee shaving soap (the genuine). If you are well posted in qualities of these goods you must admit that this set is the best that money can buy.

Make your order for the above shaving set thus: "No. 28T1995, 1 shaving set with No..... razor," filling in the blank with the catalogue number of the razor you select. Our price for entire outfit, $2.75

No. 28T1997 Our Acme Shaving Set consists of 1 Sears, Roebuck & Co.'s Acme razor, 1 double swing razor strop (canvas and horsehide with metal ends and swivel), 1 good shaving brush, 1 decorated shaving mug, 1 cake shaving soap. Remember, the razor is fully warranted. Our price, complete set, $1.75

No. 28T1998 Our Winner Shaving Set consists of 1 medium hollow ground razor (warranted), 1 horsehide swing strop, 1 decorated shaving mug, 1 cake shaving soap, 1 good shaving brush, all good, reliable goods. Our price for entire set.....$1.25

No. 28T1999 Our Competition Shaving Set is offered in competition with those sets found in 99-cent stores, but it is far superior to such goods. It is our intention always to describe all articles exactly as they are, consequently we cannot recommend this set any more than to say it will be found better than you can possibly procure elsewhere at anything like this price. The razor is a good shaver and the strop, etc., will give satisfaction in use. It is wonderful value for the price. The set consists of 1 hollow ground razor, 1 swing strop, 1 shaving brush, 1 shaving mug, 1 cake shaving soap.
Our price for the entire set.....95c

Razor Strops.

If by mail, postage extra, 4 cents.

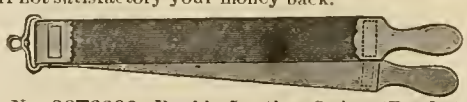
"READY TO USE" RAZOR STROPS.

A First Class Razor Strop should be ready for use and the customer should not be told that by putting a little of this or that on the strop and by putting in a week's labor the strop will be ready to use. The following strops, Nos. 28T3290 to 28T3293, are warranted to always preserve the natural friction necessary to set the edge of a razor. The rough strop should only be used when the razor is dull. The finished strop is to be used always unless razor is dull. If not satisfactory your money back.



No. 28T3290 Double Leather Swing "Ready to Use" Razor Strop. Width, 2 inches. Length of stropping surface, 12½ inches; length over all, 19½ inches. Both strops are leather—one for sharpening, the other for finishing. Nickel plated swivel; sewed on handle. Price, each 45c

There are many other articles which might properly be included under the head of barbers' supplies that are now listed under other departments, and may be found by consulting the index. When making up orders please bear in mind that the barbers' furniture is shipped from the factory at St. Louis, and the other supplies are shipped from Chicago.

FREIGHT IS A SMALL ITEM.

YOU WILL FIND that the freight charges will amount to next to nothing as compared to what you will save in price. The weight of nearly every article is given in the description, and by referring to pages 7 to 11, you can calculate almost exactly what the freight will amount to, and in every case you will find it very little as compared to what you will save in price.

BARBERS' CHAIRS.

OUR BARBERS' CHAIRS are made by a factory which leads in the manufacture of Barbers' Chairs and Barbers' Furniture. After a thorough and critical examination we decided that while this line cost us considerable more money than others might be bought for, that there was more difference in real value than in price. Experienced first class barbers decided this chair had many features that were most desirable. A first class mechanic examined the construction and workmanship and pronounced it stronger, better made, better finished, simpler and less liable to get out of order than either of the other makes of chairs we compared with it. They are strictly up to date twentieth century goods.

OUR HYDRAULIC CHAIRS, as illustrated herewith, are raised and lowered by foot power to any desired height. No great exertion is required, no matter whether the customer is heavy or light. One of the greatest advantages in this chair is the simplicity of construction, there being no complicated parts which are not easily understood and which can easily get out of order.

THE HAND LEVER at the side of the chair controls the revolving and reclining movements and by placing it in different positions the chair can be reclined to any desired position.

A FOOT TREADLE is used to raise and lower the chair by hydraulic power. A few strokes of the treadle raises the chair to the desired height. To lower the chair, a step upon the treadle is all that is necessary, and the chair gradually and easily drops until the foot is removed from the treadle. Removing the foot automatically locks the chair, and no further locking or unlocking is necessary.

THE SPINDLE OR STEM of the chair is of liberal size, is smoothly bored and finished and fitted over a cylinder in the base, which has been turned with the same accuracy as a steam engine cylinder. All the moving parts are usually submerged in specially prepared oil and are therefore most thoroughly lubricated. It is self-evident that this arrangement insures very smooth and easy motions.

THESE CHAIRS are vastly superior to those requiring the use of the hand to raise and lower them, an investigation will prove this to your complete satisfaction.

THE WOODWORK of the chair is oak. Legs protected with brass mountings. All metallic parts are nickel plated.

No. 28T3600 Our Hydraulic Chair raises and lowers, revolves and reclines, upholstered in a good quality of mohair plush; colors, crimson, maroon, green or old gold. If color wanted is not stated in order we make our own selection. Solid brass feet, all metal parts heavily nickel plated. Price.....**$30.20**
Weight, packed for shipment, about 225 pounds.

No. 28T3605 Hydraulic Chair upholstered in leather, any color. If color wanted is not stated in order we make our own selection. Solid brass feet, all metal parts heavily nickel plated.
Price.....**$30.70**
Weight, packed for shipment, about 225 pounds.

OUR REVOLVING AND RECLINING BARBERS' CHAIR

$19.44

is first class in every way, but our price is very little more than is commonly asked for the old style reclining chair that does not revolve.

IT IS MADE OF OAK. Legs are protected with brass mountings. All metallic parts are strong and well finished. We offer this chair in two styles, the cheapest having all the metal parts japan finished, the higher priced ones being heavily nickel plated. One is just as serviceable as the other, the only difference is in appearance. There is an old saying "appearance goes a great ways," and we know of no business where appearances go further than in the barber shop. If a barber wishes to get and keep the best trade his shop must be attractive. Our chairs and furniture will make an attractive shop.

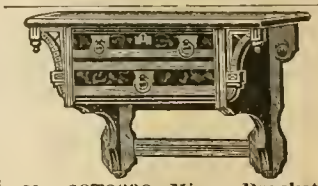
No. 28T3610 Our Revolving and Reclining Barbers' Chair, upholstered in mohair plush; colors, crimson, maroon, green or old gold. If color desired is not stated in order we make the selection. Complete as shown in illustration, except it has no scroll on the sides, being perfectly plain with metal parts japanned.
Price.....**$19.44**
Weight, packed for shipment, about 210 pounds.

No. 28T3615 Same chair, with metal parts nickel plated. Price.....**$21.60**

No. 28T3620 Same chair, upholstered in leather, any color, japanned trimmings.
Price, each.....**$23.04**

No. 28T3625 Same chair as above, with metal parts nickel plated.
Price, each.....**$25.20**

WE SHIP barbers' chairs and barbers' furniture direct from the factory in St. Louis, Mo. Sell for cash only, hence avoid the losses and expense that firms which sell on the installment plan must provide for. We are satisfied with one small profit, and give better goods than you can procure elsewhere at anything like our prices. At the prices printed we pack the goods with the utmost care and deliver them free on board cars at St. Louis, Mo., from which point the purchaser must pay freight charges. For other items in Barbers' Supplies not found on this and preceeding page, consult the index.



No. 28T3630 Mirror Bracket, intended to be used in combination with the mirror shown opposite. Is made in black walnut, engraved, with gilt trimmings. Has two drawers. Top, 12x26 inches. Price, **$2.70**
No. 28T3635 Mirror Bracket, same as above, made in oak..**$2.70**

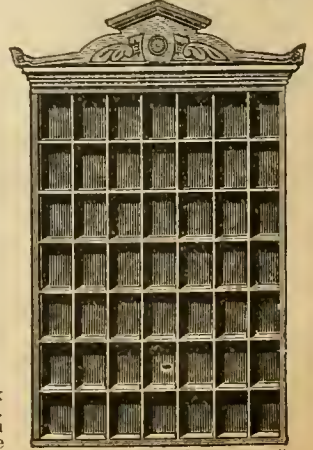
Price, with Tennessee marble top.....**$7.56**



MECHANICS' TOOLS

THERE ARE NO BETTER TOOLS MADE than those we sell. We guarantee the quality of every one. Our constantly increasing trade in this line is proof of the values we furnish. A comparison will show that our prices are below any kind of competition.

CARPENTERS, BUILDERS, MECHANICS of all classes are especially requested to give this department their attention, NOTE THE MONEY WE CAN SAVE THEM AND SEND THEIR ORDERS TO US.

CIRCULAR SAWS.

Patent Ground and Tempered Solid Teeth of Extra Quality, Superior Workmanship, Warranted.

THE FULTON SAW CO.'S CIRCULAR SAWS are not excelled by any in the market in any particular. As we sell many saws for cord wood and pole sawing machines, which are handled by men who are not skilled in filing or caring for saws, we believe a few words in regard to the proper handling of a saw will not be out of place, and if these suggestions are followed no purchaser of one of our circular saws will have cause to make complaint. On most of the complaints we receive we find that the fault lies not with the saw, **but the way it is fitted. The only part of the saw which should come in contact with the lumber is the point of the teeth.** These points must be kept sharp to do good work. The teeth should have enough set to clear the blade of the saw, but no more than is necessary. **If too much set is used it requires more power to run the saw and puts unnecessary strain upon the saw,** which may cause it to crack, especially if it is run when dull. A saw should always be tried before and after the collars are tightened, for if it does not hang true, an attempt to run it is liable to spoil it entirely.

A CIRCULAR SAW must be perfectly round or it will not do good work. If some tooth is long it brings more strain on that portion of the blade, which will make the saw work poorly and may cause a crack at the gullet. **During cold weather, be sure to take the frost out of the saw before attempting to set the teeth or use the saw,** as the better the steel used in the saw the more easily it is broken when frosted. The mandrel must be heavy enough so it will not spring and the collars must be true. Any saw is liable to crack if square corners are filed in the gullet. **We positively will not replace a cracked saw if filed with square corners in the gullet.**

FOR CROSS CUT SAWS the points of the teeth and the points only **should be beveled.** The body of tooth and the gullets should be filed straight across. The heavier the cutting the less bevel should be filed on front edge of point. If too much bevel is filed on the front edge of teeth, they will be forced out of line into the sides of cut. This will cause a lateral strain and chattering and a probability of breakage, particularly if the teeth are dull.

NEARLY EVERY BROKEN CIRCULAR SAW that has ever been returned to us has not been **properly filed or set.** This is no fault of ours nor of the quality of the saw, **and we positively will not exchange a saw unless it was bought from us filed and set;** neither will we replace any circular saw if it is broken from any of the causes mentioned above.

WE AIM TO CARRY IN STOCK at all times, ready for **prompt shipment, saws 36 inches in diameter and smaller, with holes as listed and number of teeth ordinarily used,** but can ship saws with odd size holes or made to order with as little delay as any saw maker. If saw is wanted with pin holes, send a paper pattern giving exact location. Order blanks for ordering saws will be furnished on request.

WE CANNOT ATTEMPT to fill orders for saws larger than 36 inches **without the following specifications:** Size of mandrel hole, number of teeth wanted in saw, size of pin holes, distance of pin holes from center to center, gauge at center, gauge at rim, spring or swage set temper, speed, feed, to cut hard or soft wood, right or left hand.

We require from 5 to 30 days to fill orders for circular saws which are not "regular," or which are not carried in stock. We cannot accept cancellation of order after saw is in work in our factory.

Circular Saw Mandrels.

No. 35T125 Circular Saw mandrels, with pulley on end, of the latest and most approved pattern. **Our mandrels are made with pulley on right hand side when saw is running toward you with left hand thread, unless otherwise ordered.**

Diam. of Pulley, inches	Face of Pulley, inches	Diam. of Flange, inches	Length of Shaft, inches	Diam. of Shaft, inches	Size of hole in Saw, inches	Price of Mandrel, Complete
2½	3½	2½	16½	1 3/16	1	$ 3.67
3	4	3	19	1 3/16	1¼	4.00
3½	4½	3½	21½	1 3/16	1¼	4.34
4	5	4	24	1 3/16	1 5/16	4.67
4½	5½	4½	26	1 3/16	1 5/16	5.00
5	6	5	28	1 3/16	1⅜	5.33
5½	6½	5½	30½	1 3/16	1⅜	7.20

The Turner Brazing Outfit.

No. 35T296 For brazing band saws. Consists of 1 holder for clamping saws while being brazed, 1 Turner brazing lamp, 1 pound Turner brazing mixture. Repairing broken band saws is a very simple operation, quickly and inexpensively done when the Turner outfit is used. The holder for clamping saws may be placed in a vise or screwed to a bench. The Turner brazing lamp flame is a small, concentrated, pointed flame of intense heat which makes the braze in a few seconds. The directions sent with each outfit are full and complete, and the work is made so easy and simple by the Turner brazer that any employee can do it successfully. Saws up to 1¼ or 2 inches are easily and quickly brazed in a permanent manner at almost no expense.
Price, per outfit..... $9.25

The Fulton Saws.

The Fulton Saw is a hand made saw. It is made upon honor and sold on its merits; it is made from the best steel that can be produced; it has extra thin back, the blade is ground four gauges thinner on back, allowing the saw to run freely with little set. It is smithed and blocked equal to "trust" saws that sell for 40 or 50 per cent more. Good smithing and blocking makes a good saw, but because this work is expensive and doesn't show until saw has been used it is too often slighted; when it is honestly done, the saw works right, not only while it is new, but as long as it lasts, if properly used. **Every Fulton Saw is carefully examined to see that the smithing and blocking is not slighted. Every Fulton Saw is highly tempered, hence care must be used when setting or teeth may be broken out.** The set should not extend down more than one-third the length of the tooth. When a tooth is broken out through improper setting we do not consider the saw defective or that it has failed to give satisfaction. If everybody used the Taintor Saw Set (see No. 35T690) there would be little complaint from this cause. The Fulton Saw is hand set, full bevel hand filed, ready for use, hollow back, handsome handle, perfectly plain, with four improved screws, the neatest looking handle ever put on a saw. **It is guaranteed as follows:** "If this saw is not perfectly satisfactory in every way return it to your dealer and he will refund the amount you paid for it." If you have been accustomed to pay $1.85 or more for a 26-inch saw we will be pleased to have you order a Fulton Saw at $1.25 with the understanding that if you do not consider it equal in every way to saws that sell at $1.85 and upward you may return it to us within 30 days and we will refund the price paid and pay transportation charges both ways.

No. 35T304 The Fulton Panel or Hand Saw.

Length	Points to the inch	Price
18-inch Panel	9, 10, 11 or 12	$0.90
20-inch Panel	9, 10, 11 or 12	1.02
22-inch Panel	9, 10, 11 or 12	1.15
24-inch Hand	7, 8, 9, 10, 11 or 12	1.20
26-inch Hand	6, 7, 8, 9, 10, 11 or 12	1.25
28-inch Hand	6, 7 or 8	1.43
30-inch Hand	6, 7 or 8	1.64

No. 35T305 The Fulton Rip Saws.

Length	Points to the inch	Price
24-inch Rip	5, 5½, 6 or 6½	$1.22
26-inch Rip	5, 5½ or 6	1.27
28-inch Rip	4, 4½, 5, 5½ or 6	1.45
30-inch Rip	4½ or 5	1.66

We cannot furnish these saws in points other than listed above.

The Springfield Saw.

The Springfield Saw is ground nearly three gauges thin on back, carefully smithed and blocked, carved handle, four improved screws, hollow back. Hand made, full bevel hand filed, hand set and warranted, as follows: "If this saw does not prove satisfactory and equal to saws made by other manufacturers that sell at 40 per cent more money, return it to your dealer, within thirty days, and he will refund the price paid for it." If you have been accustomed to pay $1.40 to $1.65 for a 26-inch hand saw, we will be pleased to have you order a Springfield Saw at $1.00, with the understanding that if you do not consider it in every way equal to saws that usually sell at $1.40 and upwards, you may return it to us within thirty days, and we will refund your money. This saw is not so highly tempered as the Fulton Saw, and hence is not as liable to have the teeth broken out through improper setting.

Price List of the Springfield Saw.

No. 35T306 The Springfield Panel or Hand Saw.

Length	Points to the inch	Price
18-inch Panel,	9, 10, 11 and 12	$0.79
20-inch Panel,	9, 10, 11 and 12	.84
22-inch Panel,	9, 10, 11 and 12	.90
24-inch Hand,	7, 8, 9, 9, 10, 11, and 12	.95
26-inch Hand,	6, 7, 8, 9, 10, 11 and 12	1.00

No. 35T307 The Springfield Rip Saw.

26-inch Rip,	5, 5½ and 6	1.02
28-inch Rip,	5, 5½ and 6	1.12

The Odd Jobs Saw.

The Odd Jobs Saw is warranted but it is not ground thin on the back (the bevel as shown in illustration is an imitation only) and it is not smithed or blocked or filed as carefully as our Fulton or Springfield saws. It is set and sharpened and will give satisfaction to anyone who wants a saw only for odd jobs. It is warranted by the manufacturers. We do not advise a first-class carpenter to buy it. It is as good as saws commonly retailed at $1.25 (for 26-inch size) and better than any saw we ever saw retailed for $1.00. You need not hesitate to buy this saw for doing odd jobs.

No. 35T308 The Odd Jobs Panel or Hand Saws.

Length	Points to the inch	Price
20 inches, Panel,	9, 10 or 12	62c
24 inches, Hand,	7, 8, 9 or 10	67c

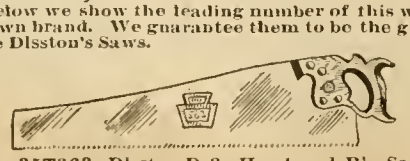
Henry Disston & Sons' Saws.

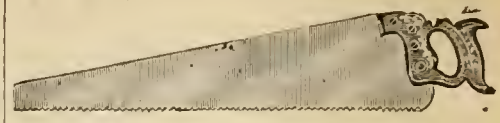
Below we show the leading number of this well known brand. We guarantee them to be the genuine Disston's Saws.



No. 35T363 Disston D-8, Hand and Rip Saws. Skew back, apple handle, polished edge, five improved screws. Rip saws have thumb hold in handle. **Warranted.**
26-inch hand, 6, 7, 8, 9, 10, 11 and 12 points, each 1.25
28-inch rip, 4½, 5, 5½ and 6 points, each 1.40

C. E. Jennings & Co.'s Saws.

All C. E. Jennings & Co.'s Saws are patent ground and tempered. Hand hammered. Hand filed and set ready for use. They are fully warranted in every particular. They are considered by many first class woodworkers to be the best saws in the market today



No. 35T353 Jenniogs' A 7½ Hand Panel and Rip Saw. This saw is on new old lines, 6 inches wide at butt, 1¼ inches at point. A saw that has been worn down to this width by constant use becomes invaluable to the owner, as it can be used for many purposes where a full width saw is unwieldy. They are made of the best refined spring steel, ground four gauges thin on back, full beveled, filed and set, carved and full polished handle, four improved brass screws. The 18, 20, 22 and 24-inch sizes come in 9, 10, 11 and 12 points. The 26-inch size comes 6, 7, 8, 9, 10, 11 and 12 points. The 28-inch size comes 4½, 5, 5½ and 6 points to the inch. Every saw is warranted.

Length, in...	18	20	22	24	26	28 Rip.
Price, each..	$1.08	$1.23	$1.33	$1.47	$1.54	$1.96

C. E. Jennings & Co.'s No. 12½ Straight Back Saw. Extra London refined spring steel highly polished blade; apple handle carved and polished. Four improved brass screws, patent ground and tempered. Hand hammered and hand filed and set ready for use. This saw is, in our opinion, better made, better filed, and better in every way than saws made by other manufacturers that we could sell at about the same price. Cabinet makers, car builders, inside finishers, millwrights, bridge-builders and other high class woodworkers call this "the finest hand saw made." We take back or exchange any that are defective in any particular.

No. 35T354 C. E. Jennings & Co.'s No. 12½ Panel or Hand Saw.

Length	Price
20-inch Panel 9, 10, 11 or 12 points	$1.45

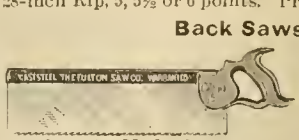
Back Saws.



No. 35T384 The Fulton Back Saw with extra heavy blued steel back giving weight to the saw and insuring a steady cut. Made from extra spring steel. Hand hammered. Hand filed and ready for use. Has apple handle. Fully warranted.

Size, inches	10	12	14	16
Price, each	90c	$1.03	$1.15	$1.28

No. 35T387 The Springfield Back Saw with blued steel back. Beech handle. The same material is used in making this saw that is used in the Springfield hand saw. It is not so finely finished as our Fulton back saw and the handle is not so expensive. It is, however, a first class saw and is warranted to give satisfaction.

Size, inches	10	12	14	16
Price, each	62c	74c	87c	93c

THE FULTON SAW IS NOT MADE BY A TRUST.

If you are opposed to trusts and combinations, (which usually keeps prices higher than they should naturally be) you can fire one shot at the enemy by buying the FULTON SAW, and provided you find it is exactly as we say recommending it to your fellow workmen.

Miter Box Saws.

No. 35T388 The Fulton Miter Box Back Saw, measuring 4 inches under the back. Length of saw is entire length of blade, the toothed edge being about 2 inches shorter.

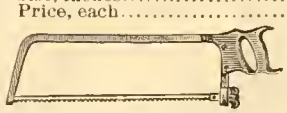
Size, inches	12	14	16
Price, each	18c	19c	20c



No. 35T448 Star Kitchen Saw. Polished steel frame with beech handle. They have what most other kitchen saws do not have—an arrangement for straining the saw, which adds much to their value. Length of blade, 14 inches. Price, frame with one blade, each.....29c

No. 35T449 Extra Blades for Star Kitchen Saws.
Price, each.....8c

Butcher Saws.

No. 35T450 The Fulton Butcher Saw. Flat polished steel frame. Blue clock spring blades. Warranted.

Size, inches	20	22	24
Price, each	70c	75c	80c

No. 35T451 Star Butcher Saws are furnished with blades that are tempered so that they will cut about six times as long as the old kind, which have to be left soft enough to file. The Star Blades can take a file temper, as they are to be thrown away when dull, for we sell a new blade at the usual cost of sharpening the old style blades. After cutting bone for six weeks, one of these blades will cut through a half-inch rod of iron twenty times.

Price list of frames with one blade.

Length of blade, inches	18	20	22	24	26
Price, each	90c	97c	$1.08	$1.13	$1.18

No. 35T452 Star Butcher Saw Blades. While wearing out one of these blades it would be necessary to file an old style blade five or six times, hence we claim that though the Star blade must be thrown away when worn out, they are cheaper in the end. Will fit any frame.

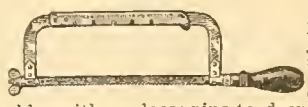
Steel Hack Saw Frames.



No. 35T467 Nickel plated, adjustable extension. These frames are all well finished, strong and durable, with no loose pins to drop out or springs to get out of order and are quickly and easily adjusted to four angles, or to any lengths, from 8 to 12 inches. Price, with one 8-inch blade 68c

No. 35T468 Nickel Plated Adjustable Hack Saw Frame, to take blade from 8 to 10 inches long
Price, each.....62c

No. 35T470 This is the stiffest hack saw frame made. It is made of steel, highly polished, heavily nickel plated, and will face the blades in four directions. The handle is ebonized. This will hold all blades from 8 to 12 inches.
Price, with one 8-inch blade, as shown in illustration.....80c

Hack Saw Blades.

No. 35T480 This flexible Hack Saw Blade is good for small and fine work. It is impossible for the workman to break the teeth or the saw while working with it, as it is made from the best clock spring steel, soft on the back with highly tempered teeth. For cutting tubing of any kind it is highly recommended. It will not wear as long as the Star Hack Saw Blade, but, as it is unbreakable, it is preferred by many.

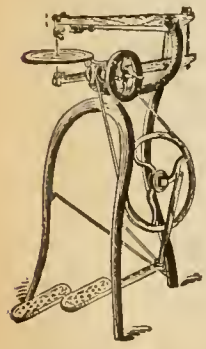
The above blades also fit Nos. 35T510, 35T512, 35T514, 35T521 35T525 saws.

Foot Power Bracket Saws.

No. 35T510 Foot Power Bracket Saw. For scroll sawing alone it is about as good as the higher priced saws, and the finish is the same as our No. 35T512 saws. **It has an iron fitting table,** second growth ash arms, 18inches long, improved clamps, etc. Weight of saw, 17 pounds; weight, when boxed, 35 pounds.

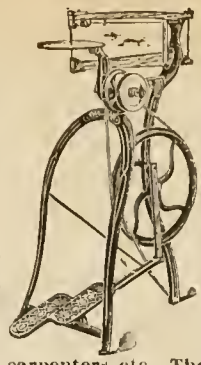
Price.....$2.20



Foot Power Bracket Saw.

No. 35T512 Bracket Saw. Has a rubber dust blower, improved clamps for holding the saw blade and a roller inserted in the table back of the saw, **which makes it run perfectly true. The arbors are made of steel, carefully gauged and fitted to their bearings. The bearings** to the arms are carefully sized to bring them in perfect line. **The stretcher rod is jointed,** which allows the upper arm to be thrown out of the way when adjusting work or saw. The balance wheel is 4½ inches in diameter, with iron spoke center and rim of solid emery. The attachment for drilling is on the **right hand** side of machine, which is an advantage. With each machine we give **12 saw blades, wrench, sheet of designs and 3 drill points.** The saw alone weighs 25 pounds; when boxed for shipment, about 42 pounds.

Price.....$3.25



The Star Scroll Saw.

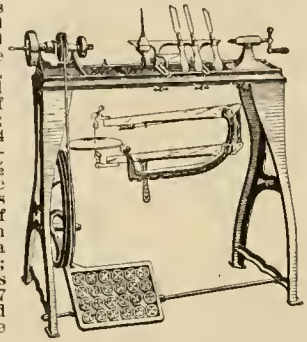
No. 35T514 The Star Scroll Saw is a better machine than No. 35T512. It has a heavier drive wheel. The emery wheel is fastened by adjustable clamps, which can also be used for holding various other sizes of emery wheels, grindstones, buffing wheels, etc. It has a chuck for holding drill points. It weighs, net, 37 pounds, and boxed, 55 pounds. With each machine we give 12 saw blades, wrench, sheet of designs and 3 drill points.

Price, complete.....$4.40

The foot power bracket saws No. 35T512 to 35T514 are not practical tools for carpenters, etc. They are intended only for amateurs or boys.

Nos. 35T520 and 35T524 Lathes are not suitable for mechanics. They are only intended for the use of boys and amateurs. Not a tool for the carpenter shop, as it is too light for heavy work.

Our $8.15 Foot Power Lathe.



No. 35T520 This lathe is provided with a long and short tool rest, five turning tools, wrench and drill points. Swing of lathe, 5 inches; length of bed, 24 inches; distance between center, 15½ inches. The large **drive wheel has two grooves** of varying depths on its face to give it a change of speed; the higher speed is 11 to 1; the lower, 7 to 1; the lathe head has a 2-inch face plate, a spur center, a screw center for turning cups and also a drill chuck to hold from 3/32 to ¼-inch round twist drills for drilling wood or iron. **The lathe is thoroughly built and highly finished,** the plain and polished parts being nickel plated. Weight, 56 pounds; weight, boxed, ready to ship, 70 pounds. Price.....$8.15

No. 35T521 The same Lathe, with scroll saw attachments. Weight, boxed, ready to ship, 70 pounds. Price.....$9.80

No. 35T522 Circular Saw Attachment for Goodell Lathe, complete with 3-inch saw. Price, each..$1.00

No. 35T523 Extra clamps to hold saw blades in saws, **Nos. 35T510-35T512 and Scroll Attachment to Goodell Lathe.** Sold in pairs only.

Price, per pair.....29c

Lathe and Saw.

The Companion Lathe is built on same castings as the Goodell, described under No. 35T520, but is not so highly finished. Neither do we furnish chuck with this lathe, or more than three turning tools. Thousands of them have been sold, and as far as we know none have failed to give satisfaction.

No. 35T524 Price of lathe only and tools, without scroll saw attachment.....$5.88

No. 35T525 Price of scroll saw attachment, each.....$1.32

Combined Foot and Power 20-Inch Band Saws.

No. 35T540 This machine is especially arranged for foot power as shown. It is provided with one heavy band wheel, gearing to increase the speed, and two treadles. The operator is enabled to attain a good speed and the heavy band wheel serves to carry past the dead point. There is furnished an extra lever which is to bolt on the left hand end of the foot treadle. This is applied when the aid of a second hand is required on heavy work.

Each machine is furnished with two saw blades and outfit for brazing broken saws. Weight, 350 pounds. 20-inch machine with gearing and foot treadles for one or two men, no pulleys...$39.25

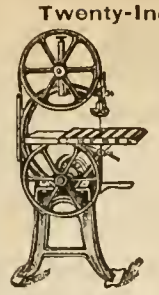
20-inch machine with foot power attachments and pulleys for foot or belt power..... 42.35

Extra saw blades, each..... 1.25

At above prices we deliver free on board cars at our factory in Ohio.

IF YOU WILL REFER TO THE FREIGHT RATES on pages 7 to 11, and note the description and weight of the article, you can calculate almost exactly what the freight will amount to, and thus save the necessity of writing to us for this information.

Twenty-Inch Band Saw for Power.



No. 35T545 Dimensions—Height over all, 66 inches. Floor to center of pulleys, 28¾ inches. Floor to top of table, 40 inches. Table to upper saw guide when up, 7 inches. Saw to frame at back of table, 20 inches. Band wheels, 20 inches diameter. Floor space, 24x24 inches.

Band Wheels—Upper and lower wheels are turned perfectly true, balanced, and covered with endless rubber tires of best quality. Upper wheel can be adjusted in any direction while machine is running, to keep saw in proper alignment, and has also an up and down adjustment of several inches, to accommodate saws of different lengths.

Saw Blades—We furnish two saws with each machine—¼ and ⅜ No. 22 gauge, 10 feet 1 inch long, set and sharpened ready for use.

Pulleys—Tight and loose, 7 inches diameter for 3 inch belt provided with shifter and lever as shown; no counter shaft required.

Table—20x24 inches, made of narrow hardwood strips, glued together and held permanent with iron cleats underneath. The table can be tilted to any desired angle for **bevel sawing**—especially desirable for pattern work. Shipping weight, 300 pounds.

Speed—350 to 400 revolutions per minute.

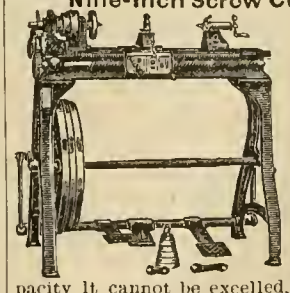
Set of Wood Turning Tools.

Suitable for Any Lathe.

No. 35T553 Consisting of two turning gouges, ⅜ and ½-inch; two turning chisels, ⅜ and ¾-inch; one cutting off tool; one inside tool; one square graver; one pair 5-inch double calipers. Tools are all handled. Price, per set, complete.....$3.40

Nine-Inch Screw Cutting Lathe.



This illustration shows our 9-inch screw cutting lathe. The design, material and construction are of the highest grade and the tool is fully guaranteed. It has all the essential features of a high grade engine lathe of larger dimensions, and it is without doubt the best small foot lathe now on the market. For any work within its capacity it cannot be excelled. Head is detachable. Tail Stock sets over for taper turning. Carriage is gibbed both front and back. Rack and gears are cut from the solid metal. With each lathe is furnished a face plate, two pointed centers, wrenches as shown in illustration, gears to cut all standard threads from 3 to 40, and either a foot motion or a countershaft.

At above prices we deliver lathes free on board cars in Cincinnati from which point the purchaser must pay the freight.

Send for special descriptive circular, giving full description of our line of turning lathes and price list of changes and extras.

Ten-Inch Screw Cutting Lathe.

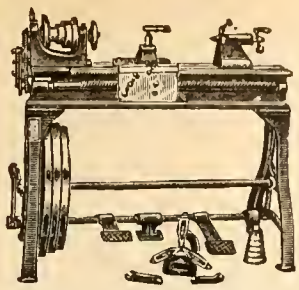

Illustration represents our new and improved 10-inch Screw Cutting Lathe, which has been designed to do accurate and substantial work with ease and rapidity. This, as well as our other lathes, is made of the very best material, while the workmanship and finish are of the highest grade. The **head stock** is detachable so as to admit of readjustment should the spindle become untrue. The **tail stock** has an adjustable side movement for taper turning. The **carriage** is gibbed to the bed both front and back, rendering it very stiff. It is detachable for hand work, and can be thrown into feed instantly for turning or screw cutting. The bed is thoroughly braced. The **gears** and **rack** are cut from solid metal. This lathe is provided with the **reverse movement** in head stock. With each lathe is furnished a face plate, two pointed centers, wrenches as shown in illustration, gears to cut all standard threads from 3 to 40, and either a foot motion or countershaft. **Dimensions:** Swings over bed, 10 inches; swings over carriage, 7¼ inches; length of bed, 48 inches; takes between centers, 28 inches; front bearing, 1⅞-inches diameter by 2½ inches long; hole through spindle, ⅝ inches.

Has 3-speed cone for 1¼-inch belt. Weight, 470 lbs.

No. 35T570 Ten-Inch Screw Cutting Lathe with foot motion..... $79.90

No. 35T571 Ten-Inch Screw Cutting Lathe with countershaft..... 79.95

Lathe Sets.

No. 35T574 Lathe Sets are well made and the bottoms are planed to bring the centers in line. The No. 1 and No. 2 have steel head spindles running in cast iron bearing. The Nos. 3 and 4 have babbitt bearings, and the centers are the No. 2 Morse taper. The cones are carefully balanced, being turned on the inside, and no better made lathes have ever been placed upon the market. Each set of heads consists of 1 head stock, 1 rest socket, 1 face plate, 1 common center, 3 bolts, 1 tail stock, 2 T rests, 1 spur center, 2 hand wheel nuts, and 3 flanges.

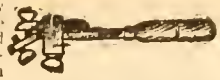
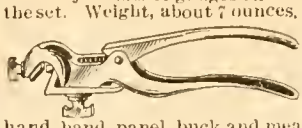
Saw Sets.

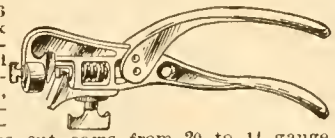


No. 35T675 Lever Saw Sets, with wood handle. The depth of set on tooth and amount of set can be regulated by means of ganges on the set. Weight, about 7 ounces. Price, each....10c



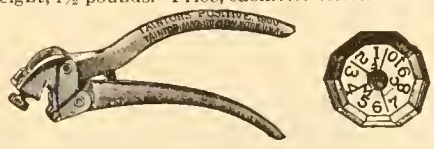
No. 35T685 Sears, Roebuck & Co.'s Improved Anvil Original Morrell's Pattern Saw Set, No. 1, for setting hand, band, panel, buck and meat saws. **If this saw set is used intelligently it will be impossible to break a tooth out of a saw while setting it.** No prying required. Simply shutting the handles sets the tooth. The point of tooth when in position on anvil can be seen by the operator. Weight, 9 ounces.

Price, each 30c



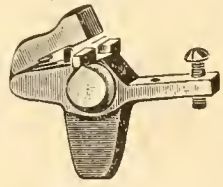
No. 35T686 Sears, Roebuck & Co.'s Improved Anvil Morrell's Pattern Saw Set, No. 3, for common tooth, circular and cross cut saws from 20 to 14 gauge. Weight, 1 pound 6 ounces. Price, each..... 70c

No. 35T687 Sears, Roebuck & Co.'s Improved Anvil Morrell's Pattern Saw Set, No. 4, for Champion or M-tooth cross cut saws from 22 to 14 gauge. Weight, 1½ pounds. Price, each..... .....70c



No. 35T690 The Taintor Positive Saw Set is made entirely of steel, is light, strong and durable, and every part guaranteed. The anvil is a block of steel having ten sides and faces, which are numbered. The faces are of three lengths placed in lettered divisions—F for fine, M for medium and C for coarse teeth. These faces will produce any setting ordinarily required, but for fine adjustment a washer is provided, which, when placed between the anvil and frame, causes each face to bend the tooth nearer its point, producing less set. **Never use a face that reaches below the root of the tooth.** In use the anvil should be screwed **tightly** down, with its side **accurately** in line with the clamping jaw. Bring the handles together with sufficient force to press the tooth hard against the face of the anvil, but not hard enough to crush it, or draw it out of shape. To return to any setting, note the number of anvil face on which it was done.

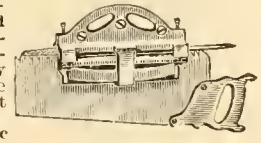
No. 35T690 The Taintor Positive Saw Set.
Price, each.....55c



Aiken's Hammer Saw Set.

No. 35T693 Hammer Saw Set, Aiken's genuine cast steel. So well known, a description is not necessary.
Price, each... .....49c

Saw Jointer and Skate Sharpener.

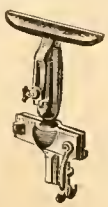


No. 35T700 The Perfect Saw Jointer and Skate Sharpener. Adjustable to any thickness of blade. Uses any **common** file. So simple that directions are not necessary.
Price, each, with file..35c

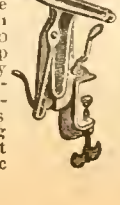
Saw Clamps.

No. 35T720 Saw Clamps; jaws are 9½ inches. To open clamp, throw the lever down; place saw between the jaws and bring the lever back, and saw is **securely held for filing;** nicely japanned. Weight, about 3 pounds. Price, each.....25c

No. 35T723 Wentworth Pattern Silent Saw Vise, jaw faced with rubber, which is pressed against the blade of saw, preventing all noise or vibration. Length of jaw, 11 inches. Weight, about 5 pounds. Price, each. 50c

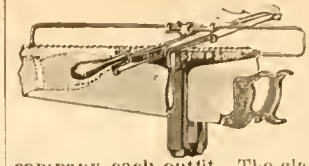


No. 35T726 Ball and Socket Adjustable Saw Clamp is adjustable in every direction; length of jaw, 9½ inches; saw is secured by tightening thumbscrew; nicely japanned. Weight, about 9 pounds. Price, each.....50c



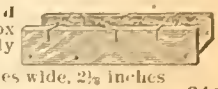
No. 35T730 Adjustable Saw Clamp with clamp, to secure it to bench or table. This clamp holds saw securely at any angle. Jaws are 9½ inches. **The adjustable feature,** which can be readily understood by looking at illustration, makes this the **most popular and best selling saw clamp in the market.** Weight, about 5 pounds. Price, each.....38c

Saw Clamp with Filing Guide.



No. 35T736 Henry Disston & Sons' Saw Clamp and Guide. This enables anyone to file a saw correctly, even if they are not skilled in the art of saw filing. Full directions for use accompany each outfit. The clamp is not shown in full in the illustration. It is very similar to No. 35T720 clamp, with the addition of the guide. Ordinary files can be used. Clamp Filing Guide, file and handle, all complete in wood box. Weight 20 pounds.
Price, each. **$1.80**

Miter Boxes.



No. 35T740 Hardwood Miter Boxes, a serviceable box at a low price. Accurately made and well finished.
No. 1, 12 inches long, 2⅜ inches wide, 2⅛ inches high inside. Price, each..... 24c

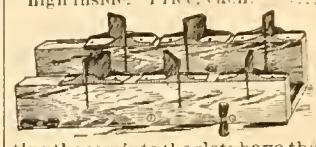
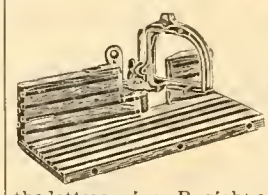
No. 3, 24 inches long, 3⅜ inches wide, 3⅛ inches high inside. Price, each..... 50c



No. 35T745 Olmstead Improved Miter Boxes. In this miter box the irons which guide saw are adjustable to any thickness of saw. When putting the saw into the slots have the teeth of saw point the irons. Size A will saw molding 1¼x3 inches. **$1.20**
Size B will saw molding 2½x4 inches..... 1.70

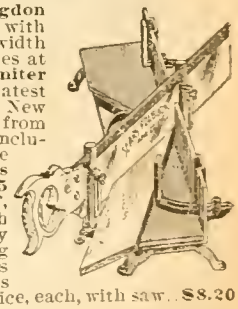
Stanley's Improved Miter Box.

No. 35T748 The Stanley Improved Miter Box, for use with either back or panel saw. Adjustable. Length, 20 inches.
Price, without saw.....**$4.90**



No. 35T749 The Perfection Miter Box has the following points of merit. The saw guide can be instantly set and rigidly held by the setscrew at any angle wanted. The saw guide can be set to the angles more commonly used, indicated on the dial by the letters, viz.: R, right angle or square cut. M, miter or 45 degrees. P, pentagon, or 36 degrees. H, hexagon, or 30 degrees. O, octagon, or 22½ degrees. W, to match usual door and windowsill pitch, 9 degrees. Any saw may be used, back saw, panel or hand. For cutting to exact depths, use a back saw, the back rib resting on the shoulders within the swinging guide, this guide adjusted to the proper height, will determine the depth, at the same time that it keeps to the angle to be cut. May be detached in a minute from the wood box and folded to carry in tool chest. Price, each.....**$2.67**

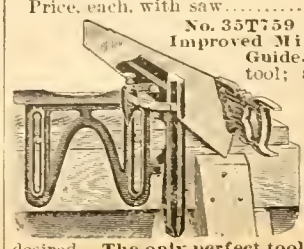
Langdon Improved Miter Box.



No. 35T750 The Langdon New Improved Miter Box, with saw, gives 6 inches width at right angles and 4 inches at miter. **This is the best miter box made** and has all the latest improvements. Ordinary New Langdon Miter Box cuts from right angles to 45 degrees, inclusive. This box, by using the circular arms or guides, **cuts from right angles to 75 degrees on 2¼-inch stuff,** varying more or less with width of stuff. It is the only box adjustable for mitering circular work in patterns and segments of various kinds. Weight, 10½ lbs. Price, each, with saw..**$8.20**

No. 35T753 The Langdon New Improved Miter Box, with saw, 24x4, gives 9½ inches at right angles and 6½ inches at miter. Weight, 11½ pounds.
Price, each, with saw.....**$10.25**

No. 35T756 The Langdon New Improved Miter Box, with saw, 28x5, gives 9½ inches width at right angles and 6½ inches at miter. Weight, 12½ pounds.
Price, each, with saw..... ..**$11.50**



No. 35T759 The Seavey Latest Improved Miter Box and Saw Guide. A light and perfect tool; accurate and easily adjusted. Just the thing to take upon staging for clapboarding and general house finishing. No special saw needed. Weight, only 2 lbs. Graduated and easily adjusted to any angle desired. **The only perfect tool that can be used in sawing molding of any width or depth.** Can be used either placed on top of the wood to be cut or fastened to bench. Price, without saw, each.. **$1.67**

EMERY WHEELS.

The Hartman Emery Wheel is made especially for us by manufacturers who have established a most enviable reputation for making satisfactory wheels. The wheels made for us are exactly the same grade in every respect as those which they sell to the consumer at nearly twice the price we charge.

DIRECTIONS FOR ORDERING.

Always state diameter, thickness, size of arbor hole and shape of face, the kind of material to be ground, whether surface or edge grinding and fine or coarse work is required; whether the work is light or heavy; speed at which wheel is run.

DIRECTIONS FOR USING.

Emery Wheels will do the best work when run at a surface speed of one mile a minute, but for hardened tool grinding a slower speed is advisable. Before putting a wheel on the mandrel, tap it lightly with a hammer to ascertain that it is sound. If it rings it has not suffered from ill usage, and may be safely put to use.

All our wheels are thoroughly tested at a much higher strain than that to which they are subjected in use, and all are packed carefully. In transportation they may be broken, hence the necessity of testing immediately before running them.

Always use iron flanges on both sides of the wheel. The flanges ought to be about one-third of the diameter of the wheel or larger. Rubber or leather washers should be used, especially with thin wheels.

All emery machines should be provided with rests on which the article to be ground is held. Bear on lightly when grinding edge tools and frequently dip the tool into water while grinding to prevent burning the steel.

Wheels should run toward the operator, with the rests close to the face of the wheel. Very often wheels are broken by castings being caught between the wheels and rests by getting out of the workman's hands.

PRICE LIST OF EMERY WHEELS

No. 35T883 Flat Face Emery Wheels. **No. 35T884** Bevel Face Emery Wheels.
No. 35T885 Round Face Emery Wheels.

We cannot fill your order for Emery Wheels unless you give diameter, thickness and size of hole.

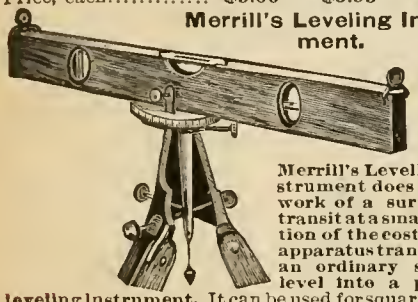
Size stone, lbs	100 to 110	70 to 80	40 to 50
Price, each	$3.60	$3.35	$3.20

Merrill's Leveling Instrument.



Merrill's Leveling Instrument does all the work of a surveyor's transit at a small fraction of the cost. This apparatus transforms an ordinary spirit level into a perfect leveling instrument. It can be used for squaring and leveling buildings, platting grounds and determining grades, angles and elevations. It is also especially adapted for irrigation ditches, sewers and drains.

The leveling instrument is constructed principally of brass and is well finished to insure accuracy in its operations.

The tripod stand is very simple, being cast in one piece, with lugs for attaching the legs. It also has the adjusting screws and the transit. This latter is also cast in one piece and accurately finished in its working parts. In the lower end of the stem is a small hole for attaching a plumb. The periphery of the transit is graduated to the degrees of a circle for determining angles, squaring buildings, lots, etc.

The level sights, one of which is provided with fine cross wires and the other with a minute peephole, are carefully and accurately adjusted. Attached to the tripod stand is a pointer for registering the degrees. This has a knife edge which comes into close contact with the degree marks.

Illustration shows the instrument set up for use. A portion of the tripod stand is cut away to show the manner of adjustment.

No. 35T1055 A Complete Leveling Outfit, consisting of tripod stand, graduated transit, indicator, level sights, together with all necessary screws and instructions for adjusting and operating the instrument, securely packed. Price, complete.....$5.88

Tripod legs and level are not included. If level is wanted please make a selection from our catalogue. Tripod legs can be made by the purchaser.

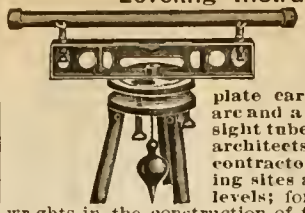
Level Sights.

No. 35T1056 Level Sights. Are accurate and reliable and can be quickly adjusted to fit any level.
Price, per pair....49c

Targets.

No. 35T1057 Targets. Are made of heavy sheet metal with a broad cleat on the back to retain a staff, and provided with a spring having sufficient tension to retain them at any desired height. The upper edge of the staple exactly coincides with the horizontal cross line on the face to facilitate reading the numbers on the staff. We do not furnish the staff. Price, each... 73c

Leveling Instrument.



This instrument consists of a tripod, to the head of which is connected an upper plate carrying a graduated arc and a level with a plain sight tube. It is designed for architects, carpenters and contractors, to lay out building sites and determine the levels; for masons and millwrights in the construction of foundations and the setting of water wheels; building of dams and raceways. The farmer will find it convenient to ascertain the amount of fall for the location of drains, or to find the height of springs; and, when the bearing of lines is not required, the surveyor will find this superior to the ordinary needle compass, for angles may be taken where, from local attraction, it would not be possible to set them off with the needle. The tripod is of iron, and has improved extension legs. The upper parts are hollow, to receive within them the lower parts, which may be held at any desired length by clamp screws. The upper plate is connected to the tripod head by a ball and socket joint, and can be leveled by the leveling screws. This plate is recessed to contain a graduated arc below its upper surface, and has a center stud on which the arc and level turn. The graduated arc is of steel, and has on it one-half of a circumference divided to degrees and properly numbered. This arc turns on the center stud of the upper plate, independent of the level or sight tube. The sight tube is a brass tube 12 inches long, and in one end is a small eye aperture, while the other end has the usual cross wires. With long extension legs, the height can be from 2 feet 8 inches to 4 feet 8 inches. The sight tube, level case and graduated arcs are nickel plated, the other parts are japanned.

Put up in a nicely finished box. Weight, boxed, about 15 pounds.

No. 35T1058 Price for instrument complete $10.00

Cook's Patent Levels.

The bulb tube is set in a frame, which is faced on either side with glass and can be seen from any position, and shows the bulb in a clear light. It can be used under as well as over the thing to be leveled. It can be seen ten feet away readily marking its position. It can be used in many positions which would not be possible with the ordinary level. Two bulb tubes are used, one for leveling and one for plumbing. In the manner of adjustment this level is absolutely perfect. The inside ring being made of solid drawn brass, and so made as to fit in the grooves of the outside ring, it must necessarily turn on its own center to adjust, which can be done by turning the adjusting screws, one of which reaches to either edge of the stock.

No. 35T1060 Cook's Patent Level, cherry with brass trimmings. Lengths, 24, 26, 28 or 30 inches.
Price, each.....$1.60

No. 35T1063 Cook's Patent Level, mahogany with nickel trimmings. Lengths, 24, 26, 28 or 30 inches.

Price, each.....$1.76

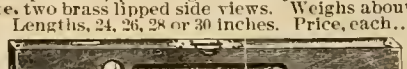
STANLEY'S PLUMBS AND LEVELS.

All wood levels made by The Stanley Rule & Level Co. have the "Handy" feature. In climbing ladders, walking on stagings or on the frame of a building, the peculiar form of the level is appreciated by the workman who carries it. On account of their increased strength and accuracy we have these levels made with proved level glasses.

No. 35T1072 Stanley's Level. Cherry stained, without plumb. Has groove for hand hold; not shown in cut. Proved glass; not adjustable. Weight, about 1 pound. Length, 12 inches. Price, each.....20c

No. 35T1075 Stanley's Plumb and Level. Mahogany polished. Proved glasses; not adjustable; arch top plate; two side views. Weighs about 2½ pounds. Lengths, 24, 26, 28 or 30 inches. Price, each.....39c

No. 35T1077 Stanley's Adjustable Plumb and Level; polished, proved glasses, adjustable arch top plate, two brass lipped side views. Weighs about 3¼ lbs. Lengths, 24, 26, 28 or 30 inches. Price, each..59c



No. 35T1080 Stanley's Adjustable Plumb and Level. Mahogany polished, proved glasses, arch top plates, two side views, tipped. Weighs about 3¼ pounds. Lengths, 26, 28 or 30 inches. Price, each.65c

No. 35T1082 Stanley's Adjustable Plumb and Level. Made of three pieces glued together so it cannot warp or spring; arch top plate; two ornamental brass lipped side views; proved glasses; polished and tipped. Weight, about 3¼ pounds. Lengths, 26, 28 or 30 inches. Price, each.....$1.05

These levels have the ordinary form of leveling glass, set in the top surface of the stock. For any uses where an observation of the glass, sidewise, may be found convenient, an additional leveling glass is set in the side, at the opposite end from the plumb. Both glasses are protected by brass discs; can be seen from either side, and are inserted in the level with the least possible removal of wood from the stock.

No. 35T1088 Stanley's Duplex Patent Adjustable Plumb and Level, cherry, arch top plate, improved duplex side views, polished and tipped. Lengths, 24, 26, 28 or 30 inches. Price, each.....$1.05

No. 35T1089 Stanley's Duplex Patent Adjustable Plumb and Level, cherry, and made of three pieces glued together. Arch top plate, improved duplex side views, polished and tipped. Lengths, 24, 26, 28 or 30 inches. Price, each.....$1.40

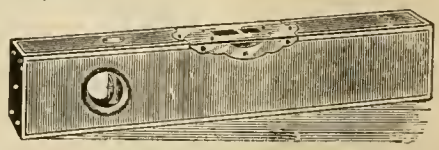
Plumbs and Levels with Ground Glasses.

The inside surfaces of these glasses are ground perfectly smooth, making the bubble extremely sensitive.

No. 35T1093 Stanley's Mahogany Plumb and Level, arch top plate, two brass lipped side views, tipped with ground glasses. Lengths, 24 26, 28 or 30 inches. Price, each.....$2.13

No. 35T1095 Stanley's Brass Bound Mahogany Plumb and Level, two brass lipped side views, with ground glasses. Lengths, 24, 26, 28 or 30 inches.
Price, each.....$3.93

No. 35T1097 Stanley's Masons' Plumb and Level, with arch top plate, two side views and adapted to be used with a plumb bob and line. Plumbs and level glasses are adjustable and can be trued up when necessary in a few moments with an ordinary screwdriver. 42 inches long. Plumb bob and line shown in illustration not furnished at price of level.
Price, each.....$1.05



No. 35T1100 Stratton's Rosewood Level. The corners are protected from injury and preserved true and perfect by brass rods extending the entire length of the level, securely attached to the wood. These levels have two ornamental brass lipped side views, heavy brass top and end plates, and are made of the best, thoroughly seasoned mahogany and rosewood, polished.

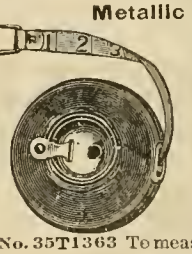
Metallic Warp Tapes.



This Tape Line is a durable, reliable, accurate and strong tape line. Wire is woven in with the linen, which prevents stretching. Has a heavy red leather case, folding handle, spaced in 12ths.

No. 35T1360 Metallic warp tape line. To measure 50 feet. Price, each..$1.78

No. 35T1362 To measure 66 feet. Price, each..$2.00

No. 35T1363 To measure 100 feet. Price, each, 2.79

Steel Tape Lines.

No. 35T1368 Steel Tape Lines with Leather Case. This is the most popular steel tape in the market, as it meets a demand from a large class of users who appreciate the value of a steel tape, but do not wish to invest in the higher priced article. While the price is very low, the tape is in every way first class. The measurements are guaranteed accurate. The case is compact, very durable and will not break. The winding drum is large, has a long crank, winds easily and the handle folds nearly flush with the case. We can safely recommend this tape to the purchaser as an article which is first class, durable and perfectly accurate. Marked feet and 12ths (inches) and eighths.

To measure, feet	25	50	75	100

Bailey's Bench Planes.

The Genuine Bailey Planes, made by the Stanley Rule & Level Company, are so well and favorably known to mechanics the world over that they need no recommendation from us. The cutter is stamped from a solid piece of the best quality of English cast steel, of equal thickness throughout, finely tempered and ground sharp, ready for use. By means of a lever, located under the plane iron, and working sidewise, the cutting edge can easily be brought into a position exactly square with the bottom of the plane. The patents having expired, planes of same style are made by various manufacturers and offered as Bailey pattern, or even for the genuine goods. We sell the genuine only.

S., R. & Co.'s Adjustable Planes.

Iron and Wood Bottom.

These planes have screw adjustment to regulate amount of cut, and side adjustment to set edge of cutter square with face of plane. The cutting irons are forged from a special quality of cast steel, **thicker on the cutting end and will work equally well in hard and soft timber and will not tremble, chatter or jump in knots or hard places.** All our planes are well made, nicely finished and tested, and put in perfect working order before leaving the factory. Great care is used to get the face of all planes true, and **the sides of the iron planes are just as true as the face. These planes are fully warranted.**

Bailey's Knuckle Joint Planes.

This plane has a knuckle joint in the cap, and placing the cap in position clamps the cutter securely in its seat. Has nickel plated trimmings and all adjustments same as above planes.

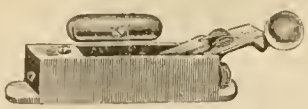
No. 35T2138 Bailey's Knuckle Joint Plane, No. 18, as above. Length, 6 inches, 1¾-inch cutter. Weight 1 pound 10 ounces. Price, each.....79c

No. 35T2140 Bailey's Knuckle Joint Plane, No. 19, as above. Length, 7 inches, 1¾-inch cutter. Weight, 1 pound 14 ounces. Price, each.....85c

Stanley's Block Plane.

No. 35T2144 Stanley's Low Angle Block Plane, No. 60, 6 inches in length, 1½-inch cutter. Weight, 1½ pounds. Price, each.....75c

No. 35T2145 Stanley's Low Angle Block Plane, No. 65, 7 inches in length, 1¾-inch cutter. Weight, 1¾ pounds. Price, each.....82c



No. 35T2160 The Genuine Bailey Iron Cabinet-makers' Adjustable Block Plane, No. 9. Length, 10 inches; 2-inch cutter. Weight, 4½ pounds. Designed for extra fine cabinet work, car finishers, musical instrument case makers, etc. Price, each.....$2.63

No. 35T2161 Rabbet and Block Plane, No. 140, detachable side, 7 inches long, 1¼-in. cutter. A detachable side will easily change this tool from a Block Plane to a Rabbet Plane, or vice versa. The cutter is set on askew. Price.....88c

No. 35T2168 Carriage Makers' Rabbet Plane, No. 10½, 9 in. in length, 2⅛-in. cutter. Price, each...$1.64

No. 35T2169 Carriage Makers' Rabbet Plane, No. 10, 13 in. in length, 2½-in. cutter. Price, each...$1.97

No. 35T2172 Stanley's Adjustable Scraper Plane, No. 112, length 9 inches; 3-inch cutter. Price.....$1.40

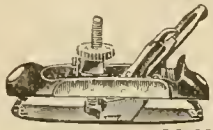
This tool is used for scraping and finishing veneers or cabinet work. It can be used equally well as a tooth plane, and will do excellent work in scraping off old paint and glue.

No. 35T2173 Cutters, for veneer scraping.....14c

No. 35T2174 Cutters, for toothing, Nos. 22, 28, 32 (22, 28 or 32 teeth per inch).....21c

No. 35T2180 Stanley's Improved Scrub Plan No. 40, has a single iron with the cutting edge rounded. It is particularly adapted for roughing down work before using other planes. Stock is 9½ inches long with 1¼-inch cutter. Price, each.....69c

No. 35T2184 Stanley's Adjustable Circular Plane, No. 113, with flexible steel face, which, by turning the knob on the front of the plane, can be easily shaped to any required are either concave or convex. Weight, 3¾ pounds. Price, each.....$1.92



No. 35T2188 Stanley's Adjustable Circular Plane, No. 20, with flexible steel face which can be made concave or convex by turning the screw which is attached to its center. Nickel plated. 1¾-inch cutter. Price, each.....$2.63

No. 35T2190 Adjustable Chamfer Plane. The front section of this plane, to which cutter is attached, can be moved up and down. It can be firmly secured to the rear section, at any desired point, by means of a thumbscrew. Without the use of any other tool this plane will do perfect chamfer, or stop chamfer work of all ordinary widths. When the faces of both sections are even it can be used as an ordinary bench plane. Length, 9 inches; 1⅝-inch cutter. Weight, 3 pounds. Price, each.....$1.40

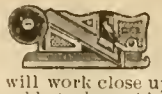
No. 35T2193 Beading attachment for above chamfer plane. For beading or molding a chamfer this additional attachment can be furnished, with six cutters, sharpened at both ends, including a large variety of ornamental forms. This attachment is not included with above plane. Price, for attachment.....69c

No. 35T2195 Bull Nose Rabbet Plane, No. 75, iron stock, 4 inches in length, 1-inch cutter. Price, each.....23c

Stanley's Adjustable Bull Nose Rabbet Plane.

No. 35T2198 Stanley's Adjustable Bull Nose Rabbet Plane, with adjustable throat, nickel plated, No. 90. This plane is designed for fine cabinet work where extreme accuracy is desired. The sides and bottom being square with each other, the plane will lie perfectly flat on either side, and can be used right or left. Rabbet plane, 4 inches in length, 1-inch cutter. Price, each.....$1.40

Side Rabbet Plane.



A convenient tool for side rabbeting and trimming dados, moldings and grooves of all sorts. A reversible nosepiece will give the tool a form by which it will work close up into corners when required. Side rabbet plane, 4 inches in length.

No. 35T2204 Right hand. Price.....63c
No. 35T2205 Left hand. Price.....63c

Stanley's Rabbet Plane.

Stanley's Improved Rabbet Plane. This plane will lie perfectly flat on either side, and can be used with right or left hand equally well while planing into corners or up against perpendicular surfaces; has spur which can be removed when not wanted. Length 8 inches; 1½-inch cutter. Weight 3½ pounds.

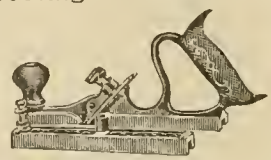
No. 35T2209 1⅛ inches wide, with spur, each.80c
No. 35T2210 1¼ inches wide, with spur, each.80c
No. 35T2211 1 inch wide, with spur, each.80c

Duplex Rabbet Plane.

Remove the arm to which the fence is secured and a Handled Rabbet Plane is had, and with two seats for the cutter, so that the tool can be used as a Bull Nose Rabbet if required. The arm to which the fence is secured can be screwed into either side of the stock, thus making a superior right or left hand filletster with adjustable spur and depth gauge.

No. 35T2215 Duplex Rabbet Plane and filletster as above. No. 78. Length, 8½ inches; 1⅛-inch cutter. Weight, 3¼ pounds. Price, each.....$1.05

Tonguing and Grooving (Match) Plane.

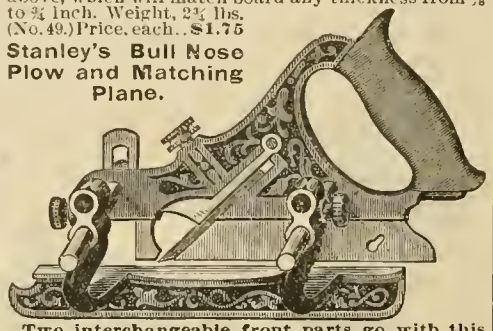


This plane has two separate cutters at suitable distance apart. When the guide or fence is set, as shown in illustration, both cutters work and a tongue can be made. The fence is hung on a pivot and can be swung around end for end. This movement covers one of the cutters, and also furnishes a guide for grooving an exact match for the tongue. In working thicker than 1-inch stuff with No. 48 plane, or ⅛-inch stuff with No. 49, place the extra wide cutter in right hand side of the plane. The tongue and the groove will be equally removed from the center of the edges on extra thick or thin boards, and a perfect match will be made.

No. 35T2218 Tonguing and Grooving Plane (commonly called Match Plane), as above, which will match board of any thickness from ¾ to 1¼ inches thick. Weight, 2¾ pounds. (No. 48.) Price, each..$1.75

No. 35T2219 Tonguing and Grooving Plane, as above, which will match board any thickness from ⅞ to 2¼ inch. Weight, 2¾ lbs. (No. 49.) Price, each..$1.75

Stanley's Bull Nose Plow and Matching Plane.

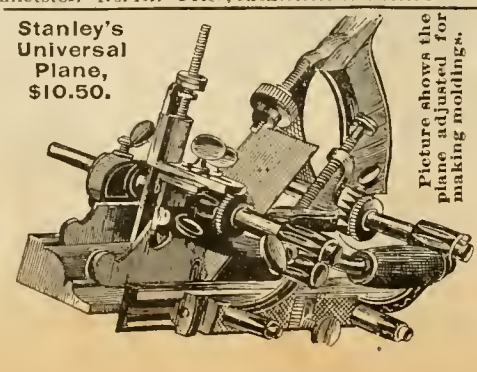


Two interchangeable front parts go with this tool. The form shown above is that of a Bull Nose Plow; and the cutter will easily work up to, and into a ½-inch hole, or any larger size—as in sash fitting, stair work, etc. With the other front on, it takes the ordinary form of a plow, and is adapted to all regular uses. With each tool eight plow bits (⅛, 3/16, ¼, 5/16, ⅜, 7/16, ½, ⅝-inch), and a slitting blade are furnished; also a tonguing tool, ¼-inch.

No. 35T2223 Nickel plated, with ten tools, bits, etc. No. 143. Price, each.....$3.51

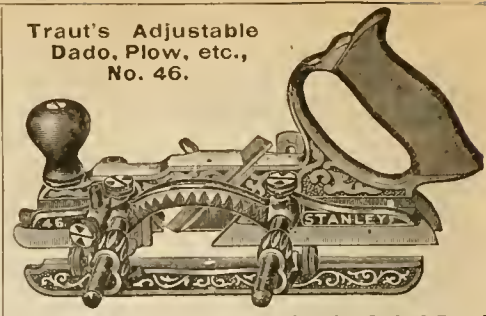
No. 35T2224 Nickel plated, with ten tools and a filletster. No. 141. Price, each.....$4.89

Stanley's Universal Plane, $10.50.



Picture shows the plane adjusted for making moldings.

Traut's Adjustable Dado, Plow, etc., No. 46.



No. 35T2230 Made by the Stanley Rule & Level Co. This tool is accompanied by eight plow and dado bits (3/16, ¼, 5/16, ⅜, ½, ⅝, ¾ and 1¼-inch), a filletster cutter, a slitting tool and a tonguing tool. All except the slitting blade are secured in the main stock on a skew.

Price, nickel plated, including eleven tools, plow bits, slitting and tonguing tools, etc.....$4.89

No. 35T2232 Adjustable Dado, No. 47. This tool has the same stock and arms as shown above, but it can be used as a dado only.

Price, nickel plated, including bits (⅜, ½, 5/8, ¾, 1¼-inch), and slitting tool (six tools).....$2.80

Stanley's Beading, Rabbet and Slitting Plane.

No. 35T2237 Stanley's Patent Adjustable Beading, Rabbet and Slitting Plane. (No. 45.) This in each of its several forms will do first class work, even in the hands of an ordinary mechanic. Directions for forming the different tools which can be made from this plane, accompany each plane, and are easily understood by anyone of ordinary intelligence. This plane embraces (1) beading and center beading plane; (2) rabbet and filletster; (3) dado; (4) plow; (5) matching plane; (6) sash plane, (7) a superior slitting plane. Each plane has seven beading tools (1/8, 3/16, ¼, 5/16, ⅜, 7/16, and ½-inch) ten plow and dado bits (1/8, 3/16, ¼, 5/16, ⅜, 7/16, ½, 5/8, ¾, and ⅞-inch), a slitting blade, a tonguing tool, and a sash tool. Weight, 6¼ pounds.

Price, complete with tools, as above, each....$5.50

Extras for No. 35T2237 Plane.

Reeding Cutters.

No. 35T2244 Size of Beads, either 1/8, 3/16 or ¼-inch, are same price. State size wanted when ordering.

To make beads.....	2	3	4	5
Price, each.....	14c	21c	28c	35c

Stanley's Floor Plane.

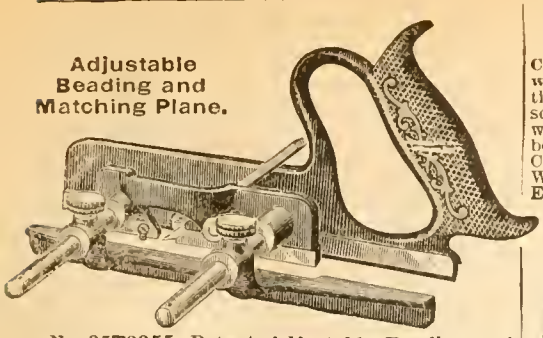
No. 35T2253 Stanley's Floor Plane. This tool will be found useful for planing floors, bowling alleys, skating rinks, decks of vessels, etc. The construction of the plane will enable the owner to do more work, with less outlay of strength, than can be done with any other tool. The weight of the plane is about 10 pounds, and the full length of the handle, 45 inches; 10¼ inches in length, 2⅝-inch cutter. Price, ea..$3.16

No. 35T2228 Stanley's Patent Universal Plane (No. 55), nickel plated, including molding plane, match sash, chamfer, beading, reeding, fluting, hollow, round plow, dado, rabbet, filletster and slitting plane, with 52 cutters, packed in four separate cases, and the whole outfit packed in a neat wooden box.

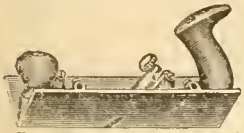
This tool, in the hands of an ordinary carpenter, can be used for all lines of work covered by a full assortment of so called fancy planes.

Price, complete.....$10.50

Adjustable Beading and Matching Plane.



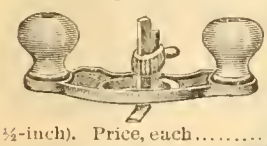
No. 35T2255 Patent Adjustable Beading and Matching Plane, No. 50. This plane will do all the work for which fourteen common wood bead planes would be required. Has spur cutter for use when beading across the grain. **By adjustment of the fence** center beading can be done any distance up to 5 inches from the edge of a board. Price, complete, including seven beading tools, sizes 3/8, 5/16, 1/4, 3/16, 5/16, 1/8-inch and a pair of 1/4-inch matching tools. Price, each.....**$2.80**



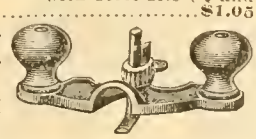
No. 35T2258 Core Box Plane. This plane is constructed so that the sides can be extended by additional sections, 2½ inches wide until a diameter of 10 inches can be worked if desired.

Price (with one pair of additional sections), for working semi-circles, up to 5 inches diameter, each.....**$2.80**

No. 35T2261 Extra Additional Sections, for working large diameters. Price, per pair.....**70c**



No. 35T2264 Stanley's Woodworkers' Router Plane No. 71½, with closed throat. Nickel plated stock, with steel bits (¼ and ½-inch). Price, each.....**$1.05**

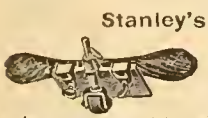


No. 35T2265 Stanley's Router will smooth the bottom of grooves, panels or all depressions below the general surface of any wood work, and will rapidly rout out mortise for sash, frame, pulleys, etc. The bits can also be clamped to the back side of the upright post and outside of the stock; in this position they will plane into corners which cannot be easily reached with any other tool; has iron stock nickel plated, and steel bits (¼ and ½-inch). Price, complete.....**$1.30**

No. 35T2273 Single Handed Beader, for beading, reeding or fluting diagonal lines, etc. Nickel plated, with six steel cutters and one blank. Price, each.....**52c**

No. 35T2275 Stanley's Universal Hand Beader, for beading, reeding or fluting straight or irregular surfaces and for **all kinds of light routering,** with a square gauge for straight work and an oval gauge for curved work. Both ends of the cutters are sharpened, thus embracing in a compact form six ordinary sizes of beads, four sets of reeds, two finters, and a double router iron (size, ⅛ and ¼ inch). Weight, 1 lb. 10 oz. Price, nickel plated.....**70c**

Stanley's Wood Scraper.

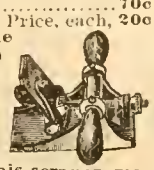


Stanley's Wood Scraper can be adjusted to any desired pitch, and may be worked toward or from the person using it. The roller acts as a support to relieve the strain on the wrist and hands of the workman. The handle can be detached for working into corners.

No. 35T2280 Scraper, nickel plated, with handle and roller, 4-inch blade.....**70c**

No. 35T2281 Cast Steel Blades. Price, each, **20c**

No. 35T2284 Stanley's Adjustable Veneer Scraper No. 12; 3-inch cutter. Price, each.....**$1.57**



No. 35T2287 Stanley's Cabinet Scraper. The blade of this scraper may be sprung to a slight curve by the thumbscrew shown at the center of cut, which will be found a great advantage in working with this tool. Raised handles, 11 inch, 2¾-inch blade. Price, each.....**70c**

No. 35T2290 Stanley's Belt Makers' Plane. This tool is used by belt makers for chamfering down the laps of a belt before fastening them together. 2⅜-inch cutter. Price, each.....**$1.40**

Wood Screw Cutter.

No. 35T2295 Wood Screw Cutter. Wood screw cutters will be found useful in cutting wood screws for hand screws, and in joining wood work, furniture, etc.; cuts both male and female thread.

OUR NEW LINE OF WARRANTED AXES.

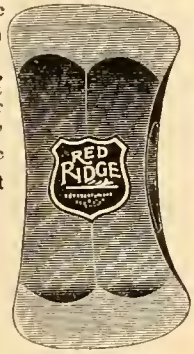
OUR LINE OF AXES this season is selected from the most popular patterns of the oldest and best known axe makers in the world. They are warranted against defects in material or workmanship. All have taper eye, which is larger on the outside. This binds the handle and prevents its getting loose. The cheapest axe we sell is made from just as good material as is used in our best axe, and it is made and tempered with the same care. The difference in our price represents the difference in cost of labor in making. While our Red Ridge will give satisfaction, our Hubbard's Hollow Ground Lippincott Brand will chop easier and is well worth every cent of the additional cost. **We also give you the exact weights you want.** You can have a dozen all one weight if desired; you don't have to take them as packed assorted by the manufacturers.

REMEMBER. Every axe we sell is warranted.

Red Ridge, Michigan Pattern Axe.

No. 35T2677 Red Ridge, Michigan Pattern Axe. This axe is handsomely finished in red with polished bit. In its manufacture a full portion of the best quality crucible steel is used. Each axe is carefully tempered by hand, is hand hammered and carefully inspected in every process of manufacture. The special bevel in this axe enables it to enter and leave the timber with the least possible resistance. Aside from this valuable feature, it is larger than the ordinary axe of the same weight, which makes it well balanced. Weight, 3, 3½, 3¾, 4, 4½ and 5 pounds. Price.....50c

Red Ridge, Michigan Pattern Double Bit Axe.



No. 35T2678 Red Ridge, Michigan Pattern Double Bit Axe. Is made in like manner and finish as above. Weight, 3½, 3¾, 4, 4½ and 5 pounds.
Price, each.....70c

Red Ridge, Single Bit Handled, Michigan Pattern Axe.

No. 35T2679 Red Ridge, Single Bit Handled, Michigan Pattern Axe. Same as described above, with a good hickory handle, correctly put in. Weight, not including handle, 3½, 4 and 4½ pounds. Price....63c

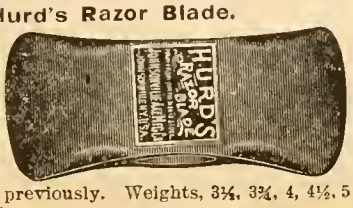
Hunt's Superior Axes. Yankee Pattern.

No. 35T2680 These are finished in black with polished bit. The first axe of this brand was manufactured from best refined tool steel in 1826 and the company has been most careful to maintain the high reputation it has always enjoyed. Each one is hand tempered and carefully inspected before leaving the factory. Weights are 3, 3½, 3¾, 4, 4½ and 5 pounds.
No. 35T2680 Price, each....55c

Hurd's Razor Blade Single Bit Dayton Pattern Axe.

No. 35T2682 Hand made, natural gas temper finish. This axe has been on the market and been recognized as one of the highest quality axes as far as quality and workmanship goes for many years. It is made with a taper eye, which prevents it getting loose on the handle. Each axe is hand tempered and closely examined before leaving the factory. Weights, 3, 3½, 3¾, 4, 4½ and 5 pounds.
No. 35T2682 Price, each..55c

Hurd's Razor Blade.



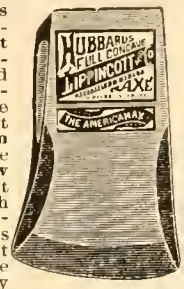
No. 35T2683 Hurd's Razor Blade Double Bit Wisconsin Pattern Axe; same hand made natural gas temper finish as single bit described previously. Weights, 3¼, 3¾, 4, 4½, 5 and 5½ pounds.
No. 35T2683 Price, each.....75c

The Jamestown Axe, Western Crown Pattern.

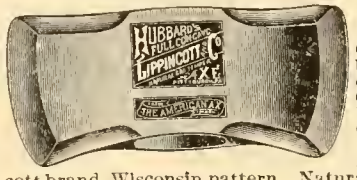
No. 35T2686 Full polished and etched with blue phantom bevel. It has been in the market a number of years and the verdict of the choppers is that it is correctly made. Each axe is hand hammered and tempered by hand. It is so made that it enters and leaves the wood freely and will not become stubbed after grinding. Weight, 3, 3½, 3¾, 4, 4½ and 5 pounds.
Price, each.....57c

No. 35T2687 Jamestown Axe, double bit. Michigan pattern, quality and finish same as above. Weight, 3½, 3¾, 4, 4½, 5 and 5½ pounds.
Price.....80c

Our Best Axe.

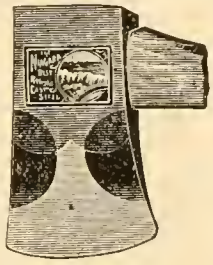


No. 35T2688 C.W. Hubbard's Patented Easy Chopping Hollow Ground Axe (Lippincott Brand, Dayton Pattern). Altogether a new innovation and promises to be the axe of the future, for the reason that from the peculiar construction of the bit **it is the easiest chopping axe in the world.** Look at the picture and notice that the axe is **hollow ground.** This feature enables it to enter and leave the wood with the least possible amount of resistance, and considerably less grinding is necessary to keep it in good condition than with the ordinary axe. The axe is finely finished and deeply etched, and is not only the best and easiest chopping, but the handsomest axe on the market today. All of our axes are made with a taper eye, which prevents them from becoming loose on the handle. Weights, 3, 3½, 3¾, 4, 4½ and 5 pounds. Warranted. Price, each.....63c



No. 35T2689 C. W. Hubbard's Patented Easy Chopping Hollow Ground Double Bit Axe. Lippincott brand, Wisconsin pattern. Natural gas temper. Weights, 3½, 3¾, 4, 4½, 5 and 5½ pounds.
Price, each.....86c

Boys' Handled Axe.

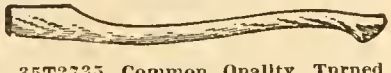


No. 35T2690 Niagara Boys' Handled Axe, made from best cast steel, handsomely finished in red with blue bevels. They are made with the same care and go through the same inspection as our men's axes. Weight, including handle, which is about 28 inches in length, is about 3¼ pounds.
Price, each.....42c

Hurd's Hunters' Hatchet.

No. 35T2693 Ideal black finish, made by the same skilled workmen who make our regular Hurd's axes. The handle is about 14 inches long. It is a convenient tool for household use as it takes the place of either axe, hatchet or hammer. It weighs only about 1½ pounds with handle. Price.....36c

Axe Handles.



No. 35T2735 Common Quality Turned Axe Handle, 36 inches long. Price, each.....9c
No. 35T2738 Standard Quality Turned Axe Handle, 36 inches long. Price, each.....14c

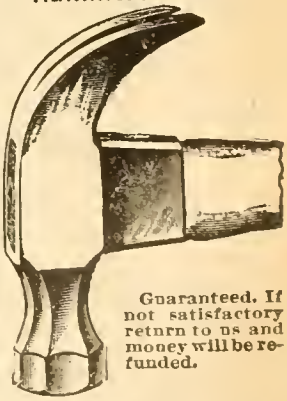
The Fulton Tool Co.'s Nail Hammers.



A real good hammer gives satisfaction to the user. A poor hammer is about the meanest thing in the tool line. We sell the best hammers made and at prices that are right.

No. 35T2800 The Fulton Tool Co.'s Brand Nail Hammer. Octagon neck and poll. Made of the **very best tool steel; finely polished and nickel plated. They are proportioned right;** they hang right; claws are right shape to draw a nail without breaking the claw; temper is right. Polished hickory handle.

Size.....	1	1¼	2
Weight, without handle.....	1¼ lb.	1 lb.	18 oz.
Price, each.....	59c	56c	54c

Guaranteed. If not satisfactory return to us and money will be refunded.

Nail Holding Hammer.

By the improved form of the groove this hammer will hold any size or shape of cut or wire nails. With it one can drive nails beyond ordinary reach.

No. 35T2803 Nail Holding Hammer, made from the best quality, crucible steel. Only one size and shape made. Weight, 1 lb. 3 oz., without handle.
Price, each, with handle.....73c

Wedge Plate Hammer.

No. 35T2806 Wedge Plate Hammers are forged from the best cast steel; handles of the best second growth hickory. The malleable wedge plate strengthens the handle and at the same time keeps the head from getting loose or coming off. We guarantee every hammer to be first class. Weight of head, 1 pound; bell face. Each, 52c

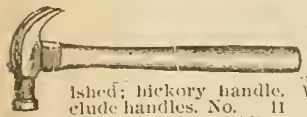
No. 35T2807 Same hammer, plain face. Each, 52c

David Maydole's Nail Hammers.

Maydole's Hammers are made from the very best of crucible cast steel. The claws and face are not tempered the same, but each to the proper temper for the work it is required to do. The eye is left soft, so it never splits or cracks at the eye. The handles are best second growth hickory (selected stock). Every hammer is fully guaranteed.

No. 35T2810 The Genuine David Maydole's Nail Hammers. Adze eye, plain face, polished hickory handles. Weights do not include handles.

No.	1	1½	2	3
Weight	1¼ lbs.	1 lb.	13 oz.	7¼ oz.
Price, each.	63c	58c	53c	48c



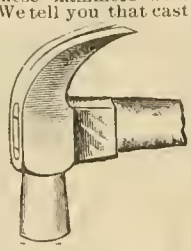
No. 35T2811 The Genuine David Maydole's Nail Hammers. Adze eye, bell face, polished; hickory handle. Weights do not include handles.

No.	11	11¼	12	13
Weight	1 lb. 3 oz.	1 lb.	12 oz.	7 oz.
Price, each	64c	59c	54c	49c

Bell face hammers are rounded on the face. They do not slip from the head of the nail, and there are no sharp corners to mar the surface of the wood when nail is driven home.

Forged Steel Nail Hammers.

The following Hammers, No. 35T2815 and No. 35T2816, are forged from the best cast steel and are warranted against flaws and not to be soft. They are not so highly finished and polished as the higher priced goods, but for common use they give excellent satisfaction. Don't compare these hammers with cast iron goods like No. 35T2820. We tell you that cast iron hammers are no good and you will find them so. We tell you that these hammers are all right and you will not be disappointed if you buy one.



No. 35T2815 Adze Eye Plain Face, Forged Cast Steel Nail Hammer, warranted against flaws and not to be too soft.

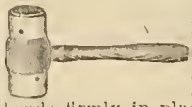
Vulcanized Fiber Head Mallet.



No. 35T2861 Thoroughly kiln-dried wood, body and handle. Handle screws in. The bands are of malleable iron, riveted to the body, and tapering on the inside to hold the fiber heads firmly in place. The fiber heads are sufficiently elastic to form a cushion, relieving the arm from the jarring occasioned by the force of the blow.

Diameter of face, inches..	2	2½	3	3½
Price, each	34c	39c	47c	63c

Chisels and Gouges.

CONDITIONS OF WARRANTY.

We warrant all chisels sold by us to be perfect when they leave the store, so far as the material and workmanship are concerned. If a tool proves too soft and bends on the edge or breaks in consequence of a flaw in the steel, and is returned to us within 30 days from date of purchase, a new tool will be given in exchange. If it shows abuse or is broken where the steel is sound, it will not be exchanged.

No. 35T2897 This is a new invention for holding chisels, plane irons, etc., while grinding them. When put in the holder and brought to the right bevel with the adjusting screw, **nothing is left to do but to bear it on the stone,** and it will grind all right without further care.
Price, each..... 65c

Buck's Chisels.

Buck's Chisels and Gouges have attained a reputation for excellence of their fine cutting qualities known everywhere. When you get a tool stamped "Buck" you are getting the **finest tempered, keenest cutting tool that can be bought.** Three generations have made the work of forging, hardening and tempering edge tools a practical life study, and now have attained a standard that cannot be excelled. **All goods warranted against flaws and not to be too soft.** Do not condemn the cutting quality of any new tool until you have ground it more than once, as you will often find a perfect edge on the second if not on the first grinding.

No. 35T2900 Buck's Tanged Firmer Chisels, ground sharp and honed, with polished appletree handles. The 1-inch chisel blade is 5½ inches long from the bolster. Other sizes in proportion. Warranted.

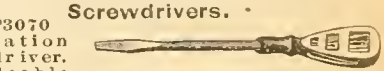
No. 35T3056 Bailey's Chamfer Spoke Shave, iron handles, 1½-inch cast steel cutter; chamfer gauge is adjusted by two thumbscrews in handles and will accurately chamfer any width up to 1½ inches. Weight, 14 ounces. Price, each..... 22c

Stanley's Universal Spoke Shave.

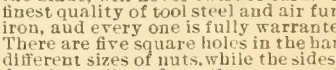
No. 35T3059 Stanley's Universal Spoke Shave. Both handles are detachable, and either of them can be screwed into a socket on top of the stock, thus enabling the owner to work into corners, or panels, as no other spoke shave can do. This spoke shave has two detachable bottoms, adapting it equally well to circular work or straight; and by means of a movable width gauge, the tool can be used in rabbeting. Nickel plated, rosewood handle. Price, each..... $1.05

No. 35T3060 Goodell's Spoke Shave, rosewood handles, 2-inch cast steel cutter; the angle of the knife is such that it cuts instead of scraping the grain of the wood; either handle may be removed to work in close places; will work in smaller circles than any other shave made. Price, each..... 63c

Screwdrivers.



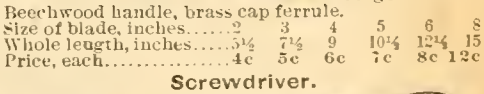
No. 35T3070 Combination Screwdriver. The malleable handle of the driver is forced on by a powerful press; and there being a series of grooves cut on the end of the blade, will never twist or turn. It is made of the finest quality of tool steel and air furnace malleable iron, and every one is fully warranted in every way. There are five square holes in the handle for turning different sizes of nuts, while the sides can be used for drawing nails and starting screws. Length of blade 5 inches. Price, each..... 20c



No. 35T3073 Screwdrivers, Cast Steel forged blades. Beechwood handle, brass cap ferrule.

Size of blade, inches	2	3	4	5	6	8
Whole length, inches	5½	7½	9	10¼	12¼	15
Price, each	4c	5c	6c	7c	8c	12c

Screwdriver.



No. 35T3074 Screwdriver, beech handle, capped ferrule, round shank blades. Shank is diamond shape with wings (shown by dark line in illustration) and is forced in by heavy pressure, making it impossible to turn in the handle. The blades are forged from a special grade of tough steel and great care is taken to secure the proper temper.

Length of blade, inches	2	3	4	5
Price, each	3c	4c	5c	6c
Length of blade, inches	6	8	10	12
Price, each	7c	9c	12c	16c

Champion Screwdrivers.

No. 35T3077 The Genuine Champion. Made by Tower & Lyon. **We guarantee every blade not to turn, pull out or develop any imperfections in temper, quality or finish.** Handle is dyed rosewood and has a high glossy finish. Ferrule and blade polished.

Size of blade, inches	3	4	5	6	8	10

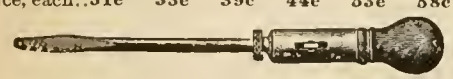
Price, each	15c	20c	25c	27c	36c	45c

No. 35T3081 ChallengeScrewdriver, forged from a very tough grade of crucible cast steel. Rosewood finished handle steel ferrule. This screwdriver will stand the most severe usage and is warranted.

Size of blade	3	4	5	6	8	10
Whole length, inches.	7¼	9	11¼	12¼	15	17
Price, each	11c	13c	16c	19c	25c	31c

No. 35T3083 Yankee Ratchet Screwdriver. Right and left hand, and rigid. The materials and workmanship are of superior quality in every detail. The friction in ratchet mechanism is so slight as to be hardly felt, the backward movement is as easy as in a good stem winding watch and just as noiseless. When a screw is screwed in it stays where put, and is not screwed out when handle is turned back. For right hand or to ratchet a screw in, push the slide to end of slot towards bit; for left hand or to ratchet a screw out, push the slide towards handle of driver. If slide is placed midway between ends of slot, the blade is held rigidly and the driver can be used as an ordinary screwdriver with fixed blade. Made in the following sizes:

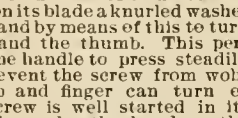
Inches	4	5	6	8	10	12
Price, each	31c	33c	39c	44c	53c	58c

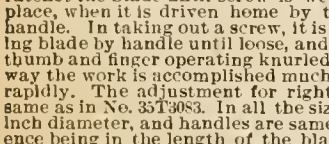


No. 35T3085 Yankee Ratchet Screwdriver, right and left hand and rigid, with finger turn on blade. **A light blade screwdriver for small screws in electric work.** It has on its blade a knurled washer as shown in illustration, and by means of this to turn the blade with a finger and the thumb. This permits the hand holding the handle to press steadily against the screw and prevent the screw from wobbling, while the thumb and finger can turn or ratchet the blade until screw is well started in its place, when it is driven home by the hand on the handle. In taking out a screw, it is started by turning blade by handle until loose, and then run out by thumb and finger operating knurled washer. In this way the work is accomplished much more easily and rapidly. The adjustment for right or left hand is same as in No. 35T3083. In all the sizes the blade is $\frac{5}{32}$ inch diameter, and handles are same, the only difference being in the length of the blades. The material and workmanship are of superior quality in every detail. Every tool is guaranteed. Made in the following sizes:

Inches	2	3	4	5
Price, each	25c	28c	30c	32c

No. 35T3086 Yankee Ratchet Screwdriver No. 12 is made for the especial use of gunsmiths, electricians and other mechanics requiring a strong screwdriver with a short stub blade. It is right and left hand and rigid. Made in one size only. Blade, $\frac{5}{16}$ inch in diameter, 1½ inches long. Entire length of screwdriver, 5¾ inches. Price, each.....37c





No. 35T3087 Yankee Pocket Magazine Screwdriver is made with four detachable blades of varying widths and thicknesses to suit different size screws. The blades are kept in magazine formed by handle. The tool is small and convenient to carry in the pocket, measuring when closed only 3 inches long and ⅝ inch in diameter and weighing only 2 ounces. It is made of steel, handsomely polished and nickel plated.
Price, each 43c

Yankee Spiral Ratchet Screwdriver.

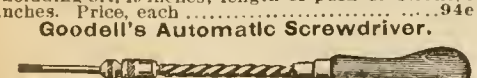
Yankee Spiral Ratchet Screwdriver, right hand only and rigid. Is designed to push or ratchet screws into place, but not to take them out in that way. It is arranged to be used as a rigid driver by simply moving shifter to opposite end of slot. Three bits are furnished with each tool.

No. 35T3091 Size 1. Extreme length extended, including bit, 14 inches; length of push or stroke, 4 inches. Price, each.....73c

No. 35T3092 Size 2. Extreme length extended, including bit, 17 inches; length of push or stroke, 5 inches. Price, each.....84c

No. 35T3093 Size 3. Extreme length extended, including bit, 19 inches; length of push or stroke, 6 inches. Price, each 94c

Goodell's Automatic Screwdriver.



Goodell's Automatic Screwdriver can be used as a spiral ratchet or plain screwdriver.

No. 35T3096 Goodell's Spiral Screwdriver No. 1, stained cherry handle. Length, closed, 7¼ inches; open, 11½ inches, with three forged steel bits.
Price, each.....69c

No. 35T3097 Goodell's Spiral Screwdriver No. 2, stained cherry handle. Length, closed, 9 inches; length, open, 13 inches; with three forged steel bits.
Price, each 79c

Reversible Automatic Screwdriver.

No. 35T3100 Goodell's Reversible Automatic Interchangeable Screwdriver No. 22. The simplest, most compact. The strongest and in every way the most practical tool for both driving and drawing screws automatically. It has two separate and distinct spirals, each working entirely independent of the other; each furnished with three blades. Weight, 14 ounces. Price, each.....$1.07

Drill Attachment for Goodell's Automatic Screwdrivers consists of a chuck and 8 drill points as shown in illustration. The chuck is same as is used on **Goodell's Automatic Drill.** The shank is steel milled to fit the socket of the screwdriver, for which it is intended. This attachment converts the automatic screwdriver into an automatic drill.

No. 35T3101 Drill Attachment, Size 1, fits Goodell's Automatic Screwdriver No. 1. Our catalogue No. 35T3096. Price, for attachment with eight drill points.....47c

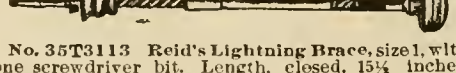
No. 35T3102 Drill Attachment, Size 2, fits Goodell's Automatic Screwdriver Nos. 2 and 22. Our catalogue Nos. 35T3097 and 35T3100.
Price, for attachment with eight drill points...47c

Our $1.10 Spiral Ratchet Screwdriver.

No. 35T3106 Yankee Spiral Ratchet Screwdriver, right and left hand, and rigid; can be used as a rigid screwdriver in any part of its length, as well as to push or ratchet screws in or out; convenient in size and of light weight, yet stronger in these vital points than any similar tool now made. Neither pawls nor ratchets can bend, break or get out of order. The friction in ratchet mechanism is so slight as to be hardly felt, the backward movement, like our **Yankee Ratchet Driver,** is as easy as in a good stem winder, and quite as noiseless. The nuts working in spiral are of brass and with the spiral grooves in rod are so designed that the wear has been reduced to a minimum. A long continued test in our factory shows that after driving fifty thousand screws with one tool there is no perceptible wear in the nuts. The chuck for holding the bits is simple in construction and positive in its hold on bits, and will outlast any other chuck made. **Three bits are included with each tool.** The extreme length of tool with bit in chuck is 13¾ inches when closed, and 19¼ inches when extended. Price, each.....$1.10

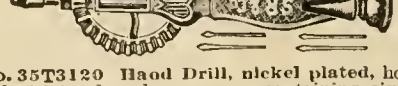
No. 35T3107 Yankee Chuck with drill points, for use in No. 35T3106 Yankee Spiral Ratchet Screwdriver. Eight drill points, $\frac{1}{16}$-inch to $\frac{1}{4}$-inch inclusive, are furnished with each chuck. The chuck and eight drill points are put up in a small round wooden box.
Price, per set of 1 chuck and 8 drills.....38c

No. 35T3112 Reid's Lightning Brace, size ..., with two screwdrivers, bits and one boring bit. Length, closed, 12¼ inches; length, extended, 21¼ inches. Weight, 12 ounces.
Price, each.....$1.07



No. 35T3113 Reid's Lightning Brace, size 1, with one screwdriver bit. Length, closed, 15¼ inches, extended, 27 inches. Weight, 1 lb. 10 oz. Each.$1.34

Hand Drills.



No. 35T3120 Hand Drill, nickel plated, hollow head with hardwood screw cap; containing six drill points. Length, 10¼ inches. Weight, 14 ounces.
Price, each.....39c

No. 35T3121 Extra Drill Points for above hand drill. Price, per set of six.....10c

No. 35T3125 Goodell's Hand Drill, made of malleable iron with steel spindle and rosewood head and handle. The handle is hollow and contains six drill points of various sizes. **The jaws are of forged steel and will hold perfectly drill shanks of any shape from $\frac{1}{32}$ to $\frac{1}{8}$ inch in diameter.** Each..$1.00

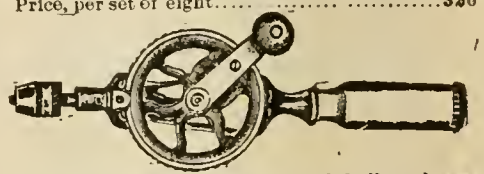
No. 35T3126 Extra Drill Points for above stock.
Price, per set of six.....28c

No. 35T3127 Millers Falls Hand Drill No. 1.
Malleable iron frame, steel spindle, hollow cocobolo handle, which contains eight fluted drill points, chuck is nickel plated and has three jaws, resting in solid sockets, and there are no springs to get out of place or out of order. They hold drills from 0 to $\frac{1}{16}$. An extra handle, as shown in illustration, is furnished with this drill. Price, including 8 fluted drill points, Price, each.....$1.03

No. 35T3132 Extra Drill Points for above drill.
Price, per set.....32c

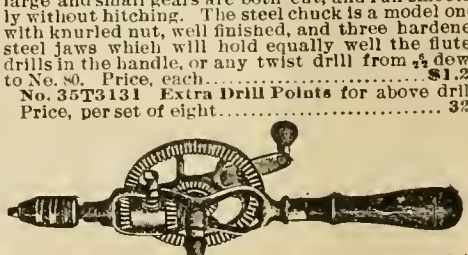
No. 35T3128 Millers Falls Hand Drill No. 5.
Malleable iron frame, steel spindle, hollow cocobolo handle which contains eight fluted drill points. Chuck is nickel plated and has three jaws resting in solid sockets, and there are no springs to get out of order. It is double geared, and is provided with a wide rim gear, to be grasped between thumb and fingers when the drill is used for delicate work. In this manner it can be run without liability of breaking points. Length over all, 11½ inches. Weight, 20 ounces. Price, including eight fluted drill points, $1.23

No. 35T3129 Extra Drill Points for above drill.
Price, per set of eight.....33c



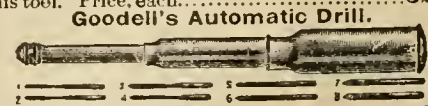
No. 35T3130 The handle is of hollow brass, nickel plated, used as a receptacle for the drill points, each contained in a separate numbered compartment. **Each drill is fitted with eight fluted drill points. The frame is of malleable iron, strong and light.** The large and small gears are both cut, and run smoothly without hitching. The steel chuck is a model one, with knurled nut, well finished, and three hardened steel jaws which will hold equally well the fluted drills in the handle, or any twist drill from $\frac{1}{16}$ down to No. 80. Price, each.....$1.28

No. 35T3131 Extra Drill Points for above drill.
Price, per set of eight.....32c



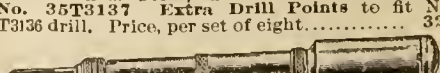
No. 35T3135 This drill embraces features never before used upon tools of this character and is unquestionably the finest ever produced. It has double gears, two speeds, and a chuck, with capacity to ⅜-inch, as noted below. **Frame,** malleable iron, japanned. **Handle,** polished hardwood, screw cap. **Gears,** cut teeth. **Speeds,** it has two speeds, changed by turning the nut on the frame marked "F" and "S." **Chuck** three-jawed, capacity 0 to ⅜-inch, has knurled nut, nickel plated, well made and accurate. Spindle runs in a hardened steel cone bearing. No drill points are furnished with this tool. Price, each.....$2.09

Goodell's Automatic Drill.



No. 35T3136 Goodell's Automatic Drill, made of brass, nickel plated, with eight drill points. There is a receptacle for each drill in the handle, and but one drill need be taken out and that the exact size wanted, as each receptacle is marked with size of drill contained. Price, each.....$1.10

No. 35T3137 Extra Drill Points to fit No. 35T3136 drill. Price, per set of eight.....32c



No. 35T3138 Yankee Automatic Drill. Bores holes in hard or soft woods without splitting. Pushing handle down revolves the drill, and a spring pushes handle back to its place. During the return movement the drill point revolves backward to clear chips, etc. The magazine in this drill is opened by loosening nut at its lower end, causing interior of handle to move up and expose all the drill points in plain sight, thus enabling the user to quickly select and remove drill required. The tool is nickel plated and finely finished. The material and workmanship throughout are of the best. Eight drill points are furnished with each tool, one each $\frac{1}{16}$, $\frac{5}{64}$, $\frac{3}{32}$, $\frac{7}{64}$, $\frac{1}{8}$, $\frac{9}{64}$, $\frac{5}{32}$, $\frac{11}{64}$ inch. The entire length of tool, inclusive of drill, as in illustration, is 11⅜ inches. Price, each.....$1.13

No. 35T3140 Yankee Automatic Drill, is of same construction as our No. 35T3138, but without a magazine for the drill points and a wood in place of a metal handle, hence lower in price. The drill points are put up in a small round wooden box. All metal parts other than the spiral spindle are nickel plated and finely finished. The material and workmanship throughout are of the best. Eight drill points are furnished with each tool, one each 1/16, 5/64, 3/32, 7/64, 1/8, 9/64, 5/32 and 11/64 inch. The entire length of tool, inclusive of drill, as in illustration, is 11¾ inches. Each...80c

No. 35T3141 Extra Drill Points to fit drills Nos. 35T3138 and 35T3140, in sets of 8, sizes, 1/16, 5/64, 3/32, 7/64, 1/8, 9/64, 5/32 and 11/64. Price, per set of 8 drills.....32c
Price, each (any size).....4c

Yankee Reciprocating Drill.

No. 35T3142 Yankee Reciprocating Drill, is designed for use in drilling in steel, iron, brass and other metals, as well as all varieties of woods. It is so constructed that the drill runs continuously to the right, during both the forward and backward movement of the driver, hence drills continuously. The head of the tool is provided with ball bearing to reduce the friction. The chuck is of new design, has three jaws, is accurate, and stronger and more durable than similar chucks and will not get out of order. No drill points are furnished with this tool. The chuck will hold any drill with shanks 3/8-inch diameter or less. (See No. 35T3572.) The materials and workmanship throughout are of the best, and each tool is guaranteed. Price, each. ..$1.67

Millers Falls Ball Bearing Breast Drills.

No. 35T3154 Millers Falls Ball Bearing Breast Drill No. 12. Changeable gear from even to speeded about 3 to 1. The driver wheel is 5 inches in diameter. The gears are cut from solid metal. A roller is placed at back of drive gear, which makes it equally as firm and substantial as a double geared drill. The crank is adjustable to three different lengths. The chuck is nickeled and has forged steel alligator jaws suitable for both round and square shanks. They hold from 5/16 up. The handles are cocobolo. The level attachment enables the operator to see when the drill is being held true. Everything about the tool will be found durable and nicely finished. Price, each.....$2.05

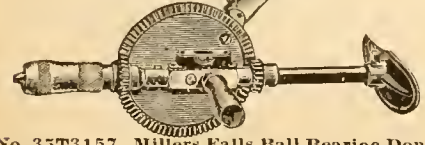
Goodell's Drill.

No. 35T3155 This Goodell's Breast Drill is double geared, one gear remaining idle and acting as an anti-friction bearing when the other is at work. **All gears have cut teeth. It has two speeds** and can be changed from **fast to slow** by turning the thumbscrew until the letter representing desired speed is nearest the chuck. **The breastplate** is adjustable and its position can be changed if desired. The chuck has two sets of jaws, one for square shanks and one for round shanks. Price, each..$2.20

Millers Falls Ball Bearing Breast Drills.

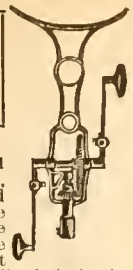
No. 35T3156 Millers Falls Ball Bearing Breast Drill No. 18, is the same as preceding drill, except it has a three-jaw chuck for round shanked points (only) from 1/16 to ¼ inch inclusive. It will center them accurately. Price, each.....$2.87

Note Level Attachments.



No. 35T3157 Millers Falls Ball Bearing Double Geared Breast Drill, has a six-inch drive wheel giving speed at 4½ to 1. The gears are cut, the handles cocobolo, and the stock and chuck nickel plated. Note the level attachment to show when the tool is being held true, also the extension crank. Price, each $3.28

Our No. 35T3572 Straight Shank Drills can be used with drills Nos. 35T3125, 35T3130, 35T3135, 35T3155 and 35T3158. In description of each drill we tell the largest drill that can be used.



Double Crank Breast Drill.

It has very heavy cut gears, **speeded about two to one,** and double cranks, which are adjustable to any length, and by which the power and speed may be regulated as desired. **The breast plate is 12 inches long,** and curved to fit the shape of the body, thus preventing it from swinging around when in use. The hole in the spindle which receives the drill is ½-inch in diameter.
No. 35T3162 Price, each.....$4.10

The Marvel Drill.

Puts holes into iron and brass easier than the common brace and bit does into hardwood. A 3-foot chain is fastened at one end of the feed and loops into the other end between any two links, thus holding the drill to articles of variable size. This drill works on ball bearings. Almost all of the pressure is thus directed to the cutting spot. This is the reason that it cuts so easy.

No. 35T3165 Style A. Takes standard or half-inch round shank drill. See No. 35T3575. Price, each.....60c

No. 35T3166 Style B. Takes standard square shank, bit stock drill. See No. 35T3450. Price, each.....62c

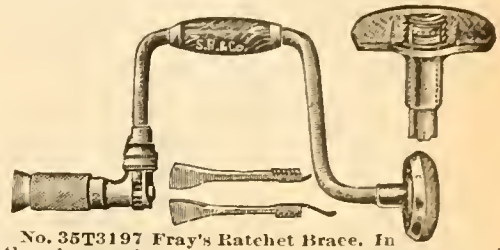
No. 35T3194 Ball Bearing Ratchet Brace. Long sleeve, cocobolo head, hardened steel jaws. They are made from the best material and are nicely finished. The head has ball bearings. Handles and head of rosewood. **All metal parts are elegantly finished and heavily nickel plated.** We have this brace in three sizes. The 8-inch sweep is made of 7/16-inch and the 10 and 12-inch sweep of ¼-inch cold drawn steel rod. 8-inch sweep, each, 82c; 10-inch sweep, each, 85c; 12-inch sweep, each.....87c



No. 35T3197 Fray's Ratchet Brace. In these braces the square shank of the bit fits into a socket and is driven thereby, the jaws, holding firmly by the round part of bit shank beyond the square, prevent its coming out. Crank, sleeve, jaws, ratchet and pawls are steel. Ball bearing heads. Heads and handles of cocobolo wood. Metal parts nickel plated. The hardened jaws open automatically as the sleeve is unscrewed until fully open, when a stop screw arrests the further motion of both sleeve and jaw; **has steel clad head. Fully guaranteed.**

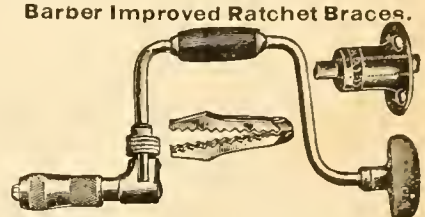
Barber Improved Ratchet Braces.



No. 35T3199 The Latest Improved Old Reliable Genuine Barber Ratchet Braces with alligator jaws and ball bearing head. Made by the Millers Falls Co. Jaws hold round or square shank drills or auger bits of all sizes. The sweep is made from steel. The jaws are forged from steel. The wood handle has brass rings inserted in each end so it cannot split off. The chuck has a hardened steel anti-friction washer between the two sockets, thus reducing the wear. The head has a bearing of steel balls, running on hardened steel plates, so no wear can take place, as the friction is reduced to the minimum. The brace is heavily nickel plated and warranted in every particular. They are made as nearly perfection as is possible in durability, quality of material and workmanship, and beauty of finish. The 10-inch sweep is best for general work. The 6-inch size is a favorite with electricians.

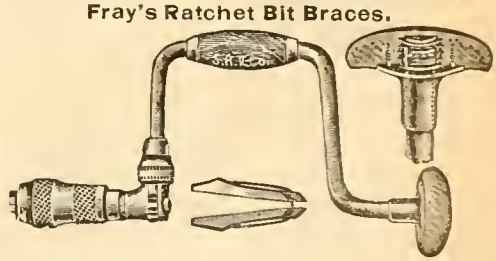
Fray's Ratchet Bit Braces.



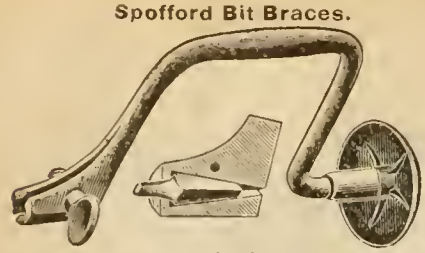
No. 35T3200 Fray's Ratchet Braces above illustrated are first class in every respect, and fully guaranteed. The sweep, pawls, jaws and ratchet are steel, handles and heads are cocobolo, all metal parts are nickel plated, and fully finished throughout. The peculiar features of these braces are the internal cam ring to operate the pawls, and the spring (of best music wire) attached to the jaws, **which give them perfect automatic action in operating when liberated by the unscrewing of the sleeve,** and in no way interferes with their fitting any shape bit or tool shank. Head has ball bearings as shown in illustration.

Sweep, inches	8	10	12	14
Price, each	$1.20	$1.30	$1.42	$1.52

YOU CAN DEPEND ON EVERY ARTICLE

in this our mechanical tool department, being exactly as it is illustrated and described, not the slightest misrepresentation. If you will look over the goods we catalogue, you will find every reputable manufacturer represented, goods that are known by their name all over the world, and you will also find that our prices are below all competition.

Spofford Bit Braces.



No. 35T3207 **Spofford Bit Brace with metal head. This is positively the strongest as well as the most simple brace manufactured.** It is furnished with a forged Bessemer steel thumbscrew, which will never strip or wear out. Will hold bits of any size and is made to stand wear and tear.

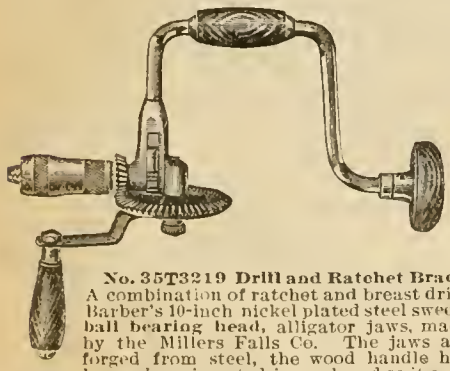
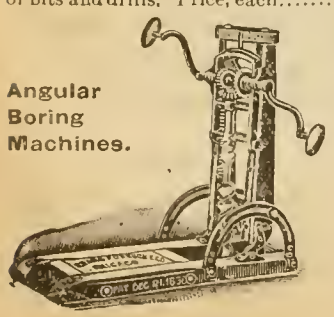
Drill and Ratchet Braces.



No. 35T3219 **Drill and Ratchet Brace.** A combination of ratchet and breast drill. Barber's 10-inch nickel plated steel sweep, **ball bearing head,** alligator jaws, made by the Millers Falls Co. The jaws are forged from steel, the wood handle has brass rings inserted in each end so it cannot split off. The chuck has a hardened steel antifriction washer between the two sockets, thus reducing the wear. The head has a bearing of steel balls, running on hardened steel plates, so no wear can take place, as the friction is reduced to the minimum. The brace is heavily nickel plated and warranted in every particular. The drill gear is detachable and **is easily and quickly adjusted.** Jaws hold all kinds of bits and drills. Price, each.....$2.46

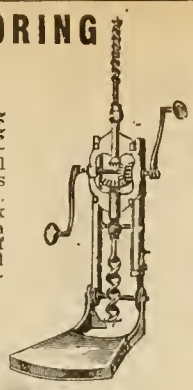
Angular Boring Machines.



Patent Boring Machine.

No. 35T3225 Adjustable to bore at any angle. Without augers. Price, each.....$2.69

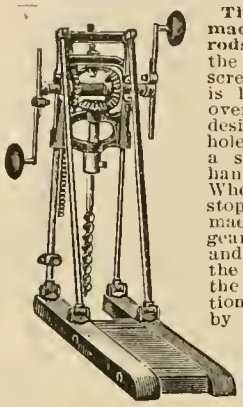
THE BOSS BORING MACHINE.



The Boss is rapidly taking the place of all other boring machines on the market, having advantages known to all that commend it to carpenters and ship builders everywhere. Gear gives speed on one chuck equal to that of cranks, and on another chuck one and one-half times that of the cranks. All iron except the base. Adjustable to bore at any angle.

No. 35T3226
Price, without augers.....**$3.75**

Millers Falls Boring Machine



The frame and braces are made of ½-inch round steel rods. Braces are attached to the rods at the top by a set screw. When this set screw is loosened the frame falls over, so as to bore at any desired angle. The depth of hole to be bored is fixed by a stop, as seen on the left hand upright rod in the cut. When the frame strikes this stop, lift the latch and the machine throws itself into gear by the use of a spring, and the auger is lifted out of the hole by continuing to turn the crank in the same direction, then it is dropped down by turning the crank back until the auger strikes the wood, when it is thrown out of gear, and proceeds to bore the next hole. As seen in the illustration, the machine has adjustable cranks which fully regulate its speed and power.
No. 35T3229 Price, without augers.....$6.14

Boring Machine Augers.

No. 35T3230 **Extra Quality Augers for above** or any other boring machine of standard make.

Bailey Auger Bits.

Rapid and Easy Cutting, Equally Good in Hard or Soft Wood or End Boring.

No. 35T3275 **The peculiar construction of Bailey Bits** gives them advantages over the ordinary twist, in that while all the cutting qualities are retained by leaving the head undisturbed, one-half of the twist is left out, making them single spiral, thus forming a large receptacle for the chips, removing the friction from the wall of the hole, and allowing the chips to pass up and out entirely free, which obviates the necessity of frequently withdrawing the bit to clear the hole. **A high grade of crucible steel** is used in them. Each bit is forged from the bar into shape between dies by trip hammer, which process makes the grain of the steel finer and tougher, thus insuring a better tool than can be made by the old process of twisting. **They are carefully made,** well finished, each bit being closely inspected before leaving the factory.

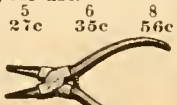
Price, each.....	23c	27c	35c	56c



No. 35T3711 Utica Drop Forge and Tool Co.'s Round Nose Spring Pliers. Forged from tool steel. Temper and quality the best. Jaws always open ready for use.

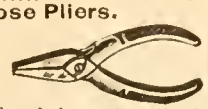
Length, inches.....	4	5	6
Price, each.....	23c	27c	35c

The Lodi Pliers.

No. 35T3712 The Lodi Flat Nose Pliers. A low priced, solid steel plier that is strong and serviceable. Nothing near as good has ever before been offered at twice the price we ask. They are light, but strong and stiff.

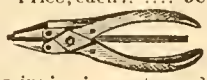
Size, inches.....	4	5	6
Weight, ounces.....	2	3	5
Price, each.....	5c	7c	9c

Paragon Flat Nose Pliers.



No. 35T3713 Paragon Flat Nose Pliers. This is a plier that will meet the requirements of mechanics who demand good tools. It has polished jaws, hardened and tempered and the entire plier is nickel plated. It is very stiff and strong and owing to its construction it will stand more "twisting" than you could reasonably expect in pliers of same size. The price is low, quality high. Fully warranted.

Size, inches.....	4	4½	5	5½	6
Weight, ounces..	2	3	3	4	5
Price, each..	9c	12c	14c	16c	18c

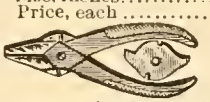


No. 35T3723 Parallel Pliers, flat nose, open throat, solid jaw, steel bolts. Nickel plated. The gripping is greater and the twisting strength is double that of any other plier made, mechanically perfect. **Quality equal to the best. A guarantee ticket is attached to each tool. The parallel action is perfect.**

Size, inches.....	4½	5½	6½	7½
Price, each.....	43c	55c	68c	94c

No. 35T3726 Parallel Pliers with round nose Jaws, otherwise like No. 35T3723. Fully guaranteed.

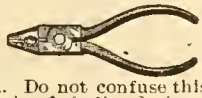
Size, Inches.....	4½	5½	6½
Price, each.....	44c	57c	69c



No. 35T3729 The Paragon Cutting Pliers are similar in general appearance to the Paragon flat nose plier. No. 35T3713 with addition of crucible steel wire cutter. They will easily and safely cut any wire that slots in cutter will take in. The cutters are interchangeable and if broken can be easily replaced at small cost. Polished jaws, all nickel plated. Fully warranted.

Size, Inches.....	5	6
Weight, ounces.....	5	6
Price, each.....	23c	32c

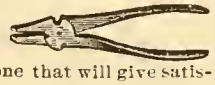
No. 35T3733 The Lodi Cutting Pliers are finished same as the Lodi Flat Nose Pliers with same style wire cutter as is shown in illustration of the Paragon Cutting Pliers. It is made one size only (5½ inch), and is far superior to any cheap cutting pliers heretofore offered. Price, each..... 12c



No. 35T3737 Utica Drop Forge and Tool Co.'s Combination Burner, Flat Nose and Side Cutting Pliers. Specially forged and tempered from selected tool steel. Do not confuse this with the cheap and inferior tools of similar designs. For house use and plumbing it is unequaled. Length, 5½ inches. Price, each..... 45c

No. 35T3739 Family Plier and Cutter and Gas Burner Plier. It's a good one for the money. Length, 5½ inches. Weight, 7 oz. Price, each, 15c

Buttons' Pliers and Cutters.



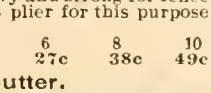
No. 35T3744 Buttoos' Pliers and Cutters. Forged steel; not as well made or as finely finished as our special Buttons' Pliers but one that will give satisfaction in general use.

Size, inches.....	4½	6	8	10
Price, each.....	17c	19c	25c	31c

No. 35T3745 Our Special High Grade Buttons' Pliers and Cutters. Made from the best tool steel that can be procured; made by skilled workmen and finely finished; will cut heavier wire than corresponding sizes made by other manufacturers. The cutters are tempered just right. Our 10-inch size is made extra heavy and strong for fence builders' use, and is the best plier for this purpose that can be produced.

Size, inches.....	4½	6	8	10
Price, each.....	25c	27c	38c	49c

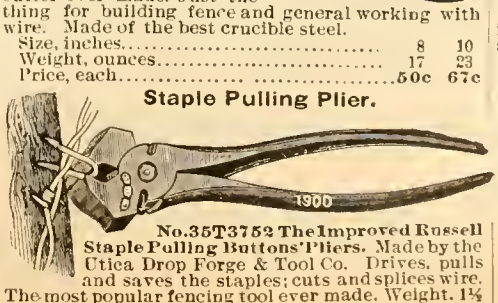
Plier and Cutter.



No. 35T3750 Plier and Cotter, is the most convenient combined plier and cutter ever made. Just the thing for building fence and general working with wire. Made of the best crucible steel.

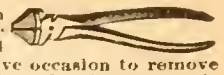
Size, inches.....	8	10
Weight, ounces.....	17	23
Price, each.....	50c	67c

Staple Pulling Plier.



No. 35T3752 The Improved Russell Staple Pulling Buttons' Pliers. Made by the Utica Drop Forge & Tool Co. Drives, pulls and saves the staples; cuts and splices wire. The most popular fencing tool ever made. Weight, 1½ pounds. Length, 10 inches. Price, each.....73c

Fence Pliers.

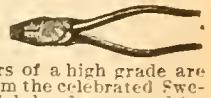


No. 35T3755 Combination Fencing Plier and Staple Puller. This tool will find ready use by those who have occasion to remove or repair wire fences. It is made with one staple puller, two hammers, two "Buttons" and one "Cronk" cutters. This tool is made of forged tool steel and is warranted in all respects. It is guaranteed to cut No. 8 hard or No. 6 soft wire. To pull staples it is only necessary to grapple the staple under the wire. Length, 11 inches. Weight, 1 pound.

Price, each..... 73c

No. 35T3756 Eureka Combination Plier; solid steel with tempered jaws and hardened tool steel cutters. This is a good tool at a low price, and is three tools in one: a plier, cutter and hammer. As a farmers' plier for wire fencing there is nothing in the market that can touch it at the price. Will cut any size of wire ordinarily used in fencing. Will drive a teupenny nail. Length, 9 inches. Weight, 8 ounces. Price, each.....20c

Swedish Side Cutting Pliers.



No. 35T3757 These tools are especially adapted for electrical work, such as telephone, telegraph and all purposes where side cutting pliers of a high grade are required. They are made from the celebrated Swedish electro boracic steel, which has been tested for years and found to be everything that is necessary to make a first class article, that will stand cutting the hardest kind of steel and iron wire, without affecting the cutting edge.

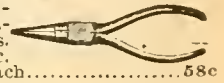
Length, inches..	4	5	5½	6	7	8
Price, each.....	35c	39c	45c	48c	62c	75c

Side Cutting and Splicing Pliers.

No. 35T3758 Is the same as 35T3757, with the addition of a splicing clamp in the handle, which takes the place of a connector; polished head and jaws; round edges.

Length, inches...	4	5	5½	6	7	8
Price, each.....	38c	44c	51c	54c	67c	88c

Utica Drop Forge & Tool Co.'s Long Chain Nose Side Cutting Plier.



No. 35T3759 Used by telephone manufacturers, machinists, jewelers, engineers, opticians, electricians, etc. Length, 5½ inches. Price, each.....58c

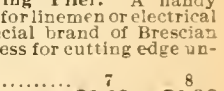
Utica Drop Forge & Tool Co.'s Jewelers' Long Chain Nose Plier.

No. 35T3760 Made from Brescian steel. Very much like the preceding plier, but has a finer or sharper point, and is lighter. 5½ inches long.

Price, each..... 39c

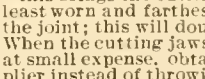
No. 35T3761 Utica Drop Forge & Tool Co.'s Knot Tying, Splicing and Side Cutting Plier. A handy tool for linemen or electrical workmen. Made from a special brand of Brescian steel. Toughness and hardness for cutting edge unequaled.

Length, inches.....	7	8
Price, each.....	$1.03	$1.26



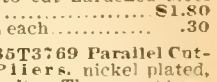
No. 35T3763 Utica Drop Forge & Tool Co.'s Patented Splicer and Side Cutting Plier. Length, 8 inches. Two tools in one; will last a lifetime. Forged from tool steel. Reversible and renewable jaws, and rounded sides and corners. When a lineman chips out or wears a plier in the corner next to the joint, his plier is practically useless, and his investment a dead loss. If the jaws of this plier become worn in the corner one can take them out and reverse them by placing the lower jaw in place of the upper and the upper jaw in place of the lower—this brings the cutting edge and corners which are least worn and farthest away from the joint, next to the joint; this will double the life of the cutting jaw. When the cutting jaws are entirely worn out one can, at small expense, obtain a new jaw, thus saving his plier instead of throwing the whole tool away. We warrant this plier free from defects, but cannot replace tools that break through misuse or carelessness. This tool is not guaranteed to cut hardened steel wire. Price, each..... $1.80

No. 35T3764 Extra Jaws, each..... .30



No. 35T3769 Parallel Cutting Pliers, nickel plated, steel bolts. These cutters have a shearing motion, making them easy to operate and insuring a clean, square cut. **A guarantee ticket is attached to each tool.**

Size, inches.....	5½	6½	7½
Price, each	86c	$1.04	$1.40



No. 35T3770 Lineman's Clamps or Connectors. Made from electro boracic Swedish steel. Spring tempered handles with round edges; will not wear out clothes. The best that mechanical skill can produce. Fully warranted. Length, 11 inches; full polished; for No. 3 wire and smaller, B. & S. gauge. Two oval and two round holes.

Price, each.....$1.25

No. 35T3771 Lineman's Clamps; same grade as above. Length, 11 inches; full polished; for No. 8 wire and smaller, B. & S. gauge. Four round holes. Price, each.....$1.20

Cutting Nippers.

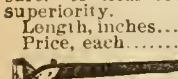
No. 35T3786 Diagonal Cutting Pliers. Peck, Stow & Wilcox make. Especially adapted for telegraph and telephone use. Forged steel, box joint. Length, 6 inches. Price, each....79c

Swedish Sampson Joint End Nippers.

No. 35T3787 This Nipper is nearly equal to any compound nipper. It is built for the most severe usage, and will, stand where other pliers of similar pattern, will give way. Made from the celebrated Swedish electro boracic steel. Will cut wire nails with impunity, and when through, will cut a piece of thin tissue paper by hand pressure. A trial order will convince you of their superiority.

Length, inches	5	5½	6	7	8
Price, each	44c	51c	63c	70c	84c

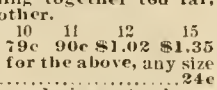


No. 35T3788 Wire Cutting Nippers, with removable jaws. The jaws can be taken off to be sharpened or new jaws can be replaced at little cost. A set screw through handles prevents jaws coming together too far, so one jaw cannot dull the other.

Size, inches	8	10	11	12	15
Price, each	68c	79c	90c	$1.02	$1.35

No. 35T3789 Extra jaws for the above, any size wanted. Price, per pair....24c
You must send sample when ordering extra jaws.

Improved Cutting Nippers.



Made by Peck, Stow & Wilcox Co. The jaws of these nippers are made from best cast steel, and each nipper is tested by cutting steel wire before leaving the factory. After withstanding such a test they are considered perfect, and are not warranted against breakage. The long handles give so great a leverage that they are liable to abuse by twisting and prying, and if any such breakage occurs it will be assumed it happens from unfair usage.

No. 35T3790 Size 0. Very large and strong, 2-inch jaws, 14 inches long. Price, each....$2.35
No. 35T3791 Size 1. Extra large size, 12 inches long. Price, each....$1.40

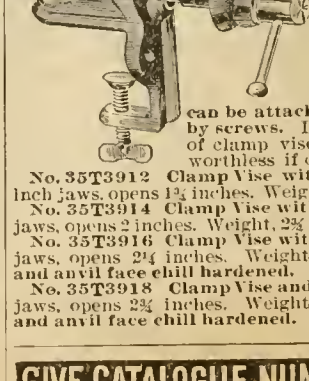
Hand Vise. Drop forged and tempered steel jaws, finished black, cherry handle; a first class tool in every respect.

No. 35T3904 Width of jaws, 1¼ inches; jaws open 1¼ inches. Weight, 14 ounces. Price....$1.00

No. 35T3905 Width of jaws, 1½ inches; jaws open 1½ inches. Weight, 18 ounces. Price....$1.20

Light Clamp Vises.



A very important improvement in this vise consists in wideoing the clamp at its junction with the body of the vise and providing the same with two countersunk screw holes, so in case the clamp is ever broken the vise can be attached to the bench by screws. In the ordinary style of clamp vises they are utterly worthless if clamp ever breaks.

GIVE CATALOGUE NUMBER IN FULL WHEN YOU WRITE YOUR ORDER

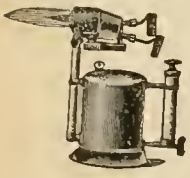
The Turner Light With a Match Gasoline Torches. Nos. 35T4098 to 35T4103.

This illustration shows method of heating the generator to start burner. Two common matches, held as shown, will do the work. Avoids dirt, soot and smoke, and is desirable for dentists or laboratory work.

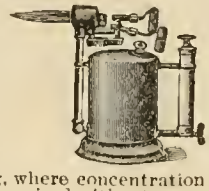
No. 35T4098 The Turner Gasoline Pocket Torch. Reservoir, 5 inches high, 1¾ inches in diameter. Brass, nickel plated. Lights with a match. Makes its own gas. This torch is a very useful Gasoline Blow Torch, operated under air pressure. It lights with a match and makes its own gas and is small enough to be carried in the pocket. The flame is clean and very hot, and can be adjusted from almost nothing to a flame six inches long. The capacity of the reservoir is about one-half pint. Furnished complete with bicycle pocket pump for making air pressure in the reservoir.
Price, complete..... .....$1.40

No. 35T4099 The Turner Gasoline Jewel Torch. Lights with a match; makes its own gas. A gasoline Bunsen burner. Reservoir, 3 inches high, 2½ inches in diameter, capacity about ½ pint; ¾ inch across the opening of burner; flame, clean, very hot, adjustable in size from almost nothing to 5 or 6 inches. The handle of torch contains pump for producing air pressure in reservoir. Made of brass, nickel plated.
Price, each.....$2.00

No. 35T4100 The Turner Gasoline Laboratory Torch. Lights with a match; makes its own gas. The burner is made with a swiveled connection so that the flame can be pointed up or down or in any direction. The flame is adjustable from almost nothing to 6 inches. The reservoir is 4 inches in height and 3¼ inches in diameter, and is of about 1 pint capacity. **The tripod is removable and may be lifted off when not needed.** Very handy for camping outfits. All kinds of boiling and frying can be done with this torch. The handle of torch is the pump for producing air pressure in the reservoir. Price, each. $3.00



No. 35T4102 The Turner Mogul Gasoline Brazing Torch No. 3. Reservoir 6 inches high, 4 inches in diameter; capacity, 1 quart. This torch is celebrated for producing the maximum degree of mechanical heat. It is a very high grade torch, and the mechanic who wants the best torch he can get for heavy work will appreciate the remarkable superiority of this torch. For outdoor work in windy weather it is unsurpassed. Price, each..... .....$5.35



No. 35T4103 The Turner Mogul Jr. Gasoline Brazing Torch No. 4. Reservoir 6 inches high, 4 inches in diameter; capacity, 1 quart. This torch is remarkable for its sharp pointed, concentrated brazing flame. The flame can be reduced to almost nothing and still maintain its brazing heat. It is unequaled on small work, in brazing or tempering, where concentration of great heat is required without overheating surrounding surfaces.
Price, each $5.30

Blow Pipe or Torch for Gasoline.

No. 35T4108 With this torch large or small flame can be used as desired. Made of brass, highly polished and lacquered. It is small enough to go in a tool bag, and is a favorite with electricians, painters, gasfitters, plumbers, etc.
Price, each.....$1.62

Blow Pipe.

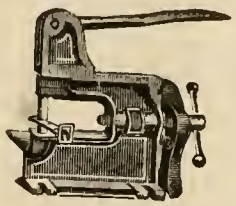
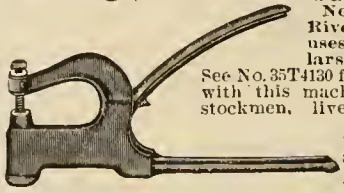
No. 35T4120 Riveting Machines are malleable iron, with case hardened polished steel working parts. This machine will set all lengths No. 35T4130, tubular, No. 35T4135 slotted, or shoe rivets without adjustment. Handy for farmers, liverymen, shoemen and harness men; being light, it can be carried anywhere, and harness repaired while on the horse. Weight, about 4 pounds.
Price, each... .....85c

Combination Riveting Machine and Vise.



No. 35T4123 Riveting Machine and Vise combined. Malleable iron, with case hardened polished steel working parts and steel file faces in vise jaws. This machine will set all lengths, No. 35T4130, tubular, split shoe rivets without change. No adjustment required. It is useful for many purposes aside from riveting, having a strong vise for holding rods, bolts, etc., or saw when filing, and handy used as a clamp if stitching is necessary. Weight, 6 pounds. Price, each .. $1.45

Riveting Machine for Tubular Rivets.



No. 35T4126 Riveting Machine uses Hollow Tubular steel rivets only. See No. 35T4130 for rivets to use with this machine. Farmers, stockmen, liverymen, draymen, teamsters, threshermen and millmen will find this little article a cheap and convenient tool. **It will repair your harness or belting in the barn, field or shop** without the use of other tools. Harness can be mended on a nervous horse, as there is no pounding to disturb it. Simply pulling down the lever punches the hole and completes the job. Weight, 3½ pounds. Each.....26c

No. 35T4130 Hollow Tubular Steel Rivets, japanned for use with above or similar riveting machines, put up in boxes containing 50 rivets, assorted lengths, from ⅜ to ½ inch long, for general repair work on harness, etc. Price, per box..... .6c

No. 35T4131 Hollow Tubular Rivets, japanned, put up in boxes containing 100 rivets all the same length.

Length, in.	3/16	4/16	5/16	6/16	7/16	8/16	9/16	10/16	11/16	12/16

Slotted Rivets.

Slotted Clinch Rivets are very popular, as no set or other tool is required except a common hammer. Put up in packages containing 100 rivets. We do not break packages. **Made of copper annealed steel.**

No. 35T4135 Slotted Rivets. Size No. 9. Either 5/16, 6/16, 7/16, or ⅜. Only one length in package. Price, per package of 100 rivets, either length....7c

No. 35T4136 Slotted Rivets. Size No. 9. Assorted lengths. Price, per package of 100 rivets..... ....6c

Harness or Belt Rivets.

Size numbers refer to diameter. No. 8 being the largest. There are more burrs than rivets in each package. We do not break package.

No. 35T4138 Coppered Steel Rivets and Burrs. Made of soft tough steel, heavily coppered. Put up in packages of about 60 rivets with burrs. Size No. 8 only, assorted lengths.
Price, per package.....6c

Copper Rivets and Burrs.

No. 35T4140 Copper Rivets and Burrs. Size, No. 8, either ⅜, ½, ⅝ or ¾ inch long. One length in pkg. Price, per lb. package, 29c; ½-lb. package.....15c

No. 35T4141 Copper Rivets and Burrs. Size, No. 8. Lengths assorted from ⅜ to ¾ inch in each package. Price, per 1-lb. package, 30c; ½-lb. package.16c

No. 35T4142 Copper Rivets and Burrs. Size, No. 9. Either ⅜, ½, ⅝ or ¾ inch long. Only one length in a package. Price, 1-lb. package, 30c; ½-lb. pkg. 16c

No. 35T4143 Copper Rivets and Burrs. Size, No. 9. Lengths assorted from ⅜ to ¾ inch in each package. Price, per 1-lb. package, 32c; ½-lb. package....17c

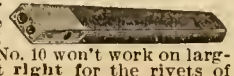
No. 35T4144 Copper Rivets and Burrs. Size, No. 10. Either ⅜, ½, ⅝ or ¾ inch long. Only one length in a package. Price, per ½-lb. package.....16c
Per 1-lb. package.....31c

No. 35T4145 Copper Rivets and Burrs. Size, No. 10. Lengths assorted from ⅜ to ¾ inch in each package. Price, per 1-lb. package 33c; ½-lb. package. 17c

No. 35T4146 Copper Rivets and Burrs. Size, No. 12. Either ⅜, ½, ⅝ or ¾ inch. One length in package. Price, per 1-lb. package, 33c; ½-lb. package...18c

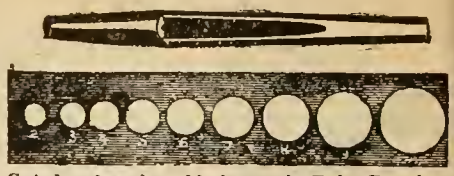
No. 35T4147 Copper Rivets and Burrs. Size, No. 12. Assorted from ⅜ to ¾ inch in each package.
Price, per 1-lb. package, 35c; per ½-lb. pkg....19c

Rivet Sets.



No. 35T4158 Rivet Set for setting the burrs on above rivets. No. 7 can be used for smaller rivets, but the No. 10 won't work on larger rivets. The sets are just right for the rivets of same number. Sizes either 7, 8, 9 or 10. Price, each, 10c

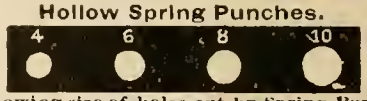
Hollow Drive Punches.



Cut showing size of holes cut by Drive Punches.

No. 35T4160 Hollow Drive Punches. Sizes numbered from 1 to 9. Weight, 4 ounces. Any size, 1 to 6, each, 5c; any size, 7 to 9, each..... ....6c
Size 10, each.....7c

Hollow Spring Punches.



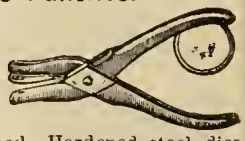
Cut showing size of holes cut by Spring Punches.

No. 35T4165 Spring Punch, for cutting holes in belts, harness, etc. Full size. Length, 7½ inches; polished. Tube sizes are 4, 6, 8 and 10. State size wanted.
Weight, 10 ounces. Price, each.....15c

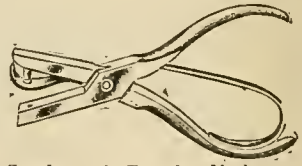
No. 35T4169 Revolving Spring Punch, with four tubes of different sizes. Weight, 14 ounces.
Price, each..35c

No. 35T4170 Revolving Spring Punch, with six tubes of different sizes. Weight, 14 oz. Each....47c

Conductors' Punches.



No. 35T4180 The Acme Steel Ticket Punch, for conductors, restaurant proprietors, milkmen, or anyone who has occasion to punch cards or tickets. Simple, durable, light, well made and heavily nickel plated. Hardened steel dies. Weight, 4 ounces. Price, each. 15c



No. 35T4184 Conductors' Punch. Cast steel, polished and nickel plated, assorted holes, used for punching cards, tickets, etc.
Price, each....35c

No. 35T4188 Conductor's Punch. Made to order, to cut any letter. Hand made, nickel plated. Cannot be returned if sent as ordered.
Price, each..... .....$1.40

Wood, Leather and Metal Punches.

MACHINISTS' TOOLS.

IN THE FOLLOWING NUMBERS will be found a very complete line of Machinists' Tools. Every tool listed under this head is made by a manufacturer who has established a most enviable reputation for producing accurate and reliable tools. Every tool listed under this heading is warranted accurate and satisfactory. We can furnish any Starrett's tools.

SOME PEOPLE STAMP THEIR NAMES on our tools causing them to spring, and then write us they are defective. Stamping the name on them is the cause of their being "out." We cannot replace or exchange any tool on which a name has been stamped.

Starrett's Steel Rules. English Measure.

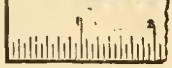
No. 35T4537 Spring tempered. Price, each.....32c

Starrett's Spring Steel Desk Rules.

For Draftsmen, Bookkeepers, etc.



These rules are thin, light and handsome, of spring tempered steel, about 1 inch wide and ⅜ inch thick, nicely finished and nickel plated. One edge is sharply beveled, so that ink won't stick to it. This prevents blotting the paper and smearing the fingers. The thinness of the rule brings the working edge close to the paper, which is an advantage any one will appreciate who has done hit or miss ruling with a common ruler, the edge of which stands up a quarter of an inch from the work. With this you draw the line just where you want it. Made both plain and accurately graduated on one edge in 16ths of an inch. Length, 12 inches.

No. 35T4552 Not graduated. Each.....45c

No. 35T4553 Graduated. Each.....68c

Starrett's Patent Combination Square.

Every tool warranted accurate. With the adjustable scale, this forms one of the most convenient and useful tools ever devised for mechanics' use. One is a complete substitute for a whole set of common try squares, and is one of the best gauges ever made for transferring exact measurements or laying out work. It is also convenient for a depth gauge, or to square in a mortise. For a miter it is perfect, while with the auxiliary center head it forms a centering square, both inside and outside, which for convenience and accuracy has no equal.

No. 35T4566 4-inch, without center head or level.....$0.58

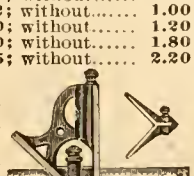
6-inch, with center head, $1.13; without..... .80

9-inch, with center head, 1.32; without..... 1.00

12-inch, with center head, 1.50; without..... 1.20

18-inch, with center head, 2.10; without..... 1.80

24-inch, with center head, 2.45; without..... 2.20



No. 35T4567 Standard Tool Co.'s Combination Square, complete, comprises a miter head, center head and blade, as shown in illustration, the one blade fitting both heads. Size designates the length of blade.

Size, inches.....	6	9	12
Price.....	97c	$1.05	$1.10

No. 35T4568 Standard Tool Co.'s Miter Head and Blade only, same as preceding, except it has no center head—an extra high grade tool for carpenters, pattern makers, piano makers, cabinet makers and other first class woodworkers.

Size, inches.....	6	9	12
Price.....	68c	77c	93c

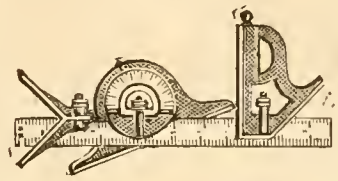
Starrett's Improved Bevel Protractors.

No. 35T4569 An adjustable rule, held firmly at any point by a thumb nut, passes through a revolving turret, nicely graduated in degrees from 0 to 90, both right and left, and can be accurately adjusted to show any angle. The head is 7 inches long.

Price, 9-inch.....$2.10 | Price, 18-inch.....$2.63

Price, 12-inch..... 2.25 | Price, 24-inch..... 3.00

Starrett's Combination Sets.



No. 35T4573 This illustration shows Combination Square with center head and 7-inch bevel protractor head, all on the No. 35T4566 square scale. Each head may be instantly removed or replaced and used interchangeably with the scale, thus forming the most useful combination set of tools ever devised for mechanics' use.

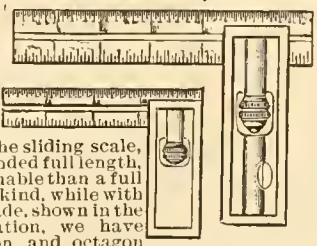
24 inches, set complete.	Price, each.....	3.93

Starrett's Patent Double Square.

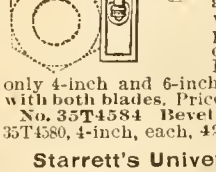


No. 35T4580 Warranted accurate. This square is conceded the most practical one for machinists and fine tool makers' use ever offered. The sliding scale, shortened or extended full length, makes it more valuable than a full set of the common kind, while with the extra bevel blade, shown in the following illustration, we have both the hexagon and octagon angles. The seat against which the blade is clamped being convex, should corners of the blade get injured, the accuracy of the square is not affected.

Price, 4-inch.....$1.08 | Price, 9-inch.....$2.70

Price, 6-inch.. .... 1.76 | Price, 12-inch..... 3.60

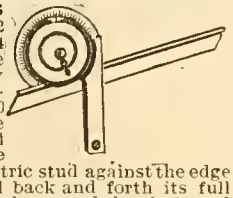
Starrett's Bevel Blades.



No. 35T4583 This illustration represents the 4-inch and the 6-inch double square, with hexagon end of blade applied. Reverse it and the octagon is in position for use. Bevel blades are made to fit only 4-inch and 6-inch sizes. Price is for square with both blades. Price, 4-inch. $1.50; 6-inch. $2.25

No. 35T4584 Bevel Blades only to fit square No. 35T4580, 4-inch, each, 42c; 6-inch, each.....49c

Starrett's Universal Bevel Protector.



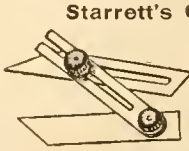
This tool weighs 6 ounces. The blade is 7 or 12 inches by ½ inch, the stock 4 inches long, and both are made from sheet steel, nicely finished. The disc is graduated in degrees from 0 to 90 each way, and rotates the entire circle on a central stud inside the case. The blade (clamped by an eccentric stud against the edge of the disc) may be slipped back and forth its full length, or turned at any angle around the circle and firmly clamped at any point, adapting it for work in positions where others cannot be used, and rendering the common universal bevel (for transferring angles) unnecessary. One side of the stock being flat, makes it a convenient tool for laying on paper in drafting, etc., and it has double the utility of any other tool of the kind.

No. 35T4590 Price, 7-inch, $4.50; 12-inch. $5.40

With both 7 and 12-inch blades..... 5.85

In leatherette case, 7-inch, $5.18; 12-inch, 6.30

Starrett's Combination Bevel.



This Bevel, as will be seen, has a stud riveted in the straight edge stock or head, on which its split blade is hinged, so as to swing over the stock, and by the knurled nut clamped at any angle, adapting it for laying out work, in a very simple manner. The slotted auxiliary blade with clamp bolt may be slipped on to the split blade and be clamped at any desired angle and used, in combination with the stock of the other, for laying out work, measuring, or showing any angle desired, and, when so combined, will lie flat upon its work.

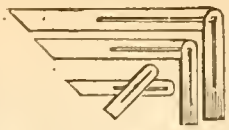
No. 35T4593 Price, 6-inch.... ....$1.75

Starrett's Universal Bevel.

Improved features: The set off in the blade increases its capacity and usefulness for bevel gear work, etc., so that any angle, however slight, may be obtained. Another valuable feature is, one edge of the case being solid, forms a rest directly under the blade, where thin templets may be placed and accurately fitted.

No. 35T4597 3-inch. Price, each..... ..$1.25

Starrett's Improved Bevel.



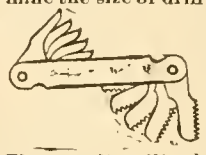
The advantages of this bevel over any other tool of this kind made, consists in its having not only the blade slotted but the stock as well, through and through, thus admitting adjustments that cannot be obtained with a common bevel. The clamping screw head, which the illustration does not show, is let into a rabbet flush with the surface of the stock, which will lie flat on the work.

No. 35T4606	6-inch	9-inch	12-inch
Price, each.....	$1.15	$1.35	$1.60

No. 35T4610 Key Ring Screw Pitch Gauge. 29 pitches, 4 to 40. Can be used inside or outside. Made by Standard Tool Co. Price, each..... .....60c

Starrett's Improved Screw Pitch Gauge.

This gauge has twenty-two pitches, viz.: 9, 10, 11, 11½, 12, 13, 14, 15, 16, 18, 20, 22, 24, 26, 27, 28, 30, 32, 34, 36, 38, 40. This is the only gauge made that can be used inside a nut as well as on the outside of a screw or bolt. A late improvement in our Screw Pitch Gauge consists in stamping on each leaf decimals, showing the double depth of thread on said leaf, and this, of course, equals the depths of threads on the two sides of a tap having the same pitch, and helps the workman to determine the size of drill needed to drill the hole the right size to leave a full V thread for a tap having the same pitch. To do this, caliper with a micrometer over the threads of the tap and from its size in 1000ths shown, deduct the decimals given on the pitch gauge leaf, agreeing with the pitch of the tap. The result will show in 1000ths the size of drill needed for a full thread. An allowance is to be made for the extent to which it is desired the thread should be flattened. A further improvement has recently been made in reducing the width of the leaves having the finer pitches, so that they will enter small nuts.



No. 35T4615 Price, each.....88c

Starrett's Screw Pitch Gauge.

26 Pitches, 32 to 82.

Of the same form as our No. 35T4615 Screw Pitch Gauge, for inside and outside work. Has the following pitches: 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82.

No. 35T4620 Price, each..... .. $1.15

Starrett's Screw Pitch Gauge.

24 Pitches, 4 to 30.

Has the following pitches, 4, 4½, 5, 5½, 6, 7, 8, 9, 10, 11, 11½, 12, 13, 14, 15, 16, 18, 20, 22, 24, 26, 27, 28, 30. The teeth are sharp and clean cut. Like our No. 35T4615 and No. 35T4620, it can be used inside of a nut as well as on outside of a screw or bolt. It is also a convenient and reliable tool to use as a 60-degree center gauge and gauge to test the grinding of either an inside or outside threading tool.

No. 35T4633 Price, each..... .....$1.15

Starrett's Screw Pitch Gauge.

30 Pitches, 4 to 42.

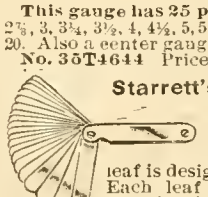
No. 35T4639 Of the same form as our No. 35T4615 Screw Pitch Gauge. Has the following pitches: 4, 4½, 5, 5½, 6, 7, 8, 9, 10, 11, 11½, 12, 13, 14, 15, 16, 18, 20, 22, 24, 26, 27, 28, 30, 32, 34, 36, 38, 40, 42. Price..$1.35

Starrett's U. S. Standard Screw Pitch Gauge.

This gauge has 25 pitches, viz.: 2¼, 2⅜, 2½, 2⅝, 2¾, 2⅞, 3, 3¼, 3½, 4, 4½, 5, 5½, 6, 7, 8, 9, 10, 11, 12, 13, 14, 16, 18, 20. Also a center gauge with coarse and fine notch.

No. 35T4644 Price, each..... .....$1.35

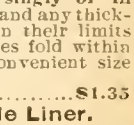
Starrett's Thickness Gauge.



This gauge has 32 leaves, varying in thickness by thousandths, running .004 to .025. The thickness of each leaf is designated by the number upon it. Each leaf may be used singly or in combination with others, and any thickness in thousandths within their limits may be quickly obtained. The leaves fold within the case, which is 2¾ inches long, a convenient size to carry in the pocket.

No. 35T4650 Price, each.....$1.35

Starrett's Locomotive Guide Liner.



This instrument was advised after many urgent requests from intelligent mechanics, there having been nothing of the kind on the market. The lightness of this tool, combined with strength and accuracy, together with an adjustable level to each end, adapting it to be used either side up, and the convenient way of adjusting the pointer, all go to make it just the thing needed. Length over all, 14 inches; span of arch, 3¼ inches.

No. 35T4652 Price, each. $2.70

No. 35T4764 Standard Tool Co.'s Forged Spring Dividers. Made of best steel. Points tempered.

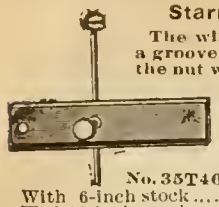
Price, each.....	83c	84c	97c

Starrett's Depth Gauge.



The wire in this gauge is held to a groove by a friction spring inside the nut while adjusting, and may be used close to the end as well as in the middle of the straight edge. By loosening the nut the gauge may be neatly folded.

No. 35T4656 With 3½-inch stock. $0.67
With 6-inch stock 1.05
With 10-inch stock 1.20

Starrett's Depth Gauge.

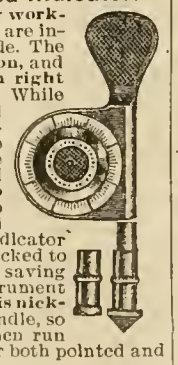
Has in place of the round wire to slide in the groove, a 4-inch scale, ⅜-inch wide, graduated in either 32ds and 64ths, 50ths and 100ths, or 64ths and 100ths, indicating exact measurements, and may be used separately from the gauge.

No. 35T4659 With 3½-inch stock $1.15
With 6-inch stock 1.35
6-inch stock, with 6-inch blade ... 1.60
10-inch stock, with 6-inch blade ... 2.00

No. 35T4660 Standard Tool Co.'s Graduated Depth Gauge, is provided with a blade three inches long and three sixteenths of an inch wide, graduated on one side in 64ths, and on the other in 100ths, drawn to its seat with a screw having a head with a beveled edge, and locked with a thumb nut on reverse side. Both edges of the beam and the blade are accurately ground so that the tool can be used as a square, when desirable. A wire is also sent with the gauge for use in holes too small to admit the blade and is held by a groove under the round edge of screw head. The third slot is cut at an angle of one degree for use in die work, and for getting the draft on patterns.

Price, each, complete as illustrated $1.00

Starrett's Improved Speed Indicator.



This is a nicely made and finely working indicator. The working parts are inclosed like a watch, and as well made. The graduations show every revolution, and with two rows of figures read both right and left, as the shaft may run. While looking on the watch each hundred revolutions may be counted by allowing the oval headed pin on the revolving disc to pass under the thumb as the instrument is pressed to its work. The dial is locked to a revolving stud—a slight thumb pressure and twist on the knurled eccentric releases it so that the indicator mark may be readily moved and locked to agree with the starting point, thus saving the necessity of turning the instrument to bring it there. The instrument is nickel plated, and has a rosewood handle, so that it will not heat the fingers when run at high speed. New rubber tips for both pointed and hollow centers.

No. 35T4662 In pasteboard box $1.35
In leatherette case 1.80

Starrett's High Speed Indicator, With New Rubber Tips.

For Pointed and Hollow Centers.

This indicator may be run at highest speed required without heating, and this is on account of our frictionless bearing against which the inner end of the spindle revolves (for which patent is pending). The working parts of this instrument are encased, and the dial plate has two rows of figures, reading right or left, as the shaft may run. The inner plate is frictionally clamped to the revolving gear by a checked waferhead screw. By a pressure and twist with the thumb the plate is loosened, when the O mark may be instantly moved to agree with the starting point, thus saving time revolving the spindle to bring it there.

An important improvement which we now apply to all of our speed indicators, consists in substituting for the hardened steel pointed spindle and split caps, rubber tips for both pointed and centered shafts, which not only remove the jar and run smoothly, but produce a stronger frictional contact between the shaft and the instrument.

No. 35T4665 High Speed Indicator $0.88
Same in leatherette case 1.35

Starrett's Registering Speed Indicator.

This instrument was devised to automatically register hundreds as well as units and tens, and thus relieve the mind from keeping tally; also to furnish a better registering indicator at a more reasonable cost than heretofore. The instrument will register 5,000 revolutions. The large dial is graduated into one hundred lines, each one representing a revolution of the spindle. The small dial has fifty lines cut upon its face, each representing one hundred revolutions of the spindle (or one complete turn of the large dial). A spring finger trip attached to the case engages with one of the lines in the small dial and holds it from revolving until the large dial makes one complete turn, when the trip pin, passing under the spring trip, lifts it, and the dial is frictionally carried along by the large plate one line, thus showing that one hundred revolutions of the spindle have been made. The instrument has a hard rubber handle, making a safe insulator when used on electrical machinery. It has our new rubber tips for both pointed and hollow centers.

No. 35T4668 Price, in leatherette case $3.15
In pasteboard box 2.70

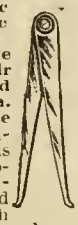
Starrett's Universal Surface Gauge.

This gauge has viz.: A joint at the base which allows the spinple and scriber to be moved back and forth and placed in any position from upright to horizontal to reach over back of and under work that could not be got at with old style gauges, while by inclining the spindle over the work its scope for long reach is increased. The fine adjustment is nicely obtained by the knurled screw in the rocking bracket at the base acting against a stiff spring under the opposite end, while the joint above with the spindle may be set and rigidly held in any position desired. Two pins through the base, frictionally held, may be pushed down by slight pressure to form a bearing to work from the edge of, or in the slots of, the planer bed for lining up the work, while the weight of the gauge against the bed with a little pressure is sufficient to push them back. Grooves around these pins, against which a pointed spring plunger presses, insures their being held in place either up or down. Concaved depressions milled in the sides of the base make it convenient for thumb and finger to grasp. Furnished with our improved sleeve, which rigidly holds the scriber. Nicely made in two sizes, with spindles of extra length to order.

No. 35T4675 9-inch, $2.25; 12-inch $2.70
With two spindles, 12 and 18 inches 3.15

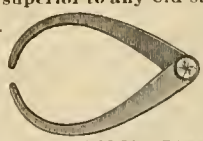
Starrett's Improved Firm Joint Calipers.

No. 35T4700 Outside	Prices.	No. 35T4702 Inside.	Prices.
3-in.	34c	8-in.	68c
4-in.	42c	10-in.	76c
5-in.	46c	12-in.	85c
6-in.	55c		



The above sizes refer to the length of the calipers. Their capacity is about one-third greater than the size given.

The improvement in these calipers consists in the construction of the joint, which is so made as to be drawn together by means of a screw forcing a washer on to a squared end of the main rivet, which extends through the legs, thus clamping them together between bearings so shaped as to insure a smooth and uniform friction, of more or less tension, to suit the user. The quality of these calipers is incomparably superior to any old style riveted joint caliper.



No. 35T4704 Standard Tool Co.'s Outside Firm Joint Calipers made of best grade of tool steel accurately fitted and nicely finished.

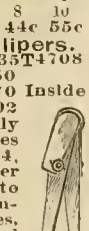
Starrett's Lock Joint Transfer Calipers.

No. 35T4706 Outside	Prices.	No. 35T4708 Inside	Prices.
4-in.	$1.08	8-in.	$1.50
5-in.	1.20	10-in.	1.70
6-in.	1.28	12-in.	1.92



These instruments not only have all the excellent features of Nos. 35T4712 and 35T4714, as described under another number, but in addition to common use may be used inside of chambered cavities, over flanges, etc., removed and replaced without losing the size calipered. This is done by loosening the nut binding one arm to the auxiliary leaf and swinging it out or in (while the joint is locked) to clear the obstruction, then moving it back again a stop, where it will show the exact size measured. The sizes given refer to the length of the calipers, but the outside ones will caliper a cylinder 20 per cent larger than their length, and the inside calipers will open nearly twice their length.

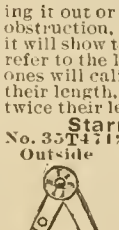
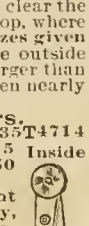
6-inch	.77	12-inch	1.50
8-inch	.95		





These illustrations represent long needed tools—namely, simple, light, low priced and reliable calipers of wide scope for both inside and outside work, that can be instantly adjusted to their full extent and as quickly locked firm in the joint and yet provided with a sensitive adjustment. The improvement consists, first, in a socket joint made tapering and locked or released by a partial turn of the knurled disc drawing it together. A spring washer under the disc maintains an easy friction in the joint when unlocked. To further describe: In the under side of short arm is a slot containing a stiff spring. Riveted into the middle leg and projecting through an opening in the arm is a threaded stud on which is a knurled nut having a beveled hub—this bears against a cone in the arm—the action of the spring holding them together turning the nut, presses them apart and adjusts the leg when the joint is locked. Spring taking up all backlash, legs are firm.

Starrett's New Firm Joint Hermaphrodite Calipers.

No. 35T4720 These callpers have our adjustable point, as well as the improved firm joint, which has made our No. 35T4700 Outside and No. 35T4702 Inside Calipers deservedly popular among mechanics. This joint, with its smooth and uniform friction, is incomparably superior to the old style riveted joint.

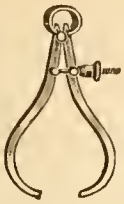
Starrett's Yankee Outside and Inside Calipers.

The Yankee Calipers and Dividers are not quite so heavy as those quoted in previous numbers and cost less. They are much liked, and, on account of the price, are preferred by many to the highest cost tools. **All sizes are supplied with either the solid or quick adjusting nut.**

No. 35T4766

No. 35T4766 Represents a new Yankee Inside Transfer Caliper with either spring or solid nut. The bow is stiff, making the caliper reliable. After calipering inside of chambered cavity, by springing in the legs they may be withdrawn, and, as they spring back, will show the exact size calipered.



No. 354768

No. 35T4768 Is outside caliper, having same features.

Starrett's Improved Extension Divider.

No. 35T4790 This is a well made, nicely finished divider, with auxiliary caliper legs, which, together with a common pencil, form convenient combinations. **Our patent locking nut between the arms, against which a spiral spring acts, is a valuable feature.** After the fine adjustment is made, the nut may be turned back, locking spring and arms firmly, thus remedying the weak point which renders the common wing divider only as stiff as the adjusting spring. **A full threaded nut on the stud,** through which the quadrant passes, is a more durable fastener than two or three threads tapped in the arm to hold the wing of the old style. **The head and arms of this tool are made from the best malleable iron, the rest of steel.** The points are hardened and warranted first class. The smallest size is 7 inches long; by adjustment of points becomes 9 inches, and will scribe a 22-inch circle; will caliper 11 inches outside and 13 inches inside. The second size is 9 inches, by adjustment of points becomes 12 inches, and will scribe a 30-inch circle, and caliper 14 inches outside and 16 inches inside.

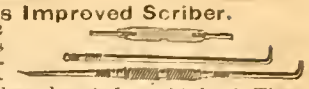
Starrett's Improved Scriber.



No. 35T1842 This Scriber is made for mechanics who want a better thing than has been heretofore obtained. These points are made of a fine grade of steel, nicely tempered. The knurled stock is of sufficient size to be easily held without cramping or turning in the fingers. The long bent point will be found a valuable auxiliary for reaching through holes, etc. Length, with short bent point, 9 inches; with long point, 12 inches. **All parts are interchangeable. The knurled sleeve is nickeled.** Price, complete.....40c

Starrett's Improved Adjustable Sleeve Scriber.

No. 35T1848 The knurled sleeve has hole clear through and a clamping device at each end, adapting it for slipping on or off different tools, securely holding them near to or away from the working point. The knurled sleeve is nickeled. **This scriber is made in two lengths,** 8 inches and 12 inches. Tool makers will find the small size more desirable for general use, and the larger one for heavier work. For pattern makers a knife scriber, made of a fine grade of steel, is supplied as an auxiliary. Price, either size, without knife point, 45c
Knife point, extra.....15c
The 8-inch, being the more popular size, will be sent, unless otherwise ordered.

OUR ACME CARPENTER CHEST OF TOOLS FOR $14.95.

EACH AND EVERY ARTICLE GUARANTEED TO BE EXACTLY AS DESCRIBED. EVERY TOOL GOOD ENOUGH FOR ANY CARPENTER OR MECHANIC.

$14.95 BUYS A $25.00 OUTFIT.

QUALITY. We cannot too strongly emphasize the fact that all these tools are strictly FIRST CLASS, HIGH GRADE GOODS. To build up the enormous tool trade which we have established, it was necessary for us to furnish the best goods we could procure; and to hold and still further increase our tool trade, it is necessary that we continue to deal with our patrons as in the past.

READ CAREFULLY THE DESCRIPTION OF GOODS AND REMEMBER THAT EVERY ARTICLE IS GUARANTEED EXACTLY AS REPRESENTED.

No. 35T6030 ORDER BY NUMBER.

LIST AND DESCRIPTION OF TOOLS IN OUR ACME CHEST OF TOOLS:

SAWS. We furnish four saws:
1 **Rip Saw,** 28 inches long, with walnut handle, with steel plate on handle. It is a fair grade saw, but not warranted.
1 **Fulton Hand Saw,** 26 inches long, with carved handle, fully warranted.
1 **Folton Panel Saw,** 18 inches long, with carved handle, fully warranted.
1 **Compass Saw,** length, 14 inches.
Every Fulton saw is etched on blade: "If this saw does not prove ntirely satisfa ctory, return it to us and money will be refunded."

PLANES. We furnish four planes, all made by **The Stanley Rule & Level Co.,** and no one makes better goods.
1 **Stanley Wood Smooth Plane.** Length, 8 in., with 1¾-in. cutter.
1 **Stanley Wood Jack Plane.** Length, 15 in., with 2⅜-in. cutter.
1 **Stanley Wood Fore Plane.** Length, 20 in., with 2⅜-in. cutter.
1 **Stanley Iron Block Plane.** Length, 5½ in., with 1¼-in. cutter.
Remember we guarantee that these Planes are genuine, made by The Stanley Rule & Level Co.

MISCELLANEOUS TOOLS. **Sears, Roebuck & Co.'s Improved Morrill's Saw Set.** Considered the best made.
Saw Clamp. To hold saws for filing. Jaws are 9½ inches long, adjustment is by a lever.
2 **Slim Taper Saw Files.** One 4½ inches long, and one 6 inches long.
1 **No. 7 Steel Square.** Guaranteed to be equal to any No. 7 square made by anyone. The body of square is 2 inches wide, 24 inches long. The tongue of square is 16 inches long, 1½ inches wide, marked on both sides, spaced to eighths.
1 **Carpenters' Pincers.** Best grade, length, 8 inches.
1 **Combination Wire Cutter and Pliers.** Length, 5½ inches.
1 **Knurled Cup Point Nail Set.**
1 **Spring Tube Punch,** for cutting holes in leather, etc.
100 **Slotted Rivets,** assorted lengths, in nice tin box.
1 **Iron Bench Screw.** Length, 13 inches, diameter, 1 inch.
4 **Iron Clamps.** Open, 2¾ inches.
1 **Beechwood Improved Marking Gauge. Made by The Stanley Rule & Level Co.** Will run a gauge line with accuracy, either straight or around curves of any degree, either concave or convex.
1 **Pair of Wing Dividers.** Length, 8 inches, polished cast steel, with adjusting screw.
1 **Chalk Line, Reel and Awl,** as shown in cut.
1 **Braided Cotton Chalk Line.** Medium size.
12 **Cakes of Carpenters' Chalk.** Assorted colors, red, white and blue, and 1 **Carpenters' Lead Pencil** of good quality.
1 **Plumb and Level, adjustable.** Made by **The Stanley Rule & Level Co.,** polished mahogany, arched top plates; two side views. Length, 28 inches.
1 **Try Square.** Brass lined with rosewood handle, square inside or outside. Length of blade from inside the handle, 6 inches. It is made by **The Stanley Rule & Level Co.**
1 **Sliding T Bevel,** with rosewood handle, brass tipped, 8-inch blade, flush adjusting screw so bevel can be used right or left hand, either side up. It is made by **The Stanley Rule & Level Co.**
1 **Boxwood Rule.** Made by **The Stanley Rule & Level Co.,** two-foot, four-fold, square joints, edge plates, spaced 8ths, 10ths, 12ths and 16ths, with drafting scale, 1 inch wide.
1 **Shingling Hatchet.** Weight, 1 pound 7 ounces, **warranted.**
1 **Nail Hammer.** Weight, 1 pound, **warranted.**
1 **Monkey Wrench.** Length, 10 inches.
1 **Draw Knife.** Length of cut, 8 inches.
1 **Spoke Shave,** with double cutter, one straight and one concave.
1 **Socket Framing Chisel.** Width, 1-inch, with ring on handle to prevent splitting.
3 **Socket Firmer Chisels.** 1 each, ¼, ½ and 1-inch chisels, **fully warranted.**
1 **Cold Chisel,** made by **The Vaughan & Bushnell Mfg. Co.,** of ½-inch octagon steel.
1 **Screwdriver,** with beech handle and 6-inch blade.
1 **Ratchet Bit Brace,** made of $\frac{7}{16}$-inch cold drawn steel rod. Head and handle of hardwood, 10-in. sweep.
7 **Auger Bits.** 1 each size, ¼, $\frac{5}{16}$, ⅜, ½, ⅝, ¾ and 1-in.
3 **German Pattern Gimlet Bits.** 1 each size, $\frac{1}{16}$, ⅛ and $\frac{3}{16}$-inch.

Steel Spring Bench Hook.

No. 35T3625 Steel Spring Bench Hook, suitable for above bench. Price, each.....30c

Builders' Hardware

THE GOODS WE LIST in this department are guaranteed for quality. They are made in proper proportions and are not only beautiful in design, but are correct from a mechanical standpoint. There is a big profit in the sale of locks, door knobs, hinges, latches, sash fixtures, etc., and we sell all of these goods so close that no matter how little you wish to buy, we will save you enough to pay you for sending to Chicago for the goods.

THE FREIGHT RATES on hardware and building material are low and will amount to almost nothing compared to the saving in price.

IF YOU ARE GOING TO BUILD, make out a list, or have your carpenter or architect make it out for you, of all the goods you will require in this line. Refer to these goods in this catalogue for prices, or if you wish, send the list to us and we will quote you the price for each and every article, and for the entire bill delivered at your nearest railroad station. You will find that our prices will surprise you in the money you can save, and if you do not order your goods from us, it will prevent your paying too much elsewhere, and in any case we will save you money.

DON'T BE PERSUADED to use a poor quality of hardware. Hardware in a building is a small item in the total cost, even if the very best is used. For example, the difference in cost between good locks and poor locks is so little that the owner would not consider it a saving to use poor locks if he were posted on the matter. Because the work is so easily concealed, poor locks are used to save a few cents. We furnish complete lines in the desirable finishes.

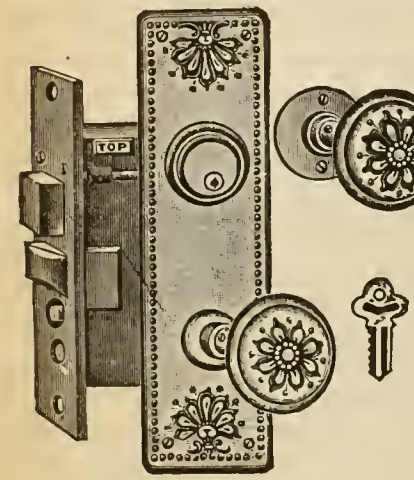
WE HAVE MADE THE DESCRIPTIONS SO EXPLICIT, giving sizes and prices, that the architect may specify that which pleases him, or which suits his particular work, with the assurance of getting just what is desired. Each design is first shown in the lock sets, and then the other trimmings are illustrated further on. Every article is guaranteed to be exactly as we represent it, and if not found so it may be returned and the money will be refunded.

WE SHOW SEVEN COMPLETE LINES. We show three complete lines of plain goods in all the popular finishes, and four complete lines of ornamental goods. We have everything that is desirable in these lines, and you will find this department most complete in every respect, and we can save you so much money on these goods that you cannot afford to buy them from your local dealer, whose cost in many cases is more than our price to you.

SAMPLES. We have made arrangements to furnish small samples which are made in the same finishes as our various lines of locks and trimmings, and which will show the exact appearance of any goods of the same finish. We will be pleased to send a set of these samples to anyone who is interested, on receipt of 5 cents (stamps accepted).

ORNAMENTAL GENUINE BRONZE LOCK SETS.

Antique Copper Finish Front Door Cylinder Locks.



No. 9T300 Front Door Cylinder Lock Set. Antique, copper sand finished trimmings as shown in cut. Matches lock sets Nos. 9T325 to 9T338. Ball Bearing Parlor Door Hanger.

This Ball Bearing House Door Hanger has a double set of case hardened ball bearings, the cones and cups being made with the latest style automatic machinery. The wheels are made with vulcanized fiber tread so attached that it cannot loosen and turn, which makes the hanger noiseless in operation. The hanger has a vertical adjustment of about three-quarters of an inch, and the set screw which regulates the adjustment is easily accessible with a screw driver at either edge of the door. A decided improvement over the old style back stop is the overhead adjustable center stop, as shown in Illustration. These hangers are furnished complete with 14 feet of steel track for double doors and with 8 feet of steel track for single doors. Screws are packed with hangers.

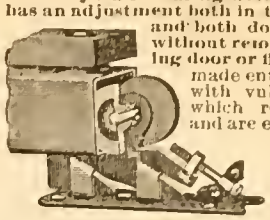
No. 9T900 For Double Doors, complete with 14 feet of steel track. Price, per set.....$3.13
No. 9T901 For Single Doors, complete with 8 feet of steel track. Price, per set..... 1.60

Improved Sliding Door Hanger.

No. 9T922 Sliding Door Hanger, improved pattern. Easily applied; readily adjusted. May be attached to top of door without cutting or mortising. **Oscillating bearings,** which are at all times parallel to top edge of door wheels, finished, perfectly true. Per set, complete, for **double doors** with 28-foot hardwood track.....$2.40
No. 9T923 Per half set, for **single doors,** with 14-foot hardwood track.....$1.25

Trolley Ball Bearing Steel House Door Hanger.

With Adjustable Track.



Trolley Ball Bearing Steel Parlor Door Hanger has an adjustment both in the hangers and track and both doors can be taken down without removing plaster or defacing door or finish. The hangers are made entirely of steel, are fitted with vulcanized fiber wheels, which render them noiseless, and are equipped with finest ball bearings, the cups and cones being case hardened. The track is formed from sheet steel, is very rigid and firm and no obstruction whatever can lodge in track to prevent free movement of the hangers. Each piece is fastened to a wood header by three adjusting screws and can be furnished in any length to 10 feet without joint. An overhead adjustable center stop is furnished with each set, which is a decided improvement over the old style gravity back stop. They are durable, simple in application and mechanically perfect, and we guarantee satisfaction. While the first cost of this hanger may seem high when compared with others, the saving in material and labor for putting them up will nearly if not quite offset the extra cost. **Complete directions packed with each set.**

Eclipse Door Checks and Springs.

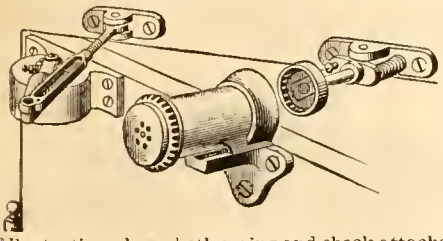

Illustration shews both spring and check attached to door.

The Eclipse Door Spring is suitable for either right or left hand doors. The spring is adjustable tension, very compact and powerful, and is made from **extra heavy clock spring steel of the finest quality.** All parts are interchangeable, so in case of breakage any part may be replaced at **small expense. Prices are for springs only, for check see No. 9T2034, below.**

No. 9T2033 Eclipse Door Spring, Tuscan bronze finish. For ordinary inside doors. Price, each, 66c
For wide inside doors or narrow outside doors. Price, each $0.84
For wide outside doors. Price, each..... 1.10
For very wide and heavy outside doors. Price, each..... 1.46

The Eclipse Door Check.

The illustration above shows both check and spring applied to door.

Is simple, durable, easy to apply, easy to keep in order—all points that tell. It successfully prevents doors from slamming. Can be applied to either the door or casing as desired. The check can be instantly varied for light or heavy draft. All parts are interchangeable, so in case of accidental breakage any part may be replaced at small expense. **Complete directions for putting up and adjusting are packed with each check.**

No. 9T2034 Eclipse Door Check, Tuscan Bronze Finish. Prices are for check only, for spring see No. 9T2033, above.
For ordinary doors, diameter of cylinder, 1¼ inches. Price, each..... $1.10
For wide doors, diameter of cylinder, 2 inches. Price, each..... $1.46

No. 9T2110 Barn Door Latches. Japanned, extra heavy; with wrought latch.
Price, each.....10c

ALUMINUM LETTERS AND FIGURES.

THERE IS NO METAL SO WELL ADAPTED FOR HOUSE NUMBERS AND SIGNS AS ALUMINUM. It does not rust, tarnish or corrode, but will always retain its bright silvery luster, and is not affected in any way by being exposed to the weather. Our letters and figures are made of heavy cast aluminum, of a pleasing pattern, with surface all polished and edges rounded, except the 2-inch numbers, which are flat, and are provided with prongs on back for the purpose of securing them onto wood. By the use of these letters and figures you can make durable, elegant looking signs at a less price than you could have an inferior sign made by a sign painter. **Postage on 2-inch, per dozen, 5 cents; 3-inch, per dozen, 7 cents.**

Aluminum Letters.

No. 9T2112 Cast Aluminum Letters, 3 inches high.

Price, per dozen, $3.92; each..... 33c

The Signal Sash Lock.

This illustration shows the simplest sash lock ever invented. It cannot be picked or tampered with, and is perfectly burglar proof.
The part to which the lever is attached fastens on upper sash and locks with certainty over the wide front plate. The lever is in plain sight when unlocked and there can be no mistake made in locking the sash. It lifts the upper sash to place and draws both sash together tight.
No. 9T2370 Signal Sash Lock, made of iron, copal bronzed; packed complete, with screws.

GIVE CATALOGUE NUMBER IN FULL WHEN YOU WRITE YOUR ORDER

WEATHER STRIPS.

It is economy to use weather strips. The cost is very small and can be saved in one season on fuel to say nothing of the added comfort secured. Carpenters or anyone without experience can make more than good day wages furnishing the strips and putting them up and they can do it at a time when business is naturally dull. We ask those who buy in quantities to notice our very low prices.
We sell nothing but the genuine excelsior weather strip the best made—as we consider it is worth much more than the slight difference in cost over inferior goods. If less than four lengths are ordered, we must cut in short pieces to prevent breakage in shipping. Please specify to what lengths we shall cut. Samples sent free on request.

No. 9T2475 The Excelsior Weather Strip, Size No. 0, for the upper sash of windows.

Vanderbilt Sash Balances.

All Vanderbilt Balances are coppered inside as well as outside, therefore are not liable to rust.
All balances are tested with great care and we fully warrant every one. The illustration shows the manner in which these balances are applied. Directions are sent with each set. Prices below are for either side or top balances. Side balances are most commonly used. Top balances must be made to order, requiring from ten days to two weeks to fill order. Top balances are used for Mullion windows, or where there is not sufficient room in the side of the window frame for side balance. Always use side balance when possible.
No. 9T2440 Vanderbilt Side Balances.
No. 9T2441 Vanderbilt Top Balances.
Per set of four balances, enough for two sashes.

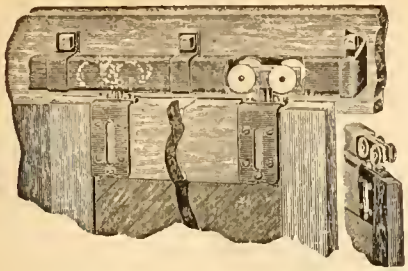
Trolley Roller Bearing Steel Barn Door Hangor.



No. 9T2700 Hangers have lateral adjustment and are suitable for doors from 1½ to 2¼ inches thick. If wanted for thicker doors please write us for prices. A pair of hangers consists of two hangers and carriers, one right end bracket, one left end bracket, one center bracket, complete with wood screws for hangers and lag screws for brackets. **Pendant**—6 inches long, 3½ inches wide, ⅛ inch thick. Weight, per pair, 10 pounds. The number of extra track brackets required depends upon the weight and width of door. In any case, they should not be more than 3½ feet apart and on very heavy doors, it is best to have them about 2 feet apart. **When ordering, always give thickness of door, the exact width of opening, and state whether for double or single doors.** Price of hangers, complete, as described, per pair..... **$1.95**

No. 9T2701 Trolley Track for our trolley barn door hanger, made of 16-gauge steel. Weight, per foot, 1¾ pounds. Prices given below are for track only, without brackets.

Length, feet.....	4	5	6	8	10

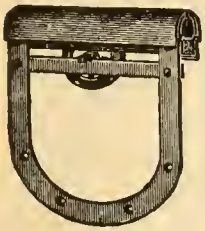
No. 9T2702 Center Track Brackets, for above track. Remember that end brackets and one center bracket are furnished with hangers.
Price, each.....16c

Roller Bearing Steel Barn Door Hanger.

No. 9T2708 Heavy and strong, for doors of any weight. Size of frame, 4x11½ inches; steel wheel, 4¼ inches in diameter. Runs like a bicycle. Will run any distance. Will carry the heaviest door. Will run on any standard ⅞x1 inch steel track.
Price, per pair... .....50c

Anti-Friction Steel Barn Door Hangers.



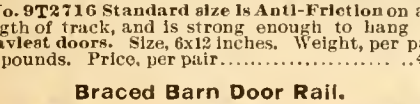
This hanger is made from heavy steel, and the largest size will carry the heaviest door; the wheels having a deep groove, will not jump the track. No screws or bolts furnished at prices quoted.
No. 9T2710 For ordinary doors. Price, per pair....50c
No. 9T2711 For wide, heavy doors. Price, per pair... 60c

Roller Bearing, Anti-Friction Steel Barn Door Hanger. Anti-friction on any length of track. Is fully covered, has cold rolled steel axles and **anti-friction rollers,** and is so constructed that it will not get out of order under the roughest usage. With the exception of the wheel it is **built entirely of wrought steel. It can be used on any standard track.**

No. 9T2715 Special size will easily carry any ordinary door, but is more **especially intended** for use on **single or small double doors.** Size, 5x11 inches. Weight, per pair, 6¼ pounds. Price, per pair..... .....40c

No. 9T2716 Standard size is Anti-Friction on any length of track, and is strong enough to hang the **heaviest doors.** Size, 6x12 inches. Weight, per pair, 8¼ pounds. Price, per pair..... ..48c

Braced Barn Door Rail.



No. 9T2720 Braced Barn Door Rail. Standard size, ⅞x1, as now made is solid and strong. Will carry the largest doors. Comes in 4, 6, 8 or 10-foot lengths. Prices quoted do not include screws.

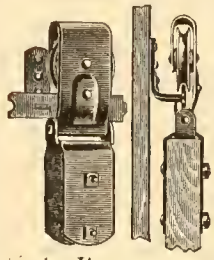
Price, per foot..... .....2c

The Rockwell Barn Door Hanger.



No. 9T2730 The Rockwell Flexible or Hinge Joint, Roller Bearing, Barn Door Hanger. It has steel roller bearings; in fact, every part except the wheel is made of steel. It is a covered hanger, the wheel being protected from storm. It is made with a hinge joint so it cannot bind when door is swung in or out. It is made with a guard that runs under and inside the track, making it impossible to throw the wheel off the track. It runs easy. It runs any length of track. It is warranted to carry any door. Made only one size, for doors 1¾-inch thick. **(Will not run on the common track.** For track for this hanger see next number). Weight per pair, 5½ pounds.
Price, per pair.....70c

No. 9T2731 Track for the Rockwell Flexible Barn Door Hanger. Made of round edge steel 1¼x3-16. Strong enough to carry the heaviest door. To put this track up it requires three screws to each foot. The diameter of each screw should be number 12, the length either one inch or longer, as required. Screws are not furnished at prices named. If wanted, please order them separately. See No. 9T4112.

Length, feet.....	4	6	8	10
Price, per length...	24c	36c	48c	60c

Price, ea. $0.16
Price, per dozen 1.88

Solid Brass Padlocks.

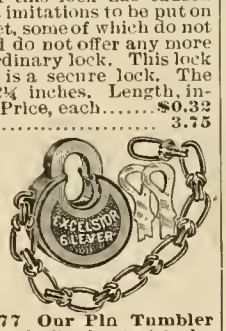
No. 9T2771 Solid Brass Padlock. Self locking spring shackle. Four secure levers. Two flat steel keys to each lock. All different in a dozen. This lock is highly polished, is very strong and cannot be picked or opened with an ordinary key. Width, 2 inches. Length, including shackle, 2¾ inches.
Price, per dozen, $2.25; each 19c

No. 9T2772 Our Samson Eight-Lever Padlock is the biggest bargain we have to offer in the padlock line. It is a better padlock than we have ever seen sold at anything like the price at which we offer it. It is solid wrought steel, self locking, extra heavy spring shackle, eight secure levers, two flat bow fancy double bitted steel keys. The lock is heavily brass plated inside and out to prevent rusting, and giving it the appearance of the solid brass lock. Width, 2¼ inches. Length including shackle, 3½ inches. A strong, safe lock; a lock that cannot be picked; a lock that cannot be opened by any key in your town, and a better lock than you have ever seen sold at the price.
Price, per dozen, $2.38; each 20c

No. 9T2773 Solid Brass Six-Lever Padlock. Self locking, heavy spring shackle. Six secure levers, two double bitted keys to each lock, all different in a dozen. A lock that cannot be opened by "any old key," strong, durable and secure. Price, each... $0.24
Price, per dozen 2.82

No. 9T2774 Padlock, case, cap and shackle made from hydro iron. Locking mechanism and springs of bronze. This lock is exceptionally well made, highly polished and triple nickel plated. Spring shackle, self locking brass cylinder key guide. Two flat, nickel plated steel keys. Width, 2¼ inches.
Price, each 11c

No. 9T2775 Our Six-Lever Padlock. Heavy spring shackle. Six secure levers, two nickel plated flat steel keys to each lock, all different in a dozen. The popularity of this lock has caused numerous imitations to be put on the market, some of which do not have more than one lever and do not offer any more security than the cheapest ordinary lock. This lock actually has six levers, and is a secure lock. The case is gun metal. Width, 2¼ inches. Length, including shackle, 2½ inches. Price, each..... $0.32
Price, per dozen 3.75



No. 9T2776 Our Gun Metal Six-Lever Lock with Chain. Heavy spring shackle, six secure levers, two nickel plated flat steel keys to each lock, all different to a dozen. Width, 2¼ inches. Length, including shackle, 3 inches.
Price, each $0.38
Price, per dozen..... 4.50

No. 9T2777 Our Pin Tumbler Spring Shackle Lock, steel body, rustless gun metal finish. Brass cylinder, two German silver keys with each lock. No two locks alike. This makes an excellent lock for stores and warehouses, as it cannot be picked and is very strong. Width, 1¾ inches. Length, including shackle, 3 inches. Price, each..... $0.59
Price, per dozen..... 6.89

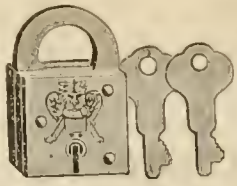
No. 9T2778 The Old Reliable Police and Railroad Lock. Solid, heavy, cast bronze. Self locking, spring shackle. Two secure levers, one ward. Two bronze keys to each lock. Keys all different in a dozen. It is a lock used largely by railroads, is very strong and affords ample protection. Width, 2½ inches; length including shackle, 3 inches.
Price, per dozen $6.89; each 59c

No. 9T2779 Police Padlock. Same as described above, with chain 9 inches long attached.
Price, per dozen..$7.82; each 66c

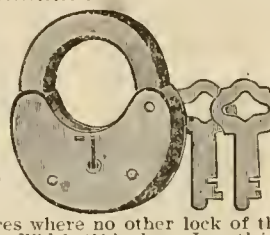
No. 9T2780 The finest padlock made. Ball bearing, pin tumbler cylinder. Heavy flat bronze case. Heavy case hardened spring shackle. Two German silver keys to each lock and no two locks alike. A lock suitable for stores and warehouses. Shackle cannot be cut with a hack saw or filed. Lock is so strong that it cannot be easily broken. Width of case, 2 inches; length, including shackle, 3 inches. Price, each..... $1.15

PADLOCKS.—Continued.

No. 9T2781 Our Small Brass Padlock for dog collars. Small boxes, etc. Has spring shackle, with brass key. Width of lock, ⅝ inch. Length, including shackles, ⅞ inch. Furnished with one key. Price, each..... 8c

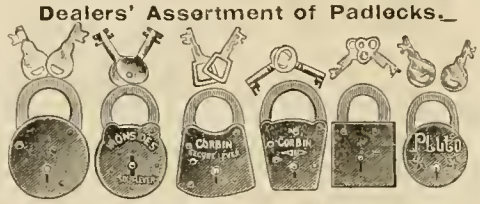


No. 9T2782 Small Steel Padlock. Black rustless finish. Brass rivets, brass bushing, spring shackle. Three secure levers. Two nickel plated flat steel keys to each lock, all different in a dozen. This lock is suitable for cash boxes or light service. Width, ⅞ inch. Length, including shackle, 1⅛ inches.
Price, each..... 10c



No. 9T2783 Wrought Steel Padlock. Spring shackle. Two secure levers. Two nickel plated flat steel keys to each lock. Keys have six changes to the dozen. This lock is suitable for small work and on account of the large opening under shackle it can be used in many places where no other lock of the same size can be used. Width, 1½ inches. Length including shackle, 2 inches. Price, each..... 10c

Dealers' Assortment of Padlocks.



No. 9T2784 Dealers Assortment of Padlocks. Put up in box of six padlocks, two keys to each padlock, same as illustrated above, for 72 cents per box. The first padlock at the left usually retails for 15 cents; the next one for 25 cents; the next one for 30 cents; the next one for 30 cents; the next one for 20 cents; and the next one for 10 cents; usual retail price for the six, $1.30. We sell these locks only in boxes containing six locks, as described above.
Price, per box..... 72c

IN MAKING UP YOUR ORDER for goods from this department, refer to other departments in the catalogue and see if you cannot make up a shipment to equal 100 pounds in weight, and let the goods come by freight. In this way the greatest saving is possible by reason of our extremely low prices and the additional fact that the transportation on a 100-pound freight shipment will amount to very little (almost nothing) in comparison with what you would pay if you bought the goods elsewhere.

DO NOT THINK It is only on some special article we can save you money. Our prices on every kind of goods are the very lowest known, and it will pay you to send to us for everything you need or use. : : : : : : :

We buy our building paper from the largest and most reliable makers in large quantities for spot cash, and sell it at our usual small profit. Building paper is not intended to be exposed to the weather, but is intended to be used under shingles, clapboards, floors, etc.

The cost is very little, and can be saved in one season in your fuel bills, to say nothing of the comfort secured by its use.

No. 9T3000 The Sears, Roebuck & Co.'s Leader Brand Red Resin Sized Sheathing is a strong, smooth finish, durable, waterproof paper, put up in rolls of 500 square feet, 36 inches wide, weighing about 40 pounds. Clean to handle. Price, per roll.....72c

Price, per roll, containing 250 square feet....$1.27

No. 9T3013 Blue Plaster Board.
Price, per roll, containing 500 square feet.... 2.47

We do not cut rolls of building paper.

Prepared Felt Roofing.

Imparts no taste to rain water. Send 3 cents for samples.

This roofing has been used in all climates and has given universal satisfaction. It is easily and cheaply applied, no tools being required except a jack knife, hammer and brush. **Complete directions with each roll. The two-ply roofing** consists of two layers of felt roofing with a layer of waterproof asphalt cement between. **The three-ply roofing** consists of three layers of felt roofing with two layers of asphalt cement between, the whole being united under great pressure. **We have this roofing made for us in enormous quantities, by manufacturers of established reputation, and can offer our patrons all the advantages which large purchasers for spot cash can secure. This roofing is 32 inches wide, and is put up in rolls containing 108 square feet.** Allowing for laps, each roll will cover 100 square feet. **The two-ply roofing** weighs about 45 pounds per roll and **the three-ply roofing** weighs about 65 pounds per roll without cement, nails, etc. If this roofing is kept well coated **with our roofing cement** it is practically indestructible.

No. 9T3022 Two-ply Roofing only, per roll containing 108 square feet. Weight, about 45 pounds per roll. Price.....60c

No. 9T3023 Three-ply Roofing, per roll containing 108 square feet. Weight, about 65 pounds per roll. Price.....87c

Tarred Roofing Felts.

Price, 1½ Cents Per Pound.

We sell three grades of Roofing Felts. They are made of carefully selected material, and the greatest possible care is exercised in manufacturing them.

No. 9T3050 Tarred Roofing Felt. Is generally used in specifications for gravel roofing where a No. 1 thickness and grade is required, and we can recommend same for strictly first class work. Also used extensively for roofing lumber camps and temporary buildings. Put up in rolls of about 220 square feet, 32 inches wide, weighing about 60 pounds to the roll.
Price, per pound.....1½c

No. 9T3054 Tarred Roofing Felt. Is the regular felt used in gravel roofing, where four or more plys are specified. Put up in rolls of about 340 square feet, 32 inches wide, weighing about 60 pounds to the roll. Price, per pound.....1½c

No. 9T3055 Tarred Roofing Felt. This is used for gravel roofing, where cheap work is required. Is specially recommended as a No. 1 lining under slate, shingles or metal roofing, and for general sheathing purposes. Put up in rolls of about 460 square feet, 32 inches wide, weighing about 60 pounds to the roll.
Price, per pound.....1½c

Neponset Red Rope Roofing Fabric.

This is an airtight and waterproof roofing paper, and makes a durable covering for roofs and sides of buildings at **one-quarter the cost of shingles.** It must be painted with an oil paint. It is also used extensively instead of plaster, being tacked to furring or laths and covered with paper. **It is made in one grade only,** and that is the best it is possible to produce. With each roll we furnish sufficient caps and nails to apply it to roof or siding.

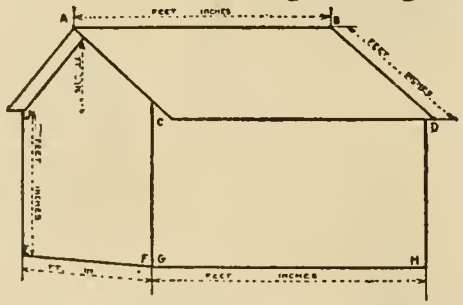
No. 9T3045 Neponset Red Rope Roofing Fabric, in rolls of 250 square feet. Per roll.....$2.25

No. 9T3046 Neponset Red Rope Roofing Fabric in rolls of 500 square feet. Per roll.....$4.25

No. 9T3052 Mallard Brand Rope Insulating Red Rope Roofing, thoroughly waterproof and odorless, the strongest and best paper made for all lining and sheathing purposes. Makes a cheap and durable covering for roof and walls of building. It must be painted with an oil paint. If kept well coated with paint is practically indestructible. Inside each roll we pack sufficient caps and nails to put it on. In rolls containing 500 square feet.
Price, per roll.....$3.50

No. 9T3053 Mallard Brand Rope Insulating Red Rope Roofing, in rolls containing 250 square feet.
Price, per roll.....$1.75

How to Order Roofing or Siding.



When sending us an order for roofing make a diagram as shown and fill out all measurements, being sure to **make allowances for projections.** It's not always possible for us to furnish sheets that will lay without any waste. It's always best for our customers to allow about five per cent over actual measure to provide for this waste. We send sheets that lay to best advantage and return balance of your money.

If sizes are not given we send sizes that are most used.

The chief merits of steel roofing are its cheapness, durability, ease of application and protection against fire. Our painted roofing is coated on both sides with iron oxide, re-ground in pure boiled linseed oil, applied with brushes. A layer of roofing felt should invariably be laid under all metal roofing, where gas or steam is used in the building, or where there is heat next to the roof. It will prevent dripping or sweating from condensation in cold weather, protect the paint on the under side of roof and serve as a non-conductor of heat and cold. **While our roofing is of the finest quality it will rust if not protected with paint.** As soon as applied on a building, we recommend that the roofing be well coated with the best iron oxide or graphite paint. We recommend that you use for this purpose our Seroco Graphite Creosote Paint, No. 30T2720, page 24. After a period of a year another coat should be applied, and then at intervals of three or four years, as may be found necessary. **Fire and lightning proof: Steel of the best quality is fireproof.** Underwriters are not slow to appreciate this fact, and hence advocate its use strongly as a protection against fire. Moreover, a building covered with steel is never known to have been injured by lightning, because of the large surface of metal scattering the electricity and rendering it harmless.

A square is 10 feet each way, or 100 square feet.

Plain Roll and Cap Roofing.

This roofing is used on all classes and kind of roofs with entire satisfaction.

For a square of this roofing we furnish as follows: 1 roll 50 feet long by 26¼ inches wide, 50 side cleats, 51 lineal feet of caps, ½-pound of 1-inch No. 12 barbed wire nails, and 1 pound of dry mineral paint.

Plain Roll and Cap Roofing, made of No. 28-gauge steel, painted both sides. Weight, per square, about 70 pounds.

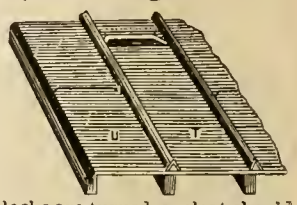
No. 9T3070 Price, per square, as described above, painted.....$3.00

No. 9T3071 Price, per square, galvanized (weight, 90 pounds).....4.85

The tools needed to apply this roofing are as follows: **1 pair edging tongs, 1 pair squeezing tongs, 1 pair tinners' snips and 1 mallet.**

We sell full rolls only of this roofing. A square is 10 feet each way, or 100 square feet.

V-Crimped Roofing.



This is the cheapest of all roofing offered and costs less to put it on the roof. **Any person can apply it** who can drive a nail. It is put down with an end lap only, **or with end locks** as shown; the latter being the better method. When end locks are turned, a cleat should be used in the middle of the end lock, which prevents the sheet from rattling. **It is made in two ways,** namely, **with side crimps only, or 2-V crimp as illustrated, and with side and center crimps or 3-V crimp, having a crimp in center of sheet.** 1 pound 1¾-inch No. 10 barbed wire nails, 1 pound dry mineral paint, 50 feet V sticks are required to lay a square of this roofing. 75 feet V sticks required for 3-V crimp roofing.

V-Crimped Roofing, 2-V crimp, 28-gauge steel, painted both sides. Sheets will lay 24 inches from center to center of crimps. The ends of sheets should be lapped not less than 3 inches. May be laid over sheathing, shingles, lath or direct to rafters placed 24 inches from center, on any roof having a pitch of more than 2 inches to the foot. The ends of sheets can either be lapped 3 inches or more, or put together with lock-joint.

To lay direct to rafters, without sheathing: Set rafters 24 inches from center to center, and nail V wood strips on top surface of the rafters. Place crosspiece between the rafters, level with the top of rafters, to support and nail the end of sheets. Begin at left hand corner of eaves, and end of building, and lay sheets from eave to ridge, allowing 3 inches for end lap and one crimp for side lap. Nail through the crimp about every 8 inches. At end laps use four nails to the lap. **When laid without end locks,** no special tools are required. **When end locks are made, a jointer, snips and mallet will be required.**

No. 9T3077 2-V Crimp Roofing, painted both sides.

Length of sheet, feet	5	6	7	8	9	10
Price, per sheet	27½c	33c	38½c	44c	49½c	55c

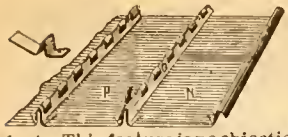
No. 9T3088 Barbed Wire Roofing Nails, 1¾ inches long. (One pound required for each square of roofing.) Price, per pound.....5c

Pressed Standing Seam Roofing.



This is also known as Double Cap Roofing. It is a universal roofing, and used for all kinds of buildings. Its distinctive feature is the outside cleat. This feature is no objection to its use, and only slightly objectionable regarding its appearance. It has many points to recommend it, not the least among which is the rapidity with which it can be laid.

For a square of this roofing we ship as follows: 6¼ sheets, 24 inches to centers by 96 inches long, 50 side cleats, 7 end cleats, ½ pound of 1-inch No. 12 barbed wire nails, and 1 pound of dry mineral paint.

Pressed Standing Seam Roofing, made of 28-gauge sheet steel, painted both sides. Weight, per square, about 71 pounds. Send diagram of roof and we will send sheets that will lay with least waste.

No. 9T3075 Price, per square, as described above, painted.....$2.85

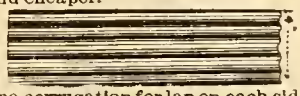
No. 9T3076 Price, per square, galvanized (weight, 88 pounds).....4.75

The following tools are required to lay this roofing: **1 pair squeezing tongs, 1 jointer, 1 pair snips and 1 mallet.** A square is 10 feet each way, or 100 square feet.

Pressed Corrugated Sheets

For Siding, Ceiling, Fireproof Partitions, Etc.

The strongest sheet metal known to the trade, and the most widely used is corrugated. For structures of moderate cost or light, inexpensive framing that are intended to be fireproof no better material can be had. The rigidity imparted to comparatively light sheets by corrugating makes them self supporting. For siding, 1-inch end laps will do. If used for roofing, the roof should have a pitch of not less than 3 inches to the foot. Sheets should have 3 to 6 inches end lap and one and one-half or two corrugations side lap. **Nails should always be driven through the crown of corrugation.** While the corrugated sheets are used extensively in some sections for roofing, we believe our V crimped roofing is better and cheaper.



Corrugated Sheets, 28-gauge, with 2½-inch corrugations. Sheets are 26¼ inches wide. Allowing one corrugation for lap on each side, it leaves a covering surface 24 inches wide, which lays to advantage on rafters or studding 24 inches, center to center. The end lap should be from 1 to 6 inches. Sheets are 5, 6, 7, 8, 9 and 10 feet long.

No. 9T3105 Corrugated Sheets, 28-gauge, 2½-inch corrugations. Painted both sides.

Length of sheet, feet..	5	6	7	8	9	10
Price, per sheet.....	27½c	33c	38½c	44c	49½c	55c

No. 9T3106 Corrugated Sheets, 28-gauge, 2½-inch corrugations. Galvanized.

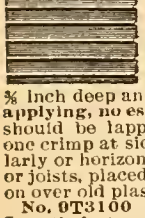
Price, per sheet...	44½c	53⅜c	62⅜c	71⅜c	80⅜c	89c

For paint and nails, see No. 9T3087.

Beaded Siding and Ceiling.



Made from the best quality box annealed steel, painted on both sides with the best iron oxide paint, ground in pure linseed oil, sheets, when beaded, cover 24 inches from center to center of outside beads, and can be furnished any length up to 8 feet. The heads are small corrugations, ⅝ inch wide by ⅜ inch deep and 3 inches from center to center. **In applying, no especial tools are required.** The sheets should be lapped 1 or 2 inches at ends, and over one crimp at side. They can be applied perpendicularly or horizontally (as desired) to boards, studding or joists, placed the proper distance apart, or put on over old plaster.

No. 9T3100 Beaded Siding or Ceiling.

Length, feet.....	4	5	6	7	8

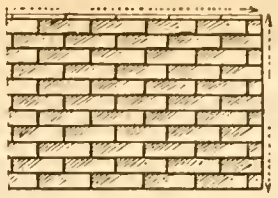
OUR PRICES ON METAL ROOFING, CONDUCTORS, EAVES TROUGH, ETC.,

are subject to market changes. Prices are correct at the time we go to press, but the market on this class of goods is in an unsettled condition. You can safely send us your orders at prices named, for if there should be a decline in the market we shall reduce our prices accordingly, and return the difference in cost to our customers.

WE SHIP METAL ROOFING, CONDUCTOR AND EAVES TROUGH from St. Louis or factory in Northern Ohio, if ordered in large quantities, when it will save freight charges for our customers.

Steel Brick Siding.



Steel Brick Siding painted both sides. It can be applied by any mechanic, lays perfectly smooth, and after painting cannot be distinguished from the finest Philadelphia pressed brick. **It costs no more than the best wood siding** and about one-fifth that of brick. **In beauty of appearance, durability, cheapness and as a protection against fire,** we claim this siding has no equal. Insurance underwriters, as a rule, give it the same rating as brick or stone. **This siding is manufactured of the best soft steel,** and shipped in lengths of 60x28 inches.

No. 9T3098 Price, per sheet, painted.....33¼c

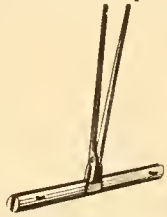
No. 9T3099 Galvanized Brick Siding. Price, per sheet.....53⅓c

It requires about ¾ pound of ⅞-inch Barb Wire Roofing Nails to lay a square of this roofing. See No. 9T3088.

A square of pressed brick siding consists of 8⅓ sheets.

Roofing Tools.

The tools required for the proper application of our roofings and sidings are the fewest possible, and are now placed by us, as regards cost, within the reach of all.



Edging Tongs.

No. 9T3090 Edging Tongs; used in **turning up the standing seam** in roll cap roofing.

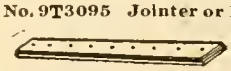
Price, each.....$1.50

Squeezing Tongs.

No. 9T3093 Squeezing Tongs; used in squeezing the seams on roll cap and pressed standing seam, or double cap roofing. Price, each, $1.50

Jointer.

No. 9T3095 Jointer or End Locker; used in making the end locks on V-crimp and pressed standing seam and other roofings.



Price, each.....50c

Size, 7x10 inches. Price, per 100.... 1.67; each....3c

MILL WORK. SASH, DOORS, BLINDS AND MOLDINGS.

DO NOT BUY LUMBER AND MILL WORK TOGETHER.

HAVE A SEPARATE ESTIMATE MADE OF YOUR MILL WORK AND COMPARE WITH OUR PRICES. IT WILL PAY YOU TO DO SO.

OUR SPECIAL MILL WORK CATALOGUE IS REVISED EVERY TIME THE PRICES CHANGE, so our prices are always right at the bottom. You cannot afford to build a house without first consulting it, even if only to see that you do not pay too much elsewhere. It is sent free on request.

REMEMBER OUR GOODS ARE GUARANTEED to be strictly up to grade. We do not handle third quality doors. Do not wait until you need these goods before you send us your order. There is scarcely an order we receive but has some item that is irregular size or must be made, which causes a delay of from five to ten days. Some carpenters cut a hole and then order a sash or door to fit it. They should see what size sash or door is regular stock and cut the hole to fit the sash or door. This would enable us to fill orders with more promptness, and be more satisfactory to all parties concerned. All goods quoted by us in these lines are made of white pine, unless otherwise stated in descriptions.

FREIGHT RATES are very low on mill work. Do not let the matter of freight rates prevent you from sending your order to us. Get the rate from your station agent, or write to us for it.

WE GUARANTEE SAFE DELIVERY and will REPLACE BROKEN GLASS on condition that consignee sends in paid expense bill, indorsed by freight agent, as to condition of doors or windows on arrival at destination, in order that we may put in claim against railroad company.

IN ORDER TO BE ABLE to continue to furnish sash, doors and mill work for some of the best houses that are being erected in the country, we must keep strictly up to date in designs, and therefore we offer this season an entirely new line of front doors. These doors were designed especially for us. They are new, and until our catalogue goes to press no doors of this pattern will have been sold. If you order one of these front doors from us you will have a door that is distinctly different from anything in your own vicinity; a door that is artistic. They are securely crated for shipment. We furnish the doors ready for oil finish and they are always made after the order is received by us, so they will reach our customers perfectly clean. Our carvings are wood, not a composition of sawdust and glue, such as are used in the cheap, inferior doors, which will soon crumble away. As these doors are made after the order is received you must allow from five to ten days for us to fill the order after it reaches us.

THE GLASS WE USE. By a process recently discovered, we produce design work of a most intricate and elaborate description at a very moderate cost. Notwithstanding the low cost, the work is not only as good but better than the most expensive work heretofore made, as it involves the delicate shades, perspective and half tone effects which have previously been considered impossible in this line of ornamentation. This glass must not be confounded with the ordinary sand blast work, as it is far more elaborate in general effects. This glass is used in our Floral and Woodland pattern doors. Our combination geometric chipped glass is superior to anything that has ever been put on the market, and the semi-obscurity, bright and pleasing effect and general appropriateness of geometric chipped glazing are unexcelled. This glass is used in our Bon Ton doors.

WHEN SENDING US YOUR ORDER FOR DOORS AND SASH, DO NOT OVERLOOK OUR LINE OF BUILDERS' HARDWARE. We sell more builders hardware to owners and builders and contractors, than any other concern on earth, and our prices will show you a saving of from 20 to 50 per cent from what you would have to pay were you to buy from any other dealer.

FANCY FRONT DOORS.

No. 9T3502 "Floral" Door, 1¾ inches thick, solid molding, raised panels, glass capped top and bottom wood carvings. Glazed with first quality double strength glass, with neat flower design. For price see below.

No. 9T3503 "Floral" Door, 1¾ inches thick, otherwise same as above. For price see below.

No. 9T3506 "Woodland" Door, 1⅜ inches thick; solid molding, raised panels on both sides, glass capped top and bottom. Carved molding, door glazed with double strength glass, with tasty animal design. For price see below.

No. 9T3507 "Woodland" Door, 1¾ inches thick; otherwise same as above. For price see below.

No. 9T3510 "Bon Ton" Door, 1⅜ inches thick, solid moldings, raised panel pattern, panel hand carved, capped at bottom of glass, glazed with combination geometric chipped glass, glass center and colored cathedral, border light. For price see below.

No. 9T3511 "Bon Ton" Door, 1¾ inches thick, otherwise same as above. For price see below.

No. 9T3514 Our "Acme" Door, 1⅜ inches thick, solid molding, raised panels both sides, top panel hand carved. Capped top and bottom with heavy fancy hand carved wood ornament, glazed with leaded art glass, made up with a bevel plate glass center and venetian opalescent and cathedral glass. For price see below.

No. 9T3515 "Acme" Door, 1¾ inches thick, same as described above. For price see below.

No. 9T3518 "Avenue" Door, 1⅜ inches thick, solid molding, raised panels both sides, capped top and bottom, with side pillars and hand carved moldings, glazed with 1½-inch bevel polished plate glass. This is one of the handsomest doors ever made and is very rich. For price see below.

No. 9T3519 "Avenue" Door, 1¾ inches thick, same as described above. For price see below.

No. 9T3522 Our "Boulevard" Door, 1⅜ inches thick, flush artistic molded on one side, solid molded on the other. This door is glazed in 1⅜-inch bevel polished plate glass. This style of door is now used in the most expensively built houses in the country. It has a very rich appearance and is not gaudy. For price see below.

No. 9T3523 "Boulevard" Door, 1¾ inches thick. For price see below.

WOOD SCREWS.

No. 9T4112 The illustration shows actual size of screws up to 3 inches in length and No. 20 in diameter. Hence, in ordering wood, blued, brass or nickel plated screws, you can tell from this illustration what size you will need. Screws are now almost as cheap as nails. Better goods than we offer are not made. We list below the sizes most commonly sold, which we carry in stock and sell in any quantity. We can furnish full packages of 1 gross of any size or any kind of screw wanted, but do not break packages on sizes other than listed below.

Scoville's Patent Gates.

No. 9T4332 Scoville's Patent Perfection Oil, Molasses or Kerosene Gates. All iron, japanned. It is warranted to hold any kind of liquids from the thickest of syrups, molasses, varnish, japans, to the thinnest and most difficult of fluids to retain, such as benzine, kerosene, naphtha, turpentine, etc. It is perfectly self adjusting, requiring no attention to keep in order; no set screws or nuts to break or loosen; no packing to get loose or wear out; draws a smooth, perpendicular stream, and is therefore suited to all classes of use where a good gate or faucet is desired.

Inside diameter	½	¾	1	1¼	1½	2
Price, each	41c	52c	60c	71c	86c	$1.23

Oil Faucet.

No. 9T4333 Oil Faucet, made of iron, japanned, key bushed with brass, lever handle, screw shank, for oil barrel.

½-inch.....25c | ⅝-inch.....27c | ¾-inch.....32c

For other Faucets, see Index.

Money Drawer.

No. 9T4334 Money Drawer. No merchant can afford to be without an alarm cash drawer—no matter if he purchases it from us or elsewhere. It is a safeguard against sneak thieves. Gong sounds every time drawer is opened or whenever an attempt is made to open it. It is opened by a combination which may be changed as often as desired. **Can be opened by one knowing the combination** on which it is set as quickly as any drawer. Has **sliding coin tray** with partitions underneath for paper money. Price, each.....90c

Tobacco Cutter.

No. 9T4335 Tobacco Cutter with Image. Cast iron, with steel blades. Japanned finish. Price, each.....37c

Boot Jack.

No. 9T4336 Beetle Pattern Boot Jack, made of cast iron nicely japanned. Also useful for holding doors open. Price, each..... 8c

Sacking Needle.

Burr Steel Safety Lift.

The Burr Safety Lifts are made of the best selected steel. No part of the lift can be worn out by ordinary usage, and it is far cheaper than the ordinary lock blocks, as it has no wedge, eccentric, springs or teeth to get out of order and need constant repairs. The brake against which the rope is locked being perfectly smooth can in no way injure the rope. **Special descriptive circular will be sent free, on request.**

No. 9T4410 The Burr Safety Lift. Size 3. For ⅜-inch rope; one man can hoist 300 pounds. Single lower block. Weight, 4½ pounds; capacity, 800 pounds. Price.....92c

No. 9T4411 Size 4. For ½-inch rope; one man can hoist 350 pounds. Single lower block. Weight, 6½ lbs.; capacity, 1,500 lbs. Price.....**$1.69**

No. 9T4412 Size 5. For ⅝-inch rope; one man can hoist 400 pounds. Single lower block. Weight, 11 pounds; capacity, 2,000 pounds. Price.....**$2.15**

No. 9T4413 Size 6. For ¾-inch rope; one man can hoist 450 pounds. Single lower block. Weight, 17 pounds; capacity, 2,500 pounds. Price.....**$2.61**

No. 9T4414 Size 4½. For ½-inch rope; one man can hoist 600 pounds. Double lower block. Weight, 10 pounds; capacity, 3,000 pounds. Price.....**$3.06**

No. 9T4415 Size 5½. For ⅝-inch rope; one man can hoist 700 pounds. Double lower block. Weight, 20 pounds; capacity, 3,500 pounds. Price.....**$3.68**

No. 9T4416 Size 6½. For ¾-inch rope; one man can hoist 850 pounds. Double lower block. Weight, 28 pounds; capacity, 5,000 pounds. Price.....**$4.29**

The above prices and weights include upper and lower block. **No rope furnished at above prices.**

The Safety Rope Hoist.

The Safety Rope Hoist illustrated herewith hoists, lowers, locks and unlocks, without the bother of a trip rope. The heavier the load the tighter it locks. It can be used in any position, horizontal or perpendicular. Just the thing for erecting windmills and taking out and putting down pumps. It is made of the best malleable iron and fully warranted. All sizes have double lower block.

No. 9T4422 Made to take ⅜-inch rope, One man can lift 600 pounds. Capacity, 1,000 pounds. Price, without rope.....80c

No. 9T4423 Made for ½-inch rope. One man can lift 600 pounds. Capacity, 1,500 pounds. Price, without rope....**$1.50**

No. 9T4424 Made for ¾-inch rope. One man can lift 600 pounds. Capacity, 2,500 pounds, Price, without rope.....**$2.67**

Awning Pulleys.

Galvanized Awning Pulleys. Will not take rope larger than ⅝ inch diameter. **Single pulleys** weigh 3, 5 and 8 ounces; **double pulleys** weigh 6, 8 and 12 ounces.

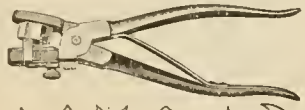
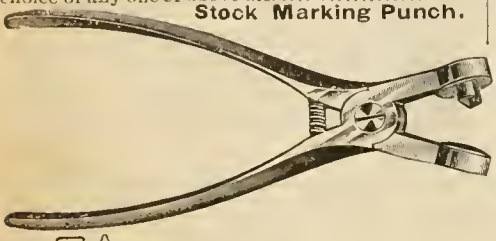
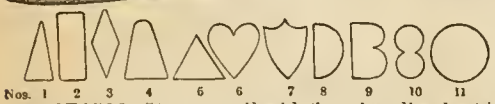
Cattle Punch.



No. 9T4583 Cattle Marking Punch is made according to the idea of an experienced cattleman. It is made to do good work, and last. Length, 10 inches. Size of dies, 1 inch long by ⅜ to ⅝ inch wide, according to design. Only one die can be used with each punch but by means of gauge any part of die can be cut from edge of ear. To cut full pattern from ear remove the gauge. Weight, 22 ounces. Price, each, your choice of any one of above dies.....$4.60

Stock Marking Punch.

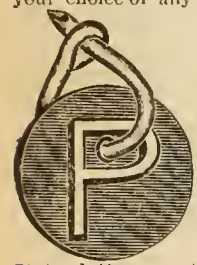




Nos. 1 2 3 4 5 6 7 8 9 10 11

No. 9T4586 Strong malleable iron handles, best steel cutting dies. Practical, strong and durable. The dies are from ¾ to ⅞ inch long; entire length of tool, 11¼ inches. The dies are hollow and cut, which is more humane than the use of solid dies which simply punch a hole through the ear. **When ordering, state the number of the die you prefer.** Weight, packed for mail or express, 1½ pounds. Price, each, your choice of any one of the above dies....$1.75

Stock Marks.



No. 9T4600 Cast Iron Stock Marks, with raised letter—never wear out. Used with Perfection Ring and Ringer. Made only with any one single letter. Price, per dozen 5c
Per 100.....38c

Brass Stock Marks.

Stock Mark to use with Perfection Ringer and Rings. **Made of brass,** about the size and thickness of a silver quarter dollar. **The initial is stamped** on mark with a steel stamp. **State letter wanted** when ordering. Ringer or rings are not included in prices quoted.

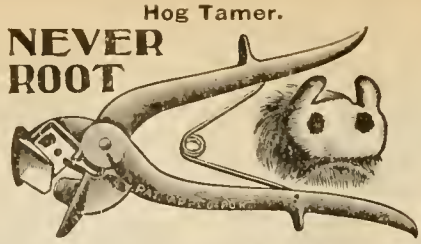
No. 9T4611 Stock Marks, with consecutive numbers on one side, any three letters or figures on the other. Price, per 100, $3.50; per dozen.....42c

Hog Tamer.

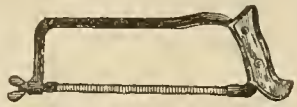


No. 9T4615 Never Root Hog Tamer. Cuts across tip of nose with curve at each side and severing same in the middle, making two projections (above where two rings would be placed) heavy on the tips, their weight causing them to drop apart and heal quickly in that position; thus cutting only half as much as any other tamer, and leaving no loop to be torn off or hang over the nostrils. The tongs are made of good grade malleable iron; knife, of fine quality of steel, is T shaped and reversible, one edge for pigs and shoats, the other for large hogs—changed by removing the thumbscrew; holes in knife for thumbscrew are placed so as to make it self-adjusting to the gauges on back of cutting plate, ganging the proper depth of cutting on various sizes of hogs. Weight, 15 ounces. Price, each..... ...60c

Hurd's Hog Tamer.

No. 9T4616 Hurd's Hog Tamer. Two different sizes of steel knives furnished with each tamer.
Price, each 40c

Dehorning Tools.



No. 9T4625 Dehorning Saw, with japanned malleable iron frame, beech handle, complete, with blade, 9½ inches long, ¾ inch wide. Price, each..... .....59c
No. 9T4626 Extra blades for this saw, each... 9c

Newton & McGee's Draw Cut Patent Dehorner.

With Latest Improvements. The frames are made of **best malleable iron,** and the blades of the **best steel.** Cuts perfectly smooth, heals **quickly** and causes the animal **very little pain.** They are fully guaranteed in every respect, and if any part should break from a flaw or defect, **we will replace same without expense to the purchaser.** They are made in three sizes.

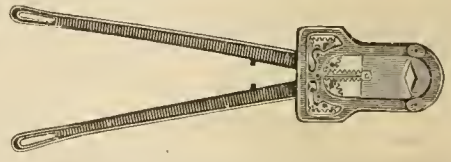
No. 9T4631 No. 1 Draw Cut Dehorner, is for calves only. Has a 2-inch opening. Length, 2 feet 3 inches. Weight, 4½ pounds. Price, each.....$2.90
No. 9T4632 No. 2 Draw Cut Dehorner, as described above, for young and medium aged cattle. Has a 3½-inch opening. Length, 3 feet 4 inches. Weight, 12 pounds. Price, each.....$5.25
No. 9T4633 No. 3 Draw Cut Dehorner, as described above, is for either young or old cattle. Has 4½-inch opening. Length, 3 feet 8 inches. Weight, 17 pounds. Price, each..... .....$5.70

Dr. H. W. Leavitt's Latest Dehorning Clipper.

With this Clipper, the handles do not go far enough apart in opening the blades full to prevent the operator **having ample purchase,** and twice the power of any other dehorning machine made. This alone is a most desirable feature, as this is power enough to clip any large horn **with perfect ease to the operator. Will clip either small or large horns. Weight, 14 pounds.**

No. 9T4638 Price, each..... .....$5.40

Leavitt's V Shape Blade Dehorning Clipper.



No. 9T4640 This illustration represents Leavitts' V shape blade Dehorning Clipper, which cuts all around the horn as handles are closed. Knives cannot interlock, or cut into each other. Has double power and is **equal to any other dehorner made.** This style dehorner is made in the large size (No. 3) only, but will clip any size horn from cattle of any age, smooth and clean. **In opening the blades,** the handles do not go far enough apart to prevent the operator having ample purchase, and twice the power of any other dehorner made. This is a very desirable feature, as it has power enough to clip any large horn, with perfect ease to the operator.

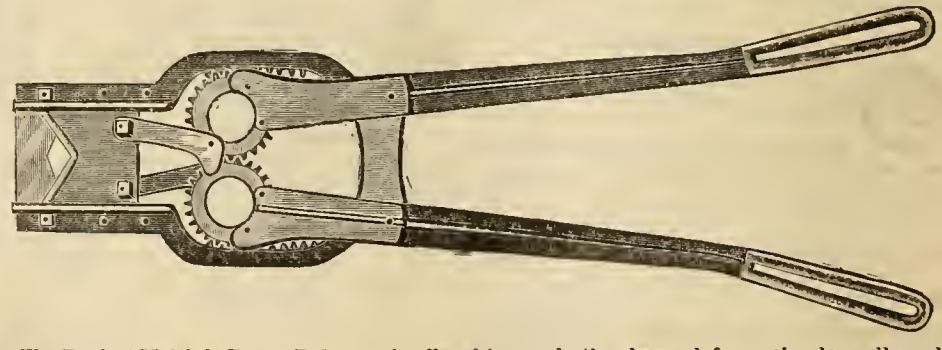
The material used in manufacturing this clipper is the best quality. The handles and U head frame are malleable, while the knives are of the best crescent steel; can be easily cleaned and do not tarnish, thus preventing all possibility of blood poisoning, often occurring from the use of inferior machines.

Every clipper is thoroughly tested before being sent out. Twisting or prying will cause the blades to break. We will not replace blades broken from this cause. **Shipping weight, 14 pounds.**
Price, each..... .....$5.25

No. 9T4641 Extra Sliding Knife for V blade Dehorner. Price, each..... 40
No. 9T4642 Extra Stationary Knife for V blade Dehorner. Price, each..... .40
No. 9T4643 Pair of Knives for V blade Dehorner. Price, per pair..... .80

Although our prices are low when compared with others, do not let it lead you to think the quality is sacrificed. Remember we buy direct from the manufacturers, for spot cash, in quantities large enough to **secure the very lowest prices,** thus saving to you the middleman's profit. To secure the full benefit of our low prices hardware **should be ordered in lots to weigh 100 pounds and shipped by freight.** While it is true, you can, in most cases, **save money on any order,** you can **save still more** by having your orders weigh 100 pounds and **have them shipped by freight.** You can certainly find goods in this department that will enable you to do this.

THE PERFECT DEHORNER.



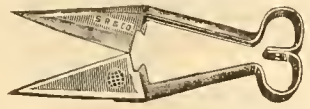
The Perfect Multiple Power Dehorner is offered to supply the demand for a simple, well made, strong dehorning tool at a fair price. Will clip smooth and clean any size horn that clipper will take in. Knives cannot cut into each other. It works easy. Opens 3¾ inches, which is large enough to admit any horn. **We challenge the world to produce a better clipper than the Perfect Multiple Power Dehorner.** The handles and frame are made of malleable iron. The blades are made from the best tool steel. It is practically unbreakable. The blades can be readily sharpened or replaced. The power obtained from the leverage is greater than in any other dehorner, it will cut instantly a horn of any size without crushing or twisting it. There are so few parts that we can sell these dehorners at a lower price than any dehorner made.

No. 9T4644 Price, each..... .... $4.40

NOTICE—Cattle to be dehorned must be secured so they cannot move their heads. Care must be used not to pry or twist with the clippers. This will break the blades. We guarantee all clippers sold by us to be perfect in material and workmanship, but will not replace blades broken by improper use.

SHEEP SHEARS.

Our Sheep Shears are made of a high grade of cutlery steel, which is produced specially to meet the peculiar requirements of our goods. They are made with the best modern appliances and machinery, and our system of inspection is so thorough as to prevent any but perfect goods being sent out. **In finish and appearance,** as well as in quality and durability, our shears are superior to any other line on the market, either imported or domestic. **We guarantee every pair of shears to be perfect.** Each pair of sheep shears is examined and tested in wool before packing. **The blade of each shear is etched as follows:** "If this shear does not prove as good or better than any shear you ever had return it and money will be refunded." **Our prices are based on cost to manufacture** with only our one small profit added. We do make the best shear it is possible to produce and sell it at a price that cannot be named on shears which must bear a large advertising expense and the middleman profits.



No. 9T4652 Great Western Sheep Shear. Double bow. Straight back and edge. Full polished blades. The shape and style used by professional shearers of the West. Don't let our low price cause you to doubt the quality of these shears. They are etched on blade as follows: "If this shear does not prove as good or better than any shear you ever had return it and money will be refunded."

Length of blade, inches	6	6½	7
Price, each	79c	82c	85c

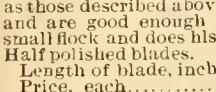
No. 9T4654 Great Eastern Sheep Shear. Single bow. Bent handles. Full polished and swaged. The shape and style used in the Central and Eastern States. Same quality, workmanship and finish as described under preceding number.

Length of blade, inches	5½	6	6½
Price, each	79c	83c	86c

No. 9T4656 Sheep Shears, are made of the same high grade steel used in above shears, but they are not so nicely finished nor so carefully inspected. They do not carry the same guarantee as those described above but they will do good work and are good enough for anyone who has only a small flock and does his own shearing. Bent handles. Half polished blades.

Length of blade, inches	5½	6
Price, each	52c	55c

For Sheep Shearing Machines, see Index.



No. 9T4659 The Celebrated Burgon & Ball's "B. B. A." Sheep Shears, double bow, straight swaged blades, polished; the kind that is used by professional sheep shearers.

Size, inches	6½	7
Price, each	$1.05	$1.10

Shepherds' Crooks.

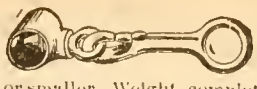
NOTICE—The price on Bow Pins is for one only.

Cattle Tie Irons.



No. 9T4695 Cattle Tie Irons, tinned, with patent covered spring bolt snap. **Complete with thimble** for rope ⅝-inch or smaller. Weight, complete, 6 ounces.
Price, complete, per dozen, 52c; each..... 5c
No. 9T4696 Thimble only; tinned; for rope ⅝-inch or smaller.
Price, per dozen, 29c; each..... 3c

German Pattern Cow Ties.

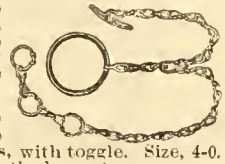
No. 9T4697 Welded links, closed ring cow ties, with toggle. No. 2-0, length 4½ feet.
Price, each..... $0.15
Per dozen..... 1.75

No. 9T4698 Welded Links, Ohio Pattern Cow Ties, with two toggles. No. 2-0, length 4½ feet.
Price, per dozen, $1.54; each..... 13c

Niagara Cow Ties.

The Niagara wire link is formed on the principle of a square knot. The greater the strain the tighter holds the knot, so that no force will pull its fastenings apart. Being made entirely by automatic machinery this chain can be turned out at a less cost than other patterns of chain and is therefore sold cheaper.

No. 9T4699 Niagara Wire Link Ohio Pattern Cow Ties, with toggle. Size, 2-0, suitable for ordinary size cows. This is the size and weight commonly sold.
Price, each..... $0.12
Per dozen..... 1.39
No. 9T4700 Niagara Wire Link Ohio Pattern Cow Ties, with toggle. Size, 4-0, large and strong for the largest cow.
Price, per dozen, $1.93; each..... 17c

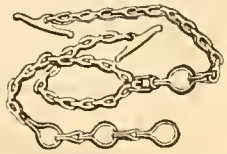


No. 9T4701 Niagara Wire Link Closed Ring Cow Ties, with toggle. Size, 2-0. Large and strong enough for any ordinary size cow. The size that is commonly sold.
Price, each..... $0.13
Per dozen..... 1.50
No. 9T4702 Niagara Wire Link Closed Ring Cow Ties, with toggle. Size, 4-0. Large and strong enough for the largest cow.
Price, per dozen, $2.03; each..... 17c

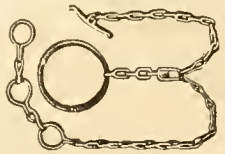
No. 9T4703 Niagara Wire Link Open Ring Cow Ties, with toggle. Size, 2-0. Large and strong enough for any ordinary size cow. The size that is commonly sold.
Price, each..... $0.13
Per dozen..... 1.50
No. 9T4704 Niagara Wire Link Open Ring Cow Ties with toggle. Size 4-0. Large and strong enough for the largest cows.
Price, per dozen, $2.03; each..... 17c

American Cow Ties.

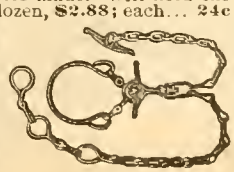
The links of the American Cow Ties are stamped from a piece of steel, and chain is constructed entirely without welds, making the strongest and safest chain that can be produced. The flat chain is easier on stock.



No. 9T4707 The American Flat Link Ohio Pattern Cow Tie with two toggles. Size, 3-0. Large and stronger than the size commonly sold.
Price, each..... $0.16
Per dozen..... 1.88
No. 9T4708 The American Flat Link Ohio Pattern Cow Tie with two toggles. Size, 5-0. The largest and strongest cow tie made. Will hold the biggest bull.
Price, per dozen, $2.75; each..... 23c



No. 9T4709 The American Flat Link Closed Ring Cow Ties with toggle. Size, 3-0. Larger and stronger than the size commonly sold.
Price, each..... $0.17
Per dozen..... 2.00
No. 9T4710 The American Flat Link Closed Ring Cow Ties with toggle. Size, 5-0. The largest and strongest cow tie made. Will hold the biggest bull. Price, per dozen, $2.88; each... 24c



No. 9T4711 Open Ring American Link Cow Ties with toggle. Size, 3-0. Large and strong enough for the largest cow.
Price, each..... $0.17
Per dozen..... 2.00
No. 9T4712 Open Ring American Link Cow Ties with toggle. Size, 5-0. The largest and strongest cow tie made. Will tie the largest bull. Price, per dozen, $2.88; each..... 24c

Combination Ohio Pattern Cow Ties.

No. 9T4713 Combination Ohio Pattern Cow Ties with two toggles. This tie has the American link to go around the neck and the Niagara wire link to fasten to stanchion or stall, thus giving the advantage of the flat link, which is easy on the neck at little more than the price of the regular chains. Size 2-0, large and strong enough for ordinary sized cows. The size that is commonly sold.
Price, per doz., $1.47; each..... 13c

The Dominion Cow Ties.

The accompanying illustration shows the Dominion or Short Cow Tie with stall fixtures. **The cheapest, safest** and most convenient tie for either cows or horses. This tie and fixture gives great freedom to the head and avoids the long chain which can entangle the animal's foot.
No. 9T4716 The Dominion Niagara Wire Link Cow Tie. Size 2-0 complete with stall fixtures. Large and strong enough for ordinary sized cows. Price, per doz., $1.70; each 15c
No. 9T4717 The Dominion Niagara Wire Link Cow Ties. Size 4-0 complete with stall fixtures. Large and strong enough for the largest cows. Price, per doz., $2.08, each..... 18c
No. 9T4718 The Dominion American Flat Link Cow Ties. Size 3-0 complete with stall fixtures. Larger and stronger than the size commonly sold.
Price, per doz., $2.00; each..... 17c
No. 9T4719 The Dominion American Flat Link Cow Ties. Size 5-0 complete with stall fixtures. Large and strong enough for the biggest bull. The largest and strongest cow tie made.
Price, per doz., $2.70; each..... 23c

Hay Racks and Feed Boxes.

No. 9T4720 Cast Iron Corner Hay Rack. Weight, 29 lbs.
Price, each..... 94c
No. 9T4723 Wrought Steel Corner Hay Rack; same shape as above but made of bent ½-inch steel rods. **State if to be placed on "off" or "near" side** of the horse. Price, each, $1.50

Cast Iron Feed Boxes.

No. 9T4725 Cast Iron Corner Feed Box; is 16 inches on each side; 10 inches deep. Weight, 28 pounds.
Price, each..... 87c

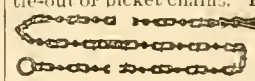
No. 9T4727 Slow Feed Corner Feed Box. It has seven small cells or pockets, from which the grain cannot be poked, and which absolutely prevent waste, and also prevent a greedy horse eating the grain too fast. Those who have tried it say: "It works complete." Each cell in the manger holds one pint. Weight, 25 pounds. Capacity, 15 quarts. Size, 17x17x6 inches deep. Price, each..... $1.35

Picket Pins and Chains.

No. 9T4735 Straight Fluted Malleable Iron Picket Pins, 15 inches long, with swivel. Weight, 1½ lbs.
Price, each..... 7c

No. 9T4736 Spiral Wrought Iron Picket Pins. 14½ inches long, with swivel. Price, each..... 14c

No. 9T4738 Picket Pin, stamped from steel, securing maximum strength with least amount of metal. Is equipped with steel swivel and ring, especially adapted for use with our tie-out or picket chains. Price, each..... 10c



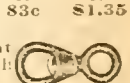
Eureka Wire Link Picket or Tie-out Chains are stronger, better and more durable than a rope. These chains have a stake ring 3½ inches in diameter on one end, a steel swivel snap on the other, and a swivel in the center.
No. 9T4743 Eureka Wire Link Picket Chain, size 1. Light, but strong enough for a docile animal.

Length, feet	20	30	50
Price, each	41c	60c	$1.00

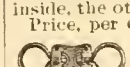
No. 9T4744 Eureka Wire Link Picket Chain, size 2-0. Heavy and strong enough for unruly animals.

Length, feet	20	30	50
Price, each	55c	83c	$1.35

Lariat Swivels.



No. 9T4747 Malleable Iron Lariat Swivels, 3 inches long. One eye ⅝ inch inside, the other ¾ inch inside.
Price, per dozen, 25c; each..... 3c



No. 9T4748 The American Wrought Steel Lariat Swivel, eyes ¾ in. inside. Price, per dozen, 33c; each..... 3c

Tyler's Safety Weaner.

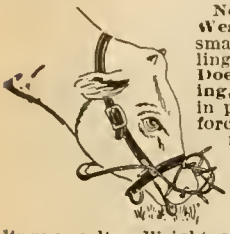
No. 9T4754 No sharp points in front to prick or gouge the cow. Perfectly safe and harmless. Is the only weaner having any side protection to prevent sucking sidewise, and is warranted to wean the most obstinate case without cruelty or injury. Does not go through the nose or swing loose to wear the nose or make it sore. Pat. Oct. 2, 1886.
No. 1, for small calves. Price, each..... 16c
No. 2, for large calves. Price, each..... 17c
No. 3, for yearlings. Price, each..... 20c
No. 4, for two-year-olds and cows. Price, each.. 23c

CALF WEANERS.

No. 9T4757 Fuller's Calf Weaners. Small size, with wire bit, for calves from four to eight months old. Price, each..... 17c

No. 9T4758 Calf Weaners. Medium size, for calves from eight months to two years old. Price, each..... 20c

No. 9T4759 Fuller's Calf Weaners. Large size for cows. (Wire bit not used for this size.) Price, each..... 25c



No. 9T4763 Hoosier Calf Weaner, No. 1, will adjust to fit smallest calves to small yearlings. Weight, about 1¼ pounds. **Does not interfere with feeding,** but when the head is raised in position to suck, the weight forces the muzzle over his mouth. Price, each..$0.26 Price, per dozen..... 3.05

No. 9T4764 Hoosier Range Weaner, same as above, only larger. **Suitable for large calves,** yearlings or colts. Weight, about 2 pounds. Price, per dozen, $4.05; each..... .....34c

No. 9T4765 Hoosier Cow Weaner will adjust to fit large yearlings to large cows. The halter is made of heavy oil filled waterproof leather. The frame is made of ⅝ x ⅝ wrought steel. The points of No. 5 steel wire; **all metal parts are tinned to prevent rust.** Weight, about 3 pounds. Price, per dozen, $6.06; each..51c

These Weaners have been thoroughly tested and have given the best of satisfaction in every way. The straps are **well filled with oil;** substantial and durable; when the head is raised in position to suck, the wire basket drops over the mouth.

No. 9T4771 Size 1, for calves. Each.....$0.21 Per dozen..... 2.48

No. 9T4772 Size 2, for yearlings. Each..... .23 Per dozen..... 2.68

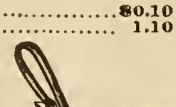
No. 9T4773 Size 3, for cows. Each..... .27 Per dozen..... 3.23

Calf Feeders.

No. 9T4774 The Knapsack Calf Feeder attaches to the head like a halter. By its use the operator becomes a spectator, leaving the hands free, an advantage that will be appreciated by those who have had experience. **The great practical advantage of the feeder is to prevent the calf from swallowing his food rapidly** and in an unnatural manner, giving perfect digestion and the benefit of the full food value. The only care necessary to keep the feeder clean and wholesome is to separate the nipple from the bowl and place in cold water. Price, each..... .....25c

No. 9T4776 Bentley's Calf Feeder "does not make skimmed milk equal to cream" as claimed for some calf feeders, **but to teach a calf to drink** it is the best thing we have seen. It need not be used but a few times, is quickly put on or taken off and can be easily cleaned. It is made from heavy wire coated with tin to prevent rust and is furnished with a good rubber nipple. Price, each.....$0.10 Price, per dozen..... 1.10

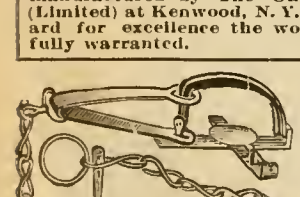
Animal Pokes.



No. 9T4775 Animal Poke, like illustration. Price, each.....24c

Genuine Newhouse Traps.

The Genuine Newhouse Game Traps are branded on the pan "S. Newhouse" and are manufactured by The Oneida Community, (Limited) at Kenwood, N. Y. They are standard for excellence the world over and are fully warranted.

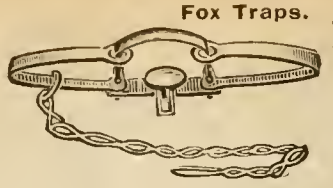


No. 9T4836 Genuine Newhouse Traps. Spread of jaws, 3½ inches; with chain. Size, No. 0. Weight, 13 ounces. Price, each..$0.18 Per dozen.... 2.13

No. 9T4837 Genuine Newhouse Traps. Spread of jaws, 4 inches; with chain. Size, No. 1. This is the size most used. Weight, 17 ounces. Price, per dozen, $2.50; each 21c

No. 9T4838 Genuine Newhouse Traps. Spread of jaws, 4¼ inches; with chain. Size, No. 1½. This is called the Mink trap. **Often used for catching foxes.** Weight, 1 lb. 6 oz. Price, per dozen, $3.75; each..32c

Fox Traps.



No. 9T4339 The Genuine Newhouse Trap, with double spring and chain. Size No. 2, the fox trap; spread of jaws, 4⅜ inches. Weight, 1 lb. 10oz. Price, each $0.44 Per dozen. 5.25

Otter Traps.

No. 9T4840 The Genuine Newhouse Trap, with double spring and chain. Size No. 3, the otter trap; spread of jaw, 5½ inches. Weight, 2½ pounds. Price, per dozen, $7.00; each..... .....59c

Beaver Traps.

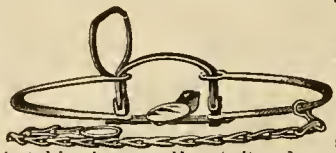
No. 9T4841 The Genuine Newhouse Trap, with double spring and chain; size No. 4, the beaver trap; spread of jaw, 6¼ inches. Weight, 3 pounds 2 ounces. Price, per dozen, $8.25; each.....69c

Single Spring Otter Traps.

No. 9T4844 Newhouse, Size 2½, Single Spring Otter Trap was designed in response to requests from old and experienced trappers. It is used more especially for catching otter on their "slides." For this purpose a thin, raised plate of steel is adjusted to the pan so that when the trap is set the plate will be a trifle higher than the teeth on the jaws. The points of the teeth are made very sharp, to pierce the animal's breast, and the raised plate can be readily detached if desired, making the trap one of general utility. Spread of jaws, 5 inches. Price, per dozen, $8.25; each (with chains)....69c

No. 9T4845 Newhouse Size 3½ Otter Trap, single spring with chain. In some localities the otter grows to an unusual size, with great proportionate strength, so that we sell an especially large and strong pattern for those who prefer a single spring trap. The No. 3½ Newhouse was designed to meet these requirements. All the parts are heavier than the No. 2½, the spread of jaws is greater, and the spring stiffer. Spread of jaws, 6½ inches. Price, per dozen, $9.25; each.....78c

Clutch Beaver Traps.



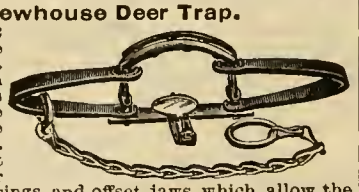
This clutch attachment was originally sent to the factory by an old trapper, the inventor, who had had wonderful success with it in taking beaver. He sets it under water at the right depth, with the clutch end farthest from the shore, and sticks two small twigs upright in the ground just on the landward side of the trap. The beaver swims with his fore legs folded back against his body, propelling himself by his hind feet. When he feels his breast touch the bank or any obstruction, he puts down his fore feet. The trapper can calculate the position of the trap and upright twigs so that the beaver will put his fore foot into the trap and spring it, when the clutch will seize him through the body and hold him securely.

Directions for attaching the clutch.—Screw down the two ends of the spring with a Newhouse clamp until they touch each other. By placing the opening of the slot directly over the rivet one of the clutches can be slipped into its place, and when turned and held upright the other clutch can be attached in the same manner. Remove the clamp and the trap is ready for use.

No. 9T4848 Newhouse Clutch Trap No. 23, with chain. Spread of jaws, 5½ inches. Price, per dozen, $8.25; each.....69c

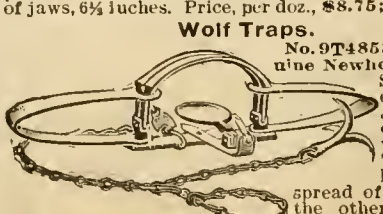
No. 9T4849 Newhouse Clutch Trap No. 24, with chain. Spread of jaws, 6½ inches. Price, per dozen, $9.50; each.....80c

Newhouse Deer Trap.



No. 9T4852 Newhouse Deer Trap No. 14, with chain. This trap is the same in size as the No. 9T4841, but has heavier and stiffer springs, and offset jaws, which allow the springs to rise higher when the animal's leg is in the trap, and is furnished with teeth sufficiently close to prevent the animal from drawing its foot out. Spread of jaws, 6½ inches. Price, per doz., $8.75; each..73c

Wolf Traps.



No. 9T4853 The Genuine Newhouse Trap. Size No. 4¼, especially adapted to catching wolves. This trap has 8-inch spread of jaws, with the other parts in proportion, and is **provided with a pronged "drag,"** a heavy snap and an extra heavy steel swivel and chain, 5 feet long, **warranted to hold 2,000 pounds.** The trap, complete with chain and drag, will weigh about 9 pounds. Price, per dozen, $20.00; each.....$1.67

Bear Traps.

No. 9T4857 The Genuine Newhouse Trap, No. 5 size, with teeth on jaws. This trap weighs 17 pounds, and has a spread of jaws of 11¾ inches. **It is used for taking the common black bear,** and is furnished with a chain and swivel sufficiently strong; double spring. Price, each..... ....$5.00

No. 9T4858 The Genuine Newhouse Trap, No. 6, for grizzly bear. This is the strongest trap made; it will hold lion, cougar, tiger or moose, as well as the great grizzly bear. Spread of jaws, 16 inches. Weight, 42 pounds. Price, each..... .....$10.00

No. 9T4861 Newhouse Bear Trap No. 15, with chain. To meet the views of certain hunters whose judgment we respect, we designed a style of jaw for this trap making an offset of ⅜ of an inch, so as to allow the springs to come up higher when the bear's leg is in the trap. This gives the spring a better grip. Spread of jaws, 11¾ inches. Price, each, $5.00

Game Traps.

The Hawley & Norton Game Traps are manufactured by **The Oneida Community, Limited,** at Kenwood, N. Y., the makers of the genuine Newhouse traps.

The Hawley & Norton, while almost identical in form, is made somewhat lighter than the Newhouse throughout, and therefore cheaper; but it is a good, reliable trap, with a great reputation of its own.

The springs are all tested before leaving the factory, and all the other parts are carefully inspected, the traps being set and sprung to insure their working correctly.

We do not illustrate the Hawley & Norton, Traps as the illustrations of same sizes in the Genuine Newhouse traps—which is the previous line listed—will show what they look like.

No. 9T4865 The Hawley & Norton Game Trap, size 0, with chain. Spread of jaw, 3½ inches. Price, per dozen, $1.20; each..... .....10c

No. 9T4866 The Hawley & Norton Game Trap, size 1, with chain. Spread of jaws, 4 inches. Price, per dozen, $1.41; each.....12c

No. 9T4867 The Hawley & Norton Game Trap, size 1½, with chain. Spread of jaws, 4⅜ inches. Price, per dozen, $2.12; each.....18c

No. 9T4868 The Hawley & Norton Game Trap, size 2, with chain. Double spring. Spread of jaws, 4⅞ inches. Price, per dozen, $2.97; each.....25c

No. 9T4870 The Hawley & Norton Game Trap, size 3, with chain. Double spring. Spread of jaw, 5½ inches. Price, per dozen, $3.96; each.....33c

No. 9T4872 The Hawley & Norton Game Trap, size 4, with chain. Double spring. Spread of jaw, 6½ inches. Price, per dozen, $4.67; each.....39c

Victor Brand Traps.

The Victor Brand Traps are made by The Oneida Community and are sold to compete with the various imitations of their Newhouse Traps. We have sold large quantities of them and have had no complaints.

No. 9T4876 Victor Traps. 2½-inch jaw, with chain. Size, No. 0, weight, 14 ounces. Price, each..... .....7c Per dozen.....62c

No. 9T4877 Victor Traps. 4-inch jaw, with chain. Size No. 1, weight, 14 ounces. Price, per dozen, 97c; each.....9c

No. 9T4878 Victor Traps. Size, No. 1½, mink trap; 4⅜-inch jaw; single spring, with chain. Price, per dozen, $1.45; each.....13c

No. 9T4879 Victor Traps. Size No. 2, fox trap; 4¾-inch jaw; double spring, with chain. Price, per dozen, $2.02; each.....17c

No. 9T4880 Victor Traps. Size No. 3, the otter trap; 5½-inch jaw; double spring, with chain. Price, per dozen, $2.69; each.....23c

No. 9T4881 Victor Traps. Size No. 4, the beaver trap; 6½ -inch jaws; double spring, with chain. Price, per dozen, $3.17; each.....27c

Setting Clamps.

No. 9T4889 For setting game traps. No. 4 for setting No. 4 trap. Price, each... ..8c No. 5 for setting No. 5 trap. Price, each.... ..19c No. 6 for setting No. 6 trap. Price, each.....33c

No. 9T4891 Sears, Roebuck & Co.'s Lightning Tanner will tan furs and skins perfectly and satisfactorily in from 24 to 36 hours. No experience is needed to do first class work. No special tools are required. Simple directions are sent with each box. This size box will tan two raccoon skins in 36 hours. Per box....10c **If by mail, postage extra, per box, 5 cents.**

No. 9T4892 Sears, Roebuck & Co.'s Lightning Tanner in box containing about three times as much as above. One box will tan a large deer skin. 3 boxes are required for a horse or cow hide. Per box....25c **If by mail, postage extra, per box, 15 cents.**

Gopher Trap.

No. 9T4897 Out o' Sight Gopher Trap. This is a perfect trap and better suited for the purpose intended than all other makes. We guarantee it to catch nineteen out of twenty gophers if set according to directions which accompany each trap.
Price, each.....11c

No. 9T4898 Stop Thief Trap, No. 1, small size, for ground squirrels and all small burrowing animals. A light and effective trap made of spring steel. Give this trap a test and its effectiveness will astonish you. Price, each...8c

No. 9T4899 Stop Thief Trap, No. 2, large size, for rabbits, minks, skunks, etc. If properly set this trap is sure to catch. To successfully catch mink, select a place on the bank of a stream where mink tracks are seen and where there is but little room between the bank and the water. Make a hole in the bank 6 or 7 inches deep and a little smaller than the bow of the trap. Cut bait in small pieces and put in back end of the hole. Set trap over the hole so the trigger will be down. When set this way the animal will throw the trap with his body when it makes an effort to remove the bait. This insures catching around the neck or body, which kills at once and saves the skin and fur in good condition. Price..12c

No. 9T4901 Stop Thief Trap, No. 3. Extra large size; same as above only larger. Price, each.....14c

No. 9T4900 The Bulldog Mole Trap is the simplest most durable and effective on the market. Directions:—Find the main trail, which usually starts from a wood pile, a fence or any place where ground is not often disturbed. Remove dirt from top of trail. Set the trap pressing handles together and inserting the tongue. Place the trap in the trail, the tongue touching bottom. Cover loosely with dirt, leaving handles exposed.
No. 9T4900 Price, each.....25c

No. 9T4903 Has 30 pounds pressure when set. The spears are 5 inches long, made of hard steel, which are firmly set in a malleable plate. The plunger is made of hard steel. Is firmly fastened in the center of the spear plate, and is supplied with a finger or hand hold at its upper end. It has a notch filed in for the trigger to catch it when set. It can be altered very easily so the trap will throw to suit the ground, as it should throw with less pressure in sand than clay or sod. The trigger and trip are simple and durable, they are automatic, set by gravity.
Price, each.....48c

"Out o' Sight" Mole Trap.

No. 9T4906 The latest Improved mole trap—a new departure—having many advantages over all others. On account of its simplicity, not complicated or easy to get out of order, easily set without danger to yourself, and can be used in hot beds without interfering with the glass cover. This trap can be set without disturbing the runway, the pedal being so sensitive that it is impossible for the mole to pass under without throwing the trap. The secret of mole catching is the use of a good trap and to know their habits and established runways; full explanation of the habits, etc., furnished with each trap. A practical field trial has been given this trap with unequaled results. Made by practical trap makers of long experience and guaranteed to give satisfaction. Ea..53c

ICE SKATES.

We guarantee all our skates to be equal to the best goods made. SHIPMENT OF SKATES: The average weight of a pair of our skates is 35 ounces. They can be sent by mail to any part of the United States for 35c. The average express charges are from 25c to 45c to almost any part of the United States. Possibly OUR CHEAPEST SKATES will not make a profitable shipment when ordered alone, but if ordered by freight to be packed with other goods the freight is comparatively nothing. Postage must be paid in advance. We often receive orders like the following: "Send me one pair of skates, No. 9." We don't know if it's for a No. 9 child's shoe, a No. 9 man's shoe, or a 9-inch shoe. WE WILL NOT ATTEMPT TO FILL ORDERS FOR SKATES UNLESS SIZE WANTED IS GIVEN IN INCHES. STATE LENGTH OF SHOE IN INCHES WHEN ORDERING. If ordered sent by mail, send us 35 cents more to pay postage.

No. 9T4950 The runner of this skate is made of the very best cold rolled cast steel, which does not lose its edge readily. The toe and heel plates and all clamps are made of the best quality of cold roll homogeneous steel. The clamping mechanism has been proved to be perfect. Sizes from 8 to 12 inches.
Price, per pair.....40c

No. 9T4951 This skate is same as No. 9T4950, except that all parts and runners are polished and nickel plated. Sizes, 8 to 12 inches. Per pair..65c
When ordering skates give length of shoe in inches.

No. 9T4954 Hardened Skate. The steel used in this skate contains a higher percentage of carbon, and the runner is carefully hardened and highly polished. Toe and heel plates and clamps are made of the best quality cold rolled open hearth steel. Sizes, 8 to 12 inches. Price, per pair.....76c

No. 9T4955 Hardened Skate. Is the same material as No. 9T4954, but the edges of all plates and clamps are fine extra polish, the runner and all parts being full nickel plated and polished. Sizes, 8 to 12 inches. Price, per pair.....$1.03
When ordering skates give length of shoe in inches.

No. 9T4956 The runners are of welded iron and steel hardened, carefully tempered and highly polished. Sizes, 9 to 12 inches. Per pair.....$1.25

No. 9T4957 Same as No. 9T4956, except all parts are fully polished and nickel plated. Per pair..$1.80
When ordering skates give length of shoe in inches.

No. 9T4959 Welded, hardened and tempered kate. This skate has the same construction as No. 9T4950 to No. 9T4957, but the material is of higher grade and it is a more expensive skate to make. The runner is made of the best iron and steel stock, welded, hardened, tempered, nickel plated and highly polished. The tops and all parts are nickel plated, with polished edges. Sizes, 9 to 12 inches. Price, per pair.....$2.20

No. 9T4961 This skate is same as No. 9T4959 except all parts are full nickel plated and highly polished on all surfaces. This is a strictly high grade skate, makes an elegant present. Sizes, 9 to 12 inches. Price, per pair.....$2.50
When ordering skates give length of shoe in inches.

Racing Skates.

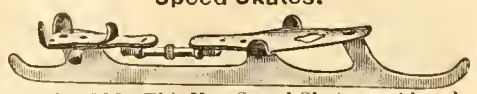
No. 9T4965 Full Racer. This celebrated speed skate is used and endorsed by the most noted fast skaters in the United States and Canada. It is of exceptional value for long distance or "straight away" skating. It embodies the latest and most up to date ideas in speed skate construction; tops are made of selected close grain beechwood, varnished, with highly nickel plated toe, heel and center plates. Runners are made of high grade cast steel, ⅛ inch thick and are bored, making the lightest possible skate; made with 14, 16 and 18-inch runners.
Price, per pair.....$1.88

Donoghue Skates.

This skate is made under the personal supervision of Mr. Joseph F. Donoghue, world's champion skater, and is made of the highest grade of material, and by first class mechanics. Mahogany tops, hardened steel runners, nickel plated, russet harness leather straps, nickel tongue buckles. This skate was designed by Mr. Donoghue, and has been used for the past five years in winning all his great races and making his wonderful records, and his success is as much due to the perfection of these skates as to his own skill.

No. 9T4967 Made in three lengths, 14, 16 and 18 inches. Price, per pair.....$3.13
When ordering skates give length of shoe in inches.

Speed Skates.



No. 9T4970 This New Speed Skate combines, in the shape and quality of its runners, all the points of excellence known to the champion speed skaters of the world. The shoe attachment is light and strong. Runners made from cold rolled steel. All parts nickel plated and buffed. Sizes, 10, 10¼, 11 11½ and 12 inches. Price, per pair.....$1.65

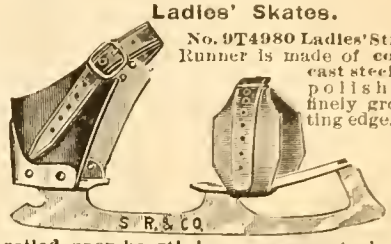
Antique Speed Skates.

No. 9T4973 This graceful and pleasing pattern has been recently introduced and is rapidly attaining popularity. The curve of the runners is such that they are adapted for speed and figure skating not requiring toe movements. They have been pronounced the easiest skate made. The shoe attachment is strong and secure, and saves the feet and legs the weariness occasioned by the use of straps in the wood top skates. Runners are made of the best hand forged cold rolled steel, and skate is heavily nickel plated and buffed. Sizes, 9½ to 12 inches. Price, per pair.....$1.70
When ordering skates give length of shoe in inches.

Full Rocker Skate.

No. 9T4977 Full Rocker Skate. As we have had a large number of inquiries from our customers for the old fashioned rocker skate, we have had these skates manufactured for us by a first class skate maker, under the direct supervision of an old time skating enthusiast, and they are correct in every detail. Tops are made of selected beechwood and runners from best rolled steel. All runners are fastened to tops by a brass thimble, which prevents the woods from splitting. We furnish black straps ⅝x20 inches for heel and 1¾-inch broad toe straps with every pair. Sizes, 9½ to 12 inches.
Price, per pair.....$1.15

Ladies' Skates.



No. 9T4980 Ladies' Strap Skate. Runner is made of cold rolled cast steel, is highly polished with finely ground cutting edge. The foot and heel plates are made from the best grade of cold rolled open hearth homogeneous steel. The heel and toe straps are of the best oak tanned russet grain leather, tongue buckles and nickel plated heel bands. Sizes, 8 to 10½ inches. Price, per pair, 60c

No. 9T4982 Ladies' Club Skate. The runner of this skate is made of cold rolled cast steel, which does not lose its edge readily, gives strength and permits a high polish. The foot and heel plates and all clamps are made of the best grade cold rolled open hearth homogeneous steel. Heel strap is the best oak tanned russet grain leather, with tongue buckles and nickel plated heel bands. Sizes, 8 to 10½ inches. Price, per pair.....90c

No. 9T4983 Ladies' Club Skate. Same as No. 9T4982, except that all parts and runners are nickel plated and polished. Sizes, 8 to 10½ inches.
Price, per pair.....$1.20

No. 9T4985 Ladies' Skate. The runners are made from welded iron and steel hardened. Plate clamp and levers of best quality cold rolled steel. All parts polished and nickel plated. Sizes, 8¼ to 10½ inches. Price, per pair.....$2.15
When ordering skates give length of shoe in inches.

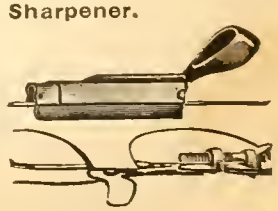
$2.95 for Our Best Ladies' Skate.

No. 9T4987 Our Best Ladies' Skate. It has a welded steel and iron runner perfectly tempered. All parts are full nickel plated and full polished on all surfaces. The heel straps have nickel plated tongue buckles and nickel plated heel bands. Sizes, 8¼ to 10½ inches.
Price, per pair.....$2.95

Ankle Brace.

No. 9T4995 Ankle Brace. It is made of steel, handsomely nickel plated with a rib running up through the center which strengthens the brace and makes it light, strong and durable. They are trimmed with the best quality russet grain leather. Can be attached to any skate by a blacksmith. Price is for brace only without skates. Price, per pair.....56c

Skate Sharpener.

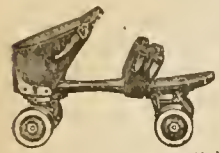


No. 9T4999 Skate Sharpener. This tool is scientific in construction and practical in use. It concaves a skate runner. Its adjustment to any skate is automatic. The only adjustment necessary for the operator to make is when the file is changed to a new side; then the tool opens like a jack knife and closes as easily. Not a screw or a bolt is used in its construction. The files are cut on four sides—two flat sides and two convex. It is nickel plated. Price, each.....11c

Roller Skates.

No. 9T5010 This is a high grade skate, and may be used for sidewalk as well as for rink purposes. The adjustment is easily made. It is strong and durable and will hold the skate where it is put. The heel and toe plates are of the best steel, and will not break in use. The trucks are oscillating, and have rubber cushions. Have been in use for many years. The skate has grain leather heel and toe straps, and the heel band and buckles are nickel plated, and it has boxwood wheels. Only one size required. Price, per pair..... ..$1.75

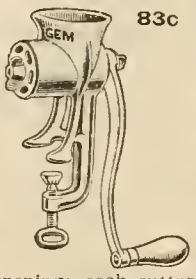
No. 9T5012 This is a high grade sidewalk skate, which is easily adjusted, and from experience has been proved to be the most desirable extension skate possible. The adjustment, while easily made, is strong and durable, and will hold the skate where it is put and gives no trouble. The heel and toe plates are of the best homogeneous open hearth steel, and will not break in use. The skate is full strapped, with nickel heel band and buckles. Price, per pair....46c



No. 9T5015 This skate is one which is desirable for rink use. Has oscillating trucks, rubber cushions; the top is of beechwood, the wheels of boxwood, the straps of black pebbled leather and the heel band is nickel plated. We do not carry this skate in stock and cannot sell less quantity than one dozen. We deliver these skates free on board cars at factory in Massachusetts. Price, per pair.....95c

When ordering, do not fail to state sizes wanted.

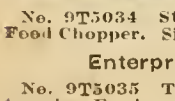
Sargent's Gem Food Chopper.



83c

Sargent's Gem Food Chopper is not a complicated piece of mechanism, and no special directions for using it are needed. It is easy to take apart; easy to put together; easy to adjust; easy to use; can be cleaned in a jiffy and with less trouble than a chopping bowl. With each machine there are four steel cutters, one each for fine, medium and coarse chopping, and one for pulverizing. These cutters are made of steel, a feature peculiar to Sargent's Gem Food Chopper; they will not break; they are self sharpening; each cutter chops in pieces of its uniform size and they do not tear; mash, squeeze or grind the various ingredients, chops raw meat, cooked meat, fish, clams, oysters, vegetables of all kinds, fruit, bread, crackers, cheese, nuts and many other articles used in making substantial dishes and dainty desserts. **With each Gem chopper we furnish free a copy of The Gem Cook Book.** Many of the recipes have been especially prepared for this book by Janet McKenzie Hill, a well known authority on culinary subjects. Blank pages are left in this book so that you can put in other recipes. **The Sargent Gem Food Chopper is carefully made, nicely tinned, self cleaning and self sharpening.** It has four steel cutters, and is made in three sizes, as described below: No. 9T5030, size 20, is generally purchased for family use; No. 9T5031, size 22, stands higher from the table and has a larger hopper; No. 9T5032, size 24, is extra large and heavy.

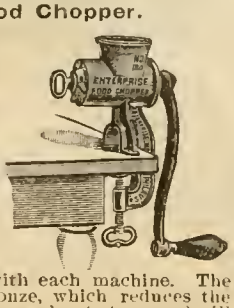
Catalogue No.	Size	Capacity per Min'te, pounds	Diameter of Hopper Inside, inches	Diameter of Hopper Outside inches	Diameter of Barrel Inside, inches	Diameter of Barrel Outside inches	Height f'm Table to Bottom of Barrel, inches	Price, each
9T5030	20	2	3	3¼	1⅞	2⅛	2¾	$0.83
9T5031	22	2½	3⅜	4	1⅞	2⅛	2¾	.97
9T5032	24	3	4⅝	4⅞	2¼	2⅝	3⅛	1.32



No. 9T5033 Stuffing Attachment for Gem Food Choppers. Can be screwed on to size 22 chopper and used to stuff sausages. Price, each.....16c

No. 9T5034 Stuffing Attachment for Gem Food Chopper. Size 24. Price, each.....17c

Enterprise Food Chopper.



No. 9T5035 The Enterprise Food and Meat Chopper. It will chop raw meat, cooked meat, vegetables of all kinds, bread and crackers and will make peanut butter. It will chop any kind of food any size you wish for any kind of dish. Can be cleaned in a minute, is always ready and never gets out of order. Four knives, one each, fine, medium and coarse, and nut butter cutter furnished with each machine. The bearing is of phosphor bronze, which reduces the friction, makes the machine easier to turn and will last much longer. Will chop two pounds of meat per minute. Weight, 4½ pounds. Price, each.....92c

The Enterprise Meat Choppers.

The Enterprise Choppers cut the meat as with a pair of scissors, and do not grind or tear it. It is impossible for any strings, sinews or gristle to pass through without being chopped. The small quantity of uncut meat remaining in the machine can be cut by running through some of the already cut meat a second time. **All parts are interchangeable and can be replaced at small cost. The cutting parts being steel, they are vastly superior to the cast iron ones of other makes of choppers.**

By means of the stuffing attachment, which we furnish at a small additional cost, they make excellent sausage stuffers.

No. 9T5063 Genuine Enterprise Meat Choppers, small family size, with clamp (No. 5) chops 1¼ pounds per minute. Weight, 4⅝ lbs. Price, each $1.60

Our $2.40 Meat Chopper.

No. 9T5070 Butchers' Size Enterprise Meat Chopper, with legs to screw on table or bench. (No. 32) chops 5 lbs. per minute. Weight, 18 lbs. Price, each.....$4.80

No. 9T5072 Butchers' Size Enterprise Meat Chopper, with fly wheel. (No. 232) chops 5 lbs. per minute. Weight complete, 38 pounds. Price, each, $7.60

Stuffing Attachments for Enterprise Meat Chopper.

No. 9T5075 Stuffing Attachments for Enterprise Meat Chopper. After the meat has been chopped, remove the knife and plate, place the attachment against the cylinder, screw the ring up moderately tight, and the machine is ready for work. They are made of spun brass, nickel plated, and are very strong and durable. Made in two sizes of tube, viz: ¾ inch and 1¼ inches. When ordering, be sure to give number of chopper for which attachment is wanted.

Price, each, with ¾-inch tube.	To fit chopper—

No. 9T5084 Size 1. Price, each.....60c

Sensible Fruit and Lard Press.

A well made and handsome press for making jellies, wines, syrups, lard, etc. Made with special reference to strength, and guaranteed against breakage under any fair usage. A special advantage is the split nut in the yoke: It is not necessary to turn the hand wheel except when the fruit is actually under pressure, for the thread of the screw can be introduced into the nut and the nut closed, or taken from the nut if open, at any point in the length of the screw, so no turning is needed to run it up or down, making this the quickest acting press made. Can be taken apart in a moment for cleaning. All parts are interchangeable and can be replaced at a slight expense in case of breakage.

No. 9T5097 2-quart size. Price, each.....$1.38
No. 9T5098 4-quart size. Price, each..... 2.34
No. 9T5099 10-quart size. Price, each..... 3.67

Fruit, Wine and Jelly Press.

No. 9T5112 Combination Fruit, Wine and Jelly Press. Can be used for many purposes, such as making wines, jellies and fruit butter from fruits, the entire substance being extracted in one operation. Weight, 12½ pounds. Price, each.....$2.65

Enterprise Juice Extractor.

No. 9T5116 Enterprise Meat Juice Extractor No. 21, for the extraction of juice from meat, also answering for extracting seeds and juice from fruits. The machine being tinned, no metallic or inky flavor will be imparted to the material used. The dryness of pulp or refuse can be regulated by the thumbscrew at the outlet. Length, 9 inches; height, 12 inches. Weight, 7 pounds. Price, each.....$2.00

GIVE CATALOGUE NUMBER IN FULL WHEN YOU WRITE YOUR ORDER

WE ARE HEADQUARTERS FOR ..Poultry Netting, Woven Wire Fencing, Wire Gates, Wire Screens..

EVERYTHING IN WIRE GOODS AT MANUFACTURERS' LOWEST PRICES.

WOVEN WIRE NETTING for Poultry Fencing, Screens, etc. WE OFFER ONLY THE BEST GRADE OF GOODS MANUFACTURED and for less money than inferior goods are sold by others.

OUR WIRE GOODS WILL BE FOUND SUPERIOR to those carried by the average retail dealer or offered by other mail order houses. We offer you these goods in all the various size meshes and size wire suitable for the different uses for the ranch, farm, lawn and garden. We guarantee all our fencing and netting to be made of size wire as stated in our description. When comparing our prices with others, please remember this and be sure competing price is for the same size wire. WE GUARANTEE EACH BALE to contain the quantity specified.

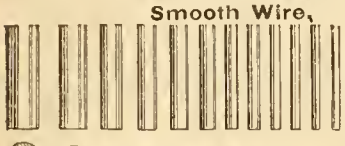
ABOUT THE FREIGHT. Freight amounts to next to nothing compared with what you will save in the price. For 500 miles it will, as a rule, add not more than five per cent to our price.

Barbed Fence Wire.

No. 9T5425 Galvanized Hog Wire.
No. 9T5426 Galvanized Cattle Wire.
No. 9T5427 Painted Hog Wire.
No. 9T5428 Painted Cattle Wire.

There is hardly anyone who now uses 4-point wire, as they have found by experience that 2-point Glidden pattern wire turns all stock, looks better and is not so liable to breakage. There is also a little more in length to the pound. We no longer carry 4-point wire. The hog wire has barbs about 3 inches apart, cattle wire about 6 inches apart. Price is liable to advance or decline any day, so we quote prices on application. Write us for prices. We will save you money.

Smooth Wire.



This illustration shows the different sizes exact. The illustrations are full size of wire and the number indicates the exact size. When we quote wire size by number refer to above and you can tell the exact size of wire.

No. 9T5433 Plain Smooth Wire.
No. 9T5434 Galvanized Smooth Wire.

When ready to purchase, write us for prices. It will pay you to do so.

Annealed Baling Wire.

This is soft annealed baling wire intended for hay baling. It is put up in coils of about 65 pounds, and is sold only in full coils. We will not break coils and ask you, in ordering, to specify such quantities that full coils may be sent; for example, 65 pounds, 130 pounds, 195 pounds, 260 pounds, 325 pounds, etc.

Prices subject to change of the market. Prices quoted at any time on application.

No. 9T4750	No. 12 wire, per 100 pounds.....	$2.60

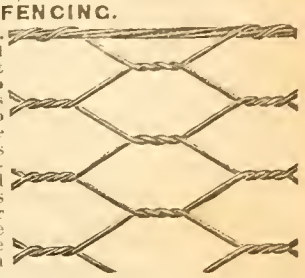
WOVEN LAWN, GARDEN AND FARM FENCING.

SPECIAL NOTICE. In making 5-rod bales of fencing it is necessary to stop the loom four times when but one stop is necessary if made in one bale. For this reason the manufacturers are compelled to ask higher prices for small bales. Our difference in price represents only the exact difference in cost to us.



Lawn Fence.

No. 9T5480 Genuine Galvanized Acme Woven Bessemer Steel Wire Fencing, with 2x4-inch Mesh. Mesh made from No. 15 wire (see illustration for exact size of No. 15 wire), with twisted wire rope selvage made from three strands of No. 15 wire. Size of mesh, 2x4 inches. Our No. 9T5480 Wire Fencing is especially adapted for beautiful lawn fencing, it is strong enough to stop large animals and small ones cannot get through it. It is compactly rolled in bales of 5, 10 or 20 rods. We do not cut bales. Made of No. 15 wire; mesh, 2x4 inches.

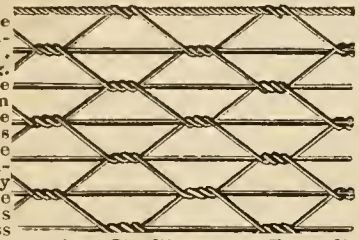
"No Sag" Woven Wire Fencing.



Made of the best galvanized wire. Will not sag. This is the best woven wire fence made and has no equal. The line wires running as they do through the mesh wires form a truss which prevents sagging. **It will not sag.** For ordinary farm fences this extra fencing, 48 inches high, 3¾x12 mesh, will make a good substantial fence. **For hog pastures,** where it is used in connection with barbed wire, the 23 or 30-inch fence, 3¾x12 mesh will answer. **For garden fences** use the 3¾x6 mesh, whatever height is needed. **This fencing is made of No. 14 galvanized wire** for the line and mesh wires, and a rope selvage of 3 strands of No. 14 wire. This wire is carried in stock. Put up in rolls of 20 rods, (330 feet) each, but we can furnish any number of even rods above six direct from the factory in Joliet, Illinois, but do not cut less than 1 rod.

No. 9T5509 "No Sag" Woven Wire Fencing. Size of mesh, 3¾x12 inches.

Extra Heavy "No Sag" Woven Wire Fencing.

This fencing is made like the fence described above, excepting that it is heavier, and will consequently last longer. The selvage is made of two No. 12 wires twisted together, the line wires No. 12, and the mesh wires No. 14, all galvanized. **This is without doubt the best woven wire fencing to be had.** Put up in rolls of 20 rods, (330 feet), but we can furnish any number of even rods above six. It is shipped direct from the factory in Joliet, Illinois.

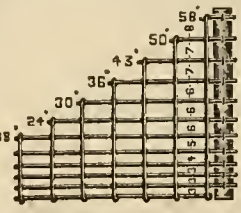
The Clinton Electrically Welded Wire Fence.

The Clinton Electrically Welded Wire Fence possesses all the merits of the best types of woven or twisted wire fabrics, also many points of superiority which cannot be found in competitive goods. All of its wires run in straight lines (thereby saving material which in all other kinds is taken up by twists and diagonal strands), and as the welding is instantaneously done by electricity, **this fence offers equal strength at less cost than any other fabric** having meshes and wires of similar size. **It is made from thoroughly galvanized steel wire that is specially adapted to this use,** all horizontal and vertical strands being firmly welded at their intersections and **every joint is guaranteed to be equally as strong as the wire.** Mutual support is thus given to all wires, and any load or pressure which may be applied to the fence will be distributed over a number of its strands, thereby preventing excessive strain on any portion of it. **There are no loose wires** which can be pushed aside, thereby impairing the efficiency of the fence and resulting in its total destruction. If a wire is cut it affects only one side of a mesh and does not weaken any other portion of the fence. **Every mesh is accurate and uniform** in shape and size and will so remain, as the **wires cannot slip** from their proper positions; there is, therefore, no chafing of wires when the fence, covered with sleet, is swayed by the wind. This chafing action occurs in all styles of wire fence which have vertical and horizontal strands connected by twists, and it soon wears through the galvanizing, allowing rust to eat away the steel at the twists where strength is most essential. **It has no coils or twists to break the galvanizing, hold moisture and cause rust.** Having no sharp angles or projections, **it cannot injure cattle or tear wool from sheep. It can be easily erected on uneven or hilly ground,** and when properly stapled to posts **will not sag.** If desired, the fence can be taken down, rolled into a compact bale and erected in another place without displacing any of its wires.



No. 9T5520 The above illustration represents our standard styles, all of which are made from **galvanized steel wire specially adapted to this use,** the top and bottom horizontal strands or bars being No. 9, and the intermediates No. 11; all vertical strands or stays are No. 12 placed on 12-inch centers and firmly welded to every horizontal bar. We will carry this fencing in stock in bales containing 20 rods, 10 rods and 5 rods, and will not cut bales. **Sample weld sent free on request.**

Width, inches	Weight per bale of 20 rods	Price per bale of 5 rods	Price per bale of 10 rods	Price per bale of 20 rods

Write for our special shipped from factory price on lots of forty or more rods of fencing. We will tell you what it will cost delivered at your nearest freight station.

Clinton Electrically Welded Special Farm Fence.

No. 9T5523 Twelve-Bar, 58-Inch Special Farm Fence. A strong and effective fence for vicious cattle, its lower half having small meshes which are impassable to dogs and small animals. The vertical strands or stays are made of No. 12 wire, spaced as shown in illustration.

We carry this wire in stock in bales containing 20, 10 and 5 rods, and do not cut bales.

Contents of bale	5 rods	10 rods	20 rods
Price, per bale	$3.51	$5.97	$10.80

Weight, per bale of 20 rods, 220 pounds.

We cannot guarantee prices printed on poultry netting, wire fencing and other goods made of wire, as manufacturers of wire cannot make a price for the season at the time we go to press.

WE THINK IT WILL NOT BE HIGHER

than the prices printed.

Send us your order and it will be filled at our best price. Or write, and we will quote price, when you are ready to purchase.

Clinton Electrically Welded Hog Fence.

No. 9T5526 Seven-Bar, 24-Inch Standard Hog Fence. Specially adapted for hog pastures, or any other purpose where a low fence is required. By placing one or more strands of plain or barbed wire above it, a cattle fence of any desired height is made, which will admirably meet all requirements. Sizes of wire and spacing are shown in above illustration. Nothing but **selected galvanized steel wire** is used in all standard or special styles. **We carry this fencing in stock** put up in bales containing 20 rods, 10 rods and 5 rods, and will not cut bales.

Contents of bale,	5 rods	10 rods	20 rods
Price, per bale,	$1.99	$3.38	$6.12

Weight per bale of 20 rods, 122 pounds.

Write for special shipped from factory price in lots weighing 200 pounds or more. We will tell you what it will cost delivered at your nearest railroad station.

Clinton Special Electrically Welded Hog Fence.

$5.64 for 20 rods of this Electric Welded Fence is below wholesale prices, and if you order and do not find you have saved one-third in price, return it to us at our expense and we will refund your money.

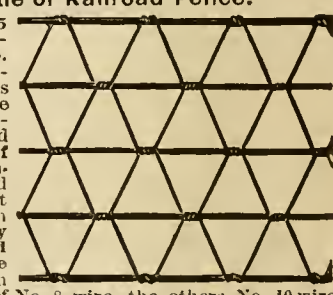
No. 9T5529 The Clinton Special Electric Welded Seven-Bar, 24-Inch Hog Fence has No. 10 wire at top and bottom and other horizontal wires are No. 12. The vertical wires are of No. 13 wire, **spaced 8 inches apart, and solidly welded to horizontal wire.** We carry this fencing in stock in bales containing 5 rods, 10 rods and 20 rods, and will not cut bales.

Contents of bale	5 rods	10 rods	20 rods
Price, per bale	$1.83	$3.12	$5.64

Weight per bale of 20 rods, 105 pounds.

Write for our special shipped from factory price on lots of forty or more rods of fencing. We will tell you what it will cost delivered at your nearest freight station.

Cattle or Railroad Fence.



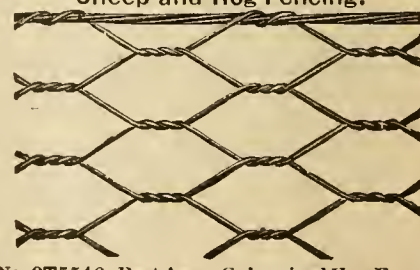
No. 9T5535 Cattle or Railroad Fence. This illustration represents a 4-foot fence which is especially adapted to the needs of ranchmen, farmers and railroad companies. It is made **from thoroughly galvanized steel wire,** the top and bottom strands being of No. 8 wire, the others No. 10 wire. The cross wires are No. 12. Mesh, 12x16 inches. It is extensively used by some of the leading railroad companies who endorse it as a cheap, substantial and effective barrier to vicious cattle. We carry this in stock in bales of 20 rods and do not cut bales.

Price, per bale..... $7.68

Weight, per bale of 20 rods, 166 pounds.

Write for special shipped from factory price on lots of forty or more rods of fencing. We will tell you what it will cost delivered at your nearest freight station.

Sheep and Hog Fencing.



No. 9T5540 Best Acme Galvanized Hog Fencing. Mesh, 4x8, made from No. 14 steel wire, with twisted rope selvage made from three strands No. 14 wire. **Put up in bales of 20 rods,** or 330 feet long, and sold only in full bales. This fencing is intended to be used in connection with common or barbed wire. There are many inferior grades on the market and even such grades are sold at more than our price. **It will pay you when buying wire fencing or wire netting to get THE ACME,** the highest grade **Bessemer steel galvanized wire** made.

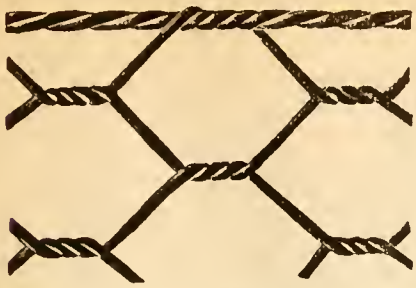
Width, 26-inch. Weight, 112 pounds..... 6.12

Write for special shipped from factory price on lots of forty or more rods of fencing. We will tell you what it will cost delivered at your nearest freight station.

Our Sheep and Hog Fence. Less Than 20¼ Cents per Rod.

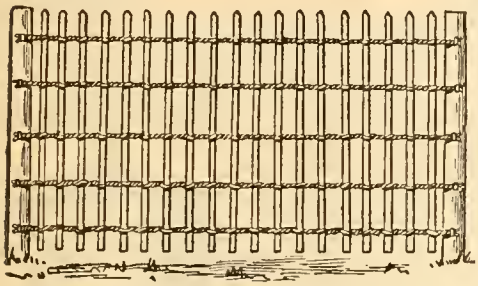


For those who will be satisfied with a cheaper hog fence we offer in competition with what is commonly sold, a fencing made of No. 16 wire, with 3x3 mesh. We have this put up in bales 150 feet long, and do not cut bales. While the price is lower it is no cheaper, quality considered, than is our No. 9T5540 hog fencing. Remember our prices are governed by the quality of the goods we furnish.

No. 9T5545 Sheep and Hog Fencing. Mesh, 3x3; made of No. 16 wire, with double and twisted wire selvage. **We do not advise our patrons to purchase this fence, as we do not consider the wire is heavy enough to give good service for hog fence.** Before ordering, read description of the preceding hog fencing. Weight per bale, 35 pounds.

Price, per bale, 150 feet long, 24 inches wide...**$1.83**

Combination Wire and Picket Fencing.



This Fence is made of fence pickets ⅝-inch thick 1½-inch wide, 4 feet long, which are pointed and dipped in an alkaline solution which preserves the wood, and colored red. **These are then woven in between three, four or five strands of galvanized wire,** 2, 2½ or 3 inches apart. Put up in rolls of from 6 to 8 rods. We furnish any number of even rods above six, but do not cut less than a rod. This fence is very heavy, compared with an all wire fence, and freight charges are correspondingly large. By referring to table of freight rates in front of book you can estimate the cost of freight.

	Cables	Pickets, inches apart	Price, per rod

Grave Guard with Arch.

No. 9T5751 To protect and ornament a grave. Prevents small children from picking the flowers; keeps dogs, cats, etc., off of the grave. It is strongly made and nicely painted. Has angle steel frame fastened together with bolts. Is taken apart and securely crated for shipment, but can be easily and quickly put together by anyone. This makes freight charges less and insures the guard reaching destination in good condition.

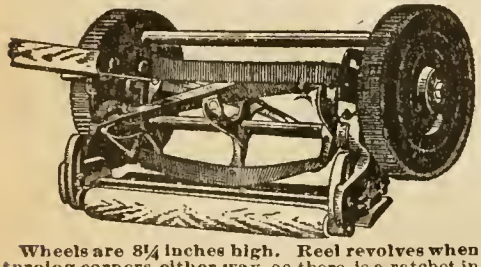
LAWN MOWERS.

OUR ACME HIGH GRADE LAWN MOWERS are guaranteed the best made. We invite a close comparison of our prices with those of any other house on strictly high grade machines.

In our New Sunrise Lawn Mower we claim to have the easiest running, best made and most complete medium priced lawn mower made. It is made from the best material and all parts are interchangeable. The reel knife shaft is made of solid steel, and runs in split phosphor bronze bushings. It is fitted with large driving wheels, incased gearing, continuous spiral steel reel knives, accurately ground, adjustable handle, self acting and positive pawls, steel handle braces, and a bed knife made from the best lawn mower knife steel, which is finely ground and self sharpening.



Wheels are 8¼ inches high. Reel revolves when turning corners either way, as there is a ratchet in each wheel. Makes very little noise. This is a mower that was sold by retail dealers at from $4.00 to $5.00. They have given such excellent satisfaction we have contracted for them this year, and by reason of our quantities purchased and our one small profit, we have reduced the price so that anyone may own a good mower for a little money.

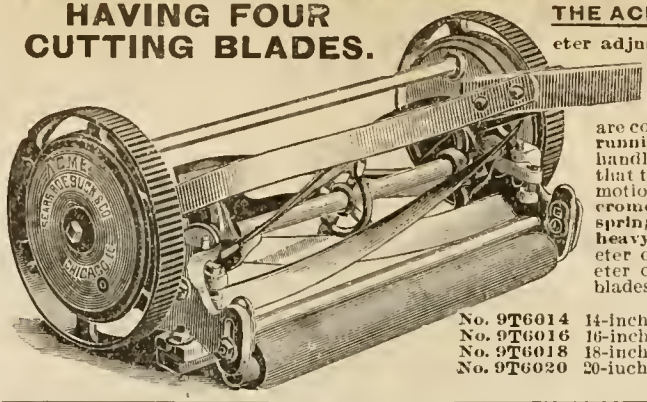
OUR ACME LAWN MOWERS AT $3.40 TO $4.50.

HAVING FOUR CUTTING BLADES.



THE ACME MOWERS have the latest patent micrometer adjustment. This is our standard high grade Acme machine and greatly improved for this season. The drive wheels are open for 1 inch below the tread, though the working parts are completely enclosed. It is the easiest running lawn mower made, because the handle is so attached to the drive wheel that the power is applied to the center of motion. This mower has our patent micrometer adjustment continuous cut, spring bed knife, noiseless ratchet, long heavy bearings of phosphor bronze. Diameter of traction wheels, 9½ inches; diameter of reel, 6 inches, with four cutting blades. The 16-inch size is most popular.

ACME BALL BEARING LAWN MOWER.

OUR ACME BALL BEARING MOWER is of same design as our Acme, illustrated above. It is constructed on first class principles, adjustable throughout. Silent in operation. Cones and cups made of solid cone steel, no pressed cups used. Ground perfect. Best quality steel balls. The cups, cones and balls are dust proof, and made with as great a degree of perfection as the best bicycle. Wheels, 9½ inches high. Four-bladed revolving cutter. Cutter 6-inch diameter. Front bar, 6½ inches from the ground. Cuts close and does fine work. High wheels, easy running. Four cutting blades. Spring bed knife, continuous cut. The ball bearings will never need adjustment. Guaranteed to give satisfaction or money refunded. We offer our Ball Bearing Mower at the following prices.

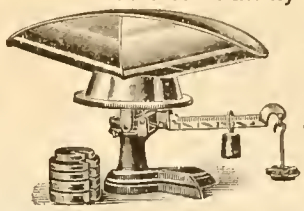
Our 68-Cent Family Scales.

No. 9T5957 Our 68-cent price should induce every family in the land to own a pair of these 4-pound scales. You may save the cost in one day's use. Even balance scales. Plain japanned. To weigh 4 pounds, with good tin scoop. Our price.....68c

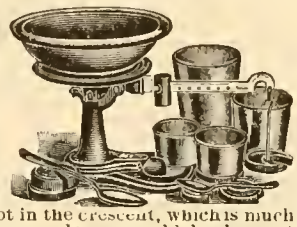
Our $1.65 Family Scales.



For $1.65 we offer this 25-pound family scale as the best scale of the kind on the market. This scale weighs from ¼ ounce up to 25 pounds. It is made for us under contract by one of the best makers. Every scale is guaranteed, and if it is not found perfect in every respect it can be returned to us at our expense, and your money will be refunded. **It will pay you to buy this scale and weigh your grocery and meat purchases, weigh the butter.** Boxed for shipment, they weigh about 20 pounds. Beam marked 1½ pounds by ½ ounces.

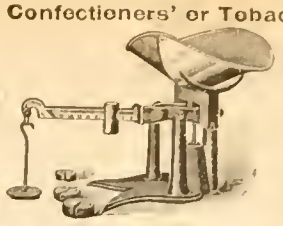
No. 9T5956 Our special price, each.....$1.65

Weighing and Measuring Outfit.

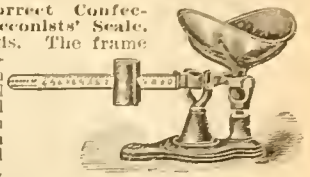


No. 9T5966 Cooks' weighing and measuring outfit consists of a scale (capacity, 20 pounds) upon the platform of which may be used a mixing pan, bowl or any suitable dish, as shown in illustration, the weight of which can be balanced by placing shot in the crescent, which is much more convenient than a scale scoop, which when not in use is always in the way. There also is a quart measure, a pint measure, a half pint measure and a cup measure, a tablespoon and a teaspoon and all these articles are United States standard. One of these scales will serve as a check upon the dishonest or careless dealer. If mistakes are made in weight you can know it if you take the trouble to weigh your purchases. The scale has brass beam, marked to weigh by ¼ ounces, with sliding poise. Weight, carefully packed for shipment, about 12 pounds. Price, complete with everything shown in illustration (except the bowl on platform).....$2.00

Confectioners' or Tobacconists' Scales.

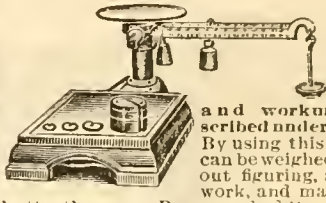


No. 9T5961 Candy, Tobacco, Tea or Cook's Scale. Has brass beam marked by ¼ ounces to weigh 1 pound. With all weights on counterpoise will weigh 10 pounds. Has tin scoop, sliding poise. This is just the thing to weigh anything in very small quantities, and while the price is very low it gives good satisfaction. Weight, carefully packed for shipment, about 8 pounds. Price, each.....98c



No. 9T5965 Correct Confectioners' or Tobacconists' Scale. Capacity, 4 pounds. The frame of this scale is finished in aluminum bronze. Has nickel plated scoop, nickel plated beam marked to weigh by ½ ounces. Nickel plated sliding poise. An accurate scale that is very low in price. It makes a very handsome fixture in any swell store. Weight, carefully boxed for shipment, about 10 pounds. Price, each.....$2.40

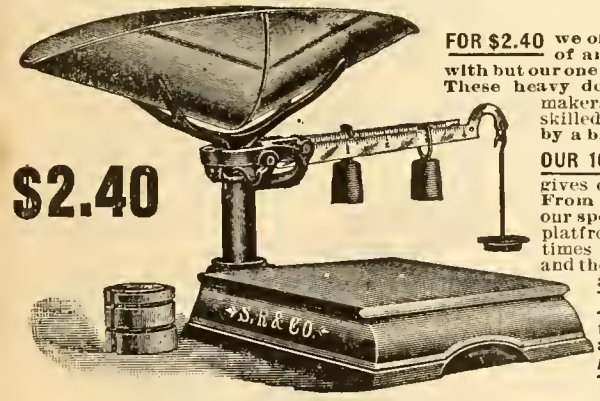
Our Dairy Scale with Butter Salter Attachment.



No. 9T5938 Capacity, ½ ounce to 240 pounds. Same grade scale, same material and workmanship as described under our No. 9T5943. By using this scale the butter can be weighed and salted without figuring, avoids all guesswork, and makes every lot of butter the same. Beam marked 44 pounds by ¼ ounce. They are sealed carefully with the United States standard and are absolutely correct.
Price, each, complete.....$4.00

No. 9T5939 Extra High Grade Dairy Scale with Butter Salter attachment; capacity, ¼-ounce to 250 pounds. All steel bearings, sensitive, accurate and durable. The mechanism is perfect. The castings are correct; pivots are the finest tool steel, case hardened. Beam marked 44 pounds by ¼ ounce.
Price, each.....$6.00

Our $2.40 Double Beam Platform Counter Scales.



FOR $2.40 we offer this high grade, 10-year guaranteed, double brass beam, counter scale as the equal of any counter scale made. $2.40 is a price based on the actual cost of material and labor, with but one small percentage of profit added. A 240-pound platform counter scale for only $2.40. These heavy double beam platform counter scales are made for us under contract by one of the best scale makers in this country. They are made from the best material that can be secured, and only the most skilled mechanics are employed. **They are carefully tested, accurately adjusted, and are covered by a binding guarantee.**

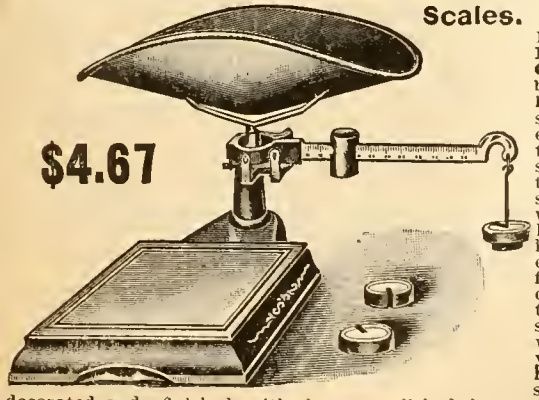
OUR 10-YEAR GUARANTEE. Every special $2.40, 240-Pound Platform Counter Scale is covered by a binding 10-year guarantee, during which time if any piece or part gives out by reason of defect in material or workmanship, we will replace or repair it **free of charge. From the illustration, engraved from a photograph,** you can form some idea of the appearance of **our special $2.40, 240-Pound Platform Counter Scale.** If you do not wish to invest in a regular platform scale at $7.50 to $13.84, do not fail to order one of our counter scales. You will be repaid many times over for the **$2.40 purchase price,** in detecting errors, if not dishonesty, in the goods you buy and the produce you sell. These scales have a capacity of 240 pounds, they are extra large, extra strong and will serve almost any purpose. **Boxed for shipment, they weigh about 40 pounds.**

THESE SCALES are made with extra heavy brass beam, extra heavy tare beam. This is a great convenience and makes the scale one of the handiest in use. Every scale is tested before leaving the factory, and we guarantee them to be mechanically perfect. The beams are made of solid brass, full polished, accurately graduated. Beam marked 44 pounds by ¼ ounce.

AT $2.40 the scales come complete with double beam, scoop and extra weights, securely boxed, and we guarantee safe delivery.

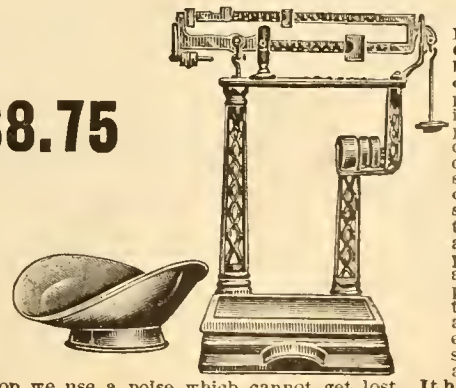
No. 9T5942 Our special price.....$2.40

Our Extra Best Union Platform Grocers' Counter Scales.



No. 9T5943 Our Extra Best Union Platform Grocers' Counter Scales, with brass scoop and sliding poise. In this scale we have every essential feature in the highest priced scale sold; everything that is necessary to a first class weighing machine. By means of our taking practically the entire output of a factory, to sell them direct from factory to user, with one small profit added, we are able to offer you this extra best high grade grocers' scales, handsomely decorated and finished with heavy polished brass scoop, sliding poise, heavy solid brass, beam, nickel plated. **We are able to make a price of only $4.67 on this scale.** This scale is suitable for fancy groceries, teas, coffees, etc., and our price is no more than you would pay for the scale, which we sell under No. 9T5941, if you bought it through the ordinary channels of trade. **It is guaranteed to weigh accurately on either corner of the platform or in the scoop. Capacity, ½ ounce to 244 pounds.** Finished in red enamel and gilt. Platform is 10¼x13¼ inches. Carefully packed in a wooden box for shipment. Beam marked 44 pounds by ¼ ounces. Price, each..... $4.67

Our Gilt Edge Grocery Platform Counter Scales.

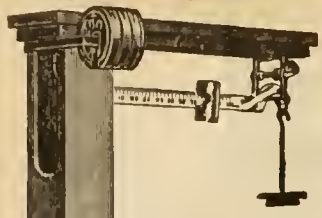


No. 9T5944 Our Gilt Edge Grocery Platform Counter Scales, with heavy brass scoop, capacity 1 ounce to 250 pounds. Platform, 12x15 inches. Scales of the same pattern as this are sold by dealers at more than double our price. **This style of scale is very desirable for use in stores.** It combines extreme sensitiveness with accuracy and large capacity. The beam is on a level with the eye; the platform is large enough to hold a barrel of flour, and the scale is quick enough to weigh teas and spices. Instead of using a weight to balance the scoop, we use a poise which cannot get lost. **It has a heavy brass beam nickel plated and graduated on top sides.** The scale is handsomely decorated and securely packed for shipment. Capacity, 1 ounce to 250 pounds. Size of platform, 12x15 inches. Beam marked 60 pounds by ounces.
Price, each.....$8.75

OUR SCALES ARE ALL GUARANTEED ACCURATE.

OUR $6.95 PLATFORM SCALES.

GUARANTEED 10 YEARS.



EVERY PLATFORM SCALE sold by us is covered by a binding ten years' guarantee, during which time if any piece or part gives out by reason of defect in material or workmanship, we will replace or repair it FREE OF CHARGE.

OUR PLATFORM SCALES are made for us under contract by one of the best makers in the country, made from the very best of material. They are accurately adjusted, they are very strong and substantial; they are sensitively accurate in weight and any farmer will be repaid a dozen times over in a very short time in the saving effected by weighing everything he sells and everything he buys.

AT PRICES PRINTED we deliver these scales free on board cars at Chicago, but we ship from factory in Central New York when it will make less freight charges for our customers by so doing. These scales are securely boxed for shipment and you will find the freight will amount to next to nothing as compared with what you will save in price.

WE GUARANTEE SAFE DELIVERY. These scales are very carefully packed in a strong box and we guarantee them to reach you in the same perfect condition they leave us.

From the illustration shown, engraved from a photograph, you can form an idea of the appearance of our highest grade, ten-year guaranteed $6.95 platform scales.

OUR $6.95 TO $13.84 PRICE is based on the actual cost of material and labor, with but our one small percentage of profit added, and is the lowest price ever named for the highest grade platform scales. We furnish these scales in capacity from 600 to 1,500 pounds at from $6.95 to $13.84 as quoted below. With our platform scales you can weigh every load of grain you sell before going to market, everything on the farm can be weighed, and it is not safe to do otherwise.

THESE SCALES are provided with the best steel pivots, carefully hardened and finished; have no check rods to bind or get out of place. The platform rests on adjustable chill bearings, which take the wear directly off the steel pivots, and the pivots remaining sharp, the scales act quick and sensitive. The scales are fitted with heavy, smoothly finished wheels, heavy wood center platform, sliding poise beam, sealed and tested.

EACH AND EVERY SIZE OF PLATFORM SCALE which we sell is made at the same factory and by the same skilled workmen, and it is just as much of an impossibility for a high class man to turn out crude, unfinished work, as it is for the ordinary common factory hand to turn out the high class of goods that are made by our expert mechanics.

NOTE SIZE OF PLATFORM. Some dealers add extra weights to increase the capacity of the scales they sell. A 400-lb. scale, with weights to weigh 600 pounds, is not a 600-lb. scale.

Catalogue Number	Capacity	Beams Marked	Size of Platform	Shipping Weight	Price
9T5906	600 lbs.	50 lbs. by ½ lb.	17½x26½ inches	150 lbs.	$ 6.95

9T5916	600 pounds	50 lbs. by ½ lb.	17x25 inches	$ 8.45
9T5917	800 pounds	50 lbs. by ½ lb.	18x26 inches	9.60
9T5918	1,000 pounds	50 lbs. by ½ lb.	19x26 inches	11.58
9T5919	1,200 pounds	100 lbs. by ½ lb.	19x26 inches	12.50

OUR SPECIAL WAREHOUSE AND GROCERY PORTABLE PLATFORM SCALES.

We claim that no other manufacturer offers as good a weighing machine as this. Every particle of material that enters into the construction of these scales is the very best it is possible to procure, regardless of expense. The special mixtures of iron produce the strongest casting in the world. Selected material and the brains and labor of the best scale builders in the world, make these scales absolutely accurate in every way. These platforms have adjustable chilled feet and hardened steel pivots. In fact every ounce of steel that enters into the construction of these scales is carefully hardened. While the scale quoted under preceding number is a strictly reliable scale guaranteed for ten years against defective material and workmanship and is guaranteed to weigh accurately, this scale is still heavier and better. The capacity of the scale is rated by the amount it will weigh correctly and not by the weight the platform will sustain without breaking. For instance, a wagon scale that will weigh three tons correctly will not break under a load of four or five tons but it would not give correct weight of over three tons and a heavier weight should not be put on the scales. Then again, as before stated, the scale is not rated by the weight it will sustain when carefully placed upon its platform. You take an ordinary 1200-pound scale and drop a bag of meal off your shoulder on the scale, and although the meal might not weigh more than 50 pounds, it would be very likely to break the scale. It would not be just for you to claim 50 pounds would break a 1200-pound scale. Boys and careless employes are likely to do just such things as this, and for that reason many prefer having a scale with a larger factor of safety than those quoted above, therefore we offer below a scale which is heavier and stronger and will stand more abuse (and by the way we do not guarantee any of our scales against abuse).

AT THE PRICES NAMED BELOW we deliver these scales free on board the cars at Chicago, from which point the customer must pay all the freight. To eastern and southeastern points we will ship from our factory in Central New York, as the freight would be less to them. The freight, however, amounts to but very little, and absolutely nothing when you compare our prices, with freight added, to the prices which you would be obliged to pay were you to procure the scales from any other source. Remember, these scales are guaranteed against any defect in material or workmanship for ten years.

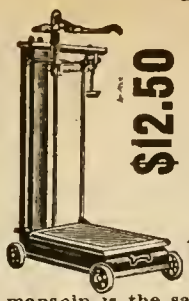
9T5927	1,600 pounds	100 lbs. by ½ lb.	19x27 inches	17.50
9T5929	2,000 pounds	100 lbs. by ½ lb.	25x33 inches	20.00
9T5930	2,500 pounds	100 lbs. by ½ lb.	25x34 inches	22.50

Our Portable Platform Scale with Bag and Holder.



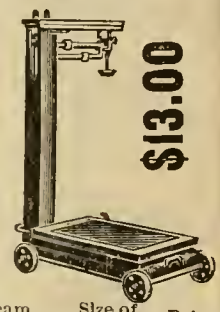
$12.50

Our Extra Heavy High Grade Portable Platform Scale with bag rack and holder, is especially adapted for use in mills and elevators for bagging all kinds of grain, seeds, etc. The patent bag holder holds the sack up and keeps it open at the same time, and the bag rack supporter keeps the bag from touching the pillar. The bag holder can also be removed readily from the scale and attached to the back of a wagon or side of barn. It is very convenient for any one who has occasion to weigh anything in bags. The material and workmanship is the same as in our extra high grade scales, quoted under No. 9T5921, in fact it is the same scale with the bag holder attached.

Catalogue No.	Capacity, pounds	Beam Marked	Size of Platform	Price
9T5931	600	50 lbs. by ¼-lb.	16x24	$12.50
9T5932	800	50 lbs. by ¼-lb.	17x24	13.50

At prices named we deliver free on board cars in Chicago. To eastern and southeastern points we will ship from our factory in Central New York, as the freight charges will be less for our customers.

Our Special High Grade Portable Platform Two Beam Creamery Scale.



$13.00

Made especially for the severe usage which a scale of this character must be subjected to. These scales are used for weighing milk. Empty can can first be weighed with one of the poises, and the other poise left free for weighing the milk itself. The 600-pound scale has graduations to 50 pounds on each bar; the 1000-pound scale has graduations to 100 pounds on each bar. They have heavy double brass beam and sliding poises, and are as good as we know how to make them.

Catalogue No.	Capacity, pounds	Beam Marked	Size of Platform	Price

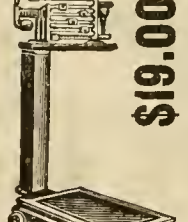
Our Special Extra High Grade Five Beam Creamery Milk Weighing Scale.



$19.00

No. 9T5937 These Scales are very convenient for the creamery, as they have different beams for taking the tare and enable the buyer to weigh several customers' milk without emptying the can until full, each beam representing a customer. There are no loose weights to be lost or stolen. Scales mounted on wheels. Size of platform, 16x25 inches. Capacity, 600 pounds. Beams marked by ¼-pounds. Made only in one size. We do not pay freight charges on any scales except our wagon scales.

Price, each..... ....$19.00

No. 3T5228 The United States Standard Scale Books. Size, 8½x11 inches. Durably bound in boards; marble sides; cloth back. Contains 500 weigh forms. Printed on a good quality of paper, with stubs attached. Our price, each.....25c

Weight, packed for shipment, 24 ounces.

WE GUARANTEE safe delivery of the Goods and entire satisfaction on everything you order or refund your money.

ABOUT THE FREIGHT. Scales are accepted by most railroad companies as second class freight, usually at from 40 to 50 cents per 100 pounds for 500 miles. By referring to pages 7 to 11 you can get the second class freight per 100 pounds to a point nearest to you which is almost exactly the same as to your town, and you will see it amounts to next to nothing as compared with the saving you will make in price.

$1.75

OUR $1.75 PLATFORM COUNTER SCALES. For $1.75 we offer this extra large 240-pound Platform Counter Scale as the greatest value in scales ever offered by us or any other house; $1.75 barely covers the cost of material and labor, allowing us one small selling profit.

NOTWITHSTANDING the great advance in the cost of material and labor, we are still able to offer this 240-pound capacity platform scale at $1.75. We have a large stock on hand, and while they last they will be furnished at the low price, $1.75. These 240-pound, $1.75 heavy platform counter scales are made for us under contract by one of the best scale makers in America, made from the very best material, accurately adjusted and covered by a binding 10-years' guarantee.

OUR GUARANTEE. Every one of our 240-pound, $1.75 platform counter scales is covered by a 10 years' guarantee, during which time, if any piece or part gives out by reason of defect in material or workmanship we will replace or repair it free of charge.

THIS OUR SPECIAL $1.75 SCALE is an all purpose scale, and unless you have a larger scale or a full standard platform scale do not fail to take advantage of our special $1.75 price, for you will be repaid many times over during the year.

THESE SCALES WEIGH from ½ ounce to 240 pounds. They take the place in many ways of the regular platform scale. They have fine steel bearings, tin scoop, heavy brass beam. Weight, boxed for shipment, about 43 pounds. You will find the freight will amount to next to nothing, as compared with what you will save in price. There are a number of scales of from 200 to 250 pounds capacity being advertised at prices ranging very nearly the same as we offer this scale. We wish to say with reference to scales so advertised that this scale could be cheapened and offered for considerably less money, but if you want the best single beam platform scale we handle, our 10-year guaranteed scale, you will get no such platform scale elsewhere at any thing like the price. Beam marked 44 pounds by ¼ ounce.

No. 9T5941 Our special price, each..... ....$1.75

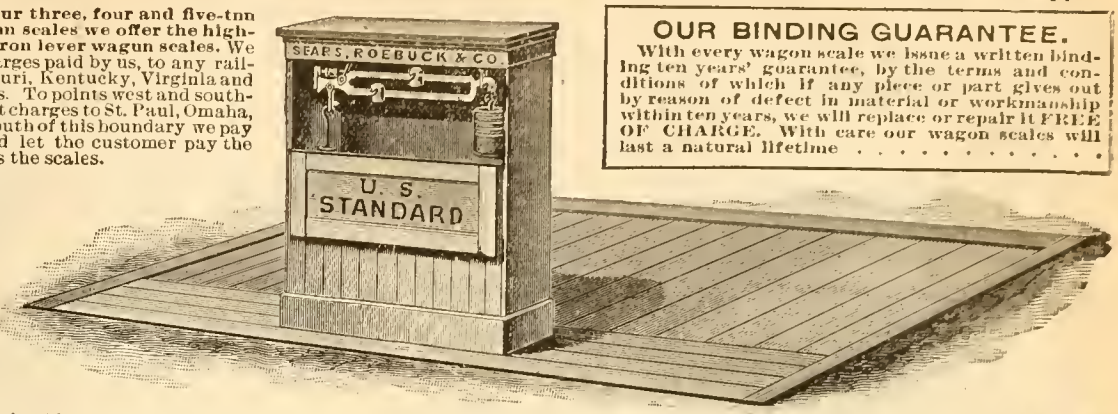
HIGH GRADE WAGON SCALES, $26.40.

GUARANTEED TEN YEARS. FREIGHT PREPAID. ONLY ONE GRADE—THE HIGHEST.

AT $26.40, $27.60 AND $29.80 for our three, four and five-ton wagon scales we offer the highest grade, ten-year guaranteed cast iron lever wagon scales. We will ship to any address, all freight charges paid by us, to any railroad station in Minnesota, Iowa, Missouri, Kentucky, Virginia and all points north and east of these states. To points west and southwest of this boundary we prepay freight charges to St. Paul, Omaha, Kansas City or St. Louis. To points south of this boundary we pay the freight to the boundary line and let the customer pay the balance of freight charges when he gets the scales.

OUR BINDING GUARANTEE.

With every wagon scale we issue a written binding ten years' guarantee, by the terms and conditions of which if any piece or part gives out by reason of defect in material or workmanship within ten years, we will replace or repair it FREE OF CHARGE. With care our wagon scales will last a natural lifetime . . . . . .



ABOUT THE QUALITY. We offer our wagon scales as the highest grade cast iron lever wagon scales made, made of the best material that money can buy, made by one of the largest and most reliable scale manufacturers in America. Only skilled mechanics are employed, every piece and part is carefully adjusted and tested and as they are guaranteed by us to you so they are guaranteed by the manufacturer to us.

EVERY FARMER should own either a set of wagon scales or platform scales. A farmer should not sell a load of grain, a bale of cotton, a hog or a steer that has not been weighed on his own scales. Your scales will check mistakes and detect dishonesty and will pay the cost ten-fold in a few years.

WITH EVERY SET OF WAGON SCALES we send building plan and full directions so that you can set the scales up without any trouble whatsoever. The scales come complete with beam box, brass beam, sliding poise and steel pivots.

No. 9T5893 Capacity, 3 tons. Shipping weight, 500 pounds. Size of platform, 8x14 feet; double beam. Marked to 1500 pounds by 5 pounds. Price.....**$26.40**
No. 9T5894 Capacity, 4 tons. Shipping weight, 550 pounds. Size of platform, 8x14 feet; double beam. Marked to 1500 pounds by 5 pounds. Price..... **27.60**
No. 9T5895 Capacity, 5 tons. Shipping weight, 600 pounds. Size of platform, 8x14 feet; double beam. Marked to 1500 pounds by 5 pounds. Price..... **29.80**
No. 9T5896 Fifty-pound sealed test weight which can be used to test any scale. Price, each..... **2.40**

Remember, we prepay the freight on wagon scales to any railroad station in Minnesota, Iowa, Missouri, Kentucky, Virginia and all points north and east of these states. To points west and southwest of this boundary we prepay freight charges to St. Paul, Omaha, Kansas City or St. Louis. To points south of this boundary we pay the freight to the boundary line and let customer pay the balance of freight charges when he gets the scales.

SOME AGENTS OR DEALERS may tell you that at prices 25, 50 or 100 per cent higher than ours they will furnish a better scale. Get a building plan of their scale, send for a building plan of our scale (free for the asking), compare the two and decide for yourself which IS THE BETTER SCALE.

OUR ROLLED WROUGHT IRON TRUSSED LEVER WAGON SCALES AT FROM $39.90 TO $99.00, Freight prepaid.

AT FROM $39.90 TO $99.00 we offer a line of wagon scales that are strictly up to date in every particular. At the prices printed below we ship the scales, with all freight charges paid by us, to any railroad station in Minnesota, Iowa, Missouri, Kentucky, Virginia and all points north and east of these states. To points further west and southwest we prepay the freight to St. Paul, Omaha, Kansas City or St. Louis, and let the purchaser pay the balance of the freight upon receipt of the scales to points south of the boundary line. We prepay the freight to the boundary and let the customer pay the balance when he receives the scales.

THESE NEW WROUGHT IRON LEVER WAGON SCALES are furnished with rolled wrought iron levers, strongly trussed. They are the latest and best class of scales that are made, being stronger and more durable, and are less liable to breakage, either in transportation or actual use, than any cast iron scale can be. Marked to 1500 pounds by 5 pounds.

ALL THESE SCALES are fitted with heavy brass double beam, nickel plated, with graduated counter poise, showing at a glance the weight on the scale. Each scale is furnished with a beam box, well constructed and of good material. By using wrought iron levers in the place of cast iron levers in these scales, it will be readily seen they are non-breakable from the sudden shocks that are likely to break the cast iron lever scales. The bearings are made of the best English tool steel, case hardened, and will wear a lifetime.

MANY OF THE CHEAP WAGON SCALES are cheapened in every part where it is possible. If the material used is good, it is light. If the material is heavy, it is a very inferior quality. Most of these cheaper scales are made by manufacturers who have had little or no experience in building scales.

WE ARE PUTTING OUR SCALES ON THE MARKET at the lowest possible price at which it is possible to offer this grade of scale, at the cost to manufacture with but one small profit from the maker to the user. Were we to offer our best scale for $20.00, makers of cheap scales would be compelled to make their goods still more inferior and offer them at $15.00. If we were to offer our scales at $12.00, the manufacturers of cheap scales could not possibly get more than $9.00 or $10.00 for theirs.

WERE WE TO SELL OUR SCALES FOR $5.00, the makers of cheap scales could not possibly give their scales away. It is impossible for any one to compete with us, quality for quality, and price for price. With every set of wagon scales we send building plan and full directions so that the scales can be set up by anyone without any trouble whatever.

OUR BINDING TEN YEARS' GUARANTEE.

With every one of our rolled wrought iron, high grade wagon scales we send our written binding ten years' guarantee, by the terms and conditions of which, if any piece or part gives out by reason of defect in material or workmanship within ten years, we will replace or repair it free of charge. With ordinary care and attention these wagon scales will last more than a lifetime. If you are interested in wagon scales and have any doubt as to their superiority, write for our special wagon scale circular, which will be mailed free on request. This contains illustrations of the working parts of the scales, with more detailed descriptions, and a few testimonials from the many we have received from our satisfied customers who have already used these scales.

AT THE PRICES NAMED we deliver these scales with all freight charges prepaid by us to all railroad stations in Minnesota, Iowa, Missouri, Kentucky, Virginia, and all points north and east of these states. To points further west or southwest we prepay the freight to St. Paul, Omaha, Kansas City or St. Louis, which ever point will leave the smallest balance of freight charges for our customers to pay. The customer pays the balance of the charges when he receives the scales. To points south of this line we pay the freight to the boundary line and let customer pay the balance of freight charges when he gets the scale.

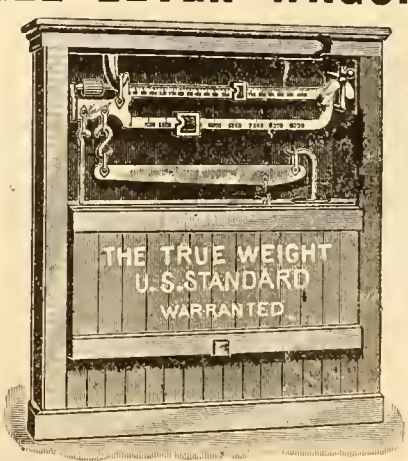
TRUE WEIGHT STEEL LEVER WAGON SCALES, $32.50.

OUR TRUE WEIGHT ROLLED STEEL LEVER FIVE-TON WAGON SCALE AT $32.50. No articles we have sold have given more universal satisfaction than our scales, and this applies more particularly to our wagon scales, because we have furnished accurate and sensitive scales at about one-half the price usually charged. Notwithstanding the great advance in cost of material and labor, we shall continue to furnish exactly the same grade of scales at the same old prices as long as possible. If it becomes necessary for us to either reduce the quality of the scales or advance the price, we shall advance the price, for the quality of the goods we have sold has built up our reputation and has made it possible for us to sell more than three times as many scales as any other concern on earth. **Hence we MUST maintain the quality.** It is admitted by all scale makers and dealers that a steel lever is better in many respects than a cast iron lever, but no one heretofore has been in a position to make enough steel lever scales to make them economically. **By means of our immense sales, we can do this.** We make only one size (namely, five tons), as by so doing we can furnish a five-ton scale for less money than we would be obliged to ask for a three-ton scale if we made three sizes.



THE PLAN OF THIS SCALE is the work of an ingenious inventor, which he is having patented. It is constructed on the most simple plan, having four independent weigh beams hanging from each corner of the scale, and the ice projecting separately and centering at the beam rod, which is the most scientific and practical arrangement that could be conceived.

WE HAVE CONTRACTED FOR THE ENTIRE OUTPUT OF THIS SCALE and to sell them have made the price for scale with beam box, complex brass beam with sliding poises, everything complete, except the timber to make platform and platform frame, only $32.50. Some of the small scale dealers ask $12.00 extra for the compound beam when furnished with their scales.

No. 9T5905 True Weight Rolled Steel Lever Five-Ton Wagon Scale. Price, complete..... **$32.50**

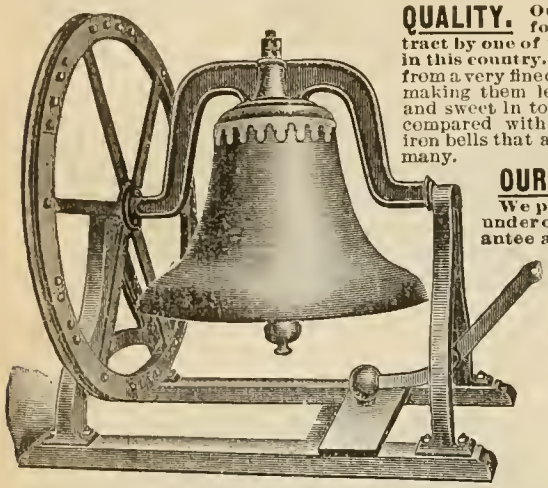
THESE WEIGH BEAMS OR LEVERS are constructed of T shaped rolled steel, which are strongly trussed. To the ends of these weigh beams are attached heavy cast iron heads in which are scientifically adjusted the necessary knife edges and pivots, which are made from the best tool steel, carefully tempered. On the other end of the weigh beams are attached the adjustable nose irons, ingeniously assembled in a holder. This holder is connected by a rod to an equalizing lever in beam box, and this equalizing lever is connected to a complex brass beam with sliding poises. The beams are marked to show the entire capacity of the scale, thus dispensing with the use of the common loose weights that sometimes get lost or unsealed.

WE CLAIM that in many respects this is the best scale that has ever been put on the market, and our price is just exactly one-half that which is now being demanded for an inferior scale by the scale trust. We will ship to any address, all freight charges paid by us, to any railroad station in Minnesota, Iowa, Missouri, Kentucky, Virginia and all points north and east of these states. To points west and southwest of this boundary we prepay freight charges to St. Paul, Omaha, Kansas City or St. Louis. To points south of this boundary we pay the freight to the boundary line and let the customer pay the balance of freight charges when he get sthe scales. Capacity, five tons; size of platform, 14 feet long and 8 feet wide. Furnished with beam box.

THIS SCALE IS PRACTICALLY UNBREAKABLE by overweight or misuse. We warrant the scale for 25 years against defect in material or workmanship.

SCHOOLHOUSE AND FACTORY BELLS AT $7.20 TO $22.50. CHURCH BELLS AT $29.25 TO $112.50.

Bells for farm, schoolhouse, churches and elsewhere we will sell at prices based on the actual cost to manufacture, the cost of material and labor, with but our one small percentage of profit added. If you are in the market for a high grade, perfectly toned, guaranteed bell for schoolhouse, church, farm, or home, we are prepared to furnish you such a bell under our guarantee for quality and at a saving of from 25 to 50 per cent in price as against any price you can get from any dealer anywhere.



QUALITY. Our bells are made for us under contract by one of the best makers in this country. They are made from a very fine crystalline metal, making them loud, clear, round and sweet in tone and cannot be compared with the cheap cast iron bells that are advertised by many.

OUR GUARANTEE. We put out every bell under our binding guarantee against breakage for five years, and if it is not perfectly satisfactory as to quality of tone, volume, finish, weight and durability; if it is not satisfactory in every way and if you do not find it lower in price than any bell you can buy elsewhere, you are at liberty to return it to us AT OUR EXPENSE AND WE WILL RETURN YOUR MONEY.

Church, Schoolhouse and Factory Bells.

No. 9T6050 These bells are CRYSTALLINE METAL and can be relied on under all circumstances and in all seasons. Nos. 20 to 28 are school or factory bells, and are not suitable for churches. Nos. 30 to 48, inclusive, are recommended for churches. Bells are numbered by the diameter in inches.

34	460	725	40.50				

The weights and prices above named are for complete bells, and include wood sills, iron wheel; and for Nos. 30, 32, 34, 36, 40, 44 and 48, tolling hammer without extra charge. Tolling hammers for Nos. 24, 26 and 28, when so ordered, $3.00 each, extra. The above prices are for bells delivered free on board cars at our factory in Southern Ohio.

OUR BIG 83-CENT FARM BELL.

At 83c for 37½ lbs., $1.17 for 53 lbs., $1.75 for 71 lbs., we offer this large, handsome crystalline metal farm bell as the greatest value ever offered in a bell of this kind.

This bell is hung on a heavy, strong and substantially built frame which bolts to a pole. The bell is full bronzed and at our special 83c to $1.75 price, according to weight, the bell comes complete with all mountings.

From the accompanying illustration, engraved from a photograph, you can get a general idea of the appearance of this our special 83c, $1.17 and $1.75 farm bell.

At our extremely low price, a price but a shade above the actual value of the raw material, there is no reason why any farm should be without one of our large farm bells. Erect a post, fasten this our 37½, 53 or 71-lb. bell to the post and you will feel repaid for your purchase the first month. No. 9T6055

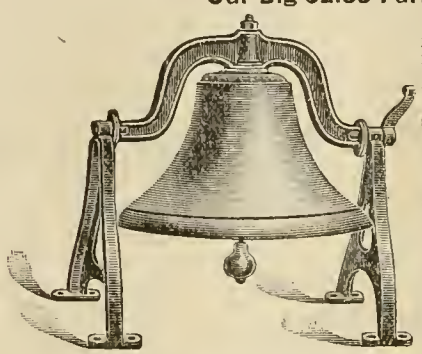
Size No. 1. Diameter at mouth, 14¼ inches. Weight of bowl, 23½ pounds. Weight with hangings, 37½ pounds. Price..... 83c

Size No. 2. Diameter at mouth, 16¼ inches. Weight of bowl, 33 pounds. Weight with hangings, 53 pounds. Price..... $1.17

Size No. 3. Diameter at mouth, 18 inches. Weight of bowl, 48 pounds. Weight complete with mountings, 71 pounds. Price..... $1.75

We do not include bolts to fasten frame to post. If wanted please order them separately. The holes in frame are made to take bolts ⅝ inches in diameter.

Our Big $2.35 Farm Bell.



At $2.35 we offer this big 100-pound crystalline metal farm bell complete with all mountings as the equal of bells that sell at more than double the price.

Order this high grade bell and if you do not find it perfectly satisfactory and better than any bell you could get elsewhere at anything like the price, you can return it to us at our expense and we will return your money.

From the accompanying illustration, engraved from a photograph, you can form an idea of the appearance of this, our high grade, big $2.35 farm bell.

This bell is well finished, is extra fine tone, can be heard farther than any copper or tin bell of five times the cost, and far more durable.

At our $2.35 price the bell comes complete with all mountings, as illustrated above, ready for use.

No. 9T6056 Size No. 4. Diameter at mouth, 19½ inches. Weight of bowl, 65 pounds. Weight, with mountings, 96 pounds. Price..... $2.35

No. 9T6335 Our Highest Grade Russian Saddle Chime. Bell metal gongs, fancy metal frames, beautifully finished in best nickel plate. Price, each.. $2.13

FIREPROOF SAFES

LARGE, MEDIUM AND SMALL FIREPROOF SAFES FOR BANKS . . . MERCHANTS, PUBLIC INSTITUTIONS, PRIVATE USE AND FOR HOME.

AT $6.00 AND UPWARDS, ACCORDING TO SIZE, we offer a line of the highest grade fireproof safes on the market, and we believe our uniformly low prices should attract the attention of every buyer who is interested in saving from 50 to 100 per cent in the purchasing of a safe. We are at this writing in receipt of a letter of testimony from a party who purchased a 300-pound safe, saying that it just went through a raging hot fire for 18 hours, and while it was the smallest safe (the largest weighing 1500 pounds and upward) that was in this fire, it was the only safe in which the contents were in perfect condition, and in which the combination worked perfectly even after 16 or 18 hours red hot test. This is but one sample of the hundreds of testimonials which speak for the satisfactory construction of our special high grade fireproof work.

CONSTRUCTION. Our Fireproof Safes are constructed by forming outer and inner boxes of wrought steel, between which the concrete filling is introduced in a semi-liquid state, permeating and reaching into every crevice, making the whole structure, when hardened, a solid mass. The filling soon becomes hard and dry as limestone rock, and never corrodes the steel, which is sufficiently thick to cause great strength in connection with the filling, and yet not thick enough to prove injurious as a conductor of heat. The secret of its fireproof qualities is the chemical change that takes place upon being heated to a certain temperature, which generates a vapor that fills all the pores in the concrete, thereby forming a cool, moist wall entirely around the contents during their subjection to the heat. The outside steel box is formed of one continuous steel (not iron) plate, forming top, sides and bottom. This box is securely attached to heavy front and back wrought steel angle frames, forming in outline as nearly as possible one solid piece. The doors are stepped or flanged in the usual manner and secured by front and back bolts.

OUR LOCKS. All our safes are secured and protected by the Yale Four-Tumbler Combination Lock. This lock is absolutely nonpickable and consists of a series of tumblers so arranged as to be susceptible to one million combinations. The various changes in the combination can be made by a very simple process. Directions for operating the lock and changing the combination are furnished with each safe. This lock is so arranged that the door can be closed, bolts thrown, and the dial turned from five to ten numbers (practically locking the safe) without throwing the combination, which is of great importance, especially when wishing to leave the office a few moments and at the same time have the safe locked; on your return simply reverse the dial to the last number on which the combination is set and you can open the safe.

ABOUT THE FREIGHT. Safes take the lowest rate of freight, or third class. They are shipped from the factory in Northern Indiana, from which point the customer must pay the freight, but you will find the freight will amount to next to nothing as compared with what you will save in expense.

For example, third class freight will be for 200 miles, 15 to 20c per 100 pounds; 400 miles, 30c to 40c per 100 pounds; 700 miles, 40c to 50c per 100 pounds; 1000 miles, 60c to 75c per 100 pounds, from which you can calculate very closely what the freight will amount to.

MEASUREMENTS AND WEIGHTS. All safes are measured from floor to top of safe, including wheels. The weight of a new fireproof safe can only be approximated. In seasoning it will lose in weight from 50 to 150 pounds, depending upon its size. The weight has nothing whatever to do with the fireproof qualities.

The more porous the filling the lighter the safe will be; the more porous the better protection in extreme heat. We make effort to reduce the weight of our safes on account of saving in freight rates to our customers.

Name painted on safe without extra charge when ordered. We do not letter name on safe unless it is so ordered. Name should be carefully printed to avoid mistakes.

OUR $6.00 FIREPROOF SAFE.

No. 9T7100

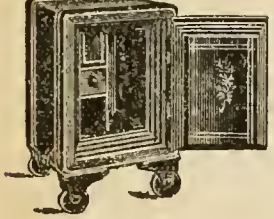
FOR $6.00 WE OFFER OUR FAMILY FIREPROOF SAFE weighing 100 pounds, as a small house safe which should be in every home, as a safe place for holding all valuable papers, etc. While these safes are not positively burglar proof, they are proof against ordinary burglary and petty thieves, and absolutely safe against any kind of fire.

THIS SAFE AT $6.00 is intended for dwellings and home safe, and is equal to safes sold by other houses at $10.00 to $15.00.

THIS $6.00 SAFE IS ABSOLUTELY FIREPROOF. It is nicely finished throughout, has a deep fireproof door, latest burglar proof combination lock. It is 16¼ inches high outside, 10 inches inside, 10½ inches wide outside, 6½ inches inside, 13 inches deep outside, 8 inches inside. **Weighs 100 pounds. It is offered at $6.00 as the equal of any safe on the market sold by others at $10.00 to $15.00. This safe does not have T handle to operate the bolt and is not furnished with the four-tumbler Yale lock, which are on all other safes sold by us.**

No. 9T7100 Our price.....$6.00

OUR $12.25 FIREPROOF SAFE.

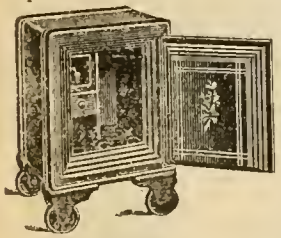


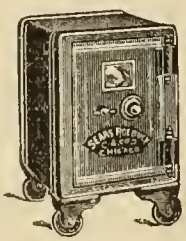
No. 9T7102

FOR $12.25 WE OFFER you a single door fireproof safe, the equal of anything you can buy elsewhere at $25.00. While the safe is intended more as a house safe, we have sold a great many to business men for offices, stores and other places where only a small safe is required as a protection to valuable papers, etc. **This safe is beautifully finished, rounded corners throughout, wrought steel angles, with the very best non-pickable combination lock, highly ornamented with** transfer decorations, painting, etc., and finished with your name handsomely lettered in gold, without extra charge. **This safe has a 5-flange door. Dimensions of safe:** Outside, 23x14½x15 inches; inside, 11½x7½x9 inches; approximate weight, 225 pounds. **Arrangement of cabinet work:** One book space, 3½x12 inches; one sub-treasury with flat key lock, 4x5 inches; one dovetailed drawer, 3x4 inches; one pigeonhole, 3½x4 inches.

No. 9T7102 Our special price.....$12.25

OUR $14.25 FIREPROOF SAFE.





No. 9T7104

AT $14.25 WE OFFER A REGULAR $35.00 SAFE. THIS IS A VERY POPULAR SIZE SAFE for home, small merchants, and the various places of business where a fireproof safe of limited capacity is required. It is **finished with round corners throughout, wrought steel angles,** handsomely ornamented with beautiful gold lines and hand painting, and we furnish it with your name in gold letters without extra charge. **It has a 5-flange door.**

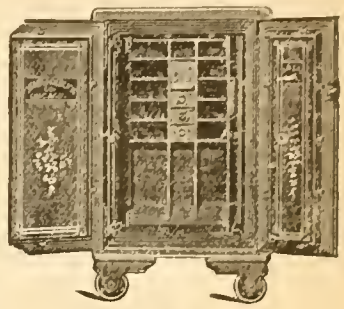
$112.00 Buys a Regular $195.00 Safe.

This is a very large safe, weighing 3,000 pounds and standing five feet high, made with **double outside doors and double inside doors,** made expressly for **very large business houses, banks, public offices** and such **institutions** as require a safe absolutely fireproof of sufficient size to hold a large number of books, records, papers, etc. This safe stands 60 inches high, 36 inches wide, 32 inches deep. Inside measurements, 40 inches high, 24 inches wide, 18 inches deep. Weighs complete, 3,000 lbs.



Arrangement of cabinet work: One sub-treasury 7x7 inches, three drawers with knobs, one drawer with flat key lock, two book spaces 8¼x18¼, one book space 7x18¼, seven pigeonholes or fourteen pigeonholes, as per direction of customer.

No. 9T7141 Our special price with double folding outside doors, combination lock, and double folding inside doors, with key lock.....**$112.00**

Our $143.00 Double Door Fireproof Safe.

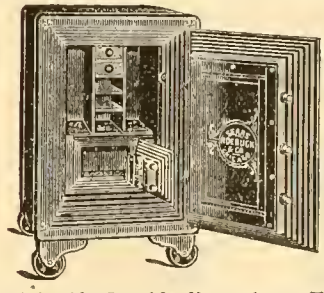
Our largest double door fireproof safe for $143.00, is especially adapted to the use of jewelers. It is made high in proportion to its width, thus leaving room in the center for drawers and trays, and at the sides for books, etc. We can arrange the cabinet work of this (or any other safe we sell), as may be desired by our customers, and only charge the exact difference in cost to us. Send us a diagram showing how you want the space divided, and we will tell you what the extra cost will be. Remember all our safes have Yale four-tumbler combination locks. Outside dimensions, 71¼ inches high, 40¾ inches wide, 35 inches deep. Inside dimensions, 50 inches high, 28 inches wide and 20 inches deep. Approximate weight, 4,200 lbs.

ARRANGEMENT OF CABINET WORK:

One sub-treasury, 7 inches high, 6 inches wide and 16 inches deep; four drawers with flat key locks, one drawer with brass trimmed knob handle; twenty pigeonholes or less, made in sizes to suit.

No. 9T7145 Our special price, with double inner doors.....**$143.00**

Our $67.50 Burglar Proof Safe.



The Burglar Proof Safe, as shown in illustration, is our No. 9T7121 Fire Proof Safe, but in addition to its protection against loss by fire it also contains a burglar proof chest weighing 500 pounds. The great advantage of a burglar proof chest is that while the safe itself outside of the chest is fireproof, it is possible for any fireproof safe to be drilled into or blown open by explosives, but with the burglar proof chest valuables and valuable papers are thoroughly and doubly protected from the robber from the fact that even after the large door has been opened there still remains the burglar proof chest, which offers one hundred-fold resistance to burglary above that offered by the fireproof safe itself. **Outside dimensions:** Height, 42 inches; width, 27¼ inches; depth, 26 inches. **Inside dimensions:** Height, 26½ inches; width, 18½ inches; depth, 16 inches. **Approximate weight, complete, 1,800 pounds.**

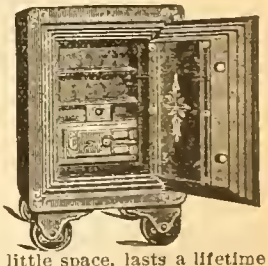
Arrangement of cabinet work: One burglar proof chest, outside, 12 inches high, 18 inches wide, 13 inches deep; inside, 8 inches high, 14 inches wide, 9 inches deep, provided with Yale combination lock; two book spaces, 5⅝ inches high, 18 inches wide, 15 inches deep; two pigeonholes, 3 inches high, 6 inches wide, 15 inches deep; one drawer, 3 inches high, 5½ inches wide, 15 inches deep.

We furnish this safe with inner door. Illustration shows it without.

No. 9T7155 Our special price, with inner door.....**$67.50**

Our $87.00 Burglar Proof Safe.

WITH FIVE-INCH WALL—SEVEN-FLANGE DOOR.



For absolute security, both against fire and burglary, this safe at $87.00 has no superior. It is made of the very best material that can be purchased. The fireproof filling is not only the best, but is treated in a manner which is superior to the method used by any other company. Never have any of our safes become damp, musty or swollen, as is the case with other makes of safes where even the same fireproof material is used, but treated in an entirely different and unsatisfactory manner. Do not say that you do not need a safe; do not say that you cannot afford a safe. The cost of this safe is very slight indeed compared with what might be lost in a single hour through fire or burglary. The first expense in the purchase of a safe is the only one. It takes up comparatively little space, lasts a lifetime and is a constant protection against loss. **Compare our price of $87.00 on this heavy fire and burglar proof safe** with that of any other safe on the market. **Remember that in furnishing this safe we put on in handsome lettering the name in full of the customer if plainly ordered.** In sending an order for this safe, be sure to send name printed, if possible, so that there may be no mistake in the lettering. **Remember that safes go at a low freight rate, third class, and the freight will be very little indeed compared to what you will save in price.**

We furnish this safe with inner door, which is not shown in picture.

No. 9T7166 Our special price, with inner door.....**$87.00**

HOUSEFURNISHING HARDWARE DEPARTMENT

IT IS OUR AIM to illustrate and describe in the following pages, a full and complete line of house furnishing hardware and culinary utensils such as can be found only in the highest class house furnishing hardware stores in large cities.

WE GIVE OUR CUSTOMERS THE BENEFIT of an assortment of all grades of goods, from the cheapest to the most expensive to select from, which has heretofore been enjoyed only by the comparatively few who chanced to reside in large cities, and in many lines we show a greater variety than is carried in stock by any retail store even in the largest cities.

THERE IS NO MANUFACTURER of high grade kitchen utensils whose goods are not represented in our stock and we illustrate in our catalogue a great variety of labor saving devices, WHICH TEND TO MAKE THE HOUSEWORK A PLEASURE INSTEAD OF A DRUDGERY.

OUR LINE OF WASHING MACHINES is the most extensive in America and includes every pattern for which there is any demand. Our refrigerators are made by one of the largest and oldest makers in the country, are of the most approved pattern, and our Seroco porcelain enameled steel lined refrigerator represents the most advanced ideas in sanitary refrigerator construction. In fact, there is not an article in this line, large or small, of any merit, which you will not find listed in the following pages, and at prices which are fixed 20 to 60 per cent lower than it would cost you at home.

WE DO NOT DEAL with middlemen or wholesale dealers; all our goods are bought direct from the manufacturers, and owing to the quantities of goods our enormous trade requires, we are their most desirable customers and buy lower than any other dealer in the country. We sell these goods to you at but a small advance over manufacturers' cost, and at a lower price than they can be procured elsewhere.

GREATEST VALUES EVER KNOWN IN WASHING MACHINES.

We Ask Your Orders for These Well Known and Highest Grade Machines Made, Because We Offer the Best and Can Save You Money.

INSTRUCTIONS FOR USING COMBINATION WASHERS. Fill machine from one-half to two-thirds full of hot strong soap suds, and put in six or seven sheets or the equivalent of these clothes for one washing. Work the machine from ten to twelve minutes, wring out and rinse through clear water, blue and hang on the line. Always keep nuts and bolts on machine tight. A wrench is provided with each machine for this purpose. All bearings should be kept slightly lubricated. Do not allow water to stand in machine. Dry out well after using and keep lid open.

HOW TO USE the Fulton American, Scott's Western, Desplaines American, Chicago American or Continental Washers. Soak your clothes the evening before washday, soaping the dirty spots well with good hard soap. When thoroughly soaked, pass them through wringer and place them in the machine. Do not put over six to eight shirts and about half-dozen towels or handkerchiefs in the machine, then fill the machine with hot, strong soap suds until the clothes are well covered, work the lever about ten minutes, wring, rinse and blue your clothes, and they are ready for the line. If accustomed to it, boil the clothes before rinsing; it is not absolutely necessary when good soap is used.

DIRECTIONS FOR USING the Quick and Easy and Curtis Washers. Soak the clothes and soap the dirty parts well before washing. Put in the necessary amount of clothes to be washed and add a wash boiler full of hot soapy water, or enough to cover the clothes thoroughly. Operate the machine about ten minutes. Take off the dirty water and fill the machine with clear water. Operate the machine about two or three minutes and the clothes will be rinsed. When through washing, rinse the machine with cold water, hang up lower cylinder on the upper one. Allow the machine to stand open until thoroughly dry.

WE SHIP OUR No. 23T100 to No. 23T138 WASHING MACHINES from Ft. Wayne, Ind., or St. Louis, Mo., and our Nos. 23T140 and 23T143 from Richmond, Va., where we can save our customers any freight by doing so, otherwise we ship from Chicago.

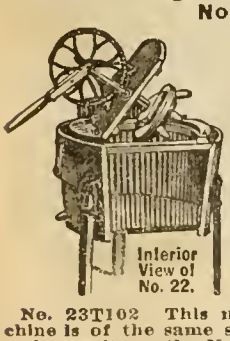
Fulton American No. 1 Washer.

$4.44

Illustration showing inside crate removed.

No. 23T100 This machine is our old standby improved, with our patent malleable iron enameled pinwheel. The crate inside is independent of the tub and can be removed after the washing is done. The machine is made out of white pine, painted and grained an ash color and finished in every respect first class. It will wash five shirts at a time clean, without the use of a washboard, and is fully warranted in every respect. Size, 23x11 inches. Weight, 54 pounds. Price, each,..... ....$4.44

The Chicago American Washer, No. 22.



Interior View of No. 22.

$2.75

No. 23T102 This machine is of the same size and capacity as the No. 1 Fulton American but instead of the loose crate the staves and bottom of it are corrugated. It is made and finished the same at the No. 1, and warranted to do good work. Parties wanting a cheaper machine will do well to try this before buying any other. Inside dimensions, 23x11 inches. Weight, 47 pounds.

Price, each $2.75

The Desplaines American Washer No. 5.

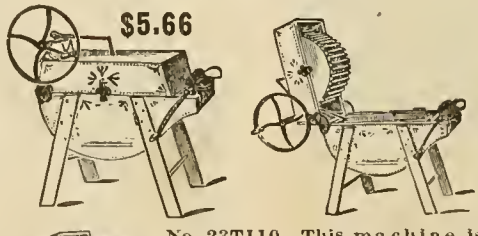
$2.72

No. 23T104 This machine was gotten up at the special request of some of our customers. It is of the same make and finish as our No. 22 Chicago American. Staves and bottom are corrugated; in fact it is the **No. 22 Chicago American reversed.** Inside dimensions, 23x11 inches. Weight, 47 pounds.

Price, each.....$2.72

The Curtis Washer.

$5.66

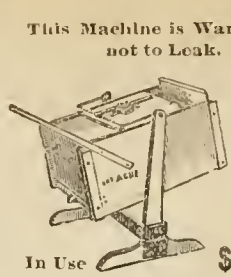


No. 23T110 This machine is made on the rubber principle, the same as used in the Quick and Easy, but has two cylinders working in opposite directions at the same motion of the crank shaft, thus cleaning the clothes quicker and more thoroughly than the former machine. It will not tear the clothes and on account of the balance wheel, the machine will work so easy that a child can work it without being fatigued. We have found that the yellow cottonwood grown in the low lands of Arkansas and Mississippi is the best lumber for washing machines, and we have adopted the same in all the box machines. Well made, well painted and varnished, and all the iron parts coming in contact with the water are heavily tinned or galvanized. Weight, 93 pounds.

Price, each, wringer not included..... .$5.66

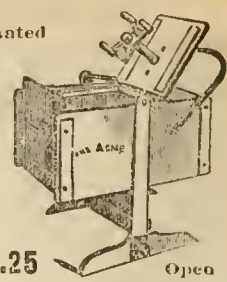
The Acme Combination Washer.

This Machine is Warranted not to Leak.



In Use

$4.25



Open

The latest and as we believe the best invention in Washing Machines yet made. This machine combines the reciprocal pinwheel motion with an oscillating movement of the whole suds box. The main advantage that we claim for this machine is that **it works fully one-third easier than any other machine** that operates with a pinwheel agitator, that it takes less water (only four pails), and that it is more simple in construction than any other machine now on the market. The machine when open, locks itself, so that a wringer can be attached on the wringer board without tilting it; a small key inserted in the gear will keep it from tilting when full, thereby preventing accidents of any kind. The machine is well made out of the best yellow cottonwood, finished in superior and excellent style, and we can recommend it and will warrant the same as **the best family washer** that we know of. A 30 days' guarantee goes with every machine sold.

No. 23T114 Family Size Acme Combination Washer No. 11. Size, 15½x25½x10½ inches. Weight, 67 pounds. Price, each.....$4.25

No. 23T116 Family Size Ball Bearing Acme Combination Washer No. 6. Weight, 73 pounds. Price, each..... $4.90

No. 23T118 Large Size Acme Combination Washer No. 12. Size, 17½x25½x12½ inches. Weight, 71 pounds. Price, each.....$5.00

No. 23T120 Large Size Ball Bearing Acme Combination Washer No. 7. Weight, 77 pounds. Price, each.....$5.65

The Genuine Improved Scott's Western Washer.

$2.75

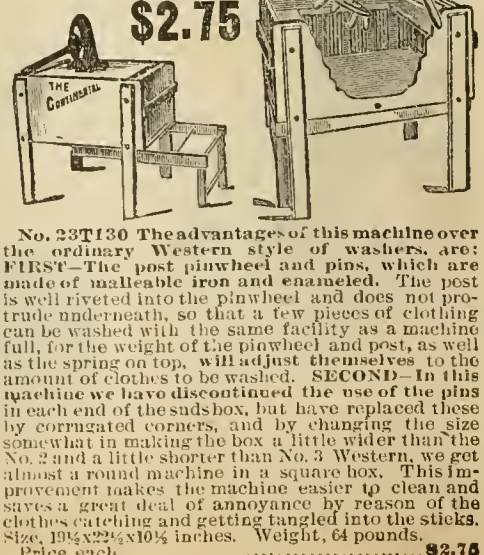
The standard family machine. The make up and finish of our Scott's Western will be the same as heretofore, and will not be excelled by any other make. **All of the bolts, washers, nuts, nails,** in fact all iron parts that come in contact with the clothing **are heavily tinned,** absolutely no danger of rust spots on the clothes. Fitted up with our patented round post, and **malleable iron enameled pinwheel,** the greatest invention of the age in washing machines. Made in two sizes—No. 2 and No. 3. The former is the family size.

No. 23T121 Scott's Western Washing Machine, size No. 2. Inside dimensions, 17¾x23½x10½ inches. Weight, 62 pounds. Price, each.....$2.75

No. 23T126 Scott's Western Washing Machine, size No. 3. Inside dimensions, 19¼x25½x11½ inches. Weight, 65 pounds. Price, each.....$3.10

Continental Washer.

$2.75



No. 23T130 The advantages of this machine over the ordinary Western style of washers, are: **FIRST**—The post pinwheel and pins, which are made of malleable iron and enameled. The post is well riveted into the pinwheel and does not protrude underneath, so that a few pieces of clothing can be washed with the same facility as a machine full, for the weight of the pinwheel and post, as well as the spring on top, will adjust themselves to the amount of clothes to be washed. **SECOND**—In this machine we have discontinued the use of the pins in each end of the suds box, but have replaced these by corrugated corners, and by changing the size somewhat in making the box a little wider than the No. 2 and a little shorter than No. 3 Western, we get almost a round machine in a square box. This improvement makes the machine easier to clean and saves a great deal of annoyance by reason of the clothes catching and getting tangled into the sticks. Size, 19¼x22½x10½ inches. Weight, 64 pounds.

Price, each $2.75

Quick and Easy Washer.

$2.05

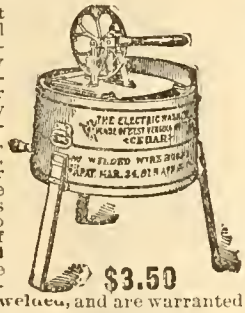
No. 23T135 This machine is called the Quick and Easy Washer and we are satisfied that by buying this machine every householder will find that it is true to its name and will relieve his wife of a great burden. Weight, 43 pounds. Price, each $2.05

Seroco Rotary Washer No. 15.

$5.33

No.23T138 The Seroco Rotary Washer is the best on the market, it has the most simple gearing of any. The machine is fitted up with our galvanized iron pin wheel, the gearing is self contained and cannot be gotten out of order. The hand wheel can be turned forward and backward and in both cases the machine will wash. The gearing is covered over with a shell cover, preventing accidents, breakage of the gearing and accumulation of dust and dirt on the cogs. The hand wheel detaches from the gearing when the lid is raised, and when the lid closes the machine locks automatically. All of the gearings are made from patterns with cut gear, insuring noiseless work without jarring. Inside dimensions, 22½x11 inches. Weight, when crated, 66 pounds. Price, each..... $5.33

Electric Washer.



$3.50

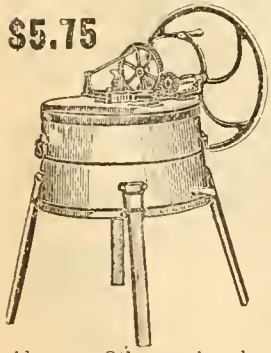
Constructed of the best Virginia white cedar, and is stronger, more nicely finished, and larger than any round machine on the market. Supplied with our improved gearing, fully galvanized. Inside of machine is fully corrugated, similar to a washboard, there being no nails or blocks of any kind on the inside. The machine is made with large end of tub down, allowing plenty of room for water and clothes. The hoops are made of extra heavy galvanized wire, are electric welded, and are warranted not to break or fall off.

Instead of using a square wooden post to work the dolly we use a square galvanized iron rod, making it impossible to tear the most delicate fabric, as the dolly and standard are automatically adjusted to the quantity of clothes contained in the machine.

The Electric closes tight and retains the heat in the water for a long time, and prevents the odor of foul steam from clothes. The washer can be used on a carpet without soiling same. Large, convenient place for holding the wringer, which need not be moved while using the machine. Shipping weight, 50 pounds.

No. 23T140 Price, each.....$3.50

The Richmond Rotary Washer.

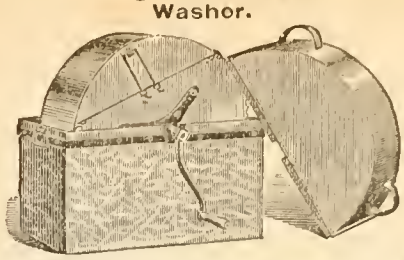


$5.75

No. 23T143 The Richmond Rotary Washer, made of selected Virginia white cedar, thoroughly seasoned. This machine is the lightest and easiest running washer made; the balance wheel does the work. The mechanism is simple, no clutches or trips, nothing to wear out, will run by turning the fly wheel in either direction. The tub is extra large, with large lid opening so the clothes may be easily removed. The sides and bottom are corrugated on the inside only. Other washers have corrugations running full length of stave, making crevices for collection of dirt, escape of steam or leakage of water. Leg brackets are bolted to the tub with galvanized carriage bolts, making it impossible to pull them off. Furnished with galvanized hoops, two being of wire, electric welded and sunk in grooves, they cannot fall off. Each machine is fully guaranteed, and if not perfectly satisfactory can be returned and money will be refunded. Weight, 65 pounds.

Price, each..... $5.75

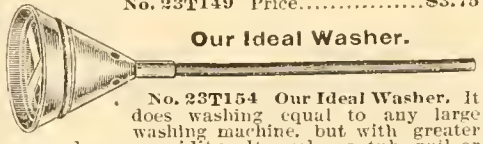
The Revolving Wheel All Metal Steam Washer.



Having all the latest improvements. Boiler is thoroughly well made of heavy galvanized iron, 21¾ inches long, 12 inches wide and 10¼ inches deep, inside measurements. This washer is strengthened by an iron brace, thoroughly riveted around the top. The cylinder is made from heavy tin plate, is 18¼ inches in diameter and 9¾ inches wide. The clothes are placed in this cylinder and washed by the action of the steam. Prints and ginghams can be washed in from five to eight minutes. White flannel in five minutes; red flannel in about one minute; lace curtains in from ten to fifteen minutes. No washboard rubbing is necessary, and clothes will last twice as long. In washing it is not necessary to turn all the while. You turn the cylinder one or two minutes, then go about your other work for a while, then turn the cylinder a minute or two again. You can wash much cleaner in this washer than you can by hand, and the clothes will always keep white and never turn yellow. Does not wear the clothes or pull off the buttons. This machine is made of the best material and should last from five to ten years. Remember, the clothes are not boiled, but cleansed by steam. This is a process which is used by the celebrated French steam cleaning establishments. A heavy tin cover fits closely on the top of this machine, which closely confines the steam. When crated for shipment it weighs about 30 pounds.

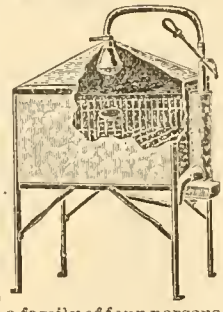
No. 23T149 Price.....$3.75

Our Ideal Washer.



No. 23T154 Our Ideal Washer. It does washing equal to any large washing machine, but with greater ease and more rapidity. It washes a tub, pail or boiler full of clothes all at one time, without the usual wear and tear received by all old methods. It forces compressed air, steam and water through the fabric, quickly removing all dirt. It has no equal for dainty fabrics, blankets, woolens, disagreeable cloths, etc. If it does not do all we claim for it, it may be returned and money will be refunded. Made of best tin. Price, each 49c

Dishwashing Machine.



Is made of No. 26 gauge bright galvanized iron with heavy japanned iron frame, substantially and neatly constructed, will last a lifetime. It is durable, simple and self cleaning. Dishes cannot be broken, cracked or chipped. With this machine you can in three minutes wash and dry the dishes used in an ordinary sized family without wetting your hands. Full directions sent with each machine.

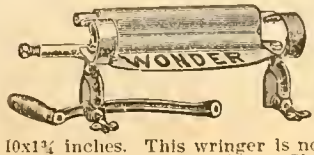
No. 23T190 Dishwashing Machine. Size of body, 15x24 inches; capacity, 40 pieces—sufficiently large for a family of four persons. Price.....$6.65

No. 23T191 Dishwashing Machine. Size of body, 18x24 inches; capacity, 60 pieces—sufficiently large for a family of six persons. Price.....$7.95

No. 23T192 Dishwashing Machine. Size of body, 24x24 inches; capacity, 80 pieces—sufficient for a very large family. Price.....$9.95

WRINGERS.

Rolls in our warranted wringers are made of solid white rubber, and vulcanized immovably to shaft. When we state that a wringer is guaranteed for a certain period, we mean, that should any rolls turn on the shaft, become loose, bulge, or give out because of defects within the time specified, we will replace them free of charge. When we guarantee a wringer for one year, it does not mean that we do not think, and that you cannot expect that the wringer will last longer than that time. If a wringer is defective it will certainly show in one year, and if it does not show within that time, we take it for granted that the wringer is perfect in material and workmanship, and will last, according to the care and usage it receives, from five to twenty years.



No. 23T200 The Wonder is an ordinary grade wringer, not guaranteed. It has iron frame, and apron, iron tub clamps, steel springs; rolls are 10x1¾ inches. This wringer is not warranted, and we do not advise its purchase. Shipping weight, 10 pounds. Price, each..... $1.12

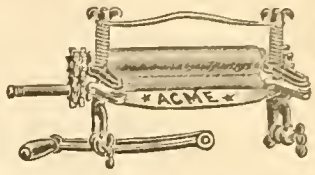
The Dandy Wringer.

No. 23T202 The Dandy Wringer has a frame and apron of the same general appearance as the Wonder Wringer, but the rolls are high grade and are warranted for one year. It is furnished with tub clamps that will fasten to galvanized iron, fiber, or wooden tubs. Size of rolls, 10x1¾ inches.

Price, each.....$1.53

Shipping weight, 10 pounds.

The Acme Wringer.

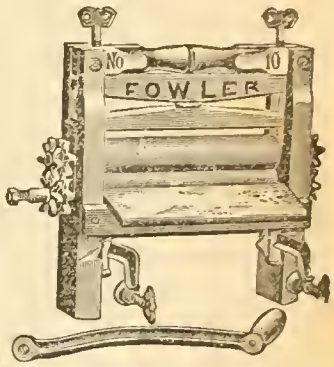


No. 23T205 The Acme Star Wringer with cog wheels. Special features of merit in the Acme Star Iron frame wringers are that they have steel spiral pressure springs and thumb nuts, by which the pressure can be adjusted the same as any wood frame wringer. They are furnished with high grade rolls, size, 10x1¾ inches, guaranteed for two years.

Price, each.....$2.24

Shipping weight, 10 pounds.

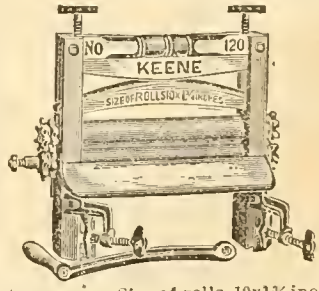
The Fowler Wringer.



No. 23T208 The Fowler Wringer has wood frame with two adjusting screws, iron tub clamps as shown in the illustration. The rolls are ordinary grade not warranted, and while we believe that our 5-year guaranteed Curtis wringer is the cheapest wringer that anyone can buy, still there are many people who do not wish to invest so much money in a wringer. Rolls, 10x1¾ inches. Price, each.....$1.23

Shipping weight, about 10 pounds.

The Keene Wringer.

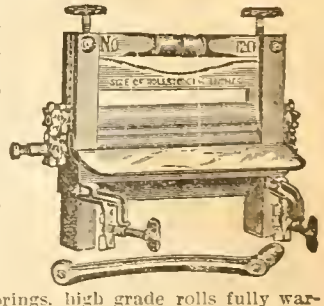


No. 23T210 The Keene Wringer is a strictly high grade, up to date wringer. It has all the improvements known to wringer manufacturers. It has wheel top screws, tub screws that will fasten to galvanized iron, fiber or wooden tubs, steel pressure springs, double cog wheels. It is guaranteed for two years. Size of rolls, 10x1¾ inches.

Price, each.....$1.72

Shipping weight, about 10 pounds.

The Scott Wringer.



No. 23T214 Wishing to give our customers a large variety of wringers to choose from, we offer our Scott wringer, which is a favorite in many localities. This wringer has wheel top screws, tub clamps that will fasten to galvanized iron, fiber or wooden tubs, double gear cog wheels, spiral steel pressure springs, high grade rolls fully warranted for two years. Rolls, 10x1¾ inches.

Price, each.....$1.75

Shipping weight, about 10 pounds.

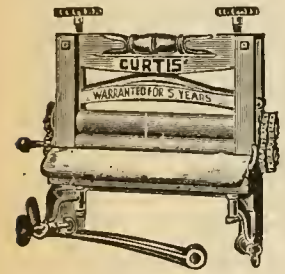
FREIGHT IS A SMALL ITEM.

By noting the weight in the description of the goods and referring to the introductory pages of this catalogue you can calculate what the freight will cost you, and in every case you will find it will amount to next to nothing compared to the saving in price.

The Seroco Ball Bearing Wringe

No. 23T218 This Wringer has wheel top screws, steel adjustment spring, double gear cog wheels, tub clamps that will fasten to galvanized iron, fiber or wooden tubs. The tub clamp is fastened to the wringer by a bolt, which passes entirely through the wringer, making the strongest fastening known. The ball bearings reduce the friction to a minimum and materially lighten the hardest part of the wash day. There have been wringers placed on the market with roller bearings, and there have been wringers sold with ball bearings, which are to be adjusted and frequently get out of order. **The ball bearings in this wringer are so constructed that it is absolutely impossible for them to break or get out of order in any way. We wish to caution users against putting too much pressure against the rolls.** This wringer turns so easily that if you have been accustomed to using a wringer with ordinary bearings, you will think that this one is not wringing dry because it turns so easily. You should not put much pressure on the top screws or you will destroy the rolls. If you will simply put enough pressure on the rolls to wring the clothes dry you will find that this wringer will work better than any you can find in the market. The rolls are high grade, guaranteed for two years. Size, 10x1¾ inches. Price, each.....**$2.24**
Shipping weight, about 10 pounds.

The Genuine Curtis Five-Year Wringer.



GUARANTEED 5 YEARS.

No. 23T223 The Genuine Curtis Guaranteed Wringer. Rolls guaranteed for five years by Sears, Roebuck & Co. Any roll proving defective within five years will be replaced free of charge. None genuine unless our name appears on the apron. **Beware of imitations.** This wringer has a steel spring which gives an even and elastic pressure, and an **improved guide board,** which spreads the clothes as they pass between the rolls, causing the rolls to wear more evenly and **lessening the wear on the clothing. You cannot buy a better wringer than this,** because better rolls are not made. We have contracted for the entire output of this wringer and must sell them. Our price, combined with **our guarantee,** should enable us to dispose of them quickly. Size of rolls, 10x1¾ (guaranteed for five years). Price, each.....**$3.25**

Hotel or Laundry Wringer for Stationary Tubs.

No. 23T230 Wringer for stationary tubs and large round tubs. Has reversible tub clamp arranged to swing to either side of wringer; clamps open 2 inches. This is the latest improved **Hotel Wringer,** having steel pressure spring. Rolls are strictly high grade—guaranteed for one year. Size of rolls, 12x2 inches. Price, each **$4.65**

No. 23T232 The Hotel Wringer for stationary tubs only. Same as above, except is larger. Size of rolls, 14x2 inches. Price, each..**$5.94**

The Alpine Bench Wringer.

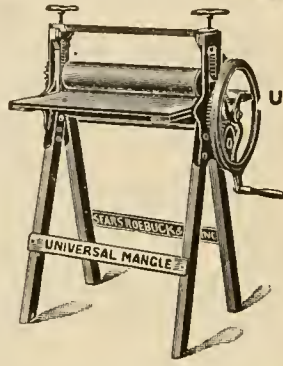
No. 23T234 The Alpine Bench Wringer. We have often heard said, "It's more work to hold the tubs than to turn the wringer." Use a Bench Wringer and you don't have to hold the tub. **The bench is strong and durable, large enough to accommodate two large tubs.** When not in use bench folds up, taking but little more room than an ordinary wringer and much less than the old fashioned wash bench. **The apron is reversible** so clothes can be put in from either side. **The wringer is well made. Rolls are guaranteed for one year.** Size of rolls, 10x1¾ inches. Price, each.....**$2.65**

Mangles.

Comparatively few people appreciate the value of a mangle; in fact, many have never heard of a mangle, but in Europe they are very extensively used and considered as indispensable as a wringer. **It is an established fact that clothes which have been mangled are more healthful than when finished by the hot iron,** for the reason that the meshes of the material are left open, whereas the hot iron closes them. **Articles mangled retain** orig**i**nal whiteness and never spoil by scorching.

N. B. They are not suitable for shirts and clothes with buttons.

No. 23T250 Household Mangle with Ball Bearings. Can be attached to any table. Size of wood rolls, 2¼x3½ inches.
Price, each....**$5.55**

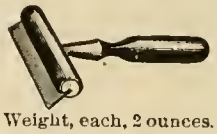


No. 23T252 Household Mangle same as above without ball bearings.
Price, each..**$5.00**

Universal Mangle.

No. 23T256 Universal Mangle for heavy work in laundries, hotels and institutions wherever a great deal of laundry work is done. Also suitable for large families. It is not suitable for shirts and clothes with buttons. Size of wood rolls, 24x4½ inches.
Price, each **$13.30**

Sink or Window Cleaner.



No. 23T282 Sink or Window Cleaner. A wood block and handle. A rubber strip inserted in wood block. Length of rubber, 5 inches.
Price, each.....**4c** Weight, each, 2 ounces.

No. 23T285 Peerless Window Cleaner. For cleaning and drying windows and floors; 12 inches wide. Each.....**20c**

Squeegees.

No. 23T288 Squeegees or Rubber Floor Scrapers. Best quality hardwood block, 1⅝ inch thick. Good quality rubber, ¼ inch thick.

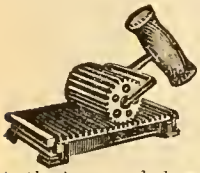
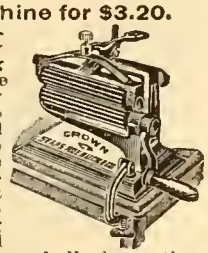
Crown Hand Fluters.

No. 23T442 Crown Hand Fluter has a plate 5½ inches long and 3 inches wide, and a roll 1⅜ inches diameter. The plate rests on a japanned cast base. The heating iron is cast on the bottom of the plate. In order to heat the plate it is lifted off the base and placed on the stove, and when hot put back on the base. Both plate and roll are finely polished. The handle and yoke to hold roll is made in one piece of malleable iron. This handle also serves as a lifter, to handle plate in removing it to and from the base. All parts not polished are neatly japanned. Weight, 2¾ pounds.
Price, each..... ....58c



No. 23T444 Crown Hand Fluter has a plate 7 inches long and 3¼ inches wide and a roll 2⅜ inches diameter. Both roll and plate are finely polished and nickel plated. The plate is furnished with stops at each end, to prevent roll running off and tearing the goods. The plate is hinged to the base, and does not require to be lifted off and laid aside to remove heating iron. The heating irons are laid in a recess of the base, under plate. Two irons are furnished with each fluter and a lifter to handle them. The handle is of wood, and yoke holding roll of malleable iron. All parts not nickel plated are neatly japanned. Weight, 3¼ pounds. Price, each..... .....$1.05

Crown Fluting Machine for $3.20.



No. 23T446 Crown Fluting Machine has for many years past been the leading machine of its kind in the market. It is pre-eminently the best fluting machine made. The spring is so placed that the separating of the rolls for the putting in the work does not compress or affect it in the least, thus not only saving the spring unnecessary strain, but easing the operation. The lower roll projects over the base plate free of all obstructions thereby giving the machine a greater latitude for different kinds of work, which a post supporting the end of the roll would interfere with. The machines are finished in a superior manner, with swivel clamp attachment to fasten them either to the side or end of a table. Each machine is put in a separate wooden box, with four heaters and a pair of tongs. Length of rolls, 6 inches. The rolls are made of cast brass with five corrugators to the inch, which is the best size for general use. Weight, boxed, 13¾ pounds.
Price, each $3.20

CARPET SWEEPERS.

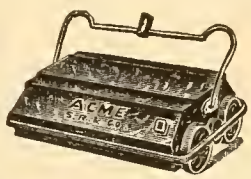
Our line of Carpet Sweepers for quality, superior workmanship, efficiency in operation and elegance of finish, is unexcelled by any other line of Carpet Sweepers on the market. Only the very best materials enter into the construction of these carpet sweepers; oak, maple and sycamore of the choicest cuts are the woods used for making our sweeper cases. In selecting and finishing the lumber for the cases, special care is taken to secure the best grain effects possible; the finest furniture does not receive more careful attention in this respect. **Each and every sweeper box is hand rubbed and polished.**

THE WHEELS on each end of the sweeper are fitted with solid rubber tires, which makes the sweeper practically noiseless when in use.

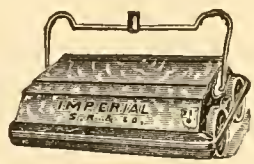
THE BRUSHES, the most important part of the sweeper, are made of very stiff bristles of the highest grade. The friction wheels are held in place by a spring against the rubber tired wheels, and when the sweeper is pushed over the floor or carpet, the wheels turning against the friction wheels, cause the brush to revolve very rapidly, throwing the dust or dirt from the floor into the dust pans; a dust pan being placed on each side of the brush. The dust pans can be dumped or cleaned out by pressing a small lever, which extends up through the sweeper case on either side. The brush, being enclosed in practically a dust proof case, prevents the dust from flying about the room and settling back on the floor and furniture; is much cleaner and does the work much more thoroughly than an ordinary broom, and is far more economical, as our carpet sweepers will outlast many brooms and render far better and more satisfactory service.

ALL OUR SWEEPERS, even the lowest priced one, are fitted with broom action. The brush is so placed in the sweeper case that by bearing on the handle, the pressure of the brush on the carpet or floor can be regulated in the same manner as with a broom, and with the same result, thus making it equally practical for bare floors or for carpets of the longest or shortest nap.

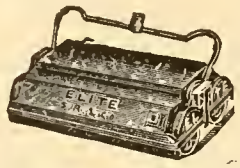
EACH SWEEPER CASE has the new improved braid band extending entirely around it horizontally, which prevents the scratching of the wood work or furniture when the sweeper is pushed against it.



No. 23T470 The Acme Carpet Sweeper is the best low priced carpet sweeper ever offered. It has broom action, reversible bail, improved dumping device, the new improved braid band which never comes off, strictly pure bristle brush, handsomely finished cases. The metal parts are japanned finish.
Price, each $1.48



No. 23T473 Our Imperial Carpet Sweeper. Contains the famous broom action, and every other feature necessary in a first class sweeper. Made from the best selected cabinet woods in an assortment of attractive finishes. Full nickel plated trimming. Nickel plated on copper, which is the best method known and permits the highest possible finish and will not rust or tarnish. **Has the new improved braidband furniture protector encircling the case;** patent reversible bail, wheels outside the case; our everlasting pure bristle brush; pans operate independently by an easy pressure of the finger. Weight, 6 pounds.
Price, each $1.98



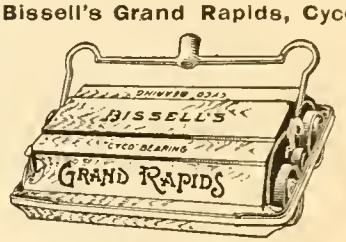
No. 23T476 Our Elite Carpet Sweeper, the latest pattern, with one of the handsomest case designs with nickel plated metal ends. Only the choicest quarter sawed oak and sycamore is used, being finished in antique and golden oak, mahogany, natural sycamore, and our special finish, hand rubbed and polished; full nickel trimmings on copper, which is the best method known and permits the highest possible finish and will not rust or tarnish. **It contains our broom action, our reversible ball,** and our pure bristle everlasting brush, adapted to be easily removed from the sweeper. **Its spring dumping device** is convenient, opening one pan at a time. Length of case, 14 inches. **Its construction throughout** is as perfect as care and skill can make it.
Price, each. $2.08

Bissell's Sanitary Sweeper.

No. 23T478 Bissell's Sanitary Sweeper is made by The Bissell Carpet Sweeper Co., of Grand Rapids, Mich., the largest manufacturers of carpet sweepers in the world. It has the renowned Bissell's broom action, reversible bail, new improved braid band furniture protector, which never comes off; Bissell's reliable new improved spring dumping device, pure bristle sweeping brush, handsomely finished case. **All metal parts are nicely polished and heavily nickel plated.** Costs no more than four good brooms and will outwear several dozen. **Will follow a broom on any carpet and remove more dirt** and dust than the broom did, with very much less labor. **Does not wear out a carpet** as a broom does, and in this way saves its cost in a short time. Sold under our universal guarantee, if not satisfactory return it and money will be refunded. Weight, about 6 pounds.
Price, each $2.05

No. 23T479 Bissell's Sanitary Sweeper, same as No. 23T478, except the metal parts are japanned instead of being nickel plated. One will sweep just as well and be just as durable as the other, the only difference is in the finish of the metal trimmings.
Price, each $1.85

Bissell's Grand Rapids, Cyco Bearings.

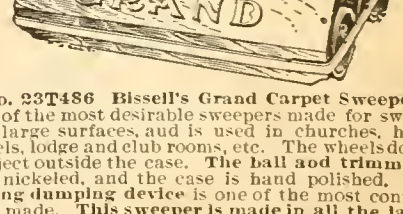


No. 23T480 Bissell's Grand Rapids, Cyco Bearings, Carpet Sweeper; the best known and most widely sold carpet sweeper in the world. **Contains the famous Bissell broom action.** The anti raveling collector brush ends, the dust proof axle tubes, the new improved Bissell's ball socket, and every other desirable feature necessary in a first class sweeper. Made from the best selected cabinet woods in an assortment of attractive finishes. **Has improved braid band furniture protector encircling the case;** Bissell's patent reversible bail spring, wheels outside the case; our everlasting pure bristle brush; both pans open at once by an easy pressure of the finger. Fully guaranteed. Weight, 6 pounds.
Price, each, cyco bearings, japanned metal trimmings $2.50

Bissell's Prize Cyco Bearings Carpet Sweeper.

No. 23T483 Bissell's Prize Carpet Sweeper, the latest of the Bissell paterns. **A sweeper of the highest grade,** with one of the handsomest patent case designs. **The case is hand polished.** The bail trimmings and iron end pieces are plated with nickel, brass or antique copper, according to the finish of the case. **It contains the Bissell broom action, has patent reversible ball,** patent bail sockets, the improved braid band furniture protector, and our pure bristle wire staple brush, adapted to be easily removed from the sweeper. **Its spring dumping device** is convenient, opening one pan at a time. Length of case, 14 inches. **Its construction throughout** is as perfect as care and skill can make it. This is in our opinion the handsomest design and the best finished carpet sweeper made by Bissell Carpet Sweeper Co. Weight, 6 pounds. Price, each, cyco bearings, $3.00

Bissell's Grand Carpet Sweeper, Cyco Bearings.



No. 23T486 Bissell's Grand Carpet Sweeper is one of the most desirable sweepers made for sweeping large surfaces, and is used in churches, halls, hotels, lodge and club rooms, etc. The wheels do not project outside the case. **The ball and trimmings** are nickeled, and the case is hand polished. **The spring dumping device** is one of the most convenient made. **This sweeper is made in all the latest finishes of woods** and is furnished with all the latest Bissell improvements and patented features. Length of case, 17 inches. Weight, 7 pounds.
Price, each, cyco bearings..... .....$3.75

Prices on Grand Rapids and Prize Sweepers are guaranteed to be as low as offered by any reliable dealer. Should you be offered these goods lower by any dealer you would confer a great favor by advising us, in order to give us an opportunity to adjust our prices.

Can Openers.

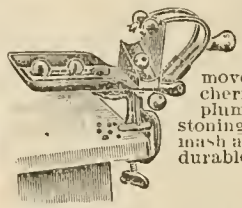
The Sterling Slicer.

No. 23T690 The Sterling Slicer will slice potatoes, cucumbers, onions, and any fruit or vegetable. Makes the best slaw, prepares vegetables in squares or strips for cooking. Slices sausages and cooked meats. Cuts up material for pickles, and has a greater variety of uses than we can mention here. Will deliver slices varying from the thickness of a card to ½-inch. Can be used for making small quantities of kraut. The blade is of tempered cutlery steel, and is so protected that only by carelessness can the operator cut himself. Price, each.....$1.20

Cherry Stoners.



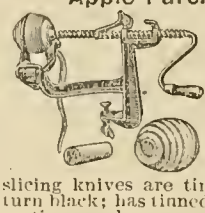
No. 23T709 The Family Cherry Stoner is the only cherry stoner which removes the stones from ripe cherries and leaves the fruit plump and round as before stoning. All other cherry stoners mash and waste the fruit. Simple, durable and cheap. Each....32c

No. 23T710 The accompanying illustration shows the Enterprise Cherry Stoner, which is intended to stone cherries with rapidity. It is adjusted by thumbscrews to adapt it to the different size cherry stones. It is nicely tinned to prevent rust. Each.63c

No. 23T714 This Perfect Cherry Seeder does not crush the cherry or cause any loss of juice; a perfect machine for large, small or California cherries. The seed extracting knife drives the seed into one dish and actually throws the cherry into another. The marks of the knife can scarcely be seen on the seeded fruit. It seeds from 20 to 30 quarts per hour. No grinding; no mashing; no loss of juice. Heavily tinned to prevent rust. Price, each.....60c

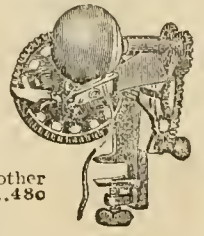
No. 23T720 Enterprise Raisin and Grape Seeder is simple in construction, easily adjusted, does the work rapidly and effectually, seeding the raisins wet or dry, better work being obtained if wet. The ordinary washing given by every good housekeeper makes the raisins sufficiently wet. Will seed grapes for preserving and cooking purposes. The raisins should be sprinkled in the hopper as fast as the roller will grasp them. The best results will be obtained by feeding them one at a time. Will seed a pound in five minutes. Weight, 1¾ pounds. Price, each.....67c

Apple Parer, Corer and Slicer.



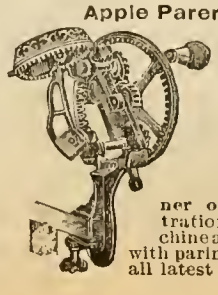
No. 23T735 Little Star Parer, Corer, and Slicer, with push off. This is the only machine so constructed that parings an l juice cannot fall upon it. The only parer in which the paring knife always faces the fruit when brought against it; will operate successfully on large or soft fruit. The fork and slicing knives are tinned so that the fruit will not turn black; has tinned screw, with thread brazed on; castings are heavy, and every machine is tested before leaving factory. In our opinion, this is the best family machine on the market. Price, each.....39c

Rocking Table Apple Parer.



No. 23T738 Apple Parer, with push off. This machine is so arranged that parings an l juice cannot fall upon it. It is provided with improved clamping device so that the table will not be jammed. It is stronger and more durable, has less gears and working parts, will pare closer to the fork, keep cleaner, do better work and more of it than any other machine on the market. Each..48c

Apple Parers.



No. 23T742 This is the best known and most popular apple parer ever invented. Every machine works perfectly, all parts being accurately fitted and put together in the best possible manner. Machine should be fastened to corner of table, as shown in illustration. Parings fall clear of machine and table. Gearing cannot clog with parings. Has curved knife and all latest improvements. Each....63c

Peach and Apple Parer.

No. 23T744 Rotary Knife, Family Peach and Apple Parer. Strong, substantial, simple and complete, it does first class work and is not liable to get out of order. It takes off a very thin paring, saving a large amount of waste. It is the only machine that successfully pares peaches. Price, each.....90c

Pepper and Spice Mills.

No. 23T850 Pepper and Spice Mill. To be used as a pepper box on the table or in the kitchen. Buy whole pepper and spice and grind them as used. You will have pure and fresh spices. Height, 3 inches; diameter, 1¾ inches. Made entirely of metal, all handsomely nickel plated. Grinds coarse or fine as desired. With ordinary care will last twenty years. Weight, 9 ounces. Furnished with thumb turn instead of crank as illustrated. Price, each.....20c

No. 23T852 Pepper and Spice Mill. Buy the pure unground pepper and spice, and grind it as you use it, thus preventing adulteration and retaining its full strength. This mill is made of walnut, highly polished, with nickeled top. Height, 4¼ inches; diameter, 2 inches. Price, each.....23c

No. 23T855 Pepper and Spice Mill. Made of polished maple, barrel shaped. Remember that the adulterations found in ground spice are frequently injurious to health. Height, 3⅛ inches; diameter, 2⅛ inches. Price, each....30c

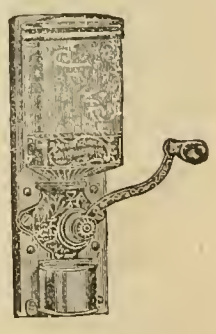
COFFEE MILLS.

Tin Canister Coffee Mill.

No. 23T875 Tin Canister Coffee Mill. Made with japanned tin canister holding one pound of coffee and cup for catching and measuring the ground coffee. The canister is practically air tight and by buying the coffee in the bean and grinding it just as you need it, you secure the full strength of the bean, as it is well known that coffee rapidly loses its strength if allowed to stand after grinding. Price, each.26c

No. 23T879 The X-Ray Mill, has wood frame and wood hopper with glass front, so coffee is always in sight. A 1-pound wall mill of entirely new design. Easily regulated to grind fine or coarse, as desired. Turns easy. Grinds fast. The mill is well made, strong and durable, and is warranted to give satisfaction. Price, each.....43c

Jewel Coffee Mill.



No. 23T882 Jewel Coffee Mill. With heavy ornamental glass canister. Capacity, one pound. Graduated on side to show exact amount of coffee on hand. It is provided with our latest improved grinding burrs. Will grind fine or coarse or pulverize coffee if desired. The iron parts and receiving cup are finished in red enamel, and the Jewel is without exception the best and most attractive mill in the market. Each one packed in a wood box. Price, each.....67c

Coffee Mill With Glass Hopper.

No. 23T885 A 1-pound Coffee Mill, with Glass Transparent Hopper, transparent receiver; bright and clear; coffee always in sight; easy to grind; easy to clean; easy to see the coffee in hopper or tumbler.

In the Crystal Mill both canister and tumbler are made of bright, clear glass, secured to iron frame of mill by clamps and rubber cushions so that there is absolutely no danger of breakage, and when mill is fastened to the wall it makes a handsome appearance, and you can always tell at a glance just how you are fixed for coffee. The capacity of the mill is ample for ordinary family use. Fully warranted. Price, each.....83c

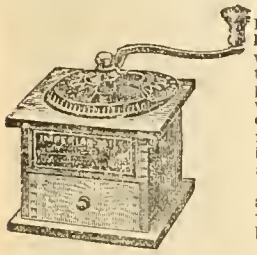
COFFEE MILLS.

No. 23T892 New Home Coffee Mill. Wood top, iron cover and side handle. This mill has large hopper capacity, holding over a pound of coffee. It is constructed of the best material. The box is made of hardwood, highly polished and varnished and supplied with our improved grinding burrs, which are warranted to pulverize coffee if desired. Size, 6¾x6¾x8 inches.

Price, each 14c

No. 23T894 A Sunk Hopper Mill with hinged cover, hardwood box, with dovetailed corners, highly polished and covered with best copal varnish, nickel plated trimmings. Very attractive. These mills have a patent regulator and a grinding burr specially constructed so as to pulverize coffee when desired. Box 7x7x5½ inches. Price, each.48c

No. 23T896 A Large, Handsome, Sunk Hopper Mill, with an all iron top, hinged cover and hardwood box, with dovetailed corners highly finished and covered with best copal varnish. These mills have a patent regulator and grinding burr specially constructed so as to pulverize coffee if desired. A substantial mill of large capacity. Box, 7x7x5¼ inches. Price, each.....42c



No. 23T901 A Sunk Hopper Mill, with hinged cover, hardwood top, with dovetailed corners, highly polished and covered with best copal varnish. Gold bronze trimmings. These mills have a patent regulator and a grinding burr specially constructed so as to pulverize coffee when desired. Size of box, 7x7x5¼ inches.

Price, each 39c

No. 23T904 Raised Hopper Mill with hinged cover, hardwood box and dovetailed corners, highly polished and covered with best copal varnish, bronzed irons, patent regulator and improved grinder burr that will thoroughly pulverize coffee when desired. This mill has an ornamental top to the box, which makes it strong and durable. Price, 38c

Favorite Coffee Mill.

No. 23T907 Raised Covered Hopper Mill with hinged cover, hardwood box, dovetailed corners, highly polished and covered with best copal varnish, japanned iron, patent regulator and improved grinding burr that will thoroughly pulverize coffee when desired. Size of box, 6¼x6¼x4 inches.

Price, each... .....31c

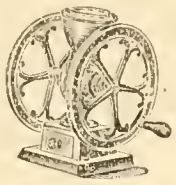
No. 23T922 Side Mill, hardwood board, polished and varnished, iron japanned, medium size.

Price, each.....20c

National Coffee Mills.

Our line of National Coffee Mills is manufactured for us by one of the oldest and most reliable makers of this class of goods in the United States. In quality they are superior to any mills on the market, regardless of price. **They have all the latest improvements** in mechanical construction, are the most beautiful in design and most handsomely finished. They are fast grinders and easy runners. **We guarantee them to be strictly first class in material and in workmanship** and in grinding capacity equal to other makes of mills of corresponding sizes regardless of price. You will run no risk whatever in buying one of our National mills. You can inspect it and try it and if it is not in every way all we claim for it return it at our expense and we will refund all freight charges you have paid and return your money. **By comparing our prices you will find that these mills will cost you from 25 to 50 per cent less than any other make of mill of equal capacity.** Don't buy too small a mill. A mill which is amply large enough for your requirements is much more satisfactory and will cost you less than a smaller size of other makes.



No. 23T945 The Little National Coffee Mill, for household use. Handsomely finished in red and gold. Fly wheels, 9¾ inches in diameter. Iron hopper holding ½ pound. Height, 11¾ inches. Shipping weight, 20 pounds. Will grind ¼ pound per minute.

Shipping weight, 176 pounds.

Price, each.....$14.38

National Floor Mills.

Special attention is called to the device used on our floor mills for fastening the grinders to shaft, and the removal of obstructions, such as stones and nails, found in all grades of coffee. The grinders are placed on the shaft in such a manner that should a nail or stone find its way into the mill the grinders would stop the moment the obstruction came in contact with the first tooth, while the shaft and wheels could revolve without injuring the mill. By turning the hand wheel regulator back the obstruction falls through into the coffee pan.

No. 23T966 National Floor Mill. This is the favorite floor mill for grocery stores. Finished in red, black, or wine color with gold striping and nicely decorated. Has nickel plated brass hopper holding 5 pounds of coffee. Will grind 2 pounds of coffee per minute. Easily regulated to grind fine or coarse while running. Height, 63½ inches; diameter of fly wheel, 28 inches. Shipping weight, 215 pounds. Fully warranted.

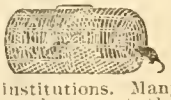
Price, each.....$18.75

No. 23T968 National Floor Mill. Like No. 23T966, but larger. This is our finest mill, suitable for high class grocery and coffee stores. Beautifully finished in vermilion, black, or wine color, gold striped and decorated. Heavy nickel plated brass hopper. Has brass oil cups and fittings, and steel grinders 9½ inches in diameter. Hopper holds 8¾ pounds of coffee, will grind 2½ pounds per minute. Fly wheel, 34¼ inches in diameter. Height, 68½ inches. Shipping weight, 350 pounds. Fully warranted.

Price, each.....$23.15

Rat and Mouse Traps.

No. 23T1826 Rat Trap. This trap can always be depended on to catch rats every time. It kills them instantly without drawing blood, or otherwise scenting the trap. Weight, 1½ pounds. Price, each.....8c



No. 23T1829 The American Rat Trap is a wonderfully effective rat catcher. Is used in the leading hotels, market houses, and public institutions. Many testimonials prove that they will catch rats up to their full capacity night after night, as long as the rats hold out. No. 3, or family size, is 17 inches long; capacity, 20 rats. Price, each....33c

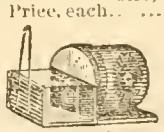
No. 23T1830 The American Rat Trap, No. 1 or hotel size; 21 inches long; capacity 50 rats.

Price, each.....$1.10

No. 23T1832 The American Mouse Trap, same pattern as No. 23T1829 Rat Trap only smaller; length 7½ inches. Price, each.....20c

No. 23T1836 Rat Trap. This is an excellent trap, thoroughly well made. Size, 6x11 inches.

Price, each.....25c



No. 23T1840 Revolving Mouse Trap, made of heavy steel wire.

Price, each.....12c

No. 23T1842 This is the most successful mouse catcher ever invented. One mouse sets the trap for the next one that comes along; will hold several.

Price, each.....9c

No. 23T1845 Choke Mouse Traps, round pattern, 5 holes.

Price, each.....6c

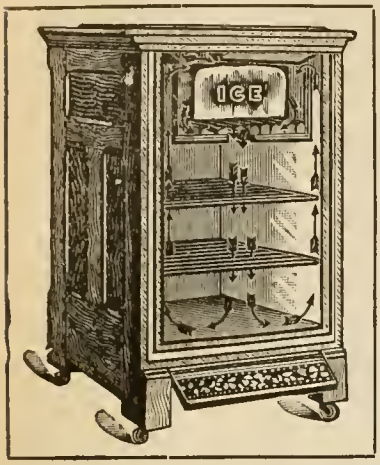
No. 23T1850 Mouse Trap. As a sure mouse catcher it is a sure thing. Mice can't touch the bait and live.

Price, each.....3c

No. 23T1852 Rat Trap. Same style as No. 23T1850 mouse trap, except it is larger. When rats get too wise for other traps try this one. It fools them every time. Price, each.....9c

OUR REFRIGERATOR DEPARTMENT.

FROM THIS ILLUSTRATION WE ENDEAVOR TO SHOW the construction of our Michigan Refrigerator. The illustration shows the circulation of the air, arrangement of shelves and drip cup in position. It will be noticed that the air after passing over the ice falls directly under the provision chambers, displacing the warmer and lighter air and forcing it up the flues on either end, where, by contact with the ice it is purified, cooled, and again falls, thus keeping up constant circulation.



PLEASE NOTE THESE REFRIGERATORS that we do not have any condensation on exposed metal plates, but carry the air directly to the ice, which is the greatest purifier known to modern science. are constructed with an inside case of odorless and tasteless lumber, matched and clamped together with nails and glue, and fastened to hardwood cleats, making it a thoroughly air tight, strong cabinet in itself. The insulator used is charcoal sheathing, which is odorless and tasteless, and a perfect non-conductor.

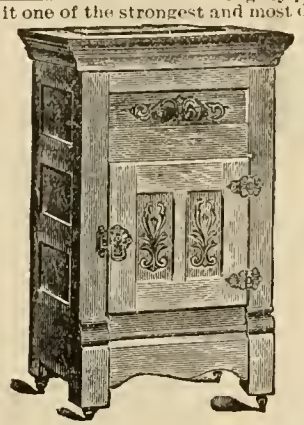
THE OUTSIDE CASE OF OUR CHEAPEST LINE IS SOLID ASH, the best lumber ever found for refrigerators; highly polished. It is nailed and glued to the cleats which bind the inside case, thus making it one of the strongest and most durable refrigerators ever built.

The drip cup is shown in this illustration closed. To empty it pull the rod, and it will throw it over. All the wood in the provision chamber is covered with metal, and there is no chance for it to become tainted or musty. Our refrigerators are paneled, top, sides, back and bottom, and finished as in no other makes.

OUR BINDING GUARANTEE.

WE GUARANTEE EVERY MICHIGAN REFRIGERATOR to be made of the very best material throughout, to be constructed on the latest improved and most scientific principles, to be found exactly as represented in every respect, and to give universal satisfaction; and if found otherwise than as stated we will refund any money sent us and pay freight charges both ways.

REFRIGERATORS are shipped from our factory in Southern Michigan. Refrigerators are accepted at second class freight rate by all railroad companies, which is usually from 40 to 50 cents per 100 pounds for 500 miles. By referring to pages 7 to 11 you can get the second class freight rate per 100 pounds to a point nearest you, which is almost exactly the same as to your town, and you will see the freight will amount to next to nothing as compared to what you will save in price.



Michigan Ash Refrigerators.

Michigan single door Refrigerator from $5.94 to $11.39

For general description and construction of refrigerator see heading. Understand, every refrigerator is guaranteed to be exactly as represented, and if not found so may be returned at our expense and your money will be cheerfully refunded.

It is manufactured of kiln dried ash lumber, beautifully finished antique, brass lock, fancy surface hinges, anti-friction casters.

All these refrigerators above $5.94 are fitted with two shelves and provision chambers.

Our Michigan Double Door Refrigerator at $13.35 and $15.74.

This is a very popular size Refrigerator. The ice chest is very large, will hold artificial ice, and is the only first class refrigerator of this size made in which the chest will take in artificial ice. It is manufactured from the very best selected kiln dried ash lumber, handsomely carved, trimmed and polished.

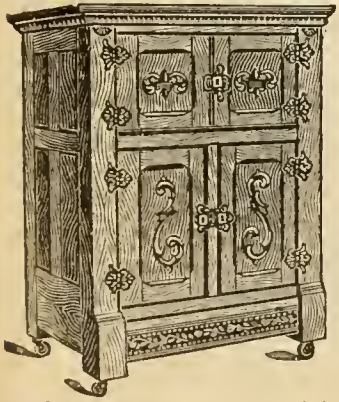
No. 23T1012 Dimensions: Length, 36 inches; depth, 21 inches; height, 46 inches. **Ice capacity, 100 pounds.**

Price, each..... $13.35

Shipping weight, 229 pounds.

No. 23T1013 Same as No. 23T1012 with porcelain lined water cooler and faucet. **Ice capacity, 84 pounds.**

Price, each..... $15.74



Our Michigan Double Door Refrigerators,

With double doors in front of ice receptacle.

Made from the very best selected kiln dried ash; finished antique, highly polished, beautifully carved. It is trimmed with fancy heavy bronze trimmings throughout. The top is solid and makes a very useful sideboard, besides being a perfect refrigerator.

The upper doors are arranged so that the ice can be placed in the chamber without the inconvenience of raising the upper lid, and when the ice does not fill the large chamber, it serves as a place for storage around the ice. The ice chamber of this refrigerator is made extra large. It is constructed with a view to giving the greatest amount of room possible.

We do not hesitate to guarantee it in every respect, and we are offering it at about one-half the price charged by retail dealers.

No.	Length, inches	Depth, inches	Height, inches	Ice Capacity, pounds	Shipping weight	Price
23T1019	36	21	50	110	220 lbs.	$16.67

The smallest size in above list has no division in the Provision Chamber.

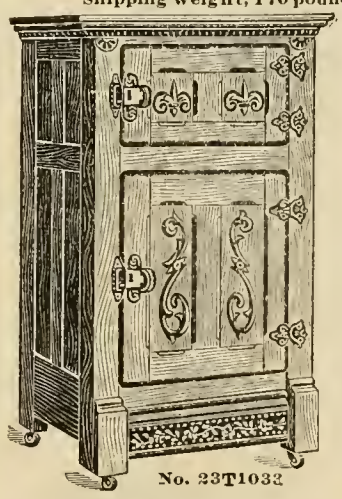
Michigan Refrigerator, Apartment House Style.

This refrigerator is made for the purpose of giving you a refrigerator of large capacity and still occupy small space in a room.

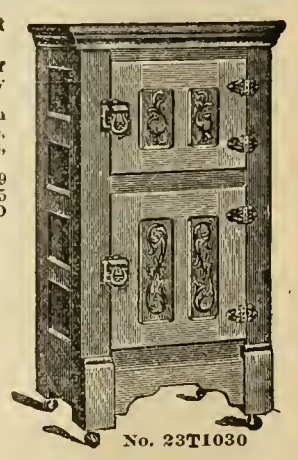
It is manufactured of the very best kiln dried ash lumber, beautifully finished antique, has solid brass locks, **finished surface hinges,** patent drip cup.

No. 23T1030 Length, 28 inches; depth, 19 inches; height, 55 inches; ice capacity, 65 pounds. Price..... $11.70

Shipping weight, 170 pounds



No. 23T1033



No. 23T1030

Michigan Refrigerator, Extra Large Size, Apartment House Style.

The refrigerator is of same style as one previously quoted, except that it is larger and has a special finish. It is very desirable for those wishing a refrigerator of large capacity and having limited space to put it.

No. 23T1033 Length, 31 inches; depth, 22 inches; height, 54 inches; ice capacity, 75 pounds. Shipping weight, 212 pounds. Price..... $14.00

Our Michigan Hardwood Ice Chest at $4.95 to $9.44.

We offer the best made chest in the market at from $4.95 to $9.44, and we would invite you to compare these prices and quality with those of any other house, and if we cannot save you money and furnish you a much better chest we will not ask you to send us your order. Most ice chests are not made with walls constructed same as refrigerators and with same insulation. These are made in the same manner and with the same care as our highest priced refrigerators. We do not handle the cheap grade ice chest, for while it may look all right we know it won't satisfy our customers and we must furnish goods that will satisfy our customers when used.

Diameter, 16 inches; depth, 5 inches. Price, each..... 28c

THE SEROCO REFRIGERATOR.

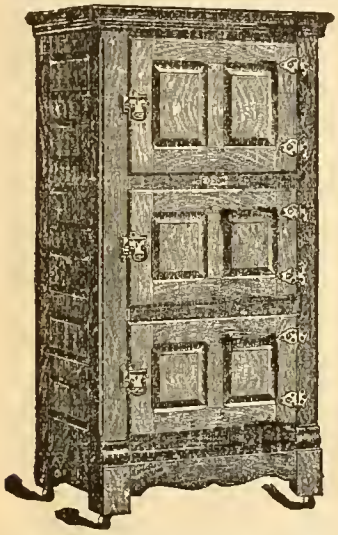
OUR SEROCO REFRIGERATORS ARE NEW 1902 PATTERNS.

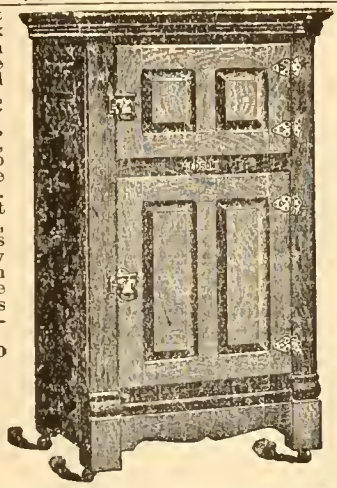
Made of solid quarter sawed white oak, antique finish, with 1-inch beveled panels on front and sides. All trimmings are heavy solid brass, nicely nickel plated. **The woodwork is rubbed finish,** as nice a finish as you will see on any sideboard, and make a beautiful piece of furniture for any dining room. Being solid tops, they can be used as a sideboard. The backs and bottoms of all these refrigerators are made in small panels to prevent warping and cracking. The provision chambers are lined with heavy, strong white porcelain enameled steel, making it sanitary, odorless, easily kept clean as a sheet of glass, and durable. It has every advantage of the tile lined refrigerators at much less cost, and it will not break, crack, chip off or come open in the joints. The ice receptacle is lined throughout with heavy metal, with extra strong ice rack. No wood exposed anywhere on the inside of these refrigerators, hence no odor from wood to taint the food. Fitted with self closing drip cup, removable ice rack, removable white porcelain enameled steel shelves for provision space, removable waste pipe, self retaining casters and swinging base board. This box is insulated with inside lining, inner wood wall, mineral felt insulation, an air space, charcoal sheathing and the outside wall, making practically six walls. **The doors of these refrigerators give more protection than any other refrigerators.** They are made extra thick and are insulated with charcoal sheathing, an air space and mineral felt. This gives perfect circulation of dry air at all times and will keep food a long time without danger of tainting or molding. To get the best results from any refrigerator, the ice receptacle should at all times be kept well supplied with ice. It gives better results and lessens the ice bill, for the more ice in the ice space, the slower it melts. Porcelain lined refrigerators are found only in a few of the first class retail stores of the cities and larger towns, and have heretofore been sold at about double our prices. At the prices printed we deliver the goods free on board the cars at our factory in Southern Michigan, from which point our customers must pay the freight. To some points the rate is less than it would be if shipped from Chicago, to many points it is exactly the same, and to a few points the extra freight charge would be no more than we would be obliged to add to the price if we printed the price shipped from Chicago.

We cover these refrigerators with heavy paper and pack them securely in a strong crate to insure their reaching our customers in first class condition.

No. 23T1050 Our Seroco Apartment House Quarter Sawed Solid White Oak Refrigerator, with heavy, white porcelain lined provision chamber. Ice receptacle holds 125 pounds of ice, and a 100-pound piece will go in easily without any chipping, avoiding dirt and waste. It has heavy raised beveled panels on front and sides, and also is paneled on back and bottom, making it warp proof. It will never warp or crack. All the hinges and fastenings are made of solid brass, heavily nickel plated. The ice compartment is lined throughout with strong, heavy metal nickel plated, leaving no wood exposed. This prevents all odor. The ice rack is made extra heavy and strong. The shelves in provision chamber, the ice rack and waste pipe are removable. Outside dimensions, 33 inches wide, 23 inches deep, 55 inches high. **Shipping weight, 300 pounds.**

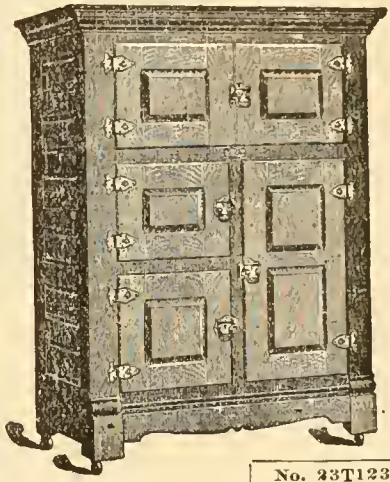
Price, each.. .. ..**$27.50**





No. 23T1052 Our Seroco Apartment House Solid Quarter Sawed Oak White Porcelain Enameled Steel Lined Refrigerator, with three doors. Has all the desirable features found in all and any Seroco refrigerator. An advantage of having two doors in the provision space is that when the small door is opened it does not admit as much warm air as one large door would. The apartment style refrigerator is very desirable where rooms are small and floor space needs to be saved. 36 inches wide, 24 inches deep, 65 inches high. Ice capacity, 150 pounds. Shipping weight, 375 pounds. Price, each..... **$36.30**

No. 23T1054 Our Seroco Solid Qoarter Sawed Oak, White Porcelain Enameled, Steel Lined Refrigerator, with four doors and two separate provision chambers. The ice chamber will take a full cake of 200 pounds of artificial ice, and leave space to spare. This is one of the most desirable sizes for family use. Very roomy and economical on ice. Has all the good points found in an Seroco refrigerator. 43 inches wide, 27 inches deep, 56 inches high. Ice capacity, 425 pounds. Shipping weight, 310 pounds. Price, each **$40.70**



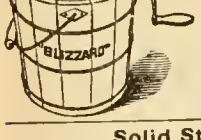
No. 23T1056 Our Seroco Solid Quarter Sawed Oak, White Porcelain Enameled Steel Lined Refrigerator. This style refrigerator is designed for large families, boarding houses, hotels, restaurants and clubs. After having this illustration made we found the two small doors on left provision space were not as desirable as one large door and therefore we will make this refrigerator with four doors instead of five as shown in illustration. Outside measurements, 50 inches wide, 28 inches deep, 65 inches high. Ice capacity, 650 pounds. Shipping weight, 540 pounds.

Price, each.....**$53.90**

ICE CREAM FREEZERS.

SHEPARD'S LIGHTNING ICE CREAM FREEZERS. Lightning quadruple motion, automatic scraper, famous wheel dasher, combination hinge top gearing, completely covered. Compared with other freezers, we find: **THIS TUB IS CEDAR,** competitors use pine; has round electric welded wire hoop, galvanized, competitors' have flat hoops; can is full size and **made from one size heavier tin** than is used in other freezers. **Cast iron cover with drawn steel bottom,** competitors have sheet tin cover and bottom; **FREEZES AS QUICKLY AS ANY OTHER IN THE MARKET, WITH MUCH LESS EFFORT. All parts that come in contact with the cream heavily coated with pure block tin.** All other trimmings smoothly galvanized. **Uses 25 per cent less ice and salt than any other freezer. No. 23T1060**

Size, quarts..	2	3	4	6	8	10	12	14	14	20
Price, each..	$1.53	$1.66	$2.04	$2.67	$3.32	$4.47	$5.50	$6.43	With fly wheel,	$8.92 $12.34



No. 23T1062 The Blizzard Freezer has been made to fill a demand for low price goods and to give at the same time a freezer of superior quality in material and workmanship. It is single action, the can revolving, while the dasher is held in the crossbar or top plate. Its simple construction, fewer parts, less labor and material permit a lower price, and yet, at the same time, to use exactly the same pail and can as in our other freezers. The Blizzard Freezer is unquestionably the best freezer for the money ever put on the market. Pails of best Virginia white cedar, with electric welded wire hoops, guaranteed not to fall off.

Ice Planer or Shaver.

No. 23T1250 Ice Plane or Ice Shave. Push the blade upon a cake of ice. To produce fine or coarse ice, vary the pressure according to the grade desired. It is not necessary to remove cakes of ice from the refrigerator, as you can shave off from the sides or ends of the cake as well as top. The shaved ice is very desirable for fruits, drinks, oysters on half shell, olives, celery, iced tea, sliced tomatoes, etc. Heavily coated to prevent rust. Price, each..... **.27c**

Ice Shredder.

No. 23T1253 Draw the blade upon a piece of ice—the pressure applied producing fine or coarse pieces as desired. Its use will be appreciated for fruits, drinks, oysters and clams on the half shell, olives, celery, radishes, iced tea, sliced tomatoes, etc., and for many purposes in the sick room. It is also adapted for the use of making snow balls, which are variously flavored and sold to children on the streets and at their school, also to the general public at fairs.

Price, each. tinned..... .... **40c**

Ice Cream Disher.

No. 23T1070 Ice Cream Dishers. Have two revolving knives which cut the cream loose. By one-half turn of the button the cream slips out a smooth and perfect cone. Sizes designate the number of dishes to the quart.

Price, each.....	13c	13c	13c	13c	13c

SODA FOUNTAINS.

OUR SODA FOUNTAIN is simple and durable in construction and an ornament to a dealer's counter. It is designed to take the place of the larger and higher priced fountains that are not within reach of the thousands of stores in small cities and country towns. Being portable and weighing only from 6 pounds to 40 pounds, they can readily be removed from the counter, and if desired can be used with handsome profits at fairs, race tracks, picnics, street corners, etc. By the old process cylinders must be sent to carbonic acid factories, where soda and acid are mixed in a strong copper generator with an airtight screw. The carbonic acid gas is then generated and held in check until thrown into the glass. **By our new process anyone can make his own syrups and charge his own fountain.** We use the same ingredients, but charge our cylinders with air, which forces the solution into the glass when the faucet is open, and this solution coming violently in contact with the syrup produces the same delicious drink that can be obtained from a $200 or $500 fountain of marble or onyx. **We furnish recipes with the fountain for making your own syrups,** the ingredients of which can be obtained at any drug or country store, and soda water drawn by this process costs only the trifling sum of ½ cent per glass. **Our soda fountain will pay for itself in one hot day.** It will pay more dividend on investment than any other article in your store. It is simple in construction and not liable to get out of order. Soda drawn from the Perfection Fountain costs but ½ cent per glass, whether you are in a city, country town or 500 miles from a railroad. **All fountains are tested before leaving the factory, and are fully guaranteed for one year. Instructions for operating sent with every outfit.**

Milk Shake Machines.

No. 23T1265 Milk Shake Machine, for counter or bar use. Perfectly noiseless, quick and easy; requires but little room. Packed complete with one-half dozen tumblers. Directions for making syrups with each machine. Each..... $6.00

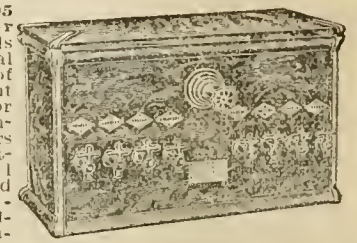
By resting fulcrum on edge of bottle neck and using the handle as a lever the hardest cork can be extracted with ease. Takes up no more room than a pocket knife. Length, closed, 4¼ inches. Weight, 2 ounces. Price, each.....39c

$40.00 Soda Fountain.



No. 23T1305 Soda Water Fountain. Is made of metal in imitation of onyx, with eight faucets for syrups; is finished on corners with brass castings, nickel plated and highly polished; a handsome ornament to any store. Can draw from 40 to 50 glasses of soda at one filling of cylinder. Size, 26 inches long, 12 inches wide, 16 inches deep. Weight, complete, with No. 3 size cylinder, 40 pounds. We furnish a No. 3 cylinder with air pressure gauge, and No. 2 pump with this fountain. Price complete.....$40.00

The accompanying illustration represents the cylinder, used with our soda fountains. They are made of galvanized iron, securely riveted at the top and sides.
Size No. 1, 5 inches in diam. by 14 inches long.
Size No. 2, 6 inches in diam. by 16 inches long.
Size No. 3, 7 inches in diam. by 18 inches long.

No. 23T1308

Price of No. 1 cylinder, separate from fountain.....$3.75
Price of No. 2 cylinder, separate from fountain.....5.25
Price of No. 3 cylinder, separate from fountain.....6.50

Should customer desire cylinder larger than the size listed with fountain, we will substitute the size required by adding to price of fountain additional cost of cylinders as listed above. We can furnish cylinders with air pressure gauge, which will indicate at all times the amount of pressure you have in your cylinder. We will put gauges on cylinders at an additional cost of $1.50.

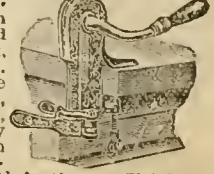
Modern Cork Puller, No. 2.

No. 23T1096 The No. 2 Modern Cork Puller. Can be attached to any upright surface, as an ice box, door frame, or wall. Is always ready for use at all times, does away with all annoyance in drawing corks; pulls any cork in one second. It is small and compact, it is never lost, and is a great ornament, being handsomely engraved and nickel plated. A short, upward movement of the handle causes the corkscrew or worm to rotate into the cork, and pushing the handle down extracts the cork from the bottle; same movement repeated causes the corkscrew to rotate out of the extracted cork which is automatically discharged from the machine. It requires but little power and operation is instantaneous. Price, each.....$1.25

Modern Cork Puller, No. 1.

No. 23T1098 No. 1 Modern Cork Puller, for use in saloons, restaurants, soda fountains, etc. This machine is clamped by a thumbscrew to a bar, counter or shelf. It is identical with the No. 23T1096 machine except in its method of attachment, and after a thorough test has proven a universal favorite with bartenders, etc. One motion of the handle extracts any cork and automatically discharges the extracted cork from the machine, or a cork can be drawn part way only, when desired. It is strong, simple and ornamental, being heavily nickel plated and engraved. Requires but little power and will draw any cork in one second. Price, each....$1.38

Champion Cork Puller.



No. 23T1100 Champion Cork Puller, with improved bottle holding clamp. Neat, strong compact and durable. Operation simple, effective and safe. For use in hotels, barrooms, clubs, restaurants, or wherever a stationary puller can be used. Has been thoroughly tested and is guaranteed to give perfect satisfaction. Weight, 6 pounds. Height above counter when set up, 5 inches. The frame is heavily nickel plated. The worm and other working parts are made of best grade of oil tempered steel and warranted to stand the work. Price, each.....$3.50

The Modern Lemon Squeezer.

Always ready for use and easy to operate.

This machine is beautifully nickel plated and is the highest grade article of its kind yet produced. All parts that come in contact with the lemon are made of solid polished aluminum, insuring perfect sanitary cleanliness. The machine is warranted perfect, being roller bearing, and a slight power applied to the handle will give 1200 pounds pressure against the lemon.

Occupies no valuable space above the counter, the handle hanging in the position shown above. It is simplicity itself, as there are no cogs or wheels to get out of order or clog up. It is absolutely the only squeezer that will not splash juice all over the operator. **No. 23T1153** Price, each.....$1.67

Daisy Cork Puller.

No. 23T1102 Daisy Cork Puller, with a perfect bottle holding attachment. Operation quick and sure. It is neat, compact and durable, and has not a single weak point. Has steel cutter fastened at one side of puller, and by turning the neck of the bottle against this cutter all wires are readily removed. Provided with clamp and screw for fastening. All polished and nickel plated. Weight, 8 pounds. Fully guaranteed. Each $3.60

Little Corkscrew Pressure Valve.

No. 23T1120 This valve is used for keeping "beer and other liquids fresh and will do so for an almost indefinite time," by the aid of air, particularly for the purpose of keeping beer fresh in the keg for picnic parties, private clubs and boarding house keepers and farmers. Directions: Screw the valve into the cork in the keg to the top of the thread, which will bring the hole in small end of screw inside of keg. Then pump with a full stroke until you have the required pressure. Do not remove valve until keg is empty. Can be easily carried in pocket. Weighs only ½ pound. Price, each..... 80c

ELECTRIC CIGAR LIGHTERS.

No. 23T1320 Electric Cigar Lighter, style No. 1, hangs from the ceiling on incandescent electric wire, with batteries on shelf. Each lighter is packed complete with 15 feet of the best double lamp cord and three of the best batteries to be procured. Complete instructions sent with each lighter. The metal parts are solid brass, nickel plated. Price, for lighter complete as described..... $3.33

No. 23T1322 Electric Cigar Lighter, style No. 3, has a quartered oak case, hard oil finish, making the finest and best lighter for the least money. Matches well with store fixtures. The batteries are in the case and it is ready for use when unpacked. Can be set anywhere. Price, complete as described..... $4.25

Japanned Cages.

Our various styles of Japanned Cages are superior to any japanned cages manufactured. The rails or cross bands of these cages are made of the best charcoal tin plate, double punched, making a stronger and lighter cage than can be made of any other material. Feed cups, perches and swings sent with cages; no extra charge. **Our bird cages are all very carefully packed and we guarantee they will reach our customers in good order.**

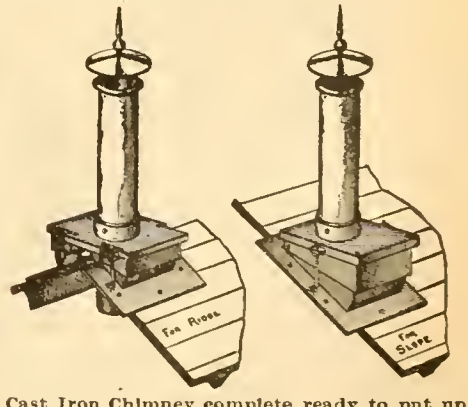
SEE PAGE 22 FOR STOVE PIPE ENAMEL.

Stove Polishing Mitten.

No. 23T3360 Stove Polishing Mitten. Was originally intended for blacking and polishing a stove, but is now also used for polishing household furniture, cleaning bicycles, polishing tan shoes, etc. It cannot scratch the most delicate material or varnish, while the finest possible polish can be produced, and the hands are kept clean. In manufacturing it we use the very best materials that the market will afford. The above illustration will give a fair idea of its appearance. It will easily fit the hand, has a waterproof back, with wool dauber, and the whole front is made of the most durable and soft sheepskin, tanned with the wool on. Weight, each, 2 ounces.

Price, each.....8c

Cast Iron Chimney.



Cast Iron Chimney complete ready to put up Neat and substantial. Requires no mechanic to put it in position; as durable as brick and a great deal cheaper. Made in two styles, for ridge and for the side or slope of roofs. Pipe extends two feet above the roof and one foot below. We can, however, furnish additional pipe.

No. 32T3352 Cast iron chimney for ridge. Each.....$7.80

IMPERIAL STOVE HOLLOW WARE.

IMPERIAL STOVE HOLLOW WARE IS MADE OF SMOOTH CAST GRAY IRON

heavily coated on the inside with pure white porcelain and on the outside with mottled blue and white enamel, all of which is united with the cast iron at an intense heat, thereby forming a perfect union of the two, which no subsequent heating can destroy. It is easy to clean, of pleasing appearance, and we warrant every piece to give satisfaction. The numbers given designate the size of stove the article is intended for.

Imperial Spider.

No. 23T3565 Imperial Enameled Cast Spiders. Enameled inside and out.

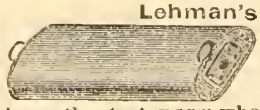
Lehman's Heater.



Lehman's Heater is a metallic case 7¼ inches wide, 3½ inches deep and from 14 to 20 inches long—used to keep the feet warm when riding. The heating material is a specially prepared coal, each piece 7¼ inches long, 2½ inches wide, and 1¼ inches thick. One-third of one of these pieces is sufficient for giving a steady, continuous heat for twelve hours in ordinarily cold weather. If only wanted for a short time, it can be extinguished with water and used again. **The Lehman Heater** is free from smoke or odor. No danger from fire. This is the genuine Lehman's Heater. Dangerous and worthless imitations are sold at less prices.

No. 23T3745 Lehman's Heater. Width, 7¼ inches; depth, 3½ inches; length, 14 inches. Weight, each, 4½ pounds. Price, each, without coal.....$2.35

No. 23T3746 Same as above, covered with Brussels Carpet.....3.00

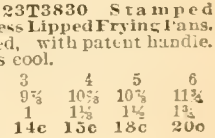
Omelett Pan.



No. 23T3834 Asbestos Lined, Steel Omelett Pan. Consists of two distinct blued steel pans spun together, the bottom space between them containing a sheet of asbestos making it proof against burning and spreading the heat evenly over entire bottom. It is intended for making omelets, frying eggs or light cooking of any kind. Has always cool Alaska handle. Diameter, 8¾ inches; depth, 1inch. Weight, 10 ounces. Price, each.....12c

Steam Cooker.

No. 23T3837 You can cook sauer kraut, onions, cabbage and pudding at the same time, without any one of them partaking of the odor or flavor of the other. It cooks well but never burns. It saves fuel, stove space, fits any stove, and saves one-quarter of the food which is lost when cooked the old way. Specially adapted for oil, gas and gasoline stoves, where space is limited. Well made from good heavy tin, with copper bottom on bottom vessel.

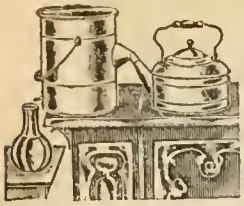
Price, each....	95c	$1.12	$1.28	$1.39	$1.56

Toa Kettle Water Still.



No. 23T3853 Tea Kettle Water Still condenses the steam generated in an ordinary tea kettle into pure distilled water. The spout of the condenser fits the spout of any tea kettle, and to operate simply put the water into the tea kettle, but do not fill above spout so as to prevent free passage of steam; then fill the upper vessel of the condenser with cold water and set inside the lower one, and set on a shelf or bracket close to stove. Steam is driven in from the tea kettle, circulates around the cool surface of the inner vessel is condensed and runs off at the small spout of the outer vessel, where it can be caught in bottles and set aside to cool for future use. The still is made from first quality XX charcoal tin, 10 inches in diameter, 13 inches high. Weight, packed for shipment, 13 pounds.

Price, each, without tea kettle.....$3.35

Automatic Sanitary Water Still. New Process. Self Purifying.

No expense, no trouble, no experience needed. A child can do it. Simply set the still on any kind of a stove, filled with any kind of water, and no matter how foul, it is quickly converted into water of crystal purity, revitalized and sterilized, delicious and palatable to the taste. You can lift it on and off the stove just the same as you would an ordinary tea kettle. In fact, it will answer every purpose of a tea kettle. When you want hot water for any purpose, simply turn the faucet, and it is yours.

No. 23T3854 Automatic Sanitary Water Still is well, durably and handsomely made of the best rolled sheet steel, heavily coated on the inside and outside with pure block tin to prevent corrosion or rust. The body and bottom are thoroughly beaded, making it stiff, rigid and substantial. It is 9 inches in diameter by 14¼ inches high. Weighs about 3½ pounds.

Price, each..... $2.00

No. 23T3855 Automatic Sanitary Water Still is handsomely and durably made of best hard rolled, solid sheet copper, made expressly to order. The interior surfaces are lined with pure block tin, as it is insoluble in distilled water, so as to prevent corrosion. The outside of the still is beautifully planished, making it an ornament to the finest parlor. It is one of the finest stills ever manufactured; in fact, there is no way to make one better. Every part is accessible, and can be easily cleaned when necessary. Weight, about 6 pounds.

Price, each.....$4.00

CAST ALUMINUM WARE.

Each utensil is cast solid in one piece leaving no seams or joints to leak. It is strong and stiff. It does not tarnish and can be kept bright by cleaning same as silverware. Each piece is thoroughly inspected and guaranteed perfect in every detail.

Lava Enameled Filters.

No. 23T3912 They are as easily kept clean as a china dish, and unlike the common crock filters cannot be broken. Filtration in this filter is obtained by percolation through a porous natural stone by force of gravity. **No filth or putrid matter can possibly get below the surface.** The first few buckets of water filtered have a slight taste of the rock, but it is in no way injurious to health. Two or three times a week scrub off the top of the stone with a small broom or brush, and the filter is then ready for use again. Each vessel holds 3 gallons. Capacity, 8 gallons per day. Weight, 13⅝ pounds. Price, $2.67

PEERLESS ENAMELED STEEL WARE.

Our Peerless Enameled Steel Ware is formed from sheet steel, and after being put together is enameled inside and outside a gray color, handsomely mottled.

FOR CLEANLINESS, PURITY, DURABILITY AND BEAUTY, THIS WARE IS UNEXCELLED BY ANY OTHER GRAY ENAMELED STEEL GOODS ON THE MARKET.

It is entirely free from lead, arsenic and antimony, metals so often used in enamels of this appearance. We buy enameled ware from the makers and are satisfied with our usual small profit.

NO SECONDS OR IMPERFECT GOODS SOLD

ABOUT SIZES.

All Tinware and Enameled Ware is usually listed by all manufacturers and dealers at what is known as trade measure. Some articles actually hold more than trade measure, most articles hold about the same, and a few articles do not hold the quantity indicated by trade measure. For the guidance of those who are not familiar with trade size, we also give actual capacity on each utensil. **When comparing our price with those of other dealers, remember that our goods are standard size, the same size as listed by all manufacturers and dealers as the same trade size.**

TRUE BLUE ENAMELED WARE.

Each and every piece of this ware is all the name suggests. It is as easily kept clean as crockery or china and is as nearly perfect as possible. Strong and durable. It will not rust and is absolutely pure and safe to use. Made of sheet steel covered with two coats of enamel inside and out. The inside is white, the outside white mottled with dark blue, with a smooth and glossy finish, giving it a handsome and attractive appearance.

....WE CUARANTEE....

Each and Every Piece to Give Satisfaction and TO BE AS GOOD OR BETTER THAN ANY Enameled Ware In the Market, : : : Regardless of Price.

PIECED TINWARE.

Measurements in inches are correct—size given in quarts is manufacturer's measure—vessels will not hold as many quarts as size given, except where we use the word HOLDS.

Notice.

Wash boilers are being constantly reduced in size. A No. 8 boiler is being sold that is not any larger than our No. 7. We shall maintain standard size. When comparing our prices with those of others, please compare sizes and weights also.

Climax Fruit Jar Filler.

No. 23T5098 Made with standard thread to fit any ordinary screw top jar, Mason's included. Cut represents filler in position, attached to a fruit jar. By using this the cook can take the jar right to the kettle, filling the fruit in HOT, so that it will KEEP perfectly. The thread of jar is covered; this prevents juice getting on same and cementing the cap so it can't be unscrewed. If jar is too full, it is easy to empty some back into kettle. Price, each.....8c

Jelly Funnels, IC Tin.

No. 23T5099 Seamless body. Weight, each, 3 ounces.

A crate of 10-quart tin sap pails weighs about 78 pounds; 12-quart, about 95 pounds. We carry a large stock of sap pails and can ship promptly.

Write for special circular of Sap Evaporators.

Sap Spouts.

No. 23T5220 Malleable Sap Spout, open top, 1897 patent. Made from malleable iron, tinned heavily. They will not break. They are not liable to clog. Will take a long time to stop by freezing. Will thaw out quicker and obtain more sap from a tree than any other spout known. Are so made that all the sap must run through the spout and drop in the bucket. They will not injure the tree. Will not drop out or loosen by frost, and as they are the only spout with a hook for pail provided in one piece, no parts can be lost, and they are always ready for use. Made to fit a hole bored with a ½-inch bit. Weight, per 100, 7 pounds. Price, per 100, $1.44; each.....2c

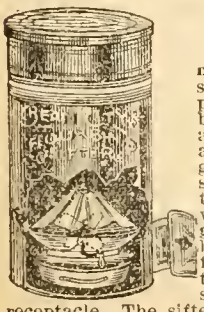
Cream City Flour Bin and Sifter, IX.



No. 23T6002 Japanned and nicely ornamented. The sifter proper is protected from pressure by the flour in the bin by our new shield which enables the reels to work easily and smoothly, and obviates all grinding through of foreign substances. The flour is protected from coming in contact with the iron crank by an angular tin sleeve, and a tin skirt below the sifter prevents the flour from scattering all over the bottom of the bin, but instead directs it into the proper receptacle. The sifter rests on a strong ring, which extends all around the inside of the bin, holding it securely in place, and still allowing it to be easily removed for cleaning.

Fire Proof Cash Box.

No. 23T6094 Fire Proof Cash Box. The fire proof walls of this box are sufficiently thick to make it absolutely fire proof in any residence. It is a perfectly safe receptacle for deeds, bonds, contracts, mortgages, notes, insurance policies, tax receipts, jewelry, etc. To test this box we had one subjected to an intense heat in a furnace. Not only was the iron heated red hot, but it reached a white heat, which is the point just before iron melts. The contents of box were not even marred. No fire could ever occur out in the open air to equal the intense heat to which this box was subjected. Furnished with a first class padlock with two keys. Dimensions: Outside—13 inches long, 9 inches wide, 6½ inches deep; inside—10 inches long, 6 inches wide, 3 inches deep. Approximate weight, 50 pounds. Price, each..... .....$4.50

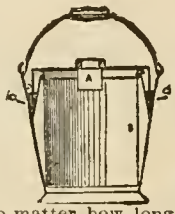
Challenge Odorless Commode and Slop Bucket Combined.



No. 23T6162 It is impossible for the foul air to escape, even when the lid is removed, as there is inside the lid a receptacle that holds a deodorizer, and which neutralizes all gases inside the commode. The disinfectant (2 table spoonfuls of chloride of lime), needs only to be renewed once in two weeks at a small cost. It is indispensable in the sick room, especially in cases of contagious diseases and fevers. Does not have to be emptied until filled, no matter how long it stands. Illustration shows construction. Made of heavy galvanized iron, and has no paint to hold stench or disease germs. Has removable seat, etc. It needs only to be seen to convince you of its wonderful merit. Holds 9 quarts. Weight, 6¾ lbs. Each, **$1.40**

Dust Pans, IC Tin.

DEPARTMENT OF COMBINATION OUTFITS AND HOUSE FURNISHINGS.

ABOUT THE QUALITY.

Different from many department and novelty stores who sell assortments of inferior goods, our assortments are all made up from regular stock merchandise of the highest grade, every article that goes into every combination we offer is strictly a high standard quality and so guaranteed, and if not found to be such in every instance you are at liberty to return goods to us and we will cheerfully refund your money. We are able to make this extraordinary offer on combination outfits by reason of buying up immense quantities of the different articles during the dull seasons, when the manufacturers have little to do and are willing to make very close prices; at the same time when it is quiet with us we can assemble the outfits, pack them, get them ready for shipment. As it costs no more to haul in the complete outfit once ready for shipment than one single item in the lot, we can afford to figure our profit even lower than on a general line. All this you get the benefit of in our prices.

PEERLESS STEEL ENAMELED WARE OUTFITS.

We have made up a combination of Peerless Steel Enameled Ware in three different sizes which we are able to offer in the complete assortment as listed below at $4.04, $4.53 and $5.14, in competition with anything you can buy anywhere at double the price. This Peerless Enameled Steel Ware is the highest grade, strictly firsts, not seconds, made by the best makers in America. These outfits consist of the following articles:

1 Peerless Enameled Steel Tea Kettle.
1 Peerless Enameled Steel Coffee Pot.
1 Peerless Enameled Steel Tea Pot.
2 Peerless Enameled Steel Preserving Kettles.
1 Peerless Enameled Steel Saucepan.
2 Peerless Enameled Steel Pudding Pans.
1 Peerless Enameled Steel Wash Basin.
1 Peerless Enameled Steel Windsor Pattern Dipper.
4 Peerless Enameled Steel Pie Plates, 9 inches in diameter.
1 Peerless Enameled Steel Soap Dish to hang on the wall.
1 Peerless Enameled Steel Dish Pan.

OUR SPECIAL $1.30 HOUSEKEEPERS' OUTFIT OF TINWARE.

Every piece we show in this lot is strictly high grade, standard goods. There is not a piece in the whole outfit but what is in everyday use. If there happens to be one or more articles in this outfit you have no use for, do not hesitate to take advantage of the offer; you are getting a good portion of the outfit for nothing, and when you get the $1.30 price you can afford to pay $1.30 for this outfit if you give away one-third of the articles. The remainder will be very cheap at $1.30.

Our $1.30 Set of Tinware consists of the following articles:

1 Heavily Retinned Dish Pan, 10-quart size
3 Retinned Pudding Pans, one each 1, 2 and 3 qt. size
1 Retinned Milk Pan, 4-quart size

5 gallons. Weight, 3¼ lbs. Each...50c

Faucet Can.

No. 23T6907 The Faucet Can. The most desirable faucet can made. Corrugated galvanized iron; brass faucet, nickel plated.
3 gallons. Weight, 2½ lbs. Each..45c
5 gallons. Weight, 3¾ lbs. Each..48c

The Swinging Can.

No. 23T6910 Galvanized iron, corrugated, with spring valve spout. It is absolutely the most convenient can made, all the objectionable features in pump and faucet cans are overcome. The frame work is cut from heavy steel and is separable from the can when taken to the store. Warranted to be satisfactory. To fill the lamp, swing the can in position and push the button. Only one size, 5 gallons. Weight, 4¾ pounds. Price, each.....73c

Pump Can.

No. 23T6912 Galvanized iron, corrugated, with tin top. Supplied with steady steam pumps which are removable from the can. Will give satisfaction in every way. Only one size made, 5 gals. Weight, 5 pounds. Price, each..72c

Non-Overflowing Pump Can.

The pump is made with a double tube. The inner tube transfers the oil to the lamp, and the outer tube carries the overflow back into the can. Adjustable spout to fill the lamp from the top or side of the can. The body and bottom is made of the best galvanized iron, corrugated. Heavy tin top, with a hinge cover over the pump, which excludes dust, dirt and rain. Every pump is warranted to give satisfaction and will last as long as the can, as it is the most durable pump ever made.
No. 23T6914 Size, 3 gallons. Weight, 3½ pounds. Price, each.....78c
No. 23T6915 Size, 5 gallons. Weight, 4¼ pounds. Price, each.....$1.08
No. 23T6916 Size, 10 gallons. Weight, 7½ pounds. Price, each.....$1.50

Copperized Steel Oilers.

No. 23T6950 The Celebrated W. & H. Seamless Copperized Steel Oilers are cheap, durable and elegant. They are heavily electro copper plated on the inside to prevent rust and to prevent the oil from becoming gritty. On the outside they perfectly resemble solid burnished copper. The 9-inch nozzles are bent, all others are straight. Have clock steel spring bottoms.

Diameter of bottom....	2¼	3⅛	3⅜	3⅝	3¾	4⅛	4⅜
Length of nozzle, inches	2½	3	5	9	3	3	9
Weight, each, ounces...	2	3	4	5	6	7	8

Railroad Oilers.

No. 23T6990 Copperized Steel Railroad Oiler. Anti-rust; used by the leading railroads of the country. Heavily electro copper plated inside to prevent rusting. The outside perfectly resembles burnished copper. Called the one-pint oiler. Diameter, 3⅜ inches; height of body, 5 inches; 12-inch nozzle. Weight, 10 ounces. Price...45c

No. 23T6992 Copperized Steel Railroad Oiler. Called the one-quart oiler. Diameter, 4⅛ inches; height of body, 6 inches; 15-inch nozzle. Weight, 14 ounces. Price, 55c

TUBULAR LANTERNS.

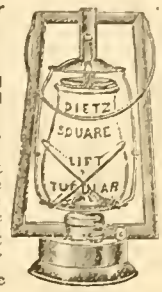
We illustrate all the latest designs and our lanterns have the latest improvements. We show a larger variety to select from. They are safe and reliable. While our prices are lower than formerly, we still maintain our superior quality.

In selecting a lantern you should also to secure the safest and best. Remember there are some makes of cheap lanterns that cause much annoyance as well as damage. The difference in price between our lanterns, the very best, and inferior makes is but a few cents.

Dietz Square Lift, or Star Tubular Lantern.

For Kerosene.

Our 45c lantern has no equal for the money. Over 8,000 sold last year.



No. 23T7000 This is the old reliable square lift lantern.

We have sold it for years, and it gives universal satisfaction. One of our most popular lanterns. The globe is raised by the thumb piece on top. No. 1 burner, ⅝-inch wick. No. 0 globe. Weight, about. 1¾ pounds.
Price, each.....45c

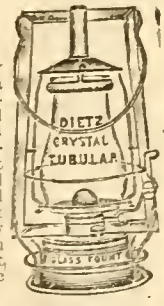
Dietz Side Lift or Victor Tubular Lantern.

For Kerosene.

No. 23T7002 This is the most popular lantern on the market today.

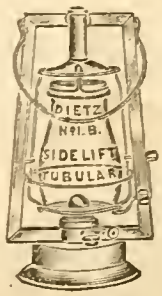
The crank at the side raises and lowers the globe and locks the burner in place when down. A late improvement on this lantern consists of a bend on the guard wire over which the crank moves, thus perfectly locking the globe frame and burner down. No. 1 burner, ⅝-inch wick. No. 0 globe. Weight, about 1¾ pounds.
Price, each.....45c

Dietz Crystal Tubular Lantern.



No. 23T7005 This lantern is a strongly guarded tubular lantern with a glass fount instead of tin. This enables the user to see how much oil is in the fount, and the fount will never leak. Fitted with our improved side lift. While the fount on this lantern is strongly guarded and is not liable to breakage, still in case of accidentally breaking it can easily be removed and a new one put in. No. 1 burner, ⅝-inch wick. No. 0 globe. Weight, about 2½ pounds. Price, each.....62c

Dietz No. 1B Side Lift Tubular Lantern.



For Kerosene.

No. 23T7012 This Lantern has the No. 2 burner, 1-inch wick, and should fill a want where a large amount of light is needed in a hand lantern. The oil pot holds 1¼ pints of oil, and the lantern will burn nineteen hours without refilling. No. 2 burner, 1-inch wick. No. 0 globe. Weight, about 2 pounds.
Price, each.....62c

Ham's Cold Blast Tubular Lantern.

No. 23T7015 Cold Blast No. 2, Round Tube, Bottom Lift, Tin Tubular Lantern; No. 2 burner, 1-inch wick, No. 0 globe. Globe removable without taking off the guard. This lantern is made on the same principle as a street lamp, with wind break, makes it a superior lantern in its burning qualities. Very desirable for use in places where there are strong drafts of wind. It is especially adapted for use in mills and other places where there is considerable dust, as the burner will not clog up. The tubes are made from one piece, without elbow or joints. Gives a fine light. Weight, 2¼ lbs. Price, each.....80c

Dietz Junior Cold Blast Lantern.

No. 23T7016 Only 12 inches high and gives a light equal to many lanterns double its size. It can be filled, lighted, regulated and extinguished without removing the globe. It burns on the cold blast principle, taking most of its air supply from above the globe and will not blow out in the strongest wind. Our Junior Cold Blast possesses all the advantages of our regular No. 2 cold blast lantern, but in more compact form, and is unequaled where a light, handy lantern is required. Each..60c

No. 23T7018 Dietz Junior Cold Blast Lantern same as No. 23T7016, except it is made of brass, highly polished. Price, each.....90c

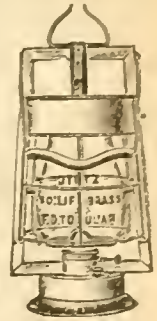
No. 23T7019 Dietz Junior Cold Blast Lantern, same as No. 23T7016, except it is made of brass and is highly polished and nickel plated. Price, each..$1.10

Dietz Safety Tubular Mill Lantern.

No. 23T7017 The burner is locked in place by two positive locks on globe frame, which work automatically. In addition to this a padlock may be used to secure the globe frame and the guard frame permanently, if desired. The guard has our patent wind break, which prevents access to the flame over the top of the globe. It burns with a clear white flame and the oil never heats. The oil fount holds ¾ pints of oil, will burn 19 hours without refilling, with a solid drawn, retinned oil fount. This lantern has been endorsed by insurance men wherever shown as the safest kerosene burning lantern made. Improved burner, ⅝-inch wick. No. 0 globe. Weight, 2¼ lbs. Price, each.....90c

Dietz Square Lift Brass Tubular Fire Department Lantern.

For Kerosene.



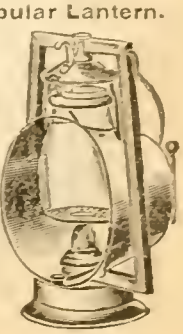
No. 23T7020 This is a good, strong lantern, made of heavy polished brass and fitted with our patent wind break guard. Our Fire Department Lanterns have all our latest improvements. Are made extra heavy, with large double oil pots. Adopted by the American fire engine companies in the principal fire departments and insurance patrols in the United States. No. 1 burner, ⅝-inch wick. No. 0 globe. Weight, 3 lbs. Each..$1.98

Dietz Buckeye or No. 13 Tubular Slide and Dash Lantern.

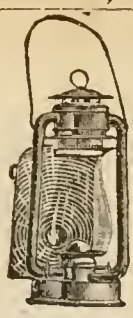
No. 23T7025 This is really a very handy combination; it serves as a hand lantern and a side or dash lamp. The lamp can be fastened under the body of the vehicle by means of a holder. (See No. 23T7052.) We furnish this lamp with our new bull's-eye lens—a bull's eye attached to the perforated plate. It is superior in every way to the bull's-eye globe. No. 1 burner, ⅝-inch wick. No. 0 globe. Weight, about 2¼ lbs. Each.....68c

Dietz No. 0 Reflector Tubular Lantern.

No. 23T7027 For Kerosene. The globe can be raised for lighting. The hood is 6 inches deep, fitted with a 5-inch silvered glass reflector and a spring fastening for dash. Can be used also as a hand lantern or wall lamp. It is a desirable lantern for night driving, and will throw a strong light over 100 feet. We have never heard of one of them blowing or jarring out. The lamp can be fastened under the body of vehicle, by means of our Warner holders. (See No. 23T7052.) No. 1 long cone burner, ⅝-inch wick. No. 0 globe. Weight, about 2¾ pounds.
Price, each.....$1.10



Cold Blast Dash Lamp.



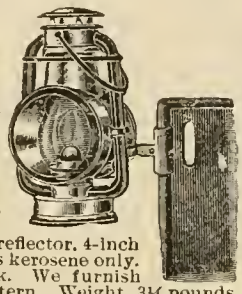
No. 23T7030 Cold Blast Dash Lamp. No. 2 burner, 1-inch wick, No. 0 globe. This lamp is intended for use when a very powerful light is required. It will not blow out in the strongest wind, and does not flicker as much as a lantern without wind break. We furnish this lantern japanned blue. Weight, 2¾ pounds. Price, each.....$1.00

Dietz Junior Cold Blast Dash Lantern.

No. 23T7031 This is our Junior Cold Blast Lantern with dash attachment and corrugated reflector added. It is wind proof, easy to regulate, gives a brilliant light, and is a first class lamp for night driving and for the stable.
Price, each.....75c

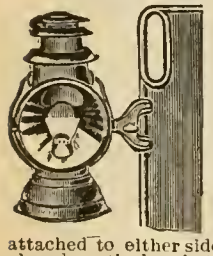
Cold Blast Driving Lamp.

Improved.



The Cold Blast Driving Lamp is a perfect lantern in its burning qualities. The light produced is stronger and brighter than the light produced by any lantern using a ⅝-inch burner. Elegantly finished. Has 4-inch silvered reflector, 4-inch double convex lens. Burns kerosene only. No. 00 burner, ½-inch wick. We furnish dash clamp with each lantern. Weight, 3¼ pounds.
No. 23T7032 Black enameled. Price, each.$2.10
No. 23T7033 Nickel plated. Price, each... 2.70

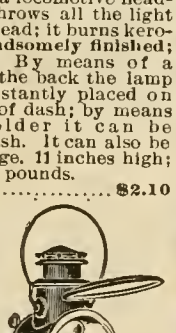
Dietz Tubular Driving Lamp.



(Patented.)

No. 23T7040 It is a practicable and perfect driving lamp. It will not blow out; it gives a clear, white light; it looks like a locomotive headlight; it throws all the light straight ahead; it burns kerosene. Handsomely finished; japanned. By means of a spring on the back the lamp can be instantly placed on the front of dash; by means of the holder it can be attached to either side of the dash. It can also be placed on the bracket of a carriage. 11 inches high; 6 inches in diameter. Weight, 2½ pounds.
Price, each, japanned.....$2.10

Dietz Tubular Hunting Lamp.

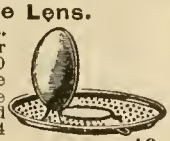


No. 23T7045 Looks like a locomotive headlight. It will not blow nor jar out. The hood over the front works perfectly and without noise; when the hood is down no light escapes. It will throw a powerful light. It burns kerosene oil and will burn ten hours without refilling. It is compact and handsome. Has a bail and can be used as a hand and wall lantern in camp. Gives a brilliant light, and is absolutely safe. 11 inches high; 6 inches in diameter. Weight, 2½ pounds. Price, each.....$3.00

Lantern Holders.

No. 23T7052 Warner Tubular Lantern Holder. For holding a tubular lantern under the body of a wagon for night driving. Weight, 6 ounces. Price, each 20c

Bull's-Eye Lens.



No. 23T7055 Bull's-Eye Lens. Attached to perforated plate. For all tubular lanterns taking No. 0 (the common size) globe. Takes the place of bull's-eye globes at little expense; no danger of breakage and better in every way. Weight, 4 ounces. Price, each.....10c

Dietz New Farm Lantern.

For Oil, Candle or Kerosene.

No. 23T7060 A Cheap, Square Lantern. If glass should get broken, a light of 7x9 window glass, cut in three equal pieces, forms three lights for the sides. Each lantern has a burner for oil, one for kerosene, and a candle-holder, all furnished with lantern without extra charge. Weight, 1¼ pounds. Price, each.....40c

Wire Bottom R. R. Lantern.

No. 23T7069 There are no better Railroad Lanterns made than ours. The bail is made so that when the lantern is put down the bail stands up. It is the strongest railroad lantern on the market. Price.....65c

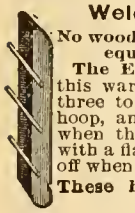
Our Acme Torches are the highest grade made. They are made to special specifications and are worth double the many cheaper makes.

WOODENWARE DEPARTMENT.

OUR CEDAR WOODENWARE is made for us under contract in Virginia by the best maker in America, and is the highest grade goods on the market.

Cedarware with Electric Welded Hoops, Calvanized.



No wood known to man will resist decay equal to Virginia white cedar.

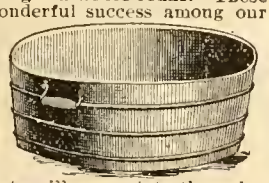
The Electric Welded Hoops used on this ware are sunk in grooves, and are three to four times as strong as a flat hoop, and consequently do not stretch when the wood expands, as is the case with a flat hoop, and therefore do not fall off when the tub or pail dries out.

These hoops are too strong to break and can't fall off.

Cedar Tubs.

With Electric Welded Hoops.

Made from the best Virginia white cedar. These tubs have met with wonderful success among our many customers. They are light, still very strong and durable, and are painted with the best oils and paint. They are guaranteed never to fall down. Those familiar with the lasting qualities of cedar shingles and posts will appreciate the value of this material when used in tubs and pails. We have four sizes.



No.	Size, Top	Diam. Bottom	Diam. at Depth	Holds gallons	Weight, pounds	Price, each
0	23⅜	21⅝	12¾	21	16	99c
1	22⅝	19	11 5/16	16	14	74c
2	20⅜	17⅝	10⅜	12	10	67c
3	18½	16⅜	9⅛	9½	8	57c

No. 23T8000

Sizes given above are inside measurements.

FREIGHT IS A SMALL ITEM.

You will find that the freight charges will amount to next to nothing compared to what you will save in price. The weight of nearly every article is given in the description, and by referring to pages 7 to 11, you can calculate almost exactly what the freight will amount to, and in every case you will find it is very little as compared with what you will save in price.

Cedar Water Pails.

With Galvanized Electric Welded Hoops.

These pails have proven to be the greatest selling article we have ever put on the market. They are impervious to water; very light and strong, and in every way superior to any pail ever made. Made of the best Virginia cedar.

No. 23T8012 Two-Hoop Cedar Pail. Painted with the purest and best lead and oil on the outside. Diameter inside of top, 11¼ inches; diameter inside of bottom, 8⅞ inches; depth, inside, 8 inches; holds 2¾ gallons. Weight, 2½ pounds.
Price, per dozen, $1.83; each.....16c

No. 23T8013 Three-Hoop Cedar Pails. Painted with the purest and best lead and oil on the outside. Diameter inside of top, 11⅝ inches; diameter inside bottom, 9½ inches; depth, 9⅜ inches; holds 3¾ gallons. Weight, 2¾ pounds.
Price, per dozen, $2.06; each.....18c

No. 23T8014 Three-Hoop Cedar Pails. Made of the best selected Virginia white cedar, and finished in natural wood. **Nickel plated electric welded hoop,** smoothly finished; a very handsome pail. Diameter inside top, 11¼ inches; diameter inside bottom, 8⅞ inches; depth inside, 8 inches; holds 2¾ gallons. Weight, 3 pounds. Price, per dozen, $2.42; each, 21c

Cedar Water Can or Sugar Bucket.

No. 23T8026 This is one of the most useful articles we sell. It has a handsome knob cover to lift off. Especially adapted for drinking water, as it keeps all dust and trash out. It is a well known fact **the oil of cedar is death to nearly all forms of insect life.** This property of the wood makes this bucket especially valuable to preserve anything from the attacks of ants and other insects. **Finished in natural wood,** with three flat brass hoops. We have them in three sizes.

Size	Diam., top	Diam., bottom	Depth	Holds, gallons	Weight, pounds	Price, each
1	9	11	8½	3	5	60c
2	8½	10½	8	2½	4	50c
3	7⅞	9	7⅜	1½	3¼	40c

The measurements above are inside measure.

Washboards.

Our line of washboards is made for us by a manufacturer who has the reputation of making the best washboards on the market. They are of the stongeste nstruction and finished in the best possible manner. **We carry a variety of sizes and the most popular patterns,** and have selected our boards with the idea of **giving our customers the best possible value for their money.**

No. 23T8085 Brass Washboard. The finest family size washboard manufactured. The rubbing surface is made of a sheet of hard spring brass; it will not corrode, crack or get out of shape; has the latest improved corrugated cable crimp and will do the washing with one half the labor required on ordinary boards. It is not necessary to rub hard, the board will do the work. Has protector top and open back braced by bent truss rods so that rubbing surface can never sag. We guarantee every one of these washboards for five years and will replace any that give out within that time. Weight, 2½ pounds.
Price, each.....35c

No. 23T8086 The Enameled Washboard is made same as the Brass Washboard previously described, except the rubbing surface is blue enameled steel, smooth as glass, but better, because it is unbreakable. Price, each.....28c

No. 23T8087 Red Star Double Washboard. Standard family size, select quality; rubbing surface is an extra heavy solid zinc without wood backing. Has fancy crimp on one side and plain crimp on the other. Has hard maple legs braced by a steel rod passing through zinc and riveted on outside. Has protector top. A very strong and extra well finished board. Weight, 3¼ pounds. Price, each.....33c

No. 23T8089 Regal Protector Washboard. An extra large board. Rubbing surface measures 12x13 inches. Has heavy single zinc surface with extra deep globe crimp, making it a very easy washer; hardwood frame; protector top; ventilated back. A first class board for large families and boarding houses. Weight, 3½ pounds.
Price, each.....27c

No. 23T8090 The Old Reliable Banner Globe Double Washboard. Standard family size; double zinc surface; globe crimp on one side and plain crimp on the other; hardwood frame and stationary protector top; strong and well made. One of the most popular washboards made. Weight, 2¾ pounds.
Price, each.....25c

No. 23T8092 Bijou Washboards. A novelty, with soap board and top made of heavy galvanized iron; standard family size; heavy, extra deep globe crimp zinc; saves hard rubbing; protector top; hardwood frame; ventilated back; very strong. Weight, 3½ pounds. Price, each.....24c

DEPARTMENT OF DAIRY SUPPLIES.

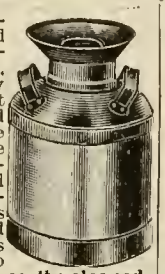
THE LARGE INCREASE IN OUR SALES IN DAIRY SUPPLIES INDICATES THAT OUR PRICES AND GOODS ARE RIGHT.

WE ARE IN A POSITION TO FURNISH ANYTHING that a dairyman may require at money saving prices. There are some items of which a careful description would require so much space that we have prepared special circulars, showing good, large illustrations, and giving explicit descriptions, which we will be pleased to mail on request.

SALT, BUTTER COLOR, ETC., will be found in our grocery list. Other goods used by dairymen will be found on other pages of our general catalogue. We can furnish everything you want.

MILK CANS. In these days of close competition it is absolutely necessary for a dairyman to practice the most rigid economy in purchasing all the supplies that he uses. We believe the highest priced cans that we sell are the most economical. In sections of the country where dairymen have been shipping milk the longest, you will find that they use the best cans they can buy, for they have found that while the expense at first is a little more, the life of the cans is enough longer to more than repay the extra cost. The cans which we offer you this season are made by a manufacturer who has been making milk cans in the same factory which he now occupies for thirty-four years. The cans are not only made from the best finished material, but are free from seams, rough soldering, and other imperfections. The cans are not made by a trust, as you can see by comparing our prices with the prices of dealers who handle goods made by a trust. There is no acid used in tinning, as every piece of steel used in the manufacture of these cans is tinned strictly "Palm Oil Process." The bodies of the best cans are riveted, the rivet heads being soldered on the inside smooth as glass.

SOME DEALERS will tell you that the seamed bodies are better. They say so because they can use a softer grade of steel, and labor costs much less when cans are made this way. If you have had any experience, you know that the body of a can should be stiff and hard to prevent denting. Hard, stiff steel, such as used in our best grade cans, cannot be double seamed. We double seam some of our cheaper cans, because it's cheaper to make them that way. The seamed bodies made of soft steel, will soon dent in use. REMEMBER, the manufacturer of these cans belongs to no trust or combination.



No. 23T9000 The Wisconsin Pattern Milk Can, seamless neck and cover, improved round handle, stamped seamless breast, heavy steel body, drawn steel bottom, strong heavy bottom hoop 2½ inches wide, breast hoop 1¼-inch angle steel, soldered top and bottom, breast is double seamed to the body, body is double seamed. Bottom is flanged and riveted to body and bottom hoop, all parts tinned and retinned before being put together. All inside seams heavily soldered with best solder and perfectly smooth, being known as loaded seams, leaving no crevices to collect sour milk or dirt. **They are easily cleaned. This style can is in use all over the United States for a wagon can for hauling milk or cream to creameries. We guarantee them to be actual capacity.**

Capacity, gallons	5	8	10
Average weight, pounds	10	15	16½
Price, each	$1.40	$1.50	$1.60

No. 23T9003 The Iowa Pattern Railroad Stiff Steel Milk Shipping Can. This is the most popular of the many styles of cans and is used in every state in the Union. While medium priced, it is constructed to give great service; has seamless neck and cover with non-pull-off handle, improved round handles to prevent cut hands, stamped seamless breast with ⅞-inch half oval steel bumping band to protect can from getting jammed in. Heavy stiff steel body, will not dent, **riveted and soldered,** drawn steel bottom, heavy tinned steel bottom hoop 2½ inches wide; bottom is flanged and riveted through hoop and body. Realizing the hard usage to which these milk cans will be subjected, we use an extra amount of best pure solder, making them leak proof and durable. The seams are loaded by floating into them the best pure solder, making every part of the inside of the can as smooth as glass, leaving no little spaces or rough seams to collect sour milk. We have critically examined cans of this pattern from the leading can makers and have no hesitancy in claiming a better can of this pattern is not made. **Many of our customers tell us they have seen none so good. We guarantee actual capacity.**

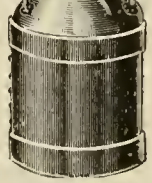
Capacity, gallons	5	8	10
Average weight, pounds	12½	17	18
Price, each	$1.50	$1.70	$1.80

No. 23T9006 The Elgin Pattern Railroad Stiff Steel Milk Shipping Can. Used largely in Illinois, Wisconsin and Iowa. Has seamless neck and cover with non-pull-off handle, improved round handle to prevent cut hands, stamped heavy steel breast with ⅞-inch half oval steel bumping band to prevent breast from being jammed in. Heavy stiff steel body (will not dent), riveted and soldered, drawn steel bottom, extra heavy, reversed bottom hoop, 1¾ inches wide, riveted through flange of bottom and body and projecting just far enough below body and bottom to protect both. **Before being put together every piece and part of this can is tinned and retinned and carefully inspected for defects,** thereby insuring a heavy coating of pure tin and an absolute preventive against rust. Besides using the best stock, great care is taken in construction. The seams are loaded by floating into them the best pure solder, so essential to the life of a good can. The inside of our cans are smooth as glass, having no shoulders or rough spots where milk can collect, and making them easy to clean. This can is stronger and better than its weight would indicate when compared with others (whose extra weight is largely made up of hoops), as the material in the body, breast and bottom is of extra heavy steel. While this can is stronger than those having outside hoops, the hoops are shorter and lighter owing to the improved construction. **We guarantee actual capacity.**

Capacity, gallons	5	8	10
Average weight, pounds	11	18	21¾
Price, each	$1.55	$1.80	$2.00

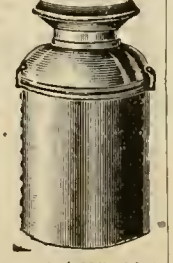
No. 23T9010 The Chicago Pattern Railroad Stiff Steel Milk Shipping Can. Has seamless neck and cover with non-pull-off handle. Improved round handles to prevent cut hands. Stamped heavy steel breast with ⅞-inch half oval steel bumping band to prevent can from being jammed in. Heavy stiff steel body, will not dent, riveted and soldered. Extra heavy drawn steel bottom. Stiff beaded bottom hoop, having bead on which bottom rests, thereby preventing bottom being driven upwards. Rivets in bottom pass through beaded hoop flange on bottom and body, making them nearly as strong as if welded together. Like all the high grade cans sold by us, each and every part is tinned and retinned before being put together, which is a safeguard against rusting. Seams are loaded by floating into them the best pure solder, a very important feature in the construction of milk cans, and special care is taken to have every part of the inside of can as smooth as glass, leaving no shoulders, seams or rough places that will collect cream or milk. The breast, body, bottom etc., are same weight as our Elgin can. **This can is a favorite in Pennsylvania, Michigan, Illinois, Iowa and Wisconsin. We guarantee actual capacity.**

Capacity, gallons	5	8	10
Average weight, pounds	12	19	22
Price, each	$1.65	$1.95	$2.20



No. 23T9014 Burn Pattern Railroad Extra Stiff Steel Milk Shipping Can. Has seamless neck and cover with non-pull-off handle. Extra heavy stiff steel seamless breast. Improved round handles to prevent cut hands. Extra stiff heavy steel body, will not dent, riveted and soldered, extra heavy stiff steel drawn bottom, bottom rivets pass through flange of bottom, body of can and bottom hoop, making the strongest construction known. Breast hoop is 2½ inches wide, is offset and riveted on ends, after which it is driven to place and soldered top and bottom. **A glance at this will convince you of its strength and how thoroughly it protects that part of the can where breast is soldered to the body.** Great care is used in inspecting every piece of material that enters into the construction of this can, and anything that shows the smallest imperfection is rejected. All parts are tinned and heavily retinned. All seams are loaded by floating into them the best pure solder. The entire inside of can is smooth as glass and easy to clean. **We guarantee full capacity.**

Capacity, gallons	8	10
Average weight, pounds	21½	24
Price, each	$1.95	$2.15



No. 23T9017 New York Pattern Railroad Extra Stiff Steel Milk Shipping Can. Has 7-inch seamless neck, extra heavy cover, will support a cake of ice without injury, and the cover is shaped so the cans can be piled two or three high. Has stamped steel breast with malleable drop handles, of the noiseless pattern; extra stiff heavy steel body riveted and soldered, the kind that will not dent; heavy drawn steel bottom; bottom hoop is 1¾ inches wide; bottom rivets pass through flange of bottom body and bottom hoop; breast hoop ⅞-inch half oval welded steel sweated on to breast to act as a bumper and prevent can from jamming in. An extra large quantity of best pure solder is floated into the seams, making the can unusually strong and the inside as smooth as glass; easily cleaned, with no shoulders, offsets, seams or rough places to collect sour milk or dirt. **This can is used in New York and by all the large condensing factories throughout the country. We guarantee full capacity.**

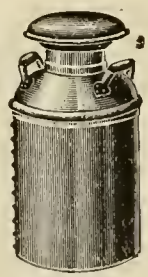
Capacity, gallons	5	8	10
Average weight, pounds	13	23	24
Price, each	$1.90	$2.15	$2.25

No. 23T9020 Binghamton, New York, Pattern Stiff Steel Railroad Milk Shipping Can. Seamless 6-inch neck, seamless stiff steel breast, malleable noiseless pattern drop handles. Stiff steel body, riveted and soldered. Drawn steel bottom. Bottom rivets pass through flange on bottom body of can and bottom hoop, **the strongest construction known.** Breast hoop is ⅞-inch half oval welded steel, sweated on to breast, protecting it from being jammed in. Bottom hoop 1¾ inches wide projects down just far enough to protect body and bottom and take all strain off the rivets. All parts are tinned and retinned before being put together, and are carefully inspected against defects. An extra amount of best pure solder is floated into the seams, enabling them to stand the rough usage to which they will be subjected. The cans are smooth as glass inside, having no shoulders, seams or rough places for milk to collect and sour. **This can is a favorite in Northern and Central New York, and we have no hesitancy in recommending it for hard usage. We guarantee full capacity.**

Capacity, gallons	5	8	10
Average weight, pounds	11½	17	18
Price, each	$1.80	$2.00	$2.10

No. 23T9023 Utica, New York, Pattern Steel Milk Can. Seamless 6-inch neck, seamless steel breast, malleable noiseless pattern drop handle, steel body grooved seams, double seamed to breast, drawn steel bottom. Breast hoop is 1¼-inch angle steel, welded, soldered top and bottom. Bottom hoop, 1¾ inches wide. Bottom rivets pass through flange of bottom, body and hoop. All seams are loaded. The inside of can is perfectly smooth. **While we do not recommend this as a shipping can to stand the hard usage to which they are subjected, we do say the material (except in weight) and workmanship are superior to many claimed to be suitable for this purpose. Our heavier cans are cheaper in the long run.**

Capacity, gallons	8	10
Average weight, pounds	16	17¼
Price, each	$1.80	$1.90



No. 23T9026 The Cleveland Pattern Steel Railroad Milk Can. Deep, 7-inch seamless neck, extra heavy cover, will support a cake of ice without injury, and shaped so cans may be piled two or three high. Improved round handle, prevents cut hands, stamped, stiff steel breast with ⅞-inch half oval welded steel bumping band to protect cans from being jammed in, extra heavy stiff steel body, the kind that don't dent, riveted and soldered. Heavy drawn steel bottom, bottom hoop 1¾ inches wide, bottom rivets pass through flange of bottom body and bottom hoop, making the construction almost as strong as a solid weld. All parts are tinned and retinned and carefully inspected before being put together, all seams are loaded by floating into them the best pure solder, making the cans strong and the inside as smooth as glass, having no shoulder seams or rough places where milk can settle and sour. **This can is used by the largest shippers in Northern Ohio and we emphatically claim a better, stronger, more durable can is not made. We guarantee actual capacity.**

Capacity, gallons	5	8	10
Average weight, pounds	13	21	23¾
Price, each	$1.90	$2.15	$2.35

No. 23T9029 St. Louis Pattern Extra Heavy Stiff Steel Railroad Milk Shipping Cans, 7-inch seamless neck, extra heavy cover (will support a cake of ice without injury); shaped so cans may be piled two or three high; malleable noiseless drop handles; extra strong seamless stamped steel breast with ⅞-inch half oval welded steel bumping band to protect can from being jammed in; extra heavy stiff steel body, the kind that don't dent, riveted and soldered; extra heavy drawn steel bottom; outside bottom hoop 1¾ inches wide, having a bead on the inside on which the bottom rests, thus preventing the bottom from being jammed upwards. Rivets pass through flange on bottom, body and bottom hoop, being the **strongest and most durable construction known to can makers.** Unusual care is taken in soldering this can, all seams are loaded by floating into them the best pure solder until seams are smooth as glass, leaving no shoulders or rough places where milk can collect and sour. All parts are tinned and retinned and most carefully inspected before being put together. **This can is used in Michigan, Missouri and California, and is one of the strongest and most durable cans made. We guarantee actual capacity.**

Capacity, gallons	5	8	10
Average weight, pounds	12¾	21	24
Price, each	$1.90	$2.15	$2.35

Our $1.55 Omaha Pattern Steel Can.

No. 23T9032 Omaha Pattern Stiff Steel Railroad Shipping Can. Seamless neck and cover with non-pull-off handle; stamped stiff steel seamless breast with ⅞-inch half oval welded steel bumping band to protect cans from being jammed in; stamped stiff steel handles; stiff steel body riveted and soldered; drawn steel bottom. Bottom hoop 1¾ inches wide. Rivets pass through flange of bottom, body of can and bottom hoop; all parts are tinned and retinned before being put together. They are carefully inspected and any material showing the least defect is rejected. Seams are loaded by floating into them the best pure solder, making the can strong, durable and leak proof and making the inside as smooth as glass. **This can is used in Illinois, Iowa and Nebraska; and while not as heavy as some of the cans which we sell, it is substantially made from perfect stock and has always given satisfaction to the purchasers. We guarantee actual capacity.**

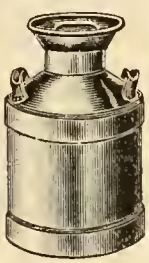
Average weight, pounds,	11	16	17
Price, each.....	$1.55	$1.70	$1.80

Our $1.50 Sturges Pattern Steel Can.



No. 23T9035 The Genuine Old Reliable Well Known Sturges Pattern Stiff Steel Railroad Milk Shipping Can. Has seamless neck and cover with non-pull-off handle. Seamless stamped steel breast which is double seamed to the body. Stamped stiff steel handles. Steel body with grooved seam strongly soldered. Drawn steel bottom double seamed to body. Breast hoop 2½ inches wide, soldered top, bottom and ends. Bottom hoop 2½ inches wide riveted on ends. Bottom rivets pass through flange of bottom body and bottom hoop. All parts are tinned and retinned and carefully inspected before being put together. All seams are loaded by floating into them a sufficient quantity of the best pure solder to make the seam as smooth as glass. **This also makes the can strong and leak proof, and easy to clean.** This can has been on the market for thirty-five years and is better this year than ever before. The fact that it is still so popular proves that it meets the requirements of a large number of users. **This can is used in every state in the Union. We guarantee actual capacity.**

Capacity, gallons.....	5	8	10
Average weight.....	10	15	17½

Stamped Milk Can Strainers.

No. 23T9080 Retinned 4½-inch strainer cloth bottom. Just the thing to use in connection with railroad milk cans. This strainer answers a long felt want in supplying a large bowl and straining surface. It measures 10½ inches across the top and the brass cloth measures 4½ inches, which will accommodate the milk as fast as poured in. It is retinned, which insures a smooth surface; easily cleaned and always bright. Weight, ¾ lbs. Size, 10¼ inches. Price, each..27c

Milk Can Strainer.

No. 23T9082 Milk Can Strainer, is made of the best quality IXXXX charcoal tin plate; well soldered. Has detachable hoop for holding straining cloth. The bowl or hopper is large enough to prevent milk overflowing. Strong, heavy and durable. Weight, each, 2 pounds.

Price, each.....67c

The Perfection Milk Cooler and Aerator.

Notice the Clamping Band for Holding Strainer Cloth.

Takes all animal heat out of milk, and thoroughly cools it. Cools and aerates the milk, preparing it for shipment or peddlers' use. Simply pour the milk into the hopper, and by the time you are through milking, it is cooled and aerated. It can be used either with running water or filled from a well, spring, or with ice. The milk will be cooled to within a few degrees of the temperature of the water used in cooling. **Once filling with ice will cool 500 to 600 quarts of milk down to a temperature of 50 degrees.** Attach rubber hose to water inlet and fill water compartment with cold water, or lift off top and fill from bucket, being careful to place the cooler and aerator where there is plenty of pure fresh air. Use the agitator freely to draw the warm water from the sides. The water overflow will permit of your keeping a running stream of water constantly passing through, and this is desirable where such can be resorted to. Securely crated for shipment.

No. 23T9086 Price, with large hopper and clamping band, suitable for one to forty cows. Weight, crated, 32 pounds.....$7.50

No. 23T9087 Price, with small hopper and clamping band, suitable for one to ten cows. Weight, crated, 25 pounds.....$6.50

Deep Cover Cream Setting Cans.

Without Gauge.

With Gauge

Patent Air Tight Covers with Patent Self Locking Bails. The Patent cover forms an air chamber on the outside below the wire edge, and fitting so snug on the inside makes the can water tight. It requires no locking device to hold the cover down and is the only cream can that can be completely submerged.

No. 23T9100 IX Without Gauge.

Cheese Factory Milk Cans.

No. 23T9140 Factory Cans. Made of heavy steel, heavily coated with pure block tin. Has the improved handle and seamless floating cover.

Holds gal.,	15	20	30	40
Weight....	22	25	32	40
Each...	$2.65	2.95	3.45	4.25

Cheese Factory Milk Cans.

No. 23T9145 Has ventilated floating cover made from extra heavy charcoal tin. Body made from one piece Cookley K IXXXX best charcoal tin plate, double seamed and soldered. Bottom of extra heavy stiff steel plate flanged. Bottom hoop is 1¼ inches wide welded steel, having a bead on which bottom rests. Bottom rivets pass through flange on bottom, body and bottom hoop. Top and center hoops 2½ inch wide welded steel. Improved recessed malleable iron handle, fits snugly over the middle hoop and is riveted on both sides, so when these cans are riding together in a wagon the handles cannot punch holes in the body of can. All hoops are soldered top and bottom, top of body is rolled over outside of and down onto top hoop, and strongly soldered, leaving no raw edges. The bottom in this can will not sag from the weight of the milk, which is frequently a cause of complaint with light weight cans. All parts are tinned and retinned before being put together. Great care is taken in soldering these cans, realizing the strain to which they are subjected which requires plenty of solder to assure strength and no leaks. **Do not compare this can with some on the market made with a three piece body,** cast iron handles, light hoops and bottom. The weight of this can indicates plainly its actual value; although the price may seem high, when durability is considered, it's the cheapest can we or anyone else can offer. **We guarantee actual capacity.**

Capacity, gallons...	15	20	30	40	50
Average weight, lbs.	30	32	38¼	47¾	53
Price, each.....	$3.60	$3.83	$4.30	$5.15	$6.00

Factory Dipper.

No. 23T9165 One Gallon Factory Dipper. Made of IXXXX charcoal tin, strongly soldered. Weight, each, 1½ pounds.
Price, each..... 33c

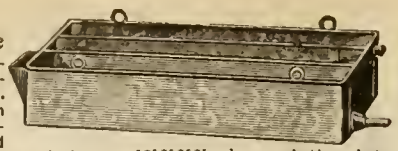
Dairy Pails.

No. 23T9170 Heavy Dairy Pail, with drawn steel bottom, heavy steel bail with bail wood (not shown in illustration). Stock is tinned and retinned before being put together. Well soldered, smooth seams, strong and durable.

Actual capacity, qts.	12	14
Weight, each, lbs.....	3	3¼
Price, each.....	36c	38c

For other dairy pails, strainer pails, etc., see Index.

FOR DAIRY AND BUTTER SALTING SCALES
SEE PAGE 759.



No. 23T9182 Separator Heating Vat. Made from heavy galvanized iron, lined with heavy IXXXX charcoal tin plate. Wired on edges and very heavily soldered. Has sloping bottom. Used for heating milk to the proper temperature before going to separator. It has steam connections. Crated for shipment.

Size, capacity.....	1 separator	2 separators
Weight, pounds...	33	36
Price, each	$6.00	$7.00

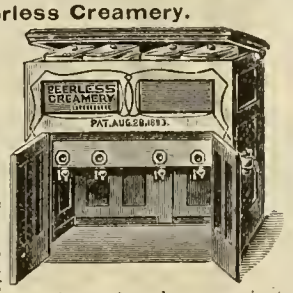
The Economy Cream Separator.

After the most critical examination of all known separators, foreign and domestic, both as to construction and results obtained, we have selected the Economy which has proven itself by actual tests, to skim as close, run as easy and skim as much as any separator in use. It is easy to clean and so simply constructed that anyone can run it. The bowl has but one cylinder; all the running parts are enclosed, removing all danger to the operator. You will not find any separator of same rated capacity (regardless of price) that will run easier, skim more, skim closer, make better butter, will skim hotter, will skim colder, or make more butter. **Our price, compared with others, may seem low, but remember, we guarantee it exactly as represented.** Complete and plain instructions sent with each machine. **At prices printed below, we deliver these separators free on board cars at Chicago. We ship from factory in Pennsylvania when it will save freight charges for our customers.**

No. 23T9186 Capacity, 250 pounds per hour. Price, with stand, each, (Shipping weight, 174 lbs.)...$48.75
No. 23T9187 Capacity, 350 pounds per hour. Price, with stand, each, (Shipping weight, 185 lbs.)...$63.75
No. 23T9188 Capacity, 500 pounds per hour. Price, with stand, each, (Shipping weight, 214 lbs.)...$75.00
$4.00 extra for power attachment.

BY ACTUAL TESTS the above separators will skim 350, 450 and 600 pounds respectively. Descriptive circular sent free on request.

The Peerless Creamery.



No. 23T9192 The cabinet part of this creamery is made in refrigerator style, having a dead air space in the walls and lined with felt paper. The tanks are lined with best bloom galvanized iron, in which are placed the milk cans. These cans are placed in and near the front of tank, through openings in the lining of which two necks or sections of each can project. On one of these necks or sections is screwed the milk faucet for drawing off both the cream and the milk, and the other contains a glass through which may be seen the cream line when skimming. As the cans are placed at the front of the tank, they stand perpendicular, and the front of tank slopes from the top to the bottom, thus giving ample room in front of the cans for loose ice, and, if preferable, large blocks of ice can be put back of the cans. The water also circulates underneath, between and around the cans. The bottoms of the cans are rounding and slope from the back to the front. This causes the sediment in the milk to settle at the faucet and to be drawn off first with the milk when skimming. The cans can be removed, should it be necessary to take them out for repair or other purposes, by unscrewing the faucet and nut or bull's eye. The bottom of the water tank also slopes toward the front, thus allowing the settlings or dirt that may be in the ice to be washed out readily. If sufficient quantity of ice has been placed in the sink of the cabinet to reduce the milk in the cans to the required temperature, viz.: 45 degrees in the spring and summer, and 40 degrees late in the fall and winter, all cream can be raised in twelve hours or between milkings. By using running water at a temperature of 55 degrees, or by changing water of that temperature often enough to reduce the milk to the same temperature, all the cream can be obtained in twenty-four hours. In this manner of operating **The Peerless Creamery,** capacity for storing two milkings must be provided; in other words, order a creamery of double the capacity that you would were you intending to use ice. **Capacity of cans, 18 quarts each.**

We do not carry Nos. 6, 7 or 8 in stock and prices are (for these sizes) delivered free on board cars at Philadelphia. We also ship other sizes from factory if it makes less freight charges for customers.

The Star Barrel Churn.

This style of churn is old, tried and reliable. Easy to operate and keep clean; it is absolutely impossible for this churn to leak, as the wear can be taken up as simply as one can turn a thumb nut. **The fasteners are attached to the outside of the churn,** and it will be seen from the cut that the ball and cover fastening is a compound leverage which **increases the pressure ten times more** than any other make of churn.

No. 23T9200 Five-gallon Barrel Churn, for 1 to 3 gallons of cream. Weight, 32 lbs.
Price, each..... $2.40
No. 23T9201 Nine-gallon Barrel Churn, for 1 to 5 gallons of cream. Weight, 46 pounds. Price, each..... $2.55

Price, each..... $3.60
No. 23T9205 Thirty-five-gallon Barrel Churn, for 3 to 16 gallons of cream. Weight, 95 pounds.
Price, each..... $4.80

The Sturges' Steel Churn.

No. 23T9212 The Original Genuine Sturges' Steel Churn, with all the latest 1902 improvements, stamped stiff steel cover with glass peep hole, which acts as a vent as well as enabling the operator to see how the churning is progressing without taking off the cover. Cork is ½ inch square, making it very durable and preventing leaks, and extends around the outside edge of cover. The ball adjustment is the quickest, safest and in every way the best. The mouth of this churn is full size of churn, leaving no projections or corners that are hard to clean. **There are no hoops to drop off, no seams to open up, no wood to take up sour milk.** The bottom is drawn steel flanged. There is a heavy steel hoop on the bottom, and bottom body and hoop are riveted and soldered together. The inside of can is perfectly smooth, having no rivet heads anywhere. The outside is handsomely decorated in colors. This can may be cleaned as easily as a glass dish, and its growing popularity is proof of its merit. **Frame is all steel and churns are securely crated for shipment.**

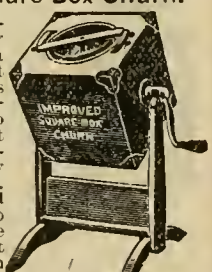
Price, each.....	$5.00	$7.50

Curtis' Improved Square Box Churn.



No. 23T9215 Its compactness, durability and efficiency make it very desirable for a dairy of one cow or fifty. It is a great favorite and has been **improved in many respects,** until it is believed to be absolutely the most perfect box churn to be found anywhere. **The cover is of heavy tin** and securely fastened. The corners are **protected with iron caps** and are so constructed that when the buttermilk is drawn out and cleansed it will drain **perfectly dry.**

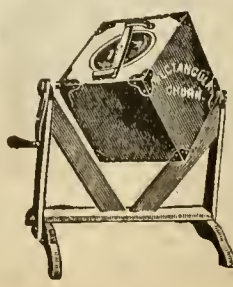
The **three largest sizes** are adapted to large dairies. They have a crank on one side, a long gudgeon for pulleys on the other; strong bands and rods running around the churn make them very substantial. **Tight and loose pulleys, $6.00 extra.**

Rectangular Churns.



No. 23T9216 The Rectangular Churn works the easiest and quickest of any churn on the market. At the **Dairy Fair,** held in Chicago, it **received the highest award,** a cash premium and diploma, in competition with the world. **Wisconsin butter won five medals** at the Centennial Exhibition at Philadelphia and four of these were **awarded to butter** made in the **Rectangular Churn.**

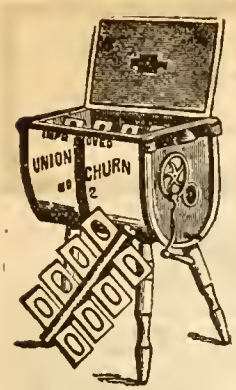
Union Churn.



You can make, gather, work and salt your butter without removing from the Union Churn, or without touching the butter with your hands. It churns with ease by the extra power and motion gained by gear wheels.

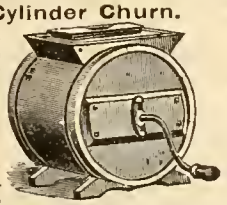
No. 23T9221 Union Churn, holding 5 gallons. Weight, 40 lbs. Each, $3.25

No. 23T9222 Union Churn, holding 7 gallons. Weight, 45 lbs. Each, $3.75

No. 23T9223 Union Churn, holding 10 gallons. Weight, 60 lbs. Each, $4.35

No. 23T9225 Union Churn, holding 12 gallons. Weight, 70 lbs. Each, $6.00

Improved Cedar Cylinder Churn.



No. 23T9226 White Cedar Cylinder Churn. We use a double dasher, and the crank is locked to the churn with a clamp and thumbscrew, which prevents leakage. Lock cannot break. The top is large, and dasher easily removed. The hoops are galvanized iron, and will not rust. The best churn in use. Weights vary from 15 to 25 pounds.

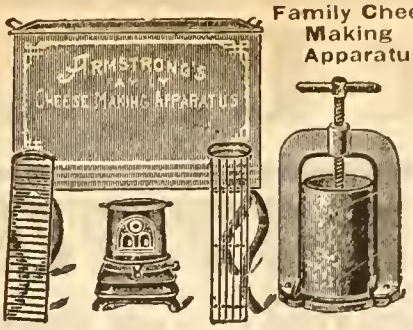
Has strap and buckle to fasten in back and shoulder straps with metal eyelets to fasten to. Double reinforced at all points where strength is required. An apron made to stand the hardest kind of wear and tear and give perfect satisfaction. Length, 52 inches; width, 40 inches. Price, each..... 90c

Family Cheese Making Apparatus.



No. 23T9261 This is a very simple apparatus adapted to the wants of all farmers or dairymen who keep from 2 to 10 cows, or more. It will make from 2 to 10 pounds of cheese each operation, according to the quantity of milk. It makes a perfect cheese each time, whether 2 pounds or 10 pounds.

The milk is heated by a coal oil lamp, which is easily kept under control. The heating vat is so constructed that the lamp gives all the heat that is necessary. The management of the heat is the secret of success in making good cheese. The entire apparatus is so light in weight that a lady can move it from one place to another with ease. **A lady can make cheese** in the kitchen or pantry, and carry on her household work at the same time. **With each machine we send simple and full instructions how to make cheese successfully.** Each apparatus is complete with heating vat, press, curd knives, lamp and thermometer, material, strong and well finished. **We also include sufficient rennet tablets, bandages and cheese color** to make a nice little batch of cheese. **Give catalogue number and state size.**

Butter Mold, New England Pattern.

These celebrated molds are made of selected white wood, and only brass hooks and screws are used throughout, so that there is no possibility of rust and consequent discoloration of the wood. The bottom is prevented from warping by strong wooden cleats, while the sides are grooved sufficiently deep to allow for swelling when in use, and are lock cornered together, thus securing the utmost possible rigidity. One great advantage of these molds over most other patterns on the market is that the prints are released by a single motion and in perfect shape, instead of being pushed forcibly through a form by a plunger, which injures the grain.

No. 23T9325 Price, half-pound size, print 5 inches long, 2¾ inches wide, 1¼ inches deep. Weight, ¾ pound. Price, each..... 62c

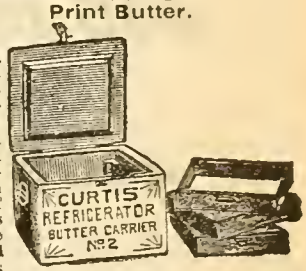
Curtis' Shipping Box for Print Butter.



This shipping box is made with two dead air spaces aroond the box, doing away with the can of ice and water in center of the box that causes such a muss when tipped partly over by careless shippers, often injuring the sale of butter. **The boxes are made in the most substantial manner,** the trays being dovetailed together, and all inside work being of white wood, which is free from taint or smell. **Chest handles are put on the ends** for convenience in handling. A shipping box will many times **pay for itself** in three or four shippings.

WE FURNISH THIS ACME TROPIC WARM AIR HOUSE FURNACE

Complete with casing as shown, and at prices unheard of in the furnace business heretofore.

WHILE OUR PRICES OF $47.70 TO $79.20

According to size, are for the furnace as shown. We can furnish at special request any fittings, such as wall pipes, round pipes, elbows, floor registers, etc., in fact everything needed to install your furnace in your house, and at prices heretofore unheard of.

THESE ARE NOT CHEAP DIRECT DRAFT FURNACES, BUT ARE COMPLETE WITH CIRCULAR FLUE AND LARGE COMBUSTION DOME OVER FIRE POT.

WRITE FOR SPECIAL INFORMATION.

DEPARTMENT OF STOVES

We call attention to our complete Department of Strictly High Grade Cast Iron Stoves, Ranges and Heaters, Steel Ranges, Air Tight Heaters, Gasoline and Oil Stoves at prices lower than we have ever named before, prices much lower than you will find quoted by any other concern.

OUR NEW LINES FOR THIS SEASON include the new Improved Mississippi Valley line for soft coal or wood, shipped from our new foundry on the upper Mississippi River, for the convenience of our trade west, northwest and southwest of Chicago. The very latest thing in cast iron stoves, made from patterns that are new for this season, and offered at about half the price charged by other manufacturers. Our line for this season also includes a number of cook stoves from entirely new patterns, stoves molded from patterns that were made under contract for us, embracing the good qualities of all strictly high grade stoves, with the defects of none.

OUR STEEL RANGE LINE IS OFFERED TO YOU AS THE HIGHEST GRADE WORK ON THE MARKET.

RANGES COMBINING THE GOOD QUALITIES OF ALL OTHER STEEL RANGES WITH THE DEFECTS OF NONE, and the price is based on the actual cost of material and labor, with but our one small percentage of profit added. Prices so low you can save from 25 to 50 per cent by placing your order in our hands.

HOW WE MAKE THE PRICES SO LOW: We are able to name a price on any stove we show direct to the user, which is considerably less than dealers can buy same grade of stoves in larger quantities. This is made possible by reason of our contracting with several of the best makers in the country for the entire product of their foundry, having the goods made up during the dull summer and early fall season, figuring the cost on a basis of the raw material, the labor, etc., and charging but one small percentage of profit, which results in our being able to deliver stoves to your door at prices, quality considered, heretofore unknown.

OUR BINDING GUARANTEE GOES WITH EVERY STOVE certifying that the stove is perfect in manufacture, perfect in operation, and unequaled by any other stove or range of its class for convenience, completeness, durability, economy in the consumption of fuel, and in the practical results that may be obtained by its use. That it is perfectly adapted to the fuel, and for the purpose for which it is made. That any defects in material or workmanship will be made good to purchaser without charge.

WHAT THE FREIGHT AMOUNTS TO. The freight charges you will have to pay on any stove or range will amount to next to nothing, as compared with what you will save in price. All stoves are accepted by railroad companies at third class freight rate, and by referring to freight classification in front of book, you will see just what the third class freight rate is to different points in every state in the Union, and under the description of every stove we give the weight of the different size stoves, and in this way you can calculate very closely what freight will amount to to your place. For example, you will find third class rates from Chicago to Alabama is from 75 cents to $1.03 per hundred pounds, and if a stove weighs 200 pounds, the freight rate from Chicago to Alabama will be from $1.50 to $2.06. To all points in Canada, third class freight rate is 55 cents, and the freight on stove weighing 200 pounds would be $1.10. To a point in Indiana the freight on a stove weighing 200 pounds, you will observe, will be from 40 to 50 cents; to Iowa, 58 to 90 cents; to Maine, $1.10 to $1.28. A 200-pound stove to any point in Massachusetts, $1.10. To a far distant point, like New Mexico, the freight on a stove weighing 200 pounds would be from $2.74 to $4.14. From this you can calculate, almost to a penny, what the freight rate will be to your place, and you will see it will add next to nothing to the cost, as compared with what you would be compelled to pay elsewhere.

OUR ACME LINE OF STOVES AND RANGES embody more distinct and original features of merit than are to be found in all other makes combined, and every Acme Stove is made of materials of the highest quality, fashioned by expert mechanics.

OUR GUARANTEE AGAINST BREAKAGE. So confident are we of the quality of the goods we offer and that they will invariably reach you in the same perfect condition they leave us, that we make this most liberal offer: Should any stove arrive badly damaged—such as any piece or part broken—you can pay the freight bill, have the agent note the condition of the stove on the freight bill, showing what part or parts are broken and then send the freight bill to us and we will immediately send you, free of charge, new castings to replace broken ones.

All stoves and ranges will be shipped from our factories to save you freight and secure prompt delivery to you.

OUR LIBERAL C. O. D. SUBJECT TO EXAMINATION OFFER.

WHILE ALL OUR CUSTOMERS SEND CASH IN FULL with their orders, and we advise everyone to do this in order to save delays and the express charges of from 25 to 50 cents for collection and return of the money to us, we will on receipt of $1.00, ship any stove to any point east of the Missouri river and north of Tennessee, or on receipt of $5.00, ship any stove to other points east of the Rocky Mountains and south of Kentucky, by freight, C. O. D. subject to examination. You can examine it at your freight depot, and if found perfectly satisfactory, exactly as represented then pay the agent our price and charges for collection and return of money, take the bill of lading from the express agent to the freight agent, pay the freight and the stove is yours.

UNDERSTAND, if you send cash in full with your order you save the express company's charge of 25 to 50 cents for collection and return of the money to us, also remember we guarantee the stove to reach you in perfect condition, guarantee it to satisfy you in every way, or it can be returned to us at our expense of freight charges both ways and we will immediately return you your money.

WE GUARANTEE the stove to reach you in perfect condition, guarantee it to satisfy you in every way, guarantee to give you such value as you could not possibly get elsewhere, and if we fail in any one of these conditions you can return the stove to us at our expense of freight charges both ways and we will immediately return your money.

READ OUR DESCRIPTIONS CAREFULLY. In comparing our prices with those of other concerns, note carefully the size, the height and the weight. Many concerns quote stove prices that look attractive, but if you examine carefully the measurements and the weight you will find that the goods are skimped somewhere. Remember also that our stoves are exactly as described In every detail, and when we say a stove weighs 420 pounds we do not mean that it weighs 415 pounds or 410 pounds.

IF YOU ARE IN THE MARKET for stoves of any kind, a stove, range, heater, anything in this department, you cannot afford to send your order elsewhere. We can save you so much money in this department, give you such high grade goods at such low prices, such satisfactory service in every way, that purely in your own interest you must send your order to us. All stoves and ranges will be shipped from our factories to save you freight and secure prompt delivery to you.

CHEAP FREIGHT WEST. If you live west, northwest or southwest of Chicago, give careful attention to our celebrated Mississippi Valley line of stoves and ranges, shown on pages 806 to 809, which we ship from our new foundry on the upper Mississippi. This foundry has been added to our enormous stove business to supply our Western friends at less freight than from elsewhere and to secure more prompt delivery to them of these fine goods.

CHEAP FREIGHT EAST. If you live east of Chicago, give careful attention to our old reliable Ohio line, which we ship from our foundry in Central Ohio, giving everybody east and southeast of Chicago the benefit of less freight and more prompt delivery than if shipped from Chicago.

WE RECOGNIZE NO COMPETITION ON STOVES. Operating as we do, taking the entire product of several of the best and largest foundries in this country, that work under the most economical conditions, with the latest type of automatic labor saving machinery, with no selling expenses, such as traveling men, advertising, clerical help, etc., incident to stoves sold in the regular way to dealers, buying the raw material to the best advantage in the largest quantities, with absolutely the minimum of handling expense, we can make prices on the highest grades of stoves that include absolutely nothing but one small percentage of profit above the actual manufacturing cost, prices against which competition is powerless.

ABOUT STOVE REPAIRS. PLEASE READ FULL EXPLANATION ON PAGE 803.

OUR ACME STEEL RANGES AT $17.60 TO $29.20

DELIVERED ON THE CARS AT OUR FOUNDRY IN CENTRAL OHIO.

THE ACME REGAL STEEL RANGES ARE THE LATEST DESIGNS, improved in all points of construction, far surpassing any we have ever made before, and are thoroughly up to date 1902 patterns. NOTHING IN THE MARKET CAN COMPARE WITH THEM FOR BEAUTY, ELEGANCE AND EFFICIENCY IN OPERATION. In improving the design of these ranges for 1902, we have changed the name to Acme Regal to distinguish them from the other popular, successful patterns of steel ranges sold by us in 1901, to indicate the added elegance, increased durability, thorough efficiency and all the new improvements we have given it to make the name Acme Regal a household word throughout this country, a comfort to the user, the pride of the housewife and the terror of all competition. Having sold 10,000 steel ranges during last year, we are now able to make our new contracts for material at lower figures, and give our customers the full benefit of the reduction in the following matchless low prices. At the request of the thousands of dealers who have been buying these goods from us, we have consented to show our factory's name on the lower front of each range, just as it appears in the illustrations, so all dealers and users may know they can always obtain repairs in future years.

BEGINNING AT $17.60 for a genuine steel range, 6-hole size with 16-inch oven, to $29.20 for an extra large range with porcelain lined reservoir, high closet and 20-inch oven, we offer such values in strictly high grade thoroughly guaranteed steel ranges as was never before shown by us or any other house. We not only issue with every Steel Range a written binding guarantee, but so confident are we of our ability to furnish you almost double the value you can get elsewhere, we will refund you the price if you report it unsatisfactory any time within 30 days.

HOW ACME STEEL RANGES ARE MADE. The Acme Steel Range is made of sheet steel which is two gauges thicker than that commonly used in steel ranges, and, to the best of our knowledge, the steel in these ranges is one gauge heavier than in any steel range manufactured by any other concern in America. Don't compare these Steel Ranges with any wrought iron ranges on the market which resemble the Acme Steel Range only in appearance.

ACME STEEL RANGES have the very best cast stove plate tops, covers, centers and fire box. Don't let anybody deceive you that any range has steel top, covers and centers. The best top to stand fire is made of cast stove plate, and all so-called steel tops are malleable castings and will not last as long as ours.

OVEN PLATES. The oven plates in the Acme Steel Ranges are wrought steel and held immovably in place by surrounding wrought steel construction. The liability of its being warped or broken from unequal expansion is therefore entirely obviated. The oven bottom is well braced and bolted, and cannot warp. The oven is also ventilated, which adds greatly to the baking and roasting qualities.

GUARANTEED ASBESTOS LINED. These ranges are lined throughout with asbestos, a fireproof material and a non-conductor. Prevents heat from radiating into room and effectually retains it in the range, insuring more comfort and more pleasantness in the kitchen and prevents the japan from being burned off the outside. It also concentrates the heat in the oven, thus economizing fuel and making the oven a quick baker.

REMOVABLE DUPLEX GRATE. With every Acme Steel Range we furnish a heavy duplex grate for either hard or soft coal or wood, so arranged that it can be changed to a wood grate instantly. The duplex grate can be drawn out of front of range without disturbing the fire linings. When an Acme Steel Range is used for wood only we furnish an extension fire box, which allows a longer stick of wood to be used in the stove; so in ordering range, do not fail to state whether it is for wood or coal or both wood and coal.

OUR RANGES are offered as the best money can buy and at prices based on the actual cost of material and labor, with but our one small percentage of profit added.

BEAR IN MIND that these prices are too low to include any cooking utensils or stove pipe. If you desire any stove furniture it must be shipped direct from our stock in Chicago, while these ranges are sent from our foundry in Central Ohio. This makes two shipments, one from our foundry and one from our store. For this reason we especially urge you to make your order for cooking utensils large enough to be profitable to you, remembering that 50 to 100 pounds will, as a rule, go by freight from Chicago for as low a freight charge as 10 pounds.

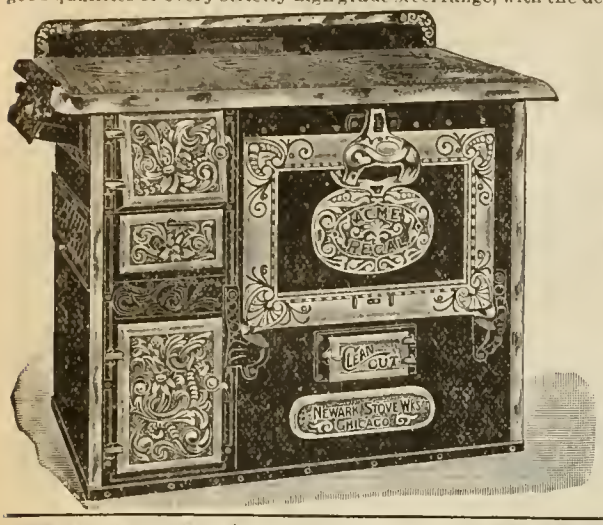
OUR $17.60 SIX-HOLE ACME REGAL STEEL RANGE FOR COAL OR WOOD.

DELIVERED ON CARS AT OUR FOUNDRY IN CENTRAL OHIO.

AT $17.60 TO $21.50 according to size, as listed below, we furnish our Acme Regal, the highest grade six-hole steel range on the market, in competition with any range you can buy elsewhere at 50 per cent more money. We furnish the **Acme Regal Steel Range**, guaranteeing it to be made of heavier sheet steel than any other stove; guaranteeing it to be asbestos lined, thus insuring you economy of fuel; guaranteeing the nickel plating to be of the highest grade; guaranteeing the stove to possess all the good qualities of every strictly high grade steel range, with the defects of none.

THE RANGE IS HIGHLY NICKEL PLATED THROUGHOUT. Nickel bands on front edges of top of stove, on oven door frame, nickel panel on oven door; nickel clean out door, fire door, ash door, and nickel removable grate front, all highly finished, polished and nickeled, and we believe is the handsomest range on the market.

THE OVEN OPENING is the same size as the oven bottom, thus allowing as large a baking pan to enter as the oven will receive.



THE MAIN TOP, COVERS AND CENTERS are made of the very finest cast stove plate, from the purest pig iron, and not to be confused with malleable top ranges, sometimes called "steel," to deceive.

THIS STOVE IS HIGHLY ENAMELED with the very best quality locomotive black, has highest grade removable duplex grate, for either coal or wood, or both. We guarantee it to bake quicker, consume less fuel, give better service, and that you will find it the handsomest range on the market, regardless of price.

OUR ACME REGAL STEEL RANGES have been manufactured with a view to furnish our customers the handsomest, most economical, most durable and in every way the highest grade range possible to produce, and with a view of giving them the benefit of the reduced cost to manufacture where large quantities are turned out on a spot cash basis, and on this basis we quote our prices of $17.60 to $21.50 on the sizes listed. If you don't find, when you get the range, that you have saved from $10.00 to $15.00 in price, you are at liberty to return range to us and we will cheerfully refund the money.

WE FURNISH THIS SIX-HOLE ACME REGAL RANGE AT $17.60 TO $21.50 in the sizes and dimensions listed below. Prices do not include pipe or cooking utensils. SEE PAGE 801 FOR OUR LIBERAL $1.00 TO $5.00 C. O. D. SUBJECT TO EXAMINATION OFFER. Delivered on cars at our foundry in Central Ohio.

OUR $19.58 TO $23.59 HIGH SHELF SIX-HOLE ACME REGAL STEEL RANGE

FOR COAL OR WOOD. Delivered on Cars at our Foundry in Central Ohio.

AT $19.58 TO $23.59 according to size, we furnish this Acme Regal six-hole steel range with high shelf, as illustrated, and invite the closest comparison in every little detail on this range with that of any range offered by any other dealer at within 50 per cent of the price.

THE MAIN TOP, COVERS AND CENTERS are made of the finest cast stove plate, from the purest pig iron, and not to be confused with malleable top ranges, sometimes called "steel" to deceive.

THIS IS EXACTLY THE SAME STOVE as one previously illustrated at $17.60 to $21.50 under Nos. 22TX11 to 22TX16, with the addition of the high shelf, and at the slight difference in cost, we would recommend that you order the high shelf range. It is nickel plated throughout, exactly the same as No. 22TX11, lined throughout with asbestos, made from the same extra heavy steel plate, covered by the same binding guarantee, and we offer it to you at the heretofore unheard of price of $19.58 to $23.59. It is the most durable, convenient, economical and handsome steel range on the market.

AT THE PRICES NAMED we furnish this range in the sizes and dimensions below. Prices do not include pipe or cooking utensils. SEE PAGE 801 FOR OUR LIBERAL $1.00 TO $5.00 C. O. D. SUBJECT TO EXAMINATION OFFER. Delivered on cars at our foundry in Central Ohio.

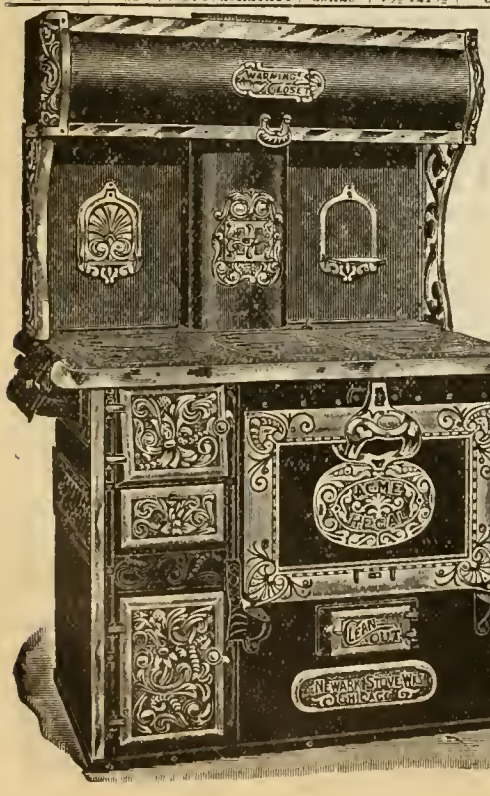
WE CAN ALWAYS FURNISH REPAIRS FOR ACMES. SEE PAGE 803 ABOUT STOVE REPAIRS.



OUR $21.32 HIGH CLOSET 6-HOLE ACME REGAL STEEL RANGE.

FOR COAL OR WOOD.

Delivered on cars at our Foundry in Central Ohio.

AT $21.32 TO $25.35 according to size, as listed below, we offer you this High Closet, Six-Hole Acme Regal Steel Range in competition with ranges that sell at almost double the price.

THIS IS EXACTLY THE SAME RANGE as the one previously listed at $17.60 to $21.50 under Nos. 22TX11 to 22TX16, with the addition of the high closet. As you will see by the illustration, the closet is highly ornamented, with nickel bands and nickel trimmings. It has latest patent roll top, same as roll top desks are made, and at the slight difference in the cost, you will find the addition of a warming closet a very good investment.

THE MAIN TOP, COVERS AND CENTERS are made of the finest stove plate, from the purest pig iron, and not to be confused with malleable top ranges, sometimes called "steel" to deceive. At the prices named we furnish this range in the sizes and dimensions below. Prices do not include pipe or cooking utensils. SEE PAGE 801 FOR OUR $1.00 TO $5.00 C. O. D. SUBJECT TO EXAMINATION OFFER. Delivered on cars at our foundry in Central Ohio.

Water Fronts for Acme Regal Ranges, each..... $2.50

Water fronts are used only where there is a water supply furnished with constant pressure through pipes—which can only be obtained in towns and cities having water works, or from an elevated pressure tank.

BEAR IN MIND that prices are without cooking utensils or stove pipe. If you desire any stove furniture it must be shipped direct from our stock in Chicago, while these ranges are sent from our foundry in Central Ohio. This makes two shipments, one from our foundry and one from our store. For this reason, we especially urge you to make your order for cooking utensils large enough to be profitable to you, remembering that 50 to 100 pounds will, as a rule, go by freight from Chicago for as low a freight charge as 10 pounds.

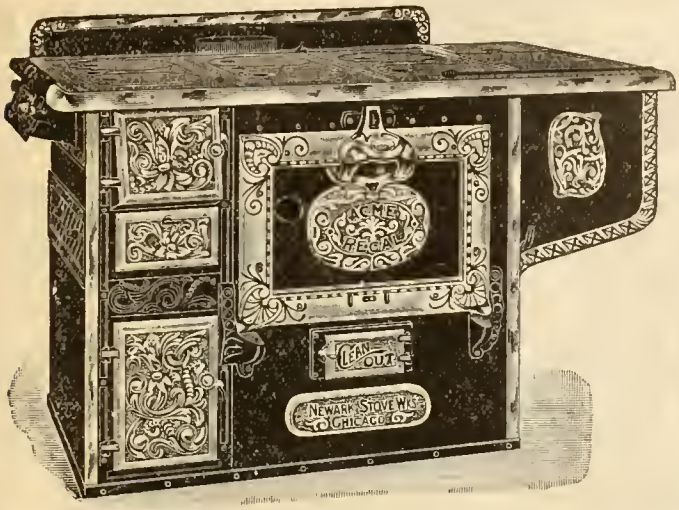
OUR 6-HOLE RESERVOIR $20.90 ACME REGAL STEEL RANGE

FOR COAL OR WOOD.

Delivered on Board Cars at our Foundry in Central Ohio.

AT $20.90 TO $25.29 we offer this large 6-hole Acme Regal Steel Range, with porcelain lined reservoir, with all the nickel trimmings, all the improvements and the patent features, the finish, with all the guarantees that have been named on all Acme ranges previously described.

WE GUARANTEE THE SIZES WE NAME. Do not take it for granted that stoves marked the same size as ours are actually the same size. In measuring ovens, we measure the actual size of the oven bottom. When you order a range from us, you get exactly the size range that you see illustrated, exactly the same size that we specify, and if you find that any steel range you order from us differs in the slightest degree from the illustration, from the description or from the guarantee, you are at liberty to return it AND WE WILL CHEERFULLY REFUND YOUR MONEY.



THIS RANGE DIFFERS FROM THOSE PREVIOUSLY DESCRIBED ONLY IN THAT THIS RANGE HAS RESERVOIR, AS ILLUSTRATED.

THE MAIN TOP, covers and centers, are made of the very finest cast stove plate from the purest pig iron, and not to be confused with malleable top ranges, sometimes called "steel" to deceive.

THIS RANGE is nickel trimmed throughout, same as those previously described, contains every good quality of every high grade range with the defects of none, and is offered at the lowest price ever before heard of for a high grade range—is the best range possible to build.

OUR SPECIAL PRICE . . . . $20.90 TO $25.29 FOR THE SIZES LISTED BELOW.

PRICES DO NOT INCLUDE PIPE OR COOKING UTENSILS. SEE PAGES 778 TO 790.

OUR BINDING GUARANTEE.

WITH EVERY STEEL RANGE WE SELL WE ISSUE A WRITTEN BINDING GUARANTEE, by the terms and conditions of which if any piece or part gives out BY REASON OF DEFECT IN MATERIAL OR WORKMANSHIP, WE WILL

REPLACE IT FREE OF CHARGE:

FURTHER, THAT IT IS STRICTLY HIGH GRADE, EXACTLY AS REPRESENTED, AND SHALL PROVE PERFECTLY SATISFACTORY, OR WE WILL REFUND ALL MONEY PAID US.

OUR RANGES are offered as the best money can buy and at prices based on the actual cost of material and labor, with but our one small percentage of profit added.

BEAR IN MIND that these prices are too low to include any cooking utensils or stove pipe. If you desire any stove furniture it must be shipped direct from our stock in Chicago, while these ranges are sent from our foundry in Central Ohio. This makes two shipments, one from our foundry and one from our store. For this reason we especially urge you to make your order for cooking utensils large enough to be profitable to you, remembering that 50 to 100 pounds will, as a rule, go by freight from Chicago, for as low a freight charge as 10 pounds.

STOVE REPAIRS.

PLEASE NOTICE. We can always furnish repairs for Acmes. In ordering repairs for stoves, it is very important to give your purchase Invoice Number or the most complete and explicit information possible. By strictly adhering to the following rules, a great deal of annoyance, expense and delay may be averted.

1st. State whether stove is for coal only, for wood only, or a combined wood and coal burning construction.
2d. If cook stove or range, say if square top or with reservoir.
3d. The back of the stove is at the pipe collar. Stand facing the hearth on a cook stove or facing the oven door of a range.
4th. Give full number. In many instances the same size of griddle holes are placed on different stove bodies, namely, 7-18, 8-18, 8-20 or 9-20, etc., and the single No. 7, 8 or 9 in this instance would be no indication of the correct size of the stove.
5th. Be particular to furnish all dates of patents.
6th. When legs are desired, say if stove is supplied with legs only or on leg base.
7th. Give name of stove in full. A strict observance of these directions will be mutually advantageous.

OUR ACME REGAL STEEL RANGE AT $24.64 TO $29.20.

DELIVERED ON CARS AT OUR FOUNDRY IN CENTRAL OHIO.

FOR COAL OR WOOD

This Acme Regal 6-hole, high closet reservoir steel range, at $24.64 to $29.20, weighing 485 to 515 pounds, according to size, is our

SPECIAL LEADER

We show you this stove with

A LARGE ILLUSTRATION

to give you a better idea of its appearance, and to show you it is the handsomest, best and greatest value ever before offered by us or any other house.

THIS IS THE POPULAR STYLE

THE GREATEST VALUE AND OUR SPECIAL LEADER;

highly nickel plated and ornamented throughout, as previously described, with nickel plated bands, shields, doors, trimmings, etc. Highly burnished and polished. Contains every good feature of every

HIGH GRADE RANGE

made, with the defects of none. Heavier steel plate, better lining, better interlining, better construction, better trimmings, more economical and far more handsome than any other range on the market.

THE MAIN TOP, COVERS and centers are made of the very finest cast stove plate, from the purest pig iron and not to be confused with malleable top ranges sometimes called "steel" to deceive.

$24.64 TO $29.20

At the request of the thousands of dealers who have been buying these ranges from us, we have consented to show our factory's name on the lower front of each range, so all dealers and users may know they can always obtain repairs in future years.

WE CAN ALWAYS FURNISH REPAIRS FOR ACMES. SEE PAGE 803 ABOUT HOW TO ORDER STOVE REPAIRS.

DELIVERED ON THE CARS AT OUR CENTRAL OHIO FOUNDRY.

PRICES DO NOT INCLUDE PIPE OR COOKING UTENSILS. SEE PAGES 778 TO 790.

Our New 1903 Design of these Ranges will be called "ACME HUMMER."

$19.77 NEW 1902 ACME WINNER STEEL RANGE

With Reservoir and High Closet, as Illustrated.

$17.13 for the Square Range without Reservoir, but with High Closet; $16.47 with Reservoir, but without High Closet; $14.27 for the Square Range without High Closet; $19.77 for the Range exactly as illustrated hereon, complete with Porcelain Lined Reservoir and Closet. These prices are prices based on the actual cost of material and labor, with but our one small percentage of profit added, LESS THAN SUCH A RANGE WAS EVER BEFORE SOLD, less than any dealer can buy the same grade of steel range in carload lots. This new 1902 Acme Winner Steel Range has been gotten out especially for us to meet the demands of people who require a thoroughly reliable range of somewhat lighter weight and lighter construction at a lower price than our higher grade, the Acme Regal Range. So many high closet reservoir steel ranges have been advertised at prices ranging from $20.00 to $30.00, and we have been asked so many times to meet this competition and quote lower prices, that we have been induced to get out the **1902 Winner** as a range infinitely better than any of these cheap advertised ranges, a range we can guarantee in every way, and yet one that can be built at a lower cost than our Acme Regal line.

OUR ACME REGAL STEEL RANGE, as illustrated and described on the preceding page, in the 8-17 size, with reservoir and high closet, has been priced at $24.64 by reason of the present market conditions of iron and steel, and the difference between our special $19.77 price for this new Acme Winner Steel Range and our special $24.64 price for the Acme Regal, represents the exact difference in cost of material and labor. **WHILE THE ACME REGAL IS THE HIGHEST OF HIGH GRADE, the equal of any steel range,** made of extra heavy stock, highly finished and heavily nickel plated, this, our **$19.77 Winner,** is made of lighter steel, lighter construction throughout. We have saved by using lighter trimmings, less nickel in the finish, and still give our customers a thoroughly reliable steel range, a range large enough to give excellent service, a range we can put out under our binding guarantee as worth a dozen of the cheap so called steel ranges so widely advertised at $20.00 to $30.00, **such a range as was never before offered by us or any other house.**

THE MAIN TOP, COVERS AND CENTERS are made of the very finest cast stove plate, from the purest pig iron, and are not to be confused with malleable top ranges, sometimes called "steel" to deceive.

THE BODY OF THIS RANGE is made from carefully selected cold rolled sheet steel, strongly put together with wrought rivets and bands, reinforced at every part. Shelf and closet are also made of cold rolled sheet steel, shaped and handsomely finished. **The range is asbestos lined, nicely nickel plated hands and brackets on high closet, nickeled tea pot shelves,** nickel bands on front edges of top of stove, nickel frame and panel on oven door, nickel clean out door. **All highly polished and nickeled.**

THE OVEN OPENING IS THE SAME SIZE AS THE OVEN BOTTOM, thus allowing as large a baking pan to enter as the oven will receive. The stove is handsomely enameled with the very best quality locomotive black, and has highest grade **Duplex Grate** for burning either coal or wood. It has latest patent roll top closet, same as roll top desks are made, and at the slight difference in cost you will find the addition of a warming closet a very good investment.

THIS STOVE IS No. 8-18. The oven, 18x20x13 inches. Has six No. 8 cooking holes. Top cooking surface with reservoir extension is 46x28 inches. Height from floor to main top, 28 inches. Distance from main top to top of high closet, 26¼ inches. Total height, including closet, 54½ inches. Length of fire box for wood, 20 inches. **Has a spring balanced drop oven door. Operation of stove is guaranteed.**

TO BE ABLE TO MAKE THESE LOW PRICES we can only offer this range delivered on cars at our Central Ohio foundry. If you live west of Chicago the freight will be about 30 cents per 100 pounds more than from Chicago. If you live east or south of Chicago the freight will cost you less than from Chicago.

PRICE AS SHOWN, DELIVERED ON THE CARS AT OUR FOUNDRY IN CENTRAL OHIO $19.77

SEE PAGE 801 FOR OUR LIBERAL $1.00 TO $5.00 C. O. D., SUBJECT TO EXAMINATION OFFER.

Prices do not include pipe or cooking utensils. See pages 778 to 790.

No. 22TX70 **Price for Square Top Range,** without high closet or reservoir. Weight, 239 pounds..... $14.27
No. 22TX71 **Price for Reservoir Range,** without high closet. Weight, 279 pounds..... 16.47
No. 22TX72 **Price for Square Top Range,** with high closet. Weight, 282 pounds..... 17.13

$13.20 OUR NEW 1902 STEEL COOK STOVE

Delivered on Board the Cars at our Foundry in Central Ohio.

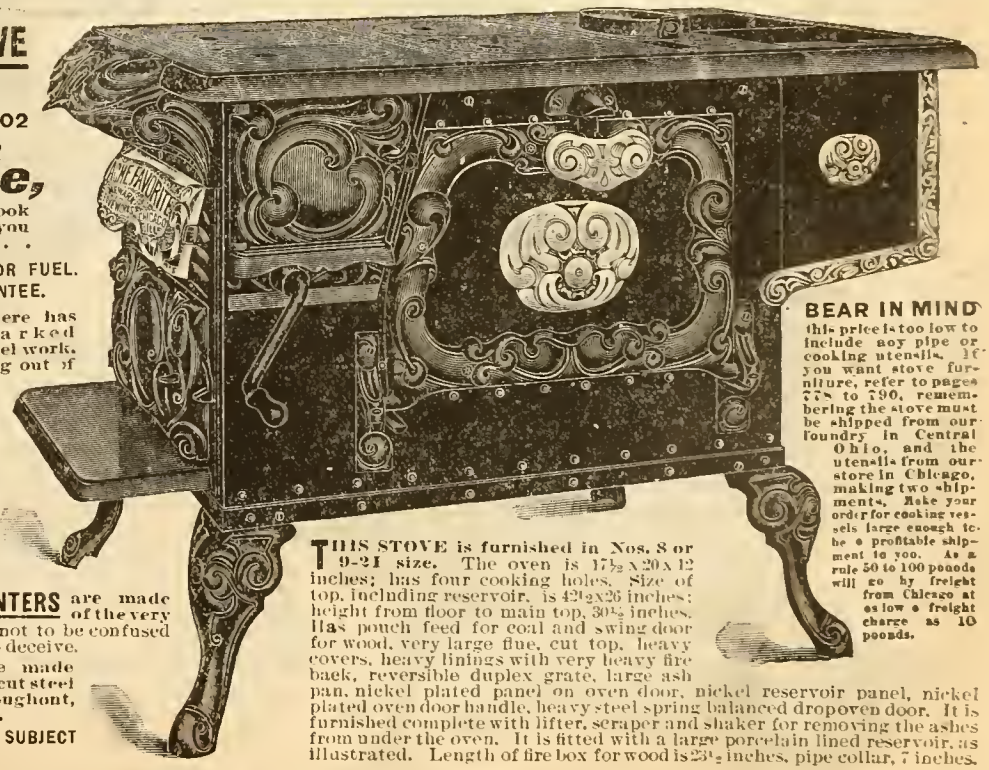
FOR $13.20 WE OFFER OUR NEW 1902 STEEL COOK STOVE,

The Acme Favorite,

as the very latest and highest grade steel cook stove made, the equal of any steel cook stove you can buy elsewhere at double the price . . . . .

BURNS HARD COAL, SOFT COAL, COKE OR ANYTHING FOR FUEL.
EVERY STOVE IS PUT OUT UNDER OUR BINDING GUARANTEE.

HOW WE MAKE THE PRICE $13.20. Recently there has been a marked change in the price of pig iron, sheet steel and nickel work. New machinery has been invented for the stamping out of the sheet steel parts that go to make up these new steel cook stoves, and by contracting with the manufacturer for his entire output of high grade steel cook stoves, we were able to place a very large order for steel, iron and other material at a very favorable price. Utilizing the most modern machinery for the stamping, cutting, making and shaping of the parts that go into this stove, we have been able to reduce the cost of construction, and on the basis of the cost of material and labor, with the factory running at full capacity the year around, adding our one small percentage of profit, we make you the astonishingly low price of only..... **$13.20**



THE MAIN FRONT, MAIN TOP, COVERS AND CENTERS are made of the very finest cast stove plate, from the purest pig iron, and not to be confused with malleable top ranges sometimes called "steel" to deceive.

THE OVEN PLATES AND BODY of the stove are made from extra heavy cut steel plate, riveted with wrought rivets, reinforced throughout, and the main front is the very finest cast stove plate.

SEE PAGE 801 FOR OUR LIBERAL $1.00 TO $5.00 C. O. D., SUBJECT TO EXAMINATION OFFER.

BEAR IN MIND this price is too low to include any pipe or cooking utensils. If you want stove furniture, refer to pages 778 to 790, remembering the stove must be shipped from our foundry in Central Ohio, and the utensils from our store in Chicago, making two shipments. Make your order for cooking vessels large enough to be a profitable shipment to you. As a rule 50 to 100 pounds will go by freight from Chicago at as low a freight charge as 10 pounds.

THIS STOVE is furnished in Nos. 8 or 9-21 size. The oven is 17½ x 20 x 12 inches; has four cooking holes. Size of top, including reservoir, is 42½x26 inches; height from floor to main top, 30½ inches. Has pouch feed for coal and swing door for wood, very large flue, cut top, heavy covers, heavy linings with very heavy fire back, reversible duplex grate, large ash pan, nickel plated panel on oven door, nickel reservoir panel, nickel plated oven door handle, heavy steel spring balanced dropoven door. It is furnished complete with lifter, scraper and shaker for removing the ashes from under the oven. It is fitted with a large porcelain lined reservoir, as illustrated. Length of fire box for wood is 23½ inches, pipe collar, 7 inches.

SHIPPING WEIGHT, 330 POUNDS.

PRICES DO NOT INCLUDE PIPE OR COOKING UTENSILS. SEE PAGES 778 TO 790.

No. 22TX90 Price, No. 8-21 with reservoir..... $13.20 | No. 22TX91 Price, No. 9-21 with reservoir..... $14.30

If desired without reservoir, deduct $1.00 from either size.

WE CAN ALWAYS FURNISH REPAIRS FOR ACMES. SEE PAGE 803 ABOUT HOW TO ORDER STOVE REPAIRS.

OUR MISSISSIPPI VALLEY LINE OF STOVES AND RANGES.

IF YOU LIVE WEST, NORTHWEST OR SOUTHWEST OF CHICAGO,

and especially if you live west of the Mississippi River, make your selection from these high class, perfectly made stoves and ranges. Each and every one of them is made from the purest pig iron, cast by expert molders, mounted by skilled mechanics, and trimmed with our unsurpassed silver nickeling. An entirely new line added to our former immense production, especially for the benefit of OUR FRIENDS IN THE WEST. We save you freight and sell you a stove or range made especially for the soft coal of the west, or for wood only, as you may require.

DELIVERED ON CARS AT OUR FOUNDRY ON THE UPPER MISSISSIPPI,

saving you freight if you live west of Chicago or west of the Mississippi River, and securing prompt delivery without the usual railroad delays from larger cities. This is one of the many reasons why we can make the prices so low, as we leave out the freight to Chicago and the hauling and handling into and out of our store. It enables us to quote you a price direct from the factory that barely covers the cost of material and labor, with but our one small percentage of profit added, a price only made possible by reason of eliminating all the handling expenses and shipping direct from the factory.

Under the various illustrations in the various sizes and the various styles, we will illustrate, describe and quote the finest line of cooking ranges that has ever been placed on the western market by any maker, and at prices that simply defy any attempt at competition.

Our Mississippi Valley line of Acmes is entirely new for this season, strictly up to date in every particular. This entire line of 1902-3 model Acmes has been made for us from our own new exclusive patterns, with a view to combine the good qualities of every strictly high grade stove on the market, with the defects of none.

The large ovens, the elaborate ornamentations, the handsome designs, the elaborate trimmings and linings, the beautiful finish, the general graceful outlines, the large proportions, the guaranteed durability and all will commend the Mississippi Valley line over all others in the west.

We have revolutionized prices in offering our Mississippi Valley line at $4.32 and up, and while we guarantee these goods the equal of any line that will be shown by any maker, regardless of price, you will find our price from 25 to 33⅓ per cent less than any dealer can buy similar goods at wholesale in carload lots, and at about one half the price charged by retail dealers.

The various Acme illustrations shown are engraved from photographs taken from the stove direct, and while they will give you the correct idea of the beautiful outline, ornamentations and general design, it is yet impossible to do justice to these artistic goods in the plain black and white pictures. They must be seen to be fully appreciated. All but the Acme Star are generously trimmed with nickel, highly ornamented and finished, producing, we believe, the most beautiful effect of any ever seen on the market.

Acmes will be found the most economical cast iron stoves made in the consumption of fuel, and especially in baking, as the flues are constructed in such a manner as to convey all heat over all parts of the oven bottom, and the oven is thoroughly ventilated.

HOW WE MAKE THE PRICE SO LOW.

When you buy an Acme from us, you are getting it direct from the foundry, on the basis of the actual cost of material and labor only, manufactured in lots of several thousand at a time. You pay no wholesalers' profit, no brokers' profit, no retailers' profit. In fact, nothing in the way of traveling salesmen, office expense, storage, handling, allowance for bad debts, etc., is charged up against these goods.

Our prices to you on the Mississippi Valley lines are much lower than dealers can buy in quantities. Do not blame your retail dealer if he asks you $25.00 to $45.00 for the same range we sell at from $18.20 to $20.40. He is selling you the stove as cheaply as he can; he must add a liberal profit, he must pay two or three profits when he buys the stove. All the chain of common trading expense has been charged up to the stove, and you must pay the penalty when you buy it. We save you all this, and furnish you a range with our own written binding guarantee, guaranteeing you such value as was never before offered by us or any other house, such a stove as you have seldom, if ever, seen in your section; stoves that cannot be found in department stores; such a line of stoves as is advertised by no other mail order house, the equal of the very finest goods on the market, carried and sold in large towns exclusively by the hardware stores at fancy prices.

Do not let the question of freight deter you from ordering. Weights are given under each description. Stoves are taken by railroad companies at third class freight rate. You can find what the actual third class freight rate will be to several towns in your state by referring to freight classification in front of book; calculate almost to a penny what the freight will be on a stove to your town. You will find it will amount to next to nothing as compared with what you will save in price, besides your local merchant must naturally pay the exact same freight as you pay. The railroad company makes no discrimination between the consumer and the dealer.

Prices do not include stove pipes and utensils. A complete line of stove furnishings and household goods may be selected from our catalogue, if needed. Bear in mind, these stoves go direct to you from our foundry on the Upper Mississippi, and the stove furniture from our store in Chicago, making two shipments. Make your order for cooking utensils large enough to be a profitable shipment for you. As a rule 50 to 100 pounds will go by freight from Chicago at as low freight charge as 10 pounds. Our kitchen assortments have been very popular, and we show a greater variety than can be found elsewhere.

ALL ESTABLISHED PRICES HAVE BEEN UTTERLY DEMOLISHED.

It has been the custom of all makers of high grades of stoves and ranges to maintain fancy prices on their best line, and by means of combinations, trusts, pools, etc., they have, as a rule, been able to sell their leading line at exorbitant prices—prices not based in any way on cost of production. But the introduction of the Mississippi Valley line, with all the latest improvements, all the good points of all high grade stoves, on the basis of actual cost of material and labor, has created the greatest sensation among manufacturers of high grade stoves. We are sure they will advertise this line far and wide.

OUR ACME STAR COOK STOVE. WITHOUT RESERVOIR.

FOR BURNING WOOD ONLY.

ESPECIALLY ADAPTED TO THE SOUTHERN TRADE.

This wood burning cook stove without reservoir, offered at $4.32 to $7.09, according to size, delivered on cars at our Mississippi Valley foundry, is the equal of stoves that retail generally at $10.00 to $17.00.

Burns wood only. This is a thoroughly serviceable stove that will work as satisfactorily as those which cost more money. In construction it is strictly first class, has heavy covers and centers and durable fire box. It is perfectly plain, without nickeling. Each stove is furnished with a lifter, and rake for cleaning ashes from under the oven.

At our special prices, $4.32 to $7.09, we furnish this stove in any of the sizes as listed below, delivered on the cars at our foundry on the Upper Mississippi. Prices do not include pipe or cooking utensils. See pages 778 to 790.

SEE PAGE 801 FOR OUR LIBERAL $1.00 TO $5.00 C. O. D. SUBJECT TO EXAMINATION OFFER.

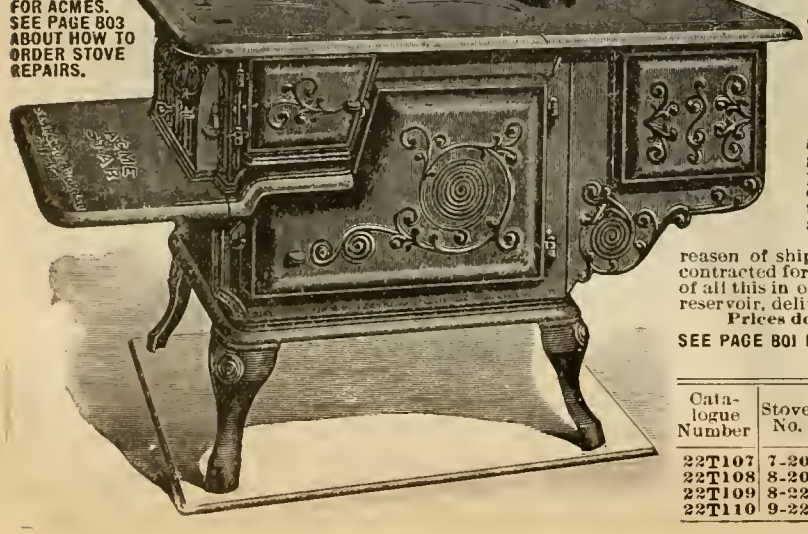
WE CAN ALWAYS FURNISH REPAIRS FOR ACMES. SEE PAGE 803 ABOUT HOW TO ORDER STOVE REPAIRS.



OUR ACME STAR COOK STOVE. WITH RESERVOIR.

FOR BURNING WOOD ONLY.

ESPECIALLY ADAPTED TO THE SOUTHERN TRADE.

We guarantee it equal to stoves that will sell everywhere at 33⅓ to 50 per cent more money. For a wood stove that can be thoroughly guaranteed, and that is covered by our binding guarantee, and complete with a large enameled reservoir, we believe you will agree that $8.19, delivered on cars at our Mississippi Valley foundry, brings the price down to the actual cost of material and labor, with but our one small percentage of profit added.

We are able to make this extraordinary offer of $8.19 only by reason of shipping them from the factory, saving handling in Chicago, and having contracted for these stoves in immense quantities. We give our customers the benefit of all this in our heretofore unheard of $8.19 to $9.50 prices, with porcelain lined reservoir, delivered on cars at our foundry on the upper Mississippi River.

Prices do not include pipe and cooking utensils. See pages 778 to 790.

Delivered on the cars at our Mississippi Valley foundry.

If desired without reservoir, but with end shelf, deduct $2.00 from any size. If you burn coal, see the Acme Banner on next page. Same stove for coal and wood.

Prices do not include pipe or cooking utensils. See pages 778 to 790.

IF YOU LIVE WEST, NORTHWEST, OR SOUTHWEST of Chicago, and especially if you live west of the Mississippi River, make your selection from this, our celebrated Mississippi Valley line of stoves, and take advantage of the saving in freight, saving in time and saving in the price of this unsurpassed line of high grade goods. The reason we can make the price so low is that we leave out the freight to Chicago and leave out the cost of hauling and handling into and out of our store, making our price direct from factory to consumer, barely covering the cost of material and labor with our one small percentage of profit added. A price only made possible by eliminating all the handling expenses and shipping direct from the foundry.

SEE PAGE 801 FOR OUR LIBERAL $1.00 TO $5.00 C. O. D. SUBJECT TO EXAMINATION OFFER.

REMEMBER, If you require any cooking utensils or stove pipe they go from our store in Chicago, making two shipments, so make your order for stove furniture large enough to be a profitable shipment for you. Bear in mind, 50 to 100 pounds will, as a rule, go by freight from Chicago at as low a freight charge as 10 pounds.

OUR NEW 1902 MODEL

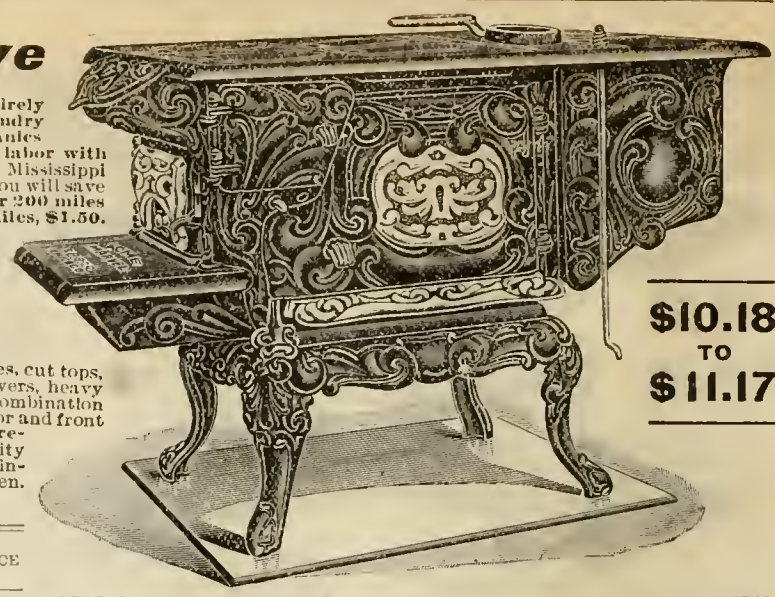
Acme Marvel Cook Stove

FOR COAL, COKE OR WOOD.

At $10.18 to $11.17. We offer the ACME MARVEL as an entirely new stove for 1902, made in our own foundry from the best material that money can buy, by the most skilled mechanics that we can employ. Our prices are only the cost of the material and labor with but our one small profit added. We ship from our foundry on the Upper Mississippi River, and the freight will amount to next to nothing as compared to what you will save in price. The stoves weigh about 210 and 236 pounds and the freight for 200 miles will be about 50 cents; 400 miles, 75 cents; 600 miles, $1.00; 1,000 miles, $1.50. Greater or lesser distances in proportion.

OUR BINDING GUARANTEE. With every stove we issue a written binding guarantee, by the terms and conditions of which if any piece or part gives out by reason of defect in material or workmanship we will replace or repair it free of charge. **WE GUARANTEE SAFE DELIVERY.** Every Acme Marvel Stove will be carefully crated, and we guarantee it to reach you in the same perfect condition it leaves us, and if upon arrival any piece or part is broken or missing, we will replace the same free of any expense to you. WE WILL ALWAYS HAVE A SUPPLY OF PARTS. If in the years to come any part breaks or gives way we will be prepared to supply you with such part on short notice. THE ACME MARVEL burns coal, coke, wood or anything for fuel.

GENERAL DESCRIPTION. The Acme Marvel is made with very large flues, cut tops, heavy cut centers supported by posts, heavy covers, heavy linings, large bailed ash pan, slide hearth plate, nickeled outside oven shelf, combination pouch and boiler door feed, oven door kicker, nickel plated panel on oven door and front door, nickel plated door knobs, aluminine lined oven door. When ashes are removed from the oven they are scraped into the hearth, avoiding all possibility of spilling the ashes on the floor when cleaning the stove. The Acme Marvel is finished with a lifter, shaker and scraper for removing the ashes from under oven.



$10.18 TO $11.17

It is fitted with a large porcelain lined reservoir, as shown in the illustration, and is furnished on a large, handsome rococo pattern base. If you do not burn coal at all, make your selection from the Acme Belle, Catalogue Nos. 22T115 to 22T117. Prices do not include pipe or cooking utensils. See pages 778 to 790. ALWAYS STATE WHICH FUEL YOU WISH TO BURN.

OUR NEW PATTERN 1902

Acme Iowa Cook Stove.

WITH PORCELAIN LINED RESERVOIR, $11.42 to $15.25.
Delivered on cars at our foundry on the Upper Mississippi River.

BURNS SOFT COAL, COKE OR WOOD.

AT $11.42 to $15.25 we offer our ACME IOWA, with porcelain lined reservoir, as one of the best cook stoves on the market, regardless of price, and equal to stoves that retail at $20.00 to $30.00.

THE ACME IOWA is made from very heavy castings, and we believe is one of the most durable stoves on the market, regardless of price. Has very large flues, cut top with heavy cut centers supported by posts, heavy covers, heavy linings, with very heavy solid combination fireback. Large bailed ash pan, slide hearth plate, outside oven shelf, oven door kicker, ornamented base, nickeled name plate on front door, nickel plated panel on oven door, Aluminine lined oven door, swing feed. The opening for removing ashes from under the oven is in the hearth, consequently no ashes are spilled on the floor when cleaning stove.

If you do not use coal at all, order from the Acme Ranger, Catalogue Nos. 22T126 to 22T133.
Price List, delivered on the cars at our Mississippi Valley foundry.
Prices do not include pipe or cooking utensils. See pages 778 to 790.

$11.42 TO $15.25

OUR

Acme Banner Cook Stove

WITH PORCELAIN LINED RESERVOIR.

FOR COAL OR WOOD.

WONDERFUL VALUE AT $13.48 TO $15.00. DELIVERED ON CARS AT OUR FOUNDRY ON THE UPPER MISSISSIPPI RIVER.

OUR 1902 ACME BANNER. Greatly improved, the Acme Banner is offered as one of the highest grade, guaranteed, coal or wood cook stoves at a price even lower than dealers can buy the same goods in carload lots. Our Acme Banner is a very large, heavy cook stove, well made and very artistically ornamented. It is especially recommended to those who wish to burn coal only, or coal and wood at different times during the year. Simply changing the grates and taking out the end linings converts it from a coal to a wood burning stove, and we furnish with every stove an extra grate for this purpose.

THE ACME BANNER has very large flues, cut top with heavy cut centers supported by posts, short centers lined, heavy covers, heavy linings, with very heavy fire back. Large bailed ash pan, slide hearth plate, nickel plated outside oven shelf, oven door kicker, ornamented base, nickel plated panel on oven door, nickel plated door knobs, nickel plated towel rod, nickel plated tea shelf, tin lined oven door, pouch feed. The opening for removing ashes from under the oven is in the hearth, consequently no ashes are spilled on the floor when cleaning the stove. Each stove is furnished with a lid lifter and shaker and scraper for removing ashes from under oven. Delivered on the cars at our Mississippi Valley foundry.

$13.48 TO $15.00

IF YOU LIVE west, northwest or southwest of Chicago, and especially if you live west of the Mississippi River, make your selections from this, our world famous Mississippi Valley line of stoves, and take advantage of the saving in freight, saving in time, and saving in the price of these unsurpassed stoves. The reason we can make the price so low: We leave out the freight to Chicago, the cost of hauling and handling in our store, making our price direct from the factory to consumer, barely covering the cost of material and labor, with our one small percentage of profit added. A price only made possible by eliminating all the handling expenses, and shipping direct from the foundry. Bear in mind, if you require any cooking utensils or stove pipe, they go from our store in Chicago, making two shipments, so make your order for stove furniture large enough to be a profitable shipment for you. Remember, 50 to 100 pounds will, as a rule, go by freight from Chicago as cheaply as 10 pounds.

SEE PAGE 801 FOR OUR LIBERAL $1.00 TO $5.00 C. O. D. SUBJECT TO EXAMINATION OFFER.

$18.20 TO $20.40

OUR ACME WESTERN COAL BURNING RANGE

AT $18.20 TO $20.40 delivered on board the cars at our foundry on the upper Mississippi river, we offer this coal burning or combination cast iron range and guarantee it equal to ranges that retail at nearly double the price. This is the exact same range as the Acme Woodland quoted below as a wood burner, with this exception, that this Acme Western range is made for coal or wood and the extra grate is furnished so it can be instantly changed from coal burner to wood burner, or vice versa. The same handsome rococo pattern, the same nickel plated trimmings throughout, the same highly finished ornamentations and decorations, the equal of any range on the market regardless of price.

OUR ACME WESTERN HIGH SHELF COAL AND WOOD RANGE, with large porcelain lined reservoir. This high shelf is ornamented with two highly polished nickel plated tea shelves, as illustrated.

ONE ACME WESTERN SELLS ANOTHER. We know if you order one of these ranges from us you will be so well pleased with it you will show it to your neighbors; tell them where you got it, what you paid for it, and in this way we will be sure to receive more orders from your neighborhood. Nothing advertises our house more than our Acme line of Stoves and Ranges. Nothing has ever gone out of our house from which we have received so many letters of praise. Customers are writing us from every state in the Union that such stoves were never before seen in their sections, and when compared with the prices charged by retail dealers, they simply wonder how it is possible to build such a stove for so little money.

YOU WILL BETTER APPRECIATE THE EXTRAORDINARY VALUES WE ARE GIVING, WHEN YOU SEE AND EXAMINE THE STOVE.

Remember our Binding Guarantee as to quality, delivery and price. See page 801 for our liberal $1.00 to $5.00 C. O. D. subject to examination offer.

Oven measurements do not include swell of oven door. Prices do not include pipe or cooking utensils. See pages 778 to 790.

Price list, delivered on the cars at our Mississippi Valley foundry.

OUR HIGH SHELF RESERVOIR WOOD BURNING ACME WOODLAND RANGE

THIS NEW ACME WOODLAND RANGE

HAS A LARGE PORCELAIN LINED RESERVOIR AND LARGE HIGH SHELF, WHICH IS HANDSOMELY FINISHED

with two fancy nickel plated teapot holders on the side. It is exactly the same as the Acme Western above illustrated, except is does not burn coal.

THIS IS A WOOD BURNING RANGE and is especially recommended to those who wish to burn wood and is a better range to buy than a combination coal and wood burner. The range has been manufactured throughout with a view of being the best wood burner possible to construct. If you order one of these Acme Woodland Ranges, sending cash in full with order and do not find it all and even more than we claim for it, and equal to any range you can buy in your local market, regardless of price, you are at liberty to return it to us and we will cheerfully refund money.

OUR ACME WOODLAND RANGE is made with the latest and handsomest rococo pattern, as illustrated, with large square oven, as shown in illustration, with all the latest and best improvements known to stove making, including the very large square oven door, and the large square oven. Has a handsomely ornamented high shelf with fancy nickel plated teapot holders, beautifully ornamented. Very highly nickel plated oven shelf, door panels, door plates, hinge pin mounting, etc. We offer this as the most economical cast iron range made for the consumption of wood, best baker, the most durable and highest grade range on the market regardless of price.

THE ILLUSTRATION does not do the range justice. As fine a finished range as you will find; equal to any range made.

Our measurements DO NOT include swell of oven door.

ABOUT THE FREIGHT. Freight amounts to nothing as compared with what you will save in price. You will observe the stove weighs 405 to 450 pounds, according to size, and, for example, stove freight rate to Omaha, 500 miles, is 45 cents per hundred, or $1.82 to $2.03 for this big stove; other distances about in proportion. Don't let the question of freight deter you from sending your order.

See page 801 for our liberal $1.00 to $5.00 C. O. D. subject to examination offer.

PRICES DO NOT INCLUDE PIPE OR COOKING UTENSILS.

SEE PAGES 778 TO 790.

IF YOU LIVE WEST, NORTHWEST OR SOUTHWEST OF CHICAGO, or especially if you live west of the Mississippi river, it will pay you to order from this, our world famous Mississippi Valley line of ranges, and take advantage of the saving in freight, saving in time on railroad and saving in price. The reason we can make the price so low, we leave out the freight to Chicago and leave out the cost of hauling and handling into and out of our store, making our price direct from factory to consumer; barely covering the cost of material and labor, with but our one small percentage of profit added; a price only made possible by eliminating all the handling expenses and shipping direct from the foundry. Remember, if you require any cooking utensils or stove pipe, they go from our store in Chicago, making two shipments, so make your order for stove furniture large enough to be a profitable shipment for you. Bear in mind, 50 to 100 pounds will, as a rule, go by freight from Chicago at as low a freight charge as 10 pounds.

OUR WORLD RENOWNED OHIO LINE OF COOK STOVES, RANGES, HEATERS, ETC.

WHICH WE SHIP DIRECT FROM OUR FOUNDRY IN CENTRAL OHIO. THIS LINE OF CAST IRON STOVES IS ENTIRELY NEW FOR THE SEASON OF 1902.

IF YOU LIVE SOUTH OR EAST OF CHICAGO make your selection from this our Old Reliable Ohio line of Acme stoves and ranges, taking advantage of the saving in freight and saving in time on the railroad. If you live south or east of Chicago, the freight will be less than from Chicago. If you live west or north of Chicago the freight will be about 30 cents per 100 pounds more than from Chicago. The reason we can make the price so low: We leave out the freight to Chicago, and leave out the cost of hauling and handling into and out of our store, making our price direct from foundry to consumer, barely covering the cost of material and labor with but our one small percentage of profit added. A price only made possible by eliminating all the handling expenses and shipping direct from the foundry. Remember, if you require any cooking utensils or stove pipe they go direct from our store in Chicago, making two shipments, so make your order for stove furniture large enough to be a profitable shipment for you. Bear in mind 50 to 100 pounds will, as a rule, go by freight from Chicago at as low freight charges as 10 pounds.

FOR 1902 our last year's models have been improved in many respects and entirely new models have been added, until we believe we show without any exception, the handsomest line of high grade 1902 cook stoves, ranges and heaters that will be shown by any dealer in America. We show a line of 348 stoves, ranges and heaters.

OUR ILLUSTRATIONS have been engraved by our artists from photographs taken direct from the stoves, with a view of assisting you in placing your order, and that you may know exactly what you will get. But if you are at all undecided as to the size of the stove wanted, from our description, you can, by measuring any part of your old stove and comparing with the dimensions given in our descriptions tell just how the stove you will get from us will compare in size with the one you now have.

WHEN YOU CONSIDER the different styles and sizes our line of stoves embraces, over 348 in number, were you to visit our place and were we to show you but one stove of a kind in the different styles and sizes as quoted in this catalogue, you would look at 348 stoves to see our entire line. In this we give you an advantage against which no house has ever attempted to compete. Other manufacturers at the very best can show you but a very small fraction of the variety from which you can select in this book. We not only give you the advantage and prices on the very latest 1902 styles, but give you a selection embracing 348 distinct stoves.

OUR GUARANTEE. With every stove we issue a binding guarantee, by the terms and conditions of which, if any part or parts give out by reason of defect in workmanship or material, we will replace it FREE OF CHARGE.

WE GUARANTEE EVERY STOVE TO REACH ITS DESTINATION IN PERFECT ORDER, AND IF THERE BE ANY BROKEN PARTS, THEY WILL BE REPLACED FREE OF CHARGE.

OUR ACME WONDER COOK STOVE, WITHOUT RESERVOIR.

FOR BURNING WOOD ONLY.
